ITEMS OF SPECIAL INTEREST

C–17 maintenance, sustainment, and modernization

The conferees are concerned that the current Air Force plan to perform the long term, non-core maintenance, sustainment, and modernization of the C–17 largely through contractor logistics support may not be providing the warfighter with the most cost-effective solution. The recent Department of Defense Inspector General report entitled "Procurement Procedures Used for C–17 Globemaster III Sustainment Partnership Total System Support" concluded that the Air Force did not use appropriate methodology for making the acquisition decision to procure contractor total system support for the C–17 aircraft, and that the Air Force failed to justify this decision with a business case analysis. The conferees believe that a business case analysis that examines the costs and benefits of multiple maintenance, sustainment, and modernization options (e.g. public/private partnerships) for the C–17 aircraft could lead to a new maintenance, sustainment, and modernization strategy for the C–17, which would provide substantial savings in total life cycle cost.

The conferees direct the Comptroller General to perform a review of the Air Force's current plans for a C–17 sustainment business case analysis to include: (1) the scope of the business case analysis, and (2) the appropriateness of the options under consideration. The Comptroller General shall submit a report to the congressional defense committees on the results of the review no later than June 1, 2007.

Disposal of land at Norwalk Defense Fuel Supply Point, Norwalk, California

The conferees note that the Secretary of the Air Force, in consultation with the General Services Administration, has entered into an agreement with the city of Norwalk, California to withhold any activity to convey by public sale the property at the Norwalk Defense Fuel Supply Point in Norwalk, California until no earlier than November 21, 2006, in order to allow the city to prepare an offer for the fair market transfer of the property to the city.

The conferees expect that the Secretary of the Air Force will provide to the city the relevant and material information held by the Air Force related to the known environmental conditions and planned environmental remediation of the site to assist in the preparation of the city's proposal.

Public sale of damaged equipment

The conferees are concerned that the public may not be fully aware of the availability for purchase of damaged and unsalvageable equipment used in Operation Iraqi Freedom and Operation Enduring Freedom. The conferees encourage the military services and the Defense Logistics Agency (DLA) to establish a public awareness campaign that will allow the services and DLA to more aggressively pursue the sale of such equipment that is appropriate for disposal to the public through the disposal process managed by the Defense Reutilization and Marketing Service.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Authorization of Appropriations

Authorization of appropriations (secs. 301–303)

The House bill contained provisions (secs. 301-303) that would authorize fiscal year 2007 funding levels for all operation and maintenance accounts, working capital funds, and other Department of Defense programs, including the Defense Inspector General, the Chemical Demilitarization Program, and the Defense Health Program.

The Senate amendment contained similar provisions (secs. 301–303).

The conference agreement includes these provisions.

Subtitle B—Environmental Provisions

Revision of requirement for unexploded ordnance program manager (sec. 311)

The House bill contained a provision (sec. 311) that would require the Secretary of Defense to designate the unexploded ordnance program manager position required under section 2701(k) of title 10, United States Code, and add research to the list of policy and budget issues that are within the responsibility of the program manger. The provision would also require that the position of program manager be filled by an employee in a position that is equivalent to pay grade 0-6 or above, or a member of the armed forces who is serving in the grade of 0-6 or above. The program manager would be required to report to the Deputy Under Secretary of Defense for Installations and Environment.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Funding of cooperative agreements under environmental restoration program (sec. 312)

The House bill contained a provision (sec. 314) that would amend section 2701(d)(2) of title 10, United States Code, to allow cooperative agreements entered into for environmental restoration at defense facilities to extend beyond the present 2-year limitation when the agreements are funded out of either the Department of Defense Base Closure Account 1990 or the Department of Defense Base Closure Account 2005.

The Senate amendment contained a similar provision (sec. 334).

The Senate recedes.

Response plan for remediation of unexploded ordnance, discarded military munitions, and munitions constituents (sec. 313)

The Senate amendment contained a provision (sec. 331) that would require the Secretary of Defense to set remediation goals for the cleanup of unexploded ordnance, discarded military munitions, and munitions constituents. Those goals would be to complete, by not later than September 30, 2007, preliminary assessments at all active installations and formerly used defense sites (other than operational ranges); to complete, by not later than September 30, 2010, site inspections at all active installations and formerly used defense sites (other than operational ranges); to achieve, by not later than September 30, 2009, a remedy in place or response complete at all military installations closed or realigned as part of a round of Defense Base Closure and Realignment prior to the 2005 round; and to achieve, by a date certain established by the Secretary of Defense, a remedy in place or response complete at all active installations and formerly used defense sites (other than operational ranges) and all military installations realigned or closed under the 2005 Defense Base Closure and Realignment round.

The provision would also require the Secretary to submit to the congressional defense committees a comprehensive plan for addressing the remediation of unexploded ordnance by March 1, 2007. The Secretary would be required to update this plan not later than March 15 of 2008, 2009, and 2010. The provision would allow the goals established for unexploded ordnance cleanup to be adjusted to respond to unforeseen circumstances as part of the annual update of the plan.

The provision would also require the Secretary to submit a report to the congressional defense committees, not later than March 1, 2007, on the status of efforts of the Department of Defense to achieve agreement with relevant regulatory agencies on appropriate reuse standards or principles related to the remediation of unexploded ordnance, discarded military munitions, and munitions constituents.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Research on effects of ocean disposal of munitions (sec. 314)

The House bill contained a provision (sec. 312) that would require the Secretary of Defense to identify, research, monitor, and provide navigational and safety information on conventional and chemical military munitions disposal sites in the coastal waters of the United States.

The Senate amendment contained a similar provision (sec. 333). The provision would require the Secretary of Defense to review historical records to determine the number, size, and probable locations of disposal sites, and the types of military munitions disposed of at the sites. The Secretary would be required to release periodically to the public and submit annually to Congress the information obtained in this review, including a final report in the annual report to Congress on environmental restoration activities of the Department of Defense for fiscal year 2009. The Secretary would also be required to conduct research on the effects on the ocean environment and those who use it of military munitions disposed of in coastal waters. The provision would further require that if the historical review or the research conducted indicates that contamination is being released at a particular site, or that the site poses a significant public health or safety risk, the Secretary would be required to institute appropriate monitoring mechanisms and report to Congress on any additional measures that may be necessary.

The House recedes with a clarifying amendment.

Reimbursement of Environmental Protection Agency for certain costs in connection with Moses Lake Wellfield Superfund Site, Moses Lake, Washington (sec. 315)

The House bill contained a provision (sec. 313) that would authorize the Secretary of Defense to transfer not more than $111,114.03 to the Moses Lake Wellfield Superfund Site, 10–6J special account, to reimburse the Environmental Protection Agency for costs incurred in overseeing a remedial investigation and feasibility study performed by the Department of the Army.

The Senate amendment contained a similar provision (sec. 335).

The House recedes with a technical amendment.

Transfer of Government-furnished uranium stored at Sequoyah Fuels Corporation, Gore, Oklahoma (sec. 316)

The Senate amendment contained a provision (sec. 3301) that would require the Secretary of the Army to transport to an authorized disposal facility for appropriate disposal all of the Government-furnished uranium in the chemical and physical form in which it is stored at the Sequoyah Fuels Corporation site in Gore, Oklahoma, by not later than March 31, 2007.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Extension of authority to grant exemptions to certain requirements (sec. 317)

The Senate amendment contained a provision (sec. 332) that would authorize the Administrator of the Environmental Protection Agency to grant an exemption for up to 3 years to the Secretary of Defense and the Secretaries of the military departments to transport polychlorinated biphenyls generated by, or under the control of, the Department of Defense into the United States for purposes of their disposal, treatment, or storage.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the Administrator of the Environmental Protection Agency to extend an exemption that has not yet expired for a period not to exceed 60 days for the purpose of authorizing the Secretary of Defense and the Secretaries of the military departments to provide for the transportation into the United States of polychlorinated biphenyls generated by, or under the control of, the Department for the purposes of their disposal, treatment, or storage, if those polychlorinated biphenyls are already in transit.

National Academy of Sciences study on human exposure to contaminated drinking water at Camp Lejeune, North Carolina (sec. 318)

The Senate amendment contained a provision (sec. 352) that would require the Secretary of the Navy to enter into an agreement with the National Academy of Sciences to conduct a comprehensive review and evaluation of the available scientific and medical evidence regarding associations between prenatal, child, and adult exposure to drinking water contaminated with trichloroethylene and tetrachloroethylene at Camp Lejeune, North Carolina, as well as exposures to levels of trichloroethylene and tetrachloroethylene similar to those experienced at Camp Lejeune, and birth defects or diseases and any other adverse health effects. The provision would also require that, upon completion of the current epidemiological study by the Agency for Toxic Substances Disease Registry, the Commandant of the Marine Corps take appropriate actions, including use of national media, to notify former Camp Lejeune residents and employees who may have been exposed to contaminated drinking water at Camp Lejeune of the results of the study.

The House bill contained no similar provision.

The House recedes.

Subtitle C—Program Requirements, Restrictions, and Limitations

Limitation on financial management improvement and audit initiatives within the Department of Defense (sec. 321)

The Senate amendment contained a provision (sec. 313) that would prohibit the Secretary of Defense from obligating any funds for activities related to the Department of Defense financial management improvement effort until the Secretary submits to the congressional defense committees a written determination that each activity proposed to be funded is consistent with the financial management improvement plan of the Department and likely to improve internal controls or otherwise result in sustained improvements in the ability of the Department to produce timely, reliable, and complete financial management information.

The House bill contained no similar provision.

The House recedes.

Funds for exhibits for the national museums of the Armed Forces (sec. 322)

The Senate amendment contained a provision (sec. 312) that would make $3.0 million of the amounts appropriated to each of the armed force operation and maintenance accounts available to each Secretary of a military department for education and training purposes to acquire, install, and maintain exhibits at each facility designated by the Secretary concerned as the national museum for each armed force.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Prioritization of funds for equipment readiness and strategic capability (sec. 323)

The House bill contained a provision (sec. 346) that would require the Secretary of the Army to fully fund the reset of equipment used in the global war on terrorism, the fulfillment of equipment requirements for units transforming to modularity, and the reconstitution of prepositioned stocks. The provision would also require the Secretary to submit to the congressional defense committees an annual report containing information on these funding priorities. The provision would limit to $2.85 billion the funds to be appropriated annually for the Future Combat Systems (FCS) until these funding priorities have been met.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to ensure that financial resources are provided to enable the Secretary of each military department to meet its requirements for repair, recapitalization, and replacement of equipment used in the global war on terrorism. The amendment would also require the Secretary of Defense to ensure financial resources are provided to the Secretary of the Army to meet the Army's requirements for transforming to a modular force and reconstituting the equipment and materiel in Army prepositioned stocks. The amendment would further require the Secretary of Defense to submit, as part of the normal budget justification materials, detailed information regarding the repair, recapitalization, or replacement of equipment used in the global war on terror, the Army's transformation to a modular force, and the reconstitution of equipment and materiel in Army prepositioned stocks. The amendment would require an annual report to the congressional defense committees from the Secretary of the Army on the Army's progress in meeting the above requirements, and a report from the Comptroller General to the congressional defense committees containing an assessment of the Army's progress in meeting the above requirements.

Limitation on deployment of Marine Corps Total Force System to Navy (sec. 324)

The conferees agree to include a provision that would prohibit the expenditure of any funds for the development or modernization of Navy and Marine Corps manpower, personnel, and pay information technology systems for the application of the Marine Corps Total Force Systems (MCTFS) or any derivative system to the Navy until several conditions have been met. The provision would require the Secretary of the Navy to prepare an analysis of alternatives, comparing MCTFS to the Defense Integrated Military Human Resources System; a business case analysis; and an analysis of compatibility of MCTFS with the enterprise architecture of the Department of Defense. The provision would require the Government Accountability Office to conduct a review of the Navy reports within 90 days of receipt of the reports and provide a written assessment to the congressional defense committees and to the Chairman of the Defense Business Systems Management Committee (DBSMC). The provision would require that, no sooner than 120 days after receiving the Navy's reports, the Chairman of the DBSMC determine in writing to the congressional defense committees whether it is in the best interests of the Department to apply MCTFS to the Navy.

Subtitle D—Workplace and Depot Issues

Permanent exclusion of certain contract expenditures from percentage limitation on the performance of depot-level maintenance (sec. 331)

The House bill contained a provision (sec. 321) that would extend for 5 years the authority to exclude amounts expended for the performance of depot-level maintenance workload by nonfederal government personnel at a Center of Industrial and Technical Excellence from the percentage limitation in section 2466(a) of title 10, United States Code, if the personnel performing the work are provided pursuant to a public-private partnership.

The Senate amendment contained a similar provision (sec. 362) that would extend the exclusion indefinitely.

The House recedes with an amendment that would move the reporting requirement contained in section 2474(f) of title 10, United States Code, to section 2466(e) of title 10, United States Code. The amendment would also add an element to that report and remove the requirement for a Comptroller General review of that report.

Minimum capital investment for certain depots (sec. 332)

The House bill contained a provision (sec. 322) that would require the Secretary of the Air Force to invest a minimum of 6 percent of the total revenue of the Air Force depots in the capital investment budget to improve or sustain depot maintenance facilities, equipment, or processes.

The Senate amendment contained a similar provision (sec. 361). The provision would require a public depot that utilizes a working capital fund to invest, at a minimum, 6 percent of the actual total revenues from the previous year for capital investment within that depot.

The Senate recedes with an amendment that would require all military departments to invest, at a minimum, 6 percent of average total revenues over the previous 3 years in their public depots for infrastructure, equipment, and process improvements. The Departments of the Army and Navy would only be required to invest at a minimum 4 percent in fiscal year 2007 and 5 percent in fiscal year 2008, before rising to 6 percent per fiscal year thereafter. The amendment would provide for a waiver authority for the Secretary of Defense if the Secretary determines that the waiver is necessary for reasons of national security and notifies the congressional defense committees.

For the purposes of this provision, investment shall include those funds spent on the construction, addition, recapitalization, improvement, restoration, or modernization of depot infrastructure, equipment, and process improvements in direct support of depot operations. Other facility investments (i.e. installation and military community support facilities, utility infrastructure, and investment in facilities supporting other missions and functions of the installation) made at the same location as the depot facilities, but not in direct support of depot maintenance operations, shall not count toward the minimum investment requirement.

The amendment would also require the military departments to report to the congressional defense committees on the level and type of investment, and a long-term depot maintenance facilities strategy.

Extension of temporary authority for contractor performance of security guard functions (sec. 333)

The House bill contained a provision (sec. 323) that would extend the temporary authority to contract for increased performance of security guard functions. The authority would expire at the end of fiscal year 2008. This section would require a report on implementation of the recommendations of a Government Accountability Office report on contractor security guards.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the expiration date of the authority to contract for security guard functions until the end of fiscal year 2009. The amendment would also require that the total number of personnel employed under such contracts in fiscal year 2007 be no more than the total employed on October 1, 2006. The total number of personnel employed would be further limited in fiscal year 2008 to 90 percent of the number employed on October 1, 2006, and 80 percent of that number in fiscal year 2009.

Subtitle E—Reports

Report on Navy Fleet Response Plan (sec. 341)

The House bill contained a provision (sec. 332) that would require the Secretary of the Navy to submit a report on the Navy Fleet Response Plan. The provision would also require the Comptroller General to submit a review of the Secretary's report. The provision would postpone the expansion of the Fleet Response Plan beyond the carrier strike groups until October 1, 2007.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change some of the required elements of the two reports, change the date the Comptroller General's report is due, and change the limitation date on expansion of the Fleet Response Plan beyond carrier strike groups.

Report on Navy surface ship rotational crew programs (sec. 342)

The House bill contained a provision (sec. 333) that would require the Secretary of the Navy to submit a report on ship rotational crew experiments. The provision would also require the Comptroller General to submit an assessment of the Secretary of Navy's report and require the Director of the Congressional Budget Office to submit a report on the long-term benefits and costs of surface ship crew rotational programs. The provision would postpone the implementation of any new surface ship rotational crew experiment or program until October 1, 2009.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow the ongoing crew rotation program for mine countermeasure ships and allow the Navy to employ two crews per ship for the first four Littoral Combat Ships.

Report on Army live-fire ranges in Hawaii (sec. 343)

The House bill contained a provision (sec. 334) that would require the Secretary of the Army to submit a report to Congress on the adequacy of live-fire training facilities in the state of Hawaii.

The Senate amendment contained no similar provision.

The Senate recedes.

Comptroller General report on joint standards and protocols for access control systems at Department of Defense installations (sec. 344)

The House bill contained a provision (sec. 335) that would require the Comptroller General to submit a report on joint standards and protocols for access control systems at Department of Defense installations.

The Senate amendment contained no similar provision.

The Senate recedes.

Comptroller General report on readiness of Army and Marine Corps ground forces (sec. 345)

The Senate amendment contained a provision (sec. 351) that would require the Comptroller General to submit a report, not later than March 1, 2007, to the congressional defense committees on the readiness of Army and Marine Corps ground forces.

The House bill contained no similar provision.

The House recedes with an amendment that would change the deadline of the report to June 1, 2007, and require the report to be submitted to the Committees on Armed Services of the Senate and the House of Representatives.

Report on Air Force safety requirements for Air Force flight training operations at Pueblo Memorial Airport, Colorado (sec. 346)

The Senate amendment contained a provision (sec. 360) that would require the Secretary of the Air Force to submit to the congressional defense committees a report, not later than February 15, 2007, on Air Force flight safety requirements at Pueblo Memorial Airport, Colorado.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to include in the report a description of the funding of fire-fighting and crash rescue support through the execution of a services contract for the Initial Flight Screening program.

Annual report on Personnel Security Investigations for Industry and National Industrial Security Program (sec. 347)

The House bill contained provisions (secs. 336 and 1041) that would address personnel security investigations. Section 336 would require the Secretary of Defense to provide a report to Congress on the status of industry personnel security clearances granted between October 1, 1999, and September 30, 2006. The provision would require that the initial report be followed by semi-annual updates, including a certification by the Secretary concerning improvements to the personnel security clearance investigation process. Section 1041 would prohibit the Department of Defense from allowing a security clearance that is pending renewal to expire unless the Secretary certifies to Congress that the Defense Security Service is fully funded, continuing to accept requests from industry, and has taken steps to eliminate its backlog of requests.

The Senate amendment contained no similar provisions.

The Senate recedes with an amendment that would require the Secretary to provide an annual report on the status of industry security clearances with the submission of the President's annual budget request. The amendment would also require a report by the Comptroller General on the status and cost of industry security clearance investigations conducted between October 1, 1999, and September 30, 2006, as well as the Department's progress in achieving improvements to the personnel security investigations program.

Five-year extension of annual report on training range sustainment plan and training range inventory (sec. 348)

The Senate amendment contained a provision (sec. 353) that would express the sense of Congress that the Department of Defense should establish a policy to identify military aerial training areas, determine aerial training airspace requirements to meet future training needs, and undertake necessary actions to preserve and, if necessary, expand those areas of airspace needed for training requirements. The provision would also require the Secretary of Defense to submit a report to the congressional defense committees setting forth a plan to meet the Department's airspace needs through 2025.

The House bill contained no similar provision.

The House recedes with an amendment that would extend for 5 years the annual report on the Department's training range sustainment plan and training range inventory required by section 366 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107–314). The amendment would also extend the period for the Comptroller General's review of the report from 60 days to 90 days.

The conferees note that the Comptroller General's most recent assessment of the Secretary's annual report stated that, once again, the report did not include an assessment of current and future training range requirements or an evaluation of the adequacy of resources to meet current and future training requirements, even though specifically required to do so by current law.

The conferees also note, with great concern, that this assessment also indicates that some of the requirements of section 366 have not been met because Department officials consider them overly burdensome or impractical. If the Department believes that it cannot comply with some requirements of the law, or that the requirement is overly burdensome, the conferees expect the Department to ask Congress to modify the appropriate portion of the law, not to ignore the requirements of the law.

The conferees are aware of the increasing pressure on our training ranges. Urban development around many installations in some cases has resulted in restrictions on nighttime training. The growth of commercial and general aviation has put increasing pressure on current aviation training ranges and limits the possibility of expansion of those training areas in the future. Increasing capability and range of both ground and aviation systems increases the likelihood that range requirements may increase in the future.

Therefore, the conferees extend the annual reporting requirement for an additional 5 years and expect that all future reports will fully comply with the requirements specified in section 366.

Reports on withdrawal or diversion of equipment from reserve units for support of reserve units being mobilized and other units (sec. 349)

The Senate amendment contained a provision (sec. 355) that would require the Secretaries of the military departments to submit a report to the Secretary of Defense not later than 90 days after the withdrawal or diversion of equipment from a unit of the reserve component to a unit of the active or reserve component to meet mission requirements. The report would contain a plan to replace or recapitalize withdrawn or diverted equipment and a signed Memorandum of Understanding between the reserve component unit from which equipment was withdrawn or diverted and the active or reserve component unit that received the withdrawn or diverted equipment that specifies how the equipment will be tracked and the expected replacement date of the withdrawn or diverted equipment.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to submit quarterly reports to the congressional defense committees on the withdrawal or diversion of equipment from a unit of the reserve component to a unit of the active or reserve component.

Subtitle F—Other Matters

Department of Defense strategic policy on prepositioning of materiel and equipment (sec. 351)

The House bill contained a provision (sec. 341) that would require the Secretary of Defense to establish a comprehensive approach to Department of Defense prepositioning programs. The provision would also limit the diversion of materiel and equipment from prepositioned stocks.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would add the requirements of combatant commands as a factor to be considered when creating the policy on prepositioning programs, and would also add the provision of humanitarian assistance as an authorized purpose for diversion of materiel and equipment from prepositioned stocks.

It is the conferees' intent that any prepositioning policy created in accordance with this provision shall contain guidance regarding how quickly prepositioned equipment sets must be reconstituted when they have been used for contingency or humanitarian operations.

Authority to make Department of Defense horses available for adoption (sec. 352)

The House bill contained a provision (sec. 342) that would amend section 2583 of title 10, United States Code, to include horses owned by the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

Sale and use of proceeds of recyclable munitions materials (sec. 353)

The House bill contained a provision (sec. 343) that would authorize the Secretary of the Army to establish a program to sell recyclable materials resulting from the demilitarization of conventional military munitions. The proceeds from the sales would be available to the Army for reclamation, recycling, and reuse of conventional military munitions.

The Senate amendment contained a similar provision (sec. 371).

The Senate recedes with a technical amendment.

Recovery and transfer to Corporation for the Promotion of Rifle Practice and Firearms Safety of certain firearms, ammunition, and parts granted to foreign countries (sec. 354)

The Senate amendment contained a provision (sec. 379) that would allow the Secretary of the Army to recover rifles, ammunition, repair parts, and other supplies from a country who had received those items under the Foreign Assistance Act of 1961 (22 U.S.C. 2314), when those items are excess to the needs of that country. The recovered rifles, ammunition, repair parts, and other supplies would be available for transfer to the Corporation for the Promotion of Rifle Practice and Firearms Safety.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Extension of Department of Defense telecommunications benefit program (sec. 355)

The Senate amendment contained a provision (sec. 373) that would extend the authorization for the Department of Defense telecommunications benefit from September 30, 2006, to 60 days after the date on which the Secretary of Defense has declared that a contingency operation has ended. The provision would also authorize the Secretary to extend the telecommunications benefit to members who remain hospitalized as a result of wounds or injuries incurred while serving in support of a contingency operation.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Extension of availability of funds for commemoration of success of the Armed Forces in Operation Enduring Freedom and Operation Iraqi Freedom (sec. 356)

The Senate amendment contained a provision (sec. 374) that would amend section 378(b)(2) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) to extend the authority for commemoration of success of the armed forces in Operation Enduring Freedom and Operation Iraqi Freedom through fiscal year 2007.

The House bill contained no similar provision.

The House recedes.

Capital security cost sharing (sec. 357)

The House bill contained a provision (sec. 344) that would require the Secretary of Defense to provide to the congressional defense committees an annual accounting of Department of Defense overseas staffing levels, and to reconcile that accounting with the cost-sharing fees levied by the Secretary of State, in accordance with section 629(e)(1) of the Consolidated Appropriations Act, 2005 (Public Law 108-447).

The Senate amendment contained no similar provision.

The Senate recedes.

Utilization of fuel cells as back-up power systems in Department of Defense operations (sec. 358)

The Senate amendment contained a provision (sec. 377) that would require the Secretary of Defense to consider the use of fuel cells as replacements for current back-up power systems.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to also consider the use of fuel cells in individual equipment items.

Improving Department of Defense support for civil authorities (sec. 359)

The Senate amendment contained a provision (sec. 378) that would authorize the Secretary of Defense to preposition prepackaged or preidentified basic response assets such as medical supplies, food, water, and communications equipment in order to improve the ability of the Department of Defense to rapidly respond to requests for support from civilian authorities, and would require that the Department be reimbursed for the cost of such activities.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the Secretary of Defense to consult with the Secretary of Homeland Security in the development of concept plans to support civilian authorities.

Energy efficiency in weapons platforms (sec. 360)

The Senate amendment contained a provision (sec. 375) that would establish a policy for the Department of Defense to improve the fuel efficiency of weapons platforms, consistent with mission requirements. The provision would also require a report from the Secretary of Defense regarding the progress in implementing that policy.

The House bill contained no similar provision.

The House recedes.

Prioritization of funds within Navy mission operations, ship maintenance, combat support forces, and weapons system support (sec. 361)

The House bill contained a provision (sec. 345) that would require the Secretary of the Navy to ensure that 100 percent of the requirements for steaming days per quarter for deployed and non-deployed ship operations and 100 percent of the projected ship and air depot maintenance workload are funded before Navy operation and maintenance funds may be expended for the Navy Expeditionary Combat Command. The provision would also require the Secretary of the Navy to submit a report with the annual budget request certifying that these requirements are fully funded.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress that the Secretary of Defense should ensure sufficient funds are provided to support the critical training and depot maintenance necessary for the Navy to support the National Military Strategy. The amendment would also require a certification from the Secretary of Defense that the Navy has budgeted to fully meet their requirements for ship steaming days per quarter and for projected aviation and ship depot maintenance requirements. The amendment would limit the obligation of funds to no more than 80 percent of the total funds in Operation and Maintenance, Defense-wide, for the Office of the Secretary of Defense, until that certification has been submitted. The amendment would further require the Secretary of the Navy to submit two reports to the congressional defense committees. The first is an annual report regarding the progress towards the above requirements and the second is a report on the Riverine Squadrons of the Navy.

Provision of adequate storage space to secure personal property outside of assigned military family housing unit (sec. 362)

The conferees agree to include a provision that would require the Secretary of a military department to provide, under certain conditions, a means for the storage of certain personal possessions belonging to military members residing in family housing who are assigned to a family-restricted area for a period greater than 180 days.

Expansion of payment of replacement value of personal property damaged during transport at Government expense (sec. 363)

The House bill contained a provision (sec. 1132) that would amend section 2636a of title 10, United States Code, to authorize contracting for full replacement value coverage for household goods of civilian employees of the Department of Defense damaged or lost during transportation at government expense.

The Senate amendment contained a provision (sec. 631) that would amend section 2636a of title 10, United States Code, to require the Secretary of Defense, not later than March 1, 2008, to include in contracts for the transportation of baggage and household effects for both military members and civilian employees a clause requiring carriers to pay the full replacement value for loss or damage. The provision would also require certain certifications by the Secretary about the Families First program and a review and assessment by the General Accountability Office on December 1, 2006, and June 1, 2007, respectively, of the progress of the Department in implementing the Families First program.

The House recedes.

Legislative Provisions Not Adopted

Limitation on availability of funds for the Army Logistics Modernization Program

The Senate amendment contained a provision (sec. 311) that would prohibit the expenditure of any funds for continuing the Army Logistics Modernization Program until the Secretary of Defense certifies that the program has adequately addressed its many shortcomings.

The House bill contained no similar provision.

The Senate recedes.

Limitation on availability of operation and maintenance funds for the management headquarters of the Defense Information Systems Agency

The Senate amendment contained a provision (sec. 314) that would restrict funds authorized to be appropriated for the operation and maintenance of the management headquarters of the Defense Information Systems Agency until the Secretary of Defense submits a report to the congressional defense committees on the acquisition strategy of the Department of Defense for commercial satellite services.

The House bill contained no similar provision.

The Senate recedes.

Analysis and report regarding contamination and remediation responsibility for Norwalk Defense Fuel Supply Point, Norwalk, California

The House bill contained a provision (sec. 315) that would require the Secretary of the Air Force to report to Congress not later than January 30, 2007, on matters related to contamination and remediation of property at the Norwalk Defense Fuel Supply Point in Norwalk, California. This provision would also prohibit the Secretary of the Air Force from conveying the property before pursuing a fair market value transfer of the property to the City of Norwalk, submitting the required report, and providing an explanation of why efforts to transfer the property to the city have not been successful.

The Senate amendment contained no similar provision.

The House recedes.

Report regarding scope of perchlorate contamination at Formerly Used Defense Sites

The House bill contained a provision (sec. 316) that would require the Secretary of Defense to submit to Congress a report containing the results of a study of the scope of perchlorate contamination at Formerly Used Defense Sites, including identification of military installations or contractors that may have stored perchlorate or products containing perchlorate.

The Senate amendment contained no similar provision.

The House recedes.

Infantry combat equipment

The Senate amendment contained a provision (sec. 316) that would authorize $2.5 million in Operation and Maintenance, Marine Corps Reserve for infantry combat equipment.

The House bill contained no similar provision.

The Senate recedes.

The conference outcome is reflected in the tables of this report in Operation and Maintenance, Marine Corps Reserve.

Individual First Aid Kit

The Senate amendment contained a provision (sec. 317) that would authorize $1.5 million in Operation and Maintenance, Marine Corps Reserve for the Individual First Aid Kit.

The House bill contained no similar provision.

The Senate recedes.

The conference outcome is reflected in the tables of this report in Operation and Maintenance, Marine Corps Reserve.

Reading for the Blind and Dyslexic program of the Department of Defense

The Senate amendment contained a provision (sec. 318) that would authorize $500,000 in Operation and Maintenance, Defense-wide, for the Reading for the Blind and Dyslexic program of the Department of Defense for severely wounded or injured members of the Armed Forces.

The House bill contained no similar provision.

The Senate recedes.

The conference outcome is reflected in the tables of this report.

Military training infrastructure improvements at Virginia Military Institute

The Senate amendment contained a provision (sec. 319) that would make $2.9 million from Operation and Maintenance, Army (OMA), available to the Virginia Military Institute for military training infrastructure improvements.

The House bill contained no similar provision.

The Senate recedes.

However, the conferees agree to authorize an increase of $2.9 million in OMA for the Virginia Military Institute for military training infrastructure improvements to provide adequate field training of all Armed Forces Reserve Officer Training Corps. The conference agreement is reflected in the tables of this report.

Environmental documentation for beddown of F-22A aircraft at Holloman Air Force Base, New Mexico

The Senate amendment contained a provision (sec. 320) that would require the Secretary of the Air Force to prepare environmental documentation for the beddown of F-22A aircraft at Holloman Air Force Base, New Mexico.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the Air Force is conducting the environmental compliance documentation under the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) to support the beddown of the F-22A aircraft at Holloman Air Force Base, New Mexico, and urge the Air Force to expeditiously complete such requirements.

Report on CH-47 helicopter reset

The House bill contained a provision (sec. 324) that would require a report from the Secretary of the Army regarding reset of all CH-47 helicopters in the Army inventory.

The Senate amendment contained no similar provision.

The House recedes.

Report on nuclear attack submarine depot maintenance

The House bill contained a provision (sec. 331) that would require the Secretary of the Navy to submit a report on criteria used when a nuclear attack submarine is sent for maintenance to a facility other than a facility located at the homeport of the submarine.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Secretary of the Navy to provide to the Committees on Armed Services of the Senate and the House of Representatives the formal directive or guidance for nuclear attack submarine maintenance once it is completed.

Report on actions to reduce Department of Defense consumption of petroleum-based fuel

The Senate amendment contained a provision (sec. 354) that would require the Secretary of Defense to report on the actions taken, and to be taken, by the Department of Defense to reduce the consumption of petroleum-based fuels.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the implementation of current legislation and regulatory guidance should facilitate reduction of petroleum-based fuels by the Department. Therefore, the conferees direct the Secretary to submit a report, not later than September 1, 2007, to the Committees on Armed Services of the Senate and the House of Representatives on the status of implementation by the Department of the requirements contained in the following:

(1) Energy Policy Act of 2005 (Public Law 109-58);

(2) Energy Policy Act of 1992 (Public Law 102-486);

(3) Executive Order 13123;

(4) Executive Order 13149; and

(5) other regulations or directions relating to the Department's consumption of petroleum-based fuels.

Furthermore, the conferees are concerned that although Flexible Fuel Vehicles (FFVs) are being introduced into the Department's vehicle inventory, little reduction in petroleum-based fuel is being realized because operators continue to fuel the FFVs with gasoline rather than E85 (85 percent ethanol with 15 percent gasoline) or M85 (85 percent methanol and 15 percent gasoline). Therefore, the conferees direct the Secretary to include in the report an analysis of the reduction of petroleum-based fuels since introduction of FFVs into the inventory and an assessment of how the Department might increase the consumption of E85 or M85 in FFVs.

Plan to replace equipment withdrawn or diverted from the reserve components of the Armed Forces for Operation Iraqi Freedom or Operation Enduring Freedom

The Senate amendment contained identical provisions (secs. 356-357) that would require the Secretary of Defense to submit to the congressional defense committees a plan to replace equipment withdrawn or diverted from units of the reserve components of the Armed Forces for use in Operation Iraqi Freedom or Operation Enduring Freedom.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the reporting requirements of these provisions are incorporated elsewhere in this report.

Report on High Altitude Aviation Training Site, Eagle County, Colorado

The Senate amendment contained a provision (sec. 359) that would require a report from the Secretary of the Army on the High Altitude Aviation Training Site (HAATS) in Eagle County, Colorado.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that a similar reporting requirement already exists in the House Report accompanying H.R. 5122 (H. Rept. 109-452) of the G.V. 'Sonny' Montgomery National Defense Authorization Act for Fiscal Year 2007.

Report on use of alternative fuels by the Department of Defense

The Senate amendment contained a provision (sec. 360A) that would require the Secretary of Defense to conduct a study on the use of alternative fuels by the Armed Forces and the defense agencies.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that section 357 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) requires a study on the use of biodiesel and ethanol fuels containing at least 85 percent ethyl alcohol. The conferees direct the Secretary of Defense to conduct a supplementary study that would address each of the elements set forth in paragraphs (1) through (7) of section 357(b) for the following alternative fuels: biofuels other than biodiesel, renewable diesel, ethanol that contains less than 85 percent ethyl alcohol, cellulosic ethanol, and synthetic hydrocarbon-based fuels. The Secretary shall submit a report on the results of such a study not later than 180 days after the date of the enactment of this Act. The report may be incorporated into, or provided as an annex to, the study required by section 357(c).

Additional exception to prohibition on contractor performance of firefighting functions

The Senate amendment contained a provision (sec. 363) that would provide an exception to the prohibition on contracting for the performance of certain firefighting functions on military installations or facilities.

The House bill contained no similar provision.

The Senate recedes.

Temporary security guard services for certain work caused by realignment of military installations under the base closure laws

The Senate amendment contained a provision (sec. 364) that would allow a military department to contract for security-guard services at installations being realigned under the base closure laws.

The House bill contained no similar provision.

The Senate recedes.

Joint Advertising, Market Research, and Studies Program

The Senate amendment contained a provision (sec. 1416) that would authorize $10.0 million in Operation and Maintenance, Defense-wide for the Joint Advertising, Market Research, and Studies program.

The House bill contained no similar provision.

The Senate recedes.

The conference outcome is reflected in the tables of this report in Operation and Maintenance, Defense-wide.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Active Forces

End strengths for active forces (sec. 401)

The House bill contained a provision (sec. 401) that would authorize the following end strengths for active-duty personnel of the armed forces as of September 30, 2007: Army, 512,400; Navy, 340,700; Marine Corps, 180,000; and Air Force, 334,200.

The Senate amendment contained a similar provision (sec. 401).

The Senate recedes.

The conferees recommend end strength levels for active forces for fiscal year 2007 as set forth in the following table:

Service	FY 2006 authorized	FY 2007		Change from	
		Request	Conferee recommendation	FY 2007 request	FY 2006 authorized
Army	512,400	482,400	512,400	30,000	0
Navy	352,700	340,700	340,700	0	-12,000
Marine Corps	179,000	175,000	180,000	5,000	1,000
Air Force	357,400	334,200	334,200	0	-23,200
DoD Total	1,401,500	1,332,300	1,367,300	35,000	-34,200

Revision in permanent active duty end strength minimum levels (sec. 402)

The House bill contained a provision (sec. 402) that would establish new minimum active duty end strengths for the Army, Navy, Marine Corps, and Air Force as of September 30, 2007.

The Senate amendment contained a provision (sec. 402) that would repeal section 691 of title 10, United States Code, which establishes permanent end strength levels necessary to support a national defense strategy to be able to conduct two nearly simultaneous major regional contingencies.

The Senate recedes with an amendment that would maintain the minimum active duty end strength level for the Army at the fiscal year 2006 level of 502,400.

The conferees recommend minimum end strength levels for active forces as set forth in the following table:

Service	FY 2006 authorized	2007	Change from
		Conference recommendation	FY 2006
Army	502,400	502,400	0
Navy	352,700	340,700	-12,000
Marine Corps	179,000	180,000	1,000
Air Force	357,400	334,200	-23,200
DoD Total	1,391,500	1,357,300	-34,200

Additional authority for increases of Army and Marine Corps active duty end strengths for fiscal years 2008 and 2009 (sec. 403)

The House bill contained a provision (sec. 403) that would authorize additional increases of active duty end strength for the Army and for the Marine Corps in fiscal years 2008 and 2009 above the strengths authorized for those services in fiscal year 2007. The provision would authorize an additional 20,000 troops for a total end strength of 532,400 for the Army, and an additional 4,000 troops for a total end strength of 184,000 for the Marine Corps, during fiscal years 2008 and 2009.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle B—Reserve Forces

End strengths for Selected Reserve (sec. 411)

The House bill contained a provision (sec. 411) that would authorize the following end strengths for Selected Reserve personnel, including the end strengths for reserves on active duty in support of the reserves as of September 30, 2007: the Army National Guard of the United States, 350,000; the Army Reserve, 200,000; the Navy Reserve, 71,300; the Marine Corps Reserve, 39,600; the Air National Guard of the United States, 107,000; the Air Force Reserve, 74,900; and the Coast Guard Reserve, 10,000.

The Senate amendment contained an identical provision (sec. 411).

The conference agreement includes this provision.

The conferees recommend end strength levels for the Selected Reserve for fiscal year 2007 as set forth in the following table:

Service	FY 2006 authorized	FY 2007		Change from	
		Request	Conferee recommendation	FY 2007 request	FY 2006 authorized
Army National Guard	350,000	350,000	350,000	0	0
Army Reserve	205,000	200,000	200,000	0	−5,000
Navy Reserve	73,100	71,300	71,300	0	−1,800
Marine Corps Reserve	39,600	39,600	39,600	0	0
Air National Guard	106,800	107,000	107,000	0	+200
Air Force Reserve	74,000	74,900	74,900	0	+900
DoD Total	848,500	842,800	842,800	0	−5,700
Coast Guard Reserve	10,000	10,000	10,000	0	0

Should Army National Guard end strength fall below the authorized number, the conferees direct that the unused additional funds may only be used for Army National Guard priorities, and only after the Department of Defense complies with the normal budget process that includes submitting prior notification and a detailed justification to Congress.

Although agreeing to reduce Army Reserve end strength for fiscal year 2007 to 200,000, as requested in the President's budget, the conferees are concerned that this end strength authorization is not adequate to sustain the combat support and combat service support structure that the Army Reserve will be required to provide to the Army's future modular force.

Notwithstanding this end strength reduction, the conferees note that the Secretary of Defense is authorized under section 115 of title 10, United States Code, to vary, by not more than 2 percent, the end strength authorized for a fiscal year for the Selected Reserve of any of the reserve components and would expect such authority to be granted to increase the Army Reserve end strength during fiscal year 2007, if required.

Furthermore, the conferees urge the Secretary of the Army to maintain an Army Reserve end strength of 205,000 as a recruiting goal and that the President's budget for fiscal years 2008–2013 request an Army Reserve end strength of 205,000, and provide a corresponding increase in Army full-time support personnel, if the Army Reserve can recruit to that level.

End strengths for Reserves on active duty in support of the reserves (sec. 412)

The House bill contained a provision (sec. 412) that would authorize the following end strengths for Reserves on active duty in support of the reserve components as of September 30, 2007: the Army National Guard of the United States, 28,165; the Army Reserve, 15,416, the Navy Reserve, 12,564; the Marine Corps Reserve, 2,261; the Air National Guard of the United States, 13,291; and the Air Force Reserve, 2,707.

The Senate amendment contained a similar provision (sec. 412) that would authorize end strengths of 27,441 for the Army National Guard of the United States, 13,206 for the Air National Guard of the United States, and identical end strengths for the other services.

The Senate recedes with an amendment that would authorize end strengths of 27,441 for the Army National Guard of the United States.

The conferees recommend end strength levels for Reserves on active duty in support of the reserves as set forth in the following table:

Service	FY 2006 authorized	FY 2007		Change from	
		Request	Conferee recommendation	FY 2007 request	FY 2006 authorized
Army National Guard	27,396	27,441	27,441	0	45
Army Reserve	15,270	15,416	15,416	0	146
Naval Reserve	13,392	12,564	12,564	0	−828
Marine Corps Reserve	2,261	2,261	2,261	0	0
Air National Guard	3,123	13,206	13,291	85	168
Air Force Reserve	2,290	2,707	2,707	0	417
DoD Total	73,732	73,595	73,680	85	−52

In addition to the budget request, the end strengths recommended by the conferees would include an additional 85 Reserves on active duty in support of the Air National Guard for the purpose set out in the House report accompanying H.R. 5122 (H. Rept. 109–452) of the National Defense Authorization Act for Fiscal Year 2007.

End strengths for military technicians (dual status) (sec. 413)

The House bill contained a provision (sec. 413) that would authorize the following end strengths for military technicians (dual status) as of September 30, 2007: the Army National Guard of the United States, 27,615; the Army Reserve, 7,912; the Air National Guard of the United States, 23,255; and the Air Force Reserve, 10,124.

The Senate amendment contained a similar provision (sec. 413) that would authorize an end strength for military technicians (dual status) for the Army National Guard of the United States of 26,050, and identical end strengths for the other reserve components.

The House recedes.

The conferees recommend end strength levels for military technicians (dual status) as set forth in the following table:

Service	FY 2006 authorized	FY 2007		Change from	
		Request	Conferee recommendation	FY 2007 request	FY 2006 authorized
Army National Guard	25,563	26,050	26,050	0	487
Army Reserve	7,649	7,912	7,912	0	263
Air National Guard	22,971	23,255	23,255	0	284
Air Force Reserve	9,852	10,124	10,124	0	272
DoD Total	66,035	67,341	67,341	0	1,306

Fiscal year 2007 limitation on number of non-dual status technicians (sec. 414)

The House bill contained a provision (sec. 414) that would establish the maximum end strengths for the reserve components of the Army and Air Force for non-dual status technicians as of September 30, 2007.

The Senate amendment contained an identical provision (sec. 414).

The conference agreement includes this provision.

Maximum number of reserve personnel authorized to be on active duty for operational support (sec. 415)

The House bill contained a provision (sec. 415) that would authorize the maximum number of reserve component personnel who may be on active duty or full-time National Guard duty under section 115(b) of title 10, United States Code, during fiscal year 2007 to provide operational support.

The Senate amendment contained an identical provision (sec. 415).

The conference agreement includes this provision.

Subtitle C—Authorization of Appropriations

Military personnel (sec. 421)

The House bill contained a provision (sec. 421) that would authorize a total of $109,820.5 million to be appropriated to the Department of Defense in fiscal year 2007 for military personnel.

The Senate amendment contained a similar provision (sec. 421) that would authorize a total of $111,928.5 million.

The Senate recedes with an amendment that would authorize $110,098.6 million to be appropriated to the Department of Defense in fiscal year 2007 for military personnel.

The conferees agree to the following changes from the budget request related to the military personnel accounts:

[In millions]

Additional special pay for dental officers	$4.0
Incentives for High-Demand, Low-Density Assignments	5.0
Commissioned Officers as Students at Medical Schools	1.0
Educational Loan Repayment for Health Professionals	4.0
Health Professions Scholarships	91.0
Recruitment Bonus for Critical Health Care Specialties	19.0
Unobligated balances, Army	−31.4
Unobligated balances, Navy	−85.0
Unobligated balances, Marine Corps	−88.1
Unobligated balances, Air Force	−248.3
Unobligated balances, Army Reserve	−66.5
Unobligated balances, Navy Reserve	−17.3
Unobligated balances, Marine Corps Reserve	−15.4
Unobligated balances, Air Force Reserve	−25.8
Unobligated balances, Army National Guard	−84.5
Unobligated balances, Air National Guard	−89.9
Reserves cost avoidance, Army Reserve	−20.9
Reserves cost avoidance, Air Force Reserve	−0.8
Reserves cost avoidance, Air National Guard	−28.3
Total	−678.1

The conferees note that in addition to the amounts shown above, $8,107.0 million was made available in title XV of this Act for the additional costs of military personnel involved in ongoing operations in Iraq and Afghanistan.

Armed Forces Retirement Home (sec. 422)

The House bill contained a provision (sec. 422) that would authorize $54.8 million to be appropriated for fiscal year 2007 from the Armed Forces Retirement Home Trust Fund for operation of the Armed Forces Retirement Home.

The Senate amendment contained an identical provision (sec. 422).

The conference agreement includes this provision.

TITLE V—MILITARY PERSONNEL POLICY

ITEM OF SPECIAL INTEREST

Department of Defense oversight of recruiter misconduct

The conferees are concerned that military recruiter misconduct, and particularly misconduct involving criminal or otherwise improper sexual contact with recruit candidates, irreparably harms the young people involved, erodes the moral and ethical standards that are the hallmark of the U.S. Armed Forces, and damages public support for military operations and recruiting by undermining the trust and high esteem that the American people place in their military forces. The conferees believe that recruiter misconduct must not be tolerated and that the Secretary of Defense, the Secretaries of the military departments, and the uniformed leaders of the Armed Forces must take decisive action to ensure that policies and procedures effectively prevent and, when required, respond to incidents of misconduct.

The conferees direct the Secretary of Defense to review the programs designed to prevent recruiter misconduct and, when misconduct does occur, the policies and procedures needed to standardize identification and reporting throughout the Department of Defense. The conferees direct that the review also include an assessment of the "No One Alone Policy" established by the State of Indiana National Guard to limit unsupervised contact between recruiters and recruit candidates of the opposite gender to determine if the policy is suitable for Department-wide implementation. The conferees direct the Secretary of Defense to submit the results of the review, including findings, conclusions, and recommendations, by March 1, 2007, to the Committees on Armed Services of the Senate and the House of Representatives.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Officer Personnel Policy

PART I—OFFICER PERSONNEL POLICY GENERALLY

Military status of officers serving in certain intelligence community positions (sec. 501)

The House bill contained a provision (sec. 505) that would clarify the status of flag and general officers assigned to certain positions in the Office of the Director of National Intelligence and the Central Intelligence Agency. The provision would protect the officers and organizations concerned from perceptions of organizational conflicts of interest or inappropriate influence.

The Senate amendment contained a similar provision (sec 501).

The Senate recedes with a technical amendment.

Extension of age for mandatory retirement for active-duty general and flag officers (sec. 502)

The Senate amendment contained a provision (sec. 503) that would amend section 1251 of title 10, United States Code, to increase the age for mandatory retirement for general and flag officers from 62 to 64. The provision would authorize the Secretary of Defense to defer retirement of officers serving in grades above major general and rear admiral to age 66 and the President to defer retirement for such officers until age 68. The provision would also eliminate the numerical limit on the number of deferments of retirement that may be in effect at any one time.

The House bill contained no similar provision.

The House recedes with a clarifying amendment that would amend section 1251 and add a new section 1253 to chapter 63 of title 10, United States Code.

Increased mandatory retirement ages for reserve officers (sec. 503)

The Senate amendment contained a provision (sec. 508) that would increase the mandatory retirement age for reserve component officers in the grade of O–8 from 62 to 64 years; for officers in the grade of O–7 from 60 to 62 years; and for officers in grades below O–7 from 60 to 62 years. The provision would also increase the mandatory retirement age of officers holding certain offices, such as the Chief of the National Guard Bureau, Chiefs of Reserve of the services, Directors of the Army and Air National Guard, and the adjutants general of the States, from 64 to 66 years.

The House bill contained no similar provision.

The House recedes.

Standardization of grade of senior dental officer of the Air Force with that of senior dental officer of the Army (sec. 504)

The House bill contained a provision (sec. 502) that would amend section 8081 of title 10, United States Code, to require that the officer serving as the Assistant Surgeon General for Dental Services in the Air Force be appointed in the grade of major general.

The Senate amendment contained no similar provision.

The Senate recedes.

Management of chief warrant officers (sec. 505)

The House bill contained a provision (sec. 503) that would amend section 580 of title 10, United States Code, to eliminate the requirement for a mandatory continuation board in the case of chief warrant officers, W–4, who have twice failed to be selected for promotion and allow service secretaries in their discretion to retain such chief warrant officers on active duty. The provision would also modify section 1305 of title 10, United States Code, to increase the years of service from 24 to 30 that a warrant officer may serve on active duty before mandatory retirement.

The Senate amendment contained a similar provision (sec. 507).

The Senate recedes with an amendment that would specify that chief warrant officers retained on active duty after twice failing to be selected for promotion to the grade of W–5 would continue to be eligible for promotion while remaining on active duty.

Extension of temporary reduction of time-in-grade requirement for eligibility for promotion for certain active-duty list officers in grades of first lieutenant and lieutenant (junior grade) (sec. 506)

The House bill contained a provision (sec. 504) that would amend section 619(a) of title 10, United States Code, to make permanent the authority to promote officers in the grade of first lieutenant or lieutenant (junior grade) who satisfy a time-in-grade requirement of at least 18 months.

The Senate amendment contained a provision (sec. 502) that would extend the existing authority for promotion for these officers from October 1, 2005, through October 1, 2008.

The House recedes.

Grade and exclusion from active-duty general and flag officer distribution and strength limitations of officer serving as Attending Physician to the Congress (sec. 507)

The Senate amendment contained a provision (sec. 506) that would add section 722 to chapter 41 and amend section 12210 of title 10, United States Code, to provide that an active-duty or reserve general or flag officer, while serving as the Attending Physician to the Congress, would hold the grade of major general or rear admiral and be excluded from the numerical and distribution requirements of sections 525 and 526 of title 10, United States Code.

The House bill contained no similar provision.

The House recedes.

Modification of qualifications for leadership of the Naval Postgraduate School (sec. 508)

The Senate amendment contained a provision (sec. 509) that would authorize a retired officer of the Navy or Marine Corps in the grade of captain or colonel or above, respectively, to be selected by the Secretary of the Navy to serve as President of the Naval Postgraduate School so long as they meet the same qualifications required of active-duty officers, including holding a doctorate or master's degree in a field of study relevant to the mission and function of the Naval Postgraduate School.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize a civilian, including a retired officer of the Navy or Marine Corps not below the grade of captain or colonel, respectively, to be selected by the Secretary as the best qualified from among candidates for the position in accordance with specified criteria, through a process to be determined by the Secretary, and taking into consideration other factors the Secretary considers essential. Before making a selection the Secretary would be required to consult with the Board of Advisors for the Naval Postgraduate School, consider any recommendation of the leadership and faculty of the Naval Postgraduate School, and consider the recommendations of the Chief of Naval Operations and the Commandant of the Marine Corps. The amendment would further require that an individual selected as President hold a doctorate degree if the individual permanently selected as Provost and Academic Dean does not.

PART II—OFFICER PROMOTION POLICY

Revisions to authorities relating to authorized delays of officer promotions (sec. 511)

The Senate amendment contained a provision (sec. 515) that would amend sections 624 and 14311 of title 10, United States Code, relating to promotion procedures. The provision would specify that a promotion list that requires Senate confirmation shall be treated as being established for purposes of chapter 38 of title 10 on the date the list is received by the Senate for consideration; and would require the Secretary of Defense, not later than March 1, 2008, to prescribe regulations controlling delays in appointment following Senate confirmation under sections 624 and 14311. The provision would also clarify that delays in appointment to higher grade are warranted by the need to review substantiated and potentially adverse information that may be material to the decision on whether or not to appoint based on a determination that an officer has not fulfilled the requirements for exemplary conduct for commanding officers and those in positions of authority.

The House bill contained no similar provision.

The House recedes with an amendment that would specify that a promotion list that requires Senate confirmation shall be treated as being established upon approval of a report of a selection board by the President.

Consideration of adverse information by selection boards in recommendations on officers to be promoted (sec. 512)

The Senate amendment contained a provision (sec. 516) that would amend sections 616(c) and 14108(b) of title 10, United States Code, to require that a promotion selection board may not recommend an officer for promotion unless a majority of the members of the board, after consideration by all the board members of any adverse information about the officer that is provided to the board under section 615 of title 10, United States Code, finds that the officer is among those best qualified for promotion to meet the needs of the armed force concerned consistent with the requirement of exemplary conduct set forth in sections 3583, 5947, and 8583 of title 10, United States Code. The House bill contained no similar provision.

The House recedes with a technical amendment.

Expanded authority for removal from reports of selection boards of officers recommended for promotion to grades below general and flag grades (sec. 513)

The Senate amendment contained a provision (sec. 517) that would amend sections 618(d) and 14111(b) of title 10, United States Code, to authorize the Secretary of Defense and the Deputy Secretary of Defense, in addition to the President, to remove the name of an officer from the report of a selection board with respect to officers being recommended for promotion to grades below brigadier general and rear admiral (lower half).

The House bill contained no similar provision.

The House recedes with a technical amendment.

Special selection board authorities (sec. 514)

The Senate amendment contained a provision (sec. 519) that would amend sections 628 and 14502 of title 10, United States Code, to limit the availability of special selection boards only to officers under consideration for promotion who are in or above the primary promotion zones. The provision would also limit the requirement to convene special selection boards only to those cases in which material error may have occurred. The provision would further clarify that errors in the conduct of active and reserve selection boards must be determined by the service secretaries to be material to the outcome of the board's determination for relief to be afforded.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Removal from promotion list of officers not promoted within 18 months of approval of list by the President (sec. 515)

The Senate amendment contained a provision (sec. 520) that would amend sections 629 and 14310 of title 10, United States Code, to clarify the conditions under which officers whose nominations require the advice and consent of the Senate for promotion or appointment and who have not received the advice and consent of the Senate would be removed from promotion lists.

The House bill contained no similar provision.

The House recedes with an amendment that would establish a promotion eligibility period for officers beginning on the date of approval by the President of a promotion list for officers on that list and ending 18 months later. This period could be extended by the President for an additional 12 months. The amendment would require that an officer's name be removed from the promotion list as of the end of the period of promotion eligibility unless the Senate has given its advice and consent to the appointment of that officer. The provision would apply to any promotion list approved by the President after January 1, 2007.

PART III—JOINT OFFICER MANAGEMENT REQUIREMENTS

Modification and enhancement of general authorities on management of officers who are joint qualified (sec. 516)

The Senate amendment contained a provision (sec. 526) that would amend section 661 of title 10, United States Code, to restructure the system for designation and management of officers who are joint qualified. The provision would implement the recommendation made by the Department of Defense in its strategic plan to link joint officer development to overall missions and goals of the Department of Defense, as required by section 531 of the Ronald W. Reagan National Defense Authorization Act of Fiscal Year 2005 (Public Law 108–375).

The House bill contained no similar provision.

The House recedes with an amendment that would permit the Secretary of Defense, with the advice of the Chairman of the Joint Chiefs of Staff, to designate as joint qualified those officers who successfully complete a full tour of duty in a joint assignment as well as those officers who demonstrate mastery of knowledge, skills, and abilities in joint matters as a result of their assignments and experience as determined under such regulations and policy as the Secretary may prescribe. The amendment would make this provision effective on October 1, 2007, and require the Secretary, not later than March 31, 2007, to submit a plan for its implementation. The amendment would support modifications in joint officer management that would rely on a capabilities-based system in which experience, education, and performance are evaluated in an officer's progression to higher levels of qualification.

Modification of promotion policy objectives for joint officers (sec. 517)

The Senate amendment contained a provision (sec. 527) that would amend section 662(a) of title 10, United States Code, to repeal the requirement for a separate promotion policy objective for officers who have the joint specialty or who are designated as joint qualified. The provision would require the Secretary of Defense to ensure that officers who are serving in or have served in joint duty assignments, including those officers who previously have been designated as joint specialty officers and are determined to be joint qualified under the changes to section 661 of title 10, United States Code, included in this Act, are expected, as a group, to be promoted to the next higher grade at a rate not less than the rate for all officers of the same armed force in the same grade and competitive category.

The House bill contained no similar provision.

The House recedes.

Applicability of joint duty assignment requirements limited to graduates of National Defense University schools (sec. 518)

The Senate amendment contained a provision (sec. 528) that would amend section 663 of title 10, United States Code, to specify that joint professional military education (JPME) schools for purposes of this section are limited to schools within the National Defense University. The provision would limit the effect of the requirement that more than 50 percent of officers completing the second phase of JPME must be assigned to joint duty assignments as those officers' next duty assignments following graduation.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Modification of certain definitions relating to jointness (sec. 519)

The Senate amendment contained a provision (sec. 529) that would amend section 668 of title 10, United States Code, to revise the definition of the term "joint matters." The provision would also modify the definition of "joint duty assignments" to broaden the assignments that may be considered and recognize the value of certain assignments within the services and to add a definition to section 668 of the term "critical occupational specialty."

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the definition of the term joint matters to mean matters related to the achievement of unified action by multiple military forces in operations conducted across domains such as land, sea, or air, in space, or in the information environment. The amendment would specify that the definition of joint duty does not include duty as a student or trainee for joint training and education. Under the definition of critical occupational specialty, the amendment would require, at a minimum, that the Secretary of Defense designate as critical occupational specialties any military occupational specialties within combat arms (or the equivalent) that the Secretary determines are experiencing severe shortages of trained officers.

Subtitle B-Reserve Component Matters

PART I—RESERVE COMPONENT MANAGEMENT

Recognition of former Representative G.V. "Sonny" Montgomery for his 30 years of service in the House of Representatives (sec. 521)

The conferees agree to include a provision that would recognize former Representative G.V. "Sonny" Montgomery (D-MS) for his 30 years of service in the House of Representatives, particularly his service as Chairman of the Committee on Veterans' Affairs and his contributions to the National Guard and Reserves.

Revisions to reserve call-up authority (sec. 522)

The House bill contained a provision (sec. 511) that would extend from 270 days to 365 days the period for which members of the Selected Reserve and Individual Ready Reserve may be involuntarily called to active duty to support operational missions other than during war or national emergency and would authorize recall of such reserve component members to provide assistance during a serious natural or manmade disaster, accident, or catastrophe.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend from 270 days to 365 days the maximum period for which such members of the reserve components may be involuntarily called to active duty.

Military retirement credit for certain service by National Guard members performed while in a State duty status immediately after the terrorist attacks of September 11, 2001 (sec. 523)

The House bill contained a provision (sec. 512) that would authorize military retirement credit for certain members of the Army National Guard or the Air National Guard who served in a full-time state active duty status in specified counties in New Jersey in support of the federal declaration of emergency following the terrorist attacks on the United States of September 11, 2001.

The Senate amendment contained no similar provision.

The Senate recedes.

PART II—AUTHORITIES RELATING TO GUARD AND RESERVE DUTY

Title 10 definition of Active Guard and Reserve duty (sec. 524)

The House bill contained a provision (sec. 541) that would establish a new definition of "Active Guard and Reserve" in section 101 of title 10, United States Code, and would also clarify the definition of "Active Guard and Reserve duty" in the same section.

The Senate amendment contained a similar provision (sec. 531).

The Senate recedes.

Authority for Active Guard and Reserve duties to include support of operational missions assigned to the reserve components and instruction and training of active-duty personnel (sec. 525)

The House bill contained a provision (sec. 542) that would authorize reserve component personnel performing Active Guard and Reserve duty, as well as military technicians (dual status), to perform additional duties to support operations or missions assigned to, or performed by, the reserve components and to instruct or train active-duty members of the Armed Forces, foreign military forces, and Department of Defense civilian employees and contractors. The provision would authorize the performance of the specified additional duties to the extent that such duties do not interfere with the primary duties of personnel on Active Guard and Reserve duty, and military technicians (dual status), of organizing, administering, recruiting, instructing, or training the reserve components. The provision would also limit the instructional or training duty only to that conducted in the United States, its possessions, and the Commonwealth of Puerto Rico. The provision would further authorize personnel performing National Guard duty under section 502(f) of title 32, United States Code, to support operations or missions undertaken by the member's unit at the request of the President or the Secretary of Defense, and to support training operations and training missions assigned in whole or in part to the National Guard by the Secretary concerned.

The Senate amendment contained a similar provision (sec. 531).

The Senate recedes with a clarifying amendment.

Governor's authority to order members to Active Guard and Reserve duty (sec. 526)

The House bill contained a provision (sec. 543) that would authorize the governor of a State, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, or the commanding general of the District of Columbia National Guard to order members of the National Guard to perform Active Guard and Reserve duty under title 32, United States Code, to support operations or missions at the request of the President or the Secretary of Defense, or to support training operations and training missions assigned in whole or in part by the Secretary concerned to the National Guard.

The Senate amendment contained a similar provision (sec. 531).

The Senate recedes with a clarifying amendment.

Expansion of operations of civil support teams (sec. 527)

The House bill contained a provision (sec. 545) that would expand the types of emergencies for which members of the reserve components who are assigned to weapons of mass destruction civil support teams (WMD–CSTs) could be deployed to include the intentional or unintentional release of nuclear, biological, radiological, toxic or poisonous chemical materials; or natural or manmade disasters that could result in the catastrophic loss of life or property.

The Senate amendment contained a similar provision (sec. 532).

The Senate recedes.

The conferees note that WMD–CSTs are a limited resource, and as such, their employment, other than for training and preparation, under the expanded authorities recommended by this section should consider the following: (1) whether the resources of local governments and other State resources may be or are overwhelmed by the scope and scale of the actual disaster; or (2) whether other State, local, and first-responder technical equipment and capabilities will be or are inadequate to address the potential threat.

Modification of authorities relating to the Commission on the National Guard and Reserves (sec. 528)

The House bill contained a provision (sec. 594(a)) that would amend section 513 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375) to extend the deadline by 6 months for submission of a final report by the Commission on the National Guard and Reserves.

The Senate amendment contained a similar provision (sec. 533) that would extend the commission's deadline for submission of a final report from 12 to 18 months after its first meeting. The provision would also authorize the chairman of the commission to exercise the same waiver authority regarding eligibility by annuitants for pay as would be available to the Director of the Office of Personnel Management under sections 8344(i)(1) and 8468(f)(1) of title 5, United States Code.

The House recedes with an amendment that would require submission of the final report of the commission not later than January 31, 2008.

Additional matters to be reviewed by Commission on the National Guard and Reserves (sec. 529)

The House bill contained a provision (sec. 594(b)) that would direct the Commission on the National Guard and Reserves to study and report to Congress by March 1, 2007, on the advisability and feasibility of implementing the provisions contained in the National Defense Enhancement and National Guard Empowerment Act of 2006 (H.R. 5200); whether the Chief of the National Guard Bureau should serve in the grade of general in the performance of the current duties of that office; and whether the Department of Defense processes for defining the equipment and funding necessary for the National Guard to perform its responsibilities are adequate.

The Senate amendment contained provisions (secs. 931–933) that would make the National Guard Bureau a joint activity of the Department; make the Chief of the National Guard Bureau the principal advisor to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff on National Guard matters; elevate the grade of the Chief of the National Guard Bureau to general; require the Chief of the National Guard Bureau to identify gaps between Federal and State capabilities to prepare for and respond to emergencies and make recommendations to the Secretary of Defense on the provision of military assistance to civil authorities; and require that the position of Deputy Commander, U.S. Northern Command, be filled by a National Guard officer eligible for promotion to the grade of lieutenant general.

The Senate recedes with an amendment that would add additional matters to be referred to the commission, including a review on the advisability and feasibility of authorizing National Guard officers to serve in both Federal status under title 10, United States Code, and State status under title 32, United States Code, as a means of achieving unity of command of units that are composed of both active-duty members and National Guard personnel. The commission would be required to submit a report on the results of the review by March 1, 2007, to the Committees on Armed Services of the Senate and the House of Representatives.

The conferees note the importance of the National Guard to the national defense and the need for effective coordination of National Guard matters between the Chief of the National Guard Bureau and the Secretary of Defense, Chairman of the Joint Chiefs of Staff, the Secretary of the Army, and the Secretary of the Air Force.

The conferees, therefore, direct the commission to evaluate the proposals referred to it by this section taking into consideration the following:

The impact that making the National Guard Bureau a joint activity of the Department, and authorizing the Secretary of Defense to develop the charter of the National Guard Bureau, would have on integration of the Army National Guard and Air National Guard into the Army and Air Force, respectively.

Whether authorizing the Chief of the National Guard Bureau to be the principal advisor to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff on matters relating to the National Guard would have the effect of establishing the National Guard as a separate service; and if so, the implications of that effect.

Whether authorizing the Chief of the National Guard Bureau to be a member of the Joint Chiefs of Staff is consistent with the statutory responsibilities of the service chiefs and the role of the service chiefs to provide military advice to the President, the National Security Council, and the Secretary of Defense.

How elevating the grade of the Chief of the National Guard Bureau to general would impact relationships with and the authorized grades of the other Chiefs of the reserve components, the Director of the Army National Guard, and the Director of the Air National Guard.

Whether requiring the Chief of the National Guard Bureau to identify gaps between Federal and State capabilities to prepare for and respond to emergencies and to make recommendations to the Secretary of Defense on National Guard programs for military assistance to civil authorities is an appropriate role for the Chief of the National Guard Bureau, whether the Chief of the National Guard Bureau is qualified to make such an assessment, and whether this authority impinges on the authority of Federal and State civilian officials.

Whether the scope and complexities of the duties and responsibilities of the position of Deputy Commander, U.S. Northern Command, require that they be carried out by two officers, each in the grade of O-9, one of whom would be a National Guard officer eligible for promotion to that grade.

Subtitle C—Education and Training

PART I—SERVICE ACADEMIES

Expansion of service academy exchange programs with foreign military academies (sec. 531)

The House bill contained a provision (sec. 524) that would expand from 24 to 100 the number of cadets and midshipmen at the U.S. Military Academy, Air Force Academy, and Naval Academy, respectively, who may participate in exchange programs with foreign military academies. The provision would also increase from $120,000 to $1.0 million the amount of appropriated funds that each service academy could expend during any fiscal year in support of the exchange program. The provision would further authorize the service academies to expend additional funds as may be available to the academy from a source other than appropriated funds to support cultural immersion, regional awareness, or foreign language training activities in connection with the exchange program.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees do not intend that the additional funding from other than appropriated sources be used to fund exchange students in excess of the number set by this provision.

Revision and clarification of requirements with respect to surveys and reports concerning sexual harassment and sexual violence at the service academies (sec. 532)

The Senate amendment contained a provision (sec. 567) that would change the frequency of the service academy sexual assault survey and report to Congress from an annual to a biennial requirement, extend the period for the surveys and reports from 2008 to 2010; clarify that the subject of the required policy and report is sexual harassment and sexual violence, and clarify that the policy and survey are directed at cadets and midshipmen.

The House bill contained no similar provision.

The House recedes with an amendment that would codify in title 10, United States Code, the requirement for each Secretary of the military department to prescribe a policy on sexual harassment and sexual violence applicable to cadets or midshipmen and other personnel of each service academy. The amendment would require an annual assessment to determine the effectiveness of the policies, training, and procedures of the academy, and an annual report to the Committees on Armed Services of the Senate and the House of Representatives. The amendment would also require that the annual assessment be conducted by a survey of academy personnel to include cadets and midshipmen, and other academy personnel from the faculty and administration selected for such participation, if any, with respect to academy program years that begin in an odd-numbered calendar year. In any year in which a survey is not required, the Secretary concerned would be required to provide focus groups for the purposes of ascertaining information relating to sexual assault and sexual harassment issues at that academy.

Department of Defense policy on service academy and ROTC graduates seeking to participate in professional sports before completion of their active-duty service obligations (sec. 533)

The Senate amendment contained a provision (sec. 568) that would require the Secretary of Defense to prescribe a policy, not later than July 1, 2007, on whether to authorize service academy and Reserve Officers' Training Corps graduates to participate in professional sports before completion of their active-duty service obligation, and if so, on the active-duty service obligations of such personnel. The provision would require the Secretary of each military department to prescribe regulations, or modify current regulations, to implement the policy of the Secretary of Defense by no later than December 1, 2007.

The House bill contained no similar provision.

The House recedes.

PART II—SCHOLARSHIP AND FINANCIAL ASSISTANCE PROGRAMS

Authority to permit members who participate in the guaranteed reserve forces duty scholarship program to participate in the health professions scholarship program and serve on active duty (sec. 535)

The House bill contained a provision (sec. 521) that would authorize the Secretary of the Army to modify agreements entered into by cadets in the Reserve Officers' Training Corps who participate in the Guaranteed Reserve Forces Duty Scholarship Program so that a cadet or former cadet could receive assistance under the Health Professions Scholarship Program and serve on active duty.

The Senate amendment contained no similar provision.

The Senate recedes.

Detail of commissioned officers as students at medical schools (sec. 536)

The Senate amendment contained a provision (sec. 561) that would authorize the Secretary of a military department to detail up to 25 commissioned officers each year as students at accredited medical schools or schools of osteopathy. To be eligible, an officer must agree to service on active duty for 2 years for each year of medical training.

The House bill contained no similar provision.

The House recedes with an amendment that would allow an officer to serve their full service active duty obligation, or to complete a portion of their obligation in the Selected Reserve. The amendment would require that officers assigned to the Selected Reserve serve 3 years in the Selected Reserve for each year of medical training received prior to separation from active duty.

Increase in maximum amount of repayment under education loan repayment for officers in specified health professions (sec. 537)

The Senate amendment contained a provision (sec. 563) that would authorize an increase from $22,000 to $60,000 for each year of obligated service the amount the Secretary of a military department may repay for educational loans for a fully qualified health professional to meet identified skill shortages.

The House bill contained no similar provision.

The House recedes with a technical amendment.

The conferees are concerned that shortfalls in recruitment and retention of medical, dental, and nurse corps personnel could undermine future medical readiness. The conferees believe it is critical that the Tenth Quadrennial Review of Military Compensation include a careful examination of compensation issues pertaining to the uniformed medical personnel of the Department of Defense.

Health Professions Scholarship and Financial Assistance Program for Active Service (sec. 538)

The Senate amendment contained a provision (sec. 564) that would authorize an increase in the maximum amounts for stipends and grants under the Health Professions Scholarship Program and the Financial Assistance Program for Active Service. The amendment also contained a provision (sec. 565) that would require the Secretary of Defense to report to the congressional defense committees on the success or failure of the military departments in achieving recruiting goals under these programs during fiscal years 2000 through 2006.

The House bill contained no similar provisions.

The House recedes with an amendment that would authorize the Secretary to determine a monthly amount to be paid as a stipend in the Health Professions Scholarship Program.

The conference agreement reflects the merger of the two Senate provisions, as amended.

PART III—JUNIOR ROTC PROGRAM

Junior Reserve Officers' Training Corps instructor qualifications (sec. 539)

The Senate amendment contained a provision (sec. 570) that would establish instructor qualifications for a retired officer or noncommissioned officer to be employed as an instructor in the Junior Reserve Officers' Training Corps. The provision would require that senior military instructors be retired officers who have a professional military qualification; a baccalaureate degree; completion of secondary education teaching certification requirements; and award of an advanced certification in core content areas. Non-senior military instructors would be retired noncommissioned officers who serve as instructional leaders and teach independently of, but share program responsibilities with, senior military instructors. The provision would also require that non-senior military instructors have a professional military qualification; an associates degree within 5 years of employment; completion of secondary education teaching certification requirements; and award of an advanced certification in core content areas.

The House bill contained no similar provision.

The House recedes.

Expansion of members eligible to be employed to provide Junior Reserve Officers' Training Corps instruction (sec. 540)

The House bill contained a provision (sec. 522) that would authorize employment of reserve and National Guard officers and noncommissioned officers who would be eligible for retired pay at age 60 as Junior Reserve Officers' Training Corps instructors and allow the Secretaries of the military departments to determine the amount to reimburse the educational institution for the salary of such instructors.

The Senate amendment contained a similar provision (sec. 562).

The House recedes with a clarifying amendment.

The conferees agree that the Department of Defense would be authorized to pay an institution hiring a reserve or National Guard member who would be eligible for retired pay at age 60 an amount equal to one-half of the amount paid to the member by the institution for any period, up to a maximum of one-half the difference between the retired or retainer pay for an active-duty officer or noncommissioned officer of the same grade and years of service for that period and the active-duty pay and allowances which the member would have received for that period if on active duty.

Expansion of Junior Reserve Officers' Training Corps program (sec. 541)

The Senate amendment contained a provision (sec. 315) that would direct the Secretaries of the military departments to increase the number of Junior Reserve Officers' Training Corps units.

The House bill contained no similar provision.

The House recedes.

Review of legal status of Junior ROTC program (sec. 542)

The House bill contained a provision (sec. 525) that would require the Secretary of Defense to review the 1976 legal opinion that determined that Junior Reserve Officers' Training Corps (JROTC) instructors may be transported to a non-host school only to teach students previously enrolled in the JROTC unit at the host school, and only when it is impractical to require them to take courses at the host school. The purpose of the review would be to determine whether changes in the law since 1976 and local school redistricting would now allow for instructors from a host school to travel to and instruct JROTC students at another nearby school. The provision would also allow a host school that is currently providing for the assignment of JROTC instructors to another school with 70 or more students the authority to continue such support until 180 days following the submission of the report on the results of the review by the Secretary of Defense.

The Senate amendment contained an identical provision (sec. 569).

The conference agreement includes this provision.

PART IV—OTHER EDUCATION AND TRAINING PROGRAMS

Expanded eligibility for enlisted members for instruction at Naval Postgraduate School (sec. 543)

The Senate amendment contained a provision (sec. 566) that would authorize all enlisted members of the Armed Forces to participate in certificate programs and courses required for the performance of their duties offered by the Naval Postgraduate School, and authorize eligible enlisted members of the Armed Forces to receive graduate-level instruction at the Naval Postgraduate School in programs leading to the award of a master's degree in technical, analytical, and engineering curricula.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of the Navy to submit a report to the Committees on Armed Services of the Senate and the House of Representatives, not later than March 30, 2007, on the plans and rationale of the Navy to provide enlisted members of the Navy with opportunities to pursue graduate degree programs either through Navy schools or through civilian postgraduate institutions paid for by the Navy in return for an additional service obligation. The amendment would also require the Secretary of the Navy and the Secretary of the Air Force to submit a joint report to the Committees on Armed Services of the Senate and the House of Representatives, not later than March 30, 2007, on the manner by which each Secretary intends to use the Naval Postgraduate School and the Air Force Institute of Technology during fiscal years 2008 through 2013 to meet the overall requirements of the Navy, Marine Corps, and Air Force for enlisted members with graduate degrees.

The conferees expect that the Under Secretary of Defense for Personnel and Readiness will exercise a significant role in overseeing the preparation of the joint report of the Secretary of the Navy and the Secretary of the Air Force on use of the Naval Postgraduate School and the Air Force Institute of Technology to meet the overall requirements of the services for enlisted members with graduate degrees.

Subtitle D—General Service Authorities

Test of utility of test preparation guides and education programs in enhancing recruit candidate performance on the Armed Services Vocational Aptitude Battery (ASVAB) and Armed Forces Qualification Test (AFQT) (sec. 546)

The House bill contained a provision (sec. 531) that would require the Secretary of Defense to administer a test program conducted by the Secretaries of the military departments to determine the utility of commercially-available test preparation guides and education programs to assist recruit candidates in achieving improved scores on military recruit qualification tests. The Secretary would be required to identify 2,000 recruit candidates to receive test preparation assistance and 2,000 recruit candidates to participate in a control group to allow comparisons of test performance and subsequent duty performance in training and unit settings following active-duty entry. The test would identify participants over a 1-year period from the start of the test and assess duty performance for each participant for 18 months following entry on active duty.

The Senate amendment contained no similar provision.

The Senate recedes.

Clarification of nondisclosure requirements applicable to certain selection board proceedings (sec. 547)

The House bill contained a provision (sec. 532) that would clarify the nondisclosure requirements applicable to deliberations of military selection boards. The provision would specify that discussions and deliberations of selection boards, including any written or documentary records thereof, are immune from legal process; may not be admitted as evidence; and may not be used for any purpose in any action or suit, or judicial or administrative proceedings without the consent of the Secretary of the military department.

The Senate amendment contained a similar provision (sec. 518).

The Senate recedes with a technical amendment.

Report on extent of provision of timely notice of long-term deployments (sec. 548)

The House bill contained a provision (sec. 533) that would require the Secretary of Defense to report, not later than March 1, 2007, on the number of members of the Armed Forces who, since September 11, 2001, have not received at least 30-days notice prior to a deployment that was scheduled to last 180 days or more.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the reporting period to begin on January 1, 2005, and end on the date of the enactment of this Act.

Subtitle E—Military Justice Matters

Applicability of Uniform Code of Military Justice to members of the Armed Forces ordered to duty overseas in inactive duty for training status (sec. 551)

The Senate amendment contained a provision (sec. 551) that would require the service secretaries, no later than March 1, 2007, to prescribe regulations, or amend current regulations, consistent with article 2 of the Uniform Code of Military Justice (UCMJ) to provide that military personnel who are ordered to perform inactive duty for training at overseas locations shall be subject to jurisdiction under the UCMJ throughout the period that the orders are in effect.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Clarification of application of Uniform Code of Military Justice during a time of war (sec. 552)

The Senate amendment contained a provision (sec. 552) that would clarify that Uniform Code of Military Justice jurisdiction over persons serving with or accompanying an armed force in the field applies both in time of declared war and in a contingency operation.

The House bill contained no similar provision.

The House recedes.

Subtitle F—Decorations and Awards

Authority for presentation of Medal of Honor Flag to living Medal of Honor recipients and to living primary next-of-kin of deceased Medal of Honor recipients (sec. 555)

The House bill contained a provision (sec. 551) that would amend sections 3755, 6257, and 8755 of title 10, United States Code, and section 505 of title 14, United States Code, to authorize the President to present a Medal of Honor Flag to all living recipients of the Medal of Honor. The provision would authorize presentation of a Medal of Honor Flag to the primary next of kin of a deceased Medal of Honor recipient.

The Senate amendment contained a similar provision (sec. 584) that would require the Secretary of Defense to prescribe regulations regarding the designation of the primary living next of kin.

The House recedes with a clarifying amendment.

Review of eligibility of prisoners of war for award of the Purple Heart (sec. 556)

The House bill contained a provision (sec. 553) that would require the Secretary of Defense to award the Purple Heart posthumously to a member of the Armed Forces who died while in captivity as a prisoner of war or died due to injury or illness incurred while in captivity as a prisoner of war.

The Senate amendment contained a provision (sec. 589) that would require the President, not later than March 1, 2007, to report on the advisability of modifying the criteria for the award of the Purple Heart in the case of prisoners of war who die in captivity under unknown circumstances or as a result of conditions and treatment which currently do not qualify the decedent for the award of the Purple Heart. The provision would also require the President in making his determination to take into consideration various specified factors as well as the views of the Secretary and the Joint Chiefs of Staff.

The House recedes with an amendment that would add additional circumstances to be considered by the President in making his determination regarding the posthumous award of the Purple Heart to former prisoners of war.

In view of the history and significance of the Purple Heart, and the fact that it is awarded in the name of the President as Commander in Chief to members of the Armed Forces, the conferees consider it essential that the President conduct a comprehensive review of the merits of the proposals for expansion of eligibility for the award and provide a recommendation to the Congress before legislative changes are made to the criteria for the Purple Heart.

Report on Department of Defense process for awarding decorations (sec. 557)

The House bill contained a provision (sec. 555) that would require the Secretary of Defense to review the policy, procedures, and processes of the military departments for awarding decorations to members of the Armed Forces and to submit a report on the findings and recommendations no later than 90 days after the date of the enactment of this Act.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would establish August 1, 2007, as the due date for the required report.

Subtitle G—Matters Relating to Casualties

Authority for retention after separation from service of assistive technology and devices provided while on active duty (sec. 561)

The House bill contained a provision (sec. 562) that would authorize the Secretary of Defense to provide assistive technology, devices, and services to a member of the armed forces who has sustained a debilitating illness or injury while serving in support of a contingency operation, and also authorize the member to continue to utilize such services after separation from active duty.

The Senate amendment contained a similar provision (sec. 647).

The House recedes with a clarifying amendment.

Transportation of remains of casualties dying in a theater of combat operations (sec. 562)

The House bill contained a provision (sec. 563) that would prescribe conditions for the transportation by air of the remains of members of the Armed Forces who die in a combat theater of operations and whose remains are returned to the United States through the mortuary facility at Dover Air Force Base, Delaware. The provision would require the Secretary concerned to transport remains under these circumstances by military aircraft, or military-contracted aircraft, unless otherwise directed by the decedent's next of kin. The provision would also require that remains be escorted during transportation at all times by at least one service member in an appropriate grade. The provision would further require that an honor guard escort comprised of a sufficient number of military members to transfer the casket containing the remains from the aircraft or other means of transportation to a hearse for local transportation be provided.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to prescribe regulations for the administration of this provision. The amendment would also require that transportation of one or more sets of military remains by military aircraft or military-contracted aircraft be the aircraft's primary mission and clarify the composition and role of the honor guard escort. The effective date for this provision would be not later than January 1, 2007.

Annual budget display of funds for POW/MIA activities of Department of Defense (sec. 563)

The House bill contained a provision (sec. 564) that would require the Secretary of Defense to submit to Congress a consolidated budget justification display that includes prior year and future year funding for specified organizations supporting the POW/MIA activities of the Department of Defense as part of the Department's justification material that supports the President's annual budget request.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees are concerned that shortfalls in the funding of POW/MIA activities within the Department have resulted in the loss of opportunities to conduct planned field missions to locate and identify missing U.S. service members. The conferees expect that the Department will ensure that POW/MIA recovery efforts will receive the highest level of support within the Department and that the budget for POW/MIA activities will be adequately funded in order to preclude the loss of opportunities to conduct planned recovery and research missions.

Military Severely Injured Center (sec. 564)

The Senate amendment contained a provision (sec. 586) that would require the Secretary of Defense to establish a center to augment and support programs operated by the military departments for services to severely wounded or injured service members and their families. The provision would also require establishment of a central database for the purpose of tracking such members.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the role of the center in support of programs operated by the military departments which are responsible for individual case management, and ensure transparency of the central database.

Comprehensive review on procedures of the Department of Defense on mortuary affairs (sec. 565)

The Senate amendment contained a provision (sec. 590(a)-(b)) that would require the Secretary of Defense to include additional matters in the report of the Department of Defense's ongoing comprehensive review of procedures relating to mortuary affairs. The additional elements reported on would address capabilities and standards employed in combat theaters that could preserve the remains of deceased personnel and expedite the return of remains to the United States in a nondecomposed state.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Additional elements of policy on casualty assistance to survivors of military decedents (sec. 556)

The Senate amendment contained a provision (sec. 590(c)) that would amend section 562(b) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) to require the Secretary of Defense to include an additional element in the Department of Defense's policy relating to casualty assistance to survivors of military decedents. The provision would require that the new policy address the process by which the Department, upon request, briefs survivors of military decedents on the cause of, and any investigation into, the death of such military decedents and on the disposition and transportation of their remains.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Requirement for deploying military medical personnel to be trained in preservation of remains under combat or combat-related conditions (sec. 567)

The House bill contained a provision (sec. 722) that would require the Secretary of Defense to develop a program requiring each military department to include pre-deployment training of health care professionals in the preservation of remains.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would establish an effective date for the required training of 90 days after the date of the enactment of this Act.

Subtitle H—Impact Aid and Defense Dependents Education System

Enrollment in defense dependents' education system of dependents of foreign military members assigned to Supreme Headquarters Allied Powers, Europe (sec. 571)

The House bill contained a provision (sec. 572) that would authorize the Secretary of Defense to enroll on a space-required, tuition-free basis a limited number of dependents of foreign military members who are assigned to the Supreme Headquarters Allied Powers, Europe, in the Defense Dependents' Education System in Mons, Belgium.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the Secretary to offer such enrollment only through the 2010-2011 school year. The amendment would require a report to Congress evaluating alternatives for a long-term plan for the education of dependents of U. S. military personnel assigned to the Supreme Headquarters Allied Powers, Europe.

Continuation of authority to assist local educational agencies that benefit dependents of members of the Armed Forces and Department of Defense civilian employees (sec. 572)

The House bill contained a provision (sec. 571) that would authorize $50.0 million for assistance to local educational agencies that have military dependent students comprising at least 20 percent of the students in average daily attendance. The provision would also authorize $15.0 million for assistance to local educational agencies that experience a significant increase or decrease in attendance of military dependent students due to military force structure changes, the relocation of military forces, and base closures and realignments.

The Senate amendment contained a provision (sec. 571) that would authorize $30.0 million for assistance to local educational agencies with significant concentrations of military school-aged children, and $10.0 million for special assistance to local educational agencies that experience an increase or decrease in students due to military force structure changes, relocation of military units, or base closures and realignments. The Senate amendment would also provide temporary authority for the Secretary of Defense, working with the Secretary of Education, to utilize funds appropriated for Operation and Maintenance, Defense-wide for the purpose of sharing expertise and experience of the Department of Defense Education Activity with local education agencies to assist those agencies as military students make the transition to civilian school systems as a result of base closure and realignment, global rebasing, and force restructuring.

The Senate recedes with an amendment that would authorize $35.0 million and $10.0 million, respectively, for assistance to local educational agencies with significant military school-aged children.

Elsewhere in this report, the conferees agree to authorize the sharing of expertise and experience of the Department of Defense Education Activity with local educational agencies that are experiencing a change in the number of military students due to base closure and realignment, global rebasing, and force restructuring, until September 30, 2011.

Impact aid for children with severe disabilities (sec. 573)

The Senate amendment contained a provision (sec. 572) that would authorize $5.0 million in Operation and Maintenance, Defense-wide, for impact aid payments for children with disabilities under section 8003(d) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7703(d)), using the formula set forth in section 363 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398).

The House bill contained no similar provision.

The House recedes.

Plan and authority to assist local educational agencies experiencing growth in enrollment due to force structure changes, relocation of military units, or base closures and realignments (sec. 574)

The Senate amendment contained a provision (sec. 573) that would require the Secretary of Defense to prepare a plan to provide assistance to local educational agencies that will experience a growth in enrollment of military and Department of Defense civilian school-aged children as a result of force structure changes, the relocation of military units, and the closure or realignment of a military installation. The provision would require submission of a report on the plan to Congress by January 1, 2007, and annual updates to the plan.

The House bill contained no similar amendment.

The House recedes with an amendment that would require annual updates to the plan after March 1, 2008 be submitted to Congress along with the President's budget request. The amendment would also authorize the Secretary of Defense to share expertise and experience of the Department of Defense Education Activity with affected local educational agencies for the purpose of assisting those agencies with the transition of military dependent school-aged children through September 30, 2011.

Pilot program on parent education to promote early childhood education for dependent children affected by military deployment or relocation of military units (sec. 575)

The Senate amendment contained a provision (sec. 574) that would require the Secretary of Defense to carry out a pilot program to enhance educational support for parents of pre-school aged children, who are affected by deployments or the relocation of military units.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the requirement to conduct the pilot program would be subject to the appropriation of funds.

Subtitle I—Armed Forces Retirement Home

Report on leadership and management of the Armed Forces Retirement Home (sec. 578)

The Senate amendment contained a provision (sec. 668) that would require the redesignation of the Chief Operating Officer of the Armed Forces Retirement Home as Chief Executive Officer. The provision would require the Director of each facility of the home to be a member of the Armed Forces, and the Deputy Director to be a civilian with experience as a continuing care retirement community professional. The amendment would also clarify that the senior representative of one of the chief personnel officers of the Armed Forces serving as a member of the Local Board of Trustees for each facility be a military officer serving on active duty in the grade of brigadier general, or in the case of the Navy, rear admiral (lower half).

The House bill contained no similar provision.

The House recedes with an amendment that would require a report by the Secretary of Defense evaluating the effect of a change in the title of the Chief Operating Officer and qualifications of the Director and Deputy Director of each facility, as well as an assessment of whether or not there is a need for a greater role by members of the Armed Forces on active duty in the overall direction, operation, and management of the home.

The conferees note that the requirement for service on the Local Board of Trustees by a military officer in the grade of brigadier general, or in the case of the Navy, rear admiral (lower half), is addressed elsewhere in this report.

The conferees are aware that the Comptroller General has not completed the assessment of the regulatory oversight and monitoring of health and nursing home services required by section 909 of the National Defense Authorization Act for 2006 (Public Law 109-163). The conferees intend that the study required by that section will help inform future legislative and policy changes regarding oversight and monitoring of health and nursing home services at the home.

Report on Local Boards of Trustees of the Armed Forces Retirement Home (sec. 579)

The Senate amendment contained a provision (sec. 1064) that would require a report on the composition and activities of the Local Boards of Trustees of the Armed Forces Retirement Home.

The House bill contained no similar provision.

The House recedes with an amendment that would require an additional report element on the feasibility and effect of including as a member of each local board a member of the Armed Forces who is serving on active duty in the grade of brigadier general, or in the case of the Navy, rear admiral (lower half).

The conferees are concerned that failure to use the Local Boards of Trustees, as required by law in section 416 of title 24, United States Code, is a significant management issue at the Armed Forces Retirement Home. The conferees are also concerned that additional oversight and training is needed on the handling of personnel matters involving assigned military personnel. The conferees direct that these matters be included in the report required by this section.

Subtitle J—Reports

Report on personnel requirements for airborne assets identified as Low-Density, High-Demand Airborne Assets (sec. 581)

The House bill contained a provision (sec. 591) that would require the Secretary of Defense to submit a report, not later than 90 days after the date of the enactment of this Act, on personnel requirements and shortfalls for airborne assets identified as low-density, high-demand airborne assets based on combatant commander requirements to conduct and sustain operations for the global war on terrorism.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the report to be submitted to the Committees on Armed Services of the Senate and the House of Representatives not later than 120 days after the date of the enactment of this Act, and to include estimated manpower costs of personnel needed to address shortfalls.

Report on feasibility of establishment of Military Entrance Processing Command station on Guam (sec. 582)

The House bill contained a provision (sec. 584) that would require the Secretary of Defense to submit a report by June 1, 2007, on the feasibility and cost effectiveness of establishing a Military Entrance Processing Command station on Guam for new recruits who are drawn from the western Pacific region.

The Senate amendment contained no similar provision.

The Senate recedes.

Inclusion in annual Department of Defense report on sexual assaults of information on results of disciplinary actions (sec. 583)

The House bill contained a provision (sec. 595) that would amend section 577 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375) to require additional detail in the Department of Defense annual report on sexual assaults on the results of disciplinary action taken in substantiated cases.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Report on provision of electronic copy of military records on discharge or release of members from the Armed Forces (sec. 584)

The Senate amendment contained a provision (sec. 588) that would require the Secretary of Defense, not later than 120 days after the date of the enactment of this Act, to submit a report on the feasibility and advisability of providing an electronic copy of military records (including all military service, medical, and other military records) to members of the Armed Forces on their discharge or release from the Armed Forces.

The House bill contained no similar provision.

The House recedes.

Report on omission of social security account numbers from military identification cards (sec. 585)

The Senate amendment contained a provision (sec. 591) that would require the Secretary of Defense to submit a report, not later than 180 days after the date of the enactment of this Act, assessing the feasibility of using military identification cards, which do not contain, display, or exhibit social security account numbers.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Report on maintenance and protection of data held by the Secretary of Defense as part of the Department of Defense Joint Advertising, Market Research and Studies (JAMRS) program (sec. 586)

The Senate amendment contained a provision (sec. 1417) that would require the Secretary of Defense to submit a report on how the JAMRS program maintains and protects data, including social security numbers, and prevents unauthorized access or inadvertent disclosure of data that could lead to identity theft.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Comptroller General report on military conscientious objectors (sec. 587)

The House bill contained a provision (sec. 593) that would require the Comptroller General to submit to Congress, not later than 180 days after the date of the enactment of this Act, a report concerning members of the Armed Forces who have claimed the status as a military conscientious objector between January 1, 1989, and December 31, 2006.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish September 1, 2007, as the due date for the report, limit the period reported on from September 11, 2001, to December 31, 2006, and clarify the elements of the report required.

Subtitle K—Other Matters

Modification in Department of Defense contributions to Military Retirement Fund (sec. 591)

The House bill contained a provision (sec. 581) that would reduce the Department of Defense's accrual contributions to the Military Retirement Fund by requiring the Department to contribute at the lower, part-time rate for reserve component soldiers who are mobilized or on active duty for special work.

The Senate amendment contained a similar provision (sec. 641(a) and (c)). The provision would also make this section effective on October 1, 2007.

The Senate recedes with an amendment that would make this section effective on October 1, 2007.

Revision in government contributions to Medicare-Eligible Retiree Health Care Fund (sec. 592)

The House bill contained a provision (sec. 589) that would amend sections 1111, 1115, and 1116 of title 10, United States Code, to change the formula by which the government makes annual contributions to the Medicare-Eligible Retiree Health Care Fund. The provision would reduce the annual government contribution to the fund by changing the formula for calculating that contribution by: (1) excluding the cadets and midshipmen at the service academies; (2) excluding members of the reserve components who are not counted against active component end strength under section 115(1) of title 10, United States Code; and (3) basing the calculation on Selected Reserve member strength, not the end strength of the larger Ready Reserve. The provision would also prohibit any funds authorized or appropriated to the Department of Defense from being used to make any payment to the Medicare-Eligible Retiree Health Care Fund.

The Senate amendment contained a similar provision (sec. 641(b)–(c)).

The Senate recedes with an amendment that would omit changes to section 1116 regarding payments into the Medicare-Eligible Retiree Health Care Fund. The amendment would also modify section 1111(a) of title 10, United States Code, to clarify that the fund shall be used to finance the liabilities of the uniformed services under retiree health care programs for medicare-eligible beneficiaries.

Dental Corps of the Navy Bureau of Medicine and Surgery (sec. 593)

The House bill contained a provision (sec. 582) that would eliminate the requirement for a separate dental division within the Navy Bureau of Medicine and Surgery, and establish a Dental Corps, which would be integrated within the Navy Bureau of Medicine and Surgery.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that Navy dental functions be under the direction of the Chief of the Dental Corps.

Permanent authority for presentation of recognition items for recruitment and retention purposes (sec. 594)

The House bill contained a provision (sec. 583) that would make permanent the authority in section 2261 of title 10, United States Code, to expend appropriated funds to procure recognition items of nominal or modest value for recruitment or retention purposes.

The Senate amendment contained a similar provision (sec. 585) that would authorize the presentation of recognition items during any period of war or national emergency declared by the President or Congress.

The Senate recedes.

Persons authorized to administer enlistment and appointment oaths (sec. 595)

The House bill contained a provision (sec. 585) that would amend sections 502 and 1031 of title 10, United States Code, to allow the Secretary of Defense to designate who is authorized to administer an enlistment or appointment oath and expand the number of people eligible to administer such oaths when the situation dictates.

The Senate amendment contained a similar provision (sec. 581).

The Senate recedes.

Military voting matters (sec. 596)

The House bill contained a provision (sec. 586) that would repeal section 1566(d) of title 10, United States Code, which requires the Department of Defense Inspector General to periodically conduct unannounced assessments of the compliance of Department installations with the requirements of the Uniformed and Overseas Citizens Absentee Voting Act, set forth in section 1973ff of title 42, United States Code.

The Senate amendment contained a similar provision (sec. 583) that would require the Secretary of Defense to continue the Interim Voting Assistance System (IVAS) ballot request program for the general election and all elections through December 31, 2006, and require reports from the Secretary on the implementation of IVAS in 2006 and on the Department's plans for expanding the use of electronic voting technology in the future. The provision would also require the Comptroller General to submit a report to Congress by March 1, 2007, on the programs and activities undertaken by the Department to facilitate voter registration, transmittal of ballots to absentee voters, and voting using electronic means.

The House recedes with a technical amendment.

Physical evaluation boards (sec. 597)

The House bill contained a provision (sec. 587) that would add a new section to title 10, United States Code, that would require: (1) the service secretaries to ensure that documents announcing decisions of physical evaluation boards (PEB) convey the findings and conclusions of the board in an orderly and itemized fashion with specific attention to each issue presented by the member being evaluated; (2) the Secretary of Defense to prescribe regulations establishing requirements and training standards for PEB liaison officers and to assess the compliance of the Secretaries of the military departments with those regulations at least once every 3 years; and (3) the Secretary of Defense to publish regulations establishing standards and guidelines concerning PEB assignment and training of staff, operating procedures, and consistency and timeliness of board decisions, and to assess the compliance of the Secretaries of the military departments with those regulations at least once every 3 years.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees are concerned about the increasing caseloads being handled within the disability evaluation systems and adverse effects on processing times and decision-making that may stem from this increased caseload. The conferees urge the services to determine whether the manning and resources devoted to this function are sufficient and recommend that the service Inspectors General make the performance of the disability evaluation system an item of special interest.

Military ID cards for retiree dependents who are permanently disabled (sec. 598)

The Senate amendment contained a provision (sec. 582) that would require the Secretaries of the military departments to issue a permanent military ID card to a permanently disabled dependent of a military retiree.

The House bill contained no similar provision.

The House recedes.

United States Marine Band and United States Marine Drum and Bugle Corps (sec. 599)

The Senate amendment contained a provision (sec. 903) that would amend section 6222 of title 10, United States Code, to authorize the Secretary of the Navy to prescribe regulations for the appointment and promotion of members of the Marine Band and the Marine Drum and Bugle Corps. The provision would authorize the President to appoint members of the Marine Band and Marine Drum and Bugle Corps to the grades of captain and below and to delegate that authority to the Secretary of Defense. Additionally, the provision would authorize the President to appoint officers in the Marine Band and the Marine Drum and Bugle Corps in the grades of major and above by and with the advice and consent of the Senate.

The House bill contained no similar provision.

The House recedes.

Legislative Provisions Not Adopted

Authorized strength of Navy Reserve flag officers

The House bill contained a provision (sec. 501) that would amend section 12004 of title 10, United States Code, to retain the authorized strength of Navy Reserve flag officers at 48 but eliminate existing limitations on their distribution and allocation.

The Senate amendment contained no similar provision.

The House recedes.

Modification of authorities on senior members of the Judge Advocate General's Corps

The Senate amendment contained a provision (sec. 504) that would raise the statutory grades of the Judge Advocates General of the Army, Navy, and Air Force to lieutenant general or vice admiral, as appropriate. These three officers would be in addition to the numbers that would otherwise be permitted for their armed forces for officers serving on active duty in grades above major general or rear admiral, as the case may be. The provision would also change the title of the Assistant Judge Advocate General of the Army to "Deputy Judge Advocate General," as is presently the case for the corresponding officers in the Navy and Air Force.

The House bill contained no similar provision.

The Senate recedes.

Requirement for significant joint experience for officers appointed as Surgeon General of the Army, Navy, and Air Force

The Senate amendment contained a provision (sec. 505) that would add a new section 3036a and amend sections 3036, 5137, and 8036 of title 10, United States Code, to require that officers recommended for appointment as the Surgeon General of the Army, Navy, and Air Force must have significant joint experience as determined by the Chairman of the Joint Chiefs of Staff.

The House bill contained no similar provision.

The Senate recedes.

Report on private-sector promotion and constructive termination of members of the reserve components called or ordered to active service

The House bill contained a provision (sec. 513) that would require the Secretary of Defense to report on post-mobilization private-sector employment impacts on members of the reserve components.

The Senate amendment contained no similar provision.

The House recedes.

The conferees agree that the issue of whether or not members of the reserve components, called or ordered to active duty, receive promotions in due course upon their return from deployment in Operation Iraqi Freedom or Operation Enduring Freedom, or experience constructive termination by their employers as a result of such deployment, would be reviewed by a Department of Defense working group established by this Act to review transition to civilian employment of members of the National Guard and reserve returning from deployment.

Report on joint officer promotion boards

The Senate amendment contained a provision (sec. 521) that would require the Secretary of Defense to submit a report on the desirability and feasibility of conducting joint officer promotion selection boards.

The House bill contained no similar provision.

The Senate recedes.

Authority for United States Military Academy and United States Air Force Academy permanent military professors to assume command positions while on periods of sabbatical

The House bill contained a provision (sec. 523) that would authorize the Secretary of the Army and the Secretary of the Air Force to assign military officers who are permanent professors at the United States Military Academy and the United States Air Force Academy, respectively, to command positions while such professors are serving on a sabbatical tour of duty in an Army or Air Force unit outside the academic department of the academy to which they are assigned.

The Senate amendment contained no similar provision.

The House recedes.

Special operations fellowships

The House bill contained a provision (sec. 526) that would authorize the Secretary of Defense to prescribe regulations under which the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict may award to an eligible person a fellowship leading to a doctoral or masters degree in a discipline determined by the Assistant Secretary.

The Senate amendment contained no similar provision.

The House recedes.

Condition on appointment of commissioned officers to position of Director of National Intelligence or Director of the Central Intelligence Agency

The Senate amendment contained a provision (sec. 530) that would amend chapters 32 and 63 of title 10, United States Code, to add new sections. In chapter 32, the provision would require that a commissioned officer, as a condition of appointment to the position of Director of National Intelligence or Director of the Central Intelligence Agency, acknowledge that upon termination of an assignment to either position the officer will retire. In chapter 63, the provision would require the Secretaries of military departments to retire an officer upon termination of an assignment in either position.

The House bill contained no similar provision.

The Senate recedes.

Pilot program on reintegration of members of the National Guard into civilian life after deployment

The Senate amendment contained a provision (sec. 534) that would require the Secretary of the Army to carry out a pilot program to assess the feasibility and advisability of a voluntary program to facilitate the reintegration of members of the National Guard into civilian life upon return from an overseas deployment.

The House bill contained no similar provision.

The Senate recedes.

The conferees believe that with the heavy reliance on the men and women of the National Guard and Reserve in support of Operation Enduring Freedom and Operation Iraqi Freedom it is essential that the Department of Defense take action to improve the flexibility and adequacy of military transition assistance programs (TAP) for their benefit. TAP for reservists should facilitate the reintegration of members of the National Guard and Reserve into civilian life as soon as possible after their return from an overseas deployment. TAP for reservists should also make such programs voluntary where appropriate and respect the desire of many Guardsmen and reservists to "stand down" from their military duties for appropriate periods. Therefore, the conferees urge the Department to implement and support a reintegration pilot program in a State that has a National Guard brigade returning from an overseas deployment. In the Senate Report accompanying H.R. 5631 (S. Rept. 09-292) of the Department of Defense Appropriations Bill, 2007, the conferees note that the Senate supported funding of $6.7 million for a reintegration initiative in connection with overseas deployment. If such a pilot program is implemented, the conferees direct the Secretary of Defense to submit a report of evaluation within 90 days of its conclusion, including a recommendation regarding the feasibility of reintegration programs for members of the National Guard and Reserve.

Report on using six-month deployments for Operation Enduring Freedom and Operation Iraqi Freedom

The House bill contained a provision (sec. 534) that would express the sense of Congress that the Secretary of the Army should continue to evaluate and consider the potential benefits and impacts of 6-month overseas deployments for soldiers in connection with Operation Enduring Freedom and Operation Iraqi Freedom. The provision would require the Secretary of the Army to submit a report on any plans, benefits, and drawbacks regarding shorter deployments and the results of any surveys of soldiers and their dependents regarding proposals to reduce the length of operational deployments

The Senate amendment contained no similar provision.

The House recedes.

National Guard officers authority to command

The House bill contained a provision (sec. 544) that would permit, with presidential authorization and consent of the Governor concerned, any National Guard officer to retain a State commission in the National Guard while serving on active duty. The provision would further allow such authorization and consent to be obtained in advance in order to establish succession to command.

The Senate amendment contained no similar provision.

The House recedes.

The conferees recommend that the Commission on the National Guard and Reserve review the advisability and feasibility of further expanding the authority of National Guard officers to serve in both Federal status under title 10, United States Code, and State status under title 32, United States Code, as a means of achieving unity of command of units that are composed of both active-duty members and National Guard personnel. Elsewhere in this report, the conferees agree to add this issue to the matters referred to the commission for review on a priority basis.

Cold War Victory Medal

The House bill contained a provision (sec. 552) that would require the service secretaries to issue a service medal to be known as the Cold War Victory Medal to eligible members and former members of the Armed Forces who performed active duty or inactive duty training between September 2, 1945, and December 26, 1991.

The Senate amendment contained no similar provision.

The House recedes.

Advancement on the retired list of certain decorated retired Navy and Marine Corps officers

The House bill contained a provision (sec. 554) that would require the Secretary of the Navy, upon receipt of a qualifying application, to advance to the next higher grade on the retired list officers who had been specifically commended for performance of duty in combat during World War II. The provision, which would have restored in part a retirement benefit that ended in 1959, would have no effect on compensation or benefits.

The Senate amendment contained no similar provision.

The House recedes.

Criteria for removal of member from temporary disability retired list

The House bill contained a provision (sec. 561) that would amend section 1210(e) of title 10, United States Code, to direct that a member with less than a 30 percent disability rating may not be removed from the temporary disability retired list (TDRL) and separated prior to the expiration of the maximum TDRL period allowed by law unless the disability is of a permanent nature and stable.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are concerned that the absence of a standard relating to the permanent and stable nature of a disability rated at less than 30 percent under section 1210(e) of title 10 may lead to inequitable results for members with less than 20 years of active-duty service. The conferees direct the Secretary of Defense to submit a report no later than May 1, 2007, describing the manner in which section 1210(e) is implemented in the military departments and explaining how military members with disabilities rated at less than 30 percent who are placed on the TDRL are administered. The report should include discussion of what the impact would be of a change in law requiring that such a disability be of a permanent and stable nature. The report should include recommendations for legislative changes that would ensure that members with substantial active-duty service are treated equitably.

Modification of time limit for use of entitlement to educational assistance for reserve component members supporting contingency operations and other operations

The Senate amendment contained a provision (sec. 570A) that would extend the time a member of the Selected Reserve is authorized to use the educational benefit earned for service while recalled to active duty in support of a war or national emergency for a period of 10 years from the date of separation from the Selected Reserve.

The House bill contained no similar provision.

The Senate recedes.

Postal benefits program for members of the Armed Forces

The House bill contained a provision (sec. 575) that would require the Secretary of Defense, in consultation with the United States Postal Service, to provide a program of postal benefits to military members who are serving in Iraq or Afghanistan, or who are hospitalized at a military medical facility as a result of disease or injury incurred while serving in Iraq or Afghanistan. The postal benefit would be provided using coupons or other forms of evidence indicating a mailing privilege to be used to mail letters, sound and video recordings, printed materials, or ground parcels not exceeding 15 pounds in weight at no cost.

The Senate amendment contained no similar provision.

The House recedes.

Funding

The House bill contained a provision (sec. 576) that would require the Secretary of Defense to fund the operation of the postal benefit program from contingent emergency reserve funds or emergency supplemental appropriations.

The Senate amendment contained no similar provision.

The House recedes.

Duration

The House bill contained a provision (sec. 577) that would require new postal benefits to apply with respect to mail sent during the 1-year period beginning on the date on which the regulations administering the postal benefit are issued by the Secretary of Defense.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Senate on notice to Congress of recognition of members of the Armed Forces for extraordinary acts of bravery, heroism, and achievement

The Senate amendment contained a provision (sec. 587) that would express the sense of the Senate that the Secretary of Defense or the service secretaries should notify the Committees on Armed Services of the Senate and the House of Representatives and applicable senators and representatives when a member of the Armed Forces receives a medal or is otherwise commended or recognized for an act of extraordinary heroism, bravery, achievement, or other distinction.

The House bill contained no similar provision.

The Senate recedes.

Department of Labor Transitional Assistance Program

The House bill contained a provision (sec. 588) that would amend section 1144 of title 10, United States Code, to require participation by certain members of reserve components in the transition assistance program (TAP) provided by the Secretary of Labor, and encourage participation by certain members who had previously participated in such programs. The provision would also require the service secretaries to update the content of transition materials used by the National Veterans Training Institute of the Department of Labor on a continuing basis.

The Senate amendment contained no similar provision.

The House recedes.

The conferees expect the Secretary of Defense, the Secretaries of the military Departments, and the Secretary of Labor to take steps to ensure maximum participation by all eligible service members, and particularly members of the National Guard and Reserve, in pre-separation counseling and TAP. Military leaders should encourage and assist separating service members to develop personal transition plans prior to separation. TAP presentations programs should be scheduled during duty time to ensure all separating service members, including Guard and Reserve members, have full access and opportunity to attend.

The conferees are encouraged by the new approach to the TAP for members of the Guard and Reserve and their families described in the Report to Congress on Transition Assistance and Disabled Transition Assistance Programs of May 4, 2006. The combination of a transition assistance orientation, a new web-based transition assistance portal, and an around-the-clock call center will address the full spectrum of needs and concerns of demobilizing Guard and Reserve personnel by providing the assistance whenever needed without unnecessarily delaying the members' return to their homes following deployments. The conferees encourage the expedited implementation of this new approach.

Military chaplains

The House bill contained a provision (sec. 590) that would amend sections 3547, 4337, 6031, 8547, and 9337 of title 10, United States Code, to prescribe that military chaplains shall have the prerogative to pray according to the dictates of their conscience, except as must be limited by military necessity, with any such limitation being imposed in the least restrictive manner feasible.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Secretary of the Air Force to rescind the policy and revised interim guidelines concerning the exercise of religion in the Air Force issued on February 9, 2006, and direct the Secretary of the Air Force to reinstate the policy that was set forth in the Air Force Directive 52-1 dated July 1, 1999. The conferees further direct the Secretary of the Navy to rescind the Secretary of the Navy Instruction 1730.7C dated February 21, 2006, titled "Religious Ministry within the Department of the Navy," and direct the Secretary of the Navy to reinstate the policy that was set forth in the Secretary of the Navy Instruction 1730.7B dated October 12, 2000.

Entrepreneurial service members empowerment task force

The House bill contained a provision (sec. 592) that would require the Secretary of Defense, in coordination with the Administrator of the Small Business Administration, to establish a task force that would improve programs designed to address the economic concerns and business challenges of military member entrepreneurs and coordination of programs by Federal agencies.

The Senate amendment contained no similar provision.

The House recedes.

Funeral ceremonies for veterans

The Senate amendment contained a provision (sec. 592) that would amend section 1491 of title 10, United States Code, to authorize the service secretaries, under regulations and procedures prescribed by the Secretary of Defense, to support the conduct of funeral honors that are provided solely by members of veterans organizations for deceased veterans. The provision would also amend section 4683 of title 10, United States Code, to authorize the use at funeral ceremonies of M–1 rifles by designees of veterans organizations who are at least 18 years of age, are the spouses, sons, daughters, nephews, nieces, or other family relations of members or former members of the Armed Forces, and have successfully completed a formal firearm training program or a hunting safety program.

The House bill contained no similar provision.

The Senate recedes.

The conferees acknowledge and are deeply grateful for the voluntary contribution of time, resources, and expertise by veterans organizations and their members who provide funeral honors for deceased veterans, particularly in rural and remote areas far from military installations. Without their assistance, the rendering of appropriate funeral honors when requested by survivors to those who have served in the Armed Forces would not be possible. The conferees believe that greater effort is needed by the Department of Defense to identify appropriate means to support veterans organization partners in fulfilling this commitment. The conferees also believe that reasonable steps should be taken to support members of veterans organizations who render funeral honors by loaning M–1 rifles under the authority of section 4683. The conferees direct the Secretary of the Army to submit a report to the Committees on Armed Services of the Senate and the House of Representatives within 90 days of the date of the enactment of this Act on current policies and practices of the Army relating to limits or prohibitions being enforced by the Army on the use of M–1 rifles by members of veterans organizations who are relatives or family members of veterans but not veterans themselves.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

Legislative Provisions Adopted

Subtitle A—Pay and Allowances

Fiscal year 2007 increase in military basic pay and reform of basic pay rates (sec. 601)

The House bill contained provisions (secs. 601–602) that would increase the rate of basic pay for all military members by 2.7 percent effective on January 1, 2007, and, for certain mid-career personnel, increase the rate of pay by higher percentages effective April 1, 2007.

The Senate amendment contained a provision (sec. 601) that would authorize a pay raise for members of the uniformed services of 2.2 percent effective on January 1, 2007; target pay raises for warrant officers and enlisted members serving in the E–5 to E–7 grades that would be effective on April 1, 2007; and extend the basic pay table to 40 years, providing longevity step increases for the highest officer, warrant officer, and enlisted grades.

The House recedes with a technical amendment.

Increase in maximum rate of basic pay for general and flag officer grades to conform to increase in pay cap for Senior Executive Service personnel (sec. 602)

The House bill contained a provision (sec. 603) that would amend section 203(a)(2) of title 37, United States Code, to provide that the rates of basic pay for officers in pay grades O–7 through O–10 may not exceed the monthly equivalent of the rate of pay for level II, vice III, of the Executive Schedule.

The Senate amendment contained a similar provision (sec. 602).

The House recedes with a technical amendment.

One-year extension of prohibition against requiring certain injured members to pay for meals provided by military treatment facilities (sec. 603)

The Senate amendment contained a provision (sec. 604) that would amend section 402(h)(3) of title 37, United States Code, to extend for an additional year the prohibition on requiring members who are undergoing medical recuperation or therapy, or are otherwise in the status of continuous care, including outpatient care, at a military treatment facility for injuries, illnesses, or diseases incurred or aggravated while serving on active duty in support of Operation Iraqi Freedom or Operation Enduring Freedom, or in any other operation designated by the Secretary of Defense as a combat operation or in an area designated by the Secretary as a combat zone. The provision would also require the Secretary to submit a report to the congressional defense committees by February 1, 2007, on the administration of section 402(h)(3), including an assessment of the implementation of the prohibition by the services and recommendations regarding whether this authority should be made permanent.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Availability of second basic allowance for housing for certain reserve component or retired members serving in support of contingency operations (sec. 604)

The House bill contained a provision (sec. 604) that would amend section 403(g) of title 37, United States Code, to authorize service secretaries to pay a second monthly basic allowance for housing in lieu of per diem to reserve component members without dependents mobilized in support of a contingency operation.

The Senate amendment contained a similar provision (sec. 605).

The Senate recedes with an amendment that would make the provision effective on or after October 1, 2006.

Extension of temporary continuation of housing allowance for dependents of members dying on active duty to spouses who are also members (sec. 605)

The House bill contained a provision (sec. 605) that would amend section 403(l) of title 37, United States Code, to provide that a member of the uniformed services, who is a spouse of a deceased member who died while serving on active duty, may continue to be paid the basic allowance for housing.

The Senate amendment contained a similar provision (sec. 606).

The Senate recedes.

Payment of full premium for coverage under Servicemembers' Group Life Insurance program during service in Operation Enduring Freedom or Operation Iraqi Freedom (sec. 606)

The House bill contained a provision (sec. 607) that would amend section 437 of title 37, United States Code, to increase from $150,000 to $400,000 the amount of coverage under the Servicemembers' Group Life Insurance that the services would be required to fund for all members of the Armed Forces serving in Operation Enduring Freedom or Operation Iraqi Freedom.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Clarification of effective date of prohibition on compensation for correspondence courses (sec. 607)

The House bill contained a provision (sec. 606) that would amend section 206(d) of title 37, United States Code, to clarify that the prohibition on compensation for work or study in connection with correspondence courses, including the prohibition as it relates to a member of the National Guard while not in federal service, applies to any such work or study performed on or after September 7, 1962, and to any claim for compensation based on such work or study arising after that date

The Senate amendment contained a similar provision (sec. 603).

The Senate recedes.

The conferees direct the Secretary of Defense to review the policy regarding compensation of members of the reserve components (which include officers and enlisted personnel of the National Guard) for completing correspondence and distance learning courses. The review should include an audit of military professional education and other career development and military skills courses that are required for continued military service and advancement in the reserve component. For those courses that do not afford reserve component members practical options for attending in residence, an assessment should be completed of the feasibility and need for compensation as an incentive to complete correspondence and distance learning courses. The Secretary should report on the results of this review, including any recommendations for legislative changes, by July 31, 2007, to the Committees on Armed Services of the Senate and the House of Representatives.

Extension of pilot program on contributions to Thrift Savings Plan for initial enlistees in the Army (sec. 608)

The Senate amendment contained a provision (sec. 619) that would extend the pilot program on contributions to the Thrift Savings Plan for initial enlistees in the Army, as required by section 606 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163), until December 31, 2008. The provision would also extend the due date for the report on the pilot program to February 1, 2008.

The House bill contained no similar provision.

The House recedes.

Subtitle B—Bonuses and Special and Incentive Pays

Extension of certain bonus and special pay authorities for reserve forces (sec. 611)

The House bill contained a provision (sec. 611) that would extend for 1 year the authority to pay the Selected Reserve reenlistment bonus; the Selected Reserve affiliation or enlistment bonus; the special pay for enlisted members assigned to certain high priority units; the Ready Reserve enlistment bonus for persons without prior service; the Ready Reserve enlistment and reenlistment bonus for persons with prior service; and the Selected Reserve enlistment bonus for persons with prior service.

The Senate amendment contained a similar provision (sec. 611).

The House recedes.

Extension of certain bonus and special pay authorities for health care professionals (sec. 612)

The House bill contained a provision (sec. 612) that would extend the authority for the nurse officer candidate accession program, the accession bonus for registered nurses, the incentive special pay for nurse anesthetists, the special pay for Selected Reserve health professionals in critically short wartime specialties, the accession bonus for dental officers, and the accession bonus for pharmacy officers until December 31, 2007. Additionally, the provision would extend the authority to repay the educational loans for certain health professionals who serve in the Selected Reserve to January 1, 2008.

The Senate amendment contained a similar provision (sec. 612).

The House recedes.

Extension of special pay and bonus authorities for nuclear officers (sec. 613)

The House bill contained a provision (sec. 613) that would extend for 1 year the authority to pay the special pay for nuclear-qualified officers extending their period of active service; the nuclear career accession bonus; and the nuclear career annual incentive bonus.

The Senate amendment contained an identical provision (sec. 613).

The conference agreement includes this provision.

Extension of authorities relating to payment of other bonuses and special pays (sec. 614)

The House bill contained a provision (sec. 614) that would extend for 1 year the authority to pay the aviation officer retention bonus; assignment incentive pay; the reenlistment bonus for active members; the enlistment bonus; the retention bonus for members qualified in critical military skills or assigned to high priority units; the accession bonus for new officers in critical skills; the incentive bonus for conversion to military occupational specialty to ease personnel shortage; and the incentive bonus for transfer between the armed forces.

The Senate amendment contained a similar provision (sec. 614). The provision would extend through December 31, 2009, the authority to pay the incentive bonus for transfer between the armed forces.

The House recedes.

Expansion of eligibility of dental officers for additional special pay (sec. 615)

The House bill contained a provision (sec. 615) that would authorize additional special pay for dental officers while they are undergoing dental internship or residency training.

The Senate amendment contained no similar provision.

The Senate recedes.

Increase in maximum annual rate of special pay for Selected Reserve health care professionals in critically short wartime specialties (sec. 616)

The House bill contained a provision (sec. 616) that would increase the maximum annual rate of special pay for Selected Reserve health care professionals in critically short wartime specialties from $10,000 to $25,000.

The Senate amendment contained a similar amendment (sec. 615).

The House recedes with a clarifying amendment.

Expansion and enhancement of accession bonus authorities for certain officers in health care specialties (sec. 617)

The House bill contained a provision (sec. 621) that would authorize the Secretary of Defense to establish a 2-year pilot program to offer additional financial incentives for up to five critical medical specialties.

The Senate amendment contained a provision (sec. 616) that would authorize an increase in the maximum amount authorized for an accession bonus for fully qualified dental officers from $30,000 to $200,000, and an accession bonus of up to $400,000 for fully qualified medical officers and dental specialist officers in critically short wartime specialties.

The House recedes with a technical amendment.

Authority to provide lump sum payment of nuclear officer incentive pay (sec. 618)

The House bill contained a provision (sec. 617) that would authorize nuclear officer incentive pay to be paid as a lump sum or in variable amounts in addition to payment in equal annual installments.

The Senate amendment contained no similar provision.

The Senate recedes.

Increase in maximum amount of nuclear career accession bonus (sec. 619)

The House bill contained a provision (sec. 618) that would increase the maximum amount of the nuclear career accession bonus from $20,000 to $30,000.

The Senate amendment contained a similar provision (sec. 617).

The House recedes with a clarifying amendment.

Increase in maximum amount of incentive bonus for transfer between Armed Forces (sec. 620)

The House bill contained a provision (sec. 619) that would amend section 327(d)(1) of title 37, United States Code, to increase the maximum authorized amount of the incentive bonus for transfer between armed forces from $2,500 to $10,000.

The Senate amendment contained a similar provision (sec. 618(d)).

The Senate recedes with a technical amendment.

Additional authorities and incentives to encourage retired members and reserve component members to volunteer to serve on active duty in high-demand, low-density assignments (sec. 621)

The House bill contained a provision (sec. 623) that would add a new section 329 to title 37, United States Code. The provision would authorize the Secretary of Defense to pay a bonus of up to $50,000 to encourage retired members, reservists, and former members discharged from the military to return to active duty to fill manpower requirements in units tasked to provide high-demand, low-density military capabilities or to fill other specialties, as designated by the Secretary as critical to meet wartime or peacetime requirements. This section would also authorize the Secretary to develop additional incentives to encourage personnel with critical, high-demand, low-density skills to return to active duty. The authority would expire on December 31, 2010. The provision would also amend section 688a of title 10, United States Code, to authorize the Secretary concerned to order to active duty a retired member who agrees to serve on active duty in an assignment intended to alleviate a high-demand, low-density military capability.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would specify that members appointed under the authority of section 329 of title 37, United States Code, are not eligible for promotion.

Accession bonus for members of the Armed Forces appointed as commissioned officers after completing officer candidate school (sec. 622)

The Senate amendment contained a provision (sec. 620) that would amend title 37, United States Code, to add a new section 330 that would authorize an accession bonus not to exceed $8,000 for persons who complete officer candidate school (OCS), accept a commission or appointment as an officer of the armed forces, and serve on active duty in accordance with the terms of their agreement. The provision would also authorize the Secretary of the Army to pay an accession bonus not to exceed $8,000 to a person who, during the period beginning on April 1, 2005, and ending on April 6, 2006, executed an agreement to enlist for the purpose of attending OCS and received a bonus under section 309 of title 37, United States Code, and who completed the terms of the agreement required for payment of the bonus.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Modification of certain authorities applicable to the targeted shaping of the Armed Forces (sec. 623)

The House bill contained a provision (sec. 622) that would expand the temporary program of voluntary separation incentives (VSI) and benefits authorized by section 643 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) to remove the bar prohibiting participation of enlisted personnel and officers with between 12 and 20 years of service. The provision would also amend section 1175 of title 10, United States Code, to extend the expiration date of the authority from December 31, 2008, to December 31, 2009.

The Senate amendment contained a similar provision (sec. 618) that would increase the maximum authorized amount of the VSI to an amount not greater than four times the full amount of separation pay for a member of the same pay grade and years of service who is involuntarily separated under section 1174 of title 10, United States Code, and extend the authority to use the provision through December 31, 2012. The provision would amend sections 638 and 638a of title 10, United States Code, to relax limitations on use of selective early retirements and discharges through December 31, 2012.

The House recedes with an amendment that would delete provisions relating to the expanded use of selective early retirement boards under sections 638 and 638a.

Enhancement of bonus to encourage certain persons to refer other persons for enlistment in the Army (sec. 624)

The House bill contained a provision (sec. 620) that would amend section 645(a) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) to clarify that military retirees, to include members of a reserve component under 60 years of age who, but for age, would be eligible for retired pay, are eligible to be paid the referral bonus.

The Senate amendment contained a similar provision (sec. 621). The provision would increase the maximum amount of the bonus not to exceed $2,000; provide that civilian employees of the Department of the Army are also eligible to receive the referral bonus; and specify that a referral bonus paid to a retiree is in addition to any compensation to which such a member is entitled under titles 10, 37, or 38 United States Code, or under any other provision of law.

The House recedes with an amendment that would make administrators or instructors in the Junior Reserve Officers' Training Corps program or retired members of the Army employed as administrators or instructors in the program ineligible for the bonus.

Subtitle C—Travel and Transportation Allowances

Travel and transportation allowances for transportation of family members incident to illness or injury of members (sec. 631)

The House bill contained a provision (sec. 633) that would amend section 411h of title 37, United States Code, to authorize the payment of travel and transportation allowances to a person related to a seriously injured or ill member covered under section 411h, who is also a member of the Armed Forces.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle D—Retired Pay and Survivor Benefits

Retired pay of general and flag officers to be based on rates of basic pay provided by law (sec. 641)

The Senate amendment contained a provision (sec. 650) that would add a new section 1407a to title 10, United States Code, that would control the calculation of the retired pay of a flag or general officer whose rate of pay while on active duty was subject to a reduction under section 203(a)(2) of title 37. The provision would provide that such a determination would be made using the rates of basic pay in effect as provided by law rather than rates reduced under section 203(a)(2). The effective date for this provision would be October 1, 2006.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Inapplicability of retired pay multiplier maximum percentage to service of members of the Armed Forces in excess of 30 years (sec. 642)

The Senate amendment contained a provision (sec. 651) that would amend sections 1409 and 12739 of title 10, United States Code, to provide that in the case of a member who retires after December 31, 2006, with more than 30 years of creditable service, the percentage to be used to calculate retired pay would increase based on the years of active-duty or reserve service in excess of 30 years pursuant to a prescribed formula. The Secretary of Defense would be authorized to establish conditions under which this higher rate of retired pay would be afforded for purposes of this provision.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Military Survivor Benefit Plan beneficiaries under insurable interest coverage (sec. 643)

The House bill contained a provision (sec. 641) that would amend section 1448(b)(1) of title 10, United States Code, to allow military retirees who participate in the Survivor Benefit Plan and elect the insurable interest coverage to select a new insurable interest if their designated beneficiary dies.

The Senate amendment contained no similar provision.

The Senate recedes.

Modification of eligibility for commencement of authority for optional annuities for dependents under the Survivor Benefit Plan (sec. 644)

The House bill contained a provision (sec. 645) that would express the sense of Congress that eligibility for a surviving child annuity in lieu of a surviving spouse annuity under the Survivor Benefit Plan (SBP) for a child of a member of the Armed Forces who dies while on active duty should be extended so as to cover children of members who die after October 7, 2001, rather than only children of members dying after November 23, 2003.

The Senate amendment contained a provision (sec. 652) that would amend section 1448(d)(2)(B) of title 10, United States Code, to effect the foregoing change to SBP elections based on service member deaths after October 7, 2001.

The House recedes.

Study of training costs, manning, operations tempo, and other factors that affect retention of members of the Armed Forces with special operations designations (sec. 645)

The House bill contained a provision (sec. 644) that would require the Secretary of Defense to submit a report, not later than 90 days after the date of the enactment of this Act, on retention of members of the Armed Forces who have a special operations forces designation.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete certain matters to be reported on, and require that the report be submitted no later than August 1, 2007.

Subtitle E—Commissary and Nonappropriated Fund Instrumentality Benefits

Treatment of price surcharges of certain merchandise sold at commissary stores (sec. 661)

The House bill contained a provision (sec. 651) that would clarify that revenues for products that are sold in commissary stores as special exceptions to the standard surcharge shall be applied to the surcharge fund as if it were a uniform surcharge product.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Limitations on lease of non-excess Department of Defense property for protection of morale, welfare, and recreation activities and revenue (sec. 662)

The House bill contained a provision (sec. 652) that would prohibit the Secretary of Defense from entering into a lease for enhanced use of non-excess Department of Defense property, which includes the establishment or operation of an ancillary support facility if that facility would be in direct competition with military exchanges, commissaries, and morale, welfare, and recreation activities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a lessee to provide military exchanges, commissaries, and morale, welfare, and recreation activities the right to establish and operate a community support facility or provide community support services that are determined to be in direct competition with facilities or activities of those entities, or to seek equitable compensation for Department morale, welfare, and recreation programs in lieu of operation of such a facility or service. The amendment would allow these entities 90 days within which to exercise the right to establish or operate such community support facilities or services, and require notification to Congress regarding all leases for enhanced use that include such facilities or services. The amendment would also require the Secretary to prescribe uniform procedures and criteria for the evaluation of proposals for enhanced use leases involving the operation of community support facilities or services by either a lessee or a military exchange, commissary, or morale, welfare, and recreation entity. The conferees note that the term "lodging support services" as used in the provision was intended to include coin operated machines, lobby store for personal items and snacks, restaurants/snack bars, and other similar support services.

The conferees direct the Secretary to ensure that the notifications required in subsection (d)(6) of the amendment are carried out in the same manner as approval or disapproval is obtained from the Committees on Armed Services of the Senate and the House of Representatives for non-appropriated fund military construction projects.

Report on cost effectiveness of purchasing commercial insurance for commissary and exchange facilities and facilities of other morale, welfare, and recreation programs and nonappropriated fund instrumentalities (sec. 663)

The House bill contained a provision (sec. 654) that would require the Secretary of Defense to submit a report to Congress evaluating the cost effectiveness of the Defense Commissary Agency and certain nonappropriated fund activities purchasing commercial insurance to protect financial interests in facilities operated by morale, welfare, and recreation activities, military exchange stores, and commissary stores against loss or damage.

The Senate amendment contained no similar provision.

The Senate recedes.

Study and report regarding access of disabled persons to morale, welfare, and recreation facilities and activities (sec. 664)

The House bill contained a provision (sec. 662) that would require the Secretary of Defense to conduct a pilot project at a significant number of military golf courses for the purpose of developing a strategy to make golfs carts that are accessible for disabled persons available at all military golf courses.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to conduct a study of the current capability of Department of Defense morale, welfare, and recreation facilities and nonappropriated fund activities to provide access and accommodation to disabled persons, with specific attention to the applicability of section 504 of the Rehabilitation Act of 1973 (Public Law 93–112). The amendment would require the study to include plans to make available additional golf carts at military golf courses that are accessible for disabled persons authorized to use such courses. The amendment would require the Secretary to report to Congress on the results of the study not later than 180 days after the date of the enactment of this Act.

Subtitle F—Other Matters

Limitations on terms of consumer credit extended to servicemembers and dependents (sec. 670)

The Senate amendment contained a provision (sec. 666) that would amend title II of the Servicemembers Civil Relief Act (50 U.S.C. App. 521 et seq.) (SCRA) to add a new section 208 that would regulate the terms of consumer credit extended by creditors to servicemembers and servicemembers' dependents. The provision would: (1) prohibit creditors from imposing an annual percentage rate greater than 36 percent for consumer credit loans; (2) require prescribed mandatory loan disclosures, including a clear description of payment obligations; (3) prohibit creditors from automatically renewing, repaying, refinancing, or consolidating a loan without executing new loan documentation and loan disclosures; and (4) preempt any State or Federal law or regulation to the extent that such law or regulation is inconsistent with this provision. The provision would provide penalties, including fines as provided in title 18, United States Code, or imprisonment for not more than 1 year.

The House bill contained no similar provision.

The House recedes with an amendment that would amend title 10, rather than the SCRA, to add a new section 987 that would establish additional protections for servicemembers and their dependents who are extended credit. The amendment would prohibit creditors from charging servicemembers and their dependents annual percentage rates of interest for loans higher than the legal limits for residents of the State. The amendment would prohibit violation or waiver of any State consumer lending protections that protect residents of the State on the basis of nonresident or military status. The amendment would set forth specific limitations on lending practices by creditors who extend credit to covered members and their dependents, including mandatory waiver of a borrower's right to legal recourse using a check or other means of access to a deposit, savings, or other financial account maintained by the borrower; or using the title of a vehicle as security for an obligation. The amendment would direct the Secretary of Defense, in consultation with other Federal regulatory agencies, including the Federal Trade Commission, the Board of Governors of the Federal Reserve System, the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the National Credit Union Administration, and the Treasury Department, to prescribe regulations to carry out this provision.

Enhancement of authority to waive claims for overpayment of pay and allowances and travel and transportation allowances (sec. 671)

The Senate amendment contained a provision (sec. 665) that would amend section 2774 of title 10, United States Code, to specify that a claim of the United States against a person arising out of an erroneous payment of a bonus, special pay, or incentive pay, in addition to erroneous payment of pay or allowances, may be waived. The provision would also increase the dollar limit for waivers from $1,500 to $10,000 and extend the period in which a waiver may be granted from 3 years to 5 years. The provision would require that any modifications to standards under section 2774 controlling waivers of claims necessitated by this provision be completed not later than March 1, 2007.

The House bill contained no similar provision.

The House recedes with an amendment that would delete the requirement for modifications to applicable standards and the provision relating to bonuses, special pays, and incentive pays as unnecessary.

Exception for notice to consumer reporting agencies regarding debts or erroneous payments pending a decision to waive, remit, or cancel (sec. 672)

The Senate amendment contained a provision (sec. 664) that would amend section 2780 of title 10, United States Code, to prohibit disclosure of information to consumer reporting agencies concerning indebtedness of a member that is delinquent by more than 3 months while a decision regarding waiver, remission, or cancellation is pending.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Expansion and enhancement of authority to remit or cancel indebtedness of members and former members of the Armed Forces incurred on active duty (sec. 673)

The House bill contained a provision (sec. 663) that would amend sections 4837, 6161, and 9837 of title 10, United States Code, to extend the termination date of the temporary expanded authority to remit or cancel indebtedness of military members included in section 683 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) from December 31, 2007, to December 31, 2009. The provision would also increase the period of time from 1 year to 5 years following honorable discharge or separation during which the service secretaries may exercise the expanded authority to remit and cancel indebtedness.

The Senate amendment contained a similar provision (sec. 663) that would extend the applicability of the remission or cancellation authority to retired members. The provision would also authorize the Secretary of Defense to determine the limits on the time for exercise of the authority to remit or cancel indebtedness by regulation.

The House recedes with an amendment that would authorize service secretaries to remit or cancel indebtedness of persons incurred while they served on active duty in the armed forces. The amendment would eliminate limits on the allowable period of exercise of their authority retroactive to October 7, 2001, and make the authority to remit or cancel indebtedness permanent.

The conferees believe that the Secretary of Defense must take more forceful steps to ensure that policies and procedures used by the Defense Finance and Accounting Service and the services relating to the collection of indebtedness incurred by members are cost-effective and equitable. Collection practices must take into account fully the problems created by existing manual pay systems, sources of errors causing overpayments, and the harmful effects on morale of belated, computer-generated efforts to recoup pay from members, particularly those who have served under combat conditions, whose overpayments occurred through no fault of the member.

Phased recovery of overpayments of pay made to members of the uniformed services (sec. 674)

The House bill contained a provision (sec. 664) that would amend section 1007 of title 37, United States Code, to provide that the amount deducted from the pay of a member to recover an overpayment may not exceed 20 percent per month of the member's pay when the overpayment occurred through no fault of the member. Additionally, no deduction would be authorized from the pay of a member who has been wounded or injured in the line of duty or who incurred an illness in a combat operation or combat zone until the 90-day period beginning on the date on which the member is notified of the overpayment has expired.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize waiver of the conditions limiting collection of overpayments if the member requests or consents to collection of the overpayment at an accelerated rate or at an earlier date.

Joint family support assistance program (sec. 675)

The Senate amendment contained a provision (sec. 667) that would require the Secretary of Defense to establish a joint family support program in at least six regions in the United States. The program would provide financial and other assistance to families of members of the Armed Forces, including sponsorship of volunteers and coordination of family assistance activities of the Department of Defense as well as other public and private entities. The provision would also authorize $5.0 million in Operation and Maintenance, Defense-wide to provide financial, material, or other support to nonprofit entities to facilitate assistance by those entities to geographically isolated family members of the Armed Forces. The authority for both programs would expire 3 years after the initial obligation of funds.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the number of joint family support assistance regional sites to six, and clarify that the program is not intended to operate in lieu of existing family support centers, but rather to augment the activities of the Department of Defense and the military departments family support centers. The amendment would also delete the authorization for grants to nonprofit entities.

The conference outcome is reflected in the tables in this report.

Special working group on transition to civilian employment of National Guard and Reserve members returning from deployment in Operation Iraqi Freedom or Operation Enduring Freedom (sec. 676)

The Senate amendment contained a provision (sec. 682) that would require the Secretary of Defense to establish a working group to identify and assess the needs of members of the National Guard and Reserve returning from deployment in Operation Iraqi Freedom or Operation Enduring Freedom in the transition to civilian employment. The working group would be required to report its recommendations to Congress within 1 year on the provision of assistance to employers and employment assistance organizations, and ways to improve collaboration between the public and private sector in order to ensure the successful transition of members into civilian employment.

The House bill contained no similar provision.

The House recedes with an amendment that would require the working group to assess the extent to which members of the National Guard and Reserve receive promotions, or experience termination of employment, upon their return from deployment in Operation Iraqi Freedom or Operation Enduring Freedom.

Audit of pay accounts of members of the Army evacuated from a combat zone for inpatient care (sec. 677)

The Senate amendment contained a provision (sec. 661) that would require the Secretary of the Army to conduct an audit of the pay accounts of each member of the Army wounded or injured in a combat zone who was evacuated from a theater of operations for inpatient care during the period beginning on May 1, 2005, and ending on April 30, 2006. The provision would also require the Secretary of the Army to submit a report to the congressional defense committees, no later than 120 days after the date of enactment of this Act, on the results of the audit. The provision would also require the Secretary of Defense to establish within the Department of Defense a call assistance center for resolution of military pay problems.

The House bill contained no similar provision.

The House recedes with an amendment that would delete the requirement for establishment of a call assistance center in view of the availability of other means for members and their dependents to obtain assistance in resolving pay problems.

Report on eligibility and provision of assignment incentive pay (sec. 678)

The House bill contained a provision (sec. 624) that would express the sense of Congress that the Secretary of the Army should correct a pay inequity in the provision of assignment incentive pay under section 307a of title 37, United States Code, to certain members of the Army National Guard and the Army Reserve serving on active duty in Afghanistan and Iraq. The provision would require a report by the Secretary of the Army, not later than 30 days after the date of enactment of this Act, specifying the number of members adversely affected by the disparate treatment of members who previously served under a call or order to active duty under section 12304 of title 10, United States Code, in determining eligibility for assignment incentive pay, and setting forth proposed remedies or courses of action.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete the sense of Congress provision and extend the due date of the required Secretary of the Army report by 30 days.

Sense of Congress calling for payment to World War II veterans who survived Bataan Death March (sec. 679)

The House bill contained a provision (sec. 665) that would express the sense of Congress that there should be paid to Bataan Death March survivors or, if deceased, to their surviving spouses, an amount equaling $4 for each day of captivity during World War II, compounded annually at a 3 percent annual rate of interest.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress that an appropriate amount of compensation should be paid to Bataan Death March survivors or, if deceased, to their surviving spouses in recognition of their captivity.

Legislative Provisions Not Adopted

Authority to pay costs associated with delivery of motor vehicle to storage location selected by member and subsequent removal of vehicle

The House bill contained a provision (sec. 631) that would amend section 2634 of title 10, United States Code, to authorize payment to military members for the costs of delivery and removal of privately-owned vehicles from storage locations chosen by the member.

The Senate amendment contained no similar provision.

The House recedes.

Transportation of additional motor vehicle of members on change of permanent station to or from nonforeign areas outside the continental United States

The House bill contained a provision (sec. 632) that would amend section 2634 of title 10, United States Code, to authorize certain military members to ship two privately-owned vehicles during permanent change of station moves to nonforeign duty locations located outside the continental United States. Nonforeign duty locations would include Alaska, Hawaii, Puerto Rico, Guam, and other territories and possessions.

The Senate amendment contained no similar provision.

The House recedes.

Retroactive payment of additional death gratuity for certain members not previously covered

The House bill contained a provision (sec. 642) that would amend section 1478(d)(2) of title 10, United States Code, to retroactively extend the applicability of the enhanced death gratuity to survivors of military decedents who died on active duty between May 12, 2005, and August 31, 2005.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that this legislative change was previously enacted as section 1210 of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109–234).

Repeal of requirement of reduction of Survivor Benefit Plan survivor annuities by dependency and indemnity compensation

The Senate amendment contained a provision (sec. 642) that would amend sections 1450 and 1451 of title 10, United States Code, to repeal the requirement for reduction of annuities received under the Survivor Benefit Plan by the amount of dependency and indemnity compensation paid to certain beneficiaries under section 1311(a) of title 38, United States Code.

The House bill contained no similar provision.

The Senate recedes.

Effective date of paid-up coverage under Survivor Benefit Plan

The Senate amendment contained a provision (sec. 643) that would amend section 1452(j) of title 10, United States Code, to change the effective date for paid-up coverage under the Survivor Benefit Plan from October 1, 2008, to October 1, 2006.

The House bill contained no similar provision.

The Senate recedes.

Equity in computation of disability retired pay for reserve component members wounded in action

The House bill contained a provision (sec. 643) that would modify section 1208(b) of title 10, United States Code, to authorize calculation of the retired pay of a member of a reserve component using the member's total years of service in lieu of active-duty years of service when the member's retirement is based upon a disability that was incurred under circumstances that resulted in the award of the Purple Heart.

The Senate amendment contained no similar provision.

The House recedes.

The conferees believe that a review should be conducted of the disability retirement benefits provided to members of the Reserve and National Guard, particularly with respect to combat-related disabilities adversely affecting the future earning potential of military members. The conferees are concerned that, particularly in the case of disabilities resulting in retirement for physical disability, which were incurred as a result of combat or combat-related training, the military compensation system must equitably treat all active and reserve component members. The conferees direct the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives, not later than February 1, 2007, comparing the compensation of reserve and active-duty members and the feasibility of modifying existing laws controlling the calculation of disability retirement benefits to ensure equal treatment of active and reserve personnel under various circumstances, including combat operations.

Expansion of conditions for direct payment of divisible retired pay

The Senate amendment included a provision (sec. 644) that would amend section 1408(d) of title 10, United States Code, to provide that direct payments of divisible retired pay by the Defense Finance and Accounting Service (DFAS) may be made in all cases in accordance with the terms of a court decree. The provision would not affect the eligibility of former spouses of military members for a portion of retired pay and would only enable DFAS to provide direct payment.

The House bill contained no similar provision.

The Senate recedes.

Authority for cost of living adjustments of retired pay treated as divisible property

The Senate amendment contained a provision (sec. 645) that would amend section 1408 of title 10, United States Code, to authorize payment of cost of living adjustments in connection with awards of retired pay stated in dollar amounts.

The House bill contained no similar provision.

The Senate recedes.

Notice and copy to members of court orders on payment of retired pay

The Senate amendment contained a provision (sec. 646) that would amend section 1408 of title 10, United States Code, to allow a member to waive notice of an application for payment of retired pay and eliminate the requirement that a copy of the court order be sent to the member in every case.

The House bill contained no similar provision.

The Senate recedes.

Renaming of death gratuity payable for deaths of members of the Armed Forces as fallen hero compensation

The Senate amendment contained a provision (sec. 648) that would amend sections 1474 through 1480 and 1489 of title 10, United States Code, to change the term death gratuity to fallen hero compensation.

The House bill contained no similar provision.

The Senate recedes.

Effective date of termination of phase-in of concurrent receipt for veterans with service-connected disabilities rated as total by virtue of unemployability

The Senate amendment contained a provision (sec. 649) that would amend section 1414(a)(1) of title 10, United States Code, to provide that qualified retirees receiving veterans' disability compensation at the rate payable for a 100 percent disability by reason of a determination of individual unemployability would only be subject to phased-in implementation of authorization to receive both military retired pay and veterans' disability compensation for the period beginning on January 1, 2004, and ending on December 31, 2004, vice September 30, 2009.

The House bill contained no similar provision.

The Senate recedes.

Commencement of receipt of non-regular service retired pay by members of the Ready Reserve on active Federal status or active duty for significant periods

The Senate amendment contained a provision (sec. 653) that would amend section 12731 of title 10, United States Code, to provide that members of the Ready Reserve who have served on active duty or performed active service after September 11, 2001, would be eligible to have their age for receipt of retired pay reduced by 3 months for each aggregate of 90 days of active duty or active service performed in any fiscal year. Qualifying service for purposes of this provision would be service on active duty pursuant to a call or order to active duty under a provision of law referred to in section 101(a)(13)(B) of title 10, United States Code, or under section 12301(d) of that title. Qualifying active service would be under a call to active service authorized by the President or Secretary of Defense under section 502(f) of title 32 for purposes of responding to a national emergency declared by the President or supported by Federal funds.

The House bill contained no similar provision.

The Senate recedes.

Use of nonappropriated funds to supplement or replace appropriated funds for construction of facilities of exchange stores system or other nonappropriated fund instrumentalities, military lodging facilities, and community facilities

The House bill contained a provision (sec. 653) that would authorize the Secretary of Defense to allocate nonappropriated funds to augment or replace appropriated funding of construction of military exchanges and lodging, as well as morale, welfare, and recreation and community facilities, after providing notice to Congress.

The Senate amendment contained no similar provision.

The House recedes.

The conferees acknowledge the use of nonappropriated funds by the Department of Defense for construction of certain child care, lodging and other facilities, yet believe that such use should be limited to extraordinary circumstances when appropriated funds are not available, and only following notification to Congress.

The conferees direct the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives by February 1, 2007, a report which covers the following:

(1) the history of the Department's use of nonappropriated funds, during the period of October 1, 1995, through September 30, 2006, for construction of:

(a) facilities of the exchange stores system and other revenue-generating facilities operated by nonappropriated fund instrumentalities of the Department for the morale, welfare, and recreation of members of the Armed Forces;

(b) facilities of other nonappropriated fund instrumentalities of the Department for the morale, welfare, and recreation of members of the Armed Forces;

(c) military lodging facilities used to provide temporary lodging to authorized members of the Armed Forces, including temporary duty lodging, permanent change of station lodging, recreational lodging, and military treatment facility lodging; and

(d) community facilities intended to supplement mission activities, such as military museums and service academy extra-curricular activities, or to facilitate private organizations or enterprises, such as financial services, memorials, and thrift shop facilities, on military installations;

(2) the justification and rationale for utilization of nonappropriated funds for any construction project identified above; and

(3) recommendations for changes in legislation, if any, and specific criteria that would clarify any instance in which nonappropriated funds would be appropriately allocated to a project that directly supports military requirements and would otherwise be funded using authorized appropriations.

Pilot program on Troops to Nurse Teachers

The Senate amendment contained a provision (sec. 662) that would require the Secretary of Defense, in coordination with the Secretary of Health and Human Services and the Secretary of Education, to conduct a pilot program to assess the feasibility and potential benefits of a program to provide scholarships and assist certain nurse corps officers in achieving necessary qualifications to become nurse educators and help alleviate the national shortage of nurse educators and registered nurses.

The House bill contained no similar provision.

The Senate recedes.

Short title

The Senate amendment contained a provision (sec. 681) that would establish a short title, the "Heroes at Home Act of 2006."

The House bill contained no similar provision.

The Senate recedes.

Office for employers and employment assistance organizations

The Senate amendment contained a provision (sec. 683) that would require the Secretary of Defense to designate an office within the Department to assist employers and employment-related organizations in facilitating the transition of National Guard and Reserve members returning from Operation Iraqi Freedom and Operation Enduring Freedom to civilian employment.

The House bill contained no similar provision.

The Senate recedes.

Grants on assistance in community-based settings for members of the National Guard and reserve and their families after deployment in Operation Iraqi Freedom and Operation Enduring Freedom

The Senate amendment contained a provision (sec. 685) that would authorize the Secretary of Defense to award grants to community-based organizations for the provision of assistance to members of the National Guard and Reserve who serve in Operation Iraqi Freedom and Operation Enduring Freedom, and their families, following return from deployment. The grants would support services to improve the reuniting of families, and education and awareness of health and mental health needs, including post traumatic stress disorder and traumatic brain injury.

The House bill contained no similar provision.

The Senate recedes.

TITLE VII—HEALTH CARE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—TRICARE Program Improvements

TRICARE coverage for forensic examination following sexual assault or domestic violence (sec. 701)

The House bill contained a provision (sec. 701) that would authorize coverage under TRICARE for forensic examinations following a sexual assault or domestic violence.

The Senate amendment contained an identical provision (sec. 704).

The conference agreement includes this provision.

Authorization of anesthesia and other costs for dental care for children and certain other patients (sec. 702)

The House bill contained a provision (sec. 702) that would authorize coverage under TRICARE for anesthesia and institutional costs for dental treatment for beneficiaries with developmental, mental or physical disabilities, and children under the age of five.

The Senate amendment contained a similar provision (sec. 703).

The Senate recedes.

Improvements to descriptions of cancer screening for women (sec. 703)

The House bill contained a provision (sec. 703) that would modify the terminology in section 1074d of title 10, United States Code, which authorizes certain screening tests for breast and cervical cancers.

The Senate amendment contained a similar provision (sec. 701).

The House recedes with a technical amendment.

Prohibition on increases in certain health care costs for members of the uniformed services (sec. 704)

The House bill contained a provision (sec. 704) that would prohibit the Secretary of Defense from increasing any premiums, deductibles, copayment, or other charges under Department of Defense contracts for medical care for retirees, dependents, and survivors between April 1, 2006, and December 31, 2007. The provision would prohibit any increase during the same period of time in civilian inpatient hospital charges, as well as in enrollment premiums for each of the 3 tiers of health care coverage under the TRICARE program for members of the Selected Reserve.

The Senate amendment contained similar provisions (secs. 705–706). Section 705 would prohibit any increase in TRICARE Prime enrollment fees during fiscal year 2007. Section 706 would limit any increase in the amount of premiums for the TRICARE program for members of the Selected Reserve to 2.2 percent in fiscal year 2007.

The Senate recedes with an amendment that would prohibit an increase in such fees, copayments, and premiums between April 2, 2006, and September 30, 2007.

Demonstration project on coverage of selected over-the-counter drugs under the pharmacy benefits program (sec. 705)

The House bill contained a provision (sec. 706) that would require the Secretary of Defense to conduct a demonstration project to allow certain over-the-counter drugs to be included on the uniform formulary of the Department of Defense pharmacy program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that the evaluation of the demonstration project address the cost and benefits of providing over-the-counter drugs under the Department of Defense pharmacy program, the clinical effectiveness of providing such drugs, and customer satisfaction with the demonstration project.

The conferees expect that in any instance in which an over-the-counter medication is dispensed, as part of the demonstration project required by this section, notification will be provided to the patient in a manner similar to that required by current policy when a generic agent is substituted for a brand name product.

Expanded eligibility of Selected Reserve members under TRICARE program (sec. 706)

The House bill contained a provision (sec. 709) that would expand eligibility for coverage under the TRICARE program to all members of the Selected Reserve and their families while in a non-active duty status based on payment of an amount equal to 28 percent of a monthly premium established by the Secretary of Defense. The provision would take effect not later than October 1, 2007. It would not apply to members who are eligible for health insurance under chapter 89 of title V, United States Code. The provision would repeal the three-tiered cost sharing program for members of the Selected Reserve established in section 702 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163).

The Senate amendment contained a provision (sec. 708) that would enhance the existing tiered benefit structure for all members of the Selected Reserve by adding members employed by businesses with 20 or fewer employees to those eligible for coverage based on payment of 50 percent of a monthly premium established by the Secretary. The Senate amendment would also reduce from 85 percent to 75 percent the portion of a monthly premium paid by members who, though eligible for employer-provided insurance, chose primary coverage under TRICARE.

The Senate recedes.

Relationship between the TRICARE program and employer-sponsored group health care plans (sec. 707)

The House bill contained a provision (sec. 710) that would extend to TRICARE the same rule that applies to the Medicare program making it unlawful for an employer or other entity to offer any financial or other incentive for a retired TRICARE beneficiary not to enroll under an employer-provided group health plan. The provision would also authorize the Secretary of Defense to discontinue a relationship with a Department of Defense contractor for repeated violations of this provision. The provision would take effect on January 1, 2008.

The Senate amendment contained a similar provision (sec. 722).

The Senate recedes with an amendment that would clarify that TRICARE eligible employees have the opportunity to elect to participate in an employer group health plan in the same manner as other similarly situated employees, and that the provision would not be construed to effect, modify, or terminate the eligibility of a TRICARE eligible employee or spouse for their earned military health care entitlement authorized under chapter 55, title 10, United States Code. The amendment would also delete the authority for the Secretary to terminate Department contractor relationships based on repeated violations of this provision because the Federal Acquisition Regulation already specifies the circumstances under which repeated violations of law may be a basis for suspension or debarment of a Department contractor.

The conferees are aware of concerns that have been expressed regarding the treatment of cafeteria plans authorized under section 125 of the Internal Revenue Code and non-TRICARE exclusive employer-provided health care incentives under this provision. The conferees direct the Secretary to report, not later than April 1, 2007, to the Committees on Armed Services of the Senate and the House of Representatives on the treatment of cafeteria plans and non-TRICARE exclusive employer-provided health care incentives under the Department's implementation of this provision. This report shall assess the treatment of such plans under the Medicare Secondary Payer statute and regulations and such incentives, and include any recommendations the Secretary finds appropriate to ensure fair treatment of all TRICARE beneficiaries under this provision.

Temporary prohibition on increase in copayments under retail pharmacy system of pharmacy benefits program (sec. 708)

The Senate amendment contained a provision (sec. 707) that would prohibit any increase in the cost sharing requirements for pharmaceuticals available through the Department of Defense retail pharmacy program during fiscal year 2007.

The House bill contained no similar provision.

The House recedes with an amendment that would direct the Secretary of Defense to transfer $186.0 million from the unobligated balances of the National Defense Stockpile Transaction Fund to the Department of Defense Medicare-Eligible Retiree Health Care Fund.

Subtitle B—Studies and Reports

Department of Defense task force on the future of military health care (sec. 711)

The House bill contained a provision (sec. 711) that would require the Secretary of Defense to establish a task force to conduct a comprehensive assessment of the future of military health care. The task force would be required to develop recommendations on actions that the Department of Defense would have to take to improve and sustain the military health care system, and to develop a plan based on those recommendations.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would modify the required expertise for membership on the task force to include health care information technology and women's health. The amendment would also add the senior medical advisor to the Chairman of the Joint Chiefs of Staff and the Director of Defense Procurement and Acquisition Policy as members. The amendment would require the task force to examine the costs and benefits of a universal enrollment system for all TRICARE users. The amendment would eliminate the requirement for the task force to develop a plan based on its recommendations, and require submission of an interim report to Congress by May 31, 2007.

Study relating to chiropractic health care services (sec. 712)

The House bill contained a provision (sec. 712) that would require the Secretary of Defense to study the cost, feasibility, and potential benefit of providing chiropractic care services for active-duty members and their families, members of the Selected Reserve and their families, and retirees and their families. The provision would also require the Secretary to develop a plan for providing chiropractic services to all members of the uniformed services, as required by the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106–398).

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to conduct a study on providing chiropractic care to all members and former members of the Armed Forces and their families, and to submit the study to Congress by March 31, 2008.

The conferees expect the study required in this section to consider any relevant findings of the Navy medical research chiropractic treatment outcomes study required by the Senate Report accompanying S. 2766 (S. Rept. 109–254) of the National Defense Authorization Act for Fiscal Year 2007.

Comptroller General audits of Department of Defense health care costs and cost-saving measures (sec. 713)

The House bill contained a provision (sec. 713) that would require the Comptroller General to conduct a study, in conjunction with the Congressional Budget Office, of the projected savings to the Defense Health Program included in the President's Budget Request for fiscal year 2007. The study would include an evaluation of the rationale for calculations made by the Department of Defense for health care costs borne by beneficiaries in 1995 and 2005, as well as the rationale for savings projections, a review of the annual rates of medical inflation in the Department and other health care programs, and an assessment of the rationale for proposed beneficiary cost share increases.

The Senate amendment contained a similar provision (sec. 744) that would require an audit of the costs of administration of the TRICARE program and the program for members of the Selected Reserve known as TRICARE Reserve Select.

The House recedes with an amendment that would require that the audit be conducted in cooperation with the Director of the Congressional Budget Office, and that the Comptroller General's findings be provided to the congressional defense committees not later than June 1, 2007.

Transfer of custody of the Air Force Health Study assets to Medical Follow-up Agency (sec. 714)

The House bill contained a provision (sec. 714) that would require the Secretary of the Air Force to notify and contact participants of the Air Force Health Study (commonly known as the Ranch Hand Study) to obtain written consent to transfer the individual's data and biological specimens to the Institute of Medicine of the National Academy of Sciences for maintenance and further study.

The Senate amendment contained a similar provision (sec 762).

The Senate recedes.

Study on allowing dependents of activated members of reserve components to retain civilian health care coverage (sec. 715)

The House bill contained a provision (sec. 715) that would require the Secretary of Defense to conduct a study on the feasibility of allowing family members of reservists who are mobilized to continue health care coverage under a civilian health care program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the study to members of the reserve components mobilized in support of a contingency operation.

Study of health effects of exposure to depleted uranium (sec. 716)

The House bill contained a provision (sec. 716) that would require the Secretary of Defense, in consultation with the Secretary of Veterans Affairs and the Secretary of the Department of Health and Human Services, to conduct a study on the health effects of exposure to depleted uranium on exposed soldiers and on the children of exposed soldiers.

The Senate amendment contained a similar provision (sec. 746).

The House recedes.

Report and plan on services to military dependent children with autism (sec. 717)

The Senate amendment contained a provision (sec. 734) that would require the Secretary of Defense to promulgate regulations on requirements for the education, training, and supervision of individuals providing special education services to certain military dependent children that are in addition to any other requirements applicable to Board Certified Behavior Analysts or Board Certified Associate Behavior Analysts. The provision would also require the Secretary to establish metrics to identify and measure the availability and distribution of individuals of various expertise in Applied Behavioral Analysis.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to develop a plan to provide services to military dependent children with autism, pursuant to the authority for extended health care services in section 1079(d) and (e) of title 10, United States Code, and to provide that plan within 30 days of its completion to the Committees on Armed Services of the Senate and the House of Representatives. The amendment would require that procedures be established to ensure that such services are in addition to other publicly provided services for military dependent children with autism.

Comptroller General study on Department of Defense pharmacy benefits program (sec. 718)

The Senate amendment contained a provision (sec. 743) that would require a study by the Comptroller General on the Department of Defense pharmacy benefits program.

The House bill contained no similar provision.

The House recedes with an amendment that would delete the requirement that the Pharmacy and Therapeutics Committee and Beneficiary Advisory Panel, required by section 1074g of title 10, United States Code, review the results of the report and make certain recommendations to the Secretary of Defense.

Review of Department of Defense medical quality improvement program (sec. 719)

The Senate amendment contained a provision (sec. 745) that would require the Secretary of Defense to contract for an independent review of the Department's medical quality improvement program, and to compare the Department's program to other public and private health care systems and organizations.

The House bill contained no similar provision.

The House recedes with an amendment that would include an additional requirement for the Secretary to report to Congress within 180 days of enactment of this Act on actions taken in response to the recommendations of the July 2001 report of the Department of Defense Healthcare Quality Initiatives Review Panel.

Report on distribution of hemostatic agents for use in the field (sec. 720)

The Senate amendment contained a provision (sec. 1414) that would authorize $15.0 million in Operation and Maintenance, Army and $5.0 million in Operation and Maintenance, Marine Corps for hemostatic agents, including blood-clotting bandages. The provision would also express a sense of Congress that every member of the Armed Forces deployed in a combat zone should carry life saving resources. The provision would also require the Secretary of Defense to submit a report regarding the distribution of hemostatic agents to members of the Armed Forces serving in Iraq and Afghanistan.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the required report, delete the authorization for funding, and delete the sense of Congress.

The conference outcome is reflected in the tables of this report in Operation and Maintenance, Army and Operation and Maintenance, Marine Corps.

Longitudinal study on traumatic brain injury incurred by members of the Armed Forces in Operation Iraqi Freedom and Operation Enduring Freedom (sec. 721)

The Senate amendment contained a provision (sec. 686) that would require the Secretary of Defense, in consultation with the Secretary of Veterans Affairs, to conduct a longitudinal study on the effects of traumatic brain injury incurred by members of the Armed Forces serving in Operation Iraqi Freedom and Operation Enduring Freedom. The study would address the long-term physical and mental affects of such injuries, the resulting health care needs, and availability of long-term care services.

The House bill contained no similar provision.

The House recedes with an amendment that would include in the study an analysis of the effects on families of those who have suffered traumatic brain injury.

Subtitle C—Planning, Programming, and Management

Standardization of claims processing under TRICARE program and Medicare program (sec. 731)

The Senate amendment contained a provision (sec. 725) that would require that by October 1, 2007, certain TRICARE claims processing requirements be identical to Medicare claims processing requirements. The provision would also authorize modification to the processes for collection of health care payments from third parties, and require an annual report to Congress justifying any instance in which the Department of Defense continues to have a unique claims processing requirement.

The House bill contained no similar provision.

The House recedes with an amendment that would require that identical claims processing requirements go into effect with the beginning of the next option period for managed care support contracts. The amendment would also require a report to Congress on the policies and directives concerning collection of health care payments owed from third parties, an estimate of the outstanding amounts, and a plan of action to streamline and accelerate the collections or recoupments of those funds.

Requirements for support of military treatment facilities by civilian contractors under TRICARE (sec. 732)

The Senate amendment contained a provision (sec. 726) that would require each TRICARE Regional Director to develop an annual comprehensive plan for support of military treatment facilities in the region provided by contracted civilian health care and administrative personnel. The provision would require approval by the TRICARE Regional Director of each contract within the region, and require consistent standards of quality within the region. The provision would also require removal of financial disincentives for military treatment facilities and civilian contractors to initiate and sustain cost-effective health care staffing support agreements.

The House bill contained no similar provision.

The House recedes with an amendment that would remove the requirement that the Regional Director approve each support contract within the region, and require the Secretary of Defense to establish additional quality and performance standards for health staffing support contractors.

Standards and tracking of access to health care services for wounded, injured, or ill servicemembers returning to the United States from a combat zone (sec. 733)

The Senate amendment contained a provision (sec. 727) that would require the Secretary of Defense to prescribe uniform standards for access to health care services for wounded or injured servicemembers. The provision would require that needed health care services be met through whatever means possible, including through referral to civilian health care providers if necessary, and that the Secretary establish mechanisms for tracking the performance of the military health care system in meeting those health care access standards.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to report to Congress on uniform standards for the access of wounded, injured, or ill members of the armed forces to health care services in the United States following return from a combat zone. The House amendment would also clarify that the tracking system required by this section be a uniform tracking mechanism.

The conferees continue to learn of instances in which returning members of the armed forces have been delayed in receiving needed health, mental health, and rehabilitative services, both in military hospitals and in medical holdover status. The conferees believe that a wounded, injured, or ill soldier, airman, sailor, or marine deserve the highest priority for care. Should sufficient resources in the military hospital system not be available, civilian resources must be made available without delay.

Disease and chronic care management (sec. 734)

The Senate amendment contained a provision (sec. 728) that would require the Secretary of Defense to establish and implement throughout the military health care system a comprehensive program on disease and chronic care management. The program would include the most common chronic diseases experienced by military beneficiaries and their families, and would meet nationally recognized accreditation standards. The Secretary would be required to ensure continuous and adequate funding of the disease and chronic care management program, and eliminate, to the extent practicable, any financial disincentives to sustained investment by military hospitals and health care services contractors in disease management.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to design and develop a fully integrated program on disease and chronic care management, and to require the Secretary, in coordination with the military departments, to develop an implementation plan by February 1, 2008.

Additional elements of assessment of Department of Defense task force on mental health relating to mental health of members who were deployed in Operation Iraqi Freedom and Operation Enduring Freedom (sec. 735)

The Senate amendment contained a provision (sec. 684) that would add to the mandate of the Department of Defense Task Force on Mental Health a requirement to assess the mental health needs of members of the National Guard and Reserve who are deployed in support of Operation Iraqi Freedom and Operation Enduring Freedom. The assessment would include identification of mental health conditions and disorders, including Post Traumatic Stress Disorder, and recommendations on improving mental health services to members of the National Guard and Reserve who undergo multiple deployments. The Senate amendment also contained a provision (sec. 730) that would require the Secretary of Defense to expand the Mental Health Self-Assessment Program to ensure the continuous availability of the program to members and former members of the Armed Forces, as well as to the dependent children of members who have been deployed or mobilized.

The House bill contained no similar provisions.

The House recedes with an amendment that would merge these provisions under this section. The amendment would require the Task Force on Mental Health to undertake an assessment of the mental health needs of all members, active and reserve, who were deployed in support of Operation Iraqi Freedom and Operation Enduring Freedom. The amendment would also require an assessment by the Task Force of the current Mental Health Self-Assessment Program within the Department of Defense.

The conferees urge the Task Force members to take cognizance of the existing requirements in section 723 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) for examination of the long-term follow-up and access to care for mental health needs of members of the Reserve components as they discharge their responsibilities under that section to examine matters relating to the mental health of members of the Armed Forces.

Additional authorized option periods for extension of current contracts under TRICARE (sec. 736)

The Senate amendment contained a provision (sec. 731) that would authorize the Secretary of Defense to extend TRICARE managed care support contracts for up to 2 years. The provision would authorize the Secretary to act only after review by Congress of the minimum performance standards required in order to be eligible for an extension, including cost and beneficiary satisfaction, as well as the justification for any extension. The provision would also require the Secretary to report to Congress on future contracting mechanisms under consideration for TRICARE support, including an assessment of a contract for a single term of 5 years, with a single optional period of extension of an additional 5 years, if performance by the contractor is rated "excellent."

The House bill contained no similar provision.

The House recedes with an amendment that would require a cost-benefit analysis to be conducted as part of the justification for such extension.

Military vaccination matters (sec. 737)

The Senate amendment contained a provision (sec. 732) that would add a requirement to the Comptroller General study on Department of Defense Vaccine Healthcare Centers required by the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) to examine the feasibility of placing the centers under the direct control of the Under Secretary of Defense for Personnel and Readiness. The provision would also require the Secretary of Defense to maintain a center of excellence on medical needs resulting from mandatory military vaccinations, and would limit the ability of the Secretary of Defense to downsize or otherwise restructure the Vaccine Healthcare Centers.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the Secretary of Defense from downsizing or restructuring the Vaccine Healthcare Centers during fiscal year 2007, and require that funding for the centers be provided by each military department.

Enhanced mental health screening services for members of the Armed Forces (sec. 738)

The Senate amendment contained a provision (sec. 733) that would establish new requirements for each predeployment mental health assessment of a member of the Armed Forces relating to the presence and treatment of a mental health condition or disorder, including any use of psychotropic medications. The provision would also prescribe procedures for referral for follow-up evaluation if needed, and would require the Secretary of Defense to establish minimum mental health standards for deployment to a combat operation or contingency operation.

The House bill contained no similar provision.

The House recedes with an amendment that would require additional elements for predeployment and postdeployment medical examinations, including an assessment of traumatic brain injury. The amendment would establish criteria for referral for follow-up care, and would require the Secretary to develop guidelines concerning the deployability and treatment of members of the Armed Forces diagnosed with a severe mental illness or post traumatic stress disorder. The amendment would expand requirements for the quality assurance program for medical tracking for members deployed overseas to include the following new elements:

(1) the types and training of healthcare providers conducting postdeployment health assessments;

(2) the effectiveness of tracking mechanisms in ensuring that the members who receive referrals for further evaluation for mental health care receive those services; and

(3) programs to monitor the mental health of members who have a mental health condition following deployment.

Subtitle D—Other Matters

Pilot projects on early diagnosis and treatment of post traumatic stress disorder and other mental health conditions (sec. 741)

The Senate amendment contained a provision (sec. 741) that would require the Secretary of Defense to conduct a minimum of three pilot projects during fiscal year 2007 to evaluate the efficacy of approaches to improving the capability of the military and civilian health care systems to provide early diagnosis and treatment of post traumatic stress disorder and other mental health conditions.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the requirements for the three pilots, as follows:

(1) one of the pilot projects would be designed to evaluate effective diagnostic and treatment approaches by primary care providers in the military health care system;

(2) one of the projects would be focused on members of the National Guard or reserves located more than 40 miles from a military medical facility; and

(3) one of the projects would be designed to provide outreach to family members on post traumatic stress disorder and other mental health conditions.

Requirement to certify and report on conversion of military medical and dental positions to civilian medical and dental positions (sec. 742)

The Senate amendment contained a provision (sec. 761) that would extend for fiscal year 2007 and future years a requirement in section 744 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) for the Secretary of Defense to certify that conversion of military medical positions to civilian or contractor positions does not increase the cost, or erode access to or the quality of military health care.

The House bill contained no similar provision.

The House recedes with an amendment that would expand the requirements for the report to Congress to accompany the certification. The additional requirements include:

(1) the number and grade of positions planned for conversion;

(2) an analysis by affected area of the impact of the conversion on the direct care and purchased care systems;

(3) the extent to which planned conversions would affect recruiting and retention of military medical and dental personnel;

(4) a comparison of the full costs for the military medical and dental positions planned for conversion with the full costs for civilian positions;

(5) documentation that the converted positions are in excess of military medical and dental readiness requirements; and

(6) identification of each position scheduled to be converted in the subsequent fiscal year.

The amendment would also include several additional requirements with respect to the conversion of medical and dental provisions in fiscal years 2006 through 2008.

Three-year extension of joint incentives program on sharing of health care resources by the Department of Defense and Department of Veterans Affairs (sec. 743)

The Senate amendment contained a provision (sec. 923) that would extend the authorization for the Department of Defense and Department of Veterans Affairs joint incentives program for the sharing of health care resources until September 30, 2010.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Training curricula for family caregivers on care and assistance for members and former members of the Armed Forces with traumatic brain injury (sec. 744)

The Senate amendment contained a provision (sec. 687) that would require the Secretary of Defense to establish, in consultation with the Secretary of Veterans Affairs, a Traumatic Brain Injury Family Caregiver Panel. The purpose of the panel would be to develop training curricula to be used in training family members who provide care to members and former members of the Armed Forces with traumatic brain injury incurred in Operation Iraqi Freedom and Operation Enduring Freedom.

The House bill contained no similar provision.

The House recedes with an amendment that would require that the panel also include family members of members of the Armed Forces with traumatic brain injury.

The conferees intend the Department of Defense to utilize for this purpose up to $1.0 million of the funds allocated for its participation in the Department of Defense and Department of Veterans Joint Incentives Program, authorized elsewhere in this report.

Recognition of Representative Lane Evans upon his retirement from the House of Representatives (sec. 745)

The conferees agree to include a provision that would recognize Representative Lane Evans (D–IL) on the occasion of his retirement from the House of Representatives.

LEGISLATIVE PROVISIONS NOT ADOPTED

Services of mental health counselors

The House bill contained a provision (sec. 705) that would allow mental health counselors to be reimbursed for services provided to TRICARE beneficiaries without prior physician referral or supervision. The provision would also allow mental health counselors to enter into personal services contracts with the Department of Defense, and would require that such counselors meet licensure or certification requirements for a health care professional as required by law.

The Senate amendment contained no similar provision.

The House recedes.

Requirement to reimburse certain travel expenses of certain beneficiaries covered by TRICARE for Life

The House bill contained a provision (sec. 707) that would require the Secretary of Defense to reimburse expenses incurred by a TRICARE for Life beneficiary for travel to a military treatment facility for up to three follow-up medical appointments if adequate treatment cannot be obtained within 100 miles of the residence of the beneficiary.

The Senate amendment contained no similar provision.

The House recedes.

Inflation adjustment of differential payments to children's hospitals participating in TRICARE program

The House bill contained a provision (sec. 708) that would require the Secretary of Defense to establish an annual inflationary adjustment for the TRICARE children's hospital differential payment rate beginning in fiscal year 2007.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are disappointed that the Comptroller General study required by section 734 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) has not been completed. The conferees intend that the study required by that section will inform future legislative and policy changes regarding appropriate adjustment of differential payments to children's hospitals participating in the TRICARE program.

Costs of incentive payments to employees for TRICARE enrollment made unallowable for contractors

The House bill contained a provision (sec. 721) that would establish as unallowable the contract costs that result when Department of Defense contractors provide a financial incentive for a TRICARE-eligible employee to use TRICARE in lieu of their employer-provided health care coverage.

The Senate amendment contained no similar provision.

The House recedes.

Treatment of TRICARE retail pharmacy network under Federal procurement of pharmaceuticals

The Senate amendment contained a provision (sec. 721) that would clarify that the TRICARE retail pharmacy network is covered by the Federal pricing limits applicable to covered drugs under section 8126 of title 38, United States Code.

The House bill contained no similar amendment.

The Senate recedes.

The conferees concluded that there is no need for additional legislation at this time because prescriptions dispensed by the Department of Defense Retail Pharmacy Program qualify for discounted drug prices under section 8126.

Enrollment in the TRICARE program

The Senate amendment contained a provision (sec. 723) that would require the Secretary of Defense to establish a system of enrollment for all beneficiaries who obtain health care services from the military health care system. The provision would authorize the collection of a one-time administrative fee as a condition for certain beneficiaries to receive services under the Standard option of TRICARE. The provision would also require the Secretary to conduct outreach to all beneficiaries and provide health risk assessments.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the authority for a health care enrollment system for military health care users is codified in section 1099, title 10, United States Code. The conferees recognize that beneficiary enrollment is a common feature of public and private health insurance and entitlement programs and may be necessary to ensure the most efficient delivery of health care services. Therefore, the conferees direct the Secretary to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by February 1, 2007 on the advantages and disadvantages of an enrollment requirement for the TRICARE Standard option. The conferees further direct the Secretary to submit the required report for consideration by the Department of Defense Task Force on the Future of Military Health Care, which is authorized elsewhere in this report. The conferees note that an examination by the Task Force of the requirement for universal enrollment is also required elsewhere in this report.

Incentive payments for the provision of services under the TRICARE program in medically underserved areas

The Senate amendment contained a provision (sec. 724) that would require the Secretary of Defense to provide incentive payments for physicians who provide services to TRICARE eligible beneficiaries in medically underserved areas designated by the Secretary of Health and Human Services as primary care or specialist care scarcity locations.

The House bill contained no similar provision.

The Senate recedes.

Post deployment health assessments for members of the Armed Forces returning from deployment in support of a contingency operation

The Senate amendment contained a provision (sec. 729) that would require that a health assessment, including traumatic brain injury, be conducted on each member of the Armed Forces returning from deployment by a qualified health care provider. The provision would also require the Secretary of Defense to establish criteria for assessments of mental health and traumatic brain injury, including criteria for referrals for further evaluation.

The House bill contained no similar provision.

The Senate recedes.

The conference agreement reflects the inclusion of certain aspects of this provision in the requirement for enhanced mental health screening and services for members of the Armed Forces, authorized elsewhere in this report.

TRICARE pharmacy program cost-share requirements

The House bill contained a provision (sec. 731) that would limit the amount of beneficiary cost sharing for generic and formulary agents in the TRICARE national mail-order pharmacy program to no more than the cost sharing for those agents in military hospitals and clinics. The provision would also establish cost-sharing requirements for the TRICARE retail pharmacy program as follows: $6.00 for generic agents; $16.00 for formulary agents; and $22.00 for nonformulary agents.

The Senate amendment contained a provision (sec. 702) that would require beneficiaries to use the TRICARE national mail-order program for refill of most long-term maintenance medications, unless waived by the Secretary of Defense based on clinical need, and eliminate cost sharing for most drugs obtained from the TRICARE national mail-order program.

The conference agreement does not include these provisions.

The conferees expect the Assistant Secretary of Defense (Health Affairs) to manage the TRICARE pharmacy benefit in accordance with existing authorities in section 1074g of title 10, United States Code, in a manner using a full menu of clinical quality and utilization management tools to lower drug costs and improve quality, including the TRICARE national mail-order program, consistent with state-of-the-art pharmacy benefit management practices.

The conferees expect that the Department of Defense will proceed, under current authority, to eliminate co-payments for generic drugs dispensed through the TRICARE national mail-order program, as a minimum; and, in addition, expect the Assistant Secretary to move toward providing a broad range of incentives to increase the use of the TRICARE national mail-order program. In developing measures to implement pharmacy incentives, the Assistant Secretary shall consult broadly and fully with constituent and beneficiary groups and other interested parties.

Annual reports on certain medical malpractice cases

The Senate amendment contained a provision (sec. 742) that would require each Secretary of a military department to report annually to the Secretary of Defense on certain cases involving allegations of medical malpractice for military beneficiaries. The provision would also require the Secretary of Defense to provide annual reports to the congressional defense committees.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that a report and an independent review of medical quality improvement in the military health care system is required elsewhere in this report.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Provisions Relating to Major Defense Acquisition Programs

Requirements management certification training program (sec. 801)

The House bill contained a provision (sec. 801) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics, in consultation with the Defense Acquisition University, to develop a training program to certify civilian and military personnel with responsibility for developing requirements for major defense acquisition programs.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Under Secretary to establish the competency requirements for personnel undergoing requirements management training, and require that all personnel with responsibility for developing such requirements receive certification training by September 30, 2008.

The conferees believe that the training program established in accordance with this provision should address:

(1) the interrelationship between the requirements, budget, and acquisition processes;

(2) the importance of developing requirements that facilitate joint operations;

(3) the need to ensure that requirements are developed early in a program and the adverse effect of introducing new requirements after the commencement of system development and demonstration;

(4) the linkage between requirements and capability shortfalls identified by combatant commanders;

(5) the need for sound analysis of alternatives, realistic technical assessments based on technology readiness levels, and consultation with production engineers on the cost, schedule, and technical feasibility of requirements;

(6) the need for engineering feasibility assessments that weigh the technology readiness, integration, cost, and schedule impacts of proposed changes to requirements;

(7) the importance of developing requirements that are technologically mature, feasible, and achievable; and

(8) the importance of stable requirements to provide the baseline for successful program execution.

Additional requirements relating to technical data rights (sec. 802)

The House bill contained a provision (sec. 802) that would require the acquisition of full data rights necessary to support competition for contracts for sustainment of each major weapon system that is developed with federal or private funds. The provision would also require that any contract for a major system include options for acquiring, at any point during the life cycle of the system, major elements of technical data not acquired at the time of the initial contract award.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Under Secretary of Defense for Acquisition, Technology, and Logistics to require program managers to assess long-term technical data needs and establish corresponding acquisition strategies to ensure availability of technical data rights for major weapon system life cycle sustainment. The amendment would also modify title 10 of the United States Code to distinguish between commercial items and major weapon systems, subsystems, and components of major weapon systems (regardless of whether they may be characterized as commercial or non-commercial). In the case of a challenge made to a claim that the latter group of systems or components was developed exclusively at private expense, the burden of proof would be on the contractor or subcontractor.

Study and report on revisions to Selected Acquisition Report requirements (sec. 803)

The House bill contained a provision (sec. 803) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics, in coordination with the service acquisition executives of each military department, to conduct a study on revisions to requirements related to Selected Acquisition Reports, as set forth in section 2432 of title 10, United States Code.

The Senate provision contained no similar provision.

The Senate recedes with a clarifying amendment.

Biannual updates on implementation of acquisition reform in the Department of Defense (sec. 804)

The House bill contained a provision (sec. 804) that would require the Secretary of Defense to submit quarterly reports to the Committees on Armed Services of the Senate and the House of Representatives on the implementation of plans to reform the defense acquisition system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the reporting requirement to a biannual submission and make other clarifying changes.

Additional certification requirements for major defense acquisition programs before proceeding to Milestone B (sec. 805)

The House bill contained a provision (sec. 806) that would require certification that market research has been conducted prior to technology development to reduce duplication of existing technology and products.

The Senate amendment contained a similar provision (sec. 801). The provision would require a certification that a program meets validated requirements consistent with the National Military Strategy and contains estimates and funding to execute the product development and production plan under the program.

The Senate recedes with a clarifying amendment that would amend section 2366a of title 10, United States Code, to require the Secretary of Defense to include additional certifications before a major defense acquisition program receives Milestone B approval or Key Decision Point B approval in the case of a space program.

Original baseline estimate for major defense acquisition programs (sec. 806)

The Senate amendment contained a provision (sec. 803) that would clarify the definition of the term "Original Baseline Estimate," and provide for periodic reporting of program acquisition unit costs and procurement unit costs above the significant cost growth thresholds identified in section 2433 of title 10, United States Code.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the definition of Original Baseline Estimate to mean the baseline established before the program enters into system development and demonstration.

Lead system integrators (sec. 807)

The Senate amendment contained a provision (sec. 842) that would: (1) limit the participation of lead systems integrators (LSI) in the development or construction of any individual system or element of a system of systems; (2) direct the Secretary of Defense to update regulations on LSIs; and (3) direct the Secretary to include a specification of various types of contracts and fee structures, including award and incentive fees, that are appropriate for use by LSIs.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the participation of LSIs in the development or construction of any individual system or element of a system of systems.

Subtitle B—Acquisition Policy and Management

Time-certain development for Department of Defense information technology business systems (sec. 811)

The House bill contained a provision (sec. 813) that would require that a Department of Defense information technology business system be fielded within 5 years of the system entering the technology development phase of Milestone A approval. If such a program did not achieve initial operating capability within 5 years, the Department would be prohibited from obligating or expending any further funds on that program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would maintain the requirement of the Department to field information technology programs within 5 years of Milestone A approval. Failure to achieve initial operating capability within 5 years of Milestone A approval would result in the Department being subject to reporting requirements contained in section 816 of this Act.

Pilot program on time-certain development in acquisition of major weapon systems (sec. 812)

The Senate amendment contained a provision (sec. 811) that would authorize the Secretary of Defense to carry out a pilot program on the use of time-certain development in the acquisition of major weapon systems.

The House bill contained no similar provision.

The House recedes with a clarifying amendment that would place limitations on the number of major weapon systems included in the pilot program.

Establishment of Panel on Contracting Integrity (sec. 813)

The House bill contained a provision (sec. 814) that would establish a Panel on Contracting Integrity to review progress made by the Department of Defense to eliminate areas of vulnerability of the defense contracting system to waste, fraud, and abuse. The panel would be chaired by the Deputy Secretary of Defense. The panel would review the Government Accountability Office report relating to contracting vulnerabilities to waste, fraud, and abuse; and make recommendations on any changes to law, regulations, and policy determined necessary to eliminate such areas of vulnerability.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would: (1) assign a representative of the Under Secretary of Defense for Acquisition, Technology, and Logistics as the chair of the panel; (2) provide the Department with increased flexibility in determining the membership of the panel; (3) require submission of the first annual report to the congressional defense committees by December 31, 2007; and (4) terminate the panel on December 31, 2009.

The conferees agree that the panel's initial review should include an examination of the Department's administrative and disciplinary procedures for cases involving lapses in contracting integrity and include recommendations on any changes to such procedures the panel determines appropriate in the first annual report.

Linking of award and incentive fees to acquisition outcomes (sec. 814)

The Senate amendment contained a provision (sec. 843) that would require the Secretary of Defense to issue detailed implementation guidance, including definitions for performance outcomes, for appropriate use of award and incentive fee contracts. The provision would require performance measures to evaluate the effectiveness of award and incentive fees; mechanisms for sharing successful acquisition strategies; and an independent evaluation of the impact of award fee payment decisions on contractor performance.

The House bill contained a similar provision (sec. 815).

The House recedes with an amendment that would require development of standards to identify the appropriate level of decision-making official for approval of new award and incentive fee contracts and to ensure consistent application of guidance and definitions across the military departments and defense agencies.

Report on defense instruction relating to contractor personnel authorized to accompany Armed Forces (sec. 815)

The House bill contained a provision (sec. 816) that would require: (1) a Department of Defense Inspector General report on overcharges discovered under Department contracts for work performed in Iraq and Afghanistan; (2) assignment of sufficient contracting officers to oversee and monitor Department contracts for work to be performed in Iraq and Afghanistan; and (3) implementation of a policy for conducting comprehensive background checks on foreign nationals hired by Department contractors and subcontractors operating outside the United States. The provision would also prohibit Department contractors and subcontractors operating outside of the United States from hiring personnel with violent felony convictions or who have committed acts determined to be inconsistent with the policy of the Department on human rights. The provision would further require the Secretary of Defense to report on implementation of Department of Defense Instruction Number 2030.14 entitled "Contractor Personnel Authorized to Accompany the United States Armed Forces," and application of the instruction to all new contracts, task orders, or contract extensions.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to submit to Congress a report on the status of implementation of Department of Defense Instruction Number 2030.14 entitled "Contractor Personnel Authorized to Accompany the United States Armed Forces."

Major automated information system program (sec. 816)

The Senate amendment contained a provision (sec. 804) that would require that, as part of the annual budget justification materials, the Department of Defense provide to the congressional defense committees a report on major automated information systems (MAIS) programs. The report would include the estimate of developmental costs and total life-cycle costs (original and current), a schedule of major events (original and current), and a brief summary of key performance criteria. The provision would further require the Department to promptly notify the congressional defense committees when a program exceeds established cost, schedule, or performance criteria.

The House bill contained no similar provision.

The House recedes with an amendment that would provide an additional criterion for requiring a report when a MAIS fails to achieve initial operating capability within 5 years of Milestone A approval.

Internal controls for procurements on behalf of the Department of Defense by certain non-defense agencies (sec. 817)

The Senate amendment contained a provision (sec. 806) that would expand section 811 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) to require the Department of Defense Inspector General (IG), in consultation with the IG of the National Institutes of Health and the IG of the Department of Veterans Affairs, to determine whether the policies, procedures, and internal controls of the two respective agencies for purchases on behalf of the Department of Defense are adequate to ensure compliance with defense procurement requirements.

The House bill contained no similar provision.

The House recedes.

Determination of contract type for development programs (sec. 818)

The Senate amendment contained a provision (sec. 807) that would require the Secretary of Defense to modify Department of Defense regulations regarding a preference for the use of fixed-price contracts in development programs.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to modify Department regulations regarding the determination of contract type in development programs.

The conferees believe that the Department requires additional tools to address the continuing problem of cost and schedule growth in the Department's major acquisition programs. Congress enacted section 807 of the National Defense Authorization Act for Fiscal Year 1989 (Public Law 100-456) to prohibit the use of fixed-price development contracts because of the Department's aggressive use of fixed-price contracts, regardless of the level of program risk associated with the program, resulted in cost and schedule overruns.

The conferees believe that program risk should be reduced to the degree that the use of a fixed-price development contract for a major acquisition program may be appropriate. The conferees agree to repeal section 807 and would require the Secretary to modify Department regulations to require the Milestone Decision Authority for a major defense acquisition program to document the basis for the contract type selected at Milestone B approval (or Key Decision Point B approval in the case of a space program) that is consistent with the level of program risk for the program.

Three-year extension of requirement for reports on commercial price trend analyses of the Department of Defense (sec. 819)

The Senate amendment contained a provision (sec. 810) that would extend the requirement that the Secretary of Defense submit an annual report on price trend analyses through 2009.

The House bill contained no similar provision.

The House recedes.

Government performance of critical acquisition functions (sec. 820)

The Senate amendment contained a provision (sec. 812) that would require the head of an agency to ensure that certain positions for each major defense acquisition program and each major automated information system program be performed by a properly qualified full-time Federal military or civilian employee.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to develop a plan of action for the implementation of a Department of Defense goal, within 5 years of the date of enactment of this Act, that ensures certain positions for each major defense acquisition program and each major automated information system program be performed by a properly qualified full-time Federal military or civilian employee.

Subtitle C—Amendments to General Contracting Authorities, Procedures, and Limitations

One-year extension of special temporary contract closeout authority (sec. 831)

The House bill contained a provision (sec. 821) that would extend by 1 year authority under section 804 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136) to allow the Department of Defense to settle contracts entered into prior to October 1, 1996, under specified conditions.

The Senate amendment contained an identical provision (sec. 872).

The conference agreement includes this provision.

Limitation on contracts for the acquisition of certain services (sec. 832)

The House bill contained a provision (sec. 822) that would prohibit the Secretary of Defense from entering into a contract for covered services if the amount of the contract exceeds 75 percent of the estimated value of the asset required for the provision of services under the contract or exceeds $150.0 million in payments over the life of the contract.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prohibit the Secretary from entering into a service contract to acquire a military flight simulator unless doing so is necessary for national security purposes and a written economic analysis is provided to the congressional defense committees at least 30 days in advance. The required economic analysis would include a clear explanation for the need for the contract and an examination of at least two alternatives for fulfilling the contract requirement.

The conferees are aware that in some cases the military departments are using operations and maintenance funds for service contracts and activities traditionally associated with procurement and military construction. The conferees are concerned that such a contracting methodology reduces oversight, potentially increases life-cycle costs, requires aggressive contract management, and reduces the flexibility of the Department of Defense in allocating funds to meet future defense needs. Furthermore, the use of service contracts for military training may have readiness consequences.

The conferees are also aware that the Secretary of the Air Force entered into a service contract for the Initial Flight Screening program at Pueblo Memorial Airport, Pueblo, Colorado, without conducting a full economic analysis to determine the best alternative for meeting the Air Force flight screening requirement. Therefore, the conferees direct the Secretary of the Air Force to perform an economic analysis as described in this section and provide the congressional defense committees written certification, not later than 180 days after the date of the enactment of this Act, whether such analysis supports continuation of the service contract.

Use of Federal supply schedules by State and local governments for goods and services for recovery from natural disasters, terrorism, or nuclear, biological, chemical, or radiological attack (sec. 833)

The House bill contained a provision (sec. 823) that would provide the Administrator of General Services with the authority to allow State and local governments to use the General Services Administration Federal supply schedules for goods and services to facilitate recovery from natural disasters, terrorist attacks, or attacks involving nuclear, chemical, biological, or radiological weapons.

The Senate amendment contained no similar provision.

The Senate recedes.

Waivers to extend task order contracts for advisory and assistance services (sec. 834)

The House bill contained a provision (sec. 824) that would allow the head of an agency to issue a waiver to extend an Advisory and Assistance Services (AAS) contract up to 10 years through 5 one-year options provided that the contract meets a specific set of criteria.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit delegation of the waiver authority to the senior procurement executive of the agency, and modify the reporting requirements. The modified reporting requirement would include separate examinations conducted for the Department of Defense and civilian agencies to review methods used to identify a contract as an AAS contract, the number of such contracts awarded during the preceding 5 years, average expenditures and length of such contracts, and the number of such contracts recompeted and then awarded to the previous performer. The amendment would also require a General Accountability Office report on Federal Government rationale for the use and oversight of AAS contracts.

Subtitle D—United States Defense Industrial Base Provisions

Assessment and annual report of United States defense industrial base capabilities and acquisitions of articles, materials, and supplies manufactured outside the United States (sec. 841)

The Senate amendment contained a provision (sec. 1070A) that would require the Department of Defense to submit a report to Congress on the amount of the acquisitions of articles, materials, and supplies made by the Department in the preceding fiscal year from entities that manufacture articles, materials, or supplies outside of the United States.

The House bill contained no similar provision.

The House recedes with an amendment that would amend section 812 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108–136) to include the reporting requirements of section 1070A in the Senate amendment.

Protection of strategic materials critical to national security (sec. 842)

The House bill contained a provision (sec. 831) that would move statutory requirements for the procurement of specialty metals from domestic sources from the so-called "Berry amendment," currently codified in section 2533a of title 10, United States Code, to a separate section of title 10 and make certain changes to those requirements.

The Senate amendment contained a provision (sec. 822) that would revise the provisions of the Berry amendment regarding the procurement of specialty metals from domestic sources.

The Senate recedes with an amendment that would codify the specialty metals requirements in a new section 2533b of title 10, United States Code, and modify those requirements. The amendment would also authorize a one-time waiver of the domestic source requirement for specialty metals that were incorporated into items produced, manufactured, or assembled in the United States before the date of the enactment of this Act, under certain conditions.

Strategic Materials Protection Board (sec. 843)

The House bill contained a provision (sec. 832) that would establish a Strategic Materials Protection Board to determine the domestic supply of items designated as critical to national security, including adding items to the list of specialty metals protected under the so-called "Berry amendment," recodified elsewhere in this Act as section 2533b of title 10, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the new board to make recommendations regarding the list of specialty metals covered by the Berry amendment, but not to add or delete items from the list.

Subtitle E—Other Matters

Report on former Department of Defense officials employed by contractors of the Department of Defense (sec. 851)

The Senate amendment contained a provision (sec. 841) that would require contractors that receive defense contracts in excess of $10.0 million, other than contracts for the procurement of commercial items, to report to the Department of Defense on an annual basis on certain former senior Department officials who receive compensation from the contractor.

The House bill contained no similar provision.

The House recedes with an amendment that would require the General Accountability Office to report to Congress by December 1, 2007, on the employment of former Department officials by major defense contractors during the most recent calendar year for which data is available. The objective of the report would be to determine the effectiveness of existing statutes and regulations governing the employment of former Department officials by defense contractors, including section 207 of title 18, United States Code and section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423). The report would provide information on Department contracts or programs for which former officials personally had program oversight responsibility or decision-making authority when they served in the Department; or Department contracts or programs which are the responsibility of the agency, office, or command with which the official served.

Report and regulations on excessive pass-through charges (sec. 852)

The Senate amendment contained a provision (sec. 844) that would require the Secretary of Defense to modify Department of Defense regulations to prohibit excessive pass-through charges on contracts or subcontracts that are entered into, for or on the behalf of the Department.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Comptroller General to submit a report to the congressional defense committees, not later than 180 days after the date of the enactment of this Act, on pass-through charges on contracts or subcontracts (or task or delivery orders) that are entered into, for or on the behalf of the Department. The amendment would also require that the Secretary modify Department regulations, not later than May 1, 2007, to prohibit excessive pass-through charges on contracts or subcontracts that are entered into, for or on the behalf of the Department.

The conferees agree that an assessment of the impact of pass-through charges is required in order to understand the magnitude of the problem the Department may have with pass-through charges. However, the conferees also agree that the Department should not be paying excessive pass-through charges to those contractors or subcontractors that have little or no value added to a particular contract.

The conferees expect the Secretary to provide an interim report to the congressional defense committees on the progress made towards completing the regulations required by this section.

Program manager empowerment and accountability (sec. 853)

The Senate amendment contained provisions (secs. 861–863 and 865) that would address the role of program managers in defense acquisition programs.

The House bill contained no similar provision.

The House recedes with an amendment that would consolidate these provisions into a single provision and provide greater flexibility to the Secretary of Defense in implementing the new requirements.

Subsections (a) and (b) would require the Secretary to develop a comprehensive strategy for enhancing the role of Department of Defense program managers in carrying out defense acquisition programs. These subsections track the language of the Senate amendment without change.

Subsection (c) would require the Secretary to issue guidance on qualifications, resources, responsibilities, tenure, and accountability of program managers for the program development period before Milestone B approval (or Key Decision Point B approval in the case of a space program).

Subsection (d) would require the Secretary to revise the Department's guidance on qualifications, resources, responsibilities, tenure, and accountability of program managers for the program execution period from Milestone B approval (or Key Decision Point B approval in the case of a space program) until the delivery of the first production units for a program. The guidance would address, at a minimum, the need for a performance agreement between a program manager and the milestone decision authority for the program; the authorities available to a program manager; and the tenure of a program manager.

The conferees agree with the assessment of the Government Accountability Office that the Department has consistently failed to give program managers the authority that they need to successfully execute acquisition programs and, as a result, is unable to hold them accountable.

The conferees believe that program managers for the development period before Milestone B should be responsible for: (1) bringing to maturity the technologies and manufacturing processes that will be needed to carry out the program; (2) ensuring continued focus during program development on meeting stated mission requirements and other requirements of the Department; (3) making trade-offs between program cost, schedule, and performance for the life-cycle of the program; (4) developing a business case for the program; and (5) ensuring that appropriate information is available to the milestone decision authority to make a decision on Milestone B approval, including the information necessary to make the certification required by section 2366a of title 10, United States Code.

The conferees believe that a program manager for the execution period from Milestone B to the delivery of production units should enter into performance agreements with the milestone decision authority for the program that: (1) establishes expected parameters for the cost, schedule, and performance of the program consistent with the business case for the program and the Milestone B decision; (2) provides the commitment of the milestone decision authority to provide the level of funding and resources required to meet such parameters; and (3) provides the assurance of the program manager that such parameters are achievable and that such program manager will be accountable for meeting such parameters.

The conferees also believe that program managers should be granted the autonomy to manage their programs without interference from outside officials. The conferees believe that the guidance should include: (1) the assurance that program requirements will not be modified in a way that would be inconsistent with the business case, the Milestone B decision, and any performance agreement entered without a written determination by a senior Department official that the modifications are necessary in the interest of the national defense; (2) program manager authority to make trade-offs between cost, schedule, and performance or to redirect funding within the program, provided that such tradeoffs or redirections of funds are consistent with the parameters established for the program and with applicable requirements of law; and (3) program manager authority to use program funds to recruit and hire such technical experts as may be required to carry out the program in a manner consistent with the requirements of law and regulation, if necessary expertise is not otherwise provided by the Department.

The conferees also believe that (1) a program manager should be assigned to remain with a program, to the extent practicable, during the entire respective development or execution period; and (2) a program manager should be provided the resources and support (including systems engineering expertise, cost estimating expertise, and software development expertise) needed to meet their responsibilities. The conferees expect the guidance issued by the Secretary to reflect these principles, subject to such modifications and exceptions as the Secretary may deem necessary.

Subsection (e) would require reports by the Secretary and the Comptroller General on steps taken to carry out the requirements of this section.

Joint policies on requirements definition, contingency program management, and contingency contracting (sec. 854)

The Senate amendment contained a provision (sec. 864) that would require the Department of Defense to develop a plan for contingency program management during combat operations and post-conflict operations.

The House bill contained no similar provision.

The House recedes with an amendment that would incorporate the requirements for contingency program management under this section into a single provision with requirements for contingency contracting under section 817 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163). This section would also require the development of a joint policy to facilitate effective generation and definition of requirements and determination of appropriate corresponding organizational structures.

Clarification of authority to carry out certain prototype projects (sec. 855)

The Senate amendment contained a provision (sec. 871) that would amend section 845 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160), as amended by section 823 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163), to allow the director of a defense agency to make the written determination necessary to exercise other transaction authority on a prototype project that is expected to cost the Department of Defense in excess of $20.0 million, but not more than $100.0 million.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the authority to make the necessary determination to utilize other transactions for projects expected to cost between $20.0 million and $100.0 million would be granted to the Director of the Defense Advanced Research Projects Agency and the Director of the Missile Defense Agency.

Contracting with employers of persons with disabilities (sec. 856)

The Senate amendment contained a provision (sec. 873) that would extend for 1 year the status quo for continuation and completion of existing contracts, including any options, awarded under the Javits-Wagner-O'Day Act (41 U.S.C. 46 et seq.) and the Randolph-Sheppard Act (20 U.S.C. 107 et seq.) programs for the operation of military troop dining facilities, military mess halls, and other similar military dining facilities.

The House bill contained no similar provision.

The House recedes with an amendment that would establish a permanent policy regarding the award of contracts and subcontracts for food services, mess attendant services, and other services supporting the operation of a military dining facility under the Javits-Wagner-O'Day and Randolph-Sheppard Acts. The amendment would require a review and report by the Government Accountability Office on operational procedures, competition, and determinations regarding fair and reasonable pricing for contracts awarded under both Acts. The amendment would also require a joint report from the Inspectors General of the Departments of Defense and Education on management procedures implemented under the two Acts.

Enhanced access for small business (sec. 857)

The House bill contained a provision (sec. 825) that would amend section 9(a) of the Contract Disputes Act of 1978 (41 U.S.C. 608) to provide expedited disposition of appeals by the Armed Services Board of Contract Appeals and the Civilian Board of Contract Appeals for small business disputes of $150,000 or less.

The Senate amendment contained no similar provision.

The Senate recedes.

Procurement goal for Hispanic-serving institutions (sec. 858)

The House bill contained a provision (sec. 826) that would extend contract goals for small disadvantaged businesses and certain institutions of higher education to include Hispanic-serving institutions.

The Senate amendment contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Adjustment of original baseline estimates for major defense acquisition program experiencing cost growth resulting from damage caused by hurricanes Katrina, Rita, and Wilma

The Senate amendment contained a provision (sec. 805) that would allow the Department of Defense to adjust the original baseline estimate under section 2435(d) of title 10, United States Code, for a major defense program that is carried out primarily in the areas affected by hurricanes Katrina, Rita, and Wilma for the sole purpose of addressing cost growth that is directly attributable to damage caused by those hurricanes.

The House bill contained no similar provision.

The Senate recedes.

The conferees acknowledge that funds appropriated in division B of the Department of Defense Appropriations Act for Fiscal Year 2006 (Public Law 109–148) for shipbuilding programs affected by hurricanes Katrina, Rita, and Wilma will likely cause the programs to breach Nunn-McCurdy thresholds. The conferees expect the Department to submit an abbreviated Selected Acquisition Report under section 2435(d) if Nunn-McCurdy thresholds are breached solely because of costs due to increases caused by hurricanes Katrina, Rita, and Wilma.

Availability of funds for performance-based logistics contracts for weapons systems logistics support

The Senate amendment contained a provision (sec. 808) that would authorize the Secretary of Defense to use operation and maintenance (O&M) funds for performance-based logistics contracts to finance costs associated with the implementation of engineering changes that result in a reduction of government O&M costs.

The House bill contained no similar provision.

The Senate recedes.

Applicability of statutory executive compensation cap made prospective

The House bill contained a provision (sec. 811) that would amend section 808(e)(2) of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85) to clarify that the underlying provision is prospective from the date of enactment.

The Senate amendment contained no similar provision.

The House recedes.

Prohibition on procurement from beneficiaries of foreign subsidies

The House bill contained a provision (sec. 812) that would prohibit the Secretary of Defense from entering into a contract with a foreign person (including a joint venture, cooperative organization, partnership, or contracting team), who has received a subsidy from the government of a foreign country that is a member of the World Trade Organization, if the United States has requested a consultation with that foreign country on the basis that the subsidy is prohibited under the Agreement on Subsidies and Countervailing Measures.

The Senate amendment contained no similar provision.

The House recedes.

Removal of hand and measuring tools from certain requirements

The Senate amendment contained a provision (sec. 821) that would remove hand and measuring tools from the requirement to buy certain articles from American sources.

The House bill contained no similar provision.

The Senate recedes.

Waiver authority for domestic source or content requirements

The Senate amendment contained a provision (sec. 823) that would provide the Secretary of Defense the authority to waive the application of statutory domestic source requirements and domestic content requirements under certain conditions.

The House bill contained no similar provision.

The Senate recedes.

Repeal of requirement for identification of essential military items and military system essential item breakout list

The Senate amendment contained a provision (sec. 824) that would repeal the requirement for identifying essential military items on a military system essential item breakout list.

The House bill contained no similar provision.

The Senate recedes.

Consistency with United States obligations under trade agreements

The Senate amendment contained a provision (sec. 825) that would require that no provision of this Act, or any amendment made by this Act, shall apply if the Secretary of Defense, in consultation with the Secretary of Commerce, the U.S. Trade Representative, and the Secretary of State, determines that the application of the provision would be inconsistent with international trade agreements of the United States.

The House bill contained no similar provision.

The Senate recedes.

Prohibition on defense contractors requiring licenses or fees for use of military likenesses and designations

The House bill contained a provision (sec. 827) that would require that any contract entered into by the Department of Defense include a provision prohibiting the contractor from requiring toy and hobby manufacturers, distributors, or merchants to obtain licenses or pay fees for the use of military likenesses or designations on items provided under the contract.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are aware that the use of military likenesses and designations in commerce involve issues of intellectual property and trademark law, constitutional takings, and the commercialization of defense technologies that are of great importance to the Department. The conferees are also aware that section 1004 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375) authorized the Department to license trademarks, service marks, certification marks, and collective marks, and to operate a licensing program to raise funds for morale, welfare, and recreation activities.

The conferees believe that clarification of the system for determining ownership of military likenesses and designations could reduce confusion, particularly among manufacturers of toy models and hobby items, regarding appropriate policy and process for collection of license fees. The conferees encourage the Department to work with appropriate Federal departments and agencies to study the legal, financial, and administrative issues surrounding the registration of intellectual property rights in the likenesses and designations of military items, and to report back to Congress as soon as practicable on any recommendations for modifications to existing polices or statutes. The report should include a discussion of how the registration and licensing program authorized by section 1004 could be used to streamline the procedures under which toy and hobby manufacturers obtain licenses for military likenesses and designations.

Report on Department of Defense contracting with contractors or subcontractors employing members of the Selected Reserve

The Senate amendment contained a provision (sec. 845) that would require the Secretary of Defense to conduct a study on actual or potential contractors or subcontractors who employ members of the Selected Reserve. The study would address the extent to which Department of Defense contractors employ members of the Selected Reserve; potential disadvantages to such contractors in competing for Department contracts if their employees are mobilized; and recommendations for any appropriate action to provide such contractors with time or assistance in meeting contract deadlines. The provision would also repeal section 819 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163), which provided authorization for the Secretary to use employment of Selected Reserve members by a contractor as an evaluation factor for award of contracts.

The House bill contained no similar provision.

The Senate recedes.

Pilot program on expanded use of Mentor-Protege authority

The Senate amendment contained a provision (sec. 874) that would enable the Secretary of Defense to use the authorities of the Department of Defense Mentor-Protege program to provide technical assistance to firms that develop new technologies related to force protection or countering the threat of improvised explosive devices under the Small Business Innovative Research program.

The House bill contained no similar provision.

The Senate recedes.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Department of Defense Management

Increase in authorized number of assistant secretaries of defense (sec. 901)

The conferees agree to include a provision requested by the Department of Defense that would amend section 138(a) of title 10, United States Code, to permit an increase in the number of assistant secretaries of defense (ASDs) from 9 to 10 in order to facilitate a reorganization of the Office of the Under Secretary of Defense for Policy (OUSD(P)).

The conferees support the stated purpose of the reorganization, which is to develop a balanced set of portfolios that would allow more effective interaction with both commanders of the unified combatant commands and other Federal departments and agencies. The conferees understand that the Secretary of Defense intends to begin implementation of the OUSD(P) reorganization on or about October 1, 2006. While the conferees agree that the Secretary of Defense should adjust the roles and responsibilities within the OUSD(P) to address more effectively the full range of current and emerging national security challenges, the conferees share some concerns about the proposed reorganization. Chief among these concerns are:

(1) the role of a global war on terrorism task force that reports directly to the Under Secretary of Defense for Policy, and the relationship between that task force and the ASD for "Special Operations and Low-Intensity Conflict and Interdependent Capabilities" (SOLIC/IC) and other ASDs;

(2) the placement of "Strategic Capabilities" under the ASD for SOLIC/IC. Nuclear and missile issues arguably require a different skill set and knowledge base and could result in an overall dilution of the statutory mission of this ASD, which is to supervise special operations and low-intensity conflict activities. Moreover, moving "Strategic Capabilities" to a different ASD than the one responsible for chemical and biological weapons issues may complicate the effective coordination that occurs currently. It would mean that the Commander, U.S. Strategic Command, would need to seek guidance on combating weapons of mass destruction (WMD) policy from two different ASDs, creating the kind of seam that the reorganization is suppose to minimize;

(3) the placement of "Forces Transformation and Resources" under the ASD for SOLIC/IC. The conferees have similar concerns about the different skill set and knowledge base required for overseeing transformation, as well as the U.S. Transportation Command. Placing such responsibilities under the ASD for SOLIC/IC would further divert focus from the statutory mission of this ASD;

(4) the very large span of responsibilities for a Deputy ASD for "Counternarcotics, Counterproliferation, and Global Threats." The large number of significant issues that would reside in this organization could mean

that insufficient personnel and resources are devoted to the critical and diverse issues assigned to this ASD, including the critical missions of cooperative threat reduction, counterproliferation, and combating WMD;

(5) the potential impact on counternarcotics (CN) program execution. While the conferees recognize that efficiencies can be gained by developing common approaches and funding to combat illicit drug production and trafficking, terrorism, and proliferation of WMD, the conferees note that the management of CN policy must remain consistent with congressional intent regarding the Department of Defense's counterdrug role and the effective use of its drug interdiction central transfer account. Separating CN policy oversight from the administration of the central transfer account would likely reduce the effectiveness and responsiveness of the CN policy office and its ability to facilitate accurate congressional oversight of the program;

(6) the unique placement of both functional and regional issue responsibilities under one ASD for Homeland Defense and Americas' Security Affairs. It also is unclear what the functional issues under this ASD would entail; and

(7) the role of the Deputy Assistant Secretary of Defense for "Building Partner Capacity Strategy." It is unclear how this portfolio would differ from that of a Deputy Assistant Secretary of Defense for "Security Cooperation Operations." This structure appears to presume that the Department will receive permanent authority to undertake foreign military assistance missions, despite the fact that Congress has not provided such authority to the Department.

In light of these concerns, the conferees direct the Secretary of Defense to submit to the congressional defense committees, not later than February 1, 2007, a report on the OUSD(P) reorganization. This report shall provide a detailed description and explanation of the reorganization, including each of the concerns noted above. The conferees also expect that Department officials will consult frequently with the congressional defense committees about the assigned responsibilities of the ASDs, the assignment of personnel, and the plan for implementation.

Modifications to the Combatant Commander Initiative Fund (sec. 902)

The conferees agree to include a provision that would provide expanded authority under the Combatant Commanders Initiative Fund (CCIF) for geographic combatant commanders to provide urgent and unanticipated humanitarian relief and reconstruction assistance to countries in their respective areas of responsibility (AORs), particularly to countries where U.S. Armed Forces are engaged in a contingency operation. The conferees also agree to increase by $5.0 million the amount authorized for the CCIF for fiscal year 2007 for this purpose.

The conferees believe it is important that the geographic combatant commanders have additional authority, resources, and flexibility in order to be able to respond to urgent and unanticipated humanitarian relief and reconstruction needs in their AORs, particularly in countries where U.S. forces are engaged in a contingency operation. The conferees urge the Department of Defense to request sufficient funds in the CCIF for this purpose in future years budget requests. The conferees urge the Department of Defense to develop guidance for the use of this authority to ensure that the authority can be used quickly and without bureaucratic delay in urgent situations. The conferees also urge that the guidance include procedures for coordinating with the relevant Department of State country team as a precondition for providing assistance to a foreign country under this authority.

The conferees note that this expanded CCIF authority is not intended for use in Afghanistan or Iraq so long as Commander's Emergency Response Program (CERP) authority is available for use in those countries.

Addition to membership of specified council (sec. 903)

The House bill contained a provision (sec. 903) that would amend section 179(a) of title 10, United States Code, to add the Commander, Strategic Command to the Nuclear Weapons Council.

The Senate amendment contained no similar provision.

The Senate recedes.

Consolidation and standardization of authorities relating to Department of Defense Regional Centers for Security Studies (sec. 904)

The House bill contained a provision (sec. 904) that would streamline the management of the Department of Defense Regional Centers for Security Studies by providing a uniform set of authorities for all of these Regional Centers. The provision would allow the Regional Centers to conduct research, as well as facilitate the communication and exchange of ideas between U.S. and foreign military officers, civilian governmental personnel, and non-governmental personnel. The provision would permit foreign governments and U.S. federal agencies to fund foreign participation in Center activities, and would provide the Secretary of Defense authority to waive reimbursement of costs of activities for military officers and civilian defense and security officials from developing countries. The provision would continue the requirement for the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives an annual report on the Regional Centers' status, objectives, budgets, international participation, and foreign gifts and donations.

The Senate amendment contained no similar provision.

The Senate recedes.

Oversight by Office of Under Secretary of Defense for Acquisition, Technology, and Logistics of exercise of acquisition authority by combatant commanders and heads of Defense Agencies (sec. 905)

The Senate amendment contained a provision (sec. 902) that would establish a senior acquisition executive for special operations within the staff of the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to, not later than 180 days after the date of the enactment of this Act, designate a senior acquisition official within the Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics to coordinate and oversee the exercise of acquisition authorities by any combatant commander and any head of a defense agency designated by the Secretary of Defense to exercise acquisition authority.

The conferees note that the designation of a senior acquisition official within the Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics under the expanded authorities recommended by this section is intended to enhance acquisition oversight and the effective stewardship of resources and is not intended to impede the need to fulfill the urgent requirements of the commanders of combatant commands and the heads of defense agencies.

Standardization of statutory references to "national security system" within laws applicable to Department of Defense (sec. 906)

The House bill contained a provision (sec. 901) that would modify three sections of title 10 to ensure the definition of national security system is consistent with the current definition in the Federal Information Security Management Act of 2002 (Public Law 107–347) and with the definition of information technology in section 3542(b)(2) of title 44, United States Code.

The Senate amendment contained a similar provision (sec. 1071).

The Senate recedes.

Correction of reference to predecessor of Defense Information Systems Agency (sec. 907)

The House bill contained a provision (sec. 902) that would amend section 193 of title 10, United States Code, to reflect the current name of the Defense Information Systems Agency.

The Senate amendment contained an identical provision (sec. 1072).

The conference agreement includes this provision.

Subtitle B—Space Activities

Designation of successor organizations for the disestablished Interagency Global Positioning Executive Board (sec. 911)

The House bill contained a provision (sec. 911) that would amend the Commercial Space Transportation Competitiveness Act of 2000 (Public Law 106–405) to reflect the subsequent disestablishment of the Interagency Global Positioning Executive Board and its replacement by a new organizational structure created by national policy.

The Senate amendment contained a similar provision (sec. 1082).

The Senate recedes with a technical amendment that would replace the phrase "national security presidential directive" with "U.S. Space-based Position, Navigation, and Timing Policy."

Extension of authority for pilot program for provision of space surveillance network services to non-United States Government entities (sec. 912)

The House bill contained a provision (sec. 912) that would extend through September 30, 2009, a pilot program that is determining the feasibility and desirability of providing space surveillance data support to non-United States Government entities.

The Senate amendment contained an identical provision (sec. 912).

The conference agreement includes this provision.

Operationally responsive space (sec. 913)

The House bill contained a provision (sec. 913) that would establish an Operationally Responsive Space (ORS) program office and would require the Secretary of Defense to submit a report to the congressional defense committees setting forth a plan for acquisition of capabilities for operationally responsive space support to the military.

The Senate amendment contained a similar provision (sec. 911).

The House recedes with an amendment that would clarify the organization and acquisition activities of the program office.

The conferees make the following findings: (1) access to and use of space is critical for preserving and protecting the national security, commercial, and civil interests of the

United States; (2) to the maximum extent possible, space capabilities should be integrated into the strategy, doctrine, operations, and contingency plans of the armed forces; (3) the combatant commanders should have access to responsive space capabilities that provide prompt, focused support in their theater of operations, including which capabilities should compliment other national and Department of Defense space assets while providing direct and flexible support to the warfighter on the battlefield and military operations other than war; and (4) the United States Space Transportation Policy of January 6, 2005, calls for the demonstration, before 2010, of an initial capability for operationally responsive access to and use of space to support the national security requirements of the United States.

Accordingly, the conferees believe it should be the policy of the United States to demonstrate, acquire, and deploy an effective ORS capability to support military users and operations from space. The conferees understand the term ORS to include the ability to launch—and activate quickly—militarily useful satellites when needed to provide surge capability, reconstitute damaged or incapacitated satellites, or provide timely availability of tailored or new capabilities to the military user. By lowering the cost of satellite development and associated launch costs, ORS capabilities can lead to long-term benefits by advancing technology, improving space acquisitions, enhancing the skills of the technical workforce, and broadening the space industrial base.

To this end, the conferees direct the Secretary of Defense to establish a program office within the Department of Defense to coordinate and execute the Department's ORS activities and to facilitate the development of low-cost, rapid reaction payloads, busses, space-lift, and launch control capabilities to fulfill joint military operational requirements for on-demand space support and reconstitution. This program office should be the focal point for activities and entities with the capacity to contribute to the development of ORS capabilities and, as such, shall include science and technology, acquisition, operations, and combatant command support elements. In addition to coordinating the Department's efforts, this program office should seek to coordinate with the intelligence community and other relevant non-Department of Defense entities that may have activities associated with the ORS mission, and utilize existing processes and infrastructure, where applicable. The Department of Defense Executive Agent for Space, or a designee appointed by the Secretary, shall serve as head of the program office. Such designee shall report directly to the Department of Defense Executive Agent for Space.

The conferees recognize the value of developing systems for operational experimentation, which include leveraging these systems for technology demonstrations, applying lessons learned to the acquisition of production systems, and providing militarily useful support in-theater

Central to the success of the ORS effort is controlling the cost of satellites and launch vehicles developed as operational experimentation systems as well as operationally fielded production systems. The conferees believe it should be a goal of the program office, to the maximum extent possible, to limit the cost of launch vehicles (to low earth orbit) to approximately $20.0 million in constant dollars, and to limit the cost of an integrated satellite to approximately $40.0 million in constant dollars.

The conferees direct the Secretary to create a separate program element for the activities of the ORS program office and to ensure that, to the extent applicable, relevant programs and activities for ORS are consolidated within this program element. This is not intended to preclude other agencies or organizations within the Department from budgeting for science and technology efforts related to the ORS mission. The conferees do recommend, however, that the acquisition of operational capabilities and operations support costs should be planned, programmed, and budgeted in the program element for the ORS program office.

Independent review and assessment of Department of Defense organization and management for national security in space (sec. 914)

The Senate amendment contained a provision (sec. 913) that would require the Secretary of Defense to select an entity outside the Department of Defense to conduct an independent review and assessment of the organization and management of the Department of Defense for national security in space.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to consult with the chairmen and ranking members of the Committees on Armed Services of the Senate and the House of Representatives in selecting the entity to conduct the review and assessment.

Subtitle C—Chemical Demilitarization Program

Sense of Congress on completion of destruction of United States chemical weapons stockpile (sec. 921)

The Senate amendment contained a provision (sec. 1087) that would express the sense of the Senate that: (1) the United States is committed to making every effort to safely dispose of its chemical weapons stockpile by the Chemical Weapons Convention extended deadline of April 29, 2012, or as soon thereafter as possible; (2) the Secretary of Defense should prepare a comprehensive schedule for safely destroying the U.S. chemical weapons stockpile to prevent further delays in its destruction, and should submit that schedule annually to the congressional defense committees in an annual report; and (3) the Secretary should make every effort to ensure adequate funding to complete the elimination of the U.S. chemical weapons stockpile in the shortest time possible, consistent with the requirement to protect public health, safety, and the environment.

The House bill contained no similar provision.

The House recedes with an amendment that would make the provision a sense of Congress and add an additional element stating that the Secretary of Defense should propose a credible process to gain the support of affected communities when selecting a site for the treatment or disposal of neutralized chemical agent at a location remote from where the agent is stored.

Comptroller General review of cost-benefit analysis of off-site versus on-site treatment and disposal of hydrolysate derived from neutralization of VX nerve gas at Newport Chemical Depot, Indiana (sec. 922)

The House bill contained a provision (sec. 922) that would require the Comptroller General to review and report to Congress by December 1, 2006, on the adequacy of the cost benefit analysis prepared by the Secretary of the Army comparing options to treat and dispose of the hazardous material that is a by-product of the process of neutralizing VX nerve gas stored at the Newport Chemical Depot, Indiana. The provision would also prohibit the Secretary from proceeding with any action to transport this hazardous material, or hydrolysate, from the Newport Chemical Depot until 60 days after the Comptroller General's report is received by Congress.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prohibit the Secretary from proceeding with any action to transport this hazardous material, or hydrolysate, from the Newport Chemical Depot to the State of New Jersey until the earlier of: 60 days after the Comptroller General's report is received by Congress, or February 1, 2007.

Incentives clauses in chemical demilitarization contracts (sec. 923)

The Senate amendment contained a provision (sec. 372) that would provide the Secretary of Defense authority to include an incentives clause in any contract for the destruction of the U.S. stockpile of lethal chemical agents and munitions in order to accelerate the safe elimination of the U.S. chemical weapons stockpile and to reduce the total cost of the chemical demilitarization program by affording the contractor an opportunity to share in the life cycle cost savings that the U.S. Government would realize by early completion of destruction operations and facility closure. The provision would require that this authority be exercised consistent with the Secretary's obligation under law to provide for maximum protection for the environment, the general public, and the personnel who are involved in the destruction of the lethal chemical agents and munitions. The authority to include an incentives clause in a contract would be subject to the availability of appropriations for that purpose.

The House bill contained no similar provision.

The House recedes.

The conferees note that this authority is intended to be available for all elements of the chemical demilitarization program, including the Chemical Stockpile Disposal Project, the Alternative Technologies and Approaches Project, and the Assembled Chemical Weapons Alternative Program.

The conferees express their disappointment in the notification from the Secretary of Defense dated April 10, 2006, that the United States will not be able to meet the Chemical Weapons Convention extended destruction deadline of April 29, 2012, for the complete destruction of the U.S. chemical weapons stockpile. The conferees note the Secretary's commitment in the notification that "The Department will continue working diligently to minimize the time to complete destruction without sacrificing safety and security. We will also continue requesting resources needed to complete destruction as close to April 2012 as practicable." The conferees strongly concur in those sentiments and urge the Department to uphold the commitment expressed in the Secretary's notification letter.

Chemical demilitarization program contracting authority (sec. 924)

The Senate amendment contained a provision (sec. 376) that would clarify retroactively that the Secretary of Defense may carry out the chemical weapons demilitarization program through multiyear contracts.

The House bill contained no similar provision.

The House recedes.

Subtitle D—Intelligence-Related Matters

Four-year extension of authority of Secretary of Defense to engage in commercial activities as security for intelligence collection activities (sec. 931)

The Senate amendment contained a provision (sec. 1031) that would extend the authority to engage in commercial activities as security for intelligence collection activities until December 31, 2008.

The House bill contained a similar provision (sec. 931).

The House recedes with an amendment that would extend the authority until December 31, 2010.

Annual reports on intelligence oversight activities of the Department of Defense (sec. 932)

The Senate amendment contained a provision (sec. 1032) that would require the Secretary of Defense to submit an annual report to the congressional defense and intelligence committees on intelligence oversight activities of the Department of Defense. The term "intelligence oversight activities of the Department of Defense" refers to any activity undertaken by an agency element or component of the Department to ensure compliance with regard to intelligence and intelligence-related activities of the Department under law or any Executive order, or Presidential directive, including Executive Order 12333.

The House bill contained no similar provision.

The House recedes with an amendment that would change the distribution of the report, remove references to "questionable activities," and add the required annual report to chapter 21, title 10, United States Code.

Collection by National Security Agency of service charges for certification or validation of information assurance products (sec. 933)

The Senate amendment contained a provision (sec. 1035) that would authorize the National Security Agency to collect service charges for the certification or validation of information assurance products.

The House bill contained no similar provision.

The House recedes.

Subtitle E—Other Matters

Department of Defense policy on unmanned systems (sec. 941)

The Senate amendment contained a provision (sec. 921) that would require the Secretary of Defense, in consultation with the Chairman of the Joint Chiefs of Staff, to develop a Department-wide policy for research, development, test, and evaluation; procurement; and operation of unmanned systems.

The House bill contained no similar provision.

The House recedes with an amendment that would: (1) clarify the policy elements to be addressed; (2) require the report to the congressional defense committees to include strategy and schedule information for implementing the necessary policy; and (3) define unmanned systems for the purposes of this section.

The conferees recognize that unmanned systems are not, and will not, be capable of replacing manned systems in every case. However, the conferees encourage the Department of Defense to use an expanded vision in determining those routine and dangerous missions that could, and should, be performed by unmanned systems. Interoperability, survivability, commonality, sustainment, manufacturing, and training should be examined for seamless integration between manned and unmanned systems development, acquisition and operation in the air, on the ground, and at sea.

Executive Schedule level IV for Deputy Under Secretary of Defense for Logistics and Materiel Readiness (sec. 942)

The Senate amendment contained a provision (sec. 922) that would move the position of Deputy Under Secretary of Defense for Logistics and Materiel Readiness from Executive Schedule Level III to Level IV. The change would be applicable to future appointees to the position.

The House bill contained no similar provision.

The House recedes.

Study and report on reform of Defense Travel System (sec. 943)

The Senate amendment contained a provision (sec. 926) that would prohibit the Secretary of Defense from obligating or expending any funds related to the Defense Travel System, except those funds obtained through a one-time, fixed-price service fee per Department of Defense customer utilizing the system with an additional fixed fee for each transaction.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to provide an independent report to the congressional defense committees within 6 months of the date of the enactment of this Act. The report shall analyze the feasibility of separating the financial infrastructure of the Defense Travel System from the travel reservation system, converting the travel reservation process to a fee-for-service system, and making the use of the financial infrastructure of the Defense Travel System mandatory for all travel transactions.

The amendment would also require the Secretary to report to the congressional defense committees on the actions he plans to take to implement the recommendations of the report. The amendment prohibits the Secretary from initiating a new contract for the Defense Travel System (other than to continue current operations) until the report has been provided to the Congress.

Administration of pilot project on Civilian Linguist Reserve Corps (sec. 944)

The Senate amendment contained a provision (sec. 1033) that would transfer the administration of the pilot project on the Civilian Linguist Reserve Corps from the Director of National Intelligence (DNI) to the Secretary of Defense.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to coordinate with the DNI in carrying out the pilot project, and extend the duration of the pilot project for an additional 2 years.

Improvement of authorities on the National Security Education Program (sec. 945)

The Senate amendment contained a provision (sec. 1034) that would amend section 1902(b)(2) of title 50, United States Code, to expand the entities in which mandated service could be performed to include the Department of Homeland Security, Department of State, or a position in the field of education. The provision would also provide authority to the Secretary of Defense to hire a program participant in a position in the Department of Defense on a temporary, interim basis, for a period not to exceed 2 years, to expedite security clearances and other personnel processes, if there is no other permanent position available for the participant.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the authority to expand the entities in which mandated service could be performed, and make clarifying changes.

Report on the posture of the United States Special Operations Command to conduct the global war on terrorism (sec. 946)

The Senate amendment contained a provision (sec. 927) that would require the Secretary of Defense to report on the types of units and capabilities that should be incorporated into the reserve components of the Armed Forces as part of the expansion of Special Forces, as outlined in the 2006 Quadrennial Defense Review Report. In addition, the Secretary would be required to report on the effort taken by the U.S. Special Operations Command (USSOCOM) to provide special forces training in high-altitude and mountainous areas within the United States.

The House bill contained no similar provision.

The House recedes with an amendment that would require that the report should assess the posture of USSOCOM to conduct the global war on terrorism, including: (1) whether the command is appropriately manned, resourced, and equipped; (2) whether there is an appropriate balance of capabilities between the active and reserve components; (3) whether there are sufficient numbers of Army Special Forces for foreign security assistance and training missions; and (4) how the special operations forces are being trained for different operational environments.

LEGISLATIVE PROVISIONS NOT ADOPTED

United States Military Cancer Institute

The Senate amendment contained a provision (sec. 901) that would require the Secretary of Defense to establish the United States Military Cancer Institute in the Uniformed Services University of the Health Sciences.

The House bill contained no similar amendment.

The Senate recedes.

Military deputies to the assistant secretaries of the military departments for acquisition, logistics, and technology matters

The Senate amendment contained a provision (sec. 904) that would establish positions within the military departments for military deputies to the assistant secretaries for acquisition in the Departments of the Army, Navy, and Air Force. The officers serving in these positions would hold the rank of lieutenant general or vice admiral while serving and would be excluded from limits on the numbers and percentages of officers in the respective services.

The House bill contained no similar provision.

The Senate recedes.

Redesignation of the Department of the Navy as the Department of the Navy and Marine Corps

The House bill contained a provision (sec. 905) that would amend title 10, United States Code, to redesignate the Department of the Navy as the Department of the Navy and Marine Corps. The provision would also change the titles of the Secretary of the Navy, the Assistant Secretaries of the Navy, and the General Counsel of the Navy to include both the Navy and the Marine Corps.

The Senate amendment contained no similar provision.

The House recedes.

Transfer to Secretary of the Army of responsibility for Assembled Chemical Weapons Alternatives program

The House bill contained a provision (sec. 921) that would transfer program management responsibility for the Assembled Chemical Weapons Alternatives program from the Under Secretary of Defense for Acquisition, Technology, and Logistics to the Secretary of the Army by January 1, 2007.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Congress regarding the safe and expeditious disposal of chemical weapons

The House bill contained a provision (sec. 923) that would express the sense of Congress that the process used for selecting a site for remote disposal of hazardous material remaining after the initial processing of chemical munitions should be free from political influence and that a process similar to that used for base closure and realignment be considered for adoption.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Senate on nomination of individual to serve as Director of Operational Test and Evaluation on a permanent basis

The Senate amendment contained a provision (sec. 924) that would express the sense of the Senate that the President should nominate a permanent Director of Operational Test and Evaluation as soon as practicable.

The House bill contained no similar provision.

The Senate recedes.

Inclusion of homeland defense and civil support missions of the National Guard and Reserves in the Quadrennial Defense Review

The Senate amendment contained a provision (sec. 925) that would amend section 118(d) of title 10, United States Code, to require the Secretary of Defense to include homeland defense and civil support missions in the Quadrennial Defense Review (QDR) report.

The House bill contained no similar provision.

The Senate recedes. The provision was incorporated into another provision elsewhere in this report.

TITLE X—GENERAL PROVISIONS

ITEM OF SPECIAL INTEREST

Vietnam conflict

The conferees believe it is appropriate to commemorate the 50th anniversary of the Vietnam conflict in order to thank and honor the veterans, missing in action, and prisoners of war of that conflict and their families; to pay tribute to the sacrifices and contributions made on the home front by the people of the United States during the Vietnam conflict; to highlight advances in technology, science, and medicine related to military research conducted during the Vietnam conflict; and to recognize the contributions and sacrifices made by the allies of the United States in the Vietnam conflict.

The conferees, therefore, direct the Secretary of Defense to provide the Committees on Armed Services of the Senate and the House of Representatives, not later than April 1, 2007, with a proposed plan on commemoration of the Vietnam conflict. At a minimum, the proposed plan should include: the recommended duration and outline of major events of the commemoration; a discussion of how the Department of Defense would coordinate, support, and facilitate this commemoration with other Federal Government agencies, State and local governments, and other entities; the estimated total expenditures necessary to carry out the commemoration program; and legislative proposals needed to implement the commemoration. The plan should also include the recommended process and guidelines for managing the financing and expenditures of the commemoration. To that end, the plan should include the establishment in the Treasury of an account to be administered by the Secretary of Defense, from which funds might be invested and from which funds could be obligated solely for purposes related to the commemoration program. The conferees also believe that the establishment of such an account should be accompanied by a recommended limitation on the expenditure of appropriated funds in support of the commemoration and that the cost of the commemoration should not be borne by a single military department.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Financial Matters

General transfer authority (sec. 1001)

The House bill contained a provision (sec. 1001) that would provide $3.75 billion in transfer authority among accounts in division A of this Act for fiscal year 2007.

The Senate amendment contained a similar provision (sec. 1001) that would provide $4.0 billion in transfer authority among accounts in division A of this Act for fiscal year 2007.

The House recedes with an amendment that would provide $4.5 billion in transfer authority.

Authorization of additional emergency supplemental appropriations for fiscal year 2006 (sec. 1002)

The House bill contained a provision (sec. 1002) that would authorize emergency supplemental appropriations pursuant to an emergency supplemental appropriations act for 2006.

The Senate amendment contained a similar provision (sec. 1002) that would authorize additional emergency supplemental appropriations for fiscal year 2006 for Iraq, Afghanistan, and the Global War on Terror, pursuant to titles I, II, and V of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109–234).

The House recedes.

Reduction in certain authorizations due to savings relating to lower inflation (sec. 1003)

The House bill contained a provision (sec. 1006) that would reduce the amount authorized to be appropriated to the Department of Defense by $1.6 billion to reflect savings from lower-than-expected inflation estimates.

The Senate amendment contained a similar provision (sec. 1003).

The Senate recedes with an amendment that would reduce the amount authorized to be appropriated to the Department of Defense by $757.1 million.

Increase in fiscal year 2006 general transfer authority (sec. 1004)

The House bill contained a provision (sec. 1003) that would provide $3.75 billion in transfer authority among accounts in division A of this Act for fiscal year 2006.

The Senate amendment contained a similar provision (sec. 1006) that would provide $5.0 billion in transfer authority for fiscal year 2006.

The House recedes.

United States contribution to NATO common-funded budgets in fiscal year 2007 (sec. 1005)

The House bill contained a provision (sec. 1004) that would authorize the U.S. contribution to North Atlantic Treaty Organization (NATO) common-funded budgets for fiscal year 2007, including the use of unexpended balances.

The Senate amendment contained an identical provision (sec. 1005).

The conference agreement includes this provision.

The conferees note that this provision is necessary because the resolution of ratification for the Protocol to the North Atlantic Treaty of 1949 on the Accession of Poland, Hungary, and the Czech Republic contained a provision (section 3(2)(c)(ii)) requiring a specific authorization for U.S. payments to the common-funded budgets of NATO for each fiscal year, beginning in fiscal year 1999, that payments exceed the fiscal year 1998 total.

Report on budgeting for fluctuations in fuel cost rates (sec. 1006)

The House bill contained a provision (sec. 1005) that would require the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives by January 15, 2007, on the fuel cost rate projection used in the annual Department of Defense budget.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment that would change the date of the required report to February 15, 2007, and require that the report be sent to the congressional defense committees.

Modification of date of submittal of OMB/CBO report on scoring of outlays (sec. 1007)

The Senate amendment contained a provision (sec. 1006) that would change the date of the currently required report on the Office of Management and Budget and the Congressional Budget Office outlay estimates (section 226 of title 10, United States Code) from January 15 to April 1 of each year.

The House bill contained no similar provision.

The House recedes.

Budgeting for ongoing military operations in Afghanistan and Iraq (sec. 1008)

The Senate amendment contained a provision (sec. 1085) that would require the President to submit, pursuant to section 1105(a) of title 31, United States Code, for each fiscal year after fiscal year 2007, a request for funds for ongoing military operations in Afghanistan and Iraq. The provision would also require the President to submit an estimate of all funds expected to be required in that fiscal year for such operations and a detailed justification of the funds requested.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Subtitle B—Policy Relating to Vessels and Shipyards

Aircraft carrier force structure (sec. 1011)

The Senate amendment contained a provision (sec. 1011) that would eliminate the requirement for the naval combat forces of the Navy to include no fewer than 12 operational aircraft carriers.

The House bill contained no similar provision.

The House recedes with an amendment that would reduce the minimum number of operational aircraft carriers required by law to 11.

The conferees understand that the 2006 Quadrennial Defense Review Report concluded that a naval force including 11 aircraft carriers meets the combat capability requirements of the National Military Strategy. The conferees agree with the Navy's determination that the cost of maintaining 12 operational aircraft carriers by restoring the USS *John F. Kennedy* (CV–67) to a deployable, fully mission-capable status would significantly impact the Chief of Naval Operations' (CNO) plan to build a future naval force of 313 ships. The conferees also agree with the Navy's proposal to inactivate the USS *John F. Kennedy* (CV–67) in fiscal year 2007. However, the conferees believe that it is important to retain the ability to reactivate the USS *John F. Kennedy* (CV–67) in the event that 12 aircraft carriers are required in response to a national emergency.

The conferees expect, therefore, in conjunction with decommissioning the USS *John F. Kennedy* (CV–67), that the Secretary of Defense, in coordination with the Supreme Allied Commander, Europe and the Secretary of Homeland Security, will evaluate the feasibility of maintaining the aircraft carrier in an operational status by transferring custody and control to the North Atlantic Treaty Organization or the Department of Homeland Security. The Secretary shall provide notification of the findings to the Committees on Armed Services of the Senate and the House of Representatives prior to decommissioning the USS *John F. Kennedy* (CV–67).

The conferees further expect that, upon decommissioning from the U.S. Navy and completion of the ship's inactivation availability, the Navy will maintain CV–67 in a state of preservation (dehumidification, cathodic protection, and configuration control) pending determination of final disposition. In the event it is determined that CV–67 is to be retired from operational status, the Secretary of the Navy shall evaluate other alternatives for final disposition, to include maintenance in a reduced mobilization status, donation as a museum article, or striking from the naval vessel registry; and report the findings with the Secretary of the Navy's recommendation to the congressional defense committees not later than October 1, 2007. Under all circumstances, the Navy shall retain custody of CV–67 at least until commissioning of CVN–77. If the aircraft carrier is transferred from the custody and control of the Navy, the Secretary of the Navy shall require as a condition of such transfer that the transferee, upon request of the Secretary of Defense, return the vessel to the United States. In such a case, unless the transferee is otherwise notified by the Secretary of the Navy, the title to the vessel shall revert immediately to the United States.

The conferees agree with the CNO statement in his letter dated August 14, 2006, to the Ranking Member of the Committee on Armed Services of the Senate, that "Naval Station Mayport and the many resources of the Jacksonville area remain vitally important to Navy readiness," and support the CNO commitment "to maintaining the infrastructure necessary to support the strategic dispersal of the Atlantic Fleet at this key east coast port." The conferees note that the USS *John F. Kennedy* (CV–67) has served proudly in defense of freedom around the world, in times of peace and in war in the course of her 38 years of service. She has brought great honor to our Nation, to her namesake, and to the tens of thousands of sailors who "stood the watch" on her decks these many years. It is most fitting, therefore, that the Navy plan the decommissioning of the USS *John F. Kennedy* (CV–67) with ceremony befitting her distinguished history of service to our Nation.

Sense of Congress on naming the CVN–78 aircraft carrier as the USS Gerald R. Ford (sec. 1012)

The Senate amendment contained a provision (sec. 1013) that would require that the CVN–78 aircraft carrier shall be named the USS *Gerald R. Ford.*

The House bill contained no similar provision.

The House recedes with an amendment that would express the sense of Congress that the Navy should name the CVN–78 aircraft carrier the USS *Gerald R. Ford.*

Transfer of naval vessels to foreign nations based upon vessel class (sec. 1013)

The House bill contained a provision (sec. 1011) that would allow the transfer of a specified number of ships to a particular nation without identification of the specific vessel by hull number or ship name.

The Senate amendment contained a similar provision (sec. 1012).

The Senate recedes.

Overhaul, repair, and maintenance of vessels in foreign shipyards (sec. 1014)

The House bill contained a provision (sec. 1012) that would clarify those commonwealths and possessions that are to be considered as part of the United States for the purposes of naval vessels to include Military Sealift Command vessels. The provision would also extend the limitations on overhaul, repair, and maintenance of vessels in foreign shipyards.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would amend section 7310(a) of title 10, United States Code, to require naval vessels homeported in Guam to be overhauled, repaired, or maintained in a shipyard in the United States or Guam.

Report on options for future lease arrangement for Guam Shipyard (sec. 1015)

The House bill contained a provision (sec. 1013) that would require the Secretary of the Navy to submit a report to the Committees on Armed Services of the Senate and the House of Representatives on the Guam Shipyard. The provision would also require the Comptroller General to submit an evaluation of the Secretary of Navy's report. The provision would further require the awarding of contracts to the Guam Shipyard in an amount equal to the average amount awarded between fiscal years 1998 and 2006.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete the requirement for awarding contracts to the Guam Shipyard.

Assessments of naval vessel construction efficiencies and of effectiveness of special contractor incentives (sec. 1016)

The House bill contained a provision (sec. 1014) that would establish a program to provide grants and loan guarantees to U.S. shipbuilders to make capital investments in their shipbuilding processes and facilities. The provision would also require the Secretary of the Navy to perform annual assessments of the shipbuilding industrial base to determine where and to what extent inefficiencies exist and to what extent innovative design and production technologies, processes, and infrastructure can be developed to alleviate such inefficiencies.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to conduct an assessment of naval vessel construction to determine inefficiencies that exist; innovative design and production technologies, processes, and performance incentives that are warranted to alleviate those inefficiencies; and actions the Secretary intends to take to facilitate adoption by the shipbuilding industry of the technologies, processes, and performance incentives so identified. The amendment would also require the Secretary to conduct an assessment of the effectiveness of the use in naval construction contracts of special incentives for investment by the contractor in facilities and process improvement projects, including a description of the use of such incentives, a description of the process and criteria used for evaluation of and selection among proposed projects, progress in implementing selected projects, plans for applying similar contract incentives in future shipbuilding programs, and recommendations by the Secretary for enactment of legislation that might increase the effectiveness of, or expand the use of, such contract incentives. The amendment would further require that the Secretary submit a report on these assessments to the congressional defense committees not later than April 1, 2007. The conferees direct the Secretary to provide the congressional defense committees with an interim briefing on the findings of the assessments not later than March 1, 2007.

Obtaining carriage by vessel: criterion regarding overhaul, repair, and maintenance of vessels in the United States (sec. 1017)

The House bill contained a provision (sec. 1017) that would provide that the Secretary of Defense may not award any contract for the carriage by vessel of cargo for the Department of Defense, unless the contract includes a requirement under which the contractor shall ensure that the overhaul and repair work is done in a shipyard located in the United States or the contractor must report any repair work conducted in a shipyard located outside the United States.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to issue an acquisition policy that establishes as a criterion, required to be considered in obtaining carriage by vessel of cargo for the Department, the extent to which an offeror of such carriage had overhaul, repair, and maintenance work for the offerors' vessels performed in shipyards located in the United States. The amendment would be limited to vessels that are owned, operated, or controlled by the offeror and qualified to engage in the carriage of cargo in the coastwise or non-contiguous trades. Thus, the conferees expect that the Secretary will establish, as an evaluation criterion in the award, the past accomplishment of overhaul, repair, and maintenance work conducted in shipyards located in the United States, similar to other considerations such as cost, schedule, capability to perform the carriage, and other independently weighted factors. The amendment would apply to the carriage of Department cargo, whether the carriage was obtained pursuant to charter or tariff. Further, the amendment would define the term "United States" to include any State of the United States and, in addition, Guam.

The conferees agree that a strong ship repair industrial base is vital to the national security interests of the United States. Accordingly, it is important that the Secretary maintain a current assessment of the Nation's ship repair capabilities and capacity and, consistent with the Secretary's assessment, that the Department assign value to the accomplishment of overhaul, repair, and maintenance work in the United States for the evaluation of offerors' proposals in the awards of contracts to carry Department cargo.

To guide formulation and implementation of the Secretary's acquisition policy, the Secretary shall conduct an assessment of the ship repair industrial base, to include: (1) a determination of ship repair requirements to support the National Military Strategy; (2) an evaluation of the repair industrial base's critical capabilities, capacity, competitive sourcing, geographical disposition; and (3) other critical factors as measured against the determined requirements. The Secretary shall submit a report on the results of the assessment to the congressional defense committees not later than June 1, 2007.

Riding gang member requirements (sec. 1018)

The House bill contained a provision (sec. 1018) that would prohibit the Secretary of Defense from awarding a charter or a contract for carriage of defense cargo unless the charter or contract requires that each riding gang member that performs any work on the vessel during the effective period of the charter or contract holds a merchant mariner's document issued by the United States Coast Guard. The provision would also allow the Secretary to issue regulations to exempt a riding gang member from the above requirement under limited circumstances, and then only if a background check is performed.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would incorporate by reference certain limited provisions contained in section 8106 of title 46, United States Code, relating to general restrictions on the use of riding gangs on U.S. documented vessels. The amendment would also clarify, for those vessels carrying defense cargoes, the categories of individuals who may be exempted under regulation from the requirement to hold a merchant mariner's document issued by the United States Coast Guard. These individuals, who will be required to have either a background check or possess a merchant mariner's document, include supercargo personnel, force protection personnel, specialized repair technicians, and other individuals required to be aboard the vessel. The amendment would further make clear that individuals engaged in the general operation or maintenance, whether designated members of the vessel's crew or not, must possess a merchant mariner's document issued by the United States Coast Guard if the vessel is carrying defense cargoes.

Authority to transfer SS Arthur M. Huddell to the Government of Greece (sec. 1019)

The Senate amendment contained a provision (sec. 1014) that would authorize the Secretary of Transportation to transfer the ex-Liberty ship SS Arthur M. Huddell, by gift to the government of Greece. The provision would also authorize the Secretary to convey additional equipment from other obsolete vessels of the National Defense Reserve Fleet for purposes of a museum exhibit.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the President to transfer the SS Arthur M. Huddell to the government of Greece, and to convey additional equipment from other obsolete vessels of the National Defense Reserve Fleet, in accordance with such terms and conditions as the President may determine. As a condition of the transfer of the vessel, the President shall require, to the maximum extent practicable, that the government of Greece have such repair or refurbishment of the vessel, as is necessary for the safe transit of the vessel to its ultimate destination, be performed at a shipyard located in the United States.

Subtitle C—Counter Drug Activities

Extension of authority of Department of Defense to provide additional support for counterdrug activities of other governmental agencies (sec. 1021)

The Senate amendment contained a provision (sec. 1022) that would authorize a 5-year extension in the current authorities of the Department of Defense to assist the counterdrug activities of any other department or agency of the Federal Government or any other State, local, or foreign law enforcement agency through 2011.

The House bill contained no similar provision.

The House recedes.

Extension and expansion of Department of Defense authority to provide support for counter-drug activities of certain foreign governments (sec. 1022)

The Senate amendment contained a provision (sec. 1023) that would extend and expand certain authorities of the Department of Defense to support the counterdrug activities of other countries. The provision would: (1) extend current authorities for 2 years; (2) add 15 countries that are situated either along key drug smuggling routes or are facing an increasing threat of narco-terrorism to the list of countries eligible for support; (3) expand the types of equipment and supplies that can be provided for counterdrug support to include vehicles, aircraft, and detection and monitoring equipment; and (4) double the funding limit for counterdrug support through fiscal year 2011 from $40.0 million to $80.0 million. The provision would also require the Secretary of Defense to seek concurrence of the Secretary of State on matters of counterdrug support to foreign nations and provide a report to designated congressional committees on support provided to each foreign government.

The House bill contained no similar provision.

The House recedes with an amendment that would: (1) reduce the number of additional countries authorized to receive this support from 15 to 7; (2) reduce the funding limit to $60.0 million; (3) authorize, for calendar years 2007 and 2008 only, the transfer, to Afghanistan only, of individual and crew-served weapons of 50 caliber or less, and the ammunition for such weapons for counternarcotics security forces only; and (4) require the Secretary of Defense to consult with, instead of seek the concurrence of, the Secretary of State.

Extension of authority to support unified counterdrug and counterterrorism campaign in Colombia (sec. 1023)

The House bill contained a provision (sec. 1023) that would extend the authority to support the unified counterdrug and counterterrorism campaign in Colombia through fiscal year 2008, as provided in the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375).

The Senate amendment contained a similar provision (sec. 1021).

The Senate recedes.

Continuation of reporting requirement regarding Department of Defense expenditures to support foreign counter drug activities (sec. 1024)

The House bill contained a provision (sec. 1024) that would extend by 1 year the requirement for the Secretary of Defense to submit a report detailing the expenditure of funds by the Secretary during fiscal year 2006.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend the reporting requirement through fiscal year 2007, and require the report to be submitted to the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives.

Report on interagency counter-narcotics plan for Afghanistan and South and Central Asian regions (sec. 1025)

The House bill contained a provision (sec. 1025) that would require the Secretary of Defense to submit a report to the congressional defense committees on interagency counterdrug implementation plans for Afghanistan and 10 other countries in south and central Asia.

The Senate amendment contained no similar provision.

The Senate recedes with amendment that would add Armenia to the list of countries in the report, and clarify other matters included in the report.

Report on United States support for Operation Bahamas, Turks & Caicos (sec. 1026)

The Senate amendment contained a provision (sec. 1024) that would require the Secretary of Defense to submit a report to Congress outlining the plan for continued United States Government support to Operation Bahamas, Turks & Caicos not later than 30 days prior to implementing a decision to withdraw Department of Defense helicopters from this counterdrug program.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Subtitle D—Force Structure and Defense Policy Matters

Improvements to Quadrennial Defense Review (sec. 1031)

The Senate amendment contained a provision (sec. 1083) that would amend section 118 of title 10, United States Code, to require: (1) analysis and recommendations in the Quadrennial Defense Review (QDR) that are not constrained to comply with the President's budget submission; (2) an identification of specific capabilities, including the general number and type of specific military platforms required to achieve strategic and warfighting objectives; (3) an independent assessment of the QDR and the submission of the results of the assessment to Congress; and (4) a more comprehensive risk assessment from the Chairman of the Joint Chiefs of Staff (CJCS) that describes the additional capabilities needed to reduce the risks identified in the CJCS risk assessment.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the appointment process for the independent panel, and expand the scope of the review to include an assessment of the homeland defense and support to civil authorities missions of the active and reserve components of the armed forces, including the organizations and capabilities required for the active and reserve components to discharge their missions. The latter was included as a separate provision in the Senate amendment (sec. 925).

Quarterly reports on implementation of 2006 Quadrennial Defense Review Report (sec. 1032)

The House bill contained a provision (sec. 1035) that would require the Secretary of Defense to submit a quarterly report on the implementation of recommendations described in the 2006 Quadrennial Defense Review Report. The first report shall be submitted not later than January 31, 2007.

The Senate amendment contained no similar provision.

The Senate recedes.

Report on feasibility of establishing a regional combatant command for Africa (sec. 1033)

The Senate amendment contained a provision (sec. 1070C) that would require the Secretary of Defense to submit a report to the congressional defense committees, not later than 180 days after the date of the enactment of this Act, on the feasibility and advisability of establishing a regional combatant command for Africa.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Determination of Department of Defense intratheater and intertheater airlift requirements and sealift mobility requirements (sec. 1034)

The House bill contained a provision (sec. 1043) that would require the Secretary of Defense to submit a report to the congressional defense committees not later than February 1, 2007, on the intratheater and intertheater airlift and sealift mobility requirements.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Presidential report on improving interagency support for United States 21st century national security missions and interagency operations in support of stability, security, transition, and reconstruction operations (sec. 1035)

The House bill contained a provision (sec. 1034) that would require the President to submit a report to Congress on building interagency capacity and enhancing the integration of civilian and military capabilities to achieve U.S. national security goals and objectives. The report should include recommendations for specific legislative proposals to improve interagency coordination.

The Senate amendment contained a similar provision (sec. 1222) that would require the President to develop a plan to establish interagency operating procedures for Federal agencies to plan and conduct stabilization and reconstruction operations.

The Senate recedes with an amendment that would delete the sense of Congress, and merge the two provisions into a single report. The amendment would also make other clarifying changes.

The conferees recognize that the United States faces a more diverse set of national security challenges than those faced during the Cold War, and that the major national security institutions designed for the Cold War lack adequate capacity to address the security challenges of the 21st century. Since 2002, the administration has developed several strategy documents that set forth broad U.S. national security goals and objectives to address new and emerging security challenges. The administration has also taken initial steps to institutionalize lessons learned since the September 11, 2001, terrorist attacks on the United States, including the establishment of the Department of Homeland Security, the U.S. Northern Command, and the Office of Reconstruction and Stabilization, as well as the creation of the positions of the Assistant Secretary of Defense for Homeland Defense, the Under Secretary of Defense for Intelligence, and the Director of National Intelligence.

The conferees believe that the executive branch and Congress must take additional steps to lay the foundation and strengthen Federal institutions to ensure that interagency structures, policies, and processes support integrated planning and unified action in response to 21st century national security challenges. The conferees also believe that the United States Government should bring to bear all elements of national power to achieve its national security objectives. This will require strengthening the capacity of Federal departments and agencies to conduct interagency operations. In developing the required report, the conferees urge the executive branch to consult with State and local agencies, and other national security experts, as appropriate, on the types of interagency capabilities that the Federal Government should develop to address current and future security challenges. The report required by this section will provide the Congress with a baseline assessment of the capacities and capabilities of the Federal departments and agencies to carry out the full range of national security missions. The conferees intend to use this information in helping to develop and implement strategies that will improve the ability of the Federal departments and agencies to participate, as appropriate, in the full range of national security missions.

Further, the conferees note that United States Government lacks a standard, integrated approach to the planning and conduct of interagency operations. The conferees express the view that: (1) the President should provide clear guidance to United States Government agencies to manage complex operations and establish a standard, integrated approach to the planning and conduct of interagency operations to ensure a coherent and unified United States Government response to contingency operations; (2) civilian agencies of the United States Government should expand their capacity to participate, as appropriate, in national security missions and, more specifically, to plan, coordinate, and conduct stability, security, transition, and reconstruction operations, including their capacity to deploy rapidly, and for sustained periods of time, trained personnel to support such operations in the field; and (3) all the relevant United States Government agencies should include in their budget requests for future fiscal years adequate funding for planning and preparing to support contingency operations and, as necessary, request emergency supplemental funds for unanticipated contingency operations.

Subtitle E—Reports

Additional element in annual report on chemical and biological warfare defense (sec. 1041)

The Senate amendment contained a provision (sec. 1063) that would direct the Department of Defense to include a new element in the annual report on the Department's chemical and biological defense program, as required by section 1703 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160). The new element would be a description of the coordination and integration of the Defense Advanced Research Projects Agency (DARPA) research and development efforts on chemical and biological warfare defense with the Department's chemical and biological defense program, including the degree to which the DARPA program supports the objectives and requirements of the overall program, and the means by which the Department determines the level of coordination and support provided by DARPA to the Department's overall program.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Report on biodefense human capital requirements in support of biosafety laboratories (sec. 1042)

The Senate amendment contained a provision (sec. 1070) that would require the Secretary of Defense to study and report to Congress on the requirements for personnel and training at current and planned national biodefense laboratories at Biosafety Levels 3 and 4, including the number of personnel, by discipline, and the training required to provide qualified personnel for such laboratories.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the report to Department of Defense personnel and training requirements, and expand the elements of the report to include recruitment and retention plans.

Report on technologies for neutralizing or defeating threats to military rotary-wing aircraft from portable air defense systems and rocket-propelled grenades (sec. 1043)

The Senate amendment contained a provision (sec. 1068) that would require the Secretary of Defense to submit a report to Congress, not later than 180 days after the date of the enactment of this Act, on technologies for neutralizing or defeating threats to military rotary-wing aircraft from portable air defense systems and rocket-propelled grenades that are being researched, developed, employed, or considered by the United States Government or the North Atlantic Treaty Organization.

The House bill contained no similar provision.

The House recedes with a technical amendment. The conferees expect the Secretary to submit a thorough classified report that includes technologies developed under classified programs.

Reports on expanded use of unmanned aerial vehicles in the National Airspace System (sec. 1044)

The Senate amendment contained a provision (sec. 1070D) that would make certain findings regarding the operational reliability of unmanned systems in support of national security missions and the potential for unmanned systems in support of border security and homeland defense missions. The provision would require the Secretary of Defense to report to Congress on efforts to support the Federal Aviation Administration (FAA) in the development of a policy on the testing and operation of unmanned vehicles in the National Airspace System.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the reporting requirement for the Department of Defense, and would require the FAA to submit a report on progress in developing a policy for testing and a plan for achieving wider access by unmanned aerial vehicles that are appropriately equipped to operate in the National Airspace System.

Report on incentives to encourage certain members and former members of the armed forces to serve in the Bureau of Customs and Border Protection (sec. 1045)

The Senate amendment contained a provision (sec. 1066) that would require, not later than 60 days after the date of the enactment of this Act, the Secretary of Homeland Security and the Secretary of Defense to jointly submit to Congress a report assessing the desirability and feasibility of offering incentives to members of the reserve components of the armed forces and former members of the armed forces within 2 years of separation from service to encourage such persons to serve in the Bureau of Customs and Border Protection of the Department of Homeland Security. For the purposes of the report, the Secretary of Homeland Security and the Secretary of Defense would consider such incentives as the Secretaries jointly consider appropriate, including whether or not such incentives are monetary, and whether or not such incentives are currently authorized by law or regulations. The provision would require that the Secretaries give particular attention to the utility of such incentives in encouraging service by members and former members of the armed forces who provided border patrol or border security assistance as part of their duties as members of the armed forces, and leveraging military training and experience by accelerating training, or allowing credit to be applied to related areas of training, which is required for service with the Bureau of Customs and Border Protection. The provision would require that in assessing the incentives the Secretaries assume that any costs of such incentives would be borne by the Department of Homeland Security.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Repeal of certain report requirements (sec. 1046)

The House bill contained a provision (sec. 661) that would repeal the requirement for an annual report under section 1015 of title 37, United States Code, regarding the effects of certain recruitment and retention initiatives taken in fiscal year 2000.

The Senate amendment contained a provision (sec. 1065) that would repeal the requirement not only for the foregoing report under section 1015, but also for: (1) the annual report on aviation career incentive pay under section 301a of title 37, United States Code; (2) the report of the Secretary of Defense's recommendation on the need for Department of Defense review of proposed federal agency actions to consider possible impact on national defense; (3) the report on a pilot program to enhance military recruiting by improving military awareness of school counselors and educators; (4) the annual report on the activities of the Medical Informatics Advisory Committee and on coordination of informatics systems within the Federal Government; and (5) the reporting requirement associated with changes made by service academies in the amount of authorized charges or fees.

The House recedes with an amendment that would delete the provision regarding repeal of the report on imposition of additional charges or fees for attendance at certain academies.

Requirement for identification of recently enacted recurring reporting requirements applicable to the Department of Defense (sec. 1047)

The Senate amendment contained a provision (sec. 1067) that would require the Secretary of Defense to submit to the congressional defense committees, not later than March 1, 2007, a report on recurring reports that are required to be submitted, by the Department of Defense or any element thereof, to those committees by any provision of law enacted on or after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136). The provision would require that the Secretary describe each such report, assess its utility from the perspective of the Department, and give a recommendation as to the advisability of repealing the requirement for its submission.

The House bill contained no similar provision.

The House recedes with an amendment that would: (1) limit the reports covered by the provision to those enacted on or after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2004 and before February 1, 2007; (2) require the Secretary to include an assessment of the burden imposed on the Department (or an element thereof) by the preparation of the report; and (3) require the Secretary to submit his recommendations as to the modification, as well as the repeal, of individual reports.

Subtitle F—Miscellaneous Authorities and Limitations on Availability and Use of Funds

Acceptance and retention of reimbursement from non-Federal sources to defray Department of Defense costs of conferences (sec. 1051)

The Senate amendment contained a provision (sec. 1051) that would authorize the Department of Defense to accept and retain reimbursement from non-Federal sources for its conference costs. The provision would further require the Secretary of Defense to report to the congressional defense committees on the use of the authority granted by this provision.

The House bill contained no similar provision.

The House recedes with a technical amendment that would clarify that fees collected in excess of conference costs shall be deposited into the Treasury as miscellaneous receipts.

Increased flexibility in use of funds for Joint Staff exercises (sec. 1052)

The Senate amendment contained a provision (sec. 1053) that would increase the flexibility of the Chairman of the Joint Chiefs of Staff to use funds earmarked for the Chairman's joint exercise program to be available for expenses relating to self-deploying watercraft under the jurisdiction of a military department; port support activities; prepositioned watercraft; and lighterage for joint logistics and over the shore exercises.

The House bill contained no similar provision.

The House recedes.

Prohibition on parking of funds (sec. 1053)

The Senate amendment contained a provision (sec. 1007) that would prohibit any officer or employee of the Department of Defense from directing the allocation of funds in the President's budget or supporting documents with the knowledge or intent that the funds would not be used for the purpose for which they are allocated. A violation of this prohibition would be subject to the same penalties as a violation of the Anti-Deficiency Act, as codified in section 1341 of title 31, United States Code.

The House bill contained no similar provision.

The House recedes.

Modification of authorities relating to the Special Inspector General for Iraq Reconstruction (sec. 1054)

The Senate amendment contained a provision (sec. 1054) that would expand the authority of the Special Inspector General for Iraq Reconstruction (SIGIR) by considering any funds appropriated or made available in the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234) for relief and reconstruction in Iraq as part of the Iraqi Relief and Reconstruction Fund (IRRF), and under the jurisdiction of the SIGIR, regardless of the source of the funds.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify that the additional SIGIR jurisdiction is limited to U.S. funds and would provide a sunset date of October 1, 2007, for the Office of the SIGIR, with transition operations authorized to continue through December 31, 2007.

The conferees support the comprehensive audit efforts of the SIGIR and believe the office continues to perform a critical function as long as significant resources flow to Iraq reconstruction and until a transition plan is in place to return to regular order. The conferees direct the SIGIR, jointly with the Inspectors General of the Departments of State and Defense and the Inspector General of the U.S. Agency for International Development (USAID), to develop and submit such a transition plan to Congress by April 1, 2007. The plan should ensure maintenance and accountability of all accumulated records and minimal, if any, disruption in the ability to oversee reconstruction funding or other U.S. assistance to Iraq. The plan should include a process and time line for transfer of open audits and investigations to the appropriate Departments of Defense, State or USAID office and should consider various contingency scenarios which may impact the transition time line. The conferees recognize that a significant change in the assumptions underlying this provision, such as a major new commitment of U.S. funds for Iraq reconstruction, would require changes to the transition plan and time line.

Subtitle G—Matters Involving Detainees

Provision of information to Congress on certain criminal investigations and prosecutions involving detainees (sec. 1061)

The House bill contained a provision (sec. 1039) that would amend subsection (c) of section 1093 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375) to expand the reporting requirements to include: (1) a detailed and comprehensive description of investigations or prosecutions and any resulting punishments; and (2) information about any officer nominated for command or for promotion to a position requiring the advice and consent of the Senate who has been the subject of any investigation or prosecution regarding the treatment of detainees.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete the requirement to provide information on any officer nominated to a position subject to confirmation by the Senate. The amendment would also require that the information on a member of the United States Armed Forces being investigated or prosecuted for allegations of mistreatment of detainees include the grade of the service member at: (1) the time of the incident resulting in the investigation or the prosecution; (2) the beginning of the investigation or the prosecution; and (3) the time of the submission of the report.

Subtitle H—Other Matters

Technical and clerical amendments (sec. 1071)

The House bill contained a provision (sec. 1037) that would make technical and clerical amendments to various provisions of law.

The Senate amendment contained a similar provision (sec. 1073).

The Senate recedes with an amendment that would incorporate the provisions of section 1073, and would make certain additional technical and clerical amendments.

Revision to authorities relating to Commission on the Implementation of the New Strategic Posture of the United States (sec. 1072)

The House bill contained a provision (sec. 1031) that would expand the scope of the commission on the implementation of the New Strategic Posture of the United States, as required in section 1051 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163), to examine the strategic posture of the United States through 2025, and extend the mandate of the commission until 18 months after the date of the commission's first meeting.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend the due date for the commission's report until September 30, 2007, but not expand the scope of the study beyond 2008.

Revised deadline for submission of final report of EMP Commission (sec. 1073)

The House bill contained a provision (sec. 1040) that would direct the Electromagnetic Pulse (EMP) Attack Commission, reestablished by section 1042 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) to change its final report date from June 30, 2007, to 18 months after commencement of commission activities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the final report date from June 30, 2007, to September 30, 2007.

Extension of returning worker exemption to H-2B numerical limitation (sec. 1074)

The Senate amendment contained a provision (sec. 1091) that would amend section 402(b)(1) of the Save Our Small and Seasonal Businesses Act of 2005 (8 U.S.C. 1184 note) to extend a returning worker program by 2 years, from October 1, 2006, to October 1, 2008.

The House bill contained no similar provision.

The House recedes with an amendment that would amend section 214(g)(9) of the Immigration and Nationality Act to extend the program by 1 year, to October 1, 2007, and to repeal a prior sunset provision. The amendment is effective on October 1, 2006.

Patent term extensions for the badges of the American Legion, the American Legion Women's Auxiliary, and the Sons of the American Legion (sec. 1075)

The Senate amendment contained a provision (sec. 1094) that would renew and extend for a term of 14 years the design patents for the badges of the American Legion, the American Legion Women's Auxiliary, and the Sons of the American Legion.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Use of the Armed Forces in major public emergencies (sec. 1076)

The Senate amendment contained a provision (sec. 1042) that would amend chapter 15 of title 10, United States Code, the so-called "Insurrection Act," to clarify and update the statute, and to make corresponding changes to other provisions of law. Chapter 15 contains a collection of statutes dating to the 18th and 19th centuries that authorize the use of the armed forces to put down insurrections, enforce Federal authority, and suppress conspiracies that interfere with the enforcement of Federal or State law.

The provision would amend section 333 of title 10, United States Code, to authorize the President, in any situation in which he determined that, as a result of a natural disaster, terrorist attack or incident, epidemic or other serious public health emergency, or other condition, domestic violence occurred to such an extent that the constituted authorities of the State are incapable of maintaining public order, and the violence obstructed the execution of the laws of the United States or impeded the course of justice thereunder, to use the armed forces, including the National Guard in Federal service, to restore public order and enforce the laws of the United States until the State authorities are again capable of maintaining order. The President is to notify Congress of his determination to exercise this authority as soon as possible and every 15 days thereafter as long as the authority is exercised.

The provision would also amend chapter 152 of title 10, United States Code, to authorize the President, in any situation in which he determines to exercise the authority set out above, to direct the Secretary of Defense to provide supplies, services, and equipment necessary for the immediate preservation of life and property. Such supplies, services, and equipment may be provided: (1) only to the extent that the constituted authorities of the State are unable to provide them; (2) only until other departments and agencies of the United States charged with such responsibilities are able to provide them; and (3) only to the extent that their provision will not interfere with preparedness or ongoing operations. This authority is not subject to the provisions of section 403(c) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170b(c)).

The provision would further include a conforming amendment to section 12304(c) of title 10, United States Code, to remove a restriction on the use of the Presidential Selected Reserve callup authority in chapter 15 or natural disaster situations.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the conforming amendment to section 12304(c) to provide that the Presidential Selected Reserve callup authority could be used in situations arising under chapter 15 and section 12406 of title 10, United States Code, as well as in situations set out in subsection (b) of section 12304.

Increased hunting and fishing opportunities for members of the Armed Forces, retired members, and disabled veterans (sec. 1077)

The House bill contained a provision (sec. 1036) that would require the Secretary of Defense to ensure that service members, military retirees, disabled veterans, and persons assisting disabled veterans are able to utilize lands under the jurisdiction of the Department of Defense that are available for hunting and fishing. The provision would also require the Secretary of Defense to submit a report to Congress, not later than 180 days after the date of the enactment of this Act, on actions necessary to increase the availability of lands under the jurisdiction of the Department to such persons for hunting and fishing activities. The provision would further require the Secretary of the Interior to cease the plan to exterminate deer and elk on Santa Rosa Island, California by helicopter, and prohibit the Secretary of the Interior from exterminating or nearly exterminating the deer and elk on the island.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees note that the Wounded Warrior Project, an organization whose mission is to raise public awareness and enlist the public's aid for the needs of severely injured service members, supports this provision.

LEGISLATIVE PROVISION NOT ADOPTED

Sense of the Senate on the Transformational Medical Technology Initiative

The Senate amendment contained a provision (sec. 763) that would express the sense of the Senate that the Transformational Medical Technology Initiative (TMTI) is an important effort to provide needed capability within the Department of Defense to field effective broad-spectrum countermeasures against a significant array of current and future biological warfare threats.

The House bill contained no similar provision.

The Senate recedes.

The conferees note the following: (1) the 2006 Quadrennial Defense Review Report identified the need to develop broad-spectrum medical countermeasures against the threat of genetically engineered bioterror agents; (2) the TMTI initiative is intended to invest in cutting edge transformational medical technologies and apply them to address the challenges of known, emerging, and future bioengineered threats; and (3) the TMTI is designed to provide such technologies in a much shorter timeframe, and at lower cost, than is required with traditional biomedical approaches. The conferees further emphasize the need for innovative technological approaches to achieve broad-spectrum medical countermeasures as a necessary component of the Department's program to provide chemical and biological defense and force protection capabilities to the armed forces.

Incorporation of classified annex

The Senate amendment contained a provision (sec. 1008) that would incorporate a classified annex.

The House bill contained no similar provision.

The Senate recedes.

Reports to Congress and notice to public on earmarks in funds available to the Department of Defense

The Senate amendment contained a provision (sec. 1009) that would require notice to Congress and the public on earmarks of funds available to the Department of Defense.

The House bill contained no similar provision.

The Senate recedes.

Transfer of operational control of certain Patrol Coastal ships to Coast Guard

The House bill contained a provision (sec. 1015) that would require the Secretary of the Navy to enter into an agreement with the Commandant of the Coast Guard for the transfer of operational control of not less than five 179 foot Cyclone class Patrol Coastal ships for a period extending at least through September 30, 2012.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are aware that Cyclone class Patrol Coastal ships have proven to be extremely valuable to both the Navy and the

Coast Guard in the performance of their respective missions of Homeland defense and the global war on terror. The conferees agree that the assignment of the Patrol Coastal ships to the Navy and the Coast Guard must reflect a joint prioritization of the respective mission requirements, including an assessment of alternatives to fulfill those requirements. Accordingly, the conferees direct the Secretary of the Navy, in consultation with the Secretary of the department in which the Coast Guard is operating, to submit a report to Congress, not later than March 30, 2007. The report shall:

(1) identify validated mission requirements for both Coast Guard patrol boats and Navy Patrol Coastal ships through 2012;

(2) identify a specific program plan, including alternatives to meet Coast Guard Deepwater patrol boat requirements through 2012;

(3) identify a specific program plan, including alternatives to meet Navy Patrol Coastal ship requirements through 2012;

(4) describe the impact to Navy operational requirements if the Patrol Coastal ships currently being operated by the Coast Guard remain with the Coast Guard to support the Coast Guard mission; and (5) identify areas of overlap between the Coast Guard's patrol boat requirements and the Navy's Patrol Coastal ship requirements in terms of logistics, operations, and maintenance.

Limitation on leasing of foreign-built vessels

The House bill contained a provision (sec. 1016) that would amend section 2401 of title 10, United States Code, to prohibit the Secretary of a military department from entering into a contract for lease or charter of a vessel for a term of more than 24 months, including all options to renew or extend the contract, if the hull or superstructure of that vessel was constructed in a foreign shipyard.

The Senate amendment contained no similar provision.

The House recedes.

Restatement in title 10, United States Code, and revision of Department of Defense authority to provide for support for counterdrug activities of Federal, State, local, and foreign law enforcement

The House bill contained a provision (sec. 1021) that would codify Department of Defense authority to provide for support for counterdrug activities of Federal, state, local, and foreign law enforcement.

The Senate amendment contained no similar provision.

The House recedes.

Restatement in title 10, United States Code, and revision of Department of Defense authority to provide for support for counterdrug activities of certain foreign governments

The House bill contained a provision (sec. 1022) that would codify and expand the Department of Defense authority to provide support for counterdrug activities of certain foreign governments. The provision would: (1) add six additional countries to the list of countries authorized to receive this support; (2) allow for the transfer of individual and crew-sized weapons of 50 caliber or less to Afghanistan in fiscal years 2007 and 2008; (3) provide ammunition for the weapons provided to Afghanistan; and (4) limit the total amount of funding available to be obligated and expended to $60.0 million in fiscal years 2007 and 2008.

The Senate amendment contained no similar provision.

The House recedes.

Assignment of members of the Armed Forces to assist Bureau of Customs and Border Protection and United States Immigration and Customs Enforcement

The House bill contained a provision (sec. 1026) that would authorize the Secretary of Defense to assign members of the Armed Forces to assist the Bureau of Customs and Border Protection and the United States Immigration and Customs Enforcement with their homeland security missions.

The Senate amendment contained no similar provision.

The House recedes.

Funding for a certain intelligence program

The Senate amendment contained a provision (sec. 1036) that would: (1) increase by $450.0 million in Research, Development, Test, and Evaluation, Defense-wide and (2) decrease by $450.0 million in PE 0305159 for a classified program described on page 34 of Volume VII (Compartmented Annex) of the Fiscal Year 2007 Military Intelligence Program justification book.

The House bill contained no similar provision.

The Senate recedes.

Department of Defense operational plans for Armed Forces support for civil authorities

The House bill contained a provision (sec. 1044) that would require the Secretary of Defense, in coordination with the Secretary of Homeland Security and State governments, to develop detailed operational plans regarding the use of the Armed Forces to support to civil authorities.

The Senate amendment contained no similar provision.

The House recedes.

Temporary National Guard support for securing the southern land border of the United States

The Senate amendment contained a provision (sec. 1044) that would authorize the Governor of a State, with the approval of the Secretary of Defense, to order any units or personnel of the National Guard of such State to annual training duty or other duty under section 502 of title 32, United States Code, to carry out in any State along the southern land border of the United States specified activities for the purpose of securing the border.

The House bill contained no similar provision.

The Senate recedes.

Minimum annual purchase amounts for airlift from carriers participating in the Civil Reserve Air Fleet

The Senate amendment contained a provision (sec. 1052) that would allow the Department of Defense to guarantee higher minimum levels of business to U.S. Civil Reserve Air Fleet carriers than are currently authorized by law.

The House bill contained no similar provision.

The Senate recedes.

Report on clarification of prohibition on cruel, inhuman, and degrading treatment or punishment

The Senate amendment contained a provision (sec. 1061) that would require the President of the United States to submit a report to the congressional defense committees that sets forth unclassified legal opinions on whether certain interrogation techniques constitute cruel, inhuman, or degrading treatment, or punishment, as defined in the Detainee Treatment Act of 2005 (Public Law 109-63), not later than 90 days after the date of the enactment of this Act. The provision would require that the legal opinions be disseminated to all departments and agencies of the Federal Government.

The House bill contained no similar amendment.

The Senate recedes.

Reports on Department of Justice efforts to investigate and prosecute cases of contracting abuse in Iraq, Afghanistan, and throughout the war on terror

The Senate amendment contained a provision (sec. 1069) that would require the Attorney General to submit semiannual reports to the congressional defense committees and other relevant committees on Department of Justice efforts to investigate and prosecute cases of contracting abuse in Iraq, Afghanistan, and throughout the war on terror. Each report would be required to include: (1) a description of organized efforts of the Department to address such cases; (2) information on the specific number of personnel, financial resources, and workdays devoted; (3) a detailed description of any internal task force; (4) a detailed description of any interagency task force; (5) the names of senior officials directly responsible for oversight; (6) specific information on the numbers of investigators and other personnel working on these cases; (7) specific information on the number of investigations, including grand jury investigations, underway; (8) specific information on the number and status of criminal cases; (9) specific information on the number and status of civil cases; (10) Specific information on resolved civil and criminal cases on the issue; and (11) the Department's best estimate of the scale of the problem.

The House bill contained no similar provision.

The Senate recedes.

The conferees direct the Attorney General to provide the relevant congressional committees, by no later than 6 months after the date of the enactment of this Act, a written assessment of the level of resources dedicated by the Department to the investigation and prosecution of alleged fraud cases arising out of contracting abuses in Iraq, Afghanistan, and the global war on terrorism.

National Foreign Language Coordination Council

The Senate amendment contained a provision (sec. 1081) that would establish a National Foreign Language Coordination Council to develop and monitor the implementation of a comprehensive national foreign language strategy.

The House bill contained no similar provision.

The Senate recedes.

Court security improvements

The Senate amendment contained a provision (sec. 1086) that would amend title 28, United States Code, to ensure consultation between the United States Marshals Service and the Judicial Conference of the United States on security requirements for the judicial branch of the United States Government; amend the Ethics in Government Act to expand protections for certain reports; establish a new federal criminal offense prohibiting retaliating against a federal judge or law enforcement officer by filing false liens or encumbrances against his property; establish a new federal criminal offense of misuse of certain personal information about judges, law enforcement officials, jurors, witnesses, or court officers; authorize grants to State and local government for witness protection programs; and expand the eligibility of State courts for certain federal grants.

The House bill contained no similar provision.

The Senate recedes.

Improved accountability for competitive contracting in hurricane recovery

The Senate amendment contained a provision (sec. 1088) that would prohibit the use of certain exceptions (including the urgent and compelling exception) to competition requirements under the Competition in Contracting Act in connection with relief and recovery efforts related to Hurricane Katrina and the other hurricanes of the 2005 season.

The House bill contained no similar provision.

The Senate recedes.

The conferees recognize that the urgent and compelling exception to competition requirements under the Competition in Contracting Act (codified in 10 U.S.C. 2304(c)(2) and section 303(c)(2) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253(c)(2)) is vulnerable to abuse in response to natural disasters, including hurricanes. The conferees are aware of cases in which sole-source contracts have been awarded on the basis of the urgent and compelling exception months after a natural disaster takes place. In other cases, urgent and compelling circumstances arising out of a natural disaster have been used as the basis for long-term, sole-source contracts that extend beyond what can be justified on the basis of the disaster.

The potential for such problems is not unique to relief and recovery efforts related to Hurricane Katrina or to natural disasters. The conferees believe that this issue should be addressed in a systematic matter through the Federal Acquisition Regulation and other procurement guidance documents, rather than through legislation limited to a specific set of contracts.

As a general rule, the urgent and compelling exception should be used to award a contract only on the basis of an event, or series of events, that is reasonably proximate in time to the event, or series of events, justifying the award. In addition, the term of a contract awarded on the basis of the urgent and compelling exception should not ordinarily exceed the period of time the agency reasonably believes to be necessary to award a follow-on competitive contract.

The conferees direct the Secretary of Defense to: (1) issue guidance clarifying the appropriate use of the urgent and compelling exception to the Competition in Contracting Act for the Department of Defense; and (2) work with the Administrator for Federal Procurement Policy to issue appropriate regulations addressing the issue on a government-wide basis.

Protection of certain disclosures of information by Federal employees

The Senate amendment contained a provision (sec. 1089) that would amend title 5, United States Code, to expand the protections afforded to Federal employees who disclose information evidencing violations of law; waste, mismanagement, or abuse of authority; threats to public health or safety; or certain false statements to Congress; and to make conforming amendments to other provisions of law.

The House bill contained no similar provision.

The Senate recedes.

Sense of Congress regarding the men and women of the Armed Forces of the United States in Iraq

The Senate amendment contained a provision (sec. 1090) that would express the sense of Congress that commends the men and women of the Armed Forces of the United States in Iraq for their commitment and determination to win the global war on terrorism and expresses gratitude to the families of the men and women of the Armed Forces of the United States.

The House bill contained no similar provision.

The Senate recedes.

Limitation on United States share of assessments for United Nations peacekeeping operations

The Senate amendment contained a provision (sec. 1092) that would permit the United States to pay United Nations (UN) assessments for peacekeeping at the rate assessed by the UN up to a limit of 27.1 percent.

The House bill contained no similar provision.

The Senate recedes.

Termination of program

The Senate amendment contained a provision (sec. 1093) that would establish an immediate sunset date for the Small Business Competitive Demonstration Program.

The House bill contained no similar provision.

The Senate recedes.

TITLE XI—CIVILIAN PERSONNEL MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Accrual of annual leave for members of the uniformed services performing dual employment (sec. 1101)

The House bill contained a provision (sec. 1103) that would authorize service members who are on terminal leave and who are eligible to earn leave due to their status as a federal employee to accrue such leave with pay in accordance with section 6303(a) of title V for a retired member of a uniformed service.

The Senate amendment contained a similar provision (sec. 1101).

The Senate recedes.

Strategy for improving the senior management, functional, and technical workforce of the Department of Defense (sec. 1102)

The Senate amendment contained a provision (sec. 1102) that would require the Secretary of Defense to develop a strategic plan to shape and improve the senior management, functional, and technical workforce of the Department, as part of the Strategic Human Capital Plan required by section 1122 of the National Defense Authorization Act for Fiscal year 2006 (Public Law 109–163).

The House bill contained no similar provision.

The House recedes with a technical amendment.

Three-year extension of authority for experimental personnel management program for scientific and technical personnel (sec. 1103)

The Senate amendment contained a provision (sec. 1105) that would extend until September 30, 2011, the authority for the Defense Advanced Research Projects Agency experimental personnel management program for technical personnel, authorized in section 1101(e) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261).

The House bill contained no similar amendment.

The House recedes.

Reports on members of the Armed Forces and civilian employees of the Department of Defense serving in the legislative branch (sec. 1104)

The Senate amendment contained a provision (sec. 1062) that would require the Secretary of Defense to submit a monthly report to the congressional defense committees if a member of the Armed Forces or a civilian employee of the Department of Defense, who has been assigned to the legislative branch as a detailee or as a legislative fellow, exceeds 1 year in such an assignment. The provision would also require reporting if a military member receives such an assignment as the last tour of duty before retirement or separation from active duty.

The House bill contained no similar provision.

The House recedes with an amendment that would require quarterly, vice monthly, reports only when the conditions requiring reporting exist.

Extension of authority to waive annual limitation on total compensation paid to Federal civilian employees (sec. 1105)

The conferees agree to a provision that would extend through 2007 the authority to waive the annual limitation on total compensation paid to Federal civilian employees who are working in an overseas location that is in the area of responsibility of the Central Command. The provision would establish $212,100 as the maximum total compensation on such pay in 2007.

The conferees are disappointed that the Department of Defense failed to provide a legislative proposal to extend the authority provided in section 1105 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) to allow timely consideration by the congressional committees of jurisdiction. The conferees are further concerned that the Department appears to no longer consider utilization of authorities granted under the National Security Personnel System (NSPS) a practical means of paying the affected individuals for performance in an overseas theater of operations. Despite the Department's challenges in implementation of NSPS, pay for performance is not enjoined from implementation, and the conferees expect the Department to develop an implementation plan to facilitate inclusion of these individuals in pay for performance before 2008.

LEGISLATIVE PROVISIONS NOT ADOPTED

Increase in authorized number of defense intelligence senior executive employees

The House bill contained a provision (sec. 1101) that would increase the number of defense intelligence senior executives from 594 to 644.

The Senate amendment contained no similar provision.

The House recedes.

A separate provision contained elsewhere in this report would require the Secretary of Defense to develop a strategic plan to shape and improve the senior management, functional, and technical workforce of the Department of Defense, including senior-level intelligence employees.

Authority to equalize allowances, benefits, and gratuities of personnel on official duty in Iraq and Afghanistan

The Senate amendment contained a provision (sec. 1103) that would extend to the heads of all agencies, for their civilian personnel serving on official duty in Iraq and Afghanistan, the same authority as the Secretary of State already has under section 413 of title I of the Foreign Service Act (22 U.S.C. 4081 et seq.) with respect to allowances, benefits, and death gratuities for Foreign Service personnel.

The House bill contained no similar provision.

The Senate recedes.

An identical provision (sec. 1603) was included in the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234).

Death gratuity authorized for federal employees

The House bill contained a provision (sec. 1104) that would provide a death gratuity of $0.1 million to civilian employees of the United States Government in the case of a death resulting from wounds, injuries, or illnesses that are incurred in the performance of civilian duty in a contingency operation, or who die in connection with a terrorist incident during the employee's service with the Armed Forces of the United States.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are concerned that the increasing reliance on civilian employees in a theater of operation by the Department of Defense requires a comprehensive analysis of civilian benefits including, but not limited to, a death gratuity. The conferees expect the Secretary of Defense to propose policy and legislative changes for consideration in fiscal year 2008 or sooner, if appropriate, based on an assessment by the Under Secretary of Defense for Personnel and Readiness of current civilian personnel policies and the findings of the Comptroller General report, as required by Senate Report accompanying S. 1042 (S. Report 109-69) of the National Defense Authorization Act for Fiscal year 2006, entitled "Comptroller General report on policy concerning Department of Defense civilians deployed in support of contingency operations."

Programs for use of leave by caregivers for family members of individuals performing certain military service

The Senate amendment contained a provision (sec. 1104) that would require the Office of Personnel Management to establish a temporary program to allow Federal employees who have been designated by a member of the Armed Forces as a "caregiver" to use annual leave for the purpose of providing care for the dependents of the member when deployed in support of a contingency operation. The amendment would authorize the Secretary of Labor to establish a similar, voluntary leave program for the private sector.

The House bill contained no similar provision.

The Senate recedes.

TITLE XII—MATTERS RELATING TO FOREIGN NATIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Assistance and Training

Logistic support for allied forces participating in combined operations (sec. 1201)

The House bill contained a provision (sec. 1201) that would allow the Secretary of Defense, with the concurrence of the Secretary of State, to use up to $100.0 million of funds available to the Department of Defense for operation and maintenance in any given fiscal year to provide logistic support, supplies, and services to allied forces. To receive such support, the allied forces must be participating in an operation, such as active hostilities, a contingency, or a noncombat operation, with the Armed Forces of the United States. Also, the Secretary of Defense must determine that the support is essential to the success of the combined operation and that without such support, the foreign military forces would be unable to participate in the combined operation. Finally, the support provided must be allowable under existing export control laws and regulations.

The Senate amendment contained a similar provision (sec. 1203) that would provide the Secretary of Defense, with the concurrence of the Secretary of State, permanent authority to use up to $100.0 million from operation and maintenance funds in any fiscal year to provide logistic support, supplies, and services to allied forces participating in combined operations with the Armed Forces of the United States. The provision would also authorize the Secretary of Defense to provide up to an additional $5.0 million from operation and maintenance funds in any fiscal year to provide logistic support, supplies, and services to allied forces solely for the purposes of enhancing the interoperability of the logistical support systems of the allied forces with the logistical support systems of the Armed Forces of the United States in order to facilitate combined operations. The provision would require the Secretary of Defense to provide to the Committee on Armed Services and the Committee on Foreign Relations of the Senate and the Committee on Armed Services and the Committee on International Relations of the House of Representatives an annual report on the use of this authority.

The Senate recedes with an amendment that would authorize the Secretary of Defense to provide up to an additional $5.0 million from operation and maintenance funds in any fiscal year to provide logistic support, supplies, and services to allied forces participating in combined operations with the Armed Forces of the United States solely for the purposes of enhancing the interoperability of the logistical support systems of the allied forces with the logistical support systems of the Armed Forces of the United States in order to facilitate such combined operations.

The Senate amendment would also require the Secretary of Defense to provide to the Committee on Armed Services and the Committee on Foreign Relations of the Senate and the Committee on Armed Services and the Committee on International Relations of the House of Representatives an annual report on the use of this authority.

The conferees note their understanding that the term "logistic support, supplies, and services" in section 2350(1) of title 10, United States Code, includes sealift.

Temporary authority to use acquisition and cross-servicing agreements to lend certain military equipment to foreign forces in Iraq and Afghanistan for personnel protection and survivability (sec. 1202)

The House bill contained a provision (sec. 1202) that would provide the Secretary of Defense authority to lend certain military equipment, using Acquisition and Cross-Servicing Agreements (ACSA), to the military forces of foreign nations participating in combined operations with U.S. forces in Iraq and Afghanistan. The provision would limit such equipment to those items marked as significant military equipment in specified categories on the U.S. munitions list, allow the provision of such equipment under this authority for up to 1 year, and require that the equipment be used by foreign military forces solely for personnel protection or to aid in the personnel survivability of such forces. The provision would require the Secretary to determine: (1) that the U.S. forces participating in that combined operation have no unfulfilled requirements for that equipment; and (2) with the concurrence of the Secretary of State, that it is in the national security interest of the United States to lend such equipment for that purpose. The provision would stipulate that the provision of equipment under this authority shall be subject to the Arms Export Control Act (22 U.S.C. 2751 et seq.) and any other export control regime under law relating to the transfer of military technology to foreign nations. The provision would require the Secretary of Defense, in coordination with the Secretary of State, to submit semiannual reports on the exercise of this authority to the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on International Relations of the House of Representatives. This authority would expire on September 30, 2008.

The Senate amendment contained a similar provision (sec. 1205).

The Senate recedes with a clarifying amendment.

The conferees note that this authority is intended to permit the temporary loan of equipment such as armored HMMWVs or HMMWVs with add-on armor kits, counter-improvised explosive device equipment, and defusing equipment to our coalition partners in Iraq and Afghanistan so that they can be better protected against improvised explosive devices and other weapons they are encountering in those theaters.

The conferees further note their agreement on the desirability of updating their understanding of the term "ammunition" under section 2350(1) of title 10, United States Code. The definition of "ammunition" provided in this conference report is meant to supercede the definition of "ammunition" that was provided in Senate Report 96-842 and Senate Report 96-795, both of which accompanied the legislation (H.R. 5580) that first codified ACSA authority in title 10, United States Code.

Specifically, the conferees agree that the term "ammunition" in section 2350(1) of title 10, United States Code, includes: transfers of small arms ammunition between forces on exercises when one side runs low and another has sufficient supplies with repayment in cash or kind; replacement-in-kind of ammunition expended at allied ranges; exchange unit firing to determine compatibility of ammunition between nations and its suitability for use in different weapon systems; emergency acquisition of provisions of conventional ammunition (small arms, mortar, automatic cannon, artillery, and ship gun ammunition); bombs (cluster, fuel air explosive, general purpose, and incendiary); unguided projectiles and rockets; riot control chemical ammunition; land mines (ground-to-ground and air-to-ground delivered); demolition material; grenades; flares and pyrotechnics; and all items included in the foregoing, such as explosives, propellants, cartridges, propelling charges, projectiles, warheads (with various fillers such as high explosives, illuminating, incendiary, antimaterial, and anti-personnel), fuzes, boosters, and safe and arm devices, in-bulk, combination, or separately packaged items of issue for complete round assembly; demolition munitions; training ammunition; cartridge and propellant-actuated devices; chaff and chaff dispensers; and expendable sonobuoys. Specifically excluded are the following: guided missiles; naval mines and torpedoes; nuclear ammunition and included items such as warheads, warhead sections, and projectiles; guidance kits for bombs or other ammunition; and chemical ammunition (other than riot control).

Recodification and revision to law relating to Department of Defense humanitarian demining assistance (sec. 1203)

The House bill contained a provision (sec. 1203) that would amend chapter 20 of title 10, United States Code, to recodify authorities for humanitarian demining assistance. The provision would also clarify that the Secretary concerned may carry out humanitarian demining assistance in a country if such assistance would promote either the security interests of the United States or the operational readiness skills of the Armed Forces of the United States.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would expand the scope of the reporting requirement, and make other clarifying changes.

Enhancements to Regional Defense Combating Terrorism Fellowship Program (sec. 1204)

The Senate amendment contained a provision (sec. 1202) that would amend section 2249c of title 10, United States Code, to change the title of the "Regional Defense Counterterrorism Fellowship Program" to the "Regional Defense Combating Terrorism Fellowship Program." The provision would also increase the amount of authorized annual funding for the program from $20.0 million to $25.0 million.

The House bill contained a similar provision (sec. 1204).

The Senate recedes with a clarifying amendment that would limit the attendance of foreign officials to foreign military officers, ministry of defense officials, or security officials at military or civilian educational institutions.

The conferees recognize the critical need to provide education and training opportunities to our allies in the global war on terror and support the Regional Defense Combating Terrorism Fellowship Program as part of that effort.

The conferees expect the Department of Defense to continue to ensure that the program conforms to the spirit of statutory guidelines governing the administration of related programs, including the requirement that each candidate undergo a rigorous and thorough human rights verification and vetting process.

Participation of the Department of Defense in multinational military centers of excellence (sec. 1205)

The Senate amendment contained a provision (sec. 1207) that would authorize during fiscal year 2007 the Secretary of Defense, with the concurrence of the Secretary of State, to permit the participation of Department of Defense civilian and military personnel in multinational military centers of excellence for the purpose of enhancing the ability of participating nations to engage in joint exercises or coalition or international military operations, or to improve their interoperability. The provision would require the Secretary of Defense to enter into memoranda of understanding, with the concurrence of the Secretary of State, that would govern the terms of the Department's participation in such centers. The provision would permit the Secretary of Defense to use up to $3.0 million from funds available for operation and maintenance in fiscal year 2007 to pay the U.S. share of the expenses of such centers in which the Department participates. The provision would further authorize the use of Department facilities and equipment to support such centers that are hosted by the Department. The provision would require the Secretary of Defense to submit a report to the congressional defense committees, not later than October 31, 2007, on the use of this authority, including a detailed report on the centers and activities in which the Department participated, and the cost of that participation.

The provision would define a center of excellence as an entity sponsored by one or more nations that is accredited and approved by the North Atlantic Treaty Organization (NATO) Military Committee as offering recognized expertise and experience to personnel participating in the activities of such entity for the benefit of NATO.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Modification and extension of authorities relating to program to build the capacity of foreign military forces (sec. 1206)

The Senate amendment contained a provision (sec. 1206) that would modify section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) by permitting the Secretary of Defense to use funds available for operation and maintenance to conduct or support the activities authorized under that section, and by extending the duration of the authority provided in that section through September 30, 2008.

The provision would also provide new authority to the Secretary of Defense, with the concurrence of the Secretary of State, to authorize any commander of a geographic combatant command to respond to unanticipated changes in a security environment within that commander's area of responsibility (AOR) to build the capacity of the national military forces of a country within that AOR in order for that country to conduct counterterrorist operations or participate in or support military and stability operations. The provision would allow the Secretary of Defense to use funds available for operation and maintenance for fiscal years 2007 and 2008, up to $200.0 million in a fiscal year, for this purpose. This authority would expire on September 30, 2008.

The provision would further provide the Secretary of Defense new authority to authorize a geographic combatant commander to respond to urgent and unanticipated humanitarian relief or reconstruction requirements in a foreign country within the commander's AOR if the commander determines that the provision of such assistance will promote the security interest of the United States and of the country to which such assistance would be provided. The provision would limit the amounts available for this authority to $200,000 in any country in a fiscal year. The provision would further require the Secretary of Defense to submit to the congressional defense committees an annual report on the provision of assistance under this authority. This authority would expire on September 30, 2008.

The House contained no similar provision.

The House recedes with an amendment that would modify section 1206 by: (1) providing the authority in that section to the Secretary of Defense, with the concurrence of the Secretary of State, rather than to the President; (2) permitting the Secretary of Defense to use up to $300.0 million from funds available for operation and maintenance in a fiscal year to conduct or support the activities authorized under that section; and (3) extending the duration of the authority provided in that section through September 30, 2008.

The conferees also agree to include elsewhere in this report a provision that would provide expanded authority under the Combatant Commanders Initiative Fund for geographic combatant commanders to provide urgent and unanticipated humanitarian relief and reconstruction assistance to countries in their respective AORs.

The conferees underscore that the authorities provided in this section are provided in the spirit of a pilot program. The conferees intend to review carefully how these authorities are implemented so as to have a basis for determining whether and, if so, in what precise manner, to reauthorize these or provide other authorities after the conclusion of the pilot program. Important factors in the conferees' future consideration of these matters will be the report that is to be provided under section 1206, and the record of implementing these authorities that is built by the Department of Defense over the next 2 years. The conferees strongly discourage further modifications to these authorities until a track record implementing the pilot program authorized in this section has been established. The conferees believe it will be important to demonstrate through experience that these expanded authorities can and will be exercised consistent with the effective coordination of U.S. foreign policy writ large. Furthermore, the conferees strongly believe that foreign assistance programs are more appropriately funded through the foreign assistance accounts, as administered by the Department of State, and urge the administration to request sufficient funding for foreign military assistance in those accounts in future years budget requests.

Authority for distribution to certain foreign personnel of education and training materials and information technology to enhance military interoperability (sec. 1207)

The Senate amendment contained a provision (sec. 1208) that would authorize the Secretary of Defense to provide electronically-distributed learning content and associated information technology for the education and training of military and civilian personnel of friendly foreign governments and personnel of internationally-recognized nongovernmental organizations to enhance allied and friendly military capabilities for multinational operations, including joint exercises and coalition operations. The provision would require the concurrence of the Secretary of State if the activity proposed to be undertaken is not authorized by another provision of law. The provision would further require that the provision of learning content and information technology under this authority shall be subject to the Arms Export Control Act and any other export control regime under law relating to the transfer of military technology for foreign nations.

The provision would also require the Secretary of Defense to: (1) develop and issue guidance on the procedures for the use of this authority; (2) submit a report to the congressional defense committees on that guidance no later than 30 days after it is issued; and (3) submit any modifications of the guidance to the congressional defense committees. The provision would require the Secretary of Defense to submit an annual report to the congressional defense committees on the use of the authority during the preceding fiscal year. The authority would expire on September 30, 2008.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the Secretary of Defense to provide electronically-distributed learning content and associated information technology to military and civilian personnel of a friendly foreign government for their education and training for the purpose of enhancing military interoperability between the Armed Forces of the United States and military forces of friendly foreign countries.

Subtitle B—Nonproliferation Matters and Countries of Concern

North Korea (sec. 1211)

The Senate amendment contained a provision (sec. 1214) that would require the President to appoint a senior presidential envoy to act as coordinator of U.S. policy on North Korea, and to submit to Congress a semiannual report on the nuclear and missile programs of North Korea.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Report on participation of multinational partners in the United Nations Command in the Republic of Korea (sec. 1212)

The Senate amendment contained a provision (sec. 1221) that would require the Secretary of Defense, in coordination with the Secretary of State, to submit a report within 180 days of enactment of this Act to the Committees on Armed Services of the Senate and the House of Representatives and the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives on an increased role and participation of multinational partners in the United Nations Command in the Republic of Korea.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Intelligence on Iran (sec. 1213)

The Senate amendment contained a provision (sec. 1216) that would direct the Director of National Intelligence (DNI) to submit to Congress an updated National Intelligence Estimate (NIE) on Iran, and that would direct the President to submit to Congress a report on U.S. policy objectives and strategy regarding Iran. The provision would further direct the DNI to submit a report on the process for vetting and clearing statements of senior administration officials that are drawn from or rely on intelligence and the process for identifying significant misstatements of other public officials.

The House bill contained no similar provision.

The House recedes with an amendment that would direct the DNI to submit to Congress a comprehensive NIE on Iran, but would eliminate the requirement for the second report from the DNI.

In preparing the comprehensive NIE, the conferees urge the DNI to address the full range of issues with respect to Iran including: Iranian foreign policy and regime objectives; the current status of the Iranian nuclear program with an assessment of Iran's intentions and motivations with respect to development of nuclear weapons to include factors that might influence such intentions; an assessment of Iran's military capabilities; an assessment of Iran's relationships with terrorist groups; and an assessment of the full impacts, success, and consequences of diplomacy, sanctions, military, and other actions and interactions on and with Iran by the international community. The conferees also urge the DNI to include assessments of Iranian public opinion toward the Iranian regime and programs, the United States, and the international community. The NIE should also include an assessment of the confidence level of key judgments, the quality of the sources of intelligence on Iran, the nature and scope of any intelligence gaps, and any significant alternative views.

An unclassified summary of the key judgments of the NIE should be submitted with the NIE.

Sense of Congress on United States policy on the nuclear programs of Iran (sec. 1214)

The Senate amendment contained a provision (sec. 1209) that would express the sense of Congress: 1) endorsing the policy of the United States announced May 31, 2006, to achieve a successful diplomatic outcome with respect to Iran's efforts to acquire a nuclear weapons capability; 2) calling on Iran to suspend fully and verifiably its enrichment and reprocessing activities, cooperate fully with the International Atomic Energy Agency, and enter into negotiations pursuant to the package presented to Iran by the High Representative of the European Union; and 3) urging the President and the Secretary of State to keep the Congress fully informed about the progress in this vital initiative.

The House bill contained no similar provision.

The House recedes with an amendment that would add a clause urging the United Nations Security Council to work for the adoption of appropriate measures under Article 41 of Chapter VII of the Charter of the United Nations in the event Iran fails to comply with United Nations Security Council Resolution 1696.

Subtitle C—Other Matters

Exclusion of petroleum, oil, and lubricants from limitations on annual amount of liabilities the United States may accrue under acquisition and cross-servicing agreements (sec. 1221)

The Senate amendment contained a provision (sec. 1204) that would exclude the acquisition of petroleum, oil, and lubricants from the monetary limitations placed on acquisitions made under Acquisition and Cross-servicing Agreements with foreign allies.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to provide to the Committees on Armed Services of the Senate and the House of Representatives a report at the end of fiscal years 2007 and 2008, respectively, on the use of this authority in that fiscal year.

Modification of limitations on assistance under the American Servicemembers' Protection Act of 2002 (sec. 1222)

The Senate amendment contained a provision (sec. 1210) that would modify the limitations on the provision of military assistance under the American Servicemembers' Protection Act of 2002 (22 U.S.C. 7432(13)(A)) so that International Military Education and Training assistance could be provided to nations that are party to the International Criminal Court.

The House bill contained no similar provision.

The House recedes.

Humanitarian support for Iraqi children in urgent need of medical care (sec. 1223)

The House bill contained a provision (sec. 1222) that would express the sense of Congress that the Secretary of Defense should continue to provide space-available transportation on military aircraft for humanitarian purposes to Iraqi children in urgent need of medical care. The provision would also authorize $1.0 million in Operation and Maintenance, Defense-wide for Department of Defense support of the Peace Through Health Care Initiative.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete the authorization of appropriation.

The conference outcome is reflected in the tables of this report.

Sense of Congress opposing the granting of amnesty by the government of Iraq to persons known to have attacked, killed, or wounded members of the United States Armed Forces in Iraq (sec. 1224)

The Senate amendment contained a provision (sec. 1212) that would express the sense of Congress that: (1) the Government of Iraq should not grant amnesty to persons known to have attacked, killed, or wounded members of the Armed Forces of the United States; and (2) the President should immediately notify the Government of Iraq that the Government of the United States strongly opposes granting amnesty to persons who have attacked members of the Armed Forces of the United States.

The House bill contained no similar provision.

The House recedes with an amendment that would add an additional element to the sense of Congress that the goal of the United States and coalition partners has been to empower the Iraqi people with full sovereignty as a nation. The amendment would delete the element regarding presidential notification to the Government of Iraq.

Annual reports on United States contributions to the United Nations (sec. 1225)

The Senate amendment contained a provision (sec. 1213) that would require the President to submit an annual report to Congress regarding all assessed and voluntary contributions of the United States Government to the United Nations and United Nations affiliated agencies and related bodies for the preceding fiscal year.

The House bill contained no similar provision.

The House recedes with an amendment that would terminate this annual reporting requirement on December 31, 2010.

Comprehensive regional strategy and annual reports on Somalia (sec. 1226)

The Senate amendment contained a provision (sec. 1215) that would require the President to submit a report to Congress, not later than 90 days after the date of the enactment of this Act, on a comprehensive regional strategy toward Somalia. The strategy shall include: (1) a clearly stated U.S. policy towards Somalia; (2) a description of bilateral, regional, and multilateral efforts to coordinate and strengthen diplomatic engagement with Somalia; (3) a description of an integrated approach to counter transnational security interests in Somalia and throughout the Horn of Africa; (4) a description of an interagency framework involving relevant Federal agencies and departments to plan, coordinate, and execute U.S. policy and activities in Somalia and throughout the Horn of Africa and to oversee policy and program implementation; and (5) guidance on the implementation of the comprehensive regional strategy. The provision would also require annual reports on the status of the implementation of the comprehensive regional strategy.

The House bill contained no similar provision.

The House recedes with an amendment that would repeal the annual reporting requirement on the status of the implementation of the comprehensive regional strategy on April 1, 2010, and make other clarifying changes.

Report on the implementation of the Darfur Peace Agreement (sec. 1227)

The Senate amendment contained a provision (sec. 1224) that would require the Secretary of Defense to submit a report to the appropriate congressional committees, not later than 60 days after the date of the enactment of this Act and annually thereafter, on the role of the Department of Defense in assisting the parties to the Darfur Peace Agreement with implementation of that Agreement.

The House bill contained no similar provision.

The House recedes with an amendment that would incorporate elements of a report from another provision contained elsewhere in this report into a single report required under this section. The amendment would also make other clarifying and technical changes. The amendment would further repeal a similar reporting requirement on Darfur required by the House report accompanying H.R. 5122 (H.Rept. 109-452) of the National Defense Authorization Act for Fiscal Year 2007.

Sense of Congress concerning cooperation with Russia on issues pertaining to missile defense (sec. 1228)

The House bill contained a provision (sec. 1223) that would express the sense of Congress that cooperation between Russia and the United States with regard to missile defense is in the interest of the United States.

The Senate amendment contained no similar provision.

The Senate recedes.

Sense of Congress calling for convening of a summit for a comprehensive political agreement for Iraq (sec. 1229)

The Senate amendment contained a provision (sec. 1096) that would express the sense of Congress that the President should convene a summit, as soon as possible, with leaders of the Government of Iraq, governments that border Iraq, and the governments of each permanent member of the United Nations Security Council. The summit should also involve representatives of the Arab League, the European Union, and the North Atlantic Treaty Organization. The purpose of the summit would be to achieve a comprehensive political agreement that addresses fundamental issues, including reconstruction, economic assistance, and border security.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Sense of Congress on the commendable actions of the Armed Forces in Iraq (sec. 1230)

The Senate amendment contained a provision (sec. 1084) that would express a sense of Congress that: (1) commends the United States Armed Forces, the intelligence community, other Federal agencies, and coalition partners for their actions that resulted in the death of Abu Musab al-Zarqawi; (2) commends the United States Armed Forces, the intelligence community, and other Federal agencies for their efforts to bring freedom, democracy, and security to the people of Iraq; (3) commends Iraqi Prime Minister Jawad al-Maliki on the finalization of the new Iraqi cabinet and urges the democratically-elected government of Iraq to defeat terrorism and put an end to ethnic and sectarian violence; and (4) affirms that Congress will continue to support the United States Armed Forces and the democratically-elected unity government of Iraq.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Annual report on foreign sales of significant military equipment manufactured in the United States (sec. 1231)

The Senate amendment contained a provision (sec. 1070B) that would require the Department of Defense to submit an annual report to Congress on foreign military sales and direct sales to foreign customers of significant military equipment manufactured in the United States.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

Expansion of humanitarian and civic assistance to include communications and information capacity

The Senate amendment contained a provision (sec. 1201) that would amend section 401 of title 10, United States Code, to expand the authority of the Secretary of Defense to provide humanitarian and civic assistance in conjunction with military operations to include information and communications technology as necessary to provide basic information and communications services.

The House bill contained no similar provision.

The Senate recedes.

The conferees acknowledge that restoring basic information and communications capacity is a fundamental element of humanitarian and civic assistance, and that a functioning information and communications infrastructure is vital to the successful conduct of humanitarian missions. Accordingly, the conferees note that rudimentary construction and repair of public facilities, under section 401(e)(4) of title 10, United States Code, includes information and communications technology as necessary to provide basic information and communications services.

Capstone overseas field studies trips to People's Republic of China and Republic of China on Taiwan

The House bill contained a provision (sec. 1205) that would require the Secretary of Defense to direct that field studies trips to the People's Republic of China and the Republic of China on Taiwan be a mandatory element of the Capstone course for newly selected flag and general officers.

The Senate amendment contained no similar provision.

The House recedes.

Military educational exchanges between senior officers and officials of the United States and Taiwan

The House bill contained a provision (sec. 1206) that would would require the Secretary of Defense to undertake a program of senior military officer and senior official exchanges with Taiwan designed to improve Taiwan's defenses against the People's Liberation Army of the People's Republic of China.

The Senate amendment contained no similar provision.

The House recedes.

Procurement restrictions against foreign persons that transfer certain defense articles and services to the People's Republic of China

The House bill contained a provision (sec. 1211) that would prohibit the Secretary of Defense from procuring any goods or services from a foreign person or entity that the Secretary of Defense has determined transferred to the People's Republic of China items on the U.S. munitions list.

The Senate amendment contained no similar provision.

The House recedes.

Sense of Congress commending the Government of Iraq for affirming its position of no amnesty for terrorists who attack United States Armed Forces

The Senate amendment contained a provision (sec. 1211) that would express the sense of Congress that: (1) the goal of the United States and our coalition partners has been to empower the Iraqi nation with full sovereignty thereby recognizing their freedom to exercise that sovereignty; (2) history records that governments derived of free elections should not grant amnesty to those who have committed war crimes or terrorists acts; and (3) the United States should continue with the historic tradition of diplomatically, economically, and in a humanitarian manner assisting nations and the people who have fought once a conflict is concluded.

The House bill contained no similar provision.

The Senate recedes. Elsewhere in this report, the conferees agree to include a separate provision on a similar topic.

Reports on implementation of the Darfur Peace Agreement

The Senate amendment contained a provision (sec. 1217) that would require the President to submit a report on the implementation of the Darfur Peace Agreement.

The House bill contained no similar provision.

The Senate recedes.

Execution of the President's policy to make available to Taiwan diesel electric submarines

The House bill contained a provision (sec. 1221) that would establish that it is the policy of the United States to make available to Taiwan plans and options for design work and construction work on future diesel electric submarines under the U.S. foreign military sales process, consistent with U.S. national disclosure policy and applicable U.S. export control laws.

The Senate amendment contained no similar provision.

The House recedes.

Repeal of certain report requirements

The Senate amendment contained a provision (sec. 1223) that would repeal two annual reports on North Atlantic Treaty Organization burdensharing that were codified in section 1003 of the Department of Defense Authorization Act, 1985 (Public Law 98-525), and in section 1313 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337), respectively.

The House bill contained no similar provision.

The Senate recedes.

TITLE XIII—COOPERATIVE THREAT REDUCTION WITH STATES OF THE FORMER SOVIET UNION

LEGISLATIVE PROVISIONS ADOPTED

Specification of Cooperative Threat Reduction programs and funds (sec. 1301)

The House bill contained a provision (sec. 1301) that would define the programs that are

Cooperative Threat Reduction (CTR) programs, define the funds for CTR programs as those authorized to be appropriated in section 301 of this Act, and specify that CTR funds shall remain available for obligation for three fiscal years.

The Senate amendment contained an identical provision (sec. 1301).

The conference agreement includes this provision.

Funding allocations (sec. 1302)

The House bill contained a provision (sec. 1302) that would authorize $372.1 million for the Cooperative Threat Reduction (CTR) program. The provision would also authorize specific amounts for each CTR program element, require notification to Congress 30 days before the Secretary of Defense obligates and expends fiscal year 2007 funds for purposes other than those specifically authorized, and provide limited authority to obligate amounts for a CTR program element in excess of the amount specifically authorized for that purpose.

The Senate amendment contained a similar provision (sec. 1302).

The Senate recedes.

Extension of temporary authority to waive limitation on funding for chemical weapons destruction facility in Russia (sec. 1303)

The House bill contained a provision (sec. 1303) that would extend, until the completion of the facility, the President's authority to waive restrictions established in section 1305 of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106–65) for continuing the construction of a chemical weapons destruction facility at Shchuch'ye, Russia.

The Senate amendment contained a similar provision (sec. 1303) that would extend, through December 31, 2011, the President's authority to waive restrictions established in section 1305 of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106–65) for continuing the construction of a chemical weapons destruction facility at Shchuch'ye, Russia.

The Senate recedes with a clarifying amendment.

National Academy of Sciences study of prevention of proliferation of biological weapons (sec. 1304)

The House bill contained a provision (sec. 1304) that would require the Secretary of Defense to sponsor a study by the National Academy of Sciences (NAS) to analyze lessons learned, past and present challenges, and possible options in effectively managing and facilitating threat reduction and nonproliferation projects under the Cooperative Threat Reduction (CTR) program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to sponsor a study by the NAS to identify areas for further cooperation with Russia and other states of the former Soviet Union under the CTR program, specifically in the area of biological weapons proliferation prevention.

The conferees agree that it is beneficial to have an independent nongovernmental organization study certain aspects of the CTR program. The conferees agree that the study required by this section should concentrate on biological weapons proliferation prevention, given the emerging threats associated with biological weapons proliferation; the considerable challenges to preventing such proliferation; the Department's focus on biological weapons proliferation prevention in recent years and interest in possibly expanding such work; and the necessity of benefiting from the knowledge of scientific and technical experts when designing programs to promote further cooperation in the area of biological weapons proliferation prevention. The conferees note their intent to consider in future years requiring independent analyses of other remaining proliferation challenges, particularly in the area of nuclear weapons proliferation prevention, and how CTR programs might address them.

To ensure timely delivery of the study described in this section, the conferees strongly urge all U.S. Government departments or agencies that provide the NAS with access to classified material for use in the study to complete promptly, no later than 30 calendar days after receipt, any necessary classification reviews of the study or related documents.

LEGISLATIVE PROVISION NOT ADOPTED

Removal of certain restrictions on provision of Cooperative Threat Reduction assistance

The Senate amendment contained a provision (sec. 1304) that would repeal certain restrictions on the provision of Cooperative Threat Reduction (CTR) assistance, including: the requirement that the President make certain certifications to the Congress regarding the proposed recipients of CTR funds; and the conditions on provision of CTR assistance for chemical weapons destruction at Shchuch'ye, Russia.

The House bill contained no similar provision.

The Senate recedes.

TITLE XIV—MATTERS RELATED TO DEFENSE AGAINST TERRORISM AND RELATED SECURITY MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Enhancement to authority to pay rewards for assistance in combating terrorism (sec. 1401)

The House bill contained a provision (sec. 1032) that would increase the flexibility and responsiveness of the rewards protection program available to the Department of Defense. The provision would (1) delegate approval authority to commanders directly subordinate to combatant commanders; (2) direct that delegated authority must be approved by the Secretary of Defense, Deputy Secretary of Defense, or an Under Secretary of Defense; and (3) increase the current maximum reward amount from $2,500 to $10,000.

The Senate amendment contained a similar provision (sec. 1041).

The Senate recedes with an amendment that would direct that the delegated authority by a combatant commander may be made only with the approval of an Under Secretary of Defense to whom authority has been delegated under section 127b(c)(1)(A) of title 10, United States Code.

Quarterly reports on Department of Defense response to threat posed by improvised explosive devices (sec. 1402)

The House bill contained a provision (sec. 1042) that would require the Secretary of Defense to submit to Congress a report on the status of the threat posed by improvised explosive devices (IED) and the efforts being undertaken to defeat the IED threat not later than 30 days after the date of the enactment of this Act. The provision would also require supplemental quarterly reports to account for every incident involving the detonation or discovery of an IED since the previous report was submitted.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would require the Secretary to submit the initial report 90 days after the date of the enactment of this Act. The amendment would also clarify the reporting requirements for the supplemental quarterly report on IED incidents.

Requirement that all military wheeled vehicles used in Iraq and Afghanistan outside of secure military operating bases be protected by Improvised Explosive Device (IED) jammers (sec. 1403)

The House bill contained a provision (sec. 1045) that would require the Secretary of Defense to take such steps as necessary to ensure that by the end of fiscal year 2007 all U.S. military wheeled vehicles used in Iraq and Afghanistan outside of military compounds are equipped with improvised explosive device (IED) jammers. The provision would also require the Secretary to submit to the congressional defense committees, not later than December 15, 2006, a report on the cost and schedule to comply with the requirement.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to take such steps as necessary to ensure that by the end of fiscal year 2007 all U.S. military wheeled vehicles used in Iraq and Afghanistan outside of secure military operating bases are protected by IED jammers.

The conferees understand that there is no single "silver bullet" solution to defeat IEDs, but current jamming technology allows commanders to provide a level of protection for deployed forces. However, the conferees also understand that it is critical for subordinate commanders of U.S. Central Command (USCENTCOM) to retain the flexibility to modify the jammer-to-vehicle ratio in order to match mission requirements with unit capabilities. The conferees do not intend to require that every vehicle be equipped with a jammer, but expect that battlefield commanders will develop tactics, techniques, and procedures to ensure that all vehicles remain within the protective envelope of jammers and that an individual vehicle will not be left unprotected when used outside of secure military operating bases. The conferees intend that such jammers suppress the radio-controlled IED initiation devices assessed to be used in a commander's area of responsibility.

The conferees strongly urge the Secretary to take whatever measures necessary, using the funds authorized for the Joint IED Defeat Fund in title XV of this Act, to accelerate the production of jammers so that the Commander, USCENTCOM, can deploy a jammer on every tactical wheeled vehicle used in Iraq and Afghanistan.

Report on assessment process of Chairman of the Joint Chiefs of Staff relating to Global War on Terrorism (sec. 1404)

The House bill contained a provision (sec. 1033) that would require the Secretary of Defense to submit a report, not later than March 1, 2007, on the findings of the semiannual assessment on the global war on terrorism, as described in the annex to the National Military Strategic Plan for the War on Terrorism.

The Senate amendment contained no similar provision.

The Senate recedes.

Treatment under Freedom of Information Act of certain confidential information shared with State and local personnel (sec. 1405)

The Senate amendment contained a provision (sec. 1043) that would clarify that sensitive but unclassified homeland security information in the possession of the Department of Defense that is shared with state and local personnel who are involved in the prevention of or response to terrorist activity does not become subject to disclosure under the Freedom of Information Act (5 U.S.C. 552) by virtue of such sharing.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Database of emergency response capabilities (sec. 1406)

The House bill contained a provision (sec. 1038) that would require the Secretary of Defense to maintain a database of emergency response capabilities resident in each State's National Guard that could be deployed in response to a domestic natural or manmade disaster.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

LEGISLATIVE PROVISION NOT ADOPTED

Homeland defense technology transfer

The House bill contained provisions (secs. 1401–1403) that would require the establishment of a homeland defense technology transfer consortium.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that section 1401 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314) directed the Secretary of Defense to designate a senior Federal official within the Department of Defense to coordinate the Department's efforts to identify, evaluate, deploy, and transfer technological items and equipment to Federal, State, and local first responders in support of homeland defense. The conferees commend the designation of the Assistant Secretary of Defense for Homeland Defense (ASD-HD) as the senior Federal official, and the execution of the Memorandum of Agreement (MOA) in October 2005 between ASD-HD and senior officials in the Departments of Homeland Security and Justice, which outlined their respective responsibilities for the program. While a formal process is important, the MOA places the Offices of ASD-HD and the Under Secretary of Science and Technology for Homeland Security between the Department of Defense technical community and the first responder community. As a result, these two organizations do not bridge both the Department's technical community and the first responder community for the purposes of transferring technological items and equipment in support of homeland defense. The conferees believe the Department's efforts to rapidly transfer technologies that could assist other Federal agencies, State governments, and first responders with their homeland security responsibilities would benefit by a more direct dialogue between the Department's technical community and first responders. Therefore, the conferees urge the Secretary to consider the establishment of a consortium that brings together appropriate defense entities, other Federal agencies, State and local governments, and the first responder community.

TITLE XV—AUTHORIZATION FOR INCREASED COSTS DUE TO OPERATION IRAQI FREEDOM AND OPERATION ENDURING FREEDOM

Overview

The House bill contained a title (title XV) that would authorize $50.0 billion for ongoing operations in Iraq and Afghanistan. The title also contained general provisions.

The Senate amendment contained a similar title (title XIV). The title also contained reporting requirements and general provisions.

The conferees agree to include a title that would authorize $70.0 billion for ongoing operations in Iraq and Afghanistan. The title would also contain reporting requirements and general provisions.

Summary table of authorization

The following table summarizes authorizations included in this report for ongoing operations in Iraq and Afghanistan for fiscal year 2007.

Reset funding

The conferees agree to authorize $23.7 billion in this title to reset—repair, replace, or recapitalize—Army and Marine Corps equipment used in the global war on terror. The conferees based their agreement on information provided to them by the Army on July 29, 2006, and by the Marine Corps on September 6, 2006. The conferees understand that these requirements may change, and expect the Department of Defense to fully utilize the reprogramming authorities provided in this title to best meet its requirements.

The table below summarizes the reset funding contained elsewhere in this title.

BUDGET ITEM

C–17 procurement

The budget request included $2.6 billion in Aircraft Procurement, Air Force for procurement of 12 C–17 aircraft, which would complete the current C–17 multiyear procurement contract purchase of 60 aircraft.

The House bill would authorize an increase of $299.8 million, and would also authorize the budget request of $389.6 million of settlement funding for the procurement of three additional C–17 aircraft.

The Senate amendment would authorize the budget request for 12 C–17 aircraft. Of the authorized amount, the Secretary of the Air Force may apply $400.0 million of settlement funding for the procurement of two additional C–17 aircraft, and $33.2 million of settlement funding for advance procurement for additional C–17 aircraft in the fiscal year 2008 budget request.

The conferees agree to authorize a decrease of $348.0 million in Aircraft Procurement, Air Force for C–17 production line shutdown. The conferees agree to authorize an increase of $2.1 billion in title XV of this Act for the procurement of 10 additional C–17 aircraft. The conferees authorize the Secretary to apply the fiscal year 2006 appropriation for line shut-down funding of $224.0 million towards advance procurement of these 10 additional C–17 aircraft.

The conferees are concerned that the Department of Defense has not thoroughly determined its airlift requirements for both the intra-theater and inter-theater missions and that the decision to cease production of the Department's only strategic airlift aircraft procurement program is premature. Further, the conferees agree with the Government Accountability Office's assessment of the Mobility Capabilities Study (MCS), and are concerned about the validity and completeness of the MCS and its conclusions. The MCS assessed that a fleet of 292 strategic airlift aircraft is adequate to meet future airlift requirements. However, the conferees have concluded that the Department's determination was based on numerous assumptions, of which some are no longer relevant. Among the uncertainties affecting these assumptions are:

(1) defining Army modularity intra-theater and inter-theater airlift requirements;

(2) achieving success in the C–5 modernization program;

(3) defining the C–130 wing-box repair strategy; and

(4) determining the viability of the Civil Reserve Airlift Fleet to augment future airlift requirements.

The conferees support the number one priority on the Chief of Staff of the Air Force's unfunded priorities list requesting seven additional C–17 aircraft, and agree that procurement of additional C–17 aircraft would help mitigate the risk associated with the uncertainties of determining the Department's airlift requirements.

LEGISLATIVE PROVISIONS ADOPTED

Purpose (sec. 1501)

The House bill contained a provision (sec. 1501) that would establish a title as an authorization of appropriations for the Department of Defense for fiscal year 2007, in addition to amounts otherwise authorized in this Act, to provide funds for additional costs due to Operation Iraqi Freedom and Operation Enduring Freedom.

The Senate amendment contained an identical provision (sec. 1401).

The conference agreement includes this provision.

Army procurement (sec. 1502)

The House bill contained a provision (sec. 1502) that would authorize an additional $3,773.8 million in fiscal year 2007 for Army Procurement.

The Senate amendment contained a similar provision (sec. 1402) that would authorize an additional $1,755.1 million.

The Senate recedes with an amendment that would authorize an additional $9,235.7 million in fiscal year 2007 for Army Procurement.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Navy and Marine Corps procurement (sec. 1503)

The House bill contained a provision (sec. 1503) that would authorize an additional $955.4 million in fiscal year 2007 for Navy and Marine Corps Procurement.

The Senate amendment contained a similar provision (sec. 1403) that would authorize an additional $319.8 million.

The Senate recedes with an amendment that would authorize an additional $5,062.8 million in fiscal year 2007 for Navy and Marine Corps Procurement.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Air Force procurement (sec. 1504)

The House bill contained a provision (sec. 1504) that would authorize an additional $296.9 million in fiscal year 2007 for Air Force Procurement.

The Senate amendment contained a similar provision (sec. 1404) that would authorize $51.8 million.

The Senate recedes with an amendment that would authorize an additional $2,179.7 million in fiscal year 2007 for Air Force Procurement.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Defense-wide activities procurement (sec. 1505)

The House bill contained a provision (sec. 1505) that would authorize an additional $140.2 million in fiscal year 2007 for Procurement, Defense-wide.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize an additional $127.6 million in fiscal year 2007 for Procurement, Defense-wide.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Research, development, test and evaluation (sec. 1506)

The House bill contained a provision (sec. 1506) that would authorize an additional $37.5 million in fiscal year 2007 for Research, Development, Test, and Evaluation.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize an additional $10.5 million in fiscal year 2007 for Research, Development, Test, and Evaluation.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Operation and maintenance (sec. 1507)

The House bill contained a provision (sec. 1507) that would authorize an additional $31,983.3 million in fiscal year 2007 for operation and maintenance programs.

The Senate amendment contained a similar provision (sec. 1405) that would authorize an additional $32,246.2 million.

The Senate recedes with an amendment that would authorize an additional $36,557.9 million in fiscal year 2007 for operation and maintenance programs.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Defense health program (sec. 1508)

The House bill contained a provision (sec. 1508) that would authorize an additional $950.2 million in fiscal year 2007 for Defense Health Program activities.

The Senate amendment contained a similar provision (sec. 1406) that would authorize an additional $960.2 million.

The House recedes with an amendment that would authorize an additional $869.2 million in fiscal year 2007 for Defense Health Program activities.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Classified programs (sec. 1509)

The House bill contained a provision (sec. 1509) that would authorize an additional $2.5 billion in fiscal year 2007 for classified programs.

The Senate amendment contained a similar provision (sec. 1409) that would authorize an additional $3.0 billion.

The Senate recedes.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Military personnel (sec. 1510)

The House bill contained a provision (sec. 1510) that would authorize an additional $9,362.8 million in fiscal year 2007 for military personnel accounts.

The Senate amendment contained a similar provision (sec. 1407) that would authorize an additional $7,335.9 million.

The Senate recedes with an amendment that would authorize an additional $8,107.0 million in fiscal year 2007 for military personnel accounts.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Treatment as additional authorizations (sec. 1511)

The House bill contained a provision (sec. 1511) that would provide that the funds authorized in title XV of their bill for emergency contingency operations related to Operation Iraqi Freedom and Operation Enduring Freedom are in addition to the amounts otherwise authorized in this Act.

The Senate amendment contained an identical provision (sec. 1411).

The conference agreement includes this provision.

Transfer authority (sec. 1512)

The House bill contained a provision (sec. 1512) that would provide fiscal year 2007 transfer authority of $3.0 billion to the Department of Defense for the authorizations contained in title XV of their bill.

The Senate amendment contained a similar provision (sec. 1412) that would transfer authority of $2.5 billion.

The House recedes.

Availability of funds (sec. 1513)

The House bill contained a provision (sec. 1513) that would require the funds provided in title XV be made available for obligation by the end of the second quarter of fiscal year 2007.

The Senate amendment contained an identical provision (sec. 1413).

The conference agreement includes this provision.

Joint Improvised Explosive Device Defeat Fund (sec. 1514)

The Senate amendment contained a provision (sec. 1408) that would authorize an additional $2.1 billion in fiscal year 2007 for the Joint Improvised Explosive Device Defeat Fund.

The House bill contained no similar provision.

The House recedes.

Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Iraq Freedom Fund (sec. 1515)

The Senate amendment contained a provision (sec. 1410) that would authorize an additional $2,231.0 million in fiscal year 2007 for the Iraq Freedom Fund.

The House bill contained no similar provision.

The House recedes with an amendment that would provide an additional authorization of $50.0 million in fiscal year 2007 for an Iraq Freedom Fund transfer account. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Iraq Security Forces Fund (sec. 1516)

The conferees agree to include a provision that would provide an additional authorization of $1,734.0 million in fiscal year 2007 for an Iraq Security Forces Fund transfer account. These funds would be available to the Secretary of Defense for the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and for the Iraq Security Forces. The provision would also authorize the Secretary to receive contributions of funds from any person, foreign government, or international organization for the purposes of the fund. The provision would require the Secretary to notify the congressional defense committees in writing 5 days prior to the use or transfer of funds from the Iraq Security Forces Fund, and to provide quarterly reports summarizing the details of the use or transfer of funds.

Afghanistan Security Forces Fund (sec. 1517)

The conferees agree to include a provision that would provide an additional authorization of $1,446.3 million in fiscal year 2007 for an Afghanistan Security Forces Fund transfer account. These funds would be available to the Secretary of Defense for the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and for the Afghanistan Security Forces. The provision would also authorize the Secretary to receive contributions of funds from any person, foreign government, or international organization for the purposes of the fund. The provision would require the Secretary to notify the congressional defense committees in writing 5 days prior to the use or transfer of funds from the Afghanistan Security Forces Fund, and to provide quarterly reports summarizing the details of the use or transfer of funds.

Submittal to Congress of Department of Defense supplemental and cost of war execution reports (sec. 1518)

The Senate amendment contained a provision (sec. 1418) that would add the congressional defense committees to the report distribution of global war on terror cost reports, as required by section 1221 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163).

The House bill contained no similar provision.

The House recedes.

Limitation on availability of funds for certain purposes relating to Iraq (sec. 1519)

The Senate amendment contained a provision (sec. 1419) that would prohibit the obligation or expenditure of funds within this Act to establish a permanent United States military installation or base in Iraq or to exercise United States control over the oil resources of Iraq.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the obligation or expenditure of funds within this Act to establish any military installation or base for the purposes of providing for the permanent stationing of United States Armed Forces in Iraq or to exercise United States economic control of the oil resources of Iraq.

Intelligence Community Management Account (sec. 1520)

The conferees agree to include a provision that would provide an additional authorization of $19.3 million in fiscal year 2007 for an Intelligence Community Management Account.

LEGISLATIVE PROVISION NOT ADOPTED

Our Military Kids Youth Support Program

The Senate amendment contained a provision (sec. 1415) that would authorize a total of $2.0 million for expansion of the program Our Military Kids Youth Support Program, which provides services to the children of deployed or injured members of the guard and reserve.

The House bill contained no similar provision.

The Senate recedes.

The conference outcome is reflected in the tables of this report.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

BUDGET ITEMS

Explanation of funding table

Division B of this Act authorizes funding for military construction projects for the Department of Defense. It includes funding authorizations for the construction and operation of military family housing and military construction for the reserve components, the defense agencies, and the North Atlantic Treaty Organization Security Investment program. It also provides authorization for the base closure account that funds environmental cleanup and other activities associated with the implementation of base closure rounds.

The budget request included $16,698.4 million for military construction and housing programs. Of this amount, the budget request included $5,626.2 million to implement the results of the 2005 Defense Base Closure and Realignment round. The amount is included in the following table in a line designated Base Realignment and Closure V.

The House bill would authorize appropriations of $16,698.4 million.

The Senate amendment would authorize appropriations of $17,102.0 million.

The conferees agree to authorize appropriations of $17,376.8 million for the military construction and family housing programs. When the impact of $278.4 million in prior year rescissions proposed in the Military Quality of Life and Veterans Affairs, and Related Agencies Appropriations Bill, 2007 (H.R. 5385) for both the Senate and the House of Representatives is included, the conference agreement will be consistent with the budget authority level of $17,098.4 million for military construction and family housing programs.

The following tables provide the project-level authorizations for the military construction funding authorized in division B of this Act and summarize that funding by account.

Summary of Military Construction Authorization of Appropriations for Fiscal Year 2007
(Dollars in Thousands)

2005 Defense Base Closure and Realignment accounts authorized for appropriations in 2006

The National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) included authorization of appropriations of $1,504.5 million to carry out military construction, environmental activities, and certain operating expenses related to the results of the 2005 Defense Base Closure and Realignment (BRAC) round. Section 2404(c) of the aforementioned Act required the Secretary of Defense to submit to the congressional defense committees a report describing the specific programs, projects, and activities for which the authorized amounts would be used.

Congress imposed a 1 percent reduction upon the appropriation for the BRAC account, which resulted in an amount of $1,489.4 million being available for obligation.

On February 10, 2006, the Under Secretary of Defense for Acquisition, Technology, and Logistics submitted to the committees on Armed Services of the Senate and the House of Representatives a report detailing the planned expenditures of funds to support implementation of the Department of Defense's BRAC requirements.

The planned expenditures included $1,160.3 million to initiate planning, design, and construction of facilities; $82.3 million for activities required by the National Environmental Policy Act and other environmental actions; $193.8 million to carry out personnel permanent changes of station, transportation of personnel property, sustainment of real property, and BRAC program management; and $52.6 million for the procurement of collateral equipment, information technology systems, training, and other transition support services.

The following table provides the projects and other activities that were identified by the Department to be carried out by each service using amounts made available in fiscal year 2006.

The conferees continue to review the justification for the construction projects and other BRAC V activities within these accounts to ensure amounts authorized for this program are used solely to carry out the decisions of the 2005 BRAC round.

Department of Defense BRAC V Program for Fiscal Year 2006 1,489,421

2005 Defense base closure and realignment accounts

The budget request included authorization of appropriations of $5,626.2 million for fiscal year 2007 to carry out military construction, environmental activities, and certain operating expenses related to the results of the 2005 Defense Base Closure and Realignment (BRAC) round.

The House bill would authorize appropriations of $5,626.2 million for fiscal year 2007 to carry out military construction, environmental activities, and certain operating expenses related to the results of the 2005 BRAC round.

The Senate amendment would authorize appropriations of $5,526.9 million for fiscal year 2007 to carry out military construction, environmental activities, and certain operating expenses related to the results of the 2005 BRAC round.

The conferees agree to authorize appropriations of $5,626.2 million for fiscal year 2007 to carry out military construction, environmental activities, and certain operating expenses related to the results of the 2005 BRAC round.

The following table provides the projects and other activities identified by the Department of Defense to be carried out with amounts authorized for appropriation within each service's BRAC V account.

The conferees continue to review the justification for the construction projects and other BRAC V activities within these accounts to ensure amounts authorized for this program are used solely to carry out the decisions of the 2005 BRAC round.

LEGISLATIVE PROVISIONS ADOPTED

Short title (sec. 2001)

The House bill contained a provision (sec. 2001) that would cite division B of this Act as the "Joel Hefley Military Construction Authorization Act for Fiscal Year 2007."

The Senate amendment contained a provision (sec. 2001) that would cite division B of this Act as the "Military Construction Authorization Act for Fiscal Year 2007."

The House recedes.

Recognition of Representative Joel Hefley upon his retirement from the House of Representatives (sec. 2002)

The conferees agree to include a provision that would recognize and commend the accomplishments of Representative Joel Hefley for 20 years of public service to the people of Colorado, members of the Armed Forces and their families, and the United States.

TITLE XXI—ARMY

BUDGET ITEM

Overview

The budget request included $2,059.8 million for military construction and $1,271.8 million for family housing for the Army in fiscal year 2007.

The House bill would authorize appropriations of $2,135.6 million for military construction and $1,253.4 million for family housing.

The Senate amendment would authorize appropriations of $2,180.8 million for military construction and $1,271.8 million for family housing.

The conferees agree to authorize appropriations of $2,264.0 million for military construction and $1,254.4 million for family housing for the Army in fiscal year 2007.

The conferees agree to decrease the authorization of appropriations for military construction for the Army by $31.0 million for a project to acquire a temporary administrative facility at Fort Belvoir, Virginia. The conferees acknowledge that the substantial annual cost to lease the facility could be avoided by the acquisition of the building. Therefore, the conferees direct the Secretary of the Army to review the administrative space requirements for Fort Belvoir related to the 2005 Defense Base Closure and Realignment (BRAC) round. If the Secretary determines that this temporary building will be used to satisfy BRAC requirements, the conferees direct the Secretary to carry out the acquisition of the facility in fiscal year 2007 with funds authorized for BRAC activities, consistent with BRAC statutes.

The conferees agree to decrease the authorization of appropriations for military construction for the Army by $15.4 million for two projects to construct barracks at Camp Humphreys, Republic of Korea due to a favorable bid climate in the country.

The conferees agree to decrease the authorization of appropriations for Army housing construction improvements by $16.2 million for a project to privatize housing at Fort McNair, Washington, D.C. The conferees note that the Secretary has decided that the best course of action to restore the houses to an adequate condition is to use military construction funds to renovate 18 historic houses. The conferees are concerned that the current cost estimates to restore these houses to an acceptable condition meeting historical preservation requirements exceeds $1.0 million per house. At a time when the Army is struggling to budget funds for the recapitalization and sustainment of critical mission facilities and infrastructure, the conferees do not support the current estimated costs for these units. Understanding the need to perform critical repairs for the safety and security of the housing occupants, the conferees direct the Secretary to reassess the costs and proposed renovation or replacement actions to be carried out to these houses, and to include in the budget request for fiscal year 2008 an amount that will allow the Army to carry out minimum essential repairs required to ensure adequate living conditions.

The conferees agree to decrease the authorization of appropriations for Army housing maintenance by $1.2 million for a project to repair a housing unit at Stuggart, Germany, and direct that the Secretary consider a burden-sharing agreement with the host nation to complete the repair of this facility.

LEGISLATIVE PROVISIONS ADOPTED

Authorized Army construction and land acquisition projects (sec. 2101)

The House bill contained a provision (sec. 2101) that would authorize Army military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2101).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Family housing (sec. 2102)

The House bill contained a provision (sec. 2102) that would authorize new construction and planning and design of family housing units for the Army in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2102).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Improvements to military family housing units (sec. 2103)

The House bill contained a provision (sec. 2103) that would authorize improvements to existing units of Army family housing in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2103).

The conference agreement includes this provision.

Authorization of appropriations, Army (sec. 2104)

The House bill contained a provision (sec. 2104) that would authorize specific appropriations for each line item contained in the Army's military construction budget in fiscal year 2007. The provision would also provide an overall limit on the amount the Army is authorized to spend on military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2104).

The conference agreement includes this provision.

ITEMS OF SPECIAL INTEREST

Impact of 2005 Defense Base Closure and Realignment decisions to the transportation infrastructure in Northern Virginia

The conferees note that the decisions of the 2005 Defense Base Closure and Realignment (BRAC) round will have a significant impact on the transportation infrastructure and national highway system in Northern Virginia supporting Fort Belvoir and Marine Corps Base Quantico. These impacts, if not studied and addressed through a long-term investment strategy, have the potential to adversely affect timely access to these two critical military installations, as well as the quality of life for military members and their families on the installations and in the local communities.

The conferees acknowledge that the Department of the Army is currently studying the impact to the environment resulting from relocation of functions and personnel to Fort Belvoir and the former Engineering Proving Grounds in Fairfax County, Virginia. The conferees direct the Secretary of the Army to work with appropriate Federal, Commonwealth, and local agencies to ensure the draft and final environmental impact statements address the following factors:

(1) a description of the demographic, population, and other planning assumptions used to determine traffic infrastructure requirements;

(2) an analysis of the direct and indirect impact to the transportation infrastructure resulting from the BRAC decisions;

(3) a description of the standards and methodologies for the traffic impact studies contained in the study; and

(4) an assessment of specific traffic infrastructure improvements and new construction projects identified to mitigate the effects of the increase of personnel, and estimates of the costs to carry out the projects.

Request for data related to unaccompanied housing requirements in the Department of the Army

The conferees note that the Department of the Army is carrying out programs to transform its force structure and global presence within the next 5 years, which will result in the permanent relocation of over 100,000 unaccompanied soldiers among Army installations. Concurrently, the Department of the Army is in the process of implementing business plans to carry out the decisions of the 2005 Defense Base Closure and Realignment (BRAC) round. In the budget justification material accompanying the fiscal year 2007 budget request for BRAC 2005, the Army included an assessment that the military construction, environmental, and related requirements, currently identified by the Army to implement its BRAC recommendations, will cost $5.7 billion more than the $9.5 billion budgeted by the Department of Defense for the Army over the Future Years Defense Program. In subsequent testimony to Congress, Army officials estimated that the shortfall may be as high as $8.0 billion.

In both BRAC and transformation initiatives, a major expense for the Army will be the construction of new unaccompanied housing facilities to support the relocation of military personnel. The conferees are concerned that the inadequate planning and scarce resources within the Department of the Army to carry out BRAC and transformation initiatives will result in too many unaccompanied junior enlisted personnel having to find adequate quarters off base due to a lack of adequate on-base facilities. The conferees recognize that local communities have limited resources to be able to accommodate the increase in demand for barracks-type housing at market rates commensurate with a military member's Basic Allowance for Housing. The conferees are concerned that this limited availability could force military personnel to seek housing at substantial distances from military bases, detrimentally affecting both readiness and their quality of life.

To address this substantial requirement to construct unaccompanied housing on military installations, the conferees note that Congress has granted authority to the Department of the Army to enter into agreements with eligible entities to provide for the acquisition or construction of military unaccompanied housing units on or near military installations. Similar authorities have been used to dramatically improve the quality of family housing for military personnel across all services.

In the statement of managers accompanying the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163), the conferees encouraged "the Secretary of the Army to consider the use of alternate authorities for the construction of unaccompanied housing in the development of plans for permanent facilities at installations planned for substantial increases in the number of unaccompanied personnel." The conferees acknowledge that the Department of the Army has initiated a project to acquire unaccompanied housing using alternative authorities at Fort Drum, New York. To date, no other similar projects have been initiated at other Army installations planned for a substantial population increase of military personnel.

In order to more accurately understand the Department of the Army's current status concerning the housing of unaccompanied personnel, the conferees direct the Secretary of the Army to submit to the congressional defense committees, not later than March 1, 2007, a report on the following:

(1) the current number of each rank of unaccompanied personnel living either on or off post at each major Army installation in the United States;

(2) the number of each rank of unaccompanied personnel projected to be living either on or off post at each major Army installation in the United States by 2011;

(3) a description of the Department of the Army's policy concerning the use of alternate authorities for the acquisition of unaccompanied housing; and

(4) an assessment by the Secretary of the Army of the costs, benefits, utility, and restrictions of using the alternate authorities to acquire unaccompanied housing.

TITLE XXII—NAVY

BUDGET ITEM

Overview

The budget request included $1,162.0 million for military construction and $814.2 million for family housing for the Navy in fiscal year 2007.

The House bill would authorize appropriations of $1,219.9 million for military construction and $818.1 million for family housing.

The Senate amendment would authorize appropriations of $1,268.8 million for military construction and $803.6 million for family housing.

The conferees agree to authorize appropriations of $1,291.3 million for military construction and $818.1 million for family housing for the Navy in fiscal year 2007.

The conferees agree to fully authorize the project to recapitalize Hangar 5 at Whidbey Island, Washington, but to decrease the authorization of appropriations for military construction for the Navy by $31.2 million for this project. The conferees expect the Secretary of the Navy to carry out this project in fiscal year 2007 using incremental appropriations, as was initially proposed by the Department of the Navy during the preparation of the budget request for fiscal year 2007.

The conferees agree to decrease the authorization of appropriations for military construction for the Navy by $1.4 million for a project to construct an addition to Hockmuth Hall, Marine Corps Base Quantico, Virginia due to an error in the amount included in the budget request for fiscal year 2007.

LEGISLATIVE PROVISIONS ADOPTED

Authorized Navy construction and land acquisition projects (sec. 2201)

The House bill contained a provision (sec. 2201) that would authorize Navy military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2201).

The conference agreement includes this provision. The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Family housing (sec. 2202)

The House bill contained a provision (sec. 2202) that would authorize new construction and planning and design of family housing units for the Navy in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2202).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Improvements to military family housing units (sec. 2203)

The House bill contained a provision (sec. 2203) that would authorize improvements to existing units of Navy family housing in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2203).

The conference agreement includes this provision.

Authorization of appropriations, Navy (sec. 2204)

The House bill contained a provision (sec. 2204) that would authorize specific appropriations for each line item contained in the Navy's military construction budget in fiscal year 2007. The provision would also provide an overall limit on the amount the Navy is authorized to spend on military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2204).

The conference agreement includes this provision.

Modification of authority to carry out certain fiscal year 2004, 2005, and 2006 projects (sec. 2205)

The House bill contained a provision (sec. 2205) that would amend section 2201(a) of the Military Construction Authorization Act for Fiscal Year 2004 (division B of Public Law 108–136), as amended, and the Military Construction Authorization Act for Fiscal Year 2005 (division B of Public Law 108–375), as amended, to consolidate into one project the authorities currently provided in two separate projects for the construction of an outlying landing field at Washington County, North Carolina.

The Senate amendment contained a provision (sec. 2205) that would amend section 2201 of the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109-163) to change project authorizations for Marine Corps Base, Camp Pendleton, California and Marine Corps Base, Quantico, Virginia.

The Senate recedes with an amendment that would change a project authorization for Marine Corps Base, Camp Pendleton, California.

TITLE XXIII—AIR FORCE

BUDGET ITEM

Overview

The budget request included $1,156.1 million for military construction and $1,938.2 million for family housing for the Air Force in fiscal year 2007.

The House bill would authorize appropriations of $1,233.7 million for military construction and $1,924.2 million for family housing.

The Senate amendment would authorize appropriations of $1,258.3 million for military construction and $1,937.2 million for family housing.

The conferees agree to authorize appropriations of $1,308.2 million for military construction and $1,923.2 million for family housing for the Air Force in fiscal year 2007.

The conferees agree to decrease the authorization of appropriations for military construction for the Air Force by $15.5 million for a project to construct a large vehicle inspection center and access road at Andersen Air Force Base, Guam due to the lack of a comprehensive masterplan that incorporates all proposed infrastructure and facility projects and investments required to support new missions in Guam, including the relocation of 7,000 U.S. Marines from Okinawa, Japan, to Guam.

The conferees agree to decrease the authorization of appropriations for military construction for the Air Force by $9.3 million for a project to construct a dormitory at Kunsan Air Base, Republic of Korea due to a favorable bid climate in the country.

The conferees agree to decrease the authorization of appropriations for military construction for the Air Force by $14.2 million for a project to construct a common battlefield airman training complex at an unspecified worldwide location due to concerns with the status of an environmental impact analysis.

The conferees agree to decrease the authorization of appropriations for military construction for the Air Force by $26.0 million for a project to construct a Global Hawk aircraft maintenance and operations complex at Naval Base Sigonella, Italy because approval from the host nation to proceed with the project has not yet been received.

The conferees agree to decrease the authorization of appropriations for family housing military construction for the Air Force by $1.0 million for a project to replace housing at Minot Air Force Base, North Dakota due to the cost efficiencies gained by the substantial scope of the project.

The conferees agree to decrease the authorization of appropriations for family housing military construction for the Air Force by $14.0 million for a project to replace housing at Ramstein Air Base, Germany due to errors in the budget request for fiscal year 2007 in the calculation of supporting costs for the project.

The conferees agree to decrease the authorization of appropriations for military construction for the Air Force by $8.5 million for planning and design due to excess amounts in the budget request for fiscal year 2007 identified by the Air Force, which would be available for other projects.

The conferees agree to change a project title for the Air Force at Cape Canaveral, Florida in the table entitled "Military Construction Authorizations for Fiscal Year 2006," as contained in the statement of managers accompanying the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163), from "Satellite Processing Operations Support Facility" to "Satellite Alert Facility."

LEGISLATIVE PROVISIONS ADOPTED

Authorized Air Force construction and land acquisition projects (sec. 2301)

The House bill contained a provision (sec. 2301) that would authorize Air Force military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2301).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Family housing (sec. 2302)

The House bill contained a provision (sec. 2302) that would authorize new construction and planning and design of family housing units for the Air Force in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2302).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Improvements to military family housing units (sec. 2303)

The House bill contained a provision (sec. 2303) that would authorize improvements to existing units of Air Force family housing in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2303).

The conference agreement includes this provision.

Authorization of appropriations, Air Force (sec. 2304)

The House bill contained a provision (sec. 2304) that would authorize specific appropriations for each line item contained in the Air Force's military construction budget in fiscal year 2007. The provision would also provide an overall limit on the amount the Air Force is authorized to spend on military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2304).

The conference agreement includes this provision.

Modification of authority to carry out certain fiscal year 2006 project (sec. 2305)

The Senate amendment contained a provision (sec. 2305) that would amend section 2301 of the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109–163) to decrease a project authorization for MacDill Air Force Base, Florida.

The House bill contained no similar provision.

The House recedes.

ITEM OF SPECIAL INTEREST

Military construction project for Phase 1 of a Basic Expeditionary Airman Skill Training Campus at Lackland Air Force Base, Texas

The conferees note that the Chief of Staff of the Air Force recently requested additional authorization for a "critical" military construction requirement not included in the President's budget request for fiscal year 2007. The conferees agree that the construction of Phase 1 of a Basic Expeditionary Airman Skill Training Campus at Lackland Air Force Base, Texas could significantly enhance the ability of the Air Force to deploy in expeditionary environments. The conferees note that the Secretary of the Air Force currently has authorities provided by Congress to address urgent, unforeseen military construction requirements. Section 2803 of title 10, United States Code, authorizes the Secretary concerned to carry out a military construction project not otherwise authorized by law if determined to be vital to the national security or to the protection of health, safety, or the quality of the environment and urgent enough not to wait for the next budget cycle.

Therefore, the conferees encourage the Secretary of the Air Force to use this authority to carry out this military construction project, if the Secretary of the Air Force determines it is a critical requirement, using amounts from within the total authorization of appropriations for military construction for the Air Force included in this Act.

TITLE XXIV—DEFENSE AGENCIES

BUDGET ITEM

Overview

The budget request included $1,339.2 million for military construction (including construction of chemical demilitarization facilities) and $59.8 million for family housing for defense agencies in fiscal year 2007.

The House bill would authorize appropriations of $1,283.1 million for military construction and $59.8 million for family housing.

The Senate amendment would authorize appropriations of $1,344.7 million for military construction and $59.8 million for family housing.

The conferees agree to authorize appropriations of $1,286.2 million for military construction and $59.8 million for family housing for defense agencies in fiscal year 2007.

The conferees agree to decrease the authorization of appropriations for military construction for the TRICARE Management Agency by $41.4 million for a project to replace the clinic at MacDill Air Force Base, Florida. The conferees agree to fully authorize the project and expect the Director of Health Affairs to carry out this project in fiscal year 2007 using incremental appropriations, as was initially proposed by the TRICARE Management Agency during the preparation of the budget request for fiscal year 2007.

The conferees agree to decrease the authorization of appropriations for military construction for the defense agencies by $30.0 million for a project to construct increment 2 of a regional security operations center at Fort Gordon, Georgia due to delays in the award of the construction contract.

The conferees agree to decrease the authorization of appropriations for military construction for the defense agencies by $4.5 million for the first phase of a project to upgrade utilities at the headquarters complex at Fort Meade, Maryland. The conferees support the requirement to upgrade the existing Supervisory Control and Data Acquisition system servers, workstations, and associated software to improve the energy control and management systems and encourage the Director of the National Security Agency to fund the improvements with appropriations provided for operation and maintenance.

LEGISLATIVE PROVISIONS ADOPTED

Authorized Defense Agencies construction and land acquisition projects (sec. 2401)

The House bill contained a provision (sec. 2401) that would authorize Defense Agencies military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2401).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Family housing (sec. 2402)

The House bill contained a provision (sec. 2402) that would authorize construction and planning and design of family housing units for defense agency activities in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2402).

The conference agreement includes this provision.

The amounts authorized are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorizations for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

Energy conservation projects (sec. 2403)

The House bill contained a provision (sec. 2403) that would authorize the Secretary of Defense to carry out energy conservation projects.

The Senate amendment contained a similar provision (sec. 2403).

The conference agreement includes this provision.

Authorized base closure and realignment activities funded through Department of Defense Base Closure Account 2005 (sec. 2404)

The House bill contained a provision (sec. 2404) that would authorize the amount for base closure and realignment (BRAC) activities and projects in fiscal year 2007. The provision would also amend the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109–163) to authorize the amount for BRAC activities and projects for fiscal year 2006.

The Senate amendment contained no similar provision.

The Senate recedes.

Authorization of appropriations, Defense Agencies (sec. 2405)

The House bill contained a provision (sec. 2405) that would authorize specific appropriations for each line item contained in the Defense Agencies' military construction budget in fiscal year 2007. The provision would also provide an overall limit on the amount the Defense Agencies are authorized to spend on military construction projects in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2404).

The conference agreement includes this provision.

Modification of authority to carry out certain fiscal year 2006 project (sec. 2406)

The House bill contained a provision (sec. 2406) that would amend the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109–163) to increase project authorizations for the National Security Agency for Augusta, Georgia; Kunia, Hawaii; and Menwith Hill, United Kingdom.

The Senate amendment contained a similar provision (sec. 2405).

The House recedes with an amendment that would increase the project authorization for the National Security Agency for Menwith Hill, United Kingdom.

The conferees note that the project authorizations for the National Security Agency for Augusta, Georgia and Kunia, Hawaii were amended by sections 7016 and 7017 of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109–234).

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

BUDGET ITEM

Overview

The budget request included $221.0 million for the North Atlantic Treaty Organization Security Investment program.

The House bill would authorize appropriations of $201.0 million, a decrease of $20.0 million.

The Senate amendment would authorize appropriations of $206.0 million, a decrease of $15.0 million.

The conferees agree to authorize appropriations of $201.0 million, a decrease of $20.0 million.

LEGISLATIVE PROVISIONS ADOPTED

Authorized NATO construction and land acquisition projects (sec. 2501)

The House bill contained a provision (sec. 2501) that would authorize the Secretary of Defense to make contributions to the North Atlantic Treaty Organization Security Investment program in an amount equal to the sum of the amount specifically authorized elsewhere in this conference report, and the amount of recoupment due to the United States for construction previously financed by the United States.

The Senate amendment contained an identical provision (sec. 2501).

The conference agreement includes this provision.

Authorization of appropriations, NATO (sec. 2502)

The House bill contained a provision (sec. 2502) that would authorize appropriation of $200.9 million for the U.S. contribution to the North Atlantic Treaty Organization Security Investment program.

The Senate amendment contained a similar provision (sec. 2502).

The Senate recedes.

TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES

BUDGET ITEM

Overview

The budget request included $858.8 million for military construction for National Guard and reserve facilities in fiscal year 2007.

The House bill would authorize appropriations of $1,012.7 million.

The Senate amendment would authorize appropriations of $1,052.9 million.

The conferees agree to authorize appropriations of $1,153.1 million for National Guard and reserve facilities in fiscal year 2007, as set forth in the following table:

Reserve Component	*$ (millions)*
Army National Guard	561.4
Air National Guard	294.3
Army Reserve	190.6
Naval and Marine Corps Reserve	50.0
Air Force Reserve	56.8
Total	1,153.1

The conferees agree to decrease the authorization of appropriations for military construction for the Naval and Marine Corps Reserve by $5.2 million for a project to relocate a reserve center at Camp Lejeune, North Carolina due to a notification received by the Secretary of the Navy that the project is no longer required.

LEGISLATIVE PROVISION ADOPTED

Authorized Guard and Reserve construction and land acquisition projects (sec. 2601)

The House bill contained a provision (sec. 2601) that would authorize appropriations for military construction for the Guard and reserve components in fiscal year 2007.

The Senate amendment contained a similar provision (sec. 2601).

The conference agreement includes this provision.

A State list of projects contained in the table at the beginning of Division B of this conference report entitled "Military Construction Authorization for Fiscal Year 2007" provides the binding list of specific construction projects authorized at each location.

TITLE XXVII—EXPIRATION AND EXTENSION OF AUTHORIZATIONS

LEGISLATIVE PROVISIONS ADOPTED

Expiration of authorizations and amounts required to be specified by law (sec. 2701)

The House bill contained a provision (sec. 2701) that would provide that authorizations for military construction projects, repair of real property, land acquisition, family housing projects and facilities, contributions to the North Atlantic Treaty Organization Security Investment program, and National Guard and reserve projects will expire on October 1, 2009, or the date of enactment of an act authorizing funds for military construction for fiscal year 2010, whichever is later. This requirement would not apply to funds obligated prior to the expiration date.

The Senate amendment contained an identical provision (sec. 2701).

The conference agreement includes this provision.

Extension of authorizations of certain fiscal year 2004 projects (sec. 2702)

The Senate amendment contained a provision (sec. 2702) that would provide for the extension of authorizations of certain fiscal year 2004 military construction projects until October 1, 2007, or the date of enactment of an act authorizing funds for military construction for fiscal year 2008, whichever is later.

The House bill contained no similar provision.

The House recedes with an amendment that would delete certain projects for which the military department concerned has notified the conferees that the extension is no longer required.

Extension of authorizations of certain fiscal year 2003 projects (sec. 2703)

The Senate amendment contained a provision (sec. 2703) that would provide for the extension of authorizations of certain fiscal year 2003 military construction projects until October 1, 2007, or the date of enactment of an act authorizing funds for military construction for fiscal year 2008, whichever is later.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Effective date (sec. 2704)

The House bill contained a provision (sec. 2702) that would provide that titles XXI, XXII, XXIII, XXIV, XXV, and XXVI of this Act shall take effect on October 1, 2006, or the date of enactment of this Act, whichever is later.

The Senate amendment contained an identical provision (sec. 2704).

The conference agreement includes this provision.

TITLE XXVIII—MILITARY CONSTRUCTION GENERAL PROVISIONS

ITEMS OF SPECIAL INTEREST

Incremental funding of military construction projects

The conferees note that, in a memo dated January 10, 2006, the Associate Director of National Security Programs in the Office of Management and Budget (OMB) provided guidance to the Under Secretary of Defense (Comptroller) and Chief Financial Officer about requests for incremental funding of military construction projects. OMB has stated the intent to limit incremental funding of military construction projects to an exceptional practice, as intended by OMB Circular A–11. This guidance represents a change in policy for the budgeting of certain military construction projects.

The conferees acknowledge that requesting full funding to ensure a military construction project results in a complete and useable facility, or useable improvement to an existing facility, should be the preferred practice consistent with law and current policy to ensure an accurate accounting of all obligations incurred by the Federal Government. The conferees also acknowledge that, for certain military construction projects estimated to exceed $50.0 million and where the construction period is planned to exceed 2 years, Congress has supported the use of incremental funding to address the fact that not all military construction funds appropriated by Congress for a project will be expended in the first year. In these cases, the Department of Defense has had the option of requesting only those appropriated amounts expected to be expended in the budget year, and notifying potential contractors that the project's completion is subject to subsequent appropriations. This option then allows the Department to address additional military requirements in the military construction budget request; and accelerating the completion of critical projects for military readiness, operations, and service members' quality of life. Because of the efficiencies gained by this method, the conferees' agreement includes the use of incremental funding not proposed in the budget request for certain military construction projects.

The conferees also note that the Department has requested incremental funding for single military construction projects that will construct multiple complete and useable facilities. The conferees are concerned that this practice will encourage the bundling of facility requirements into very large contracts, thereby curtailing contractor competition. Therefore, the conferees encourage the Department to avoid the use of incremental funding requests for projects with multiple complete and useable facilities, except in cases where operational requirements dictate a compelling need for facilities.

Updating foreign currency fluctuation adjustment for certain military family housing leases in Korea

The conferees note that section 2801 of the National Defense Authorization Act for Fiscal Year 2003 (Public Law 107–314) amended section 2828 of title 10, United States Code, to authorize the Secretaries of military departments to lease an additional 2,800 family housing units in Korea at a maximum amount of $35,000 per unit per year. This authority was in addition to existing authority to lease a certain number of family housing units at $25,000 per unit per year, which was provided by Congress in 1987. Both authorities include a statutory requirement in section 2828 to adjust the maximum amounts annually to account for foreign currency fluctuation and changes to the consumer price index.

Congress clearly intended that section 2801 provide the Secretary concerned permanent authority to lease a certain number of family housing units in Korea at a greater maximum amount that was then currently authorized by statute. Therefore, any adjustments for foreign currency fluctuation and the consumer price index to maximum lease amounts should reflect this intent.

As such, the conferees direct the Secretary of a military department, in making adjustments required by paragraph (5)(B) of section 2828(e), to the maximum lease amount provided in paragraph (4) of such section for up to 2,800 units of family housing in Korea subject to a maximum lease amount of $35,000 per unit per year, to base such adjustments on the same beginning date specified in law for adjustments required by paragraph (5)(A) of such section.

Subtitle A—Military Construction Program and Military Family Housing Changes

LEGISLATIVE PROVISIONS ADOPTED

Increase in maximum annual amount authorized to be obligated for emergency military construction (sec. 2801)

The House bill contained a provision (sec. 2801) that would amend section 2803 of title 10, United States Code, to increase from $45.0 million to $60.0 million the maximum amount of funds the Secretary of each military department may annually obligate using emergency construction authorities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would increase from $45.0 million to $50.0 million the maximum amount of funds the Secretary concerned may annually obligate using emergency construction authorities.

One-year extension of temporary, limited authority to use operation and maintenance funds for construction projects outside the United States (sec. 2802)

The House bill contained a provision (sec. 2810) that would extend through 2007 the authority provided by section 2808 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108–136), which permits the Secretary of Defense to utilize operation and maintenance funds to construct facilities necessary for temporary operational requirements related to a declaration of war, national emergency, or contingency.

The Senate amendment contained a similar provision (sec. 2801) that would extend the authority by 3 years.

The Senate recedes.

Repeal of requirement to determine availability of suitable alternative housing for acquisition in lieu of construction of new family housing (sec. 2803)

The Senate amendment contained a provision (sec. 2808) that would repeal section 2823 of title 10, United States Code, which requires the Secretaries of military departments to consult with the Secretary of Housing and Urban Development on the availability of suitable alternate housing before entering into contracts to construct authorized family housing units in the United States.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Authority to continue to occupy leased family housing for United States Southern Command personnel (sec. 2804)

The Senate amendment contained a provision (sec. 2816) that would provide temporary authority to the Secretary of the Army to manage the occupancy of housing units leased under the authority of section 2828(b)(4) of title 10, United States Code, in a manner consistent with Army housing policy as it relates to allowing the family members of a member of the armed forces deployed overseas on an unaccompanied tour to continue to occupy military housing.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Consideration of alternative and more efficient uses for general officer and flag officer quarters in excess of 6,000 square feet (sec. 2805)

The House bill contained a provision (sec. 2808) that would amend section 2831 of title 10, United States Code, to require the Secretary of Defense to identify and consider alternative uses for general and flag officer housing units that exceed 6,000 square feet.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Modification of notification requirements related to cost variation authority (sec. 2806)

The Senate amendment contained a provision (sec. 2803) that would amend section 2853(c) of title 10, United States Code, to modify the requirement for the Secretary of a military department to notify the congressional defense committees of a variation in the cost of a military construction contract.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Consideration of local comparability of floor areas in construction, acquisition, and improvement to military unaccompanied housing (sec. 2807)

The House bill contained a provision (sec. 2802) that would amend section 2826 of title 10, United States Code, to require the Secretary concerned to ensure that floor areas in unaccompanied housing be built to standards consistent with local private construction.

The Senate amendment contained a similar provision (sec. 2804)

The House recedes with a technical amendment.

The conferees encourage the Secretary of the Navy to implement, for the future construction, acquisition, and improvement of military unaccompanied housing, a policy which provides a consistent floor area standard between the Navy and the Marine Corps, and which does not exceed the floor areas of similar local private housing.

Certification required for military construction projects for facilities designed to provide training in urban operations (sec. 2808)

The Senate amendment contained a provision (sec. 2811) that would restrict the obligation of funds for military construction projects that would provide training in urban operations, including urban assault courses, range complexes, shoot houses, and combined arms training facilities, beginning in fiscal year 2007, until the Under Secretary of Defense for Personnel and Readiness certifies to the congressional defense committees that the Department of Defense has developed a training strategy and assessed the project against that strategy.

The House bill contained no similar provision.

The House recedes with an amendment that would allow the Secretary of Defense to obligate funds for such projects, if carried out under specific emergency authorities identified in this section.

Authority to carry out military construction projects in connection with industrial facility investment program (sec. 2809)

The Senate amendment contained a provision (sec. 2802) that would authorize the Secretary of Defense to carry out a military construction project not previously authorized, using funds appropriated or otherwise made available for that purpose, to carry out activities to reengineer industrial processes in support of the goals of section 2474(a)(2) of title 10, United States Code.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees note that this section authorizes the Secretary to include in the annual budget request for military construction an unspecified authorization for an amount to be used for projects not otherwise authorized, similar to the Energy Conservation Investment Program. The conferees expect that projects submitted by the services, which meet guidelines established for process improvements in industrial facilities, will compete for funding based on an assessment of their value and rate of economic return. The conferees intend for this authority to be used by the Secretary to encourage investment in process improvements to enhance the performance of the Department's equipment maintenance facilities.

Repeal of special requirement for military construction contracts on Guam (sec. 2810)

The House bill contained a provision (sec. 2804) that would repeal section 2864 of title

10, United States Code, which places special limitations on military construction contracts in Guam.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees note that while the Davis-Bacon law is not applicable to military construction projects in Guam, in general, federal labor laws, including the Fair Labor Standards Act and the federal minimum wage, do apply in Guam. The conferees expect the military departments, the government of Guam, the U.S. Commissioner of Immigration and Naturalization, and other federal entities as appropriate, to ensure that non-immigrant alien workers who perform construction work for the Department of Defense in Guam are treated fairly and in accordance with applicable law.

Temporary expansion of authority to convey property at military installations to support military construction (sec. 2811)

The House bill contained a provision (sec. 2806) that would amend section 2869 of title 10, United States Code, to authorize the Secretaries of the military departments to exchange excess property at any military installation for construction projects, land, housing, or to support agreements to limit encroachments under section 2684a of title 10, United States Code.

The Senate amendment contained a provision (sec. 2807) that would repeal section 2869 to authorize the Secretary of a military department to transfer property at military installations that have been closed or are subject to closure to persons who, in exchange, construct or provide family housing, unaccompanied housing, and military construction activities.

The Senate recedes with an amendment that would establish an expiration date of September 30, 2008, to the authority granted to the Secretaries of the military departments to exchange real property, deemed excess to the requirements of the Department of Defense, in return for the construction of new facilities.

Pilot projects for acquisition or construction of military unaccompanied housing (sec. 2812)

The House bill contained a provision (sec. 2807) that would amend section 2881a of title 10, United States Code, to reduce notification and wait periods required before the Secretary of the Navy may enter into a contract for the privatization of unaccompanied housing using the authorities in section 2881a. The provision would also extend from September 30, 2007, to September 30, 2011, the expiration of the pilot authority in section 2881a and increase the number of pilot projects authorized from three to six.

The Senate amendment contained a provision (sec. 2810) that would amend section 2881a to extend the expiration date of the authorization for the pilot projects for unaccompanied housing privatization from September 30, 2007, to September 30, 2009.

The House recedes.

Subtitle B—Real Property and Facilities Administration

Congressional notice requirements, in advance of acquisition of land by condemnation for military purposes (sec. 2821)

The House bill contained a provision (sec. 2825) that would express the sense of Congress that the Secretary of Defense, when acquiring land for military purposes, should make every effort to do so by purchases from willing sellers, and that the use of condemnation, eminent domain, or seizure procedures should only be employed as a matter of last resort in cases of compelling national security requirements. The provision would also amend section 2663 of title 10, United States Code, to require prior notification to Congress before the Secretary of Defense may begin condemnation, eminent domain, or seizure procedures to acquire property.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the reporting requirement. The amendment would also authorize the Secretary of a military department, in cases where the requirement is vital to national security or where any delay would be detrimental to life, health, or safety, to begin legal proceedings to acquire any interest in land through the use of condemnation, eminent domain, or seizure procedures prior to congressional notification. In such cases, the Secretary concerned would be required to notify the congressional defense committees within 7 days of the commencement of legal proceedings.

Consolidation of Department of Defense authorities regarding granting of easements for rights-of-way (sec. 2822)

The House bill contained a provision (sec. 2821) that would amend section 2668 of title 10, United States Code, to consolidate and make technical corrections to authorities available to the Secretaries of the military departments to grant real property easements.

The Senate amendment contained a similar provision (sec. 2821).

The Senate recedes.

Authority to grant restrictive easements for conservation purposes in connection with land conveyances (sec. 2823)

The House bill contained a provision (sec. 2822) that would authorize the Secretaries of the military departments to grant restrictive easements for conservation purposes to State or local governments, or qualified organizations, in connection with the conveyance of real property.

The Senate amendment contained a similar provision (sec. 2822).

The Senate recedes with a clarifying amendment that would limit the granting of such restrictive easements unless the proposed recipient of the easement consents to the receipt of the easement.

Maximum term of leases for structures and real property relating to structures in foreign countries needed for purposes other than family housing (sec. 2824)

The House bill contained a provision (sec. 2823) that would amend section 2675 of title 10, United States Code, to increase from 5 years to 10 years the maximum time period authorized for the lease of a structure required for a military purpose other than family housing in a foreign country.

The Senate amendment contained a similar provision (sec. 2826).

The Senate recedes.

Consolidation of laws relating to transfer of Department of Defense real property within the Department of Defense and to other Federal agencies (sec. 2825)

The House bill contained a provision (sec. 2824) that would amend section 2696 of title 10, United States Code, to consolidate and clarify the requirement for the Secretary of Defense to screen for use by the Department of Defense or other Federal agencies proposed transfers or conveyances of real property currently deeded to the Department.

The Senate amendment contained a similar provision (sec. 2823).

The Senate recedes with a technical amendment.

Defense access road program (sec. 2826)

The House bill contained a provision (sec. 2826) that would amend section 2837 of the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109–163) to add the consideration of transit systems to the requirement for the Secretary of Defense to conduct a study of the impact to local transportation infrastructure around military installations affected by significant personnel realignments.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Reports on Army operational ranges (sec. 2827)

The Senate amendment contained a provision (sec. 2828) that would require the Secretary of the Army to submit a report to the congressional defense committees not later than November 30, 2006, containing an analysis of any potential expansion of the Pinon Canyon Maneuver Site, Fort Carson, Colorado. The provision would also restrict the Secretary from carrying out any actions related to the expansion of the site until after 30 days of receipt of the report by the congressional defense committees. The provision would also require the Secretary to submit a report to the congressional defense committees not later than February 1, 2007, containing an assessment of training ranges operated by the Army to support major training units. The House bill contained no similar provision.

The House recedes with a technical amendment. The conferees agree to require the Secretary to include other types of Army operational ranges in the report.

Subtitle C—Base Closure and Realignment

Modification of deposit requirements in connection with lease proceeds received at military installations approved for closure or realignment after January 1, 2005 (sec. 2831)

The House bill contained a provision (sec. 2831) that would amend section 2667 of title 10, United States Code, to authorize the Secretary of Defense to deposit into the appropriate base closure and realignment account lease proceeds received at a military installation closed or realigned by the 2005 Defense Base Closure and Realignment round.

The Senate amendment contained a similar provision (sec. 2833).

The House recedes with a clarifying amendment.

Report on Air Force and Air National Guard bases affected by 2005 round of defense base closure and realignment (sec. 2832)

The Senate amendment contained a provision (sec. 2834) that would require the Secretary of the Air Force to submit to the congressional defense committees a report not later than January 1, 2007, on planning by the Department of the Air Force for future roles and missions for each Air Force and Air National Guard installation affected by the 2005 Defense Base Closure and Realignment process.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Subtitle D—Land Conveyances

Conveyance of easement, Pine Bluff Arsenal, Arkansas (sec. 2841)

The conferees agree to include a provision that would authorize the Secretary of the Army to convey, without consideration, to

Jefferson County, Arkansas an easement over approximately 38.18 acres of property adjacent to Pine Bluff Arsenal, Arkansas for the purpose of permitting the county to construct, maintain, and operate a railroad on the property encumbered by the easement. The provision would require the Secretary to determine that the conveyance, and the subsequent use of the easement by the county, would not adversely impact the mission of Pine Bluff Arsenal.

Modification of land transfer authority, Potomac Annex, District of Columbia (sec. 2842)

The Senate amendment contained a provision (sec. 2827) that would amend section 2831 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201) to authorize the Secretary of the Navy to convey, without consideration other than certain reimbursement requirements, to the United States Institute of Peace administrative jurisdiction over one acre and two buildings located thereon, known as building 6 and building 7, in addition to the 3 acres originally authorized.

The House bill contained no similar amendment.

The House recedes with a technical amendment.

Land conveyance, Naval Air Station, Barbers Point, Hawaii (sec. 2843)

The House bill contained a provision (sec. 2841) that would direct the Secretary of the Navy, not later than September 30, 2008, to dispose of approximately 499 acres at the former Naval Air Station Barbers Point, Hawaii that are subject to the Ford Island Master Development Agreement for the purpose of promoting the beneficial development of the real property.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the action required to be completed by the Secretary by September 30, 2008.

The conferees note the concurrence of the Secretary of the Navy with this directive provision. The conferees also acknowledge the special circumstances surrounding this parcel of land and reaffirm a commitment to minimize the use of legislation to direct the Secretaries of the military departments to dispose of land under their jurisdiction.

Land conveyances, Omaha, Nebraska (sec. 2844)

The Senate amendment contained a provision (sec. 2843) that would authorize the Secretaries of the Army and the Navy to convey to the Metropolitan Community College area four parcels of property consisting of approximately 12 acres currently under the control of the Army and Navy Reserve at the Fort Omaha campus of the College in Omaha, Nebraska for educational purposes.

The House bill contained no similar provision.

The House recedes.

Land conveyance, Hopkinton, New Hampshire (sec. 2845)

The Senate amendment contained a provision (sec. 2854) that would authorize the Secretary of the Army to convey to the Town of Hopkinton, New Hampshire a parcel of property consisting of approximately 90 acres known as Kast Hill for the purpose of permitting the town to use the existing sand and gravel resources on the property and to ensure perpetual conservation of the property.

The House bill contained no similar provision.

The House recedes.

Land conveyance, North Hills Army Reserve Center, Allison Park, Pennsylvania (sec. 2846)

The House bill contained a provision (sec. 2844) that would authorize the Secretary of the Army to convey to the North Allegheny School District a parcel of property consisting of approximately 11 acres and containing the North Hills Army Reserve Center in Allison Park, Pennsylvania for the purpose of permitting the school district to use the property for educational and recreational purposes and for related parking facilities.

The Senate amendment contained no similar provision.

The Senate recedes.

Transfer of jurisdiction, Fort Jackson, South Carolina (sec. 2847)

The conferees agree to include a provision that would authorize the Secretary of the Army to transfer, without reimbursement, to the administrative jurisdiction of the Secretary of Veterans Affairs a parcel of real property consisting of approximately 600 acres at Fort Jackson, South Carolina for the purpose of permitting the Secretary of Veterans Affairs to establish a national cemetery on the property.

Sense of Congress regarding land conveyance involving Army Reserve Center, Marshall, Texas (sec. 2848)

The House bill contained a provision (sec. 2846) that would express the sense of Congress that the Secretary of the Army should consider the feasibility of conveying an Army Reserve Center in Marshall, Texas to the Marshall-Harrison County Veterans Association for the purpose of assisting in the erection of a veteran's memorial, the creation of a park, and the establishment of a museum honoring the sacrifices and accomplishments of the veterans of the armed forces.

The Senate amendment contained no similar provision.

The Senate recedes.

Modifications to land conveyance authority, Engineering Proving Grounds, Fort Belvoir, Virginia (sec. 2849)

The House bill contained a provision (sec. 2845) that would amend section 2836 of the Military Construction Authorization Act for Fiscal Year 2002 (division B of Public Law 107–107) to authorize the Secretary of the Army to carry out an alternate agreement with the Commonwealth of Virginia for the design and construction of a parkway portion as part of the conveyance of two parcels of real property totaling 182 acres at the Engineering Proving Grounds, Fort Belvoir, Virginia.

The Senate amendment contained a similar provision (sec. 2842)

The Senate recedes.

Land conveyance, Radford Army Ammunition Plant, New River Unit, Virginia (sec. 2850)

The House bill contained a provision (sec. 2843) that would authorize the Secretary of the Army to convey, without consideration, to the Commonwealth of Virginia, on behalf of the Virginia Department of Veterans Services, a parcel of property consisting of approximately 85 acres located at the Radford Army Ammunition Plant, Radford, Virginia for the purpose of establishing a veterans' cemetery.

The Senate amendment contained a similar provision (sec. 2841).

The Senate recedes with a clarifying amendment.

Subtitle E—Energy Security

Consolidation and enhancement of laws to improve Department of Defense energy efficiency and conservation (sec. 2851)

The Senate amendment contained a provision (sec. 2806) that would amend section 2865 of title 10, United States Code, to require the Secretary of Defense to designate energy performance goals consistent, where appropriate, with the Energy Policy Act of 2005 (Public Law 109–58). The provision would also expand the application of the section to include the consideration of alternate energy initiatives for vehicles and military support equipment, and make other technical clarifications. The provision would require the Secretary to ensure energy efficient products that meet the requirements of the Secretary are included in the construction of new facilities for the Department of Defense.

The House bill contained no similar provision.

The House recedes with an amendment that would revise various sections in title 10, United States Code, related to energy usage and conservation, and would incorporate this provision within the revision. Elsewhere in this report, the conferees agree to include a separate provision on the use of energy efficient products in the construction of new facilities.

The conferees intend for the Secretary to establish energy performance goals across all aspects of military operations, training, and the Department's facilities, which can be evaluated on a consistent basis to determine progress towards achievement. The conferees also acknowledge that certain energy saving measures adopted by the Secretary may not demonstrate an immediate economic payback. Therefore, the conferees agree to expand the Secretary's flexibility to evaluate energy conservation measures to include consideration of alternate energy initiatives and energy reduction performance goals, as opposed to requiring the Secretary to assess measures based solely on a specific economic return within 10 years to justify the investment.

Department of Defense goal regarding use of renewable energy to meet electricity needs (sec. 2852)

The Senate amendment contained a provision (sec. 2829) that would establish goals for the Department of Defense for the use of renewable energy sources.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Congressional notification of cancellation ceiling for Department of Defense energy savings performance contracts (sec. 2853)

The House bill contained a provision (sec. 2805) that would amend section 2865 of title 10, United States Code, to require a notice and wait period for the Secretary of Defense before the award of an energy savings performance contract that contains a cancellation ceiling in excess of $7.0 million.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Use of energy efficiency products in new construction (sec. 2854)

The conferees agree to include a provision that would require the Secretary of Defense to ensure energy efficient products that meet the requirements of the Secretary are included in the construction of new facilities for the Department. These requirements were originally included in section 2806 of the Senate amendment.

Subtitle F—Other Matters

Availability of research and technical assistance under Defense Economic Adjustment Program (sec. 2861)

The Senate amendment contained a provision (sec. 2831) that would amend section 2391 of title 10, United States Code, to authorize the Secretary of Defense to award grants, conclude cooperative agreements, or enter into contracts for research and technical assistance.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Availability of community planning assistance relating to encroachment of civilian communities on military facilities used for training by the armed forces (sec. 2862)

The House bill contained a provision (sec. 2851) that would amend section 2391 of title 10, United States Code, to authorize the Secretary of Defense to award grants for the purposes of addressing encroachment upon state-owned and operated National Guard facilities subject to significant use by the armed forces.

The Senate amendment contained a similar provision (sec. 2832).

The Senate recedes with a technical amendment.

Prohibitions against making certain military airfields or facilities available for use by civil aircraft (sec. 2863)

The House bill contained a provision (sec. 2852) that would prohibit the Secretary of the Navy from entering into an agreement that would allow the regular use of property at, or conveyance of property for, civil aviation purposes at Marine Corps Air Station and Marine Corps Base Camp Pendleton, Marine Corps Air Station Miramar, and Naval Station North Island, California.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Modification of certain transportation projects (sec. 2864)

The Senate amendment contained a provision (sec. 2851) that would amend section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109–59) to clarify the purpose for a project numbered 4651 authorized for Rickenbacker airport, Columbus, Ohio.

The House bill contained no similar provision.

The House recedes with an amendment that would combine this provision with a similar provision (sec. 2852) and would amend sections 1702 and 1934 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109–59) to clarify the purpose for projects numbered 4333 and 196 authorized for Detroit, Michigan.

Availability of funds for South County Commuter Rail project, Providence, Rhode Island (sec. 2865)

The Senate amendment contained a provision (sec. 1095) that would make funds authorized by paragraphs (34) and (35) of section 3034(d) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109–59) available for the purchase of commuter rail equipment for the South County Commuter Rail project, Providence, Rhode Island, upon the receipt by the Secretary of the Rhode Island Department of Transportation of an approved environmental assessment.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Fox Point Hurricane Barrier, Providence, Rhode Island (sec. 2866)

The Senate amendment contained a provision (sec. 2853) that would direct the Secretary of the Army to assume responsibility for the annual operation and maintenance of the Fox Point Hurricane Barrier, Providence, Rhode Island.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Federal funding for fixed guideway projects (sec. 2867)

The Senate amendment contained a provision (sec. 2855) that would direct certain requirements prescribed by the Federal Transit Administration for cost effectiveness ratings not to apply to the Northstar Corridor Commuter Rail project in Minnesota.

The House bill contained no similar provision.

The House recedes.

Feasibility study regarding use of General Services Administration property for Fort Belvoir, Virginia, realignment (sec. 2868)

The conferees agree to include a provision that would require the Secretary of the Army, in consultation with the Administrator of General Services, to conduct a study that considers the potential costs, benefits, feasibility, and suitability of the exchange or purchase of property under the control of the General Services Administration in Springfield, Virginia.

The conferees note that the relocation of thousands of military and civilian personnel to Fort Belvoir, Virginia may present significant transportation challenges. The conferees have taken steps to address these concerns in three other provisions in this report.

The first provision would facilitate the construction of a segment of the Fairfax County parkway on the former Engineering Proving Grounds at Fort Belvoir.

The second provision would urge the inclusion of mass transit improvements in the defense access roads program. The third provision would require the Secretary of the Army to incorporate within an ongoing environmental impact assessment a review of traffic infrastructure requirements, in collaboration with other Federal, State, and local agencies, at Fort Belvoir related to the impact of the realignment of personnel.

The conferees believe that the Army should make every effort to proactively address the potential traffic congestion that could result from the relocation of personnel to Fort Belvoir. The conferees urge the Army to incorporate as many transportation improvements as possible into plans to support the arrival of these additional personnel.

LEGISLATIVE PROVISIONS NOT ADOPTED

Authority to use proceeds from sale of military family housing to support military housing privatization initiative

The House bill contained a provision (sec. 2803) that would amend section 2831 of title 10, United States Code, to authorize the transfer of proceeds from the handling and disposal of family housing units into the Department of Defense Family Housing Improvement Fund, which is used to support military family housing privatization activities.

The Senate amendment contained no similar provision.

The House recedes.

Increase in thresholds for unspecified minor military construction projects

The Senate amendment contained a provision (sec. 2805) that would amend section 2805(a)(1) of title 10, United States Code, to raise the threshold of the cost of a construction project authorized by this section from $1.5 million to $2.5 million. This provision would also raise the threshold of the cost of a construction project intended solely to correct a deficiency that is life-threatening, health-threatening, or safety-threatening from $3.0 million to $4.0 million.

The House bill contained no similar provision.

The Senate recedes.

Repeal of temporary minor military construction program

The House bill contained a provision (sec. 2809) that would repeal section 2810 of the Military Construction Authorization Act for Fiscal Year 2006 (division B of Public Law 109–163), which provides for temporary authority to expend minor construction funds at increased limits for construction of child development centers.

The Senate amendment contained no similar provision.

The House recedes.

Updating foreign currency fluctuation adjustment for certain military family housing leases in Korea

The Senate amendment contained a provision (sec. 2809) that would amend section 2828 of title 10, United States Code, to modify the adjustments made by a Secretary of a military department to maximum lease amounts for family housing in Korea to account for foreign currency fluctuations.

The House bill contained no similar provision.

The Senate recedes.

Naming of research laboratory at Air Force Rome Research Site, Rome, New York in honor of Sherwood L. Boehlert, a member of the House of Representatives

The Senate amendment contained a provision (sec. 2813) that would designate the new laboratory building at the Air Force Rome Research Site, Rome, New York as the "Sherwood L. Boehlert Engineering Center."

The House bill contained no similar provision.

The Senate recedes.

Naming of administrative building at Joint Systems Manufacturing Center in Lima, Ohio after Michael G. Oxley, a member of the House of Representatives

The Senate amendment contained a provision (sec. 2814) that would designate the administrative building under construction at the Joint Systems Manufacturing Center in Lima, Ohio as the "Michael G. Oxley Administration and Technology Center."

The House bill contained no similar provision.

The Senate recedes.

Naming of military family housing facility at Fort Carson, Colorado, in honor of Joel Hefley, a member of the House of Representatives

The Senate amendment contained a provision (sec. 2815) that would require the Secretary of the Army to designate one of the military family housing areas or facilities constructed for Fort Carson, Colorado, using housing privatization authorities provided by subchapter IV of chapter 169 of title 10, United States Code, in honor of Representative Joel Hefley.

The House bill contained no similar provision.

The Senate recedes.

Authority to use excess property as exchange under agreements to limit encroachments on military training, testing, and operations

The Senate amendment contained a provision (sec. 2824) that would authorize the Secretary concerned to use land that is determined to be excess to the needs of the Department of Defense in an exchange under an agreement with eligible third parties under section 2684a of title 10, United States Code, to create buffer zones to address the use or development of real property in the vicinity of a military installation to prevent encroachment or preserve habitat that may relieve environmental restrictions on military training, testing, or operations.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that authority to use excess lands as part of the contribution to the acquisition costs of real property, or an interest in real property, as part of agreements under section 2864a is included in section 2811 of this report.

Modification of utility system authority and related reporting requirements

The Senate amendment contained a provision (sec. 2825) that would amend section 2688 of title 10, United States Code, to modify the authority provided to the Secretary of a military department for the conveyance of utility systems.

The House bill contained no similar provision.

The Senate recedes.

Naming of Navy and Marine Corps Reserve Center at Rock Island, Illinois, in honor of Lane Evans, a member of the House of Representatives

The Senate amendment contained a provision (sec. 2830) that would designate the Navy and Marine Corps Reserve Center at Rock Island, Illinois, in honor of Lane Evans, a member of the House of Representatives.

The House bill contained no similar provision.

The Senate recedes.

Modification of land acquisition authority, Perquimans County, North Carolina

The House bill contained a provision (sec. 2842) that would amend section 2846 of the Military Construction Authorization Act for Fiscal Year 2002 (division B of Public Law 107-107), as amended by section 2865 of the Military Construction Authorization Act for Fiscal Year 2005 (division B of Public Law 108-375), to increase, from 840 acres to 1,540 acres, the amount of acreage that the Secretary of the Navy is authorized to acquire.

The Senate amendment contained a similar provision (sec. 2812).

The conference agreement does not include this provision. The conferees note that the provision was included in the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234).

Highway projects, Detroit, Michigan

The Senate amendment contained a provision (sec. 2852) that would amend sections 1702 and 1934 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109-59) to clarify the purpose for projects numbered 4333 and 196 authorized for Detroit, Michigan.

The House bill contained no similar provision.

The Senate recedes.

The conferees agree to include this provision in section 2864 of this Act.

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Overview

Title XXXI authorizes appropriations for atomic energy defense activities of the Department of Energy for fiscal year 2007, including: the purchase, construction, and acquisition of plant and capital equipment; research and development; nuclear weapons activities; naval nuclear propulsion; environmental cleanup; operating expenses; and other expenses necessary to carry out the purposes of the Department of Energy Organization Act (Public Law 95-91). This title authorizes appropriations in four categories, which are: (1) National Nuclear Security Administration (NNSA); (2) defense environmental cleanup; (3) other defense activities; and (4) defense nuclear waste disposal.

The budget request included $15.8 billion for atomic energy defense activities, a 2.5 percent decrease below the fiscal year 2006 appropriated level. Of the total amount requested:

(1) $9.3 billion is for NNSA, of which

(a) $6.4 billion is for weapons activities,

(b) $1.7 billion is for defense nuclear nonproliferation activities,

(c) $795.1 million is for naval reactors, and

(d) $386.6 million is for the Office of the Administrator;

(2) $5.4 billion is for defense environmental cleanup;

(3) $717.8 million is for other defense activities; and

(4) $388.1 million is for defense nuclear waste disposal.

The budget request also included $6.1 million within energy supply.

The conferees agree to authorize $15.8 billion for atomic energy defense activities, the amount of the budget request.

Of this amount, the conferees agree to authorize:

(1) $9.3 billion for NNSA, of which

(a) $6.4 billion would be for weapons activities, an increase of $9.8 million above the budget request;

(b) $1.7 billion would be for defense nuclear nonproliferation, a decrease of $24.8 million below the budget request;

(c) $795.1 million would be for naval reactors, the amount of the budget request; and

(d) $386.6 million would be for the Office of the Administrator, the amount of the budget request;

(2) $5.4 billion would be for defense environmental cleanup activities, an increase of $45.0 million above the budget request;

(3) $717.8 million would be for other defense activities, the amount of the budget request; and

(4) $358.1 million would be for defense nuclear waste disposal, a decrease of $30.0 million below the budget request.

The conferees agree to authorize $6.1 million for energy supply, the amount of the budget request.

The following table summarizes the budget request and the authorizations:

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—National Security Programs Authorizations

National Nuclear Security Administration (sec. 3101)

The House bill contained a provision (sec. 3101) that would authorize $9.3 billion for the National Nuclear Security Administration (NNSA) of the Department of Energy, including funds for weapons activities, defense nuclear nonproliferation programs, naval reactor programs, and the Office of the Administrator, a decrease of $50.0 million below the budget request. The Senate amendment contained a similar provision (sec. 3101). The provision would authorize $9.3 billion, an increase of $17.5 million above the budget request.

The conferees agree to authorize $9.3 billion for NNSA, a decrease of $15.0 million below the budget request.

The budget request included $6.4 billion for weapons activities. The House bill would authorize $6.5 billion, an increase of $60.0 million above the budget request. The Senate amendment would authorize $6.5 billion, an increase of $47.5 million above the budget request. The conferees agree to authorize $6.4 billion, an increase of $9.8 million above the budget request.

Within weapons activities, the conferees agree to authorize $22.0 million for the W80 life extension program, a decrease of $80.0 million below the budget request, to be used for the orderly closeout of program activities due to the postponement of the W80 life extension by the Nuclear Weapons Council. The conferees agree to authorize an additional $20.0 million for the reliable replacement warhead to support a second warhead design competition. Within inertial confinement fusion ignition and high yield campaign, the conferees agree to authorize an increase of $10.0 million to support enhanced target production and characterization capabilities and for tests on the Omega and Z facilities. Within readiness in technical base and facilities, the conferees agree to authorize an additional $17.0 million to address deferred maintenance and repair at the Pantex Plant, an additional $15.0 million to address deferred maintenance and repair at the Y–12 National Security Complex, and an additional $10.0 million for the High Enriched Uranium Materials Facility [project 01–D–124] at the Y–12 National Security Complex. Within safeguards and security, the conferees agree to authorize an additional $11.8 million for safeguards and security requirements at the Pantex Plant and an additional $14.0 million for safeguards and security requirements at the Y–12 National Security Complex.

The budget request included $1.7 billion for defense nuclear nonproliferation. The conferees agree to authorize $1.7 billion, a decrease of $24.8 million below the budget request. The conferees agree to provide an additional $15.0 million in funding for the Second Line of Defense Megaports program to accelerate cooperation with international partners to improve their capability to detect and interdict nuclear and radiological materials that could be passing through foreign ports. The conferees agree to authorize an additional $20.0 million in funding for the Global Threat Reduction Initiative (GTRI) program. Of that amount, $5.0 million is authorized for international radiological threat reduction and $15.0 million is authorized to be used exclusively for other GTRI activities conducted outside the United States. The conferees agree to provide no funding for the Russian Surplus Fissile Materials Disposition program, a decrease of $34.7 million. The conferees agree to provide $264.4 million for construction of the U.S. Mixed Oxide Fuel Fabrication Facility, a decrease of $25.1 million below the budget request. The views of the conferees regarding the Fissile Materials Disposition program are discussed elsewhere in this conference report.

The budget request included $795.1 million for naval reactors programs and $386.6 million for the Office of the NNSA Administrator. The conferees agree to authorize these programs at the requested levels.

Defense environmental cleanup (sec. 3102)

The House bill contained a provision (sec. 3102) that would authorize $5.4 billion for the Department of Energy for defense environmental cleanup for fiscal year 2007, an increase of $50.0 million above the budget request.

The Senate amendment contained a similar provision (sec. 3102). The provision would authorize $5.4 billion for defense environmental cleanup, an increase of $40.0 million above the budget request.

The conferees agree to include a provision that would authorize $5.4 billion for defense environmental cleanup, an increase of $45.0 million above the budget request. Within this increase, the conferees agree to provide an additional $35.0 million in funding for radioactive liquid tank waste stabilization and disposition at the Savannah River Site in South Carolina and to provide an additional $10.0 million in funding for a research and development program to support tank waste cleanup technologies consistent with recommendations made in the National Research Council report entitled "Tank Waste Retrieval, Processing, and On-Site Disposal at Three Department of Energy Sites, April 2006."

Other defense activities (sec. 3103)

The House bill contained a provision (sec. 3103) that would authorize $717.8 million for the Department of Energy for other defense activities for fiscal year 2007, the amount of the budget request.

The Senate amendment contained a similar provision (sec. 3103). The provision would authorize $624.5 million for the Department for other defense activities, a decrease of $93.3 million below the budget request.

The conferees agree to include a provision that would authorize $717.8 million, the amount of the budget request.

Defense nuclear waste disposal (sec. 3104)

The House bill contained a provision (sec. 3104) that would authorize $388.1 million for defense nuclear waste disposal, the amount of the budget request.

The Senate amendment contained a similar provision (sec. 3104). The provision would authorize $333.1 million for defense nuclear waste disposal, a decrease of $55.0 million below the budget request.

The conferees agree to include a provision that would authorize $358.1 million, a decrease of $30.0 million below the budget request. The conferees note that the Department of Energy has issued a revised schedule for the development of a geologic repository, delaying the completion of the license application for the repository until June of 2008.

Subtitle B—Program Authorizations, Restrictions, and Limitations

Plan for transformation of National Nuclear Security Administration nuclear weapons complex (sec. 3111)

The House bill contained a provision (sec. 3111) that would direct the Secretary of Energy and the Secretary of Defense to develop a plan to transform the nuclear weapons complex so as to achieve a responsive infrastructure by the year 2030 and to transmit a report to the congressional defense committees, not later than February 1, 2007, on the transformation plan.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Secretary of Energy to develop the transformation plan in consultation with the Secretary of Defense and the Nuclear Weapons Council. The amendment would also modify the objectives of the plan to acknowledge the continued utilization of Category I and II special nuclear material, beyond the year 2012, at the national security laboratory at which a pit production capability is located. The amendment would make further technical changes.

Extension of Facilities and Infrastructure Recapitalization Program (sec. 3112)

The House bill contained a provision (sec. 3112) that would extend the Facilities and Infrastructure Recapitalization Program for 2 years, until September 30, 2013.

The Senate amendment contained a similar provision (sec. 3114).

The Senate recedes.

Utilization of contributions to Global Threat Reduction Initiative (sec. 3113)

The House bill contained a provision (sec. 3113) that would provide the Secretary of Energy authority to accept international contributions to the Global Threat Reduction Initiative program.

The Senate amendment contained a similar provision (sec. 3112).

The House recedes with a technical amendment.

Utilization of contributions to Second Line of Defense program (sec. 3114)

The House bill contained a provision (sec. 3114) that would provide the Secretary of Energy authority to accept international contributions to the Second Line of Defense program.

The Senate amendment contained a similar provision (sec. 3113).

The House recedes with a technical amendment.

Two-year extension of authority for appointment of certain scientific, engineering, and technical personnel (sec. 3115)

The House bill contained a provision (sec. 3115) that would amend section 4601(c)(1) of the Atomic Energy Defense Act (50 U.S.C. 2701(c)(1)) to extend excepted service authority for an additional two years, until September 30, 2008.

The Senate amendment contained an identical provision (sec. 3115).

The conference agreement includes this provision.

National Academy of Sciences study of quantification of margins and uncertainty methodology for assessing and certifying the safety and reliability of the nuclear stockpile (sec. 3116)

The House bill contained a provision (sec. 3116) that would direct the Secretary of Energy to enter into an arrangement with the National Research Council of the National Academy of Sciences to carry out a study of the quantification of margins and uncertainty methodology used by the national security laboratories for assessing and certifying the safety and reliability of the nuclear stockpile. The provision would further direct the National Research Council to submit a report on the study to the Secretary of Energy and to the Committees on Armed

Services of the Senate and the House of Representatives not later than 1 year after the date on which the Council enters into the arrangement for such study.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would narrow the matters to be included in the study, and would make technical changes to the funding of the study.

The conferees acknowledge the aggressive schedule directed for completion of the study and the report thereon. The conferees are aware of ongoing work on complementary topics being conducted by the Nuclear Weapons Complex Assessment Committee of the American Association for the Advancement of Science. The conferees encourage the National Research Council to seek opportunities to support mutual study objectives and to coordinate the use of any study contributors and subject matter experts between these studies, as appropriate.

Consolidation of counterintelligence programs of Department of Energy and National Nuclear Security Administration (sec. 3117)

The House bill contained a provision (sec. 3117) that would consolidate the counterintelligence programs of the Department of Energy and the National Nuclear Security Administration (NNSA) under the Department of Energy. The provision would also establish the Intelligence Executive Committee within the Department of Energy consisting of the Deputy Secretary of Energy, who would chair the committee, and each Under Secretary of Energy. The provision would require the Secretary of Energy to use the committee to assist in developing and promulgating the counterintelligence and intelligence policies, requirements, and priorities of the entire Department.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish, within the staff of the Administrator of the NNSA, a position of NNSA Intelligence and Counterintelligence Liaison that would be responsible for liaison between the NNSA and the Department's Office of Intelligence and Counterintelligence. The amendment would also sunset on September 30, 2010, the transfer of functions, personnel, funds, assets, and other resources transferred to the Secretary of Energy, returning them to the control of the Administrator of the NNSA.

The conferees reluctantly provide this authority to consolidate the counterintelligence programs of the Department of Energy and NNSA, despite the ongoing skepticism of many in Congress over the Department's ability to implement a strong security program for the Department and its laboratories. The conferees note that with the recent Departmental initiative to combine the Offices of Intelligence and Counterintelligence and with the authority provided in this provision, the intelligence and counterintelligence functions will be organized as they were when the Department experienced significant counterintelligence problems.

The conferees believe that the Department could have addressed many of the perceived issues associated with having separate counterintelligence offices for the Department and NNSA by demonstrating greater management resourcefulness. The conferees are unpersuaded that the Department fully and faithfully implemented the counterintelligence program structure called for in the National Nuclear Security Administration Act (Title 32 of the National Defense Authorization Act for Fiscal Year 2000, Public Law 106–65, as amended).

Nevertheless, the conferees note that the Department has continued—under the leadership of two different Secretaries of Energy and two different Deputy Secretaries—to identify the counterintelligence structure of the NNSA Act as an impediment to the smooth functioning of security operations within the Department of Energy complex. The conferees have agreed, therefore, to include a provision that would provide temporary authority for the disestablishment of the Office of Defense Nuclear Counterintelligence within NNSA and the transfer of NNSA counterintelligence personnel to the Department's Office of Counterintelligence.

Because NNSA and its programs contain the assets of greatest national security concern, the conferees would incorporate three important safeguards into the new organizational structure. First, the provision would require the establishment of an Intelligence Executive Committee within the Department of Energy consisting of the Deputy Secretary of Energy, who would chair the Committee, and each Under Secretary of Energy. One of the Under Secretaries is also the Administrator of the NNSA. Second, conferees would create, within the staff of the Administrator of the NNSA, a position of NNSA Intelligence and Counterintelligence Liaison that would be responsible for liaison between NNSA and the Department's Office of Intelligence and Counterintelligence. Third, the conferees would include a section to sunset the transfer effective September 30, 2010. This sunset would allow future Congresses to examine the effectiveness of the new, consolidated office and to take appropriate action, either to continue, modify, or reverse this organizational structure, based on that examination. Taken together, these measures are intended to ensure a continued strong voice for the NNSA in counterintelligence policy and requirements within the Department.

The conferees also wish to emphasize to the Department of Energy the existing requirement, already in law, regarding the selection and appointment of leadership for the new organization. The conferees remind the Department that section 1014 of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108–458) requires the Secretary of Energy to obtain the concurrence of the Director of National Intelligence before appointing an individual to fill the positions of Director of Intelligence and Director of Counterintelligence for the Department of Energy. Section 1014 further states that if the Director of National Intelligence does not concur in the recommendation, the Secretary of Energy may not appoint the individual to the position. The conferees support this requirement. The conferees further note that the recently appointed Director of Counterintelligence for the Department is detailed from the Federal Bureau of Investigation (FBI) for 2 years. The conferees believe that an individual having experience in counterintelligence matters as either a current or former agent of the FBI continues to be the most appropriate choice to lead the Department's counterintelligence efforts.

Notice-and-wait requirement applicable to certain third-party financing arrangements (sec. 3118)

The Senate amendment contained a provision (sec. 3111) that would require the Secretary of Energy to notify the congressional defense committees 30 days prior to entering into certain alternative financing arrangements.

The House bill contained no similar provision.

The House recedes.

Extension of deadline for transfer of lands to Los Alamos County, New Mexico, and of lands in trust for the Pueblo of San Ildefonso (sec. 3119)

The Senate amendment contained a provision (sec. 3116) that would amend section 632 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (Public Law 105–119) to extend, by five years, the deadline for completing certain land transfers by the Secretary of Energy to Los Alamos County, New Mexico and to the Secretary of the Interior of lands to be held in trust for the Pueblo of San Ildefonso.

The House bill contained no similar provision.

The House recedes.

Limitations on availability of funds for Waste Treatment and Immobilization Plant (sec. 3120)

The Senate amendment contained a provision (sec. 3117) that would prohibit the Secretary of Energy from obligating or expending more than a percentage of the amount authorized to be appropriated for the Waste Treatment and Immobilization Plant prior to performing certain actions.

The House bill contained no similar provision.

The House recedes with an amendment that would increase the amount available to be obligated or expended from 30 percent to 90 percent of the funds appropriated or otherwise available prior to the Secretary certifying to the congressional defense committees that the earned value management system for the project has been recommended for acceptance by the Defense Contract Management Agency. The amendment would also alter the limitation related to the establishment of final seismic criteria for the project by prohibiting the obligation or expenditure of any of the amount appropriated or otherwise available for the project for construction or for procurement of critical equipment affected by the seismic criteria prior to the establishment of final seismic and ground motion criteria for the project. The conferees encourage the Department of Energy to sequence the obligation and expenditure of engineering funds on the project in a manner that minimizes the risk of incurring additional costs should the interim seismic criteria ultimately be found to be inadequate.

Report on Russian Surplus Fissile Materials Disposition Program (sec. 3121)

The Senate amendment contained a provision (sec. 3118) that would prohibit the obligation of fiscal year 2007 funds to implement the Russian Surplus Fissile Materials Disposition Program, other than continuation of the research and development associated with the Gas Turbine-Modular Helium Reactor (GT–MHR), until 30 days after the Secretary of Energy provides to the congressional defense committees written recommendations regarding whether and in what manner the program should proceed. The provision would require the recommendations to include: (1) a description of the disposition method Russia has agreed to use; (2) a description of the assistance the United States plans to provide under the program; (3) an estimate of the total cost and schedule of the U.S. assistance to the program; and (4) an explanation of how parallelism is to be defined for purposes of the program and whether such parallelism can be achieved if the U.S. mixed-oxide (MOX) approach to plutonium disposition continues on the current planned schedule without further delays.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Energy to provide a report, no later than March 1, 2007, to the congressional defense committees. The report shall include: (1) a description of the disposition method Russia has agreed to use under the program; (2) a description of the assistance the United States plans to provide under the program; (3) an estimate of the total cost and schedule of such assistance; and (4) an explanation of how parallelism is to be defined for purposes of the program, including projected goals for the disposition of Russian weapons-grade plutonium under the 2000 Plutonium Disposition and Management Agreement, and whether such parallelism can be achieved if the U.S. MOX program continues on the current planned schedule without further delays.

The conferees note their support for the goals of the September 2000 Plutonium Management and Disposition Agreement to dispose of 34 metric tons of surplus weapons-grade plutonium in both the United States and Russia on roughly parallel paths. For the past 2 years, the Russian program has been delayed pending completion of a liability agreement between the United States and the Russian Federation, and that in turn caused a delay in the U.S. program. The National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163) cut $250.0 million in funding for the U.S. MOX program due to the impasse over liability. Although the liability agreement has now been signed, Russian officials have stated that the agreement will require ratification by the Russian Duma.

In a new development arising out of U.S.-Russian negotiations on the plutonium disposition program in February 2006, Russia has now indicated that it is not prepared to proceed with the program as originally conceived. Representatives of the National Nuclear Security Administration and the Department of State have indicated that Russia no longer wishes to use MOX fuel in VVER–1000 light water reactors unless the United States and the international community agree to bear the full life cycle cost of this approach, estimated at $2.7 billion. Rather, Russia would like to explore a new two-pillar approach to the plutonium disposition program, consisting of limited disposition in an existing BN–600 reactor (disposition in such a reactor was part of the originally envisioned program), and eventually larger-scale disposition in one or more BN–800 fast breeder reactors (FBR). It is unclear how much this new approach would cost and how it would be funded. The United States has not previously supported the FBR design due to proliferation concerns.

While generally pleased with the progress of DOE programs with the Russian Federation to cooperatively reduce the nuclear threat, the conferees are troubled by the uncertainty that now surrounds the Russian Surplus Materials Disposition Program. The conferees note the July 13, 2006, Joint Statement by the Secretary of Energy and the Director of the Federal Atomic Energy Agency of the Russian Federation reaffirming the joint commitment to the 2000 Agreement to dispose of 34 metric tons of excess weapons-grade plutonium. Nevertheless, the conferees remain concerned about the lack of any plan, implementing agreement, or concrete timetable for implementing this renewed commitment. Such a plan should include the method of disposition, the amount of the Russian contribution to the disposition program, and how much and what type of assistance the United States and the international community will be asked to provide to the program. The conferees believe that these questions must be resolved before the United States invests further in this important cooperative program. Therefore, the conferees recommend no funds for the Russian Surplus Fissile Materials Disposition Program, a reduction of $34.7 million. Of those funds available from prior fiscal years for the Russian Surplus Fissile Materials Disposition Program, no more than $20.0 million shall be available for expenditure until 30 days after the Secretary of Energy has provided to the congressional defense committees the report required by this section. The conferees note that there are adequate prior year funds available for the Russian Surplus Fissile Materials Disposition Program in the event that Russia and the United States agree on a path forward and are prepared to resume cooperative work on a plutonium disposition program that is consistent with the 2000 Agreement, and to which Russia and the United States are fully committed.

The conferees expect the GT–MHR technology cooperation efforts to proceed without interruption using the prior year funds that are unaffected by this funding restriction.

Limitation on availability of funds for construction of MOX Fuel Fabrication Facility (sec. 3122)

The Senate amendment contained a provision (sec. 3119) that would prohibit the obligation of fiscal year 2007 funds for construction of the Mixed Oxide (MOX) Fuel Fabrication Facility until 30 days after the Secretary of Energy provides to the congressional defense committees: (1) an independent cost estimate for the U.S. Surplus Fissile Materials Disposition program and facilities; and (2) a written certification that the Department of Energy intends to use the MOX Fuel Fabrication Facility for U.S. plutonium disposition regardless of the future direction of the Russian Surplus Fissile Materials Disposition program.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the obligation of fiscal year 2007 funds for construction of the MOX Fuel Fabrication Facility until 30 days after the Secretary of Energy provides to the congressional defense committees: (1) an independent cost estimate for the U.S. Surplus Fissile Materials Disposition program and facilities; (2) a written certification that the Department intends to use the MOX Fuel Fabrication Facility for U.S. plutonium disposition regardless of the future direction of the Russian Surplus Fissile Materials Disposition program; and (3) a corrective action plan for issues raised by the Department of Energy Inspector General (IG) in the December 2005 report titled "The Status of the Mixed Oxide Fuel Fabrication Facility."

The conferees support the goals of the September 2000 Plutonium Management and Disposition Agreement to dispose of 34 metric tons of surplus weapons-grade plutonium in both the United states and Russia on roughly parallel paths, but note their ongoing concern regarding the implementation of this program. Under the agreement, the United States and Russia each agreed to dispose of 34 metric tons of surplus weapons-grade plutonium, and both countries planned to dispose of the plutonium by fabricating it into MOX fuel for use in existing nuclear reactors. It has been both executive branch policy and a condition of the Congress that the U.S. and Russian programs would proceed on parallel paths. This program was delayed for more than 2 years as the United States and Russia negotiated an agreement on liability protections for U.S. contractors associated with the project. Now Russia has indicated it wishes to pursue alternative disposition methods under this program, rather than relying on the MOX method that had been planned. Uncertainties surrounding the Russian program have led to questions regarding the continued relationship of that program to the U.S. Surplus Fissile Materials Disposition program, given that these two programs are required to proceed on roughly parallel paths.

The conferees are further concerned that the U.S. MOX program has experienced significant cost overruns and schedule delays, irrespective of the problems with the Russian program. A December 2005 audit by the IG concluded that while the original 2002 budget estimate for the U.S. MOX facility was $1.0 billion, the total cost is now estimated at around $3.5 billion, and the plant will not begin producing MOX fuel until 2015, 6 years later than originally planned. The IG audit was highly critical of the Department's management of the MOX program, asserting that weaknesses in project management and limited administration of the program contributed to cost growth. More recent information suggests that the cost of the U.S. MOX program is expected to rise significantly higher than the IG estimated.

In light of these developments, the conferees believe it is necessary to have an independent cost estimate for the program; a certification from the Secretary that the Department will use the MOX facility for plutonium disposition regardless of the future direction of the Russian program; and a corrective action plan for issues raised by the IG, before fiscal year 2007 funds are obligated for construction of the MOX Fuel Fabrication Facility.

Based on preliminary discussions with the Department, the conferees are operating under the assumption that the Savannah River Site MOX project is a cost-effective and efficient method for the United States to dispose of a significant portion of its excess weapons-grade plutonium inventory as part of a broader plutonium disposition plan. Accordingly, the conferees believe that moving forward expeditiously with construction and operation of the U.S. MOX facility will significantly reduce the costs and risks associated with managing domestic weapons-grade plutonium. The conferees direct the Department to provide to the congressional defense committees an assessment of whether, given the sunk costs to date for the U.S. MOX project and an evaluation of other alternatives for plutonium disposition, proceeding with the U.S. MOX project is the most effective means, from both a cost and technical perspective, for managing and disposing of excess U.S. weapons-grade plutonium.

The conferees reaffirm their view that proceeding with construction and operation of the U.S. MOX facility is important in order to demonstrate the continuing commitment of the United States to fulfilling its obligations under both the 2000 Plutonium Management and Disposition Agreement, and under Article VI of the Nuclear Non-Proliferation Treaty.

Education of future nuclear engineers (sec. 3123)

The Senate amendment contained a provision (sec. 3121) that would direct the Secretary of Energy to conduct a study on the feasibility and merit of establishing a scholarship or fellowship program to educate future nuclear engineers at the postsecondary and postgraduate levels and to submit a report on the study to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Technical correction related to authorization of appropriations for fiscal year 2006 (sec. 3124)

The Senate amendment contained a provision (sec. 3120) that would strike the amount "$9,196,456" and insert "$9,196,456,000" in section 3101(a) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163).

The House bill contained no similar provision.

The House recedes.

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Legislative Provision Adopted

Authorization (sec. 3201)

The House bill contained a provision (sec. 3201) that would authorize $22.3 million for the Defense Nuclear Facilities Safety Board, the amount of the budget request.

The Senate amendment contained an identical provision (sec. 3201).

The conference agreement includes this provision. The conferees note their concern regarding the untimely resolution by the Department of Energy of technical issues raised by the Board. The conferees believe that the Board and the Department would benefit from a more structured process for issue resolution that would allow issues to be raised, evaluated, and adjudicated at logical points in the design and construction process. The conferees urge the Board to evaluate whether more frequent use of the Board's formal recommendation process would drive both parties towards this more structured process. The conferees also encourage the Board to take a constructive role in the problem-solving process by quickly evaluating corrective actions proposed by the Department and its contractors.

The conferees are encouraged by efforts between the Department and the Board to develop a process to provide for more timely identification and resolution of technical differences over design standards and other issues at the Department's nuclear facilities. Specifically, conferees support the pending revision of the Department's Order 413.3 to require critical safety determinations be made prior to Critical Decision 1 in the Department's project management system. The conferees direct the Board and the Department to continue these discussions and to report jointly to the congressional defense committees on their efforts to improve the timeliness of issue resolution, including recommendations, if any, for legislation that would strengthen and improve technical oversight of the Department's nuclear design and operational activities. Until such time as this report is submitted, the conferees further direct the Board to provide to the congressional defense committees quarterly reports to identify and report the status of significant unresolved issues.

The conferees expect the Board to exercise its existing statutory authority at all Department of Energy defense nuclear facilities. This includes the Waste Treatment and Immobilization Plant [Project 01–D–416] at the Department's Hanford site in the State of Washington.

TITLE XXXIII—NATIONAL DEFENSE STOCKPILE

Legislative Provision Adopted

Authorized uses of National Defense Stockpile funds (sec. 3301)

The House bill contained a provision (sec. 3301) that would authorize $52.1 million from the National Defense Stockpile Transaction Fund for the operation and maintenance of the National Defense Stockpile for fiscal year 2007. The provision would also permit the use of additional funds for extraordinary or emergency conditions 45 days after Congress receives notification.

The Senate amendment contained no similar provision.

The Senate recedes.

Revisions to required receipt objectives for previously authorized disposals from National Defense Stockpile (sec. 3302)

The House bill contained a provision (sec. 3302) that would authorize increased sales of certain materials in the National Defense Stockpile through the end of fiscal year 2013.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would reduce the amount of the increased sales.

TITLE XXXIV—NAVAL PETROLEUM RESERVES

Legislative Provision Adopted

Authorization of appropriations (sec. 3401)

The House bill contained a provision (sec. 3401) that would authorize $18.8 million for the operation and maintenance of the Naval Petroleum and Oil Shale Reserves.

The Senate amendment contained no similar provision.

The Senate recedes.

Legislative Provision Not Adopted

The Senate amendment contained a provision (sec. 3401) that would require the 'Shallow Oil Zone Provisional Recommendation of Equity Participation' of the independent petroleum engineer for Naval Petroleum Reserve Numbered 1 to become the final recommendation, unless the Department of Energy and Chevron U.S.A. Inc. agree that the independent petroleum engineer shall not be liable for any cost or expense incurred as a result of good faith services.

The House bill contained no similar provision.

The Senate recedes.

TITLE XXXV—MARITIME ADMINISTRATION

Legislative Provisions Adopted

Authorization of appropriations for fiscal year 2007 (sec. 3501)

The House bill contained a provision (sec. 3501) that would authorize a total of $164.4 million for fiscal year 2007, an increase of $19.5 million above the budget request. Of the amount authorized, $25.7 million would be for the disposal of obsolete vessels. Within the funds included for operation and training programs, the provision would authorize $19.5 million to provide for the reimbursement of non-emergency repairs under the provisions of section 3517 of the Maritime Security Act of 2003 (46 U.S.C. 53101 note), as amended by section 3503 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163).

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would increase the amount authorized by an additional $15.6 million. Of the additional amount authorized, $15.0 million would be for assistance to small shipyards under section 3506 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163), and $0.6 million for fuel payments for the six State maritime academies to operate their training ships.

The amendment would further clarify the amount authorized for administrative expenses related to the implementation of the loan guarantee program under title XI of the Merchant Marine Act, 1936 (46 U.S.C. App. 1271 et seq.) and the non-emergency repair reimbursement, and small shipyard assistance programs described above.

Amendments relating to the Maritime Security Fleet program (sec. 3502)

The House bill contained a provision (sec. 3502) that would amend section 53105(e) of the Maritime Security Act of 2003 (46 U.S.C. 53101 note) to prohibit the transfer of an operating agreement to a person that is not a citizen of the United States, as that term is used in section 2 of the Shipping Act, 1916 (46 U.S.C. 802), unless the Secretary of Defense determines that there is no citizen under that section who is interested in obtaining the operating agreement for a vessel that is otherwise eligible to be included in the Maritime Security Fleet program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that in order for a vessel to be considered eligible for an operating agreement to be transferred the vessel must meet the specific Department of Defense requirements for that operating agreement. The amendment would also amend section 53103(c)(4) of title 46, United States Code, to provide an alternative approach for operators of the Maritime Security Fleet program product tankers to meet U.S.-built replacement vessel requirements. The alternative approach would include the construction and operation of equivalent domestic trade tank vessels. The amendment would further amend section 53106 of title 46, United States Code, to establish priority for allocation of payments to vessels, in the event that the amounts available for payments under operating agreements are not sufficient to pay the full amount authorized under each agreement.

Applicability to certain Maritime Administration vessels of limitations on overhaul, repair, and maintenance of vessels in foreign shipyards (sec. 3503)

The House bill contained a provision (sec. 3503) that would require that certain U.S. Maritime Administration vessels activated in support of Department of Defense missions be subject to section 7310 of title 10, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes.

Vessel transfer authority (sec. 3504)

The House bill contained a provision (sec. 3504) that would authorize the Secretary of Transportation to transfer any vessels that are in the National Defense Reserve Fleet to another Federal agency.

The Senate amendment contained no similar provision.

The Senate recedes.

United States Merchant Marine Academy graduates: service requirements (sec. 3505)

The House bill contained a provision (sec. 3505) that would exempt graduates of the

United States Merchant Marine Academy, who serve on active duty in the Armed Forces for the 5 years following graduation, from certain commitment agreement requirements which were entered into upon admission.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would include exemption of graduates of the United States Merchant Marine Academy, who serve on active duty in the Public Health Service for the 5 years following graduation, from the agreement requirements specified in this provision.

United States Merchant Marine Academy graduates: service obligation performance reporting requirement (sec. 3506)

The House bill contained a provision (sec. 3506) that would allow the Department of Defense, the United States Coast Guard, and the National Oceanic and Atmospheric Administration to verify to the Maritime Administration that academy graduates have in fact remained on active duty or continued in a ready reserve status for the amount of their obligation.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would also allow the Public Health Service to verify to the Maritime Administration that academy graduates have in fact remained on active duty or continued in a ready reserve status for the amount of their obligation.

Temporary authority to transfer obsolete combatant vessels to Navy for disposal (sec. 3507)

The House bill contained a provision (sec. 3507) that would require the Secretary of Transportation to transfer to the Secretary of the Navy for disposal by scrapping, during fiscal year 2007, no fewer than six combatant vessels of the nonretention fleet of the Maritime Administration.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would reduce the number of combatant vessels subject to transfer by the Secretary of Transportation to the Secretary of the Navy, during fiscal year 2007, to no fewer than three.

Qualifying Reserve duty for receipt of student incentive payments (sec. 3508)

The conferees agree to include a provision that would amend title 13 of the Merchant Marine Act, 1936 (46 U.S.C. App. 1295c(g)(2)) to include service in the United States Coast Guard Reserve as fulfillment of enlisted reserve requirements for receipt of student incentive payments.

Large passenger ship crew requirements (sec. 3509)

The conferees agree to include a provision that would amend section 8103 of title 46, United States Code, to establish crew requirements for large passenger vessels. Specifically, the provision would expand the pool of non-citizens that can be employed on U.S.-flag large passenger vessels to include certain non-resident alien visa holders. The provision would also establish rules, restrictions, and background check requirements for non-resident alien employees, which have been deemed necessary by the Department of Homeland Security to maintain the security and safety of passenger vessels.

The conferees direct the Commandant of the Coast Guard to closely monitor implementation of affected procedures for employment of non-citizens. The Commandant shall notify Congress of any measures, beyond changes to Coast Guard regulations, that may be required to maintain the security and safety of the subject passenger vessels consistent with standards for U.S.-flagged vessels.

The conferees agree that the relief to employment requirements of this provision warrant documentation within the security plan for each large passenger vessel employing non-resident aliens. The Secretary of Homeland Security shall ensure that vessel security plans prohibit non-resident alien seamen from working in:

(1) any position with the authority to receive stores or provisions;

(2) any position allowing unescorted access to restricted spaces on the vessel;

(3) any position with security-related responsibilities; and

(4) any position with any operationally critical shipboard duties.

Miscellaneous Maritime Administration provisions (sec. 3510)

The conferees agree to include a provision that would make technical corrections to (1) section 1208(a) of the Merchant Marine Act, 1936 (46 U.S.C. App. 1288(a)), (2) section 8 of the Merchant Marine Decorations and Medals Act (46 U.S.C. App. 2007), and (3) section 3509 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163). The provision would also authorize funding for an intermodal or marine facility comprising a component of the Hawaii Port Infrastructure Expansion Program.

Legislative Provision Not Adopted

Temporary requirement to maintain Ready Reserve Force

The House bill contained a provision (sec. 3508) that would require the Secretary of Defense, in consultation with the Secretary of Transportation, to submit to Congress by March 1, 2007, a report describing a 5-year plan for maintaining the capability of the Ready Reserve Force of the National Defense Reserve Fleet necessary to support Department of Defense wartime mission and support to civil authorities. The provision would also require the Secretary of Transportation to maintain 58 vessels in the Ready Reserve Force of the National Defense Reserve Fleet until 45 days after the date the report is required.

The Senate amendment contained no similar provision.

The House recedes.

The conferees request that the U. S. Transportation Command advise the congressional defense committees prior to further reductions to the Ready Reserve Force and include plans for providing capacity to meet related readiness requirements.

EARMARKS

Pursuant to House Resolution 1000, entitled "Providing for earmarking reform in the House of Representatives," adopted on September 14, 2006, the committee finds the following earmarks contained in this conference report:

Member	Program/Project Title	Account/Line No.	Amount (dollars in millions)
Hunter, Duncan (CA) and Bartlett, Roscoe (MD)	Low cost domestic titanium reduction to powder initiative	RDA 183 78045A	$5.0
Kline, John (MN)	Traumatic brain injury treatment and rehabilitation	Defense Health Program O&M	12.0
Warner, John (VA)	East Coast Asymmetric Warfare Initiative	RDDW 54 63828D8Z	4.0
Kingston, Jack (GA) and Marshall, Jim (GA)	Construct Software Support Facility, Phase 2, Robins AFB, Georgia	Air Force Construction and Land Acquisition Projects	7.0
Chafee, Lincoln (RI) and Reed, Jack (RI)	Replace Vehicle Bridge, Increment 2, Naval Station Newport, Rhode Island	Navy Construction and Land Acquisition Projects.	3.41

From the Committee on Armed Services, for consideration of the House bill and the Senate amendment, and modifications committed to conference:

Duncan Hunter,
C. Weldon,
Joel Hefley,
J. Saxton,
John M. McHugh,
Terry Everett,
R. Bartlett,
Mac Thornberry,
John N. Hostettler,
Jim Ryun,
Jim Gibbons,
Robin Hayes,
Ken Calvert,
Rob Simmons,
Thelma Drake,
Geoff Davis,
Ike Skelton,
John M. Spratt, Jr.,
Solomon P. Ortiz,
Gene Taylor,
Neil Abercrombie,
Silvestre Reyes,
Vic Snyder,
Adam Smith,
Loretta Sanchez,
Ellen Tauscher,
R.A. Brady,
Robert E. Andrews,

From the Permanent Select Committee on Intelligence, for consideration of matters within the jurisdiction of that committee under clause 11 of rule X:

Pete Hoekstra,
Ray LaHood,
Jane Harman,

From the Committee on Education and the Workforce, for consideration of secs. 571 and 572 of the House bill, and secs. 571, 572, 1081, and 1104 of the Senate amendment, and modifications committed to conference:

Howard P. McKeon,
John Kline,

From the Committee on Energy and Commerce, for consideration of secs. 314, 601, 602, 710, 3115, 3117, and 3201 of the House bill, and secs. 332–335, 352, 601, 722, 2842, 3115, and 3201 of the Senate amendment, and modification committed to conference:

Joe Barton,
Paul Gillmor,

From the Committee on Government Reform, for consideration of secs. 343, 721, 811, 823, 824, 1103, 1104, and 3115 of the House bill, and secs. 371, 619, 806, 823, 922, 1007, 1043, 1054, 1088, 1089, 1101, and 3115 of the Senate amendment, and modifications committed to conference:

TOM DAVIS,
C. SHAYS,

From the Committee on Homeland Security, for consideration of section 1026 of the House bill, and section 1044 of the Senate amendment, and modifications committed to conference:

PETER T. KING,
D. REICHERT,
BENNIE G. THOMPSON,

From the Committee on International Relations, for consideration of secs. 1021–1023, 1201–1204, 1206, title XIII, secs. 3113 and 3114 of the House bill, and secs. 1014, 1021–1023, 1054, 1092, 1201–1208, 1210, 1214, title XIII, secs. 3112 and 3113 of the Senate amendment, and modifications committed to conference:

HENRY HYDE,
JAMES LEACH,
TOM LANTOS,

From the Committee on Resources, for consideration of secs. 601, 602, and 1036 of the House bill, and section 601 of the Senate amendment, and modifications committed to conference:

RICHARD POMBO,
GREG WALDEN,

From the Committee on Science, for consideration of secs. 312 and 911 of the House bill, and secs. 333, 874, and 1062 of the Senate amendment, and modifications committed to conference:

SHERWOOD BOEHLERT,
MIKE SODREL,

From the Committee on Small Business, for consideration of secs. 874 and 1093 of the Senate amendment, and modifications committed to conference:

DONALD MANZULLO,
SUE W. KELLY,

From the Committee on Transportation and Infrastructure, for consideration of secs. 312, 551, 601, 602, and 2845 of the House bill and secs. 333, 584, 601, 1042, 1095; 2842, 2851–2853, and 2855 of the Senate amendment, and modifications committed to conference:

DON YOUNG,
FRANK LOBIONDO,
JIM OBERSTAR
(EXCEPT SECTIONS 1095, 2851, 2852, 2853 OF THE SENATE AMENDMENT),

From the Committee on Veterans' Affairs, for consideration of secs. 666, 682, 683, 687, 721, and 923 of the Senate amendment, and modifications committed to conference:

STEVEN BUYER,
JOHN BOOZMAN,
STEPHANIE HERSETH,
Managers on the Part of the House.

ROBERT C. BYRD,
Managers on the Part of the Senate.

WAIVING REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS

Mr. COLE of Oklahoma. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1053 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 1053

Resolved, That the requirement of clause 6(a) of rule XIII for a two-thirds vote to consider a report from the Committee on Rules on the same day it is presented to the House is waived with respect to any resolution reported on the legislative day of September 29, 2006.

The SPEAKER pro tempore. The gentleman from Oklahoma (Mr. COLE) is recognized for 1 hour.

GENERAL LEAVE

Mr. COLE of Oklahoma. Mr. Speaker, I ask unanimous consent that all Members may have 5 days to revise and extend their remarks and insert tabular and extraneous material into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. COLE of Oklahoma. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts (Mr. MCGOVERN), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, on Thursday night the Rules Committee met and reported a rule for consideration of resolutions reported by the Rules Committee on the same day. The rule waives clause 6(a) of rule XIII and applies a special waiver to any resolutions reported this legislative day.

Mr. Speaker, it is of the utmost importance for the House to pass this rule and move the debate along so that important legislation may be considered before the House adjourns. Legislation that may be considered under this same-day rule may include the fiscal year 2007 National Defense Authorization Act and the Port Security Act and other measures brought to the floor through a special rule reported by the committee. This rule will provide the House the flexibility and ability to move the remaining legislation in a timely and efficient manner so that we can adjourn this legislative day.

To that end, Mr. Speaker, I urge support of the rule and the underlying bill.

Mr. Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I thank the gentleman from Oklahoma for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Mr. Speaker, I rise in opposition to this martial law rule.

It is not unusual for a rush of bills, especially conference reports, to come to the House floor in the final hours before a recess or a final adjournment no matter who holds the majority. We are used to seeing that. But the manner in which this House has conducted business over the past week should be a matter of grave concern to all Members no matter what side of the aisle they sit on.

Closed rules have become a norm in this Chamber. Bills that have not gone through committee hearings, markup, or open debate or with a chance for Members to offer and debate thoughtful amendments, bills that magically appear out of thin air with the Republican leadership asking Members to vote "yes" on far-reaching legislation that nobody has actually read.

Mr. Speaker, we cannot continue to operate the United States House of Representatives in such a fashion.

☐ 1315

It demeans our democracy. It is bad enough that this House is passing bills that will be signed into law that undermine our system of justice and due process both here at home and internationally. But the very way in which this House has carried out legislative business this week is an affront to the Democratic process.

I know that we all want to return home to our districts to meet with our constituents and prepare for the upcoming elections, but I genuinely worry about how we are living up to our oaths of office when I look at how the Republican leadership has shut down debate on some of the most significant issues facing our country.

Mr. Speaker, there are only a few hours left before Congress adjourns to go home. After the most do-nothing Congress in the history of the country, Republican leadership continues to ignore critical issues that are absolutely important to the American people in a rush to get out of Washington.

Some of us, Mr. Speaker, have spoken in the past about the culture of corruption that exists in this institution; and it is more than just about the antics of Mr. DeLay and Mr. Cunningham and Mr. Abramoff. This culture of corruption that we talk about is also about a corruption of the process that allows for this Congress to become a place where trivial issues get debated passionately and important ones not at all. It is a process where rank and file Members of both parties, not just Democrats but Republicans, routinely get locked out of the ability to offer amendments and to be heard on the floor of the people's House.

Now, Mr. Speaker, when gas prices went sky high, President Bush and the Republican-controlled Congress gave tax breaks to the oil companies. They did not give us an opportunity to debate and to vote on a real energy bill that would provide funding for alternative sources of renewable energy. But that is how they responded to that crisis.

When our troops in Iraq and Afghanistan needed body armor, we got "mission accomplished". Mr. Speaker, the headlines of the last week alone should show not only how messed up things are in Iraq but how this administration has deceived the American people and deceived this Congress.

And what has been the response of Congress over these many months? Has it been to hold the administration accountable? Has it been to conduct proper oversight?

No. It has been a rubber stamp. Just let things go on as they are. Stay the course, which has become code for stay forever. With American workers crying out for an increase in the minimum wage, President Bush and the Republican-controlled Congress forced through an estate tax cut benefiting only the wealthiest people in this country.

Mr. Speaker, the Federal minimum wage is at $5.15 an hour. $5.15 an hour. It has been frozen that way for 9 years. Now, during those same 9 years, this Congress has given itself pay increases of $31,600. I mean, we have the time. We have the time to give ourselves a pay raise in this body, but we do not have the time to give the American workers a pay raise? $5.15 an hour is what the current Federal minimum wage is.

And would you not think that there would be a sense of urgency in this House of Representatives to not adjourn until we have a clean up or down vote on the minimum wage? No, that is not part of why we are having a martial law rule here today. They are not doing this so they can bring up the Federal minimum wage, an increase in the Federal minimum wage. That is not what this is about.

Mr. Speaker, with the cost of college tuition skyrocketing and student aid not meeting the need, President Bush and the Republican-controlled Congress instead give us a bill congratulating Little League teams. We have done nothing in this Congress to address the real concern and the real need out there by so many American families to help pay for the cost of a college education.

And as thousands of our senior citizens fall into the doughnut hole of the Medicare Prescription Drug Plan, President Bush and the Republican-controlled Congress answered their pleas for help by naming more post offices. We were not given the opportunity to fix the doughnut hole in that prescription drug bill.

We have not been given the opportunity to do what Democrats have been demanding for a long time, and that is to give the Federal Government the ability to negotiate lower drug prices for our senior citizens. That is how the Veterans Administration does it. The VA negotiates on behalf of all of our veterans, thereby getting a better price so that our veterans do not have to pay as much for prescription drugs.

Why cannot we do the same thing for Medicare beneficiaries? We are not doing it because the prescription drug industry and the pharmaceuticals do not want it, and they have contributed mightily to the majority party's campaign for reelection.

Mr. Speaker, it is time for a new direction; and I hope that my colleagues will indicate their frustration with the way this House has been run and demonstrate their dismay at the lack of accomplishment of this Congress by voting "no" on this martial law rule.

Mr. Speaker, I reserve the balance of my time.

Mr. COLE of Oklahoma. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to just disagree with my good friend from Massachusetts on his characterization of the accomplishments of this Congress. As a matter of fact, if you start ticking off the record, it is pretty impressive: bankruptcy reform, class action lawsuit reform, a transportation bill that put more money into our infrastructure than any transportation bill in American history, significant energy legislation passed last year, dealing with the entitlement spending problem, an across-the-board budget cut.

All of those are genuine accomplishments. Pension reform, bill after bill after bill. Some of them bipartisan, some of them, frankly, passed without the cooperation of our friends.

And, frankly, to criticize us for minimum wage, when in this House we have voted on and passed the minimum wage increase and passed, along with it, a reform of the death tax and tax extender bills that are important, I think is somewhat disingenuous.

That legislation passed with a majority vote on this floor; and, frankly, a majority of the other body favored that legislation. Our friends on the other side of the aisle used their friends on the other side of the rotunda to routinely block progress. Even when the majority of the United States Senate agrees with the will of this House, as was the case with the minimum wage, with ANWR, and another piece of legislation with the tax extenders, with reform of the death tax, an obstructionist minority of Democrats on the other side keep a bipartisan majority from actually reaching the magic 60 vote level that is required in moving legislation forward.

We are not responsible for that. Frankly, I am proud of what we have moved through the floor here.

I also want to disagree with my good friend on the Medicare measure that he discussed in his remarks. Quite frankly, it is something that I think our good friends on the other side of the aisle are embarrassed that they did not support. It was the largest expansion of spending for senior citizens and entitlement spending since 1965. Since 1965.

Now the argument that the Democrats advanced that night, and I was here, was it is not enough. They were not willing to vote for something that was the largest increase in almost 40 years. It simply was not enough. And I think now that tens of thousands of seniors are getting health care that in the past they were not able to get, and that our friends on the other side had nothing to do with that accomplishment puts them in the position where they feel like they have to take away from the achievement that they could have been part of but rejected the opportunity to participate in.

Finally, let me just conclude my observation that there are only two times when we get criticized from the other side of the aisle. That is when we do something and when we do not.

Day after day, and particularly morning after morning this week, we have heard demands from the floor or from the well of this body on the floor that we have up or down votes on issue after issue after issue. Now when we are bringing important issues for up or down votes, issues that in many cases have been dealt with for months through the committee process, we are dealing with conference reports or providing an up or down opportunity, we are criticized for that. So I suspect we are going to be criticized regardless of what we do.

What I am pleased with is the record of accomplishment that this Congress has to offer to the American people in issue after issue. My only regret is that, frankly, our friends on the other side of the aisle have so often chosen to obstruct rather than participate, in my opinion, constructively in this process.

I hope that that changes ahead. Frankly, there have been times when it has been different on this floor. I would hold the pension reform bill out as an example of that. I would also point out on things like the PATRIOT Act, where we had 40 odd of our friends from the other side participating; tort reform, where 70 odd of our friends participated on the other side; there have been many instances of bipartisan reform cooperation. Unfortunately, in my opinion, it has diminished as we have moved forward in the Congress and moved closer to November.

I hope on the other side of November that will change. But I, for one, am very proud of this Congress and what it has accomplished; and I look forward to working with our friends on the other side of the aisle so we can accomplish more in the months that remain in this Congress and, frankly, in the next one.

Mr. Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I appreciate my friend saying he looks forward to working with us. I look forward to the day that the majority decides to work with those of us in the minority in this Congress.

You know, one of the frustrations that we have, and, again, we have not been given an answer to this question, is why on some of the most important pieces of legislation that have come before this Congress, issues involving wire tapping, issues involving torture, would these bills be brought to the floor under a closed process when there were Democrats and Republicans both coming before the Rules Committee who wanted to have input, who wanted to make their amendments in order, who had some good ideas.

You may not agree with everything. You do not have a monopoly on good ideas. But the fact of the matter is, to shut people down, to just shut everybody out, that not only diminishes this institution, it diminishes this democracy. It is why we believe that there is a culture of corruption that exists in this Congress. You have corrupted this process.

You know, my friend likes to say he is very proud of the record of the Republican Congress. Well, the fact of the matter is, he and a handful of others may be the only people who think that this Congress has done a good job. There is a reason why only 25 percent of the American people approve of the job that this Congress is doing. They are disgusted with the lack of accomplishment on issues that make a difference in their lives.

I do not know about my colleague from Oklahoma, but when I go home, you know, I have a lot of seniors telling me that they have hit that doughnut hole in the prescription drug bill. They do not know what to do about it. I have a lot of my senior citizens say to me, why in the world will you not give the Federal Government the ability to negotiate lower drug prices for our senior citizens? What is so radical about that?

I mean, that is one of those best-business type practices. Why cannot you allow our Government to negotiate lower drug prices for our senior citizens? The reason why is because the people who have funded the Republican National Committee and the campaigns, the pharmaceutical industries, do not want that.

There are people asking me all of the time, you know, why has this Congress not implemented the 9/11 Commission recommendations to make our country safer? You know, a nonpartisan commission that has set forth an agenda that I think almost everybody agrees with, and yet we cannot implement those recommendations.

On the minimum wage, you play politics with the minimum wage. If you cared about the workers of this country who are earning a minimum wage, then you would bring up a minimum wage that would pass. But, no, in order to help low-income workers, you have got to help the richest people in this country. You want to play politics with that issue.

The minimum wage has been stuck at $5.15 an hour for 9 years. You do not have the time to give these workers an increase, but yet we can all give ourselves a pay increase. No wonder why the American people are so fed up with this Congress.

On student aid, students returning to college continue to confront skyrocketing tuition costs; and yet the Republican Congress made it harder to pay for college by cutting $12 billion in student aid. Congress needs to pass and approve the Labor-HHS appropriations bill that restores the massive cuts in college tuition and expands the size and availability of Pell Grants.

You know, why cannot we focus on that? Pass an energy plan that decreases our dependence on foreign oil. Your energy law, you know, written in secret by the Cheney task force and Big Oil and energy lobbyists, gives billions of special interest giveaways to oil and gas companies that are enjoying record profits.

I mean, yeah, you passed some things but things that really do not make a difference to the average working person out there. So you can be proud of your record in this Congress. But I want to tell you, there is a reason why only 25 percent of the American people approve of the way that this Congress has handled its job.

Mr. Speaker, I reserve the balance of my time.

Mr. COLE of Oklahoma. Mr. Speaker, I yield to the gentleman from California (Mr. HUNTER) to file a conference report.

Mr. HUNTER. Mr. Speaker, I am going to ask to submit a conference report. I just wanted to say that this conference report is largely the product of Mr. Bob Cover, who after many, many years is leaving the Office of Legislative Counsel. We appreciate his great service to our country.

□ 1330

Mr. COLE of Oklahoma. Mr. Speaker, I yield myself such time as I may consume.

I want to take a moment to respond to my good friend from Massachusetts. We simply, I guess, see the world differently. The reality is most of the legislation that comes to this floor that passes is bipartisan, passes with at least a bipartisan vote. It is my friends on the other side who so often find themselves in lonely partisan isolation, less frequent on this side of the aisle.

Again, I could go issue after issue, whether it is tort reform, the PATRIOT Act, bankruptcy reform, the transportation bill, defense bills, there are overwhelming bipartisan votes.

Frankly, I think our friends at this point are more interested in problems than solutions. They simply do not want to run on them. They want to create the impression that the Congress has been neither productive and is overly partisan. That is something we are going to have to agree to disagree on.

I also want to again remind my friend, on the Medicare bill, it is this side of the aisle that provided tens of millions of seniors with prescription drug coverage for the first time ever, and I think if my friend checked the polling reports or checked the rates of satisfaction he would find that it is very, very high. I personally think our friends are disappointed in themselves for not having participated, not having worked with us.

Many times our friends want to negotiate, but they also tell us what is nonnegotiable before we sit down to negotiate. They certainly did that during the Medicare situation. They certainly did that when the administration wanted to discuss Social Security earlier last year: these are the things we will not talk about; now, let us sit down and talk. That is not a negotiation in my opinion.

Finally, I want to remind my friends, when they move on education spending, I would be delighted to debate the record of this Congress and frankly this administration in the area of funding education. The largest increase in spending for education at all levels has occurred during the Bush administration, over 50 percent since 2001. It is this party that has delivered time and time and time again when it came to funding.

Finally, last point, my friend made the point that the minimum wage would pass quote "if." It did pass. This is the point. It came to this floor and passed. It went to the United States Senate. Over half, 57 of our Senators out of a body of 100 of the other body, were in favor of that legislation. It was a minority that blocked the passage of the minimum wage and a minority in the United States Senate. I regret that. We still have time before the Congress is finished to deal with that, and I hope that we do after the election.

I think there are some that would rather have election issues than have a solution. I think when you offer a compromise solution, we had many Members in this body who did not want to raise the minimum wage. We had many Members in this body that did want to raise it. We had also Members that wanted to reform the death tax, those that did not. Most of us on both sides of the aisle were in favor of the extenders. That was actually a very finely crafted compromise that had something for everybody. Our good friends wanted everything for themselves, but nothing for anybody else in terms of the compromise.

I think we have put on this floor a fair bill, a bill we can be proud of. I am very proud to be able to go home and say I voted for a minimum wage increase; when it came to the floor of the House, I voted to reform the death tax; and I voted to extend some important economic tax incentives and a reduction. I wish more of the Congress could, but the majority of us actually can go home and say that.

The majority in the United States Senate can say it. It is the obstructionist minority in the other body that chose not to participate in the compromise with us, but again, there is still time left in the Congress. We will be back here in all likelihood in November and December. I hope that opportunity on the other side of the election will lead us to be able to pass significant compromise legislation. Frankly, I trust that it will.

Mr. Speaker, I reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I yield myself such time as I may consume.

I would just again remind those who may be listening that the Republicans control the White House, they control the House of Representatives, and they control the United States Senate. So if they really wanted to increase the minimum wage, they would be able to do it, but they do not; and if anybody believes that it is in their heart to try to increase the minimum wage somehow after the elections are all over with; I think you are in for a rude awakening.

For 9 years, Republicans in Congress proudly refused to raise the minimum wage for hardworking Americans, even as their own pay increased by $31,600. This year the Republicans are playing politics with a pay raise for millions of Americans, killing a minimum wage by attaching it to tax cuts for the wealthiest people in this country. This is how they chose to kill it this year, and they have been killing it every year for 9 years. I mean, that is their legacy and we need to change that, and hopefully come November that will change.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Florida (Ms. CORRINE BROWN), a champion for increasing the minimum wage.

Ms. CORRINE BROWN of Florida. Mr. Speaker, I want to thank you for your leadership on this matter.

The people on the other side of the aisle, Republicans, always want to talk about the Bible, and you know, the Bible said the poor will always be with us. But our jobs as Members of Congress is to help raise the standard.

A few months ago, I voted against raising the minimum wage. Well, why would I vote against raising the minimum wage? Because I do not think there is anybody in this body supports raising the minimum wage more than I do.

Well, it was a poison pill. It was a kiss of death because what the Republicans did, they tied raising the minimum wage to passing an estate tax. I mean, that would have taken trillions of dollars out of the budget just to help what I call their rich friends.

The Republicans have practiced over and over again what I call reverse Robin Hood, robbing from the poor and working people to give tax breaks to their friends.

So now they put the minimum wage on the floor, but tied it to an estate tax that would have taken thousands and thousands of dollars out of the budget. Yes, we have not dealt with the agenda of the American people.

In closing, the Bible says the poor will always be with us, but our job is to help raise the standard. Give us a clean bill on this floor on minimum wage, and let us vote to help the American people.

Mr. COLE of Oklahoma. Mr. Speaker, I reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I yield myself such time as I may consume.

I want to associate myself with the comments of the gentlewoman from Florida who just spoke. Again, the leadership in this Congress, the majority in this Congress, gave themselves a pay raise, but they cannot bring themselves to giving hardworking American families a pay raise, those who earn the minimum wage. There is something wrong with that equation.

The bottom line is we work for the people of this country, and the Federal minimum wage has been stuck at $5.15 for 9 years. It is disgraceful; and for 9 years this leadership, this majority has proudly stood to fight against increasing the minimum wage. They should be ashamed of themselves. We give ourselves a pay raise, but we cannot give hardworking American families a pay raise.

Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Arkansas (Mr. BERRY).

Mr. BERRY. Mr. Speaker, I thank the gentleman from Massachusetts, and I certainly appreciate his leadership in this matter.

Mr. Speaker, as I hear this discussion today, it is a heartbreaking thing to see this body completely engaged in partisan politics because it does not matter to the American people when they cannot afford their medicine, when they cannot afford health insurance anymore.

Health insurance, the cost has doubled under the Bush administration. They come and pretend and posture and try to give the impression that they care about what happens to the American people.

When America fails, we all share in that failure. We all suffer. We all get part of the pain. When we cannot afford to fill our automobiles up with gasoline, we all suffer. When Social Security is threatened, we all suffer. When the minimum wage is not raised to a reasonable level, we all pay the price.

It is very distressing to know that under the Bush administration and the majority Republican Party leadership in this Congress that we have failed on every count. Not only can we not afford our gasoline or our health care or to educate our children because they have raised the cost of student loans, we know what a mess we have in Iraq. We know what a failure our borders have been under the direction of the Bush administration and the Republican majority in this Congress.

It makes me very distressed to know that we are going to leave here this week very likely without doing anything substantive on any of these issues.

The good news is this: we can go in a new direction. We know how to provide health care to the American people. We know how to provide gasoline they can afford. Is it not a sad state of affairs when we think $2.15 gas is a good deal? We know how to provide prescription medicine to our people at a fair and reasonable price that they can afford and they will not need any government help to purchase it.

One of the great Arkansas companies just came out with a new plan this week that demonstrates the power of massive buying. That is Wal-Mart, and they have a new prescription drug plan that they are going to present to America.

All of these are good things.

We know how to get the job done, and the Democrats cannot wait to get started to see that our people do not have to go to bed wondering if they are going to be able to afford their medicine or their gasoline or their light bill, thinking that they are going to work tomorrow and still be working for $5.15 an hour, wondering if Social Security is going to be there for them. That should be something that there is no question about.

As I said, the Democrats cannot wait to get started in the right direction. We know how to do these things. We are excited about being part of it, and to continue to play these political games on the floor of this great institution is a sad commentary on the corruption of absolute power.

Mr. COLE of Oklahoma. Mr. Speaker, I yield myself such time as I may consume.

I want to just note for the record I am delighted to finally hear something good about Wal-Mart coming from the other side because generally that is not what we hear, but I agree with my good friend. It is a great company and not just a great Arkansas company, but a great American company.

I also want to say, Mr. Speaker, that I am very proud when I had the opportunity to vote to give tens of millions of seniors drug coverage for the first time in the history, I did.

I am very happy and very proud that when I had the opportunity on this floor to vote for an increase in the minimum wage, I did.

I am very happy when I had the opportunity to vote for, first, the elimination and then the reform of the death tax so small business people and farmers can keep their properties, I did.

I am very glad when the PATRIOT Act came up for reauthorization I had the opportunity to vote to make our country safer and stronger, and I did.

I am very glad I had the opportunity to vote for liability reform for medical cases, and when the opportunity came to vote on the floor, I was pleased to do so.

Finally, when I have had on a number of occasions the opportunity to vote for measures that would increase the energy independence of this country and hold down the escalation of gasoline prices, I have done that. I am very pleased that I had an opportunity to do so.

I think what we are hearing today is unfortunately regret that so many of our friends on the other side of the aisle did not vote for those things when they had the opportunity; and rather than simply express their disagreement, they are simply trying to denigrate the work of the Congress, which has been productive and good for the American people.

So I am pleased with the record of Congress and look forward to going home to talk about it and look forward, again, to the balance of the Congress after the election.

Mr. Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, could I inquire from the gentleman from Oklahoma how many more speakers he has on his side.

Mr. COLE of Oklahoma. I am prepared to close when the gentleman is.

Mr. MCGOVERN. I thank my friend. Mr. Speaker, how much time do we have remaining?

The SPEAKER pro tempore. The gentleman from Massachusetts has 10½ minutes remaining. The gentleman from Oklahoma has 18 minutes remaining.

Mr. MCGOVERN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I once again want to express my deep disappointment in the lack of accomplishment of this Congress. I mean, this really is a do-nothing Congress, and there are issues that one would have thought we could have come together in a bipartisan way on, for example, allowing the Federal Government to negotiate cheaper drug prices for our senior citizens that the majority in this House chose not to want to reach out and work with us.

☐ 1345

There are issues of energy independence that we could have worked together on that they did not want to work with us on. In fact, as I said in the very beginning, every time we have an idea, every time we want to express a different opinion or want to present a different alternative, we go to the Rules Committee and we are told, no, you are not welcome; no, you are not allowed; no, we are going to shut you out.

That has been the hallmark of this Congress. This is probably the most closed Congress in the history of the country. I don't remember a time when we have had more closed rules, more restrictive rules than we have in this Congress. I am going to tell you, that is something maybe my friend from Oklahoma wants to take some pride in, but I find that shameful. My expectation is that if the Democrats have the privilege of taking over this Congress, Leader PELOSI has already indicated we will have a whole different tone here, and all ideas, not just Democrat ideas but Republican ideas, will be welcome as well.

That is what the American people expect. Every one of us represents the same amount of people in our congressional districts, yet you would never know that when you go to the Rules Committee and people routinely get shut out.

We debated a bill on torture, we debated a bill on wiretaps dealing with people's civil liberties, dealing with the values of this country, and people had some strong opinions, not just Democrats but Republicans, and they were told no, no, no, no, no, you have no right to come to the floor and offer your opinion.

That is not a democracy. That is not the way this place is supposed to run. This is supposed to be a deliberative body, and we are routinely shut out. I think people are sick of that. People don't want politics as usual. People want a change. They want a new direction. And a new direction is not just in terms of policies but also in terms of tone.

My friends on the other side of the aisle run everything. They run the White House, they run the House of Representatives, and they run the Senate. Yet they cannot get things done. They can't even work with their own Members in the other body. So I think it is time for a change to get people put in places of power who are going to actually be not only advocates for working families in this country but who will deliver and who are going to reach out a hand and try to work in a bipartisan way. That doesn't exist here. There is no bipartisanship here at all. There is none.

So this talk about we want to work together in the future on this issue or that issue, it has not happened in the past, so why should it happen in the future?

Mr. Speaker, before I talk about the previous question, I want to urge Members of this House to vote against this martial law rule. This rule allows the Republican leadership to bring up virtually any piece of legislation with only a few minutes notice to this House. That is just plain wrong. We have no idea what may be coming our way. I mean, they could bring anything up with a few minutes notice. I do not think that is the right way to do business here. I do not think that is the way we should conduct ourselves in the House.

Mr. Speaker, before I get into my previous question speech, my good friend from Virginia (Mr. MORAN) just came to the floor, and I want to yield him 3½ minutes.

Mr. MORAN of Virginia. I thank my very good friend from Massachusetts, who has done such a fine job in succeeding Mr. Moakley on the Rules Committee.

Mr. Speaker, we are about to adjourn, and yet we are going to leave the American people without the resources and the legislation they need to provide the kind of security that the bipartisan 9/11 Commission said was necessary. Five F's and 14 D's on the Commission's scorecard, yet we can't act on the 9/11 Commission's recommendations.

Mr. Speaker, we have the greatest gap in compensation between the rich and the poor that we have ever had since the days of the Great Depression in this country, and yet we can't even see our way through to raising the minimum wage from $5.15 to $7.25 an hour. Shame on this Congress.

Mr. Speaker, there are hundreds of thousands of senior citizens who are being dumped into the doughnut hole as we speak, who are going to have to pay 100 percent of the cost of their prescription drugs. And do you know that there are hundreds of thousands of additional senior citizens, Mr. Speaker, who are going to be stuck with a penalty of paying an extra 7 percent premium for the rest of their lives because we couldn't fix the Medicare prescription drug program to eliminate the monthly penalty and the prohibition on the government's ability to negotiate lower prices? It was written for and passed for the benefit of the drug companies, not the senior citizens of America.

Mr. Speaker, the average college student is graduating from college with a $20,000 debt. They can't afford to go into public service because they have to go into a job that is going to give them the maximum compensation so that they can spend the first few years after graduation in order to pay back their debt.

We have thousands of students who have worked so hard to become eligible for a college education, to become all that their parents want them to be, all that we need them to be, but they can't afford college. Yet we have seen massive cuts in college tuition assistance imposed by this Congress, a Congress that has refused to provide the kind of size and availability of Pell Grants that would have enabled these young people to get to college and to afford college.

Mr. Speaker, not to provide the resources for our students when we will spend over $400 billion on a misguided mission in Iraq is unbelievable, and yet we are ready to recess.

Mr. Speaker, I will conclude with this. I mentioned four reasons why this Congress shouldn't even think of recessing, but there is another one. There is billions of dollars that the large oil companies are getting in tax breaks. They have had more revenue than at any time, more than they could have ever imagined. In fact, in the last quarter, they showed $47 billion of profit, all coming out of the pockets of hard-working Americans, and yet we continue to give them tax breaks. Unbelievable.

Mr. Speaker, this Congress has no business recessing, and this martial law rule certainly should be defeated.

Mr. McGOVERN. Mr. Speaker, once again, I will be asking Members to vote "no" on the previous question so that I can amend this rule and allow for the immediate consideration of the five bills that we on this side of the aisle believe will really make a difference to our Nation's working families.

Mr. Speaker, I ask unanimous consent to insert the text of my amendment and extraneous materials immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. McGOVERN. Mr. Speaker, these bills are the same ones I talked about yesterday; the same ones I have talked about today. Every Member of this House of Representatives should support the goal of these important legislative initiatives. My amendment would allow each of them to be considered immediately.

The first bill will implement the long-overdue recommendations of the highly respected bipartisan 9/11 Commission. My friends on the other side like to talk about their great record on national security, yet the 9/11 Commission has given them D's and F's for the implementation of their recommendations to better protect our homeland. This would allow that bill to come up immediately.

The second bill would allow us to bring the minimum wage up to $7.25 per hour. It has been stuck at $5.15 an hour for 9 years. You have given yourselves pay raise after pay raise after pay raise. How about giving the American worker a pay raise?

The third bill would let the Secretary of Health and Human Services negotiate for lower prescription drug prices for senior citizens and people with disabilities. Why not? What is wrong with free enterprise? What is wrong with doing what the Veterans Administration has done so effectively? Let us get those prices down lower and keep them low.

The fourth bill would repeal the massive cuts in college tuition assistance opposed by the Congress, and it will expand the size and availability of Pell Grants. People can't afford to go to college any more, and you have made it more difficult. We say we want a 21st century workforce, that we need to make sure our young people get the education they need, and that means they have to be able to afford to go to college.

And, lastly, the fifth bill will roll back the tax breaks for big oil and invest those savings in alternative fuels to achieve energy independence. We are tired of tax break after tax break after tax break and subsidy after subsidy after subsidy for big oil. It is time to be on the side of working families.

Mr. Speaker, each of these bills has enormous potential to help the quality of life for tens of millions of deserving hard-working Americans and their families. We have one more day before we adjourn for more than a month. Let's use this opportunity not for suspension bills but for something that will really make a difference in people's lives, to provide people these opportunities by passing this important legislation that will truly help so many.

So vote "no" on the previous question so we can bring up these measures.

Mr. Speaker, I yield back the balance of my time.

Mr. COLE of Oklahoma. Mr. Speaker, I know we are not at Halloween yet, but we must be getting close, because we have to scare the American people on issue after issue after issue.

Frankly, most of the measures that my good friend talked about, if they were brought up, would have to be brought up under the very same closed rules he so often voices his concern about.

We are told this Congress somehow operates differently than the others. I simply want to provide for the information of our body some information provided to me by the Congressional Research Service. Same day rules during the last week of session during the final three Democratic Congresses, the Hundred First, the Hundred Second and the Hundred Third, totaled six. Same day rules under the last three Republican Congresses, the Hundred Seventh, the Hundred Eighth and the Hundred Ninth, totaled five. Basically, the body operates about the same way procedurally that it has operated throughout most of its history and certainly throughout its recent history.

I also want to remind my friends who talk about the minimum wage that they had the opportunity to vote for a minimum wage increase. I voted for it. I certainly am happy that I did. I wish more of my friends had. A majority of this body did. Indeed, a bipartisan majority. A bipartisan majority of the United States Senate favored it.

It was my friends' friends on the other side of the rotunda that decided not to enter in and allow that increase to take place because they wanted a perfect bill from their perspective. They didn't want to compromise. They didn't want to give and take. They didn't want to have some discussion. Frankly, what they wanted is what they got, or what they believe they got, which is a political issue for the November elections.

I am hopeful that after the elections are over we can come back here and actually have a discussion and come to a compromise solution, such as was crafted on the floor in this body.

Our friends talk to us a lot about education. I think they should. They probably ought to thank President Bush for being the best friend education ever had. It is President Bush who came up with No Child Left Behind, and it was President Bush who has recommended throughout his tenure over a 50 percent increase in Federal funding of education.

My friends are concerned about the cost of tuition. So am I. I just had a son who graduated. I am very grateful. But, quite frankly, most of that problem is at the State level, where we have State government after State government running enormous surpluses, yet not passing some of that surplus on to higher education institutions and to their own students.

The reality is that after coming in with a recession beginning in 2001, followed by September 11, something that all of us on both sides of the aisle recognize as a dastardly and disastrous event, this administration and this Republican Congress has gotten the economy moving again and has accomplishment after accomplishment to run on. I am not surprised that our friends on the other side see it differently or want to obscure it, but I have profound faith in the good judgment of the American people to understand fiction and understand fact and know the difference between the two.

Mr. Speaker, today, in closing, I want to reiterate the importance of passing this rule. This rule allows us to move forward, pass the necessary legislation, and to do the business of the American people. It is interesting how we have heard complaints by the other side of the aisle that this is a do-nothing Congress, yet at the same time the other side wants to slow down the process today to prevent important bipartisan legislation from being passed. It wants, in effect, to do less, not more.

Mr. Speaker, I am sure it is no surprise that I intend to vote for the rule and the underlying legislation, and I would urge my colleagues to do the same.

The material previously referred to by Mr. MCGOVERN is as follows:

Previous Question for H. Res. 1053, Blanket Martial Law Rule Waiving Clause 6(a), Rule XIII

At the end of the resolution add the following new Sections:

Sec. 3. Notwithstanding any other provisions in this resolution and without intervention of any point of order it shall be in order immediately upon adoption of this resolution for the House to consider the bills listed in Sec. 4:

Sec. 4. The bills referred to in Sec. 3. are as follows:

(1) a bill to implement the recommendations of the 9/11 Commission.

(2) a bill to increase the minimum wage to $7.25 per hour.

(3) a bill to provide authority to the Secretary of Health and Human Services to negotiate for lower prescription drug prices for senior citizens and people with disabilities.

(4) a bill to repeal the massive cuts in college tuition assistance imposed by the Congress and to expand the size and availability of Pell Grants.

(5) a bill to roll back tax breaks for large petroleum companies and to invest those savings in alternative fuels to achieve energy independence.

The Vote on the Previous Question: What It Really Means

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308–311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Republican majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution * * * [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule * * * When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda to offer an alternative plan.

Mr. COLE of Oklahoma. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. MCGOVERN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question will be followed by 5-minute votes on adoption of House Resolution 1053, if ordered; and passage of S. 3930.

The vote was taken by electronic device, and there were—yeas 215, nays 197, not voting 20, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised 2 minutes remain in this vote.

☐ 1432

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

MILITARY COMMISSIONS ACT OF 2006

The SPEAKER pro tempore (Mr. GUTKNECHT). The pending business is the vote on passage of the Senate bill, S. 3930, on which the yeas and nays are ordered.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the passage of the Senate bill.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 250, nays 170, not voting 12, as follows:

☐ 1447

So the Senate bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. MELANCON. Mr. Speaker, during rollcall vote No. 508 on S. 3930, I mistakenly recorded my vote as "nay" when I should have voted "yea".

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 5122, JOHN WARNER NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2007

Mr. COLE of Oklahoma, from the Committee on Rules, submitted a privileged report (Rept. No. 109–703) on the resolution (H. Res. 1062) waiving points of order against the conference report to accompany the bill (H.R. 5122) to authorize appropriations for fiscal year 2007 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, which was referred to the House Calendar and ordered to be printed.

GENERAL LEAVE

Mr. ROGERS of Kentucky. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include tabular and extraneous material on the conference report to accompany H.R. 5441.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

CONFERENCE REPORT ON H.R. 5441, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2007

Mr. ROGERS of Kentucky. Mr. Speaker, pursuant to House Resolution 1054, I call up the conference report to accompany the bill (H.R. 5441) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2007, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 1054, the conference report is considered read.

(For conference report and statement see proceedings of the House of September 28, 2006 at page 20527.)

The SPEAKER pro tempore. The gentleman from Kentucky (Mr. ROGERS) and the gentleman from Minnesota (Mr. SABO) each will control 30 minutes.

The Chair recognizes the gentleman from Kentucky.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield myself 10 minutes.

Mr. Speaker, I am pleased to be here today for the consideration of the fiscal 2007 conference agreement for the Department of Homeland Security.

Mr. Speaker, I bring good news for all Americans who want to see our borders are secure from those who are crashing those borders. We are ending the age-old catch-and-release program that has allowed millions of illegal aliens to flood our country. You will hear more about that during this debate today, I hope.

The recent anniversaries of the 9/11 attacks and the 2005 hurricane disasters keep us focused on why we are here today: to protect our citizens and our homeland from any threat to our society and our economy, be it terrorism or natural catastrophe. The funding in this conference agreement ensures the Department of Homeland Security can address the perils that face our communities and reduce our vulnerability to them.

The fiscal 2007 conference agreement provides a total of $34.8 billion for the Department, including an additional $1.8 billion in emergency funds devoted to border security. The total provided is $2.3 billion above the current year and $2.7 billion above what the President asked us for, when you exclude disaster relief funding for Katrina.

This includes more than $21.3 billion for border security and immigration enforcement; $4.34 billion for port, container, and cargo security; $3.4 billion for first responders across the country; $6.4 billion for transportation security; $1.4 billion for research, development, and deployment of innovative technologies; and $1.8 billion to protect national and critical infrastructure.

Five years ago our Nation suffered its most devastating terrorist attack. Since that tragic day, a vigorous national debate over our vulnerabilities, fueled by historic levels of illegal immigration, has resulted in one very clear conclusion: we must do all we can to gain control over our borders and our coastlines to preserve the sovereignty and integrity of our immigration and preserve the strength of our economy.

This conference agreement will provide the resources and direction to build upon the Department's progress and transform our approach to border security from a fragmented, uncoordinated effort into a truly integrated system capable of producing results.

This includes a staggering $1.2 billion to secure the borders with a system of fencing, a system of infrastructure, a system of technology, 1,500 new Border Patrol agents, 6,700 new additional detention bed space for those caught, 650 additional CBP officers, and over $1.7 billion for the procurement of aircraft and vessels to patrol those borders. This massive infusion of moneys will accelerate the Department's goal of obtaining operational control of these borders in less than 5 years, a goal that has become an unquestioned necessity since 9/11.

I want to emphasize that with all these resources we are pouring into this effort will come accountability. We are requiring bi-monthly status reports on the Department's performance and their expenditure of funds on border security. We want to know what is happening every 2 weeks. We are withholding $950 million until the Department provides a detailed border security expenditure plan. They won't get the money until we see the plan. I believe in planning your work and working your plan.

And we are requiring, in bill language, strategic plans for the Secure Border Initiative and port and cargo security. We are absolutely committed to holding the Department accountable and providing the American people with the results that they are demanding of us.

In addition to border security and immigration enforcement, the conference report balances resources across other critical areas of homeland security including:

One, almost $900 million to prevent weapons of mass destruction from entering the country. These funds will enable DHS to speed the deployment of radiation detectors and significantly enhance screening for vehicles and cargo.

Two, $2.5 billion to fund and reform FEMA. The funding and direction contained in the conference agreement will ensure that we do not repeat the errors of 2005, by putting in place the planning, assessment, training, logistics, and communications to enable DHS to prepare for and respond to acts of terrorism and natural disasters.

Three, $6.4 billion for transportation security. The recent disruption of the terrorist plot in London reminds us that transportation security remains a top priority. This report includes critical resources for new cutting-edge technologies to strengthen protection from all modes of travel as well as to increase the capabilities of the Federal air marshals. While we are much safer than 5 years ago, we must sustain that effort to anticipate and defeat threats to our transportation system.

In addition to these significant levels of funding, the conference agreement includes several legislative provisions that will fortify our homeland security, including legislation to criminalize for the first time the construction or financing of a tunnel across or under the U.S. border; two, legislation that significantly strengthens and improves FEMA, a whole new authorizing law; and, thirdly, breakthrough legislation requiring the Department of Homeland Security to regulate security at chemical facilities across the land.

Our homeland security needs are both numerous and they are complex, but I believe this conference report will make a major contribution towards those needs. So I urge my colleagues to support the agreement.

Before I sit down this time, Mr. Speaker, I want to pay special tribute to our staff on both sides of the aisle who have worked long, hard, and laboriously over these last several months. I want to especially thank Michelle Mrdeza, who could not be with us in these final days because of an illness in her family which required her to be absent. But she is retiring from this body. She has been a great servant of the public on this committee for a number of years. Her service has been invaluable and expert, and we will miss her terribly. I want to thank Stephanie Gupta too and the staff of the subcommittee and staff on both sides of the aisle for the great work that they have done.

And, finally, I want to say a word about MARTY SABO, ranking member of this subcommittee, who will be finishing 27 years of service in this body and to the Nation when he leaves office in January seeking greener pastures. This man is a personal friend of mine and all of ours, but he is also an expert on budgetary matters and has become an expert on the homeland security efforts of the country. A huge void will exist on the horizon of this body when MARTY SABO leaves this body.

☐ 1500

I cannot say enough in tribute to this man. He has been a helpmate to me and the subcommittee and the country on this bill for a number of years now, as well as before that we served in the same capacities on the Transportation Subcommittee; and of course, as you know, he was chairman of the Budget Committee for a number of years sometime past.

A great public servant whose work is now soon to be finished in this body, but I am confident that his record will stand for the ages. Very few Members of Congress can retire from this body with a greater sense of accomplishment of greatness than our friend, MARTY SABO. The gentleman will be missed in this body.

TRIBUTE TO BRETT DREYER

Mr. Speaker, the Homeland Security Appropriations Subcommittee will soon take leave from our Congressional Fellow, Brett Dreyer, who, after having served the Committee with great distinction over the past 2 years, will assume new responsibilities as a senior Special Agent for U.S. Immigration and Customs Enforcement (ICE).

Special Agent Dreyer's professional career mirrors some of the transitions of the young Department of Homeland Security. He began his Federal service in Newark, New Jersey as an immigration enforcement agent with the Immigration and Naturalization Service; moved up to become a Criminal Investigator at INS; and then transferred to the U.S. Customs Service. On 9/11, Agent Dreyer helped secure airports as the security situation was resolved, and was at Ground Zero in New York, searching the rubble for remains of victims of that terrible attack. After DHS was established he found himself an ICE Special Agent, where he witnessed the trials and tribulations of the agency merger that was repeated throughout the Department.

Brett came to the Subcommittee in January 2005, and at once proved himself a key member of the professional staff. His critical judgment, familiarity with agency matters, and expertise on Customs and Immigration law and regulation made him integral to the operations of the Committee during the extraordinary developments over the past 2 years, in particular the response to the 2005 hurricanes and the intensified effort to secure our borders and strengthen administration of immigration law. His strong understanding of organizational dynamics, of operational issues and real-world, real-time considerations for building a successful new department contributed significantly to the success of this subcommittee. Brett brought to the appropriations process the clear, thoughtful analysis and mature judgment developed in his successful career in criminal investigation. Throughout his service here, Brett's unqualified professionalism, perceptiveness, great sense of humor and cool head have helped this Subcommittee and the Congress move forward on a wide range of policy and budgetary issues. His assistance in planning and coordinating complicated subcommittee oversight trips were of particular benefit, and in coordinating the many classified briefings our oversight requires.

Special Agent Dreyer has served me, this Subcommittee, and the House well: We are sorry to see him leave, and will miss him as a colleague and as a friend. Each of us on the Homeland Security Subcommittee wish Brett all the best as he resumes his ICE career, where we look forward to seeing him accomplish great things.

Mr. Speaker, I reserve the balance of my time.

Mr. SABO. Mr. Speaker, I yield 3½ minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I would simply like to follow up on the remarks of the gentleman from Kentucky about the gentleman from Minnesota.

I remember when MARTIN SABO first walked into this institution in 1978. He and his wife, Sylvia, epitomize more than any people I know what are regarded as midwestern values, most especially the value of modesty. You will never find MARTIN SABO bragging much on himself. In that sense, he is a true Norwegian. I also think that he exemplifies the thoughtfulness and the caring for one's neighbor that people in the Midwest have come to take as being the natural course of things.

He is probably the closest friend I have in this body. I very much regret to see him leave. I question his judgment profoundly on that.

As the gentleman from Kentucky has said, while today the gentleman from Minnesota deals with homeland security issues and is certainly an expert on those, in the past he has dealt with transportation issues most ably. As a matter of fact, there is no one in this body who has made a greater contribution to the cause of responsible budgeting and deficit reduction over the years than has the gentleman from Minnesota. He chaired the Budget Committee when we took the action under President Clinton that finally began to get the budget deficit under control.

I just want to profoundly express my appreciation to him, not just for his accomplishments but for the way he has achieved those accomplishments, for the way he has dealt with the needs of this body as an institution, for the respect that he has shown for the values and the traditions of this institution and the respect that he has shown for persons on both sides of the aisle.

He is truly a gentleman. He is a great legislator. I hate to see him go. I hope he is back to visit us often. I thank the gentleman profoundly for the quality of his service.

Mr. PRICE of North Carolina. Mr. Speaker, will the gentleman yield?

Mr. OBEY. I yield to the gentleman from North Carolina.

Mr. PRICE of North Carolina. Mr. Speaker, I want to join the chairman and our ranking member in paying tribute to MARTIN SABO, whom I also consider a dear friend and one of this institution's finest Members.

MARTIN has served here for 28 years. He was the chairman of the Budget Committee when Congress passed the largest deficit reduction package in its history. He served as our ranking member on Transportation Appropriations and on Homeland Security Appropriations ever since that subcommittee was formed.

MARTIN is an exemplary Member of this body in every way. He is a skilled legislator who is more interested in achieving results than in claiming credit. He is a gifted politician with a knack for finding common ground. He is a man who understands and loves this institution. He is a congenial colleague and he is a good friend, displaying qualities of character that in the end matter above all.

So we will miss MARTIN SABO. We salute him for his service to Minnesota and to this country, service that is indeed exemplary and has inspired and encouraged us all.

Mr. SABO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, well, I am not sure I should say anything. But thank you to my chairman, Mr. ROGERS, for his kind comments. We have been together, I think, 6 years now, 4 years on homeland security, 2 years on transportation.

As I said last night in front of the Rules Committee, the ultimate compliment I can give to somebody is to call them a pro; and HAL ROGERS is a pro. It has been a pleasure to serve with him. He is on the majority party. He has a responsibility to the President of his own party.

At the time, he is someone who has asked many a tough question and asked for discipline and, as he said in his opening comments, that he expects to continue to do oversight of the operations of this agency which has had many, many growing pains. It has not been an easy committee to chair as we merged all of these 22 agencies into one, with an incredible amount of chaos; and he has shown, I think, an intellect and toughness and fairness in trying to steer this agency in the right direction. It has been a privilege to work with Chairman ROGERS.

My friend, DAVE OBEY, who I have known, and known him for many years before I came to the Congress, neighbor across the border in Wisconsin, I have served with him on Appropriations for 28 years, both a personal friend and somebody who has an absolute passion for public policy and for making this institution work.

It has been a real honor, DAVE, to get to know you and Joan and to work with you. You are just a great human being.

And to DAVE PRICE who served with me on the Budget Committee, I am often asked, why do you leave? And, you know, particularly if the partisan nature changes and the opportunity to chair a subcommittee. And I always say, I have no reluctance in doing that because I know the next person in line is DAVE PRICE, who is a person who has great skill as a legislator and great understanding of public policy. And I think he will do a great job, as he has done in many other roles, whatever the role might be, as either a Chair or ranking member of the subcommittee in 2 years. So it is an honor to have your kind words today.

And to the staff, to all of the majority staff, Michelle, who is not here because of a family crisis and who is leaving the House and has done an incredible job, but all of the majority staff have been great to work with.

I suppose a special word to Stephanie. She followed us from Transportation to Homeland Security. So I have had an opportunity to work with her in both roles.

To our own personal staff on this committee, to Chris, who has worked with us, and Bev Pheto, who sits right here next to me, who has worked with us, me personally on this committee, over the last 6 years, 2 years in Transportation, 4 years in Homeland Security, who I am constantly amazed at her knowledge and her energy. She has to compete with all of you on the majority side and has remarkable knowledge and ability. It utterly amazes me. And she is a remarkable person.

Marjorie Duske from my staff, who originally was an intern in our office and has now been in our office for many years working with me on Homeland Security, has worked transportation, defense, housing, you name it, from simple issues to the most complicated of issues, just been an incredible person, dedicated to public policy and doing what is right, but, at the same time, tough, hard-nosed to work with agencies to make sure that the Government does what it is supposed to do.

Just incredible people who make this institution work. I simply say thank you.

A couple of words about the bill, if I might. It is a good bill, and it does lots of good things. It has got additional funding.

Some of the other issues we worked on, we have had a concern over how sensitive security information is handled by the Department. There are provisions here for handling that information, which I think is good. I think the changes made to FEMA strengthens the role of FEMA.

I was one, along with Mr. OBEY, who a year ago thought we were making a mistake as we created a new Department or agency on preparedness and how it was structured. This basically goes back to strengthening the role of FEMA within the Department. I think it is a significant improvement.

Frankly, if I had my choice, I still would make FEMA a separate agency outside of this Department. I would prefer that. That is not going to happen. I think the changes in this bill represent substantial improvement.

I have to say that I am concerned over how we add the money in this bill for the Department. We do it on an energy basis. I think $1.8 billion is desperately needed and will be well spent. But, at some point, we have to come back to passing budget resolutions in this body that are real.

The need for additional expenditure for homeland security are not emergencies. They are going to be there on an ongoing basis in the years ahead; and, in 2005, we added $450 million as an emergency; 2006, $1.2; and $1.8 in 2007.

At some point, this institution has got to get back to having budget resolutions that are real, where real choices are made, not pretending that we are not going to spend any money initially and then getting around to it by having emergency designations. That simply undermines the process.

I am probably in the minority on this issue. I still remain very concerned to the degree we have given the Department discretion in distributing some of our formula funds. I do not think that they have the capacity to do it. So I hope this institution keeps an eye on how the agency does distribute formula grants or simply grants in the future. Clearly, their ability to do it on a discretionary basis, I think, needs to be examined; and I think they need much better information to do that than they have had in the past.

But it is a good bill. It has been a pleasure working with Mr. ROGERS and all of the other members of our subcommittee. We have a good subcommittee. I think this committee has made a great contribution.

Mr. Chairman, I do have to ask one question. I understand we have a variety of other bills relating to homeland security that are authorizing bills, that seem to be hanging up the adjournment or our recess. Am I wrong that everything that is in this bill is currently authorized? All of our money can be spent that is in this bill? It is not subject to any authorization?

Mr. ROGERS of Kentucky. Mr. Speaker, will the gentleman yield?

Mr. SABO. I yield to the gentleman from Kentucky.

Mr. ROGERS of Kentucky. That is correct, except for the new authorizing languages that are in the bill. You are correct, except for the newly authorized items that are in this bill.

Mr. SABO. Mr. Speaker, reclaiming my time.

All of the money that is needed for borders, for ports, all of the money we have appropriated can be spent?

Mr. ROGERS of Kentucky. That is correct.

Mr. SABO. I thank the gentleman. And I thank the gentleman for his good work.

Mr. Speaker, I reserve the balance of my time.

Mr. ROGERS of Kentucky. I thank the gentleman for his very, very kind remarks; and I yield such time as he may consume to the gentleman from California (Mr. LEWIS), the chairman of the Appropriations Committee, who has been extremely helpful on this bill, as all of the others.

Mr. LEWIS of California. Mr. Speaker, I rise in support of the fiscal year 2007 Homeland Security Appropriations Conference Report. This is the second of 11 individual conference reports I hope to bring to the House floor for consideration this year.

The conference report funds the Department of Homeland Security at $34.8 billion for fiscal year 2007, an increase of $2.3 billion over the fiscal year before.

□ 1515

The conference agreement aggressively addresses our most critical homeland security needs including border and immigration security; port, cargo and container security; transportation security; natural disaster preparedness and response; and support to State and local first responders.

I would really like to praise Chairman ROGERS and Ranking Member SABO for their very fine bipartisan work; but to my colleague MARTIN SABO, let me say not just a colleague and congressional classmate, MARTIN SABO is one of the finest people I have known since I have been in Congress. I would say to MARTIN, a job well done, my friend, not just for, of course, this piece of work, but most important, for a lifetime of work on behalf of your country.

Chairman ROGERS has spoken to the specifics of the conference report so I will again direct my attention to the need to complete our appropriations work this year.

As the body knows, the Appropriations Committee has made tremendous strides over the last 2 years in reforming the process of adopting our annual spending bills. The Appropriations Committee has been strongly committed to bringing to this floor individual conference reports for each and every bill. We were successful in doing so last year. I hope to replicate that success again this year.

To underscore this point, Chairman COCHRAN and I sent a letter to both Speaker HASTERT and Majority Leader FRIST this week reiterating our support for completing each of our bills in regular order and not resorting to an end-of-session omnibus spending bill. I would like to submit for the RECORD that letter at this point.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON APPROPRIATIONS,
Washington, DC, September 25, 2006.

Hon. J. DENNIS HASTERT,
Speaker of the House,
Washington, DC.
Hon. WILLIAM H. FRIST,
Senate Majority Leader,
Washington, DC.

DEAR MR. SPEAKER AND MAJORITY LEADER FRIST: As we approach the end of the pre-election legislative session, the Appropriations Committees are preparing to present to our chambers the conference reports for funding the Department of Defense and the Department of Homeland Security. While progress is being made with these two major bills, we want to reiterate our commitment to moving each of the individual appropriations subcommittee conference reports at the earliest possible date this year. We know that you, too, share this goal.

Thanks to your leadership last year, we were able to complete each of the appropriations bills individually within the established budgetary constraints and avoid a massive, year-end "omnibus" spending bill. This represented a remarkable victory for taxpayers and demonstrated that Congress was capable of completing its constitutional responsibilities on time and on budget. Upon our selection as Chairmen, we committed to you and our colleagues that we would work to restore regular order to the appropriations process. We remain committed to passing conference reports individually again this year.

Maintaining regular order and passing individual conference reports within the parameters of the budget resolution is an important part of controlling spending. It is our belief that omnibus legislation that bypasses the regular order is not in the best interest of the Congress, or ultimately the taxpayer. Whether we work through the holidays or pass long-term continuing resolutions, we are committed to completing the FY 2007 appropriations process in an open and orderly manner, without resorting to an omnibus strategy.

Our Committees remain committed to completing our work at the earliest possible date. We thank you for your assistance in this endeavor and we look forward to working with you as we together accomplish our legislative goals this year.

Sincerely,

JERRY LEWIS,
Chairman, House Committee on Appropriations.
THAD COCHRAN,
Chairman, Senate Committee on Appropriations.

Mr. Speaker, early in the process I made it very clear to our leadership and to our Members that the Appropriations Committee would not entertain the prospect of an omnibus spending bill. This committee is doing everything in its power to ensure that this does not happen.

The Appropriations Committee passed each of the 11 spending bills through the full committee by June 20 of this year, and passed 10 of 11 bills off the House floor by June 30. We remain committed to pass the final appropriations bill at a moment's notice.

The Appropriations Committee made a commitment to move its spending bills individually, in regular order, and within the framework of the budget resolution. We have done that. The Appropriations Committee has kept its word.

Moving our spending bills individually is the only way to maintain fiscal discipline. The pursuit of an omnibus strategy is a budget-buster and an invitation to unrestrained spending. If history is any guide, an omnibus spending bill would become a vehicle for other forms of legislative mischief.

Again, Chairman COCHRAN and I would ask our colleagues to avoid that approach and move forward in passing individual conference reports. Together, we remain committed to completing our work at the earliest possible date.

I also urge the adoption of this conference report in a vote later today.

As I close these comments, let me say one more time, Mr. ROGERS and Mr. SABO have a reflection in this bill of the finest of bipartisan efforts, exactly the kind of effort that will cause the Congress to rise in the respect of the American people.

Mr. SABO. Mr. Speaker, I yield 10 minutes to my friend from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I simply want to say that I am pleased to be able to support this bill. I very much regret the fact that we will only have completed two out of the 11 appropriation bills by the end of the fiscal year. That, in my view, is not the fault of the Appropriations Committee on either side of the aisle. It is very much the fault of the fact that this institution chose to adopt a budget resolution which did not accurately reflect the political center of gravity in the Republican Party, much less the Democratic Party when you take a look at the positions of each House.

Having said that, I want to take this opportunity to comment on something the President said yesterday because the President told the country that those of us on this side of the aisle were, in effect, soft on security and soft on defending this country.

I regret very much that the President has chosen to govern this country by dividing it rather than uniting it. I took a great deal of pleasure in working with the President's father in working out many a legislative compromise. We did the same thing with President Clinton. We did the same thing with President Carter. We even on many occasions did the same thing with President Reagan and President Nixon. But this is the first President I have known who has seemed to purposely divide the country in order to govern, and I just want to trace what the facts are with respect to defending the homeland.

I remember, in August of 2001 when I was at home in Wisconsin, receiving a call from my staff director telling me he had just been briefed by the CIA and that they were extremely concerned about the traffic that they were intercepting around the world, and they thought something big was up, did not know if it was domestic or international, but the intelligence community was very worried that something was coming. That was in August, just before 9/11.

The day before 9/11, Attorney General Ashcroft met with his staff to set out their priorities for the year, and in that meeting, he was presented a spreadsheet with various boxes indicating which would be his preferred activities and activities of focus for the coming year. He declined to check any of the boxes that had anything to do with antiterrorism. He was, in fact, urged by his staff to reconsider and rejected that advice and told the staff, "No, I want to focus on drugs." The Attorney General denied that in a hearing of our committee, but in fact, my office had been leaked the documents by his own agency that showed exactly what he had done in that meeting.

Then, after we were hit by anthrax, I called BILL YOUNG, who was then the chairman of the full committee, and suggested that since we could not get into our offices, we talk to the security agencies to see what they felt they needed in order to respond to the threat represented by 9/11.

We talked to the FBI, the NSA, CIA, you name it, all of the security agencies. On a bipartisan basis, we put together a listing of action items, and then we cut it and we cut it and then requested to see the President.

We went down to see the President. He came into the room. Before we could say a word, he said, "Well, I understand some of you want to spend more money than I have requested for homeland security." He said, "My good friend Mitch Daniels here from OMB tells us that we have got enough money in our budget, and so I want you to know, if you appropriate a dollar more than I have asked for, I will veto the bill. I have got time for four or five comments and I am out of here."

Senator STEVENS said, "Mr. President, I do not think you understand, we have already agreed. We will knock off any item you do not want. We are not trying to have an argument. We just want something done."

Senator BYRD made the same point, and then I asked the President, I said, "Mr. President, I have been coming down here for 30 years, this is the first time any President has ever told me his mind was closed before the subject was even open." I said, "I want to ask you four questions about Federal installations, which we have been told by your own people, your own security people, are gravely at risk of terrorist attack, their words, not mine." I asked him about them. It was clear he had not been briefed on them. I did not expect him to. He is a busy man.

But we walked out of there after being told by the President that he would veto any additional efforts to provide funds for homeland security. Despite that fact, we went back up to Capitol Hill and eventually added more than $2 billion to the President's request, and he signed the bill.

The following year, the President held a press conference bragging about the fact that the Customs agency had this new port security arrangement, new inspection of cargo coming into this country, and he had a press conference bragging about it, and then pocket vetoed the money to make it happen. I felt that that was enough to give hypocrisy a bad name.

So that is very basically the early history of what the President's record is in terms of resisting bipartisan efforts to strengthen homeland security funding.

I remember going out to the CIA and watching in real-time as we could see what the Predators flying over in Afghanistan were seeing when they were looking for bin Laden, and I know what the CIA people thought about the President's decision to divert a significant portion of our resources from the job of nailing bin Laden to preparing for the war in Iraq. They were not very happy about it, and we were not either.

Since that time, on seven different occasions on this side of the aisle, we have tried to add funding to the President's budget for homeland security and to the committee budget.

I want to make clear I think the subcommittee has done the best it could, given the allocation that it was given under the Republican budget; but that does not mean that the allocation was adequate. The record is clear that the President on numerous occasions offered inadequate budgets which had to be augmented by this committee on a bipartisan basis.

So I think it comes with considerable ill grace and with considerable reinventing of history for the President to suggest that there is any difference of opinion between the two parties with respect to our dedication to protecting the homeland. He knows it is not so, but campaign rhetoric is getting in the way of the facts as far as he is concerned.

So I just want to make the point that I do not question the President's patriotism because he chose to put tax cuts as a higher priority than even additional funding for homeland security. That is a judgment he made, and that is a judgment he will have to defend. I do not question his patriotism. I question his judgment. I think that it comes with considerably ill grace from a man who has the track record of refusing efforts of this Congress to strengthen homeland security on various occasions, to have that man question anybody else's dedication to this country, question anybody else's dedication to defending this country.

The record does not bear out his claims, and I think if you check the record, you will find out that every statement I have made today is fully true and accurate.

With that, I thank the gentleman for the time.

The SPEAKER pro tempore. The Chair would advise the gentleman from Minnesota has 8 minutes remaining, and the gentleman from Kentucky has 16 minutes remaining.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield such time as he may consume to the gentleman from New York (Mr. KING), the very distinguished chairman of the authorizing Committee on Homeland Security in the House, whose cooperation on this bill has been fabulous, for the purpose of a colloquy.

Mr. KING of New York. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I rise for the purpose of engaging in a colloquy with Chairman ROGERS and Chairman SENSENBRENNER. I would like to address the meaning of section 546 of the fiscal year 2007 Department of Homeland Security appropriations conference report regarding the Western Hemisphere Traveling Initiative, also known as WHTI.

I would like to establish the fact that the language proposed in the conference report does not require a delay in implementation; in fact, the date change does not prohibit the administration from complying with its original deadline of January 1, 2008.

Mr. SENSENBRENNER. Mr. Speaker, will the gentleman yield?

Mr. KING of New York. I yield to the gentleman from Wisconsin.

Mr. SENSENBRENNER. Mr. Speaker, I agree it is important to recognize that paragraph 1(a) requires that the Secretary of Homeland Security develop and implement a plan for appropriate passports or other documents as expeditiously as possible. It then instructs the Secretary to complete implementation of WHTI by no later than the earlier of June 1, 2009, or 3 months from the date the conditions of paragraph 1(b) are met.

Thus, the Secretary may and, indeed must, begin the implementation process earlier than the June 1, 2009, deadline to ensure that he meets this mandate.

Mr. ROGERS of Kentucky. Mr. Speaker, will the gentleman yield?

Mr. KING of New York. I yield to the gentleman from Kentucky.

Mr. ROGERS of Kentucky. Mr. Speaker, both gentlemen are correct. WHTI is vital to our homeland security, and I am absolutely committed to ensuring it is put in place.

The conference report requires the Departments of Homeland Security and State to implement WHTI no later than 3 months after the security requirements are met or by June 1, 2009, whichever is earlier.

□ 1530

We urge DHS and State to quickly develop the PASS card technology, card readers, and procedures to enable the earliest possible deployment of the system at our sea and land ports of entry.

Again, let me make this clear. The conference report does not force a delay upon WHTI. It is up to DHS and State to make sure the program works securely and is implemented as soon as possible, which can and should be in accordance with the original WHTI deadline of January 1, 2008.

Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee (Mr. WAMP), a very valuable member of this subcommittee, hardworking, and a conferee on the bill.

Mr. WAMP. Mr. Speaker, I thank the chairman for the outstanding job he does.

This $34.8 billion brings the total that we have spent on this Department since September 11, 2001, to $151.7 billion, a significant investment in this new Department.

I want to hail the service of MARTY SABO over the years but specifically on this subcommittee and because of his cooperation specifically in one area where he and Chairman ROGERS have been brilliant. They have used the power of the purse to force this Department to move towards efficiency and accountability, something that was really missing for a long period of time. We have withheld money from them pending reports and accountability over and over again.

I want to report on two areas today where we are making great progress because of our work on this subcommittee. Science and technology was woefully inadequate. It is now moving rapidly. Admiral Cohen has come in, and he is outstanding. We are deploying new technologies, and we are really spending the money much more wisely. Great progress has been made.

Another area is where we created and helped the administration form the DNDO, the Defense Nuclear Detection Organization. Nuclear problems in homeland security are our greatest threats. Mr. EDWARDS, on the Democratic side, and myself and others have really been active here to make sure this new agency is effectively detecting the nuclear threat and advancing those technologies. This funding is $481 million. We forced it up above the administration's request to that figure. It still is not enough. I would rather have had the Senate number of $500 million, but we are making great strides there now as well.

Also, the border is much more secure today than it was a year ago. The gentleman from Minnesota is exactly right. This subcommittee has been securing the border each and every year but dramatically in the last year. We now are sending 99 percent of them back.

Finally, Mr. Speaker, I want to wish happy birthday to Michelle. Thank you for your service.

Mr. SABO. Mr. Speaker, how much time do we have left?

The SPEAKER pro tempore. The gentleman has 8 minutes remaining.

Mr. SABO. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Good luck to you, Martin, and thank you for your service and the great job you have done for America. Both sides working together on this legislation speaks for itself.

The conference report I support. There is real good in this legislation. As the author of the FIRE Act, I am glad to see that the Congress has restored the President's draconian cuts to this successful program. $662 million for FIRE grants, including $115 million for the SAFER Act will allow us to continue to provide for the critical equipment and staffing needs of fire departments nationwide.

I am also heartened by the fact that we kept FEMA in Homeland Security. I think that is very, very important, rather than make it a separate organization. Combining many of the Department's preparedness functions with FEMA and keeping it in DHS is wise and, I think, sound policy.

But there is some missed opportunities here. I cannot let this go by without projecting this and asking everyone in this room to think about it. We have done everything to try to put before the American people and the Congress the necessity for interoperability dollars. We had it in the budget, we came to agreement on both sides, but it is not there anymore.

We said that this was the most difficult task facing our police and our fire, yet we take $3.1 billion out in dedicated interoperability funding. We have had hearings on this in Washington State and hearings in New Jersey, and this is not the way to treat our law enforcement. It is not the way.

Five years after 9/11, the Department still does not have a dedicated interoperability grant program; and, as a result, State and localities are still robbing Peter to pay Paul by using a huge amount of their homeland security grant funding.

I am also concerned that the chemical security provisions within this bill will not facilitate adequate security to an industry that needs it.

Again, I want to thank those who put this legislation, this conference report together.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. LATHAM), a very valuable member of the subcommittee and of the conference.

Mr. LATHAM. Mr. Speaker, I thank the chairman, and I rise in support of this conference agreement and urge my colleagues to also support it. I also want to commend Chairman ROGERS, Mr. SABO, and the subcommittee staffs on both sides for their great work on this bill.

I also want to take note that this is the last time that Congressman MARTY SABO will be on the floor with the Homeland Security appropriations bill. He has been a key member of the subcommittee and a valued member of the full committee, and on behalf of Kathy and myself, we wish you and Sylvia the very, very best for the future. You are great people, and it has been an honor to get to know you. I appreciate your great career here.

The process of putting together this appropriations bill to address the operational needs of the Homeland Security Department has once again been a very difficult one. As I participated in the process on this bill, I have come to the conclusion that our approach to funding homeland security has been well thought out in the face of having to make difficult choices. This year, as in the past, we have worked hard to balance the priorities. While I am not fully satisfied with some of the choices, overall I am pleased with many of the components of this bill.

For example, I am very happy that we put extra funding into enhancement of border security. We added funds for new border patrol personnel and capital infrastructure. This is one more significant step toward the best combination of assets to protect our borders. This is a must, in my view.

I am also pleased that we have included a structural overhaul of FEMA, an issue that had to be addressed. The components of the overall bill set FEMA on a path to better carrying out its mission.

At the end of the day, there are no perfect answers to our homeland security problems, and there is no perfect dollar resource level for any of these homeland functions. We are not going to reach a 100 percent security umbrella no matter what level of funding we allocate to the homeland function. Since we cannot reach security perfection and because our resources are limited, we simply have to allocate resources wisely, and we have done that again this year.

I would ask all Members to support this conference report.

Mr. SABO. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, allow me to thank the distinguished gentleman and pay him a great debt of gratitude for his service and for his fight. MARTIN SABO knows his business, and he gets the job done, and I simply want to thank him very much.

I wish as we proceed in this bill that there were elements of it that really could answer the questions that the American people ask about homeland security. I am disappointed we could not work out the right kind of approach to chemical security, primarily because I live in a region that has a sizable number of chemical plants and, most recently, we have experienced a number of incidents that have impacted the surrounding neighborhoods. So I would have hoped we would have been able to implement a plan that had a great deal more teeth to it than what we now have in this bill.

Also, I would like to mention that, although the Homeland Security Committee looked at and does agree with FEMA remaining in the Homeland Security Department at this time, I am disappointed that the monies, which we really do need to reconstruct FEMA and to make it work, one, are missing; and, two, that the question of the FEMA staffing is a question that has not been answered.

Also, as my good friend from New Jersey indicated, we are still fighting the battle of interoperability, and that is a key element, as reflected in the 9/11 Commission report.

We also determined that the local law enforcement is very, very unhappy with the presence of the UASI grants in FEMA. I wish we had had more time for consultation to work with the Nation's chiefs of police to be able to ensure them that these grants would be distributed fairly.

Much can be said about the improvement of this bill, but, Mr. Speaker, I would hope that we would have the opportunity to ensure that there is full funding for homeland security and full staffing. Without that, it cannot work.

I rise in support of the Conference Report to the Homeland Security Appropriations Act of 2007 to H.R. 5441. Although the compromise is far from perfect, on balance it contains enough good things to warrant my support.

I am pleased that the legislation includes all of the recommendations that the Democrats on the Homeland Security Committee released in February, entitled "Directing FEMA Towards Success: A Democratic Report and Legislative Solution." The legislation combines some of the Department's preparedness functions (Grants and Training, U.S. Fire Administration, and the National Capital Region office) with FEMA and keeps the new entity within the Department. It requires that the Administrator of FEMA possess a demonstrated ability in and knowledge of emergency management and homeland security and have no less than 5 years of executive leadership and management experience. Finally, the legislation designates the Administrator as the principal advisor to the President for all matters pertaining to emergency management and authorizes the President to designate the Administrator to serve as a member of the Cabinet during emergencies.

INTEROPERABILITY FUNDING TO MEET THE NEEDS OF LOCAL RESPONDERS

It is unfortunate that Republicans opposed the inclusion of $3.1 billion dedicated interoperability funding for state and local first responders. Five years after the 9/11 attacks and one year after Hurricane Katrina, the Department still does not have a dedicated interoperability grant program. As a result, states and localities are still robbing Peter to pay Paul by using a huge amount of their homeland security grant funding—in some instances 80%—to purchase communications equipment. States and localities are forced to shortchange first responder training, local terrorism prevention activities and securing the nation's critical infrastructure.

Although the bill shortchanges interoperability, the legislation does include increased authorizations in FY 2008 for a variety of programs that Democrats have championed throughout the process. These include:

A $20 million increase for the Urban Search and Rescue Teams;

A $30 million increase for the Metropolitan Medical Response System;

A $175 million increase in FY 2008 for the Emergency Management Performance Grant program; and

$4 million in grants for the administration of the Emergency Management Assistance Compact, which is used to coordinate assistance between the states during disasters.

FEMA

With respect to the new FEMA's overall funding, the legislation also authorizes a 10% annual increase over the next three years for administration and operations. It remains to be seen whether the Administration will include this crucial funding in their 2008 budget request.

My Democratic colleagues on the Homeland Security Committee, including Ranking Member BENNIE THOMPSON (MS), Representatives JANE HARMAN (CA), NITA LOWEY (NY), BILL PASCRELL (NJ), and I have been outspoken leaders in the effort to solve the problem of interoperability for our Nation's first responders. Although the majority blocked our attempts to provide dedicated funding to address the issue, the legislation does adopt many Democratic provisions related to emergency communications.

The legislation creates an Office of Emergency Communications to support, promote, monitor, and promulgate operable and interoperable communication capabilities, consolidating various offices across the Federal government. Additionally, it requires the development of a National Emergency Communications Plan that would identify ways to expedite the adoption of consensus standards for emergency communications equipment and recommend both short and long-term solutions to overcoming obstacles to achieving nationwide interoperability and operability.

It also mandates the completion of a national baseline study assessing the state of operability and interoperability among Federal, state, tribal, and local governments. Finally, it ensures that recipients of homeland security grants are coordinating and operating consistent with the goals and recommendations of the National Emergency Communications Plan.

Unfortunately, and for no apparent policy reason, this legislation fails to place this new Office of Emergency Communications where it most logically belongs—FEMA. Instead, it is an outlier—grouped in with the office that oversees cybersecurity. By failing to do this, Republicans have perpetuated—and written into law—the very fragmentation of the preparedness and response functions that led to the Administration's failed response to Hurricane Katrina.

While the bill authorizes the existing Chief Medical Officer and gives him primary responsibility for medical preparedness issues in the Department, Republicans rebuffed efforts by Homeland Security Democrats to locate this office where it most logically belongs—within FEMA. In addition, provisions to establish a program to assess, monitor, and study the health and safety of first responders involved in disasters was stripped by the Republicans, as was language to direct the Chief Medical Officer to provide guidance for the Metropolitan Medical Response System and to develop and update guidelines for State, local, and tribal governments for medical response plans for WMD attacks.

Additionally, the legislation authorizes a national training and exercise program for first responders, as well as a comprehensive assessment system and a remedial action program to identify and disseminate lessons learned. However, Republicans stripped out a Democratic proposal—accepted by the Majority in the Homeland Security Committee bill—to authorize an exercise to prepare for pandemic influenza.

Finally, the bill stripped a Democratic provision to create an Office of Public and Community Preparedness, which was proposed to address a lesson learned from Hurricane Katrina—that citizens need to be prepared to protect themselves and their families and cannot rely on assistance for the first few days of a disaster. The office would have consolidated various programs at the Department of Homeland Security into one office with the primary responsibility within the Department for assisting the efforts of State, local, and tribal governments in preparing citizens and communities in the United States for acts of terrorism, natural disasters, and other emergencies.

Notwithstanding these weaknesses, I will support the Conference Report because on balance the weaknesses, which I will work to eliminate next year, are outweighed by the following good provisions:

Prohibits the Secretary from allocating, reallocating, establishing, consolidating, altering, or discontinuing organizational units within FEMA under the authority of section 872 of the Homeland Security Act of 2002.

Creates a national and 10 regional advisory councils (one in each FEMA region) made of up local officials, emergency managers, first responders and the private sector, to advise the Administrator and each of the regional Administrators and ensure coordination.

Creates a Disability Coordinator, a position advocated by Rep. JAMES LANGEVIN (D–RI), to ensure that the needs of individuals with disabilities are being properly addressed in emergency preparedness and disaster relief.

Directs the Administrator, in coordination with the heads of other appropriate agencies, to provide evacuation preparedness technical assistance to state local and tribal governments. Democrats on the Committee had introduced legislation on this issue over a year ago.

Directs the Administrator to collaborate with local and state officials and first responder groups to develop standards for the credentialing of first responders and the typing of resources needed to respond to disasters.

Codifies the national preparedness goal, target capabilities list, national planning scenarios, and creates a national preparedness system to prepare the nation for all hazards. Many of these activities are currently being undertaken by the Department.

Directs the Administrator to develop a "transparent and flexible" logistics system for procurement and delivery of goods and services necessary for an effective and timely response to disasters.

Directs the Administer to develop and submit a strategic human capital plan to shape and improve the agency workforce and authorizes the Administrator to pay a bonus to recruit and retain individuals in positions otherwise hard to fill.

Creates a National Child Reunification Center within the Center for Missing and Exploited Children as well as a National Emergency Family Registry and Locator System.

For these reasons, I will support the Conference Report and I urge my colleagues to join me.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. SWEENEY), another very important member of this subcommittee who has helped us enormously.

Mr. SWEENEY. Mr. Speaker, I have been on this committee since its inception 4 years ago. It is probably my most challenging duty here in Congress. It is one of my greatest honors, and I have to tell you, every year this appropriation measure is probably the steepest climb that we have because we know now that the threats we face, the challenges we face are enormous, and any arbitrary amount of money can't bring us to a place of perfection.

I want to salute the chairman for his great work. This is probably one of the best bills that you have been able to produce, Chairman, and they have all been pretty darn good, and so I really appreciate your leadership.

To Mr. SABO, I wish you well. You have had a great career. It has been an honor, especially in these past 4 years, to serve with you and watch your leadership.

What I would like both of you to know is that our staffs here are some of the unsung heroes and I think the real patriots. They do incredible work. They listen, they study, and then they enact, and they enable us to do some of the good things we are doing here, and they have enabled us to make this Nation more secure.

The American people need to know this committee has served respectfully and greatly in a bipartisan fashion. For example, since 9/11, we have been able to provide almost $40 billion for first responders. In this report is an example: $662 million for the assistance of firefighter grant programs, $7 million more than the 2006 number was and $370 million more than what the President asked for.

We also found that balance by finding minimal security levels throughout the Nation that are satisfactory and, as well, made sure we had targeted money, $770 million, for the Urban Area Security Initiative. We do substantial work on ports, $4.34 billion; and $21 billion on the borders.

Mr. Chairman, I think you have really identified what those priorities are, and we have balanced them very well.

Finally, on WHTI, I just want to say that I think we have worked out a flexible compromise that will allow us to provide security and maintain our economic interests.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey (Mr. LoBIONDO), chairman of the Coast Guard Subcommittee in the House.

Mr. LoBIONDO. Mr. Speaker, I rise for the purpose of engaging in a colloquy with Chairman ROGERS.

Mr. Speaker, I recognize concerns expressed about the Coast Guard's C4ISR program. This is a critically important program providing a deployable preemptive capability to prevent or stop the movement of terrorists and their weapons before they reach the homeland. I would hope that the Chair would agree that if the C4ISR program is able to adequately address the concerns contained in the conference report that you would look favorably upon this program in the future.

□ 1545

Mr. ROGERS of Kentucky. If the gentleman will yield, I agree with the gentleman from New Jersey that this is an important program; and I can assure him that, should we receive information that the Coast Guard has addressed our concerns, we will give the program favorable consideration in the future.

Mr. LoBIONDO. Thank you very much, and thank you for your hard work.

Mr. ROGERS of Kentucky. I yield 3 minutes to the gentleman from New York (Mr. KING), the chairman of the authorizing committee.

Mr. KING of New York. Mr. Speaker, I thank the chairman for yielding.

Let me at the outset thank Chairman ROGERS for the extraordinary work he has done and the extraordinary cooperation he has exhibited toward the Homeland Security Committee.

There are two key components of this appropriations bill which are in fact legislation passed by our committee and which Mr. ROGERS has so generously moved forward for us: certainly FEMA reform, and chemical plant security.

On the issue of FEMA reform, let me also commend Chairman REICHERT for the extraordinary work he did at the subcommittee and committee level; and on the chemical plant security legislation, let me commend Chairman LUNGREN for his work.

As someone coming from New York, let me point out the fact that this legislation includes a $30 million increase for the Urban Area Security Initiative, UASI, a grant program particularly important for the New York City and the metropolitan area.

On FEMA reform, this is real reform. This gives FEMA the leverage and the power and the autonomy it needs within the overall perspective of homeland security.

As far as chemical plant security, this is extraordinary legislation because for the first time it gives the Department of Homeland Security rulemaking power over the chemical plant industry.

I could go on for great length about this legislation, but I would like to yield to Sheriff REICHERT.

Mr. REICHERT. Mr. Speaker, I rise today in support of H.R. 5441, the fiscal year 2007 Homeland Security Appropriations Conference Report. I would like to discuss the Post-Katrina Emergency Management Reform Act of 2006, which is included as title VI.

As Chairman of the Subcommittee on Emergency Preparedness, Science, and Technology and as one of title VI's principal authors, I proudly announce today both Chambers and both parties have come together and reached a landmark agreement in reforming FEMA.

Mr. Speaker, when you Google the term "FEMA," over 2 million hits pop up. Fixing FEMA has been on the forefront of the American consciousness since Hurricanes Katrina and Rita last year. Some said it couldn't be done.

Mr. Speaker, we have done it. The important reforms of FEMA are based in large part on H.R. 5351, which I introduced on May 11, 2006, and which passed the Committee on Homeland Security less than 1 week later.

Finally, this legislation addresses emergency communications. Congress has already appropriated billions of dollars for interoperability. However, standards are still not established. Many States do not have plans statewide and are still working on it.

Before spending billions more, there are less expensive but integral reforms that must be implemented. Once these reforms occur, then and only then should we create an additional grant program. I look forward to working in a bipartisan way to create that new grant program.

The American public demanded that Congress fix FEMA. This agreement does that.

Mr. Speaker, I rise today in strong support of H.R. 5441, the "Fiscal Year 2007 Homeland Security Appropriations Conference Report." In particular, I'd like to take a few moments to discuss the "Post-Katrina Emergency Management Reform Act of 2006," which is included in Title VI of H.R. 5441.

As Chairman of the Subcommittee on Emergency Preparedness, Science, and Technology, and as one of Title VI's principal authors, I am especially proud to announce that both Chambers and both parties have reached this landmark agreement to overhaul the Federal Emergency Management Agency (FEMA).

Mr. Speaker, if you Google the term "FEMA Reform," over 2 million hits will pop up. The idea of fixing FEMA has been on the forefront of the American consciousness since Hurricanes Katrina and Rita last year. And some said it couldn't be done—that Congress could not come together in a bipartisan, bicameral way to fix this problem. There were too many obstacles and too much politics. That the problem itself was simply too massive and no one knew where to begin. But Mr. Speaker, we have overcome those obstacles in the interests of the American people. And, to do so, we began by listening to those who know best what the problems are and what the solutions must be—our Nation's first responders and emergency managers.

This landmark agreement will, among other things, reform FEMA by:

Elevating the standing of FEMA within the Department of Homeland Security by promoting the Administrator of FEMA to the level of Deputy Secretary;

Requiring that the Administrator possess a demonstrated ability in executive leadership and management experience;

Directing the Administrator to serve as the principal advisor to the President and others for all matters relating to emergency management;

Restoring the nexus between emergency preparedness and response; and

Elevating the importance of emergency communications within the Department by establishing an Office of Emergency Communications and requiring that Office to draft a National Emergency Communications Plan and conduct a baseline operability and interoperability assessment.

These and the other important reforms of FEMA in Title VI are based, in large part, on H.R. 5351, the "National Emergency Management Reform and Enhancement Act of 2006," which I introduced on May 11, 2006 and which passed the Committee on Homeland Security less than one week later.

As a former law enforcement officer for more than 33 years, I can assure my friends in blue that nothing in this agreement would in any way undermine the terrorism-specific focus of the Department's terrorism preparedness grants and other prevention and protection programs. In fact, my colleagues and I drafted the base text of this legislation with the direct input of our Nation's first responders.

Finally, some have recently brought up the need to immediately create a new multi-billion grant program for interoperability. However, before spending additional billions of Federal dollars on interoperable communications, there are less expensive but integral reforms that must first be implemented. This agreement contains an entire subtitle of such reforms. As a former Cop and Sheriff, I know that first responders need standards in place and that States need to adopt Statewide Interoperable Communication Plans to ensure that Federal money is well spent. It is then, and only then, that we should create an additional interoperability grant program. However, once these reforms have been implemented, I look forward to working in a bipartisan way to create that new grant program.

However, to be clear, Congress has already appropriated billions of dollars for emergency communications. From FY 2003 through FY 2005, recipients of DHS' terrorism preparedness grants have obligated and spent more than $2 billion on interoperability projects—the single largest use of such grant funding. Moreover, the Department of Justice's COPS program has allocated more than $300 million for interoperability to law enforcement agencies during that same period of time. Finally, in the Budget Reconciliation Act of 2005, Congress established a $1 billion interoperability grant program to be administered by the Commerce Department.

Following Hurricanes Katrina and Rita, the American public demanded that Congress fix our Nation's broken emergency management system. This agreement does that and more. It is for that reason that I urge my colleagues to support this landmark, bipartisan legislation.

Mr. SABO. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I have read the chemical bill language, and I do not understand whether that language preempts the ability of a State to adopt more stringent requirements than the Federal standards.

Mr. KING of New York. Mr. Speaker, will the gentleman yield?

Mr. SABO. I yield to the gentleman from New York.

Mr. KING of New York. Mr. Speaker, it is our understanding, and we had the opinion of committee counsel on this, that it does not preempt States.

Mr. SABO. The intention is not to preempt the ability of the States.

Mr. KING of New York. That is not the intention.

Mr. Speaker, let me just commend the gentleman for his many years of service to this House and wish him the very best in the years to come.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. SHUSTER), who is Chairman of the Emergency Management Subcommittee of the Committee on Transportation and Infrastructure.

Mr. SHUSTER. Mr. Speaker, I thank Chairman ROGERS for yielding.

Mr. Speaker, I rise today in strong support of this legislation, in particular the FEMA reforms. It was a tremendous effort by many, and I want to extend my personal thanks to Chairman ROGERS, Chairman DON YOUNG, Chairman DAVIS, Chairman KING and Chairman REICHERT. This was truly a collaborative effort, and I think we have some important reforms for FEMA here today.

FEMA was once one of the most well-respected organizations in the Federal Government, but Hurricane Katrina demonstrated how badly FEMA declined in just 3 years at DHS.

I had the privilege to serve on the Katrina Committee that did the investigation and we laid out five principles for reforming FEMA: The President has to be involved in big disasters; there must be a clear chain of command; preparedness must be put back into FEMA; FEMA's capabilities must be restored and enhanced; and, finally, we need an all-hazard approach to disasters.

While I believe that pulling FEMA out of DHS is the best way to embrace these principles, I recognize that it is not the only way. These principles served as a foundation for the compromise we consider today.

This bill fixes and improves FEMA. With the leadership, authority and resources necessary to respond effectively to the next disaster. FEMA can once again be a model Federal agency. The American people deserve nothing less.

Before I close, I would like to thank the Emergency Management Subcommittee staff who worked very long hours on this important legislation: Dan Matthews, Jennifer Hall and Hugh Carroll, and also Liz Megginson from the full committee. They did a great job, and I want to thank them.

Mr. Speaker. I rise today to support this legislation.

Prior to the creation of the Department of Homeland Security (DHS), the Federal Emergency Management Agency (FEMA) was one of the most well respected organizations in the Federal government. Hurricane Katrina illustrated how badly FEMA had declined in less than three short years.

I want to thank Chairman YOUNG for his leadership and his oversight efforts over the years to ensure that FEMA would remain a model Federal agency. Through his leadership on this bill, I believe FEMA will not only return to its former status, but out perform the FEMA we used to know.

I had the honor of serving on the House Katrina Committee under Chairman DAVIS. He deserves tremendous credit for leading the investigation. He made a commitment to follow the facts wherever they took us, and he uncovered a surprising record of actions and neglect that undermined our Nation's disaster preparedness. Without his leadership, we would not be here today.

There have been a lot of complaints that the House has not consolidated jurisdiction over the DHS into one committee. Today, I can tell you that it is a good thing that jurisdiction over DHS does not reside with one committee.

This bill balances the need to prepare for a terrorist attack with all of the other hazards we face. The Transportation Committee has decades of experience with emergency management. The Homeland Security Committee brings real expertise on terrorism matters. Between these two committees, we came up with a good product.

I would like to thank Chairman KING and Chairman REICHERT. This comprehensive reform could not have been possible without their support, vast knowledge of preparedness issues, and strong desire for reform.

After the Katrina Committee Investigation, we laid out 5 principles for reforming FEMA.

First, Presidential involvement and professional disaster advice are essential.

Second, effective response requires a clear chain of command.

Third, the four elements of emergency management need to be closely integrated and managed, particularly preparedness and response functions.

Fourth, FEMA's essential response capabilities must be restored and enhanced.

And fifth, the tension between the nation's all-hazards emergency management system and terrorism preparedness must be resolved.

While my personal opinion is that pulling FEMA out of DHS is the best way to embrace these principles, I recognize that it is not the only way. These five principles served as a foundation for this compromise, which helped us achieve comprehensive reform.

This legislation elevates the Administrator to the Deputy Secretary level and provides that the Administrator will report directly to the Secretary. It directs the Administrator to serve as the principal advisor to the President, the Homeland Security Council, and the Secretary of Homeland Security for all matters relating to emergency management and permits the President to designate the Administrator as a member of the Cabinet in the event of natural disasters, acts of terrorism, and other man-made disasters. Additionally, the Administrator is given explicit responsibility for managing all disasters.

Furthermore, I am proud that this bill clarifies the chain of command during the Federal response to natural disasters, acts of terrorism, and other man-made disasters by providing that the Federal Coordinating Officer (FCO) is in charge. The bill also prohibits the Principal Federal Official (PFO) from directing or replacing the incident command structure at an incident and limits the PFO's authority over Federal and State officials, including the FCO.

Additionally, this legislation returns all grants, training, and preparedness programs to FEMA, restoring the nexus between emergency preparedness and response. These grants and programs include the emergency management performance grant program, fire grants, terrorism preparedness grants, the radiological emergency preparedness program, the chemical stockpile emergency preparedness program, and the metropolitan medical response system.

This bill increases FEMA's response capabilities through a variety of tools. Through this legislation FEMA will establish robust Regional Offices, Regional Advisory Councils, and multi-agency Regional Strike Teams to ensure effective coordination and integration of regional preparedness, protection, response, mitigation, and recovery activities with State, local, and tribal governments, emergency response providers, emergency managers, and other stakeholders. Additionally, the Administrator is provided a number of tools for rebuilding FEMA's professional and reserve workforces through the use of a strategic human capital plan, recruitment and retention bonuses, and professional development and education.

Finally, this bill establishes an all hazard national preparedness goal and system for bringing direction, professional expertise, and accountability to federal, state, and local preparedness activities.

This bill puts FEMA back together again and gives FEMA the tools and authority to do its job. With the leadership, authority, and resources necessary to respond effectively to the next disaster, FEMA can once again be a model agency within the Federal Government.

Mr. SABO. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, before I yield back my time, let me simply say to my friend from Minnesota (Mr. GUTKNECHT), thank you for presiding today in a very fair and efficient manner. It is a pleasure working with the gentleman. And on Twins.

Mr. Speaker, I yield back the balance of my time.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, this year has been a difficult year for this bill, as they all are. We did not have all of the allocation that we could have used. However, I think we judiciously have spent the moneys that were allocated to us.

There is no more important chore that the Congress has, in my judgment, than to protect the country as best we can from its enemies and from natural disasters. That is what this bill is all about. It is such a huge undertaking. We have got 7,500 miles of borders with our neighbors, we have 12,000 miles of coastline, including the Great Lakes, 440 commercial airports with 600 million passengers a year internally and many millions more from outside the country, rail and subways and tunnels and bridges and cyber structures, and the financial system. Everything we have is subject to attack, and it is a very, very difficult chore for the government, both the executive branch and certainly the legislative branch, to try to get our arms around the mission and to try to find the moneys there to try to finance the effort to defend the country against its enemies.

But I think we have done that within this bill as best we can. We have covered practically every angle that you can think of with plenty of funding. I am especially pleased that we found huge new sums to spend on border security. We can't exist as a country if we can't protect that border, and that is what this bill is all about in its main emphasis.

Again, I want to thank MARTY SABO for his years of service and friendship, he and Sylvia. MARTY, you and Sylvia, we wish you Godspeed.

Mr. BARTON of Texas. Mr. Speaker, today, the House debated the Conference Report for Homeland Security Appropriations Act for Fiscal Year 2007. Section 535 of the conference report included a provision that will allow individuals to import into the U.S. from Canada a 90-day supply of a prescription drug, on their person, for their personal use. The provision specifically exempts controlled substances and biological products.

As the Chairman of the authorizing Committee with jurisdiction over the regulation of drugs and biological products, it is important for me to clarify what the language in this section means in regards to biologic products. The exemption applies to biological products, as that term is defined in Section 351 of the Public Health Service Act. The legislation does not confine the exception of only to those products licensed under Section 351 of the PHSA. This is an important distinction. To be clear, the language exempts biologic products licensed under the Public Health Service Act and those approved under the Federal Food, Drug and Cosmetic Act.

Members have also asked questions and offered various wishful opinions as to whether the chemical security section of the 2007 Homeland Security Appropriations bill preempts state or local law. Perhaps a review of the evolution of this provision would shed some light for Members. The House Committee on Homeland Security considered a bill in July that carried an amendment to explicitly state that the bill would not preempt state law. Why? Because Members recognized correctly that State or local laws that conflict with or frustrate the purpose of Federal laws are preempted by the Federal law in the absence of explicit Federal language to the contrary, and the amendment's proponents wanted to ensure that States would not be so constrained. However, that bill was never considered by either body of Congress. When Senator BYRD initiated the process of using the 2007 Homeland Security Appropriations bill as a vehicle for legislating a Federal chemical security program, and then other Members began to venture suggestions to amend Senator BYRD's language in conference, the Chairmen of the three authorizing Committees, one in the other body and two in this body, were consulted.

During negotiations it was discussed and consciously decided among the authorizing committee negotiators to not include a provision exempting this section from Federal preemption because we do not want a patchwork of chemical security programs, and we do not want chemical facilities that are trying to secure themselves against threats of terrorism caught in a bind of wondering whether their site security complies with all law. It was only upon the agreement of the three authorizing Committee Chairmen that the Appropriations Conferees included the chemical security provision in the Appropriations Conference Report.

During Appropriations Conference deliberations, some Members argued and voted against including the chemical security section, in part because it was silent on preemption. However, they were outvoted. We are fully confident that courts of law, if ever faced with such a question, will examine the State or local provision and decide for themselves whether it conflicts with or frustrates the purpose of Federal law, including the chemical security section of the 2007 Homeland Security Appropriations bill and Section 101(b)(1)(F) of the Homeland Security Act of 2002 which states explicitly that the mission of the Department of Homeland Security includes ensuring "that the overall economic security of the United States is not diminished by efforts, activities, and programs aimed at securing the homeland."

Mr. MARKEY. Mr. Speaker, the conference report we are considering today on the House floor fails to close dangerous homeland security loopholes that continue to put Americans at risk more than 5 years after the 9/11 attacks.

This bill fails to include strong chemical security language that had been agreed to, on a bipartisan basis, in the Homeland Security Committee.

But Republicans have caved to the wishes of their allies in the chemical industry by crafting weak provisions that do not provide the security safeguards that are urgently needed to protect Americans.

The fact is, there are nightclubs in New York City that are harder to get into than some of our chemical plants. This bill fails to fix the problem.

This bill also does not contain a mandate that all of the cargo on passenger planes be screened before it is placed onboard.

An amendment I offered to require 100 percent cargo screening on passenger planes passed the House overwhelmingly three years ago as part of the Department of Homeland Security's spending bill. But the Bush administration ensured that the provision was deleted from the final version of the bill, and Republicans have blocked it ever since.

In addition, this bill fails to provide the resources needed to ensure that our airports have the equipment needed to detect explosives that may be hidden in bags bound for airliners.

Earlier this month, a nonpartisan report developed by experts from air carriers, airport operators, the Federal Government and contractors recommended that Congress should "continue Federal appropriations of at least $435 million for purchase and installation of Explosive Detection Systems, escalating annually."

And what have Republicans in Congress decided is the appropriate funding level for the purchase and installation of explosive detection equipment at airports? About $150 million, or roughly one-third the amount recommended by the experts.

This is another example of Republicans nickel-and-diming homeland security while writing a blank check for the War in Iraq.

The foiled London bombing plot last month shined a light on the Bush administration's bungling of the research, development and deployment of systems that can detect liquid explosives at airports.

In its final report card, the 9/11 Commission gave the Federal Government's checked bag screening capabilities a "D" and directed that "The TSA should expedite the installation of advanced (in-line) baggage screening equipment." But almost a year later, we're still far behind where we need to be.

This bill also does not address another aviation security weakness that leaves us vulnerable to a terrorist attack.

Specifically, the bill keeps in place an artificial cap that Republicans have placed on the number of airport screeners that can be hired. This is creating security challenges at our airports, as passenger traffic increases, and workers are expected to be on guard for a growing array of threats.

According to the bipartisan report released earlier this month "without adequate capital investment, screener staffing levels would have to increase significantly to maintain 100% electronic screening."

But we currently have the worst of both worlds: Republicans refuse to invest the needed funds in explosive detection equipment while they also cap the number of screeners regardless of security needs. This is a dangerous, wrong-headed policy that puts Americans at risk.

This bill also fails to sufficiently fund the Metropolitan Medical Response System, a vital program designed to limit casualties in the event of a major emergency, such as a nuclear attack or avian flu outbreak.

Clearly, our country needs a New Direction to ensure that security loopholes are closed and Americans are protected from terrorists determined to inflict another devastating attack on our country.

Republicans continue to ignore glaring loopholes such as porous security safeguards at chemical plants, failure to scan all the cargo on passenger planes, flawed checkpoint screening equipment, and the lack of enough TSA screeners.

As a result, Republicans are providing our nation with homeland insecurity, rather than the real security that Americans deserve.

I urge a "no" vote on this bill.

Mrs. LOWEY. Mr. Speaker, I rise in support of the Fiscal Year 2007 Homeland Security Appropriations Conference Report. It includes several provisions that I authored in the Homeland Security and Appropriations Committees, including much-needed provisions to help first responders communicate.

More than two years ago, I proposed legislation to require the Department of Homeland Security to create a national interoperability strategy. It is time that we give our first responders the tools they need to adequately communicate with one another without having to use many of the same tactics as Paul Revere.

This strategy is long overdue. Ten years ago, the Public Safety Wireless Advisory Committee recommended that "unless immediate measures are taken to promote interoperability, public safety agencies will not be able to adequately discharge their obligation to protect life and property in a safe, efficient, and cost effective manner." Because of inadequate radios, 343 firefighters died while heroically rescuing thousands of workers at the World Trade Center on September 11th. Last year, communications failures exacerbated the poor response to Hurricane Katrina.

Amazingly, the Department has no real plan to solve the communications crisis and has not made the issue a priority. This bill will require it to complete a baseline study to assess current capabilities; create a resource plan; expedite voluntary consensus standards; set goals and time frames; identify obstacles; coordinate planning with other federal as well as state, local, and private sector partners; design backup systems in the event that primary systems fail; and verify manufacturers' claims that equipment meets certain standards.

Unfortunately, the conference report does not include my dedicated communications grant program. While it is imperative that we have a workable strategy, it can only be executed when local public safety agencies have funding to plan, design, implement, and maintain interoperable networks. In addition, the bill cuts funding for the major first responder grant programs, further delaying the progress that state and local governments should be making to increase communications capabilities.

Although the conference report is not perfect, I am pleased that conferees took the first step in adopting my interoperability strategy.

Mr. ROGERS of Alabama. Mr. Speaker, I rise today in support of the pending Conference Report, and thank the Chairman of the Homeland Security Appropriations Subcommittee, Mr. HAL ROGERS, for his work on this legislation.

I appreciate the fact that this bill includes important provisions that consolidate the Noble Training Center with the Center for Domestic Preparedness; establish a Homeland Security Education Program; and ensure financial accountability of the Secure Border Initiative, which is similar to a provision of my bill—H.R. 6162—that the House passed yesterday.

In addition, this bill includes funding to add 1,500 new Border Patrol agents. In 2004, Congress authorized 2,000 new agents be added each year. To date, the Border Patrol has added fewer than 2,000 new agents.

In May, the President announced that the Border Patrol will increase its ranks by 6,000 new agents by FY 2009. At the current pace, we will not meet this goal.

I look forward to working with Members of the Homeland Security Appropriations Subcommittee to ensure that the Border Patrol will be able to make the President's goal a reality.

While I support the overall Conference Report, I am deeply concerned with one provision included by the other body.

This provision would require that all instructors at the Federal Law Enforcement Training Center—referred to as FLETC—be Federal employees.

This is a terrible provision that could prevent Federal law enforcement agencies—not just DHS—from being able to quickly and cost-effectively train their officers and agents. Particularly in emergency circumstances; like we experienced immediately after the 9/11 terrorist attack.

OMB Director Rob Portman wrote to Congress on September 6th regarding DHS Appropriations and expressed his serious concern that this provision is too restrictive.

He wrote that by preventing public-private competition, the provision—quote: "deprives the Department of the operational efficiencies to be gained by competition, and limits its ability to direct Federal resources to support other priorities."

I have reviewed FLETC's course list and find it indefensible that anyone would advocate that only a Federal employee can efficiently and effectively teach some of these courses.

For example why is it that only a Federal employee can teach "7 Habits of Highly Effective People," or "Archeological Resources Protection," or "Self Leadership Through Understanding Human Behavior?"

All of these are courses taught at FLETC facilities. All of these courses could very easily be taught by a State or local government official, a college professor, or a professional from the private sector.

Since the terrorist attacks of September 11th, the need for FLETC training has increased dramatically, and FLETC is under significant strain to meet these needs.

Should an emergency arise tomorrow, I am certain that this provision will make it impossible for the Department to be able to meet any surge in demand for training that might arise.

I urge my colleagues to consider the serious ramifications of this provision, and join me in working to lift this ban in the future to ensure our Federal law enforcement agencies can meet all their training needs.

Mr. SOUDER. Mr. Speaker, I rise today in support of the conference report to H.R. 5441, the fiscal year 2007 Department of Homeland Security Appropriations Act. With this bill, the federal government takes important steps forward on securing our border and reforming the Federal Emergency Management Agency (FEMA).

It is heartening to see that Congress is beginning to wake up to the critical importance of a secure border. Indeed, this bill provides $21.3 billion for border protection and immigration enforcement—nearly an 11 percent increase over last year—including $5.2 billion for the department's Secure Border Initiative, the government's comprehensive multi-year plan to secure America's borders and reduce illegal migration through enhanced technology, infrastructure, and personnel. $2.25 billion is provided for the addition of 1,500 new Border Patrol agents, bringing the total to 14,800, and $1.2 billion for border fencing, vehicle barriers, technology, and other infrastructure improvements.

H.R. 5441 also takes important steps to protect against the growing threat of border tunneling. Penalties for individuals who assist in the construction or financing on border tunnels will be subject to much harsher penalties—fines and imprisonment of up to 20 years. Anyone using a border tunnel to smuggle aliens, weapons, or other goods will be subject to a maximum term of imprisonment that is twice the punishment that would have applied had a tunnel not been used.

In addition, I am extremely pleased that the conference committee provided more than-expected funds to assist in the transfer of the Shadow Wolves from the Bureau of Customs and Border Protection (CBP) back to their logical home in Immigration and Customs Enforcement (ICE). The Shadow Wolves officers are Native Americans who combine modem technology with ancient tracking techniques to play a critical role in our government's counter-narcotics efforts along the 76 miles of border and 2.8 million acres within the Tohono O'odham Nation. When the Department of Homeland Security was originally created, the Shadow Wolves were placed under the control of the CBP. Unfortunately, however, the CBP's mission and methods were found to be notably unsuited to the ways of the Shadow Wolves, whose methods employ tracking smugglers more than merely defending a border line. This bureaucratic misjudgment has significantly hurt the Shadow Wolves' morale, causing their numbers to dwindle. Because of this situation, I appreciate the conferees' decision to provide $3.1 million—a million more than in the House bill—for ICE to pay for the newly-transferred Shadow Wolves' salaries and other needs.

It is also important to note for our friends in Canada and Mexico that nothing in this bill should be misrepresented as changing our commitment to requiring a secure border ID.

As we require more secure IDs to get a driver's license, to vote, and to get a job within the U.S., you can be assured that we certainly will require one at the borders. Working together, we can maintain our important trade and tourism relationships while maintaining the security or our Nation.

Last, I am pleased that this conference report will enact important reforms to FEMA to help ward off some of the blatant examples of mismanagement seen in the aftermath of Hurricane Katrina. For example, this bill creates a smarter FEMA management structure by establishing 10 FEMA regional offices and regional directors with the ability to coordinate and direct the federal response in times of crisis, so that FEMA is not trying to manage future disasters from Washington. By putting FEMA on the ground where the crisis is occurring, regional directors will be able to coordinate more effective and timely responses. Also, each regional office will maintain a multi-agency regional strike team, with the ability to quickly respond to emergencies, and three national emergency response teams will be created in case rapid supplements to the regional teams are needed. Finally, while codifying the FEMA director's status as the principal advisor to the President and Secretary of Homeland Security, this bill refrains from establishing FEMA as an independent, cabinet-level agency—a misguided notion designed more to placate the media than institute meaningful reform.

Mr. Speaker, I commend Chairman ROGERS and the rest of the conferees for their hard work on this bill, and urge my colleagues to support it.

Mr. STARK. Mr. Speaker, I rise in opposition to the Department of Homeland Security (DHS) Appropriations Act (H.R. 5441) because $35 billion is too high a price for failure. Hurricane Katrina provided a vivid and massive example of DHS' incompetence, but additional instances of incompetence are on almost daily display. Just this week, Secretary Chertoff announced with great fanfare a new risk-based port security program. Perhaps he knows something about the terrorists that we don't, because apparently they are more likely to target the ports in Burns Harbor, IN and Duluth, MN than Oakland, CA. Those ports received new funding while Oakland got nothing. The fourth-busiest port in the nation, the gateway to Asia, in the heart of a major metropolitan center and the high-technology headquarters of the country is apparently at no risk of a terrorist attack.

Another recent round of urban security grants cut funding by 40 percent for New York and Washington, DC, but increased it for Louisville and Omaha. The American people might also be interested to know that DHS' "National Asset Database," which is used to determine how to allocate preparedness funding, lists Indiana as the state with the most potential terrorist targets. Supposedly, the Hoosier state has 8,591 targets compared to California's 3,212. The Amish Country Popcorn Factory in Berne, IN is on the list, but the Empire State Building is not. I couldn't make this stuff up.

The more DHS promises to improve and stop wasting money, the worse things get. Last year, more than half of contracts were awarded without a full competitive bidding process, compared to 19 percent in 2003. If it seems to you like the Katrina recovery is going awfully slow for how much money has been spent, perhaps you aren't considering the 2,000 sets of dog booties costing $68,442; three portable shower units for $71,170; 54 iPods worth $7,000; 37 designer rain jackets for a Customs and Border Protection firing range that isn't used when it is raining; and a beer brewing kit for $1,000 purchased by DHS staff.

This Homeland Security Appropriations bill does nothing to require stronger oversight or to stop the hemorrhaging of money to our least-vulnerable areas. The popcorn factory and petting zoo lobby will be happy, but I am disgusted, and I urge my colleagues to join me in voting no.

Mr. BARTON of Texas. Mr. Speaker, I rise in support of the conference report and the provisions dealing with chemical plant security.

I truly regret this issue is being debated in the context of an appropriations bill. As Chairman of one of this Body's two Committees of jurisdiction, I am committed to engaging the policy debate in the future on chemical plant security legislation.

Mr. Speaker, I have been astounded by the lack of real knowledge by some professed experts about the way that chemical plants are already regulated under existing Federal laws. When Congress resumes this debate in the next couple of years, it is essential that all interested persons know what their government and the private sector are already doing before heaping an array of well-intentioned mandates on government and the private sector.

America does not become more secure by piling on more laws, it just become more regulated.

These provisions on chemical plant security are a step forward in making America more secure—and this is the only criterion by which I find myself supporting them. The legislation is far from perfect. However, it does establish, for the first time, an actual, and enforceable chemical plant security program for the whole Nation.

Let me highlight some key provisions:

First, this legislation requires chemical plants to conduct vulnerability assessments and site security plans. Similar steps have been required of other facilities by Congress and have passed without a dissenting vote.

Second, this legislation requires the Department of Homeland Security to develop risk-based, performance-based regulations for securing high risk chemical plants within the next six months. This provision includes a much wider scope of plant coverage than what the Senate spending bill contained and it also makes the critical distinction that not every chemical plant is created or operates equally, has the same risks, or is similarly vulnerable.

Third, this legislation allows the Department to approve chemical plant regimes that other public or private interests develop that meet the criteria in the Department's regulations. This is crucial because it allows parties that have already invested in protecting chemical plants from terrorist attacks to avoid having those costs stranded simply because they had the foresight and initiative to act before this legislation became law.

Fourth, this is legislation protects sensitive information. We must never make security-sensitive information about chemical plants' available to anyone for the asking, including terrorists. Information protections have been included in every homeland security related bill since 9–11 and there is no good policy reason to end that practice right now.

This provision does not shield any chemical plant from FOIA requests for emissions data under existing Federal environmental statutes; it merely covers vulnerability and security information. I hope we all support this necessary protection.

Fifth, this legislation keeps the Department focused on chemical plant security. Some people want to have the Department's mission diluted with extraneous tasks such as regulating chemical plant pollution, chemical plant manufacturing processes, or chemical plant workplace relations.

We must not dismiss the volumes of environmental and manufacturing laws and enforcement expertise at both the Environmental Protection Agency and the Occupational Safety and Health Administration, not to mention their state counterparts, so another Agency of the Federal government can get into the act.

Sixth, under the catch-phrase "inherently safer technologies" some want to vest in the Department of Homeland Security the power to regulate chemical feedstocks, processes, and products. One environmental protection agency is enough, Mr. Speaker. EPA has the authority and expertise it needs under the Safe Drinking Water Act, Toxic Substances Control Act, Clean Air Act, and other laws to protect our environment from harmful chemical exposure.

Let's let the Department of Homeland Security focus on protecting us from the threat of chemical terrorism so that our plants and communities are secure, and manufacturing facilities can continue to meet the needs of the American consumer, the American worker, and the American economy.

Seventh, this legislation distinguishes facilities that are already regulated by Federal law to prevent terrorism consequences. This includes drinking water and Maritime Transportation Security Act (MTSA) facilities. Some misread this distinction as meaning drinking water and maritime transportation facilities do not get protection. On the contrary, the protection from terrorism we've already given them is so good we don't want conflicting regulatory programs to interfere.

We don't want DHS, which is not an environmental or public health agency, setting de facto drinking water standards under the guise of security regulations. Both the Public Health Security and Bioterrorism Preparedness and Response Acts and presidential directives on homeland security place EPA in charge of drinking water facilities. Let's keep it there.

Eighth, this legislation requires DHS to audit and inspect chemical facilities to ensure compliance. Further, any facility not in compliance faces civil penalties and those facilities who do not obey an order to take corrective action face the prospect of being forced to cease operation. Considering its consequences for dedicated workers and its downstream impacts on interstate commerce, I trust this power would be used, if ever, only as a last resort.

Last, this legislation prevents private rights of action against the chemical facility solely as a means of private parties enforcing the security provisions in this section. This bar against third-party suits does not extend to any presently existing right a person might have under any other law. Simply, this provision prevents self-deputized persons from using the courts to enact national security policy.

Mr. Speaker, imperfect as the chemical security section is, it is better than current law and should make us a more secure nation. I urge all my colleagues to support its inclusion in this bill and adoption of the conference report.

Ms. LEE. Mr. Speaker, two years after the bipartisan 9/11 Commission gave the Republican led Congress and this Administration failing grades for their efforts to secure our nation, they are still failing the American public.

Take the issue of port security for example.

The Coast Guard has identified over $7.3 billion in port security needs over the next decade, yet since 2002 we have barely provided $900 million.

Four days ago the Homeland Security Department announced its latest round of port security grants and not one single penny was given to the Port of Oakland in my district, even though it is the fourth busiest container port in the country.

Instead of spending money to secure the Port of Oakland and all our nation's ports, we are spending nearly $2 billion a week—over $321 billion so far—to fight this unnecessary war in Iraq.

A war which our intelligence services are now telling us is spawning a whole new generation of terrorists and making us less safe.

Mr. Speaker, we should be spending taxpayer dollars to secure our nation, not to create new terrorists.

While I support the funding in this bill, I believe we need much more.

Democrats have proposed a new direction for America that delivers on our homeland security needs. It's time for a change, Mr. Speaker.

Mr. ORTIZ. Mr. Speaker, while this bill provides important funding that is very late in coming for our border security, there are still holes in the funding Congress has passed . . . and what the 9/11 Commission said was the least the Congress should do to combat the terrorist threat.

Let us use the Intelligence Reform bill that became law in December, 2004, as a benchmark of what this nation must do to try and control the security of our borders: the bill mandated 10,000 Border Patrol agents over 5 years (2,000 annually) and 40,000 detention beds over 5 years (8,000 annually).

Here is a compilation of all the funding bills the Congress has passed that have become law—including the bill passed today, laying out how many Border Patrol agents and how many detention beds we have actually funded: Emergency Supplemental in 2005 (Passed May 2005), 500 Border Patrol Agents, 1,950 Detention Beds; FY06 Homeland Security Conference Report (Passed October 2005), 1,000 Border Patrol Agents, 1,800 Detention Beds; Emergency Supplemental in 2006 (Passed June 2006), 1,000 Border Patrol Agents, 4,000 Detention Beds;

Add in what we are passing today:

FY07 Homeland Security Appropriations Bill, 1,500 Border Patrol Agents, 4,870 Detention Beds;

Our grand total of what we should have done according to the 9/11 Commission to date is: 4,000 Border Patrol Agents and 16,000 detention beds. While we are finally caught up on paying for the least the 9/11

Commission said we should do for Border Patrol agents, we are still 1,550 short on detention beds.

Never let it be said that we did the least we could do—this Congress is paying for less than what the 9/11 Commission said was the least we should do. And let me add that it took a national guilt trip and backlash to get this Congress to pay for the least amount of Border Patrol agents the 9/11 Commission demanded.

What has appalled so many of us is that DHS is releasing thousands of illegal immigrants into the general population of the U.S. because they simply do not have the detention space to hold them. These illegal immigrants—also referred to as OTMs (other than Mexicans)—are given what they call "walking papers" and are released on their own recognizance with an order to appear at a deportation hearing weeks after their release.

In fact, they are asked where they are traveling to in order to give them a hearing near their final destination. Of course, they rarely return. This is hurting the morale of our U.S. Border Patrol Agents and it is a misguided process.

Because of "catch and release" the number of immigrants who have come across our borders has significantly increased. According to the April 2006 Department of Homeland Security Inspector General report here's what underfunding border security means: 774,112 illegal immigrants were apprehended during the past three years. Of those, 280,987—or 36 pecent—were released largely due to a lack of personnel, bed space and funding.

Our willful neglect of our border security had galled our fellow citizens. As a political gesture, this Administration and this Congress want to build a wall and militarize the border? That's not what we need. We need to keep our promises to the American people and fund the promises we made.

We must send a clear message that when you cross our borders illegally, you will be caught and detained. I get our desperate fiscal situation. But compromising border security is not the way to trim the deficit.

At some point, this Congress must deal with the national security risks that remains with the very large number of OTMs released into the general population who are still unaccounted for. Funding the effort to locate all the released OTMs is going to make paying for the minimum number of agents and beds seem like child's play.

Mr. ROGERS of Kentucky. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

Pursuant to clause 10 of rule XX, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed a bill of the following title in which the concurrence of the House is requested:

S. 3661. An act to amend section 29 of the International Air Transportation Competition Act of 1979 relating to air transportation to and from Love Field, Texas.

WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 5122, JOHN WARNER NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2007

Mr. COLE of Oklahoma. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1062 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 1062

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 5122) to authorize appropriations for fiscal year 2007 for military activities of the department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. The gentleman from Oklahoma (Mr. COLE) is recognized for 1 hour.

Mr. COLE of Oklahoma. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentlewoman from California (Ms. MATSUI), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. COLE of Oklahoma. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and attach tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. COLE of Oklahoma. Mr. Speaker, today, the Rules Committee met and reported a special rule for consideration of H.R. 5122, the fiscal year 2007 National Defense Authorization Act. The rule waives all points of order against the conference report and against its consideration and provides that the conference report shall be considered as read.

Mr. Speaker, I rise in support of the rule for H.R. 5122 and the underlying legislation. Today, we are at a critical juncture. The conference report for the fiscal year 2007 National Defense Authorization Act is before us. This legislative companion to the fiscal year 2007 defense appropriations bill authorizes and provides critical legislative language for full implementation of our defense policies.

Let us be clear: This is an excellent piece of legislation, a good bipartisan package that represents the best work of the House Armed Services Committee. Recognizing that, I would like to personally thank both the gentleman from California, Chairman HUNTER, and the gentleman from Missouri, Ranking Member SKELTON, for delivering a package that I am sure almost all of us can support.

Mr. Speaker, having served on the House Armed Services Committee and currently being a member on leave of absence from that committee, I know how closely the members of that committee work together to achieve a bill that is bipartisan, that is good for our servicemen and women and that is good for increasing the security of our country.

Mr. Speaker, this year, the Armed Services Committee produced a bill that contains several major legislative initiatives and funding impacts. Among them are an additional $70 billion in supplemental bridge funding to support the war on terror's operations costs; personnel expenses and procurement of new equipment; additional funding for force protection needs in support of Operation Enduring Freedom and Operation Iraqi Freedom, including up-armored Humvees, Humvee IED protection kits and gunner protection kits, IED jammers and state-of-the-art body armor; a 2.2 percent pay raise for all members of our Armed Forces; and an increase of 30,000 personnel for the Army and 5,000 personnel for the Marine Corps to help them sustain their required missions.

□ 1600

The bill blocks the Department of Defense proposed TRICARE Prime, Standard, and Select Reserve fee increases. The bill authorizes grants and loan guarantees to U.S. shipyards to approve their efficiency, cost effectiveness, and international competitiveness. The bill fully funds the immediate Army and Marine Corps shortfalls for replenishing supplies and replacing equipment in the amount of $17.1 billion for the Army and $5.7 billion for the Marines.

Mr. Speaker, more importantly this legislation directly supports our servicemen and -women in the field and on deployment. Operations in Iraq and Afghanistan are dependent on us passing this legislation that contains so many changes in legislative language.

Mr. Speaker, a bumper sticker we often read says: "I support our troops." Today we have that opportunity and responsibility. We could support our troops and improve the security of our Nation in a way that other Americans cannot. We can offer our vote in support of this legislation as 60 of 61 members of the House Armed Services Committee did when they initially passed the bill.

This is not a controversial proposition. This is something we should be proud to do, regardless of our perspectives and different positions on the war in Iraq. All of us are proud of our troops. All of us are committed to them and commend them for their courage and their professionalism, and all of us will do everything we can to increase their safety and effectiveness.

Mr. Speaker, I would be remiss if I did not also note that the Afghan and the Iraqi people also deserve to be commended for their efforts in our common struggle. During this war, the citizens of both these countries have held elections, written constitutions, and formed permanent governments. Afghan and Iraqi citizens are watching what we do here today. They require and request our continued support as they move forward in their efforts to build new and better countries. The passage of this rule and underlying legislation is an important sign that this country and Congress will keep its commitments. Afghanistan and Iraq are striving to create a future of hope and promise. We can play an important role in helping them do that here today.

Mr. Speaker, many may wish to raise policy issues in this debate. Some may want to discuss issues that, however important, are superfluous to providing for the needs of our men and women in uniform. And I welcome that exchange, if indeed it occurs.

Mr. Speaker, I believe we should focus on what should count. We have committed hundreds of thousands of our service men and -women to fight terrorism and advance the cause of freedom in Iraq and Afghanistan. We owe them our full support in the battles they wage on behalf of the American people and the cause of liberty. This rule and the underlying bill represent the efforts of Congress to keep that solemn commitment to the sons and daughters of America. Mr. Speaker, to that end, I urge support for the rule and the underlying bill.

I reserve the balance of my time.

Ms. MATSUI. Mr. Speaker, I thank the gentleman from Oklahoma for yielding me the customary 30 minutes, and I yield myself such time as I might consume.

Mr. Speaker, the rule before us makes in order a conference report for the fiscal year 2007 defense authorization bill. The underlying agreement has been a long time in the making, and I am happy to report that it is a clean agreement. I applaud the conferees for refraining from adding extraneous provisions. This bill is about our troops, and I appreciate the Members preserving that focus.

I am not unsympathetic to the desire of many Members in this Chamber to do more before we adjourn. As my colleagues and I have been urging all week, Congress should not leave town without allowing for floor debate on the American people's priorities. These include fully implementing the 9/11 Commission recommendations, allowing a clean vote to increase the minimum wage, and restoring the massive cuts in student financial aid passed by this Congress earlier this year. Despite being the waning hours of this Congress, there is still time to conduct the business of the American people. There is certainly time for debate and a vote on these other urgent priorities.

But to return to the rule we now debate, it allows for consideration of a bill of our national defense and it is a good agreement.

When H.R. 5122 was first considered by the House, I discussed that this bill serves two critical roles: first, as a planning blueprint in order to ensure that our military has the resources and tools to meet any threat from abroad; and, second, to provide for the men and women on the front line of our Nation's defense.

I am happy to report that the conferees kept both of these goals in mind in crafting this responsible agreement. It goes far in the support of the most professional and dedicated military in the world.

The agreement does not permit increases in the military's TRICARE prescription drug program, as the House version of this bill would have done. That is a very good thing. Our men and women in uniform should not pay more to access their benefits, particularly in a time of war.

Additionally, the agreement also maintains a critical role of our military chaplains and what they play in the spiritual lives and health of our troops. In a time of war, we cannot afford to change the rules in ways which may degrade readiness and unit cohesion.

Finally, Mr. Speaker, I appreciate that conferees preserve the wisdom in the underlying bill, which preserved the troop strength of our National Guard. The tragedy of Hurricanes Katrina and Rita, the annual wildfires in my home State of California and other parts of the West, as well as many members of the Guard called to duty in Iraq, demonstrate the numerous demands placed on the Guard and the important role they play.

For all that we ask of them, these individuals, be they members of the Army, Navy, Air Force, Marine Corps, Reserves, or National Guard, ask very little of us in return. What they ask is that we provide the equipment they need to get the job done, provide for them, provide for their family. And the agreement we have before us today would do that. I thank the conferees for their efforts to craft this compromise.

Mr. Speaker, I reserve the balance of my time.

Mr. COLE of Oklahoma. Mr. Speaker, I would like to yield such time as he may care to consume to the distinguished chairman of the Rules Committee, the gentleman from California (Mr. DREIER), who does so much to make sure that we operate in an orderly and expeditious fashion in this Congress.

Mr. DREIER. Mr. Speaker, I rise in strong support of this rule and the conference report. I want to begin by congratulating Mr. COLE and Ms. MATSUI for their management of this rule and to say that this is a great example of bipartisanship.

Our friends DUNCAN HUNTER and IKE SKELTON have worked very closely on this bill, which is, if I recall, $562.8 billion. It includes that $70 billion bridge fund, a 2.2 percent increase which is part of a 40 percent increase over the past 8 years that has been provided for our men and women in uniform. It is a very important thing as we continue to fight this ongoing struggle against terrorism that we are dealing with all over the world.

Only the United States of America can provide the kind of leadership that is being provided today. And, Mr. Speaker, I believe that it is absolutely essential that this Department of Defense authorization bill continue to set the example of bipartisanship in our quest to win that war against terrorism.

The reason that I wanted to take a few minutes here, Mr. Speaker, is that I wanted to underscore the fact that our reforms are working.

Now, why would I be talking about the issue of reform as we bring up the Department of Defense conference report's rule? It is the fact that this is the first time in a conference report that we have actually had a required listing of the so-called earmarks, items that were not included in either the House-passed authorization bill or the Senate-passed authorization bill. We use this term "air dropped."

There are five particular provisions, Mr. Speaker, that have been listed. This list is now made available, and the American people, our colleagues and the American people through the media, and obviously this is online, can see exactly what items were provided. And it enjoyed bipartisan support this reform. We had Democrats, whom I am happy to say joined with us in our quest to reform. Very few, but we had some Democrats joined with us in our quest to ensure that we could have greater transparency, disclosure, and accountability so that the American people will be able to see on these very important items that relate to our Nation's defense capability. They now don't have those hidden; they are in fact open for everyone to see, and that is a reform led by Speaker HASTERT that we have been able to implement. And I want to thank Speaker HASTERT and Majority Leader BOEHNER for, as we were going into the August break, making a commitment.

The three of us introduced the legislation that called for this rule change, and we were able to implement it expeditiously; and it is now in effect, and this conference report is the first time that we have seen it.

So I just want to join in extending congratulations again to Messrs. HUNTER and SKELTON and all of those who have been involved in this process and to say that we look forward to the passage of this rule, of course, and passage of the legislation.

Ms. MATSUI. Mr. Speaker, I yield 5 minutes to my good friend, the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Speaker, I rise in opposition to this rule and to the underlying bill. And I do so because of a ridiculous earmark, despite what the Rules Chairman has just stated, which was added by Chairman HUNTER in order to keep the public out of a national park, which happens to be in my district, the Channel Islands National Park.

This provision monkeys around with a court settlement to end a lucrative privately run trophy hunting operation on Santa Rosa Island.

The owners of the elk and deer herds, the Vail family, were already paid $30 million by taxpayers when they deeded over the island back in 1986. They were supposed to end this hunting operation in 2011. A trophy hunt, which, by the way, costs hunters up to $17,000 per weekend, shuts the island to park visitors for 5 months out of each year. Mr. HUNTER is seeking to allow private hunting in the park to go on indefinitely, and this will result in more lawsuits.

One might wonder why this provision is in a bill which deals with supporting our troops. The proposals and reasons behind it have evolved over time. At one point it was to establish a hunting preserve for the military's top brass and their guests. When that didn't fly, it was quickly changed to making Santa Rosa a place for disabled vets to hunt. But when the paralyzed veterans of America actually went to the island, they told Chairman HUNTER, and I quote, "the Santa Rosa initiatives is not viable."

Then the provision morphed into saving the animals from extinction. That is right. The intention is that we are going to save the animals, though they continue to be hunted indefinitely and on the island. This provision is opposed by the Park Service, the PVA, the Humane Society, and many public lands groups. Even the U.S. Senate unanimously passed a resolution against this proposal.

So why is it in the bill? Who knows. What we do know is that taxpayers who paid $30 million for the island are now being told by our chairman they can't visit it for nearly half the year. This is an insult to our constituents, to all taxpayers. It is also an insult to our troops whose service to this country is being used as a cover for this special interest boondoggle.

Now, I know the underlying bill will pass by a wide margin, and I understand that. I also know that this House has never endorsed this proposal. And given the opportunity for an up-or-down vote, I am sure they would agree with me. And so this is yet another sad day for taxpayers, for our national parks, and for this House.

PVA,
July 26, 2006.

Hon. VIC SNYDER,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE SNYDER: On behalf of the Paralyzed Veterans of America (PVA), I am responding to your inquiry regarding efforts to provide hunting opportunities for paralyzed and disabled veterans on Santa Rosa Island. While PVA applauds the efforts by Chairman Duncan Hunter to open hunting and outdoor venues for our members, other disabled veterans and current service members we have come to the conclusion that the Santa Rosa Island initiative is not viable. PVA has sent one of our members to the island and we have explored possible solutions to the challenges posed by the site; however, it is our opinion that the numerous obstacles inherent to the island, including ingress and egress, logistics, personal safety and cost, far outweigh the possible, limited benefit it could provide.

It is our hope that the concept of expanded hunting and outdoor opportunities on federal facilities for our members, other disabled veterans and service personnel will continue to receive the attention of Congress. Chairman Hunter's efforts should serve as a starting point for future initiatives to provide accessible venues for both veterans and active duty personnel. We would be happy to work with you and other members to explore alternatives to this issue and identify other opportunities across the country that may afford veterans expanded options.

Sincerely,

DOUGLAS K. VOLLMER,
Associate Executive Director
for Government Relations.

DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, DC, July 21, 2006.

Hon. DUNCAN HUNTER,
Chairman, Armed Services Committee,
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Department of the Interior would like the opportunity to provide its views on section 1036(c) of H.R. 5122, the National Defense Authorization Act for Fiscal Year 2007, as approved by the House of Representatives.

We recommend deletion of section 1036(c) in order to ensure that the National Park Service is able to continue its progress toward the recovery of native species and providing year-round access for other recreational activities on Santa Rosa Island.

Section 1036(c) states that "[t]he Secretary of the Interior shall immediately cease the plan, approved in the settlement agreement for case number 96–7412 WJR and case number 97–4098 WJR, to exterminate the deer and elk on Santa Rosa Island, Channel Islands; California, by helicopter and shall not exterminate or nearly exterminate the deer and elk."

We believe section 1036(c) is intended to overturn this settlement agreement that prescribes a phase-out of the privately-owned deer and elk from Santa Rosa Island, culminating in their complete removal by the owners by December 31, 2011. The National Park Service is party to that settlement agreement and stands by its terms. Fulfillment of the agreement is necessary to accomplish the purposes for which the National Park Service acquired Santa Rosa Island.

The National Park Service purchased Santa Rosa Island for $30 million in taxpayer funds in 1986 after Congress included the 54,000-acre island as part of Channel Islands National Park in 1980. The purpose of this acquisition was to restore the native ecology of the island and open it to the public for hiking, camping, sightseeing, and other recreational activities. Although hunting is usually not allowed in National Parks, a private hunting operation for deer and elk was permitted to continue under a special use permit at the request of the owner, who had retained a 25-year reservation of use and occupancy (through 2011) in 7.6 acres on the island. Subsequently, the settlement agreement provided for the phased elimination of the deer and elk population.

Elimination of the nonnative deer and elk is needed to allow native plant and animal species, including some that are endangered and threatened, to flourish on the island. Also, more visitors will be able to enjoy the island after the closure of the deer and elk hunting operations that currently close about 90 percent of the island to National Park Service visitors engaged in other recreational activities for 4 to 5 months every year.

Section 1036(c) also raises several other issues. It gives direction to the Secretary of the Interior with respect to the settlement agreement, yet the Secretary is not responsible for removing the deer and elk from the island—the former owner of the island, who retains ownership of the deer and elk, is responsible for their removal. Furthermore, 1036(c) suggests that the National Park Service has an approved plan to exterminate the deer and elk by helicopter, yet no such plan exists. In fact, as already noted, the deer and elk are the property of the former owner of the island and, under the terms of the settlement agreement, must be removed by them. Only if the deer and elk become extraordinarily difficult to remove would the National Park Service share the cost of removing the animals, which could include the use of helicopters.

Again, thank you for the opportunity to provide these comments. The Office of Management and Budget has advised that it has no objection to this letter from the standpoint of the Administration's program.

Sincerely,

ACTING ASSISTANT SECRETARY,
Fish and Wildlife and Parks.

THE HUMANE SOCIETY,
August 7, 2006.

Hon. JOHN WARNER,
Chairman, Armed Services Committee,
U.S. Senate, Washington, DC.
Hon. CARL LEVIN,
Ranking Member, Armed Services Committee,
U.S. Senate, Washington, DC.

DEAR CHAIRMAN WARNER & SENATOR LEVIN: On behalf of the more than 9.5 million members and constituents of The Humane Society of the United States (HSUS), the nation's largest animal protection organization, I urge you to reject efforts by House Armed Services Committee Chairman Duncan Hunter to establish a hunting reserve on Santa Rosa Island in California.

The HSUS urges you to follow the guidance provided by S. Res. 468, the Senate resolution that deemed that the Channel Islands should be managed in a manner consistent with the mission of the National Park Service. This would preclude establishing a hunting operation on the Channel Islands, as advocated by Chairman Hunter.

Chairman Hunter's proposal to keep Santa Rosa Island open to guided trophy hunts of deer and elk under the guise of a benefit to disabled veterans is not only inhumane and unsporting, but is also opposed by the Paralyzed Veterans of America and the local community. It is also opposed by Representative Lois Capps, whose district includes the Channel Islands. Trophy hunting on this island is not viable for disabled veterans, and is not consistent with the wishes or the mandate of the National Park Service.

Although a large island, the deer and elk managed for trophy shooting have no opportunity to escape their pursuers. It is effectively a "canned" hunt. Conservation groups, hunters and animal protection organizations have openly agreed in their opposition to canned hunts. Canned hunts are commercial enterprises conducted under circumstances that generally guarantee a kill. Canned hunts can all be identified by the two traits they have in common: (1) they charge their clients a fee to kill an animal; and (2) they violate the generally accepted standards of the hunting community, which are based on the concept of fair chase, by eliminating escape possibilities. Our national park land should be safe havens for animals, not privileged playgrounds for a small group of trophy hunters.

We hope you will omit Rep. Hunter's language to establish a canned hunting operation on a unit of the National Park Service in the final version of the FY07 National Defense Authorization Act.

Sincerely,

WAYNE PACELLE,
President & CEO.

NATIONAL PARKS
CONSERVATION ASSOCIATION,
Washington, DC, September 8, 2006.

Hon. JOHN W. WARNER,
Chairman, Committee on Armed Services,
U.S. Senate.

DEAR MR. CHAIRMAN: On behalf of the 327,000 members of the National Parks Conservation Association, I am writing to express our strong opposition to Section 1036(c) of the House-passed National Defense Authorization Act, which attempts to nullify a court-approved settlement agreement in a lawsuit regarding the management of the Channel Islands National Park. I urge you not to include this harmful provision in the conference report on the DOD bill.

Under the terms of the Settlement Agreement in this proceeding (NPCA v. Kennedy. Civil Action Number 96–7412 WJR) non-native deer and elk are to be removed from the Park's Santa Rosa Island, and the lucrative private hunting operations on the island, which undermine restoration efforts and limit public access to the park, are ended by the year 2011. The onerous language in the House bill attempts to alter that agreement by forestalling removal of the animals.

The ostensible purpose of the language is to create a hunting preserve for among others, disabled veterans, but the Paralyzed Veterans Association has stated unequivocally that Santa Rosa Island is not suitable for that purpose because of its rugged terrain, accessibility, and cost. This altogether worthy idea is in fact addressed in another section of the bill [Section 1036(a)(b)] which would provide increased hunting and fishing opportunities for disabled veterans and other armed service personnel at many existing, suitable DOD owned locations throughout the country.

On August 6th of this year, the Senate passed S. Res. 488, supporting the continued administration of the Channel Islands National Park, including Santa Rosa Island, in accordance with the laws, regulations, and policies of the National Park Service. The Congressional mandated purpose of the park is, "to protect and interpret the internationally significant natural, scenic, wildlife, marine, ecological, historic, archeological, cultural and scientific values of the Channel Islands." The Senate is, therefore, clearly on record in strong support of restoring, managing, and providing public access to all the Channel Islands as required by the terms of the court directed Settlement Agreement.

The National Park Service is strongly opposed to this provision, the Department of the Interior has recommended deleting the provision from the bill, and the Department of Defense has never requested it. This unrelated and non-jurisdictional controversy has no place in an important defense authorization bill. If Section 1036(c) is enacted, as a party to the court's Settlement Agreement, we will have no choice but to pursue every legal means available to preserve the settlement's integrity. I hope that will not be necessary and that you will drop this ill-conceived, unwarranted and damaging provision from the final Defense Bill.

Sincerely,

THOMAS C. KIERNAN,
President, National Parks
Conservation Association.

Mr. COLE of Oklahoma. Mr. Speaker, I yield such time as he may care to consume to the distinguished chairman of the Armed Services Committee, Mr. HUNTER, from California.

Mr. HUNTER. Mr. Speaker, I thank the gentleman for yielding. And the only reason I am rising is to set straight the record which, sadly, has been not accurate that has just been laid out by my colleague, the gentlewoman from California.

I was taking a bunch of marines who were up hunting up in northern California down the California coastline, and one of them brought up the point that Santa Rosa Island off the coast, which is owned by a private company and which has deer and elk on it, was going to see those deer and elk exterminated, and wouldn't it be a great place for our wounded people returning from Iraq and Afghanistan, rather than exterminating these animals with helicopters in the end, which is in the court order, to allow our people who like to pursue hunting in the Armed Forces who have been wounded to have a place to go and have a great time with their families.

☐ 1615

Taking that under advisement, I put a provision in to allow that to happen. I have never put in a provision that was intended to have the Navy brass or VIPs or Army brass or Marine Corps brass out there hunting. This is for wounded people, and right now it is operated by a private company.

The ranching family, whom I have never met, I will tell the gentlewoman I have never met them. I have never had discussions with them, except one of them called up and asked me to tell the Park Service that I have never met him because my name was an anathematism. We say simply, listen, the island is going to be turned over by the private family to the Park Service in 2011. The court orders that all the animals be wiped out, be exterminated, be killed; the entire herd be killed. All we say is, don't exterminate the animals. Don't shoot them from helicopters, as the court order now directs. Let the herd stay and let us let our disabled veterans hunt.

Now we had the Paralyzed Veterans go over and check out the island. They wrote a letter back saying this is not their cup of tea. It is pretty rough terrain. It is hard to get over to the island. That is why almost nobody from the public comes over. The number of people who visit this 50,000-acre island per day, it is extremely small. There are almost more Park Service people on the island than there are members of the public. And this would only be for a short time during the year.

All we are asking is that they don't shoot the animals, don't exterminate them, and they let the disabled veterans hunt.

Now after the Paralyzed Veterans said this is not our cup of tea, because of the spartan circumstances over there, it is going to be tough for people with spinal cord injuries to really enjoy this island, so the Wound Warriors went over.

That is a great organization that takes wounded GIs and Marines and Navy and Air Force personnel, takes them skiing, takes them on outdoor outings and shows them a good time. They went to the island, and the report I got back, and I will give the letter to the gentlewoman, said they really enjoyed it. They really liked it, and they would like to have this opportunity. All we say is, don't exterminate the herd. That is the real import of this bill.

What I would like to see is a situation in which those people, only those people, only disabled American veterans get to hunt there. Because it is a wonderful outing. They can take their families. Their families can visit the seashore. They can take pictures. They can have a wonderful outdoor time while these people who gave so much to our country have a special place to go.

They don't have to pay any money because this will be when it is turned over to the government by the ranch family. All we are saying to the ranch family is, when you turn it over, don't exterminate the deer and elk. Leave them for the veterans. That is all they have to do. Inaction is what we are asking for.

I would tell the gentlewoman she has my word I will never hunt on that island. The only thing I will do is help the wounded veterans get over and help them in any way to have a good time. I think this is absolutely appropriate. It is not going to push a single member of the public off that island. Almost nobody goes to it right now because it takes a boat ride or plane ride to get to that island. This will bring happiness to many, many military families. I think it is appropriate that we do this.

Mr. Speaker, I look forward to the time when maybe the gentlewoman and I could go over with some of our wounded guys and watch them having a good time over there and agree that this is a good thing.

I thank the gentleman for letting me speak.

Ms. MATSUI. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Mrs. CAPPS) to respond.

Mrs. CAPPS. Mr. Speaker, just in response, because I am happy to accompany the chairman any time he wishes to go to the island. I have been there. There have been many thousands of visitors this year. Yes, it is a rugged place. That is one of the appeals of it. Much of the natural resource that is there, cultural and animal and flora, that have been destroyed in part by first the cattle, now the cattle are gone, and by the deer and elk, it is a prized area for archaeologists and others to understand the history of the geography of our country. That is one of the reasons to remove the elk.

Extermination has been ameliorated by the Park Service's interest, and an invitation has already been extended to offer support to the family in removing without injuring the animals at the appropriate time after the settlement has been arranged.

It is also the case that the park superintendent is looking forward to an opportunity to make this island more accessible to those with disabilities. Veterans are not excluded from the island, nor would they ever be.

Also, hunting has been especially provided for our veterans on all kinds of public lands, including many military bases, as I am sure the chairman already knows. That is why the Paralyzed Veterans said there are many other places we can hunt, and now they would be extended an opportunity with special accommodations to visit the island like the rest of the public has.

There have been many attempts on the part of the Park Service, and this will continue, to reach out to people with special needs to make available the wonderful resources on the island.

I am happy to take the chairman up on his invitation to visit the island.

Mr. COLE of Oklahoma. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. HUNTER).

Mr. HUNTER. That island is over 50 square miles. Can the gentlewoman tell me how many people from the public visit the island per day on a given day?

I yield to the gentlewoman.

Mrs. CAPPS. I don't have those numbers, but I can certainly make them available to you. Even with it being off limits to the public 5 months of the year, it is either 5,000 or 8,000 visitors that were out there last year. Part of the attraction of the island is its remoteness and the fact that it is set apart.

Mr. HUNTER. Reclaiming my time, if there are 5,000 people per year, that means roughly 20 people per day on that entire island. That's 5,000 people. With 365 days a year, 10 people a day, so 3,000 people and if you double that, 20 people a day for 50-square miles. That means there is one visitor from the public per 2 square miles on that island per day.

Now we have many, many places in America where we have mixed use, where you have hunters and fishermen and members of the public. These disabled veterans, they are not going to push anybody off the island. If you compare that to our other parks like Yosemite, with thousands of peole coming per day, 10 or 20 people per day on a 50-square mile is no density whatsoever.

In fact, I bet you that the park employees, the U.S. Government employees, on many days outnumber, because there are more than 20 of them at any time on the island, I bet you they outnumber the number of visitors.

I will tell the gentlewoman, because you have to take a boat trip or an airplane to get to that park, you will never have the type of visitors you get in parks where people can drive up. So that makes it perfect for these wounded people, these great American veterans, to come on over and have a great outdoor experience.

Ms. MATSUI. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, the rule before us makes in order a balanced agreement on the fiscal year 2007 Defense authorization bill. I urge all Members to support its adoption.

Mr. Speaker, I yield back the balance of my time.

Mr. COLE of Oklahoma. Mr. Speaker, I yield myself the balance of my time.

Today, in closing, I want to reiterate the importance of passing this rule. This rule allows us to move forward and pass necessary legislation and do the business of the American people.

Mr. Speaker, I particularly again want to thank the distinguished chairman of the House Armed Services Committee, the gentleman from California (Mr. HUNTER), and also the ranking member, the distinguished gentleman from Missouri (Mr. SKELTON). They have worked together on this legislation and presented us with a truly model bill and one I think they adjusted during the legislative process to meet the needs of American men and women who are serving under very difficult circumstances to protect this country.

I particularly appreciate the fact that they made sure that these deserving individuals got a pay raise, that they made sure that the people who defended the country in the past were not subjected to unnecessary fee increases in the Tricare system, and they worked hard to shift funds towards force protection and the protection of individual American soldiers. And, at the same time, they addressed the very, very serious and critical needs of the Army and Marine Corps in terms of additional personnel and additional equipment.

I think the chairman and the ranking member can be exceptionally proud of their efforts, and I think all of us can appreciate the bipartisan spirit that the members of the House Armed Services Committee acted in, and I am sure when we vote later today we will have a strong vote in support of the legislation.

Obviously, it comes as no surprise that I intend to vote for the rule and the underlying legislation. I urge my colleagues to do the same.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

RESIGNATION FROM THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore (Mr. MURPHY) laid before the House the following resignation from the House of Representatives:

HOUSE OF REPRESENTATIVES,
Washington, DC, September 29, 2006.

Hon. J. DENNIS HASTERT,
Speaker, House of Representatives,
Capitol Building, Washington, DC.

DEAR MR. SPEAKER: I hereby resign as the representative of the 16th Congressional District of Florida, effective today.

Sincerely,

MARK FOLEY,
Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, DC, September 29, 2006.

Hon. JEB BUSH,
Governor, State of Florida,
Tallahassee, FL.

DEAR GOVERNOR BUSH: I hereby resign as the representative of the 16th Congressional District of Florida, effective today.

Sincerely,

MARK FOLEY,
Member of Congress.

JOHN WARNER NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2007

Mr. HUNTER. Mr. Speaker, pursuant to House Resolution 1062, I call up the conference report on the bill (H.R. 5122) to authorize appropriations for fiscal year 2007 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 1062, the conference report is considered read.

(For conference report and statement, see proceedings of the House of today.)

The SPEAKER pro tempore. The gentleman from California (Mr. HUNTER) and the gentleman from Missouri (Mr. SKELTON) each will control 30 minutes.

The Chair recognizes the gentleman from California.

GENERAL LEAVE

Mr. HUNTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. HUNTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me start out by saying this is a tough job for a lot of our members of the committee and the subcommittees that make up the Armed Services Committee. It involves a lot of travel to the warfighting theaters. Almost every member on our committee has gone multiple times to Iraq and Afghanistan. It involves a lot of time away from families and a lot of tough work in committees. It involves a lot of analyses to try to figure out how to manage the logistical problems of all of the problems that attend the war fight in two theaters, Iraq and Afghanistan, and the war against terror around the world, and at the same time look over that horizon and try to exercise some vision as to what the next conflict may be and what we have to do to prepare for the future.

Let me tell you, Mr. Speaker, I could have no better partner in that endeavor than the gentleman from Missouri (Mr. SKELTON).

□ 1630

Mr. SKELTON is a tremendous, tremendous guy. And he has got kind of a corporate memory in terms of military history. He has got a recommended reading list for all of us. He analyzes the present situation through the prism of history. We all appreciate that. And today we actually dressed in uniform. That is amazing. And without design, I might say. We simply came in with the same outfits because this is the military and you have got to be in uniform.

Mr. Speaker, this is an immense bill, $532-plus billion. We did something very unusual in this bill and I think unprecedented, and that is that we added to the bill that includes lots of money for force protection, for body armor, for up-armored Humvees, for surveillance capability to fight the IED war in Afghanistan and Iraq, lots of things to support the troops, and, of course, all of the quality-of-life issues for the troops.

This pay raise this year means that over the last 80 years, we will have increased pay by a little more than 40 percent for our men and women in uniform. The base readiness of our forces and military construction and all the things that combine to make America's defense apparatus the strongest in the world, we did all of that, but this year we did something extra. We asked the Army and the Marine Corps to come in and testify to our committee, largely in classified session, as to what shortages they had that they needed to be funded so that they could take the tanks, the trucks, the fixed-wing aircraft, and the helicopters and all the other platforms and pieces of equipment for the Marines and the Army and reset them, that is, repair them as they come off the battlefield so that they can be ready to go again.

A massive analysis. And they came forth and they gave us that analysis. And when we got finished, we funded, we authorized on top of the defense budget $20-plus billion to make up the total reset cost, every dime, that was submitted to us by the United States Marine Corps and the United States Army. And the appropriations committees, God bless them, did the same thing and followed the authorizing committees on that. And that is a tribute, I think, to all of our Members, all of our colleagues who worked on and voted on that very important piece of funding.

So, Mr. Speaker, this is a great bill. I want to mention that we have wonderful members on both sides of the aisle that make up this committee.

And JOEL HEFLEY is leaving after many, many years, a great personal friend and a guy who is kind of architect of privatization of housing so that American military families, many of whom were living in homes that were built 40, 50, 60, and 70 years ago and were under some sort of disrepair, now live in new homes that afford a great quality of life. And many of the developments now that they have come in and built on military bases have community centers. I have been in a number of them, where families can come in and enjoy swimming pools and recreation and moms can come in and work out and have their toddlers in a little room right off the exercise room and keep watch on their kids while they are having a little relaxation and a little rest and where families can get together for social activities.

This new military construction that is springing up all over the United States at our bases is largely a function of Mr. HEFLEY's foresight and vision, and he is leaving us after those many years. I have often said JOEL HEFLEY was the best cowboy in Congress. He used to rodeo with the great Casey Tibbs and a number of other rodeo greats. He is a wonderful guy whose word was his bond and still is, and we wish him the very best.

And along with him now leaving us and running for Governor in Nevada is Mr. JIM GIBBONS. JIM GIBBONS also brought a great deal of background and expertise to our committee. As a fighter pilot who worked the Desert Storm I operation and who understands tactical aircraft as well or better than any member of the Armed Services Committee or the full House, JIM GIBBONS brought a special insight to our committee. He also brought a great love for the National Guard and has been a great and powerful advocate for them. I know he is going to continue to do that in his new role. But JIM GIBBONS, like JOEL HEFLEY, is one of those quality guys that you just enjoy working with and you know when he comes to the job every day, he cares about the service, he cares about the people that wear the uniform.

There is a real joy in working on this committee, Mr. Speaker, and those gentlemen are people that every one in this House likes to work with and understands the value added that they bring every time they walk into this Chamber or into the committee room. So our many, many thanks to them.

With that, Mr. Speaker, I would like to listen to my great colleague, who had a great taste in coats today because we came with exactly the same outfits here. Mr. SKELTON, the fine gentleman from Missouri, has done a wonderful job working on this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. SKELTON. Mr. Speaker, let me take this opportunity to thank my friend from California for being such a gentleman and for his courtesy not just this year but through the years. We appreciate it very, very much and also his very thoughtful words a moment ago. Mr. Speaker, we thank DUNCAN HUNTER very much.

Leaving us is LANE EVANS, a gentleman who was a marine and served here and is on the top row of our committee, ranking member for so long for the Veterans' Affairs Committee; and we say a fond farewell to him and thank him for his excellent service to the Nation.

JOEL HEFLEY, who, as the chairman has spoken so well of, has been such a good friend to all through the years. JIM GIBBONS, who is going into other political pursuits, we certainly wish him well. Dr. SCHWARZ, CYNTHIA MCKINNEY also will not be coming back. We wish them Godspeed in the days ahead.

Mr. Speaker, I strongly support the National Defense Authorization Act. It is, as you may know, named in honor of Senator JOHN WARNER, who is for the last time, under the rules of the Senate, chairing the Armed Services Committee. We thank him for his accomplishments with the Armed Services Committee as chairman. He is responsible in large measure for many of the compromises that were allowed under this bill.

This is a good bill. It is good for America. It is good for the troops. It deserves our support. This wartime bill authorizes a total of $462.9 billion and, as was mentioned by the chairman a few moments ago, $70 billion authorization for a bridge fund supplemental, of which $20 billion is for the reset of the equipment lost or damaged in operations overseas.

As many have heard me speak, I am terribly concerned about the readiness of our ground forces, our Army, our Marines; and this bill provides the critically needed downpayment to begin to set things right.

Under the testimony of General Schoomaker, it is not only for the Army, some $17 billion needed this year, but 12 billion reset dollars for over the next several years apiece. And we know the Army and Marine Corps equipment is wearing out, and we do know that some units are coming back to little or no equipment whatsoever. That has a serious readiness challenge, particularly in the Army and the Marines. Our ground forces must be, in the days and years ahead, prepared to deal with sustained deployment not just in Iraq and Afghanistan but who knows what the future will hold.

I have been blessed, Mr. Speaker, to represent the Fourth District of Missouri. This is my 30th year here in Congress. And during that 30 years, there have been 12 engagements in which American forces have been either deployed or used, some minor, some major. And if the future is anything like the past, we will have times when our forces will need to be prepared to be called on, to be used, if nothing else, to deter aggression or adventurism in the years ahead by other countries. And it is a serious matter to make sure that the reset comes to pass and that the readiness is corrected.

Of course, the ongoing wars in Iraq and Afghanistan demand our immediate attention, but we cannot afford to lose sight of other security challenges that loom across the road.

We are getting seven new ships for the Navy and recommend some $400 million for advanced procurement of a second VA-class submarine. We have a multiyear procurement contract for the F-22, and other aircraft is on the books for us to authorize and build.

I am most pleased about what the bill does for our magnificent men and women in the Armed Forces and their families. The end strength for the Army and Marines has increased by 30,000 and 5,000, for the Army and Marines respectively. In addition, this year we are able to enact an initiative first proposed by the gentleman from Mississippi, GENE TAYLOR. This conference report expands the TRICARE Reserve Select to members of the Selected Reserves and terminates the current three-tier eligibility program. I am also particularly glad to note that there is a 1-year moratorium on increases on TRICARE and pharmacy fees. I had offered a similar amendment in committee, and I am pleased that that was included in the final product.

I am proud to say that we are able to provide our servicemembers with a well-deserved 2.2 percent pay raise and a targeted pay raise for those midgrade and senior noncommissioned officers and warrant officers who truly are the backbone of our military.

These are just a few examples of why this is a critical bill at this critical time.

Mr. Speaker, much has been said about Iraq. Much has been said about the fight against terrorism, which has the genesis in Afghanistan. But the bright spot in all of this is the young man and young woman who wear the American uniform. There is no way for us to say as eloquently as we should thank you for your service. And a special note of gratitude for the families of the young men and young women in uniform, to be called on for a year, one, two, three, and in some cases I know some SEALs that have been deployed four times for 7 months at a time. And there is no way really to say thank you well enough to the families that endure this: the spouses; the children; and in some cases, yes, the grandchildren, for which the chairman and I share a mutual interest.

So let this bill be a tribute to their service, a thank you for their service, and a warm note of appreciation to the spouses and children of those magnificent warriors wearing the American uniform.

Mr. Speaker, I reserve the balance of my time.

Mr. HUNTER. Mr. Speaker, at this time I would like to yield 8 minutes to the chairman of the Readiness Subcommittee, Mr. HEFLEY, the gentleman who is departing after 18 years of great service on this committee.

Mr. HEFLEY. Mr. Speaker, I thank the chairman for yielding.

Mr. Speaker, I rise today in strong support of H.R. 5122, the National Defense Authorization Act for Fiscal Year 2007.

And I would like to thank the chairman of this committee and the ranking member of the committee both. You have earned your pay all the way through, but particularly in the last few weeks as we have struggled to get this conference report through and actually bring this bill to the floor; and I appreciate the yeomen effort that both of you have put in.

Mr. HUNTER. Mr. Speaker, will the gentleman yield on that point?

Mr. HEFLEY. I don't know if I should, but I guess I will.

Mr. HUNTER. Mr. HEFLEY, I appreciate that. Let me just say the fact that we were able to bring this bill to the floor and do as much work as we did on it, as big as it is and as comprehensive as it is and with so many people dependent on it and at the same time do the bill that will allow us to prosecute terrorists, do all that, that was largely a product of this tremendous staff, this wonderful bipartisan staff that we have on the Armed Services Committee.

□ 1645

They have done a fabulous job, and that is why we are able to juggle these two important challenges at the same time. They are great, great people, and what professionals, and also people who can work very effectively when they have been up for 24 hours. That has always astounded me, frankly, but they have done a great job, and I think they deserve a lot of thanks from this committee.

Mr. MCHUGH. Mr. Speaker, will the gentleman yield?

Mr. HEFLEY. I yield to the gentleman from New York.

Mr. MCHUGH. Mr. HEFLEY, I am sure the chairman will yield you some more time.

Let me start off by associating myself, as I know all of us do, with the comments of the esteemed chairman.

But, Mr. Chairman, I know you would agree with me that it is appropriate to recognize that, after so many years of loyal and dedicated service to the House Armed Services Committee, this is Subcommittee Chairman HEFLEY's final authorization bill.

He has been a lion in defense of the men and women in uniform. He has a been a guiding light to more junior 14-year Members such as myself. I just wanted to let the record show how much we are going to miss him and how much we all appreciate the great service he has provided to this committee, to the people of this country, and, most importantly, to the men and women in uniform of the United States of America. Thank you, JOEL.

Mr. HEFLEY. Thank you, Mr. MCHUGH. I appreciate that very much and the kind words Mr. SKELTON said earlier.

You know, there is a lot that I am going to miss about Congress; and more than anything else is my service on this committee. Because you felt every day you were working on this committee that you were doing something worthwhile, something that was important for America. I am so privileged to have done this with the wonderful people that are on the committee and also on the staff. We do have an absolutely outstanding staff that we are very proud of.

Mr. SKELTON. Mr. Speaker, will the gentleman yield?

Mr. HEFLEY. I yield to the gentleman from Missouri.

Mr. SKELTON. I really want to say a special personal thanks to you for the tremendous work you have done on our committee and in working with me in particular for helping Whiteman Air Force Base, Ft. Leonard Wood, Missouri, be what it is. I would be remiss if I did not just say a special note of gratitude to you, JOEL HEFLEY.

Mr. HEFLEY. Mr. SKELTON, thank you so much. You have been such a good friend over the years.

And I also would be remiss if I did not thank Mr. ORTIZ, SOLOMON ORTIZ. He and I have been teammates leading the Readiness Committee but before that leading the Military Construction Committee.

I would guess that we have agreed on 95 percent or more of everything we have dealt with during this period of time. In fact, I can't think of anything, SOLOMON, that we have not agreed on, but there might have been something. But, obviously, if we did not agree, we disagreed in a professional, pleasant, friendly way and moved on to try to do what is best for our troops and for the defense of this country. SOLOMON, I cannot tell you how much I appreciate you.

Mr. Speaker, you know, despite 5 years of demanding combat operations, our Nation's military remains the most effective, most powerful, most ready force in the world. However, it comes as no surprise that the wear and tear of the years of wartime activities have resulted in increased funding requirements for training, operations, equipment and maintenance.

Recognizing this, the Readiness Subcommittee has conducted rigorous oversight on military readiness through hearings, classified briefings, and visits with military personnel in the field. Our oversight efforts led the committee to include in this conference report both funding and policy actions intended to further enhance the readiness of our military forces.

The most striking example is the inclusion of nearly $24 billion within the supplemental budget accounts for the repair, modernization, and replacement of equipment damaged or destroyed in Iraq and Afghanistan. This money will satisfy all past and current reset requirements of the Army and Marine Corps.

I suspect, Mr. HUNTER, you have probably already mentioned this, but this is the high point of our bill. This is so important.

The conference report also includes important policy initiatives that will improve readiness and allow Congress to better monitor readiness-related developments within the services, such as:

A requirement that the Secretary of Defense fully fund equipment reset for all of the services, equipment for Army mobility, modality, and Army prepositioned stocks;

A requirement for the Department of Defense to create a uniform strategy policy for the prepositioning of materiel and equipment; and

A mandate for continued capital investment into our depot maintenance facilities.

In addition to such efforts, this conference report also authorizes more than $13 billion for military construction projects, more than $4 billion for family housing, and $5.6 billion for implementation of the 2005 base closure rounds. These funds are critical for both quality of life and military readiness.

I would like to add here that I hope we will not use these base closure moneys to do other things, because it is important if we are going to do base closure procedures that we do it and we get these properties back into some useful use.

In conclusion, this conference report provides the necessary funding and policy changes to improve our Nation's military readiness. I urge my colleagues to support the conference report for this very important bill.

You know, in 20 years that I have been here, Mr. SKELTON, I am not proud of everything we have done. I am proud of some things we have done, but I am not proud of everything we have done. But I can tell you I am very proud of this bill. It is a good bill, as you said and as Mr. HUNTER said. We need to support it.

Mr. SKELTON. Mr. Speaker, I yield 2½ minutes to the gentleman from South Carolina (Mr. SPRATT).

Mr. SPRATT. I thank the gentleman for yielding.

Mr. Speaker, I rise to support and to praise the chairman and the ranking member for their efforts in bringing this bill to fruition this fall, rather than Christmas Eve, as was our experience last year.

There may be some questions as to whether or not it is worth it, to have two committees process a bill of this magnitude, an authorization process and an appropriations process. But in addition to having a second scrub of a $462 billion bill, that double, two-part process also leads to some positive provisions from each mark. Let me just highlight a couple to show you some of the valuable features in this bill.

A couple of years ago, we became concerned about the level of Servicemembers' Group Life Insurance. We increased the amount of coverage from $250,000 to $400,000.

I offered an amendment to pay for the full premium for those troops that go into a combat zone and hazardous duty zones. That did not pass, but we did pass a provision that $150,000 of the increased coverage would be paid for. This bill takes it a step further, as it should.

What we are saying in this bill is that the full $400,000 in life insurance coverage in the combat zone will be paid for in full when you enter the combat zone. This is the least we can do for those who put their lives on the line for our country. The least we can do is to make sure that their family and loved ones should be taken care of in this manner if the worst should happen to them.

Second, nonproliferation is a major concern, big defense risk. In this particular bill, we plussed-up the President's budget for the megaports bill by $15 million, and we added $20 million to the Global Threat Initiative. This additional funding will allow for the installation of additional radiation detectors at the world's major border crossings and ports and help secure and dispose of nuclear material in some of the most vulnerable research reactors around the globe.

Finally, one of the things we did not do was to endorse the authorization for space-based missile defense weapons. I have always had great concerns about the efficacy. This bill says to ballistic defense: Before you undertake this program, make sure it works, what its scope is, what its strategic implications are.

And, finally, we right and timely put in this bill $23.7 billion to reset the capital assets of the Marine Corps and the Army. And this is an illustration of a cost that is going to be staring us in the face for years to come as we try also to fund transformation and modernization.

We will have to pay this expense just to keep standing still, another reason we needed a bill of this magnitude, $462 billion, to defend the country. I commend the leadership of this committee for bringing this bill to fruition.

Mr. HEFLEY. Mr. Speaker, I yield 3 minutes to the gentlewoman from Virginia (Mrs. DRAKE).

Mrs. DRAKE. Mr. Speaker, predatory lending practices have become a major concern in areas surrounding military installations. This is of particular concern in the Second District of Virginia, with a very high number of payday lenders. Interest rates on these loans have been recorded as high as 780 percent.

Many young servicemembers attempt to climb out of debt by adding additional debt on top of debt, which quickly becomes unmanageable. Lenders add to this by encouraging extensions of the loan through refinancing.

This type of predatory lending leads to multiple issues, chief among them the loss of a security clearance. A military member lost in uncontrollable debt could be a security risk, and clearances are often revoked. This represents a national security issue.

Additionally, this represents a morale issue. Individuals have a tendency to concentrate less on their jobs when they are mired in uncontrollable debt. When servicemembers are concentrating less on their mission and more on their debt, it affects readiness.

To safeguard servicemembers, the conference report prohibits creditors from rolling over loan balances, charging annual percentage rates that are higher than 36 percent, including fees, and it prohibits the borrower from prepaying the loan or charging the borrower a fee for prepayment.

This is a fairness issue. It has been a grave concern to our military commanders. I would like to commend our chairman, our ranking member and our committee for their concern for this issue.

Mr. HUNTER. Mr. Speaker, will the gentlewoman yield?

Mrs. DRAKE. I yield to the gentleman from California.

Mr. HUNTER. Mr. Speaker, I thank the gentlewoman for yielding.

You know, we went into this thing. I thank her for all of the great work that she did and lots of other Members who really worked this hard. I know Mr. DAVIS brought some important elements to this package.

We wanted to have a package that would make the sergeant majors who saw their kids going out and paying massive loan fees trying to pay off their loan, they could not pay it off, having the loan rolled over, and then seeing higher and higher fees stacked on top of that. In fact, I think it was Mr. DAVIS' provision that barred the roll-overs.

We want to see those sergeant majors see a bill come out of our committee and out of conference that, as I said, would make them throw their hats in the air and shout: Hooray, Congress has done what it took for our kids.

And we kept them apprised, as we moved this conference report along, as the gentlewoman knows in working on the team, to protect our people. And when we showed them the product, they threw their hats in the air, and they yelled hooray, and they felt like it was a good product.

You know, the other thing we have got to do is we have got to get these credit unions that are in the base, the guys in the institutions we allow to be inside the perimeter of that base, to reach out and establish short-term loans for our servicemembers so servicemembers go there instead of feeling they have got to go a to a loan shark to get that loan.

I thank the gentlewoman for her leadership and her great work on this.

Mr. SKELTON. Mr. Speaker, I yield 2½ minutes to the gentleman from Texas (Mr. ORTIZ), the ranking member on Readiness.

□ 1700

Mr. ORTIZ. Mr. Speaker, I rise in support of the bill. I want to thank Chairman HUNTER and Mr. SKELTON for their skills and leadership in addressing the military issues before us today.

I want to thank Chairman HEFLEY for your friendship, for your leadership and for so many years you and I have worked together. I will always remember the good that you have done for this country and for those young men and women who are in harm's way. I know that you are too young to retire, but I wish you the best in whatever you do, and we are going to miss you around here.

This bill provides, in some measure, for the needs of our troops and their families. One of the most important parts of this bill is the attention given to the immediate readiness needs of our men and women in uniform.

The bill takes some action to address the shortfalls in operations, training and maintenance funding that the Department of Defense failed to address in their budget submission.

Now we have taken care of our most immediate readiness need, although we have long-term needs we have not yet begun to address, but I can tell you this is a very, very good beginning.

When we come back to this in the next Congress, again after we recess, we need to particularly address the lack of equipment for the National Guard and for the Reserves. The National Guard and Reserves have been as busy as the active duty military in Iraq and Afghanistan, and they need to be considered equal in status with the other partners in our fighting efforts.

The equipment shortfalls for the National Guard mean we will be unable to respond as we need to do in the next natural disaster, or God forbid, another war.

I thank Chairman HUNTER, Chairman HEFLEY for their outstanding work, but I want to thank my ranking member, IKE SKELTON, the top Democrat on the committee whose outstanding leadership has gone a long way to address the many shortfalls in our defense budget, while balancing the need for our military to remain the world's premier fighting force.

So I ask my friends, my colleagues to support this bill. It includes $130 billion in O&M funding to operate the military, $17 billion funding for the military construction, and an additional $20 billion added to the bridge funding to help offset some of the immediate needs of the Army and the Marine Corps.

This is a good bill. I want to thank the staff as well for doing a great job.

Mr. HEFLEY. Mr. Speaker, I am very pleased to yield 2 minutes to the gentleman from Upstate New York (Mr. MCHUGH), who works absolutely tirelessly as chairman of our Personnel Subcommittee.

Mr. MCHUGH. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, this is a great bill and it is a great bill given the times we live in, the challenges that our men and women in uniform and their families face in, frankly, the economic environment in which we find ourselves.

I know my ranking member Vic Snyder with whom I worked so closely, he and I both feel a great deal of pride year after year that when a majority of Members of this House will speak kindly about this bill, which they will, they will refer to many of the provisions in the personnel mark.

We owe thanks to the chairman, DUNCAN HUNTER, and to the ranking member for allowing us to have the opportunity to try to do better by the most important part of a great military, the most important part of the greatest military the world has ever seen, that of the United States of America; and I know, Mr. Speaker, many that have gone before and others that will follow have talked about the terrific things in this bill, the 2.2 percent pay increase that diminishes that gap between military and pay that had existed down to 4 percent from a high of about 14 percent.

We increase end strength, adding tens of thousands of soldiers into the Army and the Marine Corps to lessen the pace of deployments and the operations tempo.

Most importantly, in my judgment, at a time of war, when our men and women in uniform are sacrificing, when we have made commitments to our veterans, we rejected to the tune of $486 million, that the conferees had to find the increases proposed by the Department of Defense to the military health care system in both the TRICARE program, as well as the pharmacy program. None of those increases will occur.

I also want to add my words of thanks, indeed, to the gentlewoman from Virginia (Mrs. DRAKE) and to the gentleman from Kentucky (Mr. DAVIS) for their work in ending the scourge of predatory payday lenders who get rich on the backs of the men and women in uniform and their families.

This is a terrific mark from top to bottom; but we are particularly proud of the personnel marks, and I would hope all of our colleagues would vote in support of this legislation.

Mr. SKELTON. Mr. Speaker, I yield 2½ minutes to the distinguished gentleman from El Paso, Texas (Mr. REYES), who is also the ranking member of the Strategic Subcommittee on the Armed Services Committee.

Mr. REYES. Mr. Speaker, I thank the gentleman for yielding.

I rise in support of this conference report on the National Defense Authorization Act for Fiscal Year 2007.

I want to thank our chairman, Chairman HUNTER, and our ranking member, Ike Skelton, the staff on both sides. So many people have put in so much effort and a lot of work on this bill that supports our men and women in uniform.

While I might have preferred a more inclusive process, taken as a whole, the product is worthy of everyone's support in this House. It provides our troops with tools and support that they need to defend our Nation at a time of war.

I am particularly pleased that the final legislation does not include language that linked funding for the Army's Future Combat System with the critical need to replace and repair equipment that has been lost or damaged in Iraq and Afghanistan.

As the ranking member of the Strategic Forces Subcommittee, I am also pleased to report that the final bill before us today contains bipartisan compromises on the issues within our jurisdiction. The Strategic Forces Subcommittee has oversight of numerous complex and contentious programs, including ballistic missile defense, space systems and nuclear weapons.

Mr. Speaker, I want to recognize and thank our subcommittee chairman, my good friend from Alabama, Chairman Everett, for his leadership and the tremendous amount of effort that he put into forging a bipartisan effort to agree on these very complex and controversial issues at times.

In the short time that I have, I want to highlight elements of the conference report on ballistic missile defense systems.

The conferees adopted a Senate provision establishing U.S. policy on ballistic missile defense that clearly reflects our views. It says that we should accord greater priority within the program to effective near-term missile defense capabilities, including the ground-based midcourse defense system, the Aegis ballistic missile defense system, the Patriot PAC–3 system, the Terminal High Altitude Area Defense system, and the sensors necessary to support such systems.

The conferees also adopted the House provision preventing use of funds for testing or deployment of a space-based missile defense interceptor.

Mr. Speaker, while time does not permit me to describe in detail the rest of our subcommittee's accomplishments, I again want to thank Chairman EVERETT and our Senate colleagues for their cooperation in achieving this bipartisan, successful measure; and I want to recommend to all our colleagues that they vote "yes" on this very important legislation to support our troops and their families.

Mr. HEFLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Connecticut (Mr. SIMMONS), a great member of our committee and a distinguished Vietnam War veteran.

Mr. SIMMONS. Mr. Speaker, I thank the gentleman, I thank the Chair, and I rise in support of the Defense Authorization Act for Fiscal Year 2007, which is a bill that brings good news to our men and women in uniform and especially good news for the U.S. submarine force and to the American shipbuilding industry.

The conference report before us contains $400 million in spending authorization to begin the construction of two fast attack submarines in the year 2009 and also expresses a sense of the Congress that the attack submarine force should not drop below 48, the stated requirement of the U.S. Navy to meet its critical missions.

Because of submarine shortfalls, the Navy is on track to meet only 54 percent of the submarine mission days requested by the U.S. combatant commanders. We need to do better than 54 percent. This legislation puts us in the right direction of doing better, and we will do better.

My colleagues on the House Armed Services Committee understand this reality, and I would especially like to thank subcommittee chairman, ROSCOE BARTLETT from Maryland, and the ranking member, GENE TAYLOR from Mississippi. These two gentlemen probably have more knowledge about American and global shipbuilding than anyone else in the Congress. I would also like to thank my colleague from Rhode Island (Mr. LANGEVIN), who for the last 4 years has worked with me in a bipartisan fashion on these issues and is the co-chair with me on the Congressional Submarine Caucus.

Finally, I want to thank Ranking Member IKE SKELTON who works in such a fine bipartisan fashion and our chairman, DUNCAN HUNTER, who comes from the city of San Diego with a great shipbuilding tradition and who has also visited my part of Connecticut. We have a shipbuilding tradition as well right in Connecticut, the submarine capital of the world. That is what we call it.

Mr. HUNTER. Mr. Speaker, will the gentleman yield?

Mr. SIMMONS. I yield to the gentleman from California.

Mr. HUNTER. Mr. Speaker, I thank my friend for yielding.

I just want to thank the champion of Groton for his hard work and all the work that he and Mr. LANGEVIN, and as you said, Mr. TAYLOR and Mr. BARTLETT, have done. I want to thank all of them for their great work and also to the gentleman for his hard work on payday lender and trying to make sure that our troops have a good situation now and will not be the victims of loan sharks and what to do on that.

You have brought a real insight to undersea warfare that has been important to us and especially in a Taiwan scenario or another type of scenario in the future which could be very, very critical to American sea power.

I thank the gentleman.

Mr. SIMMONS. Mr. Speaker, I thank the gentleman. In concluding, he referred to his $89 a month and the loan sharks. When I was in as a private, I made $68 a month. The loan sharks were out there. So the legislation to get them off the backs of our soldiers is welcome news.

Mr. SKELTON. Mr. Speaker, I yield 1½ minutes to the hardworking gentleman from Rhode Island (Mr. LANGEVIN), a member of the Projection and Terrorism Subcommittee.

Mr. LANGEVIN. Mr. Speaker, I thank the gentleman for yielding.

Before I begin, I just wanted to recognize and commend the great service of my friend and colleague, Congressman HEFLEY, and I have so enjoyed serving with you in a number of capacities, particularly in our work in the Armed Services Committee. We had an opportunity to work on several important issues, and I thank you for being such a gentleman and giving such great service to this Congress.

Mr. Speaker, I rise in support of H.R. 5122 and thank Chairman HUNTER and Ranking Member SKELTON for their hard work.

The bill helps our servicemembers and their families, as well as military retirees. It includes a 2.2 percent pay increase for military personnel and much-needed increases to end-strength numbers. It places a 1-year moratorium on cost increase for the TRICARE pharmacy benefit and expands TRICARE eligibility for Reservists, two very important issues to my constituents.

I am particularly pleased that H.R. 5122 recommends $400 million to expedite the construction schedule for the Virginia-class submarine so that we can start building two per year as early as 2009. I commend the great work of my friend Congressman SIMMONS and his leadership on this issue. He is a great partner in this effort. The Navy's current shipbuilding plan would have our submarine fleet drop to dangerously low levels, and this bill understands we cannot allow that to happen.

I thank the committee for its leadership in its efforts, all of the staff and all of my colleagues on the committee for their efforts to accomplish these important goals, and I encourage my colleagues to support the measure.

Mr. HEFLEY. Mr. Speaker, I am pleased to yield 2½ minutes to the gentleman from Alabama (Mr. EVERETT), who is chairman of our Strategic Forces Subcommittee.

Mr. EVERETT. Mr. Speaker, I thank you very much. We are going to miss Mr. HEFLEY. We still have some unfinished business between us that I am going to hold him to.

I want to recognize also the gentleman from California, my long-time friend, the chairman of the committee. I do not think in the 14 years I have been here that I have had the privilege to serve with anyone who has the patience that he has had. He has a great skill in leading this committee, and he mentioned earlier in his opening remarks about the fact that this committee works so hard, and it does. The members take very seriously what they are doing.

I had the great privilege, along with Mr. McHUGH, of being the first Members of Congress into Baghdad after we invaded, and I just appreciate his outstanding leadership and his dedication to the fighting men and women of our country.

□ 1715

And also the gentleman from Missouri, who has the same type dedication, and who knows that he is welcome back to Dauphin, Alabama, any time he wants to. It has only been about 40 years since he has been there.

I do support the conference committee, the National Defense Authorization Act, H.R. 5122. It supports the administration's objectives, while significantly improving the budget request.

Moreover, our national security investment must continue to develop transformation capabilities of future systems, and this conference report does that.

Finally, let me also say that my subcommittee, the one that I head, Strategic Forces, simply would not have been able to work like it did in a very bipartisan manner if it had not been for my good friend, Mr. REYES of California. Much of what we have been able to do has been on a bipartisan basis, as he had mentioned earlier, on very complex, contentious issues, perhaps some of the most contentious issues in the committee. We were able to reach a consensus that would serve the best interests of the Nation and of our fighting troops, and I again thank him for his efforts as well as the other committee members who oftentimes had different views. But we all came together.

We also have an outstanding staff who has to study these very complex issues to see if we can't come to an accord that is in the best interest of the Nation.

So, again, I recommend supporting the final version of this bill.

Mr. SKELTON. Mr. Speaker, I yield 2½ minutes to the very distinguished gentleman from Arkansas (Mr. SNYDER), the ranking member on the Personnel Subcommittee.

Mr. SNYDER. Mr. Speaker, I thank the gentleman; and I rise in support of this bill. I think this bill has a lot of good things in it for our troops, and I appreciate all the work Members on both sides of the aisle have done.

I want to mention two or three things that I think we need to work on and maybe we can work on in the future.

First of all, Mr. McHUGH and I participated in a joint hearing yesterday with Mr. BOOZMAN, from one of the Veterans Committee's subcommittees, and Ms. HERSETH, the ranking member; and we had a really good hearing on the GI bill.

The GI bill has challenges. We have problems now in that the GI bill program for folks in the Active component is a different program than for those in the Reserve component, the folks in the Army Reserves and the National Guard. What has happened as the years have gone by it has become a really terribly unfair program for our folks in the Reserve component, and for the folks in the Active component, the cost of going to school gets higher and higher.

So we had a good hearing yesterday. I hope that this joint hearing between the Veterans Committee and the Armed Services Committee will continue but with the ultimate result being we make a change in some of the issues in the GI bill.

One provision I wished had been accepted, Senator LINCOLN had inserted on the Senate side, dealt with what I think is just unconscionable, and that is the way we treat members of the Reserve who are activated in the GI bill. The way the system currently works is if they get activated, let's say activated to go to Iraq, 14, 15 months, and then get out. So here they have been in a war zone for a year, their enlistment ends, and once the enlistment ends, they get zero educational benefit. Zero educational benefit.

Now the administration says that helps retention. But the retention numbers are good. That, to me, is terribly unfair, and we need to do a better job on that.

Another provision I wish that we would either do in the defense bill or as a stand-alone provision is what Senator Truman did during World War II. We need something comparable to the Truman Commission to deal with the waste of billions and billions of dollars and the dissatisfaction of American taxpayers with how the dollars have been spent on reconstruction projects in Iraq.

A third point I would make, and I made it before, is I really hope, we have tried it now 10 years without the Subcommittee on Oversight and Investigations, and in my view that has been to the great detriment of the American people, the American taxpayer, and our men and women in uniform. So I hope we will bring back the Subcommittee on Oversight and Investigations to the House Armed Services Committee.

I recommend everyone support this bill, and thank you to Chairman HUNTER and Mr. SKELTON for the work they have done on this bill.

Mr. HEFLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland (Mr. BARTLETT), who is chairman of the Projection Forces Subcommittee.

Mr. BARTLETT of Maryland. Mr. Speaker, I want to commend Chairman HUNTER and Ranking Member SKELTON for their exemplary leadership in bringing this conference report.

I also want to thank my subcommittee ranking member, Mr. TAYLOR, for his tireless efforts and dedication in the preparation of this important legislation. I am grateful for our strong and cooperative relationship.

In addition, I would like to recognize my fellow colleagues on the subcommittee for their diligence and commitment to a job well done.

The intense work involved in preparing this conference report before us has been accomplished with the assistance of our professional and hard-working staff, and I commend their efforts and the quality of the final product. Staff, thank you very much.

Mr. Speaker, I rise in strong support of this conference report. It strikes an appropriate balance between modernizing and maintaining our existing weapon systems, while investing in replacement capabilities for our future force.

In this bill, we move forward with the development of our future fleet by funding the lead replacement amphibious assault ship and the dual lead DDG–1000 destroyers, while also providing advance procurement funds for the next generation aircraft carrier. The bill also continues to build-out our fleet of *Virginia* class attack submarines, *San Antonio* class amphibious ships and Littoral Combat Ships. This conference report also contains funds for continuing the refueling and complex overhaul of the USS *Carl Vinson* and provides funds for the modernization of the *Arleigh Burke* destroyer and the Air Force's fleet of strategic airlift and bomber aircraft.

We have taken action to provide our future force with the capabilities they need to meet future threats. We have also taken steps to ensure that the current capabilities are not retired prematurely. This conference report mandates the Department of Defense maintain a minimum strategic airlift force structure of 299 aircraft and allows limited retirements of KC–135E aerial refueling aircraft and B–2 bombers.

One point of concern deals with the submarine force for the future. It is destined to go back to 40 submarines. It is the strong sense of this subcommittee that it ought to go no lower than 48 submarines.

I urge my colleagues to join me in supporting our sailors, our airmen, our soldiers and marines by voting "yes" for the fiscal year 2006 National Defense Authorization Act.

Mr. SKELTON. Mr. Speaker, may I make an inquiry as to the time remaining for each side, please?

The SPEAKER pro tempore. The gentleman from Missouri has 10½ minutes remaining, and the gentleman from Colorado has 3½ minutes remaining.

Mr. SKELTON. Mr. Speaker, I ask unanimous consent that Members have the right to revise and extend their remarks this evening.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. SKELTON. Mr. Speaker, I yield 2½ minutes to the gentleman from Mississippi (Mr. TAYLOR), who is the ranking member of the Projection Subcommittee, a true friend of those who wear the uniform of our country.

Mr. TAYLOR of Mississippi. Mr. Speaker, I thank Chairman SKELTON, the ranking member, and Chairman HUNTER for the great work they have done.

I also want to thank Lieutenant Commander Kevin Aanestad, who the Navy was nice enough to let work in my office for a year. Just a while back Kevin was flying combat missions in Iraq. He has been assigned to this office, as was last year Captain Randy Edwards, and let us not forget that that is what this bill is all about. It is for the Kevins, the Randys and the people serving in Iraq now, the people who have been there, and the people who are going there.

I want to thank Chairman BARTLETT for the great work he has done on the dual-lead strategy for the DDX. I think the DDGs have served our Nation very well, but it is time to move on to another platform, and it is great we are finally getting started on that.

I want to thank Chairman MCHUGH for including TRICARE for guardsmen and reservists in this bill. It was kind of a contentious vote last year. I wish we could have prevailed last year, but the good news is it is going to happen this year. Our guardsmen and reservists are called upon increasingly to serve our Nation.

At the time I made my pitch on the floor, 40 percent of the all people serving in Iraq were guardsmen or reservists. Since I made that pitch, we actually lost, I regret to say, a young National Guardsman by the name of Josh Russell. He died the night of Hurricane Katrina on a search and rescue mission only 30 miles from his home.

They deserve the same benefits as the Active Duty force. If we are going to use them the same as the Active Duty force, then it is a great thing that this bill is going to give them the same health care benefits.

The only disappointment I would like to express, Mr. Speaker, is, number one, I want to thank Chairman HUNTER and thank Ranking Member SKELTON for including language in the bill that would have provided an IED jammer on every vehicle in Iraq. If you look, as I do, at the casualty reports in the paper, you will see on a daily basis that young men and women are dying in Iraq as a result of an improvised explosive device exploding near their vehicle. Over half of all the casualties in Iraq are the result of IEDs, improvised explosive devices.

We can jam that signal most of the time. And it is not a parochial thing. These devices are made nowhere near south Mississippi. But what they will do is save the lives of south Mississippians and Marylanders and people from California and people from Missouri. So I deeply regret that the Senate would not agree with us on this provision.

They did, however, include a provision that every vehicle has some sort of coverage. But, again, in the chaos of combat, I think our Nation would be better served if every single vehicle had this provision; and I want to put my colleagues on notice that it is something we need to work on again next year.

So, again, I want to thank Chairman BARTLETT for his great cooperation. JOEL HEFLEY, you are one of the classiest acts that has ever served in the United States Congress. Thank you for your service. Chairman HUNTER, Ranking Member SKELTON, thank you very much for your help on this bill.

I want to thank Chairman HUNTER and Ranking Member SKELTON, as well as Chairman WARNER and Ranking Member LEVIN, for their work on this Conference Report. They have done an outstanding job making this a truly bipartisan effort. As always, Chairman BARTLETT and the Projection Forces staff have done a tremendous job crafting our Subcommittee's section of the bill. He has gone out of his way to ensure that this is a bipartisan effort, with provisions that make fiscally responsible decisions. I thank the Chairman for his leadership and for his consideration, even on issues on which our views differ. I strongly support the provisions in the Projection Forces portion of this bill.

I would like to thank the Chairman and Ranking Member for the compromise reached on the "dual lead ship" strategy for DDG 1000 this year. Last year we in Congress required the Navy and the shipbuilding industry to use both surface combatant shipyards to build the DD(X), the Navy complied, and this bill follows through on that and allows us to be consistent in our direction to the department. The bill allows work to begin on a total of 7 new ships, with advanced procurement for an eighth—a good start towards reversing the decade long decline of our surface fleet.

The theme of fiscally conservative decision-making while maintaining the robust force structure our military requires is maintained throughout the Projection Forces section of this bill. From maintaining our strategic airlift capability with the addition of 10 more C–17s (for a total of 22), to allowing the retirement of only those KC–135s and B–52s that are the most expensive to maintain. It applies cost caps on future aircraft carriers and amphibious ships, and requires that future proposals for all surface ships include options for alternative propulsion sources such as nuclear power to reduce our dependence on foreign oil. I am extremely pleased to support the Projection Forces section of this bill.

I would like to express my appreciation as well for finally including the expansion of TRICARE coverage to members of the National Guard and Reserve. I want to commend all of my colleagues. In particular, I want to commend and remember a former colleague, the late Sonny Montgomery. I think Sonny would be very pleased that we are providing our Nation's Guardsmen and Reservists with TRICARE benefits. It is long overdue and I want to thank the chairman of the subcommittee, Chairman MCHUGH, and all the other people who helped make this happen. Providing this health coverage recognizes the sacrifices our Guard and Reserve troops are making every day. Insurgents in Iraq don't differentiate between reserve soldiers and active duty soldiers.

Lastly, I would like to express my disappointment in a compromise that weakened my provision to require IED jammers on all of our wheeled military vehicles at risk in Iraq and Afghanistan. This threat is responsible for over half of the casualties in the war. I realize jammers are not a 100 percent solution, but they are proven and known to be effective. This is not the last conflict in which our military personnel will face this threat, every potential enemy in the world is watching and learning from our current conflict. Our British and Australian allies require and provide a jammer on every vehicle; we should be ashamed that we don't do the same.

Mr. Chairman, Ranking Member SKELTON, I thank you and your staff again for the work you've done on this bill, and for your thoughtful insight and leadership in creating an overall extremely balanced measure that I am proud to support.

Mr. HEFLEY. Mr. Speaker, I reserve the balance of my time.

Mr. SKELTON. Mr. Speaker, good things happen and we Members, of course, often take the credit, but truthfully the staff does so much work. We would be at a loss without them, so a special thanks to all of our staff.

And it is special to note that Betty Gray of the Armed Services staff is now completing 30 years of service on our Armed Services staff. So a special thanks to her for her dedication.

Mr. Speaker, at this time I yield 2½ minutes to the gentleman from Long Island, New York (Mr. ISRAEL), who belongs to the Tactical Air and Projection Subcommittee and who has taken a great interest in professional military education.

Mr. ISRAEL. I thank the gentleman.

Mr. Speaker, all of us can celebrate this conference report and the support that it provides to our troops. It is a good product, and we have had some hard-fought differences on various issues.

For me, we have been grappling with the proper balance between religious expression and tolerance in the military. I am very pleased that this conference report struck language that in my view would have made it easier to engage in certain practices by overturning existing DOD standards on tolerance of all faiths. And I thank my ranking member, Mr. SKELTON, and I thank Senators WARNER and LEVIN of the other body, the Department of Defense, and many, many different religious organizations, from the National Conference on Ministry to the Armed Forces, to the U.S. Conference of Catholic Bishops, to the American Jewish Committee and so many others. They understand this is not just an issue of tolerance, Mr. Speaker, it is an issue of good order and discipline and unit cohesion.

We maintain the overall language requiring respect of all religious faiths, but this language does reopen a loophole, a loophole that allowed commanders and chaplains at the Air Force Academy to chastise cadets for not attending certain religious services, a loophole that allowed one chaplain to tell cadets of all faiths that some of them would burn in the eternal flames of hell for not following his faith. So we still have some work to do, and we still have some good-faith discussions ahead of us.

And I want to take this opportunity to say something to my friends on the other side of the aisle and on the other side of this issue, people who I respect and admire a great deal. I want to continue working with them. I have been troubled by the occasional rhetorical excess that has suggested, because I am opposed to proselytizing of any specific religion on any military base, I am somehow trying to stop people from invoking the name of Jesus in their prayers.

Nothing could be further from the truth. People should be able to pray how they want, when they want, where they want, and to whom they want. They just can't compel others to join them.

For those of you who truly believe that the chaplain who told cadets willing to die in the defense of freedom that after they died they would burn in the eternal flames of hell, well, you and I have some profound differences on that issue. So profound that I don't think the issue should be decided in 3 weeks of discussion in a House-Senate conference. It ought to be put before the American people in hearings.

And I want to close, Mr. Speaker, by suggesting that, as we move forward in trying to resolve this issue, we all rededicate ourselves to the spirit of openness, sensitivity, tolerance, and respect. And don't take my word for it, Mr. Speaker, because behind me, carved into this wood dais on the floor of the United States House of Representatives, is the word "tolerance," right in the center. That word must remain with us. My speech will come and go. This word will always stay. That is what makes our military great. That is what makes our country worth fighting for.

□ 1730

Mr. HEFLEY. Mr. Speaker, I reserve the balance of my time.

Mr. SKELTON. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I want my colleagues here to know that my comments have nothing to do with a lack of appreciation for your efforts on this bill, but rather relate to some institutional and historic concerns that I have.

The U.S. can spend tens of billions of dollars less and do a far better job of protecting our Nation. The defense-industrial complex follows a misguided strategy of buying weapons that provide Americans with no increased safety; buying ever more expensive fighter jets, massive naval ships, and a missile defense system that provides no additional protection for our Nation. There are no fighter jets or naval ships that can challenge our Air Force or our Navy.

Furthermore, the claimed ballistic missile threat is grossly overexaggerated. Terrorists do not possess ballistic missiles and the few nation states that do have no desire to face the understood retaliation of our ballistic missiles.

This defense-industrial complex wrongly believes that the $270 million F–22 fighter is an important new weapon system. However, the current F–15 remains unchallenged and inexpensive upgrades can keep our Air Force supreme. The F–22 cannot bomb away the beliefs of a small number of radical fighters.

The advocates of advanced weapons systems fail to understand these new systems do not match up an effective defense capability with the terrorist threats. Only a new approach to foreign policy can effectively mitigate the terrorist threat.

We need to provide for the traditional sense of security by first ensuring economic security, health security, and job security for all. The roots of terrorism begin not in hatred, but in desperation. All people, no matter their ethnicity, seek the basic necessities such as food, clothes, shelter, good health, and the ability to earn a decent living. If you can level this playing field, there is no desperation that may potentially evolve into radical hatred.

I will support a defense budget that matches real threats to our security with appropriate defensive measures. In the long term, the federal budget needs a fresh look at our foreign policy, that promotes an economic stability worldwide, thereby eliminating the true roots of terrorism, desperation.

IRAQ

The ever-rising cost of our military is not sustainable. This year Congress has handed over to the Pentagon over $400 billion, including $70 billion in "bridge funding" to support ongoing operations in Iraq and Afghanistan. But don't be fooled by this massive number. The Administration will be back before the end of the fiscal year seeking more funding for continuing operation in Iraq and Afghanistan.

Of the numerous reasons to vote against this bill, the continued funding for the war in Iraq is especially absurd. If the U.S. were to withdrawn as soon as possible out of Iraq, we'd save $1.5 billion each week in Iraq, $6 billion a month and $72 billion annually. For every $1 spent on war costs, we are taking $1 away from U.S. entitlement programs.

It is increasingly clear that this Administration's occupation and reconstruction of Iraq has failed.

After three and half years, Iraq is less safe, not more; Al Qaeda, which prior to the U.S. invasion had no influence, has now grown in influence and number of recruits. The fact is, Mr. Speaker, this Administration's policies has turned Iraq into a breeding and training grounds for terrorists, and created the greatest recruiting tool ever for al Qaeda. Even the National Intelligence Estimate suggests the invasion of Iraq has evolved into our largest terrorist threat.

But, Mr. Speaker, the greatest tragedy of this war is the 2,669 American soldiers that have been irrevocably lost, and tens of thousands more injured. Between 100,000 and 200,000 innocent Iraqis have died as a result of the U.S. invasion. Everyday, 120 more Iraqis die at the hands of execution-style death squads, kidnappings, murders, IEDs, and sectarian violence.

The war in Iraq has been a grave and tragic mistake. It has cost us in blood and treasure. It has damaged our once unchallenged reputation in the world. It has squandered the good will rained upon this nation after 9/11 and has been a distraction from our efforts to root out terrorism worldwide and bring to justice for those responsible for 9/11.

The President's promise that we would not leave Iraq until after his Presidency will only compound past failures and make our nation less safe.

Our continued occupation of Iraq is not only counterproductive, but fuels the civil war.

Mr. Speaker, I believe it is time we end this grave misadventure in Iraq and bring our troops home with the honor and dignity they deserve.

Mr. HEFLEY. Mr. Speaker, I reserve the balance of my time.

Mr. SKELTON. Mr. Speaker, I yield 1 minute to the distinguished gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the distinguished ranking member, I thank the chairman, and I wish best wishes to the distinguished gentleman from Colorado for his service.

Everyone, though, knows that Texas has given the full measure in the war in Iraq and Afghanistan, as have our soldiers across the Nation. But to our soldiers in Texas, I pay great tribute.

I rise to simply applaud this conference on its emphasis on military quality of life, military health care that has been improved, and certainly military pay and bonuses.

I also want to acknowledge a very important project that speaks to the partnership between institutions of higher learning, like Historically Black Colleges, and a Center For Human Materials Resources that will occur at Texas Southern University that addresses testing of uniforms and equipment. What a new and exciting opportunity for new partners.

Lastly, I would hope that in the future we will be able to address the question I have raised, which is the ability of individuals who are receiving their loved ones who have fallen in battle at Dover Air Force Base to be able to have a public display if they so desire. It is an executive order that there are no cameras there for families who desire that. I hope we will be able to address that.

Mr. Speaker, I ask my colleagues to a support this legislation.

Mr. HEFLEY. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. SAXTON), the chairman of our Terrorism Subcommittee.

Mr. SAXTON. Mr. Speaker, let me just begin by recognizing the true bipartisan nature of this bill. The bipartisan nature of this bill is due in no small part to our great chairman and my friend, DUNCAN HUNTER, and the person that he often refers to as his partner, Congressman IKE SKELTON, and their respective staffs. IKE, thank you very much for your great cooperation, and for working through the summer as conferees with our colleagues in the Senate to fine tune this measure to provide the maximum benefit to our troops in every possible area, from pay to health care to equipment to armor and to advanced weapons systems for now and those contemplated far into the future.

We funded 11 of the top unfunded requirements for the U.S. Special Operations Command, adding almost $200 million to the command's acquisition budget. We also funded technology initiatives within each of the services and in DARPA, ensuring the continued future supremacy of U.S. weapons systems and equipment. Cutting-edge medical research was also addressed.

Seeing a continued greater need for modernization airlift, one the Air Force clearly needed but could not afford, we authorized 12 C–17 aircraft requested by DOD and added 10 more, for a total of 22 C–17 aircraft. I see this as a good start and hope we can continue to fund the C–17 line in future years. The best Army and Marine Corps in the world, which is that which we have, must be able to get to the fight to be effective.

We haven't forgotten our oversight responsibilities, providing for a number of initiatives in the acquisition, information technology and chemical demilitarization areas.

Mr. Speaker, this is a time of great stress for our Nation for we are in a war which has been referred to in many different terms, but most soberingly, the long war. This is a bill that every American can be proud of. Republicans and Democrats have come together to build a measure that helps soldiers and their families across the board.

Mr. Speaker, I urge a "yes" vote on this bill.

Mr. SKELTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the great Roman orator, Cicero, once said that the greatest of all virtues is gratitude, and I am filled with gratitude at this moment, Mr. Speaker, for our chairman DUNCAN HUNTER, for the members of this committee, the ranking members, subcommittee chairmen, every member, as well as our hardworking and dedicated staff.

I think it is also a moment like this when we are getting ready to pass a defense bill which fulfills the first duty of Members of Congress and of our government to protect the citizens of our country.

A special note of gratitude and appreciation should go to those who wear the uniform of our country, to those who have worn the uniform of our country, to those who have sacrificed, and especially to those tremendously supportive families of those who serve in our various services.

With that, a great moment of reflection and gratitude, Mr. Speaker, I say thank you.

Mr. Speaker, I yield back the balance of my time.

Mr. HEFLEY. Mr. Speaker, it is a great pleasure to yield 1 minute to the gentleman from Pennsylvania (Mr. WELDON), a friend who came to Congress at the same time I did and who does such an enormously important job on our committee.

Mr. WELDON of Pennsylvania. Mr. Speaker, I rise in strong support of this legislation and congratulate our distinguished chairman and ranking member for their outstanding work.

We take great pride on this committee in doing our defense work in a bipartisan manner. In our subcommittee we had no disagreements. Our markup lasted for 5 minutes, which is typical for us. NEIL ABERCROMBIE and I came to terms on every issue. Whether it was the F–22, tactical aviation, Army modernization, you name it, we were able to find a common ground. I think the reason we can do that is because of the tone set by our leadership on both sides of the aisle.

It is especially sad, though, for me, Mr. Speaker, because my good friend is leaving. JOEL is the president of our class. We came together with the Speaker, and JOEL will no longer be sitting alongside of us.

Mr. HEFLEY has been an outstanding Member, along with the other Members who are not returning. I just want to pay my respects to my good friend and let him know that America is better because of his service to the country.

Mr. HEFLEY. Mr. Speaker, I yield myself the balance of my time.

Mr. WELDON, thank you very much. I thank all of you for the kind words that you said about my service on this committee. But it is really my great pleasure and honor to have been able to serve with all of you, both staff and Members.

CURT has been as tireless as anybody. As I introduced people going through this exercise here, each one I wanted to say so much more about, because I have been there with them through the late nights and long hearings and so forth as we struggle. Sometimes we disagree about details between ourselves. Even on the Democrat side or the Republican side, there is some disagreement sometimes, but our hearts are all together and our focus is all together, and that is the defense of this Nation, and our hearts are with the troops.

I want to particularly thank our chairman, DUNCAN HUNTER. Golly, I couldn't have served with a better chairman than DUNCAN HUNTER. DUNCAN came to my district when he didn't know me, when I was running. CURT, as you were in the summer of 1987, and he came and helped me in my election effort. Little did I know that these 20 years later, we would be serving together in this very important job.

Mr. HUNTER, you are a great chairman, and I appreciate it so much.

Mr. SKELTON, of course, you and I have been friends for a long time. I kid you that I have named everything in your part of Missouri after you. I probably haven't gotten everything done, but whatever we have gotten done, you deserve it. I appreciate your work too.

Isn't it something to see how bipartisan this effort is when we get to this stage? It is nice to see that here. You don't see that very much. It is because we all have the same goals and the same purpose. Sometimes we have different roads to get there, but the same purpose.

Mr. Speaker, I encourage strong support for this bill.

Mr. ABERCROMBIE. Mr. Speaker, I am pleased to support this year's National Defense Authorization Act. It includes many provisions that are vital to giving our military the tools it needs to defend the nation, although it also leaves much work undone that will have to be addressed in the future.

The bill addresses one issue in particular that merits attention. Despite the Pentagon's repeated denials of a military readiness crisis, this bill authorizes an additional $23 billion in funding as a downpayment on the damage to the U.S. Army and Marine Corps from repeated and sustained deployments to Iraq, and the Bush Administration's decision to fund the wars in Iraq and Afghanistan through a parade of emergency supplemental appropriations. The wars themselves are wearing down our equipment at a tremendous rate. Further damage is done by supplemental appropriations because the military services are denied the funding they need in a timely and predictable fashion. These two factors are doing serious and longterm damage to the nation's military readiness, and the Congress must address them.

During Armed Services Committee deliberations on this bill in March 2006, I offered an amendment to add $42 billion for this reason. Sadly, that amendment was voted down on a party-line vote. I offered the amendment because we had a growing readiness problem and because I thought putting as much of the funding for the wars in Iraq and Afghanistan as possible into the base budget was the most honest and effective way to proceed. My approach ended up in the final version of this bill. The $23 billion in this year's bill is a good start, but this funding will have to be sustained in many subsequent bills to address the readiness crisis we continue to face.

I am also pleased that this bill includes many important legislative provisions that directly improve the lives of the people of my district and my state. First, it takes the first step toward dealing with the chemical munitions dumped off the coast of Hawaii in the 1940s. These weapons could still pose a serious health and environmental risk, and Section 314 of this bill requires a comprehensive research effort by the military to identify, analyze, and assess the potential threat these sites may pose.

Section 2843 of this bill addresses a major land transfer issue in Hawaii regarding the former Barbers Point Naval Air Station. Affordable housing for the people of Hawaii and a new public transit system are critical local issues. This language requires the Navy to turn over an important parcel of land that will allow both new housing and transit development. Balancing the needs of the military and the local population in Hawaii is a challenge, but in this case, I think an arrangement was reached that helps both sides accomplish their goals. I want to thank Chairman HUNTER and Chairman HEFLEY for working with me on this language.

Lastly, Section 343 of the bill requires an analysis by the Army of its future live-fire training infrastructure needs in Hawaii. The Army's presence in Hawaii is undergoing tremendous change. A new Stryker Brigade is due to be activated this coming year, and thousands more troops will be coming to Hawaii as part of the larger changes in the military's Pacific region basing posture. Supporting these growing needs while accommodating the cultural, environmental and quality of life concerns of the people of Hawaii is essential. This report will help Congress understand where the Army wants to go in Hawaii with its training infrastructure, and how to get there. In particular, it will address the sensitive issue of the Army's long-term future in the Makua Valley, an area of Hawaii owned by the people of Hawaii and on temporary loan to the military. Eventually, this land must be returned, so the report requires the Army to look beyond its current use of the Makua Valley toward the eventual return of this historic and environmentally sensitive treasure to the people of Hawaii.

There are critical quality of life issues that were not resolved. Specifically, it does not do enough to help military families who need the Survivor Benefit Program and Dependency and Indemnity Compensation offset repealed. For me, this is a basic issue of fairness that must be addressed at some point in the future. The bill does not do enough to protect TRICARE health insurance patients from skyrocketing prescription drug prices. The Department of Defense asked for legislative authority to negotiate lower prices with major drug companies. The majority was unwilling to let this provision into the final bill. Finally, the bill before us only provides a 2.2 percent pay raise for the military in 2007. This is meager thanks for our men and women in uniform in a time of war; for those who are experiencing sustained and repeated deployments and absences from their families.

As well, this raise is simply too small to help our military families keep up with rising cost of living expenses at many bases around the nation, and especially in Hawaii. We have asked a lot from these men and women. We owe them more in return.

I want to now turn to the portion of the bill that falls under the jurisdiction of the Tactical Air and Land Forces Subcommittee, on which I am proud to serve as the ranking minority member. This year, the subcommittee had a daunting task: to reconcile a budget submission that was simply unrealistic in some respects when compared to the needs of the military both today and in the future.

Our military is clearly being pulled in many directions at once. Today our forces are fighting unconventional wars in Iraq and Afghanistan, the demands of which, in terms of equipment, are very different from possible future conventional conflicts. The U.S. military has to be able to fight and win both types of wars, but there is clearly not enough funding for doing everything the services want to do.

This bill authorizes critical short-term needs such as modernization of Army equipment in combat today and increased production of aircraft like the C–17 that are absolutely vital to current military operations. The bill also looks to the future in continuing successful aviation and ground systems. Finally, it takes funding from a few programs that are off-track or not working and moves that funding to more pressing needs, ensuring that taxpayer dollars are not wasted.

It also demands additional analysis and testing of systems in development that the subcommittee has concerns about. These provisions may discomfort some people at the Pentagon, but it is Congress' duty to oversee these programs and ensure that the troops get what they need.

Overall, this year I think the subcommittee did an excellent job. I especially want to commend Chairman WELDON on his leadership of the Tactical Air and Land Forces Subcommittee. His willingness to work in an open and nonpartisan manner greatly facilitates the subcommittee's work and produces a better product for our troops and the civilians who serve the nation at the Department of Defense.

Finally, another member of this committee deserves special recognition. I worked for many years with JOEL HEFLEY on the Armed Services Committee. He is a both a valued colleague and a close friend. Among his many accomplishments during his distinguished career on this committee, he helped shepherd through one of the most important changes in military housing construction in decades. His vision for leveraging private investment dollars into a massive new program to rebuild and rehabilitate military family housing is now a reality. In my state alone almost ten thousand military homes will be upgraded in the next few years. This housing is a vital part of keeping an all-volunteer military ready, and Joel Hefley was a leader in this revolutionary program. I was and am grateful for the opportunity afforded to me to partner with him in accomplishing passage and implementation of this key legislation enhancing the quality of life of our fighting men and women.

Ms. BORDALLO. Mr. Speaker, I rise today in support of the conference agreement on H.R. 5122, the National Defense Authorization Act for Fiscal Year 2007. I am pleased that we have completed this Act before the onset of the new fiscal year because it contains provisions vital to the operation of our Department of Defense and to the men and women of our armed forces who are fighting the war against terrorism around the world today.

Several provisions within this Act are particularly important to my district and the people of Guam. Among these provisions is Section 1014, which closes a legal loophole that had previously been utilized by the Department of the Navy to permit repair of U.S. Navy vessels in foreign shipyards at the expense of U.S. shipyards, including the shipyard on Guam. By making clear that Guam, and in particular Guam's Apra Harbor, is a U.S. location, Section 1014 of this Act make clears to the Navy that its reliance on legal minutia to enable foreign repair of ships that are homeported on Guam or that make a port call on Guam is both unacceptable and now illegal. Congress expects the Navy to adhere both to the written word of 10 U.S.C. Section 7310, as amended by this Act, and to Congress's clear intent that Navy vessels will be repaired in U.S. shipyards except when those vessels are homeported overseas, when voyage repairs are necessary or where operational demands dictate. The Navy should not and cannot use excessively liberal definitions of voyage repairs or an overseas homeport to enable foreign repair.

Further, many vessels operating in the Pacific frequently make port calls on Guam. Section 1014 of this Act, when read in concert with related instructions from the Commander, Military Sealift Command and in particular the instruction identified as COMSCINST 4700.14A, also makes clear that vessels that make such port calls on Guam should no longer be considered eligible for repair in foreign shipyards such as the shipyard in Singapore. Paragraph 6(b)(5) of COMSCINST 4700.15A states, "If an overseas homeported ship returns to the United States at any time during its overseas assignment, the policy governing U.S. homeported ships will apply, and the homeport status will be reevaluated." Ships that visit Guam regularly should not be included on the Assistant Secretary of the Navy's annual memorandum designating ships as homeported overseas and therefore made eligible for overseas repair. Ships that visit Guam must be returned to Guam, Hawaii or another U.S. location for repair, thereby being worked on by U.S. industry and our domestic skilled ship repair workforce.

Adherence to this refined and reemphasized policy is important to the vitality of the U.S. ship repair industrial base which is critical to our national security. Further, strict adherence to this policy will ensure that U.S. Navy vessels are repaired in safe harbors by U.S. citizens, thereby protecting our fleet and Navy personnel from risks such as attack, subterfuge, espionage or otherwise hostile actions. Section 1014 is a reaffirmation of Congressional intent on "repair American" policies applicable to the U.S. Navy. Section 1014 is an expression of this Congress's strong intent to safeguard the vital U.S. ship repair workforce and industry, one that faces significant workload reductions in coming years but one that must be maintained, even at greater cost, in order to maintain a ship repair industrial base capable of meeting any potential war time demand in the future. Congress will apply foresight if the Navy will not through the exercise of our oversight responsibilities.

It should be noted that the Section 1014 of the H.R. 5122 as passed by the House has been significantly streamlined.. As a result of negotiations with the Senate and with the U.S. Navy, it was determined that Section 1014 did not need to be as robustly written as initially passed by the House. It should, however, also be noted that the Armed Services Committees will evaluate Navy compliance in light of the current revision to U.S. law and Congress's concern with the Navy's growing practice of sending U.S. Navy vessels to foreign shipyards for repair.

In addition to the revisions made to 10 U.S.C. 7310 is a provision agreed to by the conference committee, Section 1015, which provides for a comprehensive report on the operation of the Guam Shipyard and the Navy's intent for future utilization of the facility. It would be shortsighted of Congress to require greater utilization of such a facility without providing for appropriate study of the facility's current capabilities and of future needs for the facility in light of expected increased military utilization of the bases on Guam. I note that Guam will soon be home to 8,000 U.S. Marines who will be relocating from Okinawa and who will have points of embarkation in Apra Harbor. Guam will also soon become home to a third fast-attack nuclear-powered submarine and is expected to host an almost continuous presence of SSGN submarines. Further, military development plans call for the homeporting of three Littoral Combat Ships in Apra Harbor as well as significantly increased utilization of Apra Harbor by Navy aircraft carriers.

The Navy must evaluate what capability it desires from the Guam Shipyard and begin preparations for an increase in the shipyard's utilization so that the shipyard can handle the anticipated additional repair requirements. The invaluable forward and strategic location of the Guam Shipyard cannot and should not be taken for granted and preparations must begin for growing its capability and capacity because it is clear that the yard will play an increased role in Navy ship repair in the Pacific as well as provide a vital capability to the U.S. Navy in the U.S.'s most strategic location in the Pacific. Training and growing a skilled U.S. ship repair workforce is not easy work. The Navy should begin enabling steady growth at the Guam Shipyard now so that the yard is prepared for future missions.

I would like to extend my thanks to Chairman JOEL HEFLEY and Ranking Member SOLOMON ORTIZ of the Readiness Subcommittee and to Chairman DUNCAN HUNTER and Ranking Member IKE SKELTON of the full committee for their steadfast subpart in adresses these ship repair and workforce issues. I would like to particularly thank the efforts of their respective staffs, especially the efforts of House Armed Services Committee Professional Staff Members Joe Fengler and Paul Arcangeli. Mr. Fengler has recently left the committee staff but I would like to acknowledge his professionalism, expertise and work ethic in representing his Chairman and in facilitating robust oversight by the House Armed Services Committee and its Members. I know that Mr. Fengler will have a bright future and I thank him for his dedication and service to Chairman HUNTER, to the committee and to our country.

This Act also includes a provision, Section 2810, to repeal Section 2864 of Title 10 in the United States Code which prohibits H2–B skilled foreign laborers, or nonimmigrant aliens, from working on military construction (MILCON) projects on Guam. Many community and industry stakeholders recognized that the restriction on labor contracts for military construction projects on Guam does not apply to other military construction projects elsewhere. Stakeholders felt that the Guam specific restrictions could negatively impact the ability to execute the planned military growth on Guam in the required timeframe. Because completing the movement of Marines from Okinawa to Guam in a timely manner is a major component of an international agreement, it was considered important to enable the Department of Defense to complete military construction projects associated with this move without undue obstacles and in accordance with the timeframe set out by the governments of Japan and the United States. At my urging, all parties agreed that the priority for hiring labor for military construction projects on Guam will continue to go to the local workforce. Many observed, however, that the amount of work expected on Guam will likely exceed local capacity and require additional labor, as have other large construction booms in Guam's past. Nonetheless, a principal part of my focus in representing the people of Guam remains preparing and training the local Guam workforce so that Guam's workers can receive maximum benefit from the military buildup. This provision ultimately enables Guam to prepare to meet the demands of future construction while also enabling the United States Government to meet its international obligations and thereby maintain its credibility and reputation with important allies.

I am pleased that this Act also authorizes a major increase in military construction funding for Guam. The military construction funding for Guam is a continued reflection of the Department of Defense's renewed interest in utilizing Guam's first-class and strategically located bases. Guam provides a capability to our Nation to project stability into the Pacific and, if ever necessary, to project force to protect our Nation, our allies and our values. I note that the Senate had previously marked against two military construction projects scheduled for Guam. I commend the Senate Armed Services Committee leadership for working with me and with my House colleagues to retain one of these two projects. Authorizing the first phase of construction at Andersen Air Force Base's Northwest Field is a critical step to completing the already begun relocation of the Air Force's Red Horse School from Osan, Korea to Guam. This relocation is an important part of the Air Force's realignment of forces in the Pacific and its increased utilization of Andersen Air Force Base on Guam. While I am disappointed the Senate did not recede to the House authorization for the new commercial gate at Andersen Air Force Base, I join the Senate in expressing my strong intent to evaluate military construction projects scheduled for Guam to ensure that they fit within the overall plans for growth on the island and are consistent with the needs not just of the military but of the civilian community on Guam. While I believe the commercial gate already fit well within the plans for overall development on Guam, the concerns expressed by the Senate are shared in general and I look forward to working with my House and Senate colleagues to provide robust oversight of military development on Guam to ensure it is properly executed in the interests of all parties.

The $193.446 million in military construction funding for projects on Guam authorized this year represents continued growth in military activity on the island and provides assistance to Guam in preparing incrementally for the periods of military construction on the island which will soon be far more robust.

It is unfortunate that the conferees did not include in the conference agreement Section 632 of the House passed authorization bill. This provision would have authorized servicemembers assigned to and from non-foreign overseas locations to ship a second personally owned vehicle at government expense to the new assigned duty station consistent with the authorization for assignments within the continental United States. This change in law is still needed. This is an important quality of life issue for servicemen and women and their families who receive orders to serve on bases located outside the 48 contiguous States. Supported by The Military Coalition and by the Congressional delegations from Hawaii, Alaska, Puerto Rico and Guam, it is my hope that the committee will once again consider this provision next year and that its passage will ultimately be won. Our men and women in uniform deserve the enactment of this provision.

Finally, I am pleased that conferees retained language in this Act requiring the Department of Defense to study reestablishing a Military Entrance Processing Center on Guam. This study authorization is contained in Section 582 of the Act. The great number of patriotic men and women who enlist in our Armed Services from Guam and from the region deserve and need an entrance processing center on Guam. I encourage the Department of Defense to expeditiously undertake and complete this study. I trust it will find that the value of establishing a center on Guam is high and that such establishment will yield important results for recruitment goals. I look forward to the establishment of such a center and stand prepared to assist the Department in any way necessary to facilitate such an endeavor.

The decision by conferees to include numerous provisions important to our Nation's veterans is also to be commended. In particular, I fully support the provision which places a one-year moratorium on any increases in retail pharmaceutical prices under the TRICARE system. I join my colleagues in reiterating the principle that we must fulfill our promises to the veterans who have served our Nation. Increasing pharmaceutical fees under the TRICARE system is simply unacceptable. I also fully support the many other provisions in this Act related to protecting our veterans, our active duty personnel and our reserve personnel. I note particular support for the provision to curb predatory lending activity around military bases and the provisions to improve health care services for servicemembers suffering from post traumatic stress disorder or other combat related injuries. Our Nation remains committed to caring for those who fight and have fought to protect our way of life and our values.

This Act also contains language directing the Department of Defense to study cases of reported off shore disposal of munitions by the Department of Defense. I encourage the Department to study any cases of potential off shore disposal in the waters off of Guam. Should the Department determine that any dumping of munitions took place in the waters off of Guam, I urge the Department to take action to remedy any potential harm of such dumping. I further urge the Department to be not just comprehensive but transparent in its conduct of these studies and its findings. It is vital that the communities connected to any past disposal actions be kept fully informed as to Department findings and actions.

I also support provisions in this Act that direct the Secretary of Defense to prepare a plan that would enable the Department of Defense Education Activity (DODEA) to assist local educational agencies that are affected by force structure changes in their communities. I plan to continue to work closely with the Department of Defense regarding the impacts that the movement of 8,000 Marines to Guam will have on Guam's local education system. The 8,000 Marines are expected to be accompanied by 9,000 dependents and perhaps several thousand civilian employees. While the dependents of the Marines are expected to attend DODEA schools, it is not unreasonable to believe that some Marine children as well as the children of civilian employees will enter the Guam Public School System. We must begin planning now to prepare Guam for any such impact.

I am a strong supporter of our Nation's National Guard and especially of the National Guard and Reserve servicemembers who reside on Guam. I remain a strong supporter of H.R. 5200, the National Guard Empowerment Act. I believe that the time has come to change the way we think about our Guard and Reserve because in this war on terror we have changed the way we use them. No longer can the Guard and Reserve come second in funding, equipping or anything else.

So while I am pleased that H.R. 5122 substantially increases authorized funding for Guard and Reserve equipment, I believe this bill should have also included the provisions of H.R. 5200 to ensure that the Guard would receive a Chief with a fourth star that sits on the Joint Chiefs of Staff and could advocate for and protect Guard interests. I also believe it is time to give the Guard independent budget authority from the parent services because history has told us that the parent services care for themselves first and the reserve component second. In an era when the Guard is completing the same mission as its active duty counterparts, it should have the same leadership and authorities as its active duty counterparts. I will continue to advocate for reform and increased empowerment of the Guard and Reserve. I look forward to the study of H.R. 5200 by the Commission on the National Guard and Reserves and trust that the Commission will recommend adoption of many of the provisions contained within the legislation. I also note that conferees removed authority included in the House passed authorization bill that would have enabled the President to mobilize Guard members without the consent of a state or territorial governor in the event of a natural disaster. Granting such an authority would remove a fundamental and constitutional control granted to state governors regarding their state militias. I am pleased that the provision has been stricken from the bill.

Finally, I am encouraged that the conferees retained in the final bill language proposed by the Senate that requires the President to appoint a senior presidential coordinator of U.S. policy on North Korea and to submit to Congress a semi-annual report on the nuclear and missile programs of North Korea (Section 1211). While I remain a strong supporter of the Six-Party Talks, North Korea's testing of a Taepodong II missile earlier this year indicates that current policy toward North Korea is not proving a sufficiently effective deterrent against the unstable regime currently in Pyongyang. More must be done to secure our country and to assure allies in the Pacific of their safety from a North Korean regime that appears determined to develop additional nuclear weapons and to develop the means to deliver them. I also support the $10.4 billion in funding authorized in this Act for missile defense including the increase of $100 million for the ship based Aegis ballistic missile defense system, a system vital to protecting islands in the Pacific, including Guam, from any North Korean threat.

Mr. Speaker, I have addressed only a few of the many provisions within this Act. I commend my colleagues for their work in finalizing the defense authorization bill. The legislation provides for measures ranging from a well deserved pay raise for our uniformed servicemembers to construction funding for ships vital to our Navy's future. I am in support of this legislation and urge my colleagues to pass H.R. 5122.

Mr. UDALL of Colorado. Mr. Speaker, I rise in support of this conference report.

As a relatively new Member of the Armed Services Committee, I appreciate having had the opportunity to work with my colleagues, especially Chairman HUNTER and Ranking Member SKELTON, on a number of provisions of particular importance to Colorado.

I want to express my particular thanks to JOEL HEFLEY, the dean of our Colorado delegation, who I am proud to call my colleague and friend. He and I have joined forces on a wide variety of matters, including steps to respond to the danger to our state's communities from wildfires, and I have benefited greatly from the opportunity to work with him both before and especially after I became a member of the Armed Services Committee.

The Senate bill included language to name a housing facility at Fort Carson in honor of Representative HEFLEY, who is retiring at the end of the year. I thought it was appropriate, and while the conference report does not include that provision, I am glad to note that it does include a section (Section 2002) that accurately states that since his election in 1986, Representative HEFLEY "has served in the House of Representatives with distinction, class, integrity, and honor."

The same section goes on to note that Representative HEFLEY'S efforts on our committee have benefited the military value of installations in Colorado and the quality of life of the men and women stationed there. It also reminds us that he was a leader in efforts to retain and expand Fort Carson and was a leader in efforts to eliminate inadequate housing on military installations, beginning with a pilot program at that Colorado base, an effort which has "brought meaningful improvements to living conditions for thousands of members of the Armed Forces and their spouses and children at installations throughout the United States.

And it concludes by saying that "Congress recognizes and commends Representative JOEL HEFLEY for his 20 years of service to benefit the people of Colorado, members of the Armed Forces and their families, veterans, and the United States"—a well-earned commendation in which I completely concur.

Looking ahead, I anticipate receipt of two reports on matters of particular importance to Colorado.

Part of the report of our House Armed Forces Committee accompanying this authorization bill reflected our recognition of the importance of the High Altitude Aviation Training Site (HAATS) based at the Eagle, Colorado Regional Airport and its need for enough aircraft to fulfill its mission.

HAATS is the primary site for training military aviators on operations in hostile, high altitude, and power-limited environments under all seasonal weather conditions, such as Afghanistan. Responding to language I had included in the Defense Authorization bill last year, the Army National Guard pledged to provide two Blackhawks to HAATS. However, I'm told HAATS needs five Blackhawks in order to sustain training requirements.

To lay the foundation for possible future action to meet that need, our committee's report included a request for the Secretary of the Army to provide a report on high altitude aviation training to the congressional defense committees by December 15, 2006. The report is to include: (1) The current location and type of high altitude training, to include the percentage of pilots who receive such training on an annual basis at each location and the types of aircraft used in such training; (2) the number and type of helicopters required to provide the high altitude aviation training needed to sustain the war strategies contained in the 2006 Quadrennial Defense Review, assuming that priority for such training is given to commanders, instructor pilots, aviation safety officers, and deploying units; and (3) a thorough evaluation of the accident rates for deployed

Army helicopter pilots who received high altitude training and deployed helicopter pilots who did not receive such training, including the number of accidents related to power management, using high and low estimates and the number of accidents involving combat and non-combat environments. I expect that this report will make clear the importance of HAATS' critical mission and the need for its having more aircraft.

And this conference report includes a section (section 2827) requiring a report by November 30th of this year analyzing of any potential expansion of the Pinon Canyon Maneuver Site, which is associated with Fort Carson. As a member of the Armed Service Committee and the Colorado delegation, I will be very interested in the information presented in this report.

The conference report provides funds for important projects in Colorado, including $10 million for work at Buckley Air Force Base, $4.9 million for construction at Peterson Air Force Base, $21 million for work at Schreiver Air Force Base, and $26.1 million to be used at Fort Carson.

And, at the national level, it includes many provisions that will improve our overall military readiness and provide for our troops and retirees.

Among other things, it authorizes a 2.2 percent pay raise, effective January 1, 2007, and includes a provision, developed through the leadership of our colleague Representative JOHN SPRATT, to provide targeted pay raises for mid-grade and senior NCOs and warrant officers, effective April 1, 2007. It also expands TRICARE Reserve Select to members of the Selected Reserves, and terminates the current three-tier eligibility program while putting a one-year moratorium on any increases in retail pharmaceutical prices under the TRICARE system.

The conference report also establishes additional financial protections for service members, prohibiting creditors from charging service members and their dependents annual interest rates for loans higher than the legal limit for state residents, or no more than 36 percent in any case.

And, of course, it authorizes a $70 billion supplemental for operations in Iraq and Afghanistan, including $23.7 billion to replace and reset equipment lost or damaged in operations.

I opposed President Bush's decision to invade Iraq and my concerns about this poorly managed and badly planned war have been realized. I believe it was a strategic mistake to make nationbuilding in Iraq the centerpiece of our war against Islamic terrorism—a belief that has been strengthened by the April 2006 National Intelligence Estimate entitled "Trends in Global Terrorism: Implication for the United States," portions of which were recently declassified. But now that our troops are there and Iraq is struggling to avoid a slide into civil war, we cannot withdraw them immediately, and we must continue to provide the funds necessary to maintain and re-equip them.

I urge approval of the conference report.

Mr. HOLT. Mr. Speaker, I reluctantly rise today to oppose the Conference Report for The National Defense Authorization Act, H.R. 5122.

The National Defense Authorization Act is Congress' only opportunity each year to seriously debate the defense polices of our Nation. Yet, when the House debated this legislation in earlier this year, the Republican Majority prevented any debate about the most important national defense issue we face: the war in Iraq. More than 2,700 American service members have lost their lives fighting in Iraq. American taxpayers have paid more than $400 billion to fund the effort. Yet, despite authorizing an additional $70 billion for the war, we have had no debate on this floor about our policy or needed strategy changes. This is an unconscionable failure of the House.

The House previously made a mockery of Congress' responsibilities to guide policy by shamefully politicizing Representative JOHN MURTHA's thoughtful proposal for a phased redeployment of American troops in Iraq. Regardless of one's opinion on the best course of action in the war, the failure of Congress to entertain debate or exercise real oversight is a dereliction of our duty.

Just this week, news reports revealed that a National Intelligence Estimate (NIE) written in April comes to the conclusion that the war in Iraq is making America less safe. I have been telling my constituents for months that this war is endangering the lives of our service members, fueling the terrorist insurgency, and failing to make us safer. The NIE confirms this.

On another important subject, Congress is also long overdue for a serious examination of our nuclear weapons policy. Fifteen years after the collapse of the Soviet Union, we behave as if the Cold War never ended, maintaining a stockpile of thousands of nuclear weapons, many on hair-trigger missiles—far more than we need to assure our continued military dominance. It is time we honor the commitment we made when we signed the Nuclear Non-Proliferation Treaty and begin to phase out our nuclear stockpile. This bill fails to make any changes to our nuclear posture and it is my hope that the committee will work with me to get the United States to honor our NPT pledge.

I am also disappointed that this bill authorizes $9.4 billion for the missile defense programs within the Missile Defense Agency (MDA). Since its inception during the Reagan administration, MDA has spent nearly $100 billion for missile defense programs that have repeatedly failed flight tests. This money would have been more wisely spent on other national security priorities, such as jamming devices for improvised explosive devices (IEDs), up-armoring Humvees, and radiological detection at our ports and borders. One of the craziest ideas I have ever heard is that we should deploy this missile defense system as a way to test it. Simple strategic analysis tells us that a provocative yet permeable defense is destabilizing and weakens the security of all Americans.

This authorization bill fails to address and make needed changes to U.S. policy in any one of these three areas, which is why I oppose this bill.

Ms. LEE. Mr. Speaker, I rise in opposition to this $533 billion Defense authorization bill.

But, Mr. Speaker, the bill before us today does have a very important provision in it: language preventing the establishment of permanent military bases in Iraq.

This is an important first step in taking the targets off the backs of our troops in Iraq by showing the world that we have no designs to stay in Iraq permanently.

However, this provision will only apply to funds for FY07. We need to make the policy of the United States not to have permanent military bases in Iraq.

Futhermore, it's unfortunate that this bill is the vehicle for this critical policy.

Mr. Speaker, I believe that our Nation is best defended by funding priorities that make our Nation and world safer.

This bill, I'm sorry to say, does not do that.

Mr. Speaker, what does it say about our priorities when Congress authorizes nearly $70 billion more for the wars in Iraq and Afghanistan without any direction, or exit strategy?

Mr. Speaker, what does it say about our priorities when this bill authorizes a $10.4 billion for a missile defense program that has consistently failed, will never protect us from terrorists?

What it is says, Mr. Speaker is the priorities of the Bush administration are grossly misplaced. When it comes to making our Nation safe, they are spending almost $2 billion a week on a war in Iraq, but can't spare a dime for the security of the Port of Oakland, our Nation's fourth largest container port.

That's why, Mr. Speaker, I urge my colleagues to reject this bill and offer Americans a real bill that protects America and truly reflects our nation's security priorities.

Mr. HEFLEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HEFLEY. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on questions previously postponed.

Votes will be taken in the following order: adoption of conference report on H.R. 5441; adoption of conference report on H.R. 5122; and passage of H.R. 4772, in each case by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

CONFERENCE REPORT ON H.R. 5441, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2007

The SPEAKER pro tempore. The pending business is the question of adoption of the conference report on the bill, H.R. 5441, on which the yeas and nays are ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the conference report.

The vote was taken by electronic device, and there were—yeas 412, nays 6, not voting 14, as follows:

□ 1810

Mr. McDERMOTT changed his vote from "yea" to "nay."

Ms. DeLAURO and Mr. WALSH changed their vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

(Mr. BOEHNER asked and was given permission to address the House for 1 minute.)

Mr. BOEHNER. Mr. Speaker and my colleagues, just to give everyone as much information as I have, after this series of votes we will move to a series of suspension votes. We are expecting to have a port security conference report available some time this evening.

I wish I could give you a more exact time. I expect that we could see this at 9 to 10 o'clock in the Rules Committee, or somewhere in that vicinity, and have it on the floor and hopefully be finished by midnight.

I would be happy to yield to my colleague from Maryland.

Mr. HOYER. Is it therefore safe to assume that the port security bill would be the last bill on which Members would be required to vote, or would there possibly be other business following that?

Mr. BOEHNER. I would expect that the port security vote around midnight would be the last vote for the day.

I do expect that will be our last vote, we will complete our work, and I will have met my commitment to all of you.

LEGISLATIVE PROGRAM

(Mr. HOYER asked and was given permission to address the House for 1 minute.)

Mr. HOYER. Mr. Leader, if you would, can you clarify for the Members what you contemplate the schedule to be from now until we get to the port security bill?

I yield to my friend.

Mr. BOEHNER. I thank my colleague for yielding.

After this series of votes, we have a series of suspensions. Any votes that may be called, we will roll and take at the time of the vote on the rule for the port security bill.

Mr. HOYER. So that will be some time after 9 o'clock?

Mr. BOEHNER. It will be sometime closer to 10:30 or 11 o'clock.

Mr. HOYER. So after this series of votes, Members could be confident there will be no votes prior to, say, 9:30?

Mr. BOEHNER. There will be no votes until probably closer to 11.

Mr. HOYER. I thank the gentleman.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Without objection, 5-minute voting will continue.

There was no objection.

CONFERENCE REPORT ON H.R. 5122, JOHN WARNER NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2007

The SPEAKER pro tempore. The pending business is the question of adoption of the conference report on the bill, H.R. 5122, on which the yeas and nays are ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the conference report.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 398, nays 23, not voting 12, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised that they have 2 minutes in which to vote.

☐ 1831

Mr. KIRK changed his vote from "yea" to "nay."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. JONES of North Carolina. Mr. Speaker, due to a pre-existing commitment in my district, I missed three rollcall votes this afternoon. I ask that the CONGRESSIONAL RECORD show that had I been present:

For rollcall No. 509—Adoption of the Conference Report on H.R. 5441, the Department of Homeland Security Appropriations Act for Fiscal Year 2007—I would have voted "aye";

For rollcall No. 510—Adoption of the Conference Report on H.R. 5122, the National Defense Authorization Act for Fiscal Year 2007—I would have voted "aye";

For rollcall No. 511—Final Passage on H.R. 4772, the Private Property Rights Implementation Act—I would have voted "aye."

PERSONAL EXPLANATION

Mr. LEWIS of Georgia. Mr. Speaker, I was unable to cast rollcall votes 474 through 503 from September 26 through September 29, 2006, because I was attending to a family emergency. Had I been present, I would have cast the following votes:

On rollcall 474, I would have voted "no."
On rollcall 475, I would have voted "no."
On rollcall 476, I would have voted "no."
On rollcall 477, I would have voted "no."
On rollcall 478, I would have voted "yes."
On rollcall 479, I would have voted "no."
On rollcall 480, I would have voted "no."
On rollcall 481, I would have voted "yes."
On rollcall 482, I would have voted "yes."
On rollcall 483, I would have voted "yes."
On rollcall 484, I would have voted "yes."
On rollcall 485, I would have voted "yes."
On rollcall 486, I would have voted "no."
On rollcall 487, I would have voted "no."
On rollcall 488, I would have voted "no."
On rollcall 489, I would have voted "no."
On rollcall 490, I would have voted "yes."
On rollcall 491, I would have voted "no."
On rollcall 492, I would have voted "yes."
On rollcall 493, I would have voted "yes."
On rollcall 494, I would have voted "yes."
On rollcall 495, I would have voted "no."
On rollcall 496, I would have voted "no."
On rollcall 497, I would have voted "no."
On rollcall 498, I would have voted "no."
On rollcall 499, I would have voted "no."
On rollcall 500, I would have voted "yes."
On rollcall 501, I would have voted "yes."
On rollcall 502, I would have voted "no."
On rollcall 503, I would have voted "yes."
On rollcall 504, I would have voted "no."
On rollcall 505, I would have voted "no."
On rollcall 506, I would have voted "no."
On rollcall 507, I would have voted "no."
On rollcall 508, I would have voted "no."
On rollcall 509, I would have voted "yes."
On rollcall 510, I would have voted "no."
On rollcall 511, I would have voted "no."

PERSONAL EXPLANATION

Mr. OBEY. Mr. Speaker, on the vote on H.R. 5441, the voting bells in my office malfunctioned, did not go off, causing me to miss the vote.

I would have voted "aye."

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mrs. Wanda Evans, one of his secretaries.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment bills and concurrent resolution of the House of the following titles:

H.R. 233. An act to designate certain National Forest System lands in the Mendocino and Six Rivers National Forests and certain Bureau of Land Management lands in Humboldt, Lake, Mendocino, and Napa Counties in the State of California as wilderness, to designate the Elkhorn Ridge Potential Wilderness Area, to designate certain segments of the Black Butte River in Mendocino County, California as a wild or scenic river, and for other purposes.

H.R. 318. An act to authorize the Secretary of the Interior to study the suitability and feasibility of designating Castle Nugent Farms located on St. Croix, Virgin Islands, as a unit of the National Park System, and for other purposes.

H.R. 326. An act to amend the Yuma Crossing National Heritage Area Act of 2000 to adjust the boundary of the Yuma Crossing National Heritage Area, and for other purposes.

H.R. 562. An act to authorize the Government of Ukraine to establish a memorial on Federal land in the District of Columbia to honor the victims of the man-made famine that occurred in Ukraine in 1932–1933.

H.R. 1728. An act to authorize the Secretary of the Interior to study the suitability and feasibility of designating portions of Ste. Genevieve County in the State of Missouri as a unit of the National Park System, and for other purposes.

H.R. 2107. An act to amend Public Law 104-329 to modify authorities for the use of the National Law Enforcement Officers Memorial Maintenance Fund, and for other purposes.

H.R. 2720. An act to further the purposes of the Reclamation Projects Authorization and Adjustment Act of 1992 by directing the Secretary of the Interior, acting through the Commissioner of Reclamation, to carry out an assessment and demonstration program to control salt cedar and Russian olive, and for other purposes.

H.R. 3443. An act to direct the Secretary of the Interior to convey certain water distribution facilities to the Northern Colorado Water Conservancy District.

H.R. 4841. An act to amend the Ojito Wilderness Act to make a technical correction.

H. Con. Res. 456. Concurrent resolution providing for a correction to the enrollment of the bill, S. 203.

The message also announced that the Senate has passed with an amendment in which the concurrence of the House is requested. bills of the House of the following titles:

H.R. 409. An act to provide for the exchange of land within the Sierra National Forest, California, and for other purposes.

H.R. 1129. An act to authorize the exchange of certain land in the State of Colorado.

H.R. 3085. An act to amend the National Trails System Act to update the feasibility and suitability study originally prepared for the Trail of Tears National Historic Trail and provide for the inclusion of new trail segments, land components, and campgrounds associated with that trail, and for other purposes.

The message also announced that the Senate has passed bills of the following titles in which the concurrence of the House is requested:

S. 476. An act to authorize the Boy Scouts of America to exchange certain land in the

State of Utah acquired under the Recreation and Public Purposes Act.

S. 1131. An act to authorize the exchange of certain Federal land within the State of Idaho, and for other purposes.

S. 1288. An act to authorize the Secretary of the Interior to enter into cooperative agreements to protect natural resources of units of the National Park System through collaborative efforts on land inside and outside of units of the National Park System.

S. 1346. An act to direct the Secretary of the Interior to conduct a study of maritime sites in the State of Michigan.

S. 1378. An act to amend the National Historic Preservation Act to provide appropriation authorization and improve the operations of the Advisory Council on Historic Preservation.

S. 1829. An act to repeal certain sections of the Act of May 26, 1936, pertaining to the Virgin Islands.

S. 1830. An act to amend the Compact of Free Association Amendments Act of 2003, and for other purposes.

S. 1913. An act to authorize the Secretary of the Interior to lease a portion of the Dorothy Buell Memorial Visitor Center for use as a visitor center for the Indiana Dunes National Lakeshore, and for other purposes.

S. 4001. An act to designate certain land in New England as wilderness for inclusion in the National Wilderness Preservation system and certain land as a National Recreation Area, and for other purposes.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken later today.

SAFETEA-LU AMENDMENTS ACT

Mr. PETRI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6233) to amend the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users to make technical corrections, and for other purposes.

The Clerk read as follows:

H.R. 6233

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—HIGHWAY PROVISIONS

SECTION 101. SURFACE TRANSPORTATION TECHNICAL CORRECTIONS.

(a) Correction of Internal References in Disadvantaged Business Enterprises.—Paragraphs (3)(A) and (5) of section 1101(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1156) are amended by striking "paragraph (1)" each place it appears and inserting "paragraph (2)".

(b) Correction of Distribution of Obligation Authority.—Section 1102(c)(5) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1158) is amended by striking "among the States".

(c) Correction of Federal Lands Highways.—Section 1119 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1190) is amended by striking subsection (m) and inserting the following:

"(m) Forest Highways.—Of the amounts made available for public lands highways under section 1101—

"(1) not more than $20,000,000 for each fiscal year may be used for the maintenance of forest highways;

"(2) not more than $1,000,000 for each fiscal year may be used for signage identifying public hunting and fishing access; and

"(3) not more than $10,000,000 for each fiscal year shall be used by the Secretary of Agriculture to pay the costs of facilitating the passage of aquatic species beneath forest roads (as defined in section 101(a) of title 23, United States Code), including the costs of constructing, maintaining, replacing, and removing culverts and bridges, as appropriate.".

(d) Correction of Description of National Corridor Infrastructure Improvement Project.—Item number 1 of the table contained in section 1302(e) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1205) is amended in the State column by inserting "LA," after "TX,".

(e) Correction of Interstate Route 376 High Priority Designation.—

(1) In general.—Section 1105(c)(79) of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2032; 119 Stat. 1213) is amended by striking "and on United States Route 422".

(2) Conforming amendment.—Section 1105(e)(5)(B)(i)(I) of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2033; 119 Stat. 1213) is amended by striking "and United States Route 422".

(f) Correction of Infrastructure Finance Section.—Section 1602(d)(1) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1247) is amended by striking "through 189 as sections 601 through 609, respectively" and inserting "through 190 as sections 601 through 610, respectively".

(g) Correction of Project Federal Share.—Section 1964(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1519) is amended by striking "section 120(b)" and inserting "section 120".

(h) Transportation Systems Management and Operations Defined.—Section 101(a) of title 23, United States Code, is amended by adding at the end the following:

"(39) Transportation systems management and operations.—

"(A) In general.—The term 'transportation systems management and operations' means an integrated program to optimize the performance of existing infrastructure through the implementation of multimodal and intermodal, cross-jurisdictional systems, services, and projects designed to preserve capacity and improve security, safety, and reliability of the transportation system.

"(B) Inclusions.—The term 'transportation systems management and operations' includes—

"(i) regional operations collaboration and coordination activities between transportation and public safety agencies; and

"(ii) improvements to the transportation system, such as traffic detection and surveillance, arterial management, freeway management, demand management, work zone management, emergency management, electronic toll collection, automated enforcement, traffic incident management, roadway weather management, traveler information services, commercial vehicle operations, traffic control, freight management, and coordination of highway, rail, transit, bicycle, and pedestrian operations.".

(i) Correction of Reference in Apportionment of Highway Safety Improvement Program Funds.—Effective October 1, 2006, section 104(b)(5)(A)(iii) of title 23, United States Code, is amended by striking "the Federal-aid system" each place it appears and inserting "Federal-aid highways".

(j) Correction of Amendment to Advance Construction.—Section 115 of title 23, United States Code, is amended by redesignating subsection (d) as subsection (c).

(k) Correction of High Priority Projects.—Section 117 of title 23, United States Code, is amended—

(1) by redesignating subsections (d) through (h) as subsections (e) through (i), respectively;

(2) by redesignating the second subsection (c) (relating to Federal share) as subsection (d);

(3) in subsection (a)(2)(A) by inserting "(112 Stat. 257)" after "21st Century"; and

(4) in subsection (a)(2)(B)—

(A) by striking "subsection (b)" and inserting "subsection (c)"; and

(B) by striking "SAFETEA-LU" and inserting "Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1256)".

(l) Correction of Transfer of Unused Protective-Device Funds to Other Highway Safety Improvement Program Projects.—Section 130(e)(2) of title 23, United States Code, is amended by striking "purposes under this subsection" and inserting "highway safety improvement program purposes".

(m) Correction of Highway Bridge Program.—

(1) In general.—Section 144 of title 23, United States Code, is amended—

(A) in the section heading by striking "**REPLACEMENT AND REHABILITATION**";

(B) in subsections (b), (c)(1), and (e) by striking "Federal-aid system" each place it appears and inserting "Federal-aid highway";

(C) in subsections (c)(2) and (o) by striking "the Federal-aid system" each place it appears and inserting "Federal-aid highways";

(D) in the heading to paragraph (4) of subsection (d) by inserting "SYSTEMATIC" before "PREVENTIVE";

(E) in subsection (e) by striking "off-system bridges" each place it appears and inserting "bridges not on Federal-aid highways";

(F) by striking subsection (f);

(G) by redesignating subsections (g) through (s) as subsections (f) through (r), respectively;

(H) in paragraph (2) of subsection (f) (as redesignated by subparagraph (G)) by striking the paragraph heading and inserting "BRIDGES NOT ON FEDERAL-AID HIGHWAYS";

(I) in subsection (m) (as redesignated by subparagraph (G)) by striking the subsection heading and inserting "Program for Bridges Not on Federal-Aid Highways"; and

(J) in subsection (n)(4)(B) (as redesignated by subparagraph (G)) by striking "State highway agency" and inserting "State transportation department".

(2) Conforming amendments.—

(A) Equity bonus program.—Subsections (a)(2)(C) and (b)(2)(C) of section 105 of title 23, United States Code, are amended by striking "replacement and rehabilitation" each place it appears.

(B) ANALYSIS.—The analysis for chapter 1 of title 23, United States Code, is amended in the item relating to section 144 by striking "replacement and rehabilitation".

(n) CORRECTION OF NATIONAL SCENIC BYWAYS PROGRAM COVERAGE.—Section 162 of title 23, United States Code, is amended—

(1) in subsection (a)(3)(B) by striking "a National Scenic Byway under subparagraph (A)" and inserting "a National Scenic Byway, an All-American Road, or one of America's Byways under paragraph (1)"; and

(2) in subsection (c)(3) by striking "or All-American Road" each place it appears and inserting "All-American Road, or one of America's Byways".

(o) CORRECTION OF REFERENCE IN TOLL PROVISION.—Section 166(b)(5)(C) of title 23, United States Code, is amended by striking "paragraph (3)" and inserting "paragraph (4)"..

(p) CORRECTION OF RECREATIONAL TRAILS PROGRAM APPORTIONMENT EXCEPTIONS.—Section 206(d)(3)(A) of title 23, United States Code, is amended by striking "(B), (C), and (D)" and inserting "(B) and (C)".

(q) CORRECTION OF INFRASTRUCTURE FINANCE.—Section 601(a)(3) of title 23, United States Code, is amended by inserting "bbb minus, BBB (low)," after "Baa3,".

(r) CORRECTION OF MISCELLANEOUS TYPOGRAPHICAL ERRORS.—

(1) Section 1401 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1226) is amended by redesignating subsections (d) and (e) as subsections (c) and (d), respectively.

(2) Section 1404(e) of such Act (119 Stat. 1229) is amended by inserting "tribal," after "local,".

(3) Section 10211(b)(2) of such Act (119 Stat. 1937) is amended by striking "plan administer" and inserting "plan and administer".

(4) Section 10212(a) of such Act (119 Stat. 1937) is amended—

(A) by inserting "equity bonus," after "minimum guarantee,";

(B) by striking "freight intermodal connectors" and inserting "railway-highway crossings";

(C) by striking "high risk rural road,"; and

(D) by inserting after "highway safety improvement programs" the following: "(and separately the set aside for the high risk rural road program)".

SEC. 102. MAGLEV.

(a) FUNDING.—Section 1101(a)(18) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1155) is amended by striking subparagraphs (A) and (B) and inserting the following:

"(A) $20,000,000 for fiscal year 2007; and

"(B) $35,000,000 for each of fiscal years 2008 and 2009.".

(b) CONTRACT AUTHORITY.—Section 1307 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1217) is amended by adding at the end the following:

"(e) CONTRACT AUTHORITY.—Funds authorized under section 1101(a)(18) shall be available for obligation in the same manner as if the funds were apportioned under chapter 1 of title 23, United States Code; except that the funds shall not be transferable and shall remain available until expended, and the Federal share of the cost of a project to be carried out with such funds shall be 80 percent.".

SEC. 103. PROJECTS OF NATIONAL AND REGIONAL SIGNIFICANCE.

Item number 22 of the table contained in section 1301(m) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1204) is amended by striking "Improvements to I–80, Monroe County, PA" and inserting "Redesign and reconstruction of interchanges 298 and 299 of I–80 and accompanying improvements to any other public roads in the vicinity, Monroe County".

SEC. 104. NATIONAL CORRIDOR INFRASTRUCTURE IMPROVEMENT PROJECTS.

The table contained in section 1302(e) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1205) is amended in item number 23 by striking the project description and inserting "Improvements to State Road 312, Hammond".

SEC. 105. PROJECT AUTHORIZATIONS.

(a) IN GENERAL.—The table contained in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1256) is amended—

(1) in item number 34 by striking the project description and inserting "Removal and Reconfiguration of Interstate ramps, I-40, Memphis";

(2) by striking item number 61;

(3) in item number 87 by striking the project description and inserting "M–291 highway outer road improvement project";

(4) in item number 128 by striking "$2,400,000" and inserting "$4,800,000";

(5) in item number 154 by striking "Virginia" and inserting "Eveleth";

(6) in item number 193 by striking the project description and inserting "Improvements to or access to Route 108 to enhance access to the business park near Rumford";

(7) in item number 240 by striking "$800,000" and inserting "$2,400,000";

(8) by striking item number 248;

(9) in item number 259 by striking the project description and inserting "Corridor study, EIS, and ROW acquisition for a bridge from east of the Crow Wing Highway 3 bridge crossing the Mississippi River in Brainerd to west of the Minnesota State Highway 6 bridge crossing the Mississippi River north of Crosby";

(10) in item number 274 by striking the project description and inserting "Intersection improvements at Belleville and Ecorse Roads and approach roadways, and widen Belleville Road from Ecorse to Tyler, Van Buren Township, Michigan";

(11) in item number 277 by striking the project description and inserting "Construct connector road from Rushing Drive North to Grand Ave., Williamson County";

(12) in item number 395 by striking the project description and inserting "Plan and construct interchange at I–65, from existing SR–109 to I–65";

(13) in item number 463 by striking "Cookeville" and inserting "Putnam County";

(14) in item number 576 by striking the project description and inserting "Design, right-of-way, and construction of Nebraska Highway 35 between Norfolk and South Sioux City, including an interchange at Milepost 1 on I–129";

(15) in item number 590 by inserting ", including" after "Safety";

(16) in item number 595 by striking "Street Closure at" and inserting "Transportation improvement project near";

(17) in item number 649 by striking the project description and inserting "Construction and enhancement of the Fillmore Avenue Corridor, Buffalo";

(18) in item number 655 by inserting ", safety improvement construction," after "Environmental studies";

(19) in item number 676 by striking the project description and inserting "St. Croix River crossing project, Wisconsin State Highway 64, St. Croix County, Wisconsin, to Minnesota State Highway 36, Washington County";

(20) in item number 770 by striking the project description and inserting "Improve existing Horns Hill Road in North Newark, Ohio, from Waterworks Road to Licking Springs Road";

(21) in item number 777 by striking the project description and inserting "Construct access from airport in Akutan";

(22) in item number 829 by striking the project description and inserting "$400,000 to conduct New Bedford/Fairhaven Bridge modernization study; $1,000,000 to design and build New Bedford Business Park access road";

(23) in item number 881 by striking the project description and inserting "Pedestrian safety improvements near North Atlantic Boulevard, Monterey Park";

(24) in item number 923 by striking the project description and inserting "Improve safety of a horizontal curve on Clarksville St. 0.25 miles north of 275th Rd. in Grandview Township, Edgar County";

(25) in item number 947 by striking the project description and inserting "Third East/West River Crossing, St. Lucie River";

(26) in item numbers 959 and 3327 by striking "Northern Section," each place it appears;

(27) in item number 963 by striking the project description and inserting "For engineering, right-of-way acquisition, and reconstruction of 2 existing lanes on Manhattan Road from Baseline Road to Route 53";

(28) in item number 983 by striking the project description and inserting "Land acquisition for highway mitigation in Cecil, Kent, Queen Annes, and Worcester Counties";

(29) in item number 1039 by striking the project description and inserting "Widen State Route 98, including storm drain developments, from D. Navarro Avenue to State Route 111";

(30) in item number 1047 by striking the project description and inserting "Bridge and road work at Little Susitna River Access road in Matanuska-Susitna Borough";

(31) in item number 1124 by striking "bridge over Stillwater River, Orono" and by inserting "routes";

(32) in item number 1206 by striking "Pleasantville" and inserting "Briarcliff Manor";

(33) in item number 1210 by striking the project description and inserting "Town of New Windsor Riley Road and Shore Drive";

(34) in item number 1281 by striking the project description and inserting "Upgrade roads in Attala County District 4 (Roads 4211 and 4204), Kosciusko, Ward 2, and Ethel, Attala County";

(35) in item number 1487 by striking "$800,000" and inserting "$1,600,000";

(36) in item number 1575 by striking the project description and inserting "Highway and road signage, and traffic signal synchronization and upgrades, in Shippensburg Boro, Shippensburg Township, and surrounding municipalities";

(37) in item number 1661 by striking the project description and inserting "Sheldon West Extension in Matanuska-Susitna Borough;"

(38) in item number 1810 by striking the project description and inserting "Design, engineering, ROW acquisition, construction, and construction engineering for the reconstruction of TH 95, from 12th Avenue to CSAH 13, including bridge and approaches, ramps, intersecting roadways, signals, turn lanes, and multiuse trail, North Branch";

(207) in item number 314 by striking the project description and the amount and inserting "Streetscape enhancements to the transit and pedestrian corridor, Fort Lauderdale, Downtown Development Authority" and "$610,000", respectively;

(208) in item number 1639 by striking the project description and inserting "Operational and highway safety improvements on Hwy 94 between the 20 mile marker post in Jamul and Hwy 188 in Tecate";

(209) in item numbers 2860 and 5029 by striking the project description and inserting "Roadway improvements from Halchita to Mexican Hat on the Navajo Nation";

(210) in item number 170 by striking "facility" and inserting "garage";

(211) in item number 826 by striking the project description and the amount and inserting "For the city of Wilkes-Barre and the city of Scranton to jointly study, analyze, assess, and implement the development of a regional intermodal transportation system, including associated improvements and enhancements to existing infrastructure and application of new technologies, in the counties of Luzerne, Lackawanna, and Monroe in Northeastern Pennsylvania" and "$2,800,000", respectively;

(212) in item number 2549 by striking "on Navy Pier";

(213) in item number 2804 by striking "on Navy Pier";

(214) in item number 1328 by striking the project description and inserting "Construct public access roadways and pedestrian safety improvements in and around Montclair State University in Clifton";

(215) in item number 2559 by striking the project description and inserting "Construct

sound walls on Route 164 at and near the Maersk interchange";

(216) in item 3665—

(A) by inserting "AL" in the State column;

(B) by inserting "Construction of Sulphur Springs Road Bypass in city of Hoover, Alabama" in the project description column; and

(C) by striking "$0" and inserting "$3,150,000";

(217) in item number 1849 by striking the project description and inserting "Highway, traffic-flow, pedestrian facility, and streetscape improvements, Pittsburgh"; and

(218) in item number 697 by striking the project description and inserting "Highway, traffic-flow, pedestrian facility, and streetscape improvements, Pittsburgh".

(b) TRANSFER OF PROJECT FUNDS.—The Secretary of Transportation shall transfer to the Commandant of the Coast Guard amounts made available to carry out the project described in item number 4985 of the table contained in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1447) to carry out that project, in accordance with the Act of June 21, 1940 (commonly known as the "Truman-Hobbs Act") (33 U.S.C. 511 et seq.).

(c) UNUSED OBLIGATION AUTHORITY.—Notwithstanding any other provision of law, unused obligation authority made available for an item in section 1702 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1256) that is repealed, or authorized funding for such an item that is reduced, by this section shall be made available—

(1) for an item in section 1702 of that Act that is added or increased by this section and that is in the same State as the item for which obligation authority or funding is repealed or reduced;

(2) in an amount proportional to the amount of obligation authority or funding that is so repealed or reduced; and

(3) individually for projects numbered 1 through 3676 pursuant to section 1102(c)(4)(A) of that Act (119 Stat. 1158).

(d) ADDITIONAL DISCRETIONARY USE OF SURFACE TRANSPORTATION PROGRAM FUNDS.—Of the funds apportioned to each State under section 104(b)(3) of title 23, United States Code, a State may expend for each of fiscal years 2007 through 2009 not more than $1,000,000 for the following activities:

(1) Participation in the Joint Operation Center for Fuel Compliance established under section 143(b)(4)(H) of title 23, United States Code, within the Department of the Treasury, including the funding of additional positions for motor fuel tax enforcement officers and other staff dedicated on a full-time basis to participation in the activities of the Center.

(2) Development, operation, and maintenance of electronic filing systems to coordinate data exchange with the Internal Revenue Service by States that impose a tax on the removal of taxable fuel from any refinery and on the removal of taxable fuel from any terminal.

(3) Development, operation, and maintenance of electronic single point of filing in conjunction with the Internal Revenue Service by States that impose a tax on the removal of taxable fuel from any refinery and on the removal of taxable fuel from any terminal.

(4) Development, operation, and maintenance of a certification system by a State of any fuel sold to a State or local government (as defined in section 4221(d)(4) of the Internal Revenue Code of 1986) for the exclusive use of the State or local government or sold to a qualified volunteer fire department (as defined in section 150(e)(2) of such Code) for its exclusive use.

(5) Development, operation, and maintenance of a certification system by a State of any fuel sold to a nonprofit educational organization (as defined in section 4221(d)(5) of such Code) that includes verification of the good standing of the organization in the State in which the organization is providing educational services.

SEC. 106. NONMOTORIZED TRANSPORTATION PILOT PROGRAM.

Section 1807(a)(3) of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (119 Stat. 1460) is amended by striking "Minneapolis-St. Paul, Minnesota" and inserting "Minneapolis, Minnesota".

SEC. 107. CORRECTION OF INTERSTATE AND NHS DESIGNATIONS.

(a) TREATMENT.—Section 1908(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1469) is amended by striking paragraph (3).

(b) NATIONAL HIGHWAY SYSTEM.—Section 1908(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1470) is amended by striking "from the Arkansas State line" and inserting "from Interstate Route 540".

SEC. 108. FUTURE OF SURFACE TRANSPORTATION SYSTEM.

Section 1909(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1471) is amended—

(1) in the matter preceding subparagraph (A) of paragraph (9) by striking "July 1, 2007" and inserting "December 31, 2007";

(2) in paragraph (11)(C) by striking "the Administrator of the Federal Highway Administration" and inserting "the Secretary";

(3) in paragraph (11)(D)(i) by striking ", on a reimbursable basis,"; and

(4) in paragraph (15) by striking "$1,400,000 for each of fiscal years 2006 and 2007" and inserting "$1,400,000 for fiscal year 2006 and $3,400,000 for fiscal year 2007".

SEC. 109. BUY AMERICA.

Section 1928 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1484) is amended—

(1) by redesignating paragraphs (2) through (5) as paragraphs (3) through (6), respectively; and

(2) by inserting after paragraph (1) the following:

"(2) the current application by the Federal Highway Administration of the Buy America test is only applied to components or parts of a bridge project and not the entire bridge project and this is inconsistent with this sense of Congress;".

SEC. 110. TRANSPORTATION IMPROVEMENTS.

The table contained in section 1934(c) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1486) is amended—

(1) in item number 12 by striking "Yukon River" and inserting "Kuskokwim River";

(2) in item number 57 by striking the project description and inserting "Kingsland bypass from CR 61 to I–95, Camden County";

(3) in item number 130 by striking the project description and inserting "Improvements and rehabilitation to rail and bridges on the Appanoose County Community Railroad";

(4) in item number 138 by striking the project description and inserting "West Spencer Beltway Project";

(5) in item number 142 by striking "MP 9.3, Segment I, II, and III" and inserting "Milepost 24.3";

(6) in item number 161 by striking "Bridge replacement on Johnson Drive and Nall Ave." and inserting "Construction improvements";

(7) in item number 181 by striking "BW Parkway" and inserting "Baltimore Washington Parkway";

(8) in item number 182 by striking the project description and inserting "Highway improvements in the vicinity of Aberdeen Proving Ground to support BRAC-related growth";

(9) in item number 196 by striking the project description and inserting "Detroit Riverfront Conservancy, Riverfront Walkway, greenway, and adjacent land planning, construction, and land acquisition from Gabriel Richard Park at the Douglas MacArthur Bridge to Riverside Park at the Ambassador Bridge, Detroit";

(10) in item number 198 by striking the project description and inserting "Construct 1 or more grade separated crossings of I–75 and make associated improvements to improve local and regional east-west mobility between Mileposts 279 and 282";

(11) in item number 201 by striking the project description and inserting "Paving a portion of H–58 from Buck Hill to the point located 4,000 feet east of the Hurricane River";

(12) in item number 238 by striking the project description and inserting "Develop and construct the St. Mary water project road and bridge infrastructure, including a new bridge and approaches across St. Mary River, stabilization and improvements to United States Route 89, and road/canal from Siphon Bridge to Spider Lake, on the condition that $2,500,000 of the amount made available to carry out this item may be made available to the Bureau of Reclamation for use for the Swift Current Creek and Boulder Creek bank and bed stabilization project in the Lower St. Mary Lake drainage.";

(13) in item number 329 by inserting ", Tulsa" after "technology";

(14) in item number 358 by striking "fuel-celled" and inserting "fueled";

(15) in item number 378 by inserting ", including any related real estate acquisition" after "expansion";

(16) in item number 402 by striking "from 2 to 5 lanes and improve alignment within rights-of-way in St. George" and inserting ", St. George";

(17) in item number 436 by inserting ", Saole," after "Sua";

(18) in item number 442 by striking "$12,000,000" and inserting "$8,600,000";

(19) by adding at the end—

(A) in the number column "467";

(B) in the State column "AZ";

(C) the project description column "Pinal Avenue/Main Street right-of-way acquisition—Pinal County, Casa Grande, AZ—To reconstruct Main St. to include a bypass for commercial traffic"; and

(D) in the amount column "$200,000";

(20) by adding at the end—

(A) in the number column "468";

(B) in the State column "AZ";

(C) the project description column "Navajo Route 20/Navajo Nation, Coconino County, AZ/To Conduct a 2-lane road design for 28 miles of dirt road between the communities of Le Chee, Coppermine, and Gap"; and

(D) in the amount column "$200,000"; and

(21) by adding at the end—

(A) in the number column "469";

(B) in the State column "AL";

(C) the project description column "Construction of Patton Island Bridge Corridor" and

(D) in the amount column "$3,000,000".

SEC. 111. HIGHWAY RESEARCH FUNDING.

(a) F-SHRP Funding.—Notwithstanding any other provision of law, for each of fiscal years 2007 through 2009, at any time at which an apportionment is made of the sums authorized to be appropriated for the surface transportation program, the congestion mitigation and air quality improvement program, the National Highway System, the Interstate maintenance program, the bridge program, or the highway safety improvement program, the Secretary of Transportation shall—

(1) deduct from each apportionment an amount not to exceed 0.205 percent of the apportionment; and

(2) transfer or otherwise make that amount available to carry out section 510 of title 23, United States Code.

(b) Conforming Amendments.—

(1) Funding.—Section 5101 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1779) is amended—

(A) in subsection (a)(1) by striking "509, and 510" and inserting "and 509";

(B) in subsection (a)(4) by striking "$69,700,000" and all that follows through "2009" and inserting "$40,400,000 for fiscal year 2005, $69,700,000 for fiscal year 2006, $76,400,000 for each of fiscal years 2007 and 2008, and $78,900,000 for fiscal year 2009"; and

(C) in subsection (b) by inserting after "50 percent" the following "or, in the case of funds appropriated by subsection (a) to carry out section 5201, 5202, or 5203 of this Act, 80 percent".

(2) Future Strategic Highway Research Program.—Section 5210 of such Act (119 Stat. 1804) is amended—

(A) by striking subsection (c); and

(B) by redesignating subsection (d) as subsection (c).

(c) Contract Authority.—Funds made available under this section shall be available for obligation in the same manner as if the funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share shall be determined under section 510(f) of that title.

(d) Applicability of Obligation Limitation.—Funds made available under this section shall be subject to any limitation on obligations for Federal-aid highways and highway safety construction programs under section 1102 the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (23 U.S.C. 104 note; 119 Stat. 1157) or any other Act.

(e) Equity Bonus Formula.—Notwithstanding any other provision of law, in allocating funds for the equity bonus program under section 105 of title 23, United States Code, for each of fiscal years 2007 through 2009, the Secretary of Transportation shall make the required calculations under that section as if this section had not been enacted.

(f) Funding for Research Activities.—Of the amount made available by section 5101(a)(1) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1779)—

(1) at least $1,000,000 shall be made available for each of fiscal years 2007 through 2009 to carry out section 502(h) of title 23, United States Code; and

(2) at least $4,900,000 shall be made available for each of fiscal years 2007 through 2009 to carry out section 502(i) of that title.

(g) Technical Amendments.—

(1) Surface transportation research.—Section 502 of title 23, United States Code, is amended by striking the first subsection (h), relating to infrastructure investment needs reports beginning with the report for January 31, 1999.

(2) Advanced travel forecasting procedures program.—Section 5512(a)(2) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1829) is amended by striking "Program appreciation.—" and inserting "Program application.—".

(3) University transportation research.—Section 5506 of title 49, United States Code, is amended—

(A) in subsection (i)—

(i) by striking "In order to" and inserting the following:

"(1) In general.—In order to"; and

(ii) by adding at the end the following:

"(2) Special rule.—Nothing in paragraph (1) requires a nonprofit institution of higher learning designated as a Tier II university transportation center to maintain total expenditures as described in paragraph (1) in excess of the amount of the grant awarded to the institution."; and

(B) in subsection (k)(3) by striking "The Secretary" and all that follows through "to carry out this section" and inserting "For each of fiscal years 2007 through 2009, the Secretary shall expend not more than 1.5 percent of amounts made available to carry out this section".

SEC. 112. RESCISSION.

Section 10212 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (as amended by section 1302 of the Pension Protection Act of 2006 (Public Law 109-280)) (119 Stat. 1937; 120 Stat. 780) is amended by striking "$8,593,000,000" each place it appears and inserting $8,710,000,000.

SEC. 113. TEA-21 TECHNICAL CORRECTIONS.

(a) Surface Transportation Program.—Section 1108(f)(1) of the Transportation Equity Act for the 21st Century (23 U.S.C. 133 note; 112 Stat. 141) is amended by striking "2003" and inserting "2009".

(b) Project Authorizations.—The table contained in section 1602 of the Transportation Equity Act for the 21st Century (112 Stat. 257) is amended—

(1) in item number 567 by striking the project description and inserting "Design and construction of scenic overlook and pedestrian-bicycle trail along Rt. 5 in the Town of Hamburg";

(2) in item number 585 by striking the project description and inserting "Improvements for Heth's Run Bridge and other transportation projects eligible under title 23, United States Code, in Allegheny County, Pennsylvania, as identified by the Commonwealth of Pennsylvania";

(3) in item number 815 by striking the project description and inserting "34th St. Alignment and Interchange and other transportation improvements for city of Moorhead SE MAIN GSI, 34th St., and I-94 Interchange, including reconstruction and retention of the SE Main Avenue Ramps at I-94, and Moorhead Comprehensive Rail Safety Program in Moorhead, MN";

(4) in item number 1039 by striking "transportation and maintenance facility in Union City in order to replace the NJ Transit depot" and inserting "Hoboken Terminal improvements";

(5) in item number 1096 (as amended by section 1703(a)(11) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1454)), by inserting ", and planning and construction to Heisley Road," before "in Mentor, Ohio";

(6) in item number 1257 by striking the project description and inserting "$3,278,000 to construct Eastern Long Island Scenic Byway in Suffolk County; street improvements in Suffolk County with the amounts provided as follows: $1,500,000 for street improvements to Maple Avenue in Smithtown; $500,000 for street improvements in Southampton; $1,500,000 for County Road 39 in Suffolk County; and $4,472,000 for street improvements and scenic byway construction in East Hampton"; and

(7) in item number 1349 by inserting ", and improvements to streets and roads providing access to," after "along".

SEC. 114. HIGH PRIORITY CORRIDORS TECHNICAL CORRECTIONS.

Section 1105(c) of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2032; 119 Stat. 1212) is amended—

(1) in paragraph (63) by striking "and United States Routes 1, 3, 9, 17, and 46," and inserting "United States Routes 1, 9, and 46, and State Routes 3 and 17,"; and

(2) in paragraph (64)—

(A) by striking "United States Route 42" and inserting "State Route 42"; and

(B) by striking "Interstate Route 676" and inserting "Interstate Routes 76 and 676".

SEC. 115. DEFINITION OF REPEAT INTOXICATED DRIVER LAW.

Section 164(a)(5) of title 23, United States Code, is amended by striking subparagraphs (A) and (B) and inserting the following:

"(A) receive—

"(i) a driver's license suspension for not less than 1 year; or

"(ii) a combination of suspension of all driving privileges for the first 45 days of the suspension period followed by a reinstatement of limited driving privileges for the purpose of getting to and from work, school, or an alcohol treatment program if an ignition interlock device is installed on each of the motor vehicles owned or operated, or both, by the individual;

"(B) be subject to the impoundment or immobilization of, or the installation of an ignition interlock system on, each motor vehicle owned or operated by the individual;".

SEC. 116. RESEARCH TECHNICAL CORRECTION.

Section 5506(e)(5)(C) of title 49, United States Code, is amended by striking "$2,225,000" and inserting "$2,250,000".

SEC. 117. EFFECTIVE DATE.

(a) In General.—Except as otherwise provided in this Act (including subsection (b)), this Act and the amendments made by this Act take effect on the date of enactment of this Act.

(b) Exception.—

(1) In general.—The amendments made by this Act (other than the amendments made by sections 101(g), 103, 104, 105, 110, and 201(m)) to the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109-59; 119 Stat. 1144) shall—

(A) take effect as of the date of enactment of that Act; and

(B) be treated as being included in that Act as of that date.

(2) Effect of amendments.—Each provision of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109-59; 119 Stat. 1144) (including the amendments made by that Act) (as in effect on the day before the date

of enactment of this Act) that is amended by this Act (other than sections 101(g), 103, 104, 105, 110, and 201(m)) shall be treated as not being enacted.

TITLE II—TRANSIT PROVISIONS

SEC. 201. TRANSIT TECHNICAL CORRECTIONS.

(a) SECTION 5302.—Section 5302(a)(10) of title 49, United States Code, is amended by striking "charter," and inserting "charter, sightseeing,".

(b) SECTION 5307.—Section 5307(b) of such title is amended—

(1) in paragraph (2)(A) by striking "mass transportation" and inserting "public transportation"; and

(2) in paragraph (3) by striking "section 5305(a)" and inserting "section 5303(k)".

(c) SECTION 5309.—Section 5309(m) of such title is amended—

(1) in the heading for paragraph (2)(A) by striking "MAJOR CAPITAL" and inserting "CAPITAL"; and

(2) in paragraph (7)(B) by striking "section 3039" and inserting "section 3045".

(d) SECTION 5311.—Section 5311 of such title is amended—

(1) in subsection (g)(1)(A) by striking "for any purpose other than operating assistance" and inserting "for a capital project or project administrative expenses";

(2) in subsections (g)(1)(A) and (g)(1)(B) by striking "capital" after "net"; and

(3) in subsection (i)(1) by striking "Sections 5323(a)(1)(D) and 5333(b) of this title apply" and inserting "Section 5333(b) applies".

(e) SECTION 5312.—The heading for section 5312(c) of such title is amended by striking "MASS TRANSPORTATION" and inserting "PUBLIC TRANSPORTATION".

(f) SECTION 5314.—Section 5314(a)(3) is amended by striking "section 5323(a)(1)(D)" and inserting "section 5333(b)".

(g) SECTION 5319.—Section 5319 of such title is amended by striking "section 5307(k)" and inserting "section 5307(d)(1)(K)".

(h) SECTION 5320.—Section 5320 of such title is amended—

(1) in subsection (a)(1)(A) by striking "intra—agency" and inserting "intraagency";

(2) in subsection (b)(5)(A) by striking "5302(a)(1)(A)" and inserting "5302(a)(1)" ;

(3) in subsection (d)(1) by inserting "to administer this section and" after "5338(b)(2)(J)"; and

(4) by adding at the end of subsection (d) the following:

"(4) TRANSFERS TO LAND MANAGEMENT AGENCIES.—The Secretary may transfer amounts available under paragraph (1) to the appropriate Federal land management agency to pay necessary costs of the agency for such activities described in paragraph (1) in connection with activities being carried out under this section.".

(i) SECTION 5323.—Section 5323(n) of such title is amended by striking "section 5336(e)(2)" and inserting "section 5336(d)(2)".

(j) SECTION 5336.—

(1) APPORTIONMENTS OF FORMULA GRANTS.—Section 5336 of such title is amended—

(A) in subsection (a) by striking "Of the amount" and all that follows before paragraph (1) and inserting "Of the amount apportioned under subsection (i)(2) to carry out section 5307—";

(B) in subsection (d)(1) by striking "subsections (a) and (h)(2) of section 5338" and inserting "subsections (a)(1)(C)(vi) and (b)(2)(B) of section 5338"; and

(C) by redesignating subsection (c), as added by section 3034(c) of Public Law 109–59 (119 Stat. 1628), as subsection (k).

(2) TECHNICAL AMENDMENTS.—Section 3034(d)(2) of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (119 Stat. 1629), is amended by striking "paragraph (2)" and inserting "subsection (a)(2)".

(k) SECTION 5337.—Section 5337(a) of title 49, United States Code, is amended by striking "for each of fiscal years 1998 through 2003" and inserting "for each of fiscal years 2005 through 2009".

(l) SECTION 5338.—Section 5338(d)(1)(B) of such title is amended by striking "section 5315(a)(16)" and inserting "section 5315(b)(2)(P)".

(m) SAFETEA-LU.—

(1) SECTION 3037.—Section 3037(c)(3) of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (119 Stat. 1636) is amended by striking "Phase II".

(2) SECTION 3040.—Section 3040(4) of such Act (119 Stat. 1639) is amended by striking "$7,871,895,000" and inserting "$7,872,893,000".

(3) SECTION 3043.—

(A) SAN DIEGO.—Section 3043(c)(105) of such Act (119 Stat. 1645) is amended by striking "LOSSAN Del Mar-San Diego Rail—Corridor Improvements" and inserting "LOSSAN Rail Corridor Improvements" .

(B) SAN DIEGO.—Section 3043(c)(217) of such Act (119 Stat. 1648) is amended by striking "San Diego" and inserting "San Diego Transit".

(C) LOS ANGELES.—

(i) PHASE 2.—Section 3043(c) of such Act (119 Stat. 1645) is amended by inserting after paragraph (104) the following:

"(104A) Los Angeles—Exposition LRT (Phase 2).".

(ii) PHASE 1.—Section 3043(b)(13) of such Act (119 Stat. 1642) is amended to read as follows:

"(13) Los Angeles—Exposition LRT (Phase 1).".

(D) LIVERMORE.—Section 3043(c) of such Act (119 Stat. 1645) is amended by inserting after paragraph (102) the following:

"(102A) Livermore, California—Amador Valley Transit Authority BRT.".

(E) BOSTON.—Section 3043(d)(6) of such Act (119 Stat. 1649) is amended to read as follows:

"(6) Boston—Silver Line Phase III, $20,000,000.".

(4) SECTION 3044.—

(A) PROJECTS.—The table contained in section 3044(a) of such Act (119 Stat. 1652) is amended—

(i) in item number 36 by striking the project description and inserting "36. Los Angeles County Metropolitan Transportation Authority (LACMTA) for bus and bus-related facilities in the LACMTA's service area";

(ii) in item number 94 by striking the project description and inserting "94. Pacific Transit, WA Vehicle Replacement";

(iii) in item number 416 by striking "Improve marine intermodal" and inserting "Improve marine dry-dock and";

(iv) in item number 487 by striking "Central Arkansas Transit Authority Facility Upgrades" and inserting "Central Arkansas Transit Authority Bus Acquisition";

(v) in item number 512 by striking "Corning, NY, Phase II Corning Preserve Transportation Enhancement Project" and inserting "Transportation Center Enhancements, Corning, NY";

(vi) in item number 516 by striking "Dayton Wright Stop Plaza" and inserting "Downtown Dayton Transit Enhancements";

(vii) in item number 541 by striking "Hoonah, AK-Intermodal Ferry Dock" and inserting "Hoonah, AK-Marine Passenger Dock and Bus Transfer Facility"; and

(viii) in item number 570 by striking "Maine Department of Transportation-Acadia Intermodal Facility" and inserting "Maine DOT Acadia Intermodal Passenger and Maintenance Facility".

(B) SPECIAL RULE.—Section 3044(c) of such Act (119 Stat. 1705) is amended—

(i) by inserting ", or other entity," after "State or local government authority"; and

(ii) by striking "projects numbered 258 and 347" and inserting "projects numbered 258, 347, and 411".

(5) SECTION 3046.—Section 3046(a)(7) of such Act (119 Stat. 1708) is amended—

(A) by striking "hydrogen fuel cell vehicles" and inserting "hydrogen fueled vehicles";

(B) by striking "hydrogen fuel cell employee shuttle vans" and inserting "hydrogen fueled employee shuttle vans"; and

(C) by striking "in Allentown, Pennsylvania" and inserting "to the DaVinci Center in Allentown, Pennsylvania".

TITLE III—OTHER PROVISIONS

SEC. 301. TECHNICAL AMENDMENTS RELATING TO MOTOR CARRIER SAFETY.

(a) CONFORMING AMENDMENT RELATING TO HIGH-PRIORITY ACTIVITIES.—Section 31104(f) of title 49, United States Code, is amended by striking the designation and heading for paragraph (1) and by striking paragraph (2).

(b) NEW ENTRANT AUDITS.—

(1) CORRECTIONS OF REFERENCES.—Section 4107(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1720) is amended—

(A) by striking "Section 31104" and inserting "Section 31144"; and

(B) in paragraph (2) by inserting "(c)" after "the second subsection".

(2) CONFORMING AMENDMENT.—Section 7112 of such Act (119 Stat. 1899) is amended by striking subsection (c).

(c) PROHIBITED TRANSPORTATION.—Section 4114(c)(1) of the such Act (119 Stat. 1726) is amended by striking "the second subsection (c)" and inserting "(f)".

(d) EFFECTIVE DATE RELATING TO MEDICAL EXAMINERS.—Section 4116(f) of such Act (119 Stat. 1728) is amended by striking "amendment made by subsection (a)" and inserting "amendments made by subsections (a) and (b)".

(e) ROADABILITY TECHNICAL CORRECTION.—Section 31151(a)(3)(E)(ii) of title 49, United States Code, is amended by striking "Act" and inserting "section".

(f) CORRECTION OF SUBSECTION REFERENCE.—Section 4121 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1734) is amended by striking "31139(f)(5)" and inserting "31139(g)(5)".

(g) CDL LEARNER'S PERMIT PROGRAM TECHNICAL CORRECTION.—Section 4122(2)(A) of such Act (119 Stat. 1734) is amended by striking "license" and inserting "licenses".

(h) CDL INFORMATION SYSTEM FUNDING REFERENCE.—Section 31309(f) of title 49, United States Code, is amended by striking "31318" and inserting "31313".

(i) CLARIFICATION OF REFERENCE.—Section 229(a)(1) of the Federal Motor Carrier Safety Improvement Act of 1999 (49 U.S.C. 31136 note; 119 Stat. 1743) is amended by inserting "of title 49, United States Code," after "31502".

(j) REGISTRATION OF BROKERS.—Section 4142(c)(2) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1747) is amended by inserting "each place it appears" before the semicolon.

(k) Redesignation of Section.—The second section 39 of chapter 2 of title 18, United States Code, relating to commercial motor vehicles required to stop for inspections, and the item relating to such section in the analysis for such chapter, are redesignated as section 40.

(l) Office of Intermodalism.—Section 5503 of title 49, United States Code, is amended—

(1) in subsection (f)(2) by striking "Surface Transportation Safety Improvement Act of 2005", and inserting "Motor Carrier Safety Reauthorization Act of 2005"; and

(2) by redesignating the first subsection (h), relating to authorization of appropriations, as subsection (i) and moving it after the second subsection (h).

(m) Use of Fees for Unified Carrier Registration System.—Section 13908 of title 49, United States Code, is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following:

"(e) Use of Fees for Unified Carrier Registration System.—Fees collected under this section may be credited to the Department of Transportation appropriations account for purposes for which such fees are collected and shall be available for expenditure for such purposes until expended.".

(n) Commercial Motor Vehicle Definition.—Section 14504a(a)(1)(B) of title 49, United States Code, is amended by striking "a motor carrier required to make any filing or pay any fee to a State with respect to the motor carrier's authority or insurance related to operation within such State, the motor carrier" and inserting "determining the size of a motor carrier or motor private carrier's fleet in calculating the fee to be paid by a motor carrier or motor private carrier pursuant to subsection (f)(1), the motor carrier or motor private carrier".

(o) Clarification of Unreasonable Burden.—Section 14504a(c)(2) of title 49, United States Code, is amended by striking "interstate" the last place it appears and inserting "intrastate".

(p) Contents of Agreement Typo.—Section 14504a(f)(1)(A)(ii) of title 49, United States Code, is amended by striking "or" the last place it appears.

(q) Other Unified Carrier Registration System Technical Corrections.—Section 14504a of title 49, United States Code, is amended—

(1) in subsection (c)(1)(B) by striking "the a" and inserting "a"; and

(2) in subsection (f)(1)(i) by striking "in connection with the filing of proof of financial responsibility".

(r) Termination of Registration Provisions.—Section 4305(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1764) is amended by striking "12 months" and inserting "24 months".

(s) Identification of Vehicles.—Section 14506(b)(2) of title 49, United States Code, is amended by inserting before the semicolon at the end the following: "or under an applicable State law if, on October 1, 2006, the State has a form of highway use taxation not subject to collection through the International Fuel Tax Agreement".

SEC. 302. TECHNICAL AMENDMENTS RELATING TO HAZARDOUS MATERIALS TRANSPORTATION.

(a) Definition of Hazmat Employees.—Section 7102(2) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1982) is amended—

(1) by striking "(3)(A)" and inserting "(3)";

(2) in subparagraph (A) by striking "clause (i)" and inserting "clause (i) of subparagraph (A)"; and

(3) in subparagraph (B) by striking "clause (ii)" and inserting "subparagraph (A)(ii)".

(b) Technical Correction.—Section 5103a(g)(1)(B)(ii) of title 49, United States Code, is amended by striking "Act" and inserting "subsection".

(c) Relationship to Other Laws.—Section 7124(3) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1908) is amended by inserting "the first place it appears" before "and inserting".

(d) Hazardous Materials Transportation.—Section 5121(h) of title 49, United States Code, is amended—

(1) in paragraph (2) by striking "exemptions" and inserting "special permits"; and

(2) in paragraph (3) by striking "exemption" and inserting "special permit".

(e) Section Heading.—Section 5128 of title 49, United States Code, is amended by striking the section designation and heading and inserting the following:

"§ 5128. Authorization of appropriations".

(f) Chapter Analysis.—The analysis for chapter 57 of title 49, United States Code, is amended in the item relating to section 5701 by striking "Transportation" and inserting "transportation".

(g) Norman Y. Mineta Research and Special Programs Improvement Act.—Section 5(b) of the Norman Y. Mineta Research and Special Programs Improvement Act (49 U.S.C. 108 note; 118 Stat. 2427) is amended by inserting "(including delegations by the Secretary of Transportation)" after "All orders".

SEC. 303. HIGHWAY SAFETY.

(a) State Minimum Apportionments for Highway Safety Programs.—Effective October 1, 2006, section 402(c) of the title 23, United States Code, is amended by striking "The annual apportionment to each State shall not be less than one-half of 1 per centum" and inserting "The annual apportionment to each State shall not be less than three-quarters of 1 percent".

(b) Technical Corrections.—

(1) Section 2002(b) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1521) is amended—

(A) by striking paragraph (2); and

(B) by redesignating paragraphs (3) and (4) as (2) and (3), respectively.

(2) Section 2007(b)(1) of such Act (119 Stat. 1529) is amended—

(A) by inserting "and" after the semicolon at the end of subparagraph (A);

(B) by striking "and" at the end of subparagraph (B); and

(C) by striking subparagraph (C).

(3) Effective August 10, 2005, section 410(c)(7)(B) of title 23, United States Code, is amended by striking "clause (i)" and inserting "clauses (i) and (ii)".

(4) Section 411 of title 23, United States Code, is amended by redesignating the second subsection (c), relating to administration expenses, and subsection (d) as subsections (d) and (e), respectively.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. Petri) and the gentleman from Oregon (Mr. DeFazio) each will control 20 minutes.

The Chair recognizes the gentleman from Wisconsin.

GENERAL LEAVE

Mr. PETRI. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 6233.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. PETRI. Mr. Speaker, I yield myself.such time as I may consume.

Mr. Speaker, the bill before us amends the Safe, Accountable, Flexible, Efficiency Transportation Equity Act: A Legacy for Users, or SAFETEA-LU, to make technical corrections.

The bill was introduced by Chairman Don Young of Alaska, Mr. Jim Oberstar of Minnesota, Peter DeFazio of Oregon and me, who worked together on the development and passage of the SAFETEA-LU authorization bill last year.

In June, the House passed the technical corrections bill to SAFETEA-LU, H.R. 5689. Since then, we have been working with our Senate colleagues to identify and correct any other outstanding issue from the original bill. This bill, H.R. 6233, is the product of those negotiations and will make the necessary changes to SAFETEA-LU.

The technical corrections included in the bill have been identified by the Department of Transportation and are mostly of a conforming nature or correct drafting errors. The most important correction we are making is to strengthen the Federal highway research program by ensuring the continuation of the legacy research programs carried out by the Department of Transportation. The bill has been scored by the Congressional Budget Office and has no budgetary impact.

I support this legislation and encourage my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. DeFAZIO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6233, a bill to make technical corrections to the Safe, Accountable, Flexible Efficient Transportation Equity Act: A Legacy for Users, SAFETEA-LU.

I want to thank my colleagues on the committee and particularly the leadership on the committee, Chairman Young; subcommittee chairman, Mr. Petri; the ranking member, Mr. Oberstar: the staff who did tremendous work on this bill which became law just a little over a year ago.

It is a tremendous investment in the future of our Nation in terms of improving the infrastructure to mitigate for congestion, dealing with ongoing problems with maintenance of the existing structure. In particular in my State, a substantial amount of funds will be applied to fix cracked bridges on the Interstate 5 system, a life-blood system which serves the entire west coast of the United States.

The bill had, as any major bill does, a few inadvertent drafting errors, probably due to the Senate, and some legislative language that needed some minor change.

In particular, there was a problem with funding for the Service Transportation Research Development and Deployment Account, that the funding was oversubscribed. It meant that the Federal Highway Administration would not have been able to continue its legacy research program, which is an extraordinarily important program that looks at activities, including the Biannual Conditions and Performance Report, an objective appraisal of highway bridge, transit finance, physical condition, operational performance and future investment requirements, information that will be absolutely critical as we move forward toward the next major Surface Transportation Act in the not-too-distant future.

So the bill is otherwise a straightforward technical correction, without additions. I would recommend it to my colleagues.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. I thank the gentleman for yielding.

I am relieved that we are that point in the process on this technical corrections bill. This has had a longer gestation period than the technical corrections bill for the previous reauthorization, TEA–21, when we had well over 1,000 technical corrections. We have many fewer this time, but it seems more contentious, particularly with the other body.

It has just taken seemingly endless hours of discussion and meetings among committee staff, and discussions. And I particularly appreciate the patience of the chairman, the gentleman from Alaska (Mr. YOUNG), who, on occasion, his impatience has moved the process along.

We should not have to do that. We should have been able to come together, look at the problems, just little oversights, misprintings, misstatements of what Members agreed upon in the conference and in the two versions of the bill that went to conference. We should have been able to do that in a matter of a couple of months.

But here we are almost a year later, well over a year later, and we are getting these items ironed out. Meanwhile, of course, a number of Members changed their mind about projects that they had, and circumstances changed in the various districts across the country.

So we have come back, and again with great bipartisan cooperation and an enormous effort on the part of the majority and minority staff, who have given tremendous hours of their time, Saturdays and Sundays, working, attempting to work through the August recess, when the other body went off and was not willing to cooperate with us.

But here we are. The SAFETEA–LU bill has proven to be enormously successful and effective. The policies that we set forth in that bill are being carried out by the States and with the practitioners of transportation across this country, and the bill has been received with great acclaim.

The technical corrections that we bring are, the gentleman from Wisconsin, the chairman of the subcommittee has spelled out some of them, Ranking Member DEFAZIO has spelled out others.

I want to particularly address the recapture of critical research funds for the future strategic highway research program, which is a long-term research initiative addressing the most significant problems of highway safety, reliability, capacity, and renewal.

The University Transportation Center Program, which has been very, very successful in offering new initiatives to deal with problems of transportation through the application of technology in education research, and innovative technological approaches to our transportation needs.

The development of publication of DOT's Conditions and Performance Report. That is so important. That is a little-understood item that is paid little attention, but it is the basis upon which we will move to the next authorization of transportation which will guide the practitioners, the State Departments of Transportation, the Federal Highway Administration in applying SAFETEA–LU. It gives us an objective appraisal of highway conditions, bridge conditions, financing of our transit and highway programs, performance of our highway, bridge and transit systems, and the needs for future investment.

This Conditions and Performance Report is a critical matter. I am glad we were able to get it straightened out.

The bill also modifies the Repeat Intoxicated Driver Law, to allow for the use of ignition interlock devices.

We were making a lot of progress against highway fatalities, but suddenly in the last 2 years the number has been going on up, somewhere around 44–45,000 fatalities a year. Should be going in the other direction. Half of those, nearly half of those, 40 percent of those fatalities are alcohol-related. It is not the bad road conditions. It is not bad bridges. It is alcohol related.

The interlock provision was included in both House and Senate bills, but it was not included in the conference report by simply an oversight. So the technical correction incorporates the change of giving States flexibility to continue with the 1-year license suspension requirement, or a 45-day license suspension. That is an important initiative if we are going to continue to save lives.

I am talking about just the fatalities. There are 1,300,000 people injured in accidents nationally. The repeat offenders are just a part of the U.S. drunk driving problem. They represent one-third of all DUI, driving under the influence, arrests every year. Fifty to 75 percent of repeat offenders whose licenses have been suspended continue to drive illegally.

□ 1845

So an ignition interlock will prevent those offenders who have imbibed too much from operating their vehicle. They will be able to drive to work, drive to school or go to an alcohol treatment program, but we want to keep those bad drivers, repeat bad drivers off the road and save lives, and this initiative will help do that.

The technical corrections bill also corrects and states in much clearer language an intention that was written in to permit the construction of a bridge over Interstate 35 near North Branch in the southern tier of my congressional district, and how the State and the Federal Highway Administration could have misunderstood the language we wrote in that bill is beyond me.

We authorized $7.5 million for design, engineering and construction of a bridge, and the Federal Highway Administration and the State said, oh, no, the way you wrote it, we interpret it to be only for design and engineering. Well, I tell you, you do not spend $7.5 million to design and engineer a $7.5 million bridge. We have made that very clear in this technical corrections.

So with those adjustments, I offer my heartfelt thanks to Chairman YOUNG for his patience, for his perseverance; Chairman PETRI, for a partnership that we have continually had and his leadership; and the gentleman from Oregon, who has invested an enormous amount of time; but especially to staff on both sides whose continued creativity has made it possible for us to bring this bill to this point. Now let us hope that the other body passes it with alacrity.

Mr. PETRI. Mr. Speaker, I yield such time as he may consume to the gentleman from Alaska (Mr. YOUNG), the chairman of the Transportation and Infrastructure Committee.

Mr. YOUNG of Alaska. Mr. Speaker, I thank the gentleman for yielding, and I want to thank Mr. DEFAZIO and Mr. PETRI, and especially Mr. OBERSTAR, the ranking member. This is a good team. We wrote a good bill, but the bill was quite large, and there were some errors in printing and errors in judgment in the sense that somebody had misinterpreted what we wrote, and this bill is truly a technical corrections bill.

The reasons it take a little time. As the gentleman from Minnesota mentioned, is because this is a two-body form of government, and there was some difference of opinion in the other body on what I will not mention, and it has taken us a long time to try to arrive at this technical corrections bill that gets done what we tried to do and intended to do and will do now in SAFETEA–LU.

I would like at this time, again it has already been said, but to thank the staff, minority and majority, Graham Hill, Ward, and Jim Tymon, and everybody that has worked on this legislation, along with the other body.

We now are at a point in the last days of this session that we will be able to get this bill done so we can go forth and implement what we did in SAFETEA–LU and that is getting transportation built within this country as it should.

The gentleman from Minnesota also mentioned about the foundation, and I have to say this because I know we are on this TV or C–SPAN and I will say that right now the institution of knowledge about previous law is crucially important for the next step in building infrastructure in this country. Much of SAFETEA–LU was based upon what was done in the previous transportation act and the next one, 4 years from now, will be based upon SAFETEA–LU, and that is crucially important to understand where we were before we can go forward from where we should be.

So for Members that say, well, this is an important institution, it is not important. If you want transportation to be built adequately and justifiably, then you go back through history and go forward on the blocks of building which we established in this legislation.

I just want that it is a good technical correction bill. It will be done, I believe, tonight; and the other body has agreed to accept this, even though I cannot speak for them, but in doing so we will get the roads built, the bridges built and all the other programs the gentleman from Minnesota and the gentleman from Oregon and the gentleman from Wisconsin mentioned and that are in this SAFETEA–LU.

So I congratulate those that worked so hard and took the time. I congratulate you for taking the effort, and I do think we ought to step forward and strongly support the passage of this legislation.

Mr. YOUNG of Alaska. Mr. Speaker, I insert this exchange of letters between DON YOUNG and SHERWOOD BOEHLERT for the RECORD.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON SCIENCE,
Washington, DC, September 29, 2006.

Hon. DON YOUNG,
Chairman, Committee on Transportation and Infrastructure, Washington, DC.

DEAR MR. CHAIRMAN: I am writing to you concerning the jurisdictional interest of the Science Committee in matters being considered in H.R. 6233—To amend the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users to make technical corrections, and for other purposes. The bill amends research portions of H.R. 3, Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (P.L. 109–59), which are within the Science Committee's jurisdiction. The Science Committee acknowledges the importance of H.R. 6233 and the need for the legislation to move expeditiously. Therefore, while we have a valid claim to jurisdiction over the bill, I agree not to request a sequential referral. This, of course, is conditional on our mutual understanding that nothing in this legislation or my decision to forgo a sequential referral waives, reduces or otherwise affects the jurisdiction of the Science Committee, and that a copy of this letter and of your response will be included in the Congressional Record when the bill is considered on the House floor.

The Science Committee also asks that you support our request to be conferees on any provisions over which we have jurisdiction during House-Senate conference on this legislation.

Thank you for your attention to this matter.

Sincerely,

SHERWOOD BOEHLERT,
Chairman.

HOUSE OF REPRESENTATIVES, COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE,
Washington, DC, September 29, 2006.

Hon. SHERWOOD L. BOEHLERT,
Chairman, Committee on Science,
Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter of September 29, 2006, regarding H.R. 6233, making technical corrections to SAFETEA: LU, and for your willingness to waive consideration of provisions in the bill that fall within your Committee's jurisdiction under House Rules.

I agree that your waiving consideration of relevant provisions of H.R. 6233 does not waive your Committee's jurisdiction over the bill. I also acknowledge your right to seek conferees on any provisions that are under your Committee's jurisdiction during any House-Senate conference on H.R. 6233 or similar legislation, and will support your request for conferees on such provisions.

As you request, your letter and this response will be included in the Congressional Record during consideration on the House floor.

Thank you for your cooperation in moving this important legislation.

Sincerely,

DON YOUNG,
Chairman.

Mr. DEFAZIO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. PETRI. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin (Mr. PETRI) that the House suspend the rules and pass the bill, H.R. 6233.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

WRIGHT AMENDMENT REFORM ACT OF 2006

Mr. MICA. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 3661) to amend section 29 of the International Air Transportation Competition Act of 1979 relating to air transportation to and from Love Field, Texas.

The Clerk read as follows:

S. 3661

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Wright Amendment Reform Act of 2006".

SEC. 2. MODIFICATION OF PROVISIONS REGARDING FLIGHTS TO AND FROM LOVE FIELD, TEXAS.

(a) EXPANDED SERVICE.—Section 29(c) of the International Air Transportation Competition Act of 1979 (Public Law 96–192; 94 Stat. 35) is amended by striking "carrier, if (1)" and all that follows and inserting the following: "carrier. Air carriers and, with regard to foreign air transportation, foreign air carriers, may offer for sale and provide through service and ticketing to or from Love Field, Texas, and any United States or foreign destination through any point within Texas, New Mexico, Oklahoma, Kansas, Arkansas, Louisiana, Mississippi, Missouri, or Alabama.".

(b) REPEAL.—Section 29 of the International Air Transportation Competition Act of 1979 (94 Stat. 35), as amended by subsection (a), is repealed on the date that is 8 years after the date of enactment of this Act.

SEC. 3. TREATMENT OF INTERNATIONAL NONSTOP FLIGHTS TO AND FROM LOVE FIELD, TEXAS.

No person shall provide, or offer to provide, air transportation of passengers for compensation or hire between Love Field, Texas, and any point or points outside the 50 States or the District of Columbia on a nonstop basis, and no official or employee of the Federal Government may take any action to make or designate Love Field as an initial point of entry into the United States or a last point of departure from the United States.

SEC. 4. CHARTER FLIGHTS AT LOVE FIELD, TEXAS.

(a) IN GENERAL.—Charter flights (as defined in section 212.2 of title 14, Code of Federal Regulations) at Love Field, Texas, shall be limited to—

(1) destinations within the 50 States and the District of Columbia; and

(2) no more than 10 per month per air carrier for charter flights beyond the States of Texas, New Mexico, Oklahoma, Kansas, Arkansas, Louisiana, Mississippi, Missouri, and Alabama.

(b) CARRIERS WHO LEASE GATES.—All flights operated to or from Love Field by air carriers that lease terminal gate space at Love Field shall depart from and arrive at one of those leased gates; except for—

(1) flights operated by an agency of the Federal Government or by an air carrier under contract with an agency of the Federal Government; and

(2) irregular operations.

(c) CARRIERS WHO DO NOT LEASE GATES.—Charter flights from Love Field, Texas, operated by air carriers that do not lease terminal space at Love Field may operate from nonterminal facilities or one of the terminal gates at Love Field.

SEC. 5. LOVE FIELD GATES.

(a) IN GENERAL.—The city of Dallas, Texas, shall reduce as soon as practicable, the number of gates available for passenger air service at Love Field to no more than 20 gates. Thereafter, the number of gates available for such service shall not exceed a maximum of 20 gates. The city of Dallas, pursuant to its authority to operate and regulate the airport as granted under chapter 22 of the Texas Transportation Code and this Act, shall determine the allocation of leased gates and manage Love Field in accordance with contractual rights and obligations existing as of the effective date of this Act for certificated air carriers providing scheduled passenger service at Love Field on July 11, 2006. To accommodate new entrant air carriers, the city of Dallas shall honor the scarce resource provision of the existing Love Field leases.

(b) REMOVAL OF GATES AT LOVE FIELD.—No Federal funds or passenger facility charges may be used to remove gates at the Lemmon Avenue facility, Love Field, in reducing the number of gates as required under this Act, but Federal funds or passenger facility charges may be used for other airport facilities under chapter 471 of title 49, United States Code.

(c) GENERAL AVIATION.—Nothing in this Act shall affect general aviation service at Love Field, including flights to or from Love Field by general aviation aircraft for air taxi service, private or sport flying, aerial photography, crop dusting, corporate aviation, medical evacuation, flight training, police or fire fighting, and similar general aviation purposes, or by aircraft operated by any agency of the Federal Government or by any air carrier under contract to any agency of the Federal Government.

(d) ENFORCEMENT.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Transportation and the Administrator of the Federal Aviation Administration may not make findings or determinations, issue orders or rules, withhold airport improvement grants or approvals thereof, deny passenger facility charge applications, or take any other actions, either self-initiated or on behalf of third parties—

(A) that are inconsistent with the contract dated July 11, 2006, entered into by the city of Dallas, the city of Fort Worth, the DFW International Airport Board, and others regarding the resolution of the Wright Amendment issues, unless actions by the parties to the contract are not reasonably necessary to implement such contract; or

(B) that challenge the legality of any provision of such contract.

(2) COMPLIANCE WITH TITLE 49 REQUIREMENTS.—A contract described in paragraph (1)(A) of this subsection, and any actions taken by the parties to such contract that are reasonably necessary to implement its provisions, shall be deemed to comply in all respects with the parties' obligations under title 49, United States Code.

(e) LIMITATION ON STATUTORY CONSTRUCTION.—

(1) IN GENERAL.—Nothing in this Act shall be construed—

(A) to limit the obligations of the parties under the programs of the Department of Transportation and the Federal Aviation Administration relating to aviation safety, labor, environmental, national historic preservation, civil rights, small business concerns (including disadvantaged business enterprise), veteran's preference, disability access, and revenue diversion;

(B) to limit the authority of the Department of Transportation or the Federal Aviation Administration to enforce the obligations of the parties under the programs described in subparagraph (A);

(C) to limit the obligations of the parties under the security programs of the Department of Homeland Security, including the Transportation Security Administration, at Love Field, Texas;

(D) to authorize the parties to offer marketing incentives that are in violation of Federal law, rules, orders, agreements, and other requirements; or

(E) to limit the authority of the Federal Aviation Administration or any other Federal agency to enforce requirements of law and grant assurances (including subsections (a)(1), (a)(4), and (s) of section 47107 of title 49, United States Code) that impose obligations on Love Field to make its facilities available on a reasonable and nondiscriminatory basis to air carriers seeking to use such facilities, or to withhold grants or deny applications to applicants violating such obligations with respect to Love Field.

(2) FACILITIES.—Paragraph (1)(E)—

(A) shall only apply with respect to facilities that remain at Love Field after the city of Dallas has reduced the number of gates at Love Field as required by subsection (a); and

(B) shall not be construed to require the city of Dallas, Texas—

(i) to construct additional gates beyond the 20 gates referred to in subsection (a); or

(ii) to modify or eliminate preferential gate leases with air carriers in order to allocate gate capacity to new entrants or to create common use gates, unless such modification or elimination is implemented on a nationwide basis.

SEC. 6. APPLICABILITY.

The provisions of this Act shall apply to actions taken with respect to Love Field, Texas, or air transportation to or from Love Field, Texas, and shall have no application to any other airport (other than an airport owned or operated by the city of Dallas or the city of Fort Worth, or both).

SEC. 7. EFFECTIVE DATE.

Sections 1 through 6, including the amendments made by such sections, shall take effect on the date that the Administrator of the Federal Aviation Administration notifies Congress that aviation operations in the airspace serving Love Field and the Dallas-Fort Worth area which are likely to be conducted after enactment of this Act can be accommodated in full compliance with Federal Aviation Administration safety standards in accordance with section 40101 of title 49, United States Code, and, based on current expectations, without adverse effect on use of airspace in such area.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. MICA) and the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON) each will control 20 minutes.

Mr. SENSENBRENNER. Mr. Speaker, is the gentlewoman from Texas opposed to the motion? If not, I demand the time in opposition.

The SPEAKER pro tempore. Does the gentlewoman from Texas favor the motion?

Ms. EDDIE BERNICE JOHNSON of Texas. Yes.

The SPEAKER pro tempore. On that basis, the gentleman from Wisconsin (Mr. SENSENBRENNER) will control the 20 minutes in opposition.

The Chair recognizes the gentleman from Florida.

GENERAL LEAVE

Mr. MICA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on S. 3661.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. MICA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 3661, which is known as the Wright Amendment Reform Act of 2006. This bill passed the Senate just a few hours ago by unanimous consent.

This legislation is exactly identical to H.R. 6228 which was introduced by the House Transportation and Infrastructure chairman, the Honorable Don Young, and ranking member, the Honorable James Oberstar, and by several Members of the Texas delegation, including Representatives EDDIE BERNICE JOHNSON, KENNY MARCHANT, KAY GRANGER, JOE BARTON, MIKE BURGESS, CHET EDWARDS, RALPH HALL, SAM JOHNSON and also PETE SESSIONS.

First, I want to commend my colleagues from the Texas delegation for working together to help foster this amendment that is the basis for this legislation.

This legislation, Senate bill 3661, would implement a locally initiated and locally approved agreement that seeks to change and eventually eliminate what has been commonly known as the Wright amendment which, in fact, has restricted commercial air passenger service out of Dallas Love Field for over three decades.

This is an anticompetitive law, and it has resulted in higher air fares and fewer service options for consumers for some decades now. It seems that the only beneficiary of the Wright amendment has been the small army of lawyers hired by the affected cities and airlines to litigate almost every aspect of this poorly conceived law.

Earlier this year, members of the congressional delegation, along with the mayors, the airlines and others came together and reached a consensus agreement on July 11, 2006.

This bill crafts a number of important provisions that will open service again and some of the wrong restrictions imposed by the Wright amendment.

Mr. Speaker, I would like to see the Wright amendment repealed immediately. However, in my opinion, this is our best option.

The political reality is that without this legislation, the 35-year-old "Cold War" waged by the affected cities, airlines and communities will continue indefinitely.

Mr. Speaker, I reserve the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in 1972, Justice Thurgood Marshall wrote the following in the case of United States v. Topco Associates, Inc.: "Antitrust laws in general, and the Sherman Act in particular, are the Magna Carta of free enterprise. They are as important to the preservation of economic freedom and our free enterprise system as the Bill of Rights is to the protection of our fundamental personal freedoms. And the freedom guaranteed each and every business, no matter how small, is the freedom to compete, to assert with vigor, imagination, devotion, and ingenuity whatever economic muscle it can muster."

Mr. Speaker, I rise in opposition to this legislation. The Wright amendment is anticompetitive, there is no doubt about it, and it has increased the cost of long-distance travel to people who live in the Dallas-Fort Worth area by as much as a third as compared to other markets with other airlines.

What this legislation does is continue vestiges of the Wright amendment and its anticompetition policy on until at least the year 2025. If we think the Wright amendment is bad, we should get rid of it once and for all, and remember, Congress imposed the Wright amendment back over 15 years ago.

Now, what this bill does is it codifies an agreement among private and local government parties that constitute per se violations of the antitrust laws. With limited exceptions, the Wright amendment expressly insulates Dallas-Fort Worth from interstate international air passenger competition from Dallas Love Field.

Now, let us stop and think about this because this bill would provide a congressional approval, requiring the demolition of existing gates at Love Field, some of which are privately owned and utilized by airlines to offer additional air passenger service to points across the United States.

The agreement also prohibits Southwest Airlines from offering service from the DFW Airport until 2025 and limits the ability of all airlines to offer service from Love Field and maintains a ban on most interstate flights from Love Field to 42 States. Now, that means if you live in the 42 States that this bill seeks to protect, you are going to pay more to come to Dallas-Ft. Worth, no two ways about it.

There was a memo leaked out of the Justice Department that says that this agreement, which allows Southwest to stay out of DFW for 19 years, would be a hard core per se violation of the Sherman Act.

Now, proponents of this bill will claim that the antitrust laws are unaffected by it and do not be fooled. Why? According to 54 American Jurisprudence 2nd, Monopolies and Restraints of Trade, No. 243, the Hornbook on antitrust law, says: "In determining whether subsequent Federal legislation has granted immunity from the antitrust laws, a court should reconcile the operation of both statutory schemes, where this is possible."

A court looking to this legislation will be forced to ignore the antitrust laws because the legislation contains mandatory obligations that the parties engage in contact that violates the per se violations of the antitrust laws.

So this compromise is a compromise in name only, and the result is exactly the same, creating implied antitrust immunity by eliminating a cause of action for conduct that presents a clear violation of the antitrust laws.

Now, we are going to hear that the Wright amendment is a local issue, and they are right. It is a local issue for the Members of Congress who represent the 42 States whose residents are held captive by the anticompetitive output restriction/cartel that this legislation perpetuates.

☐ 1900

We have got to have the courage to stand up for consumers, our constituents who vote for us, and adopt the procompetitive goals of the Airline Deregulation Act by defeating this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. MICA. Mr. Speaker, may I inquire as to how much time the gentleman has remaining and also how much time I have remaining?

The SPEAKER pro tempore. The gentleman from Florida has 17 minutes remaining, and the gentleman from Wisconsin has 15 minutes remaining.

Mr. MICA. Mr. Speaker, I am pleased to yield 10 minutes to the gentlewoman from Texas, and I ask unanimous consent that she be able to control those 10 minutes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of Senate bill 3661. The bill passed by the Senate earlier today mirrors House bill 6228 previously scheduled for consideration today.

At the outset, I want to extend my thanks to Chairman YOUNG and Ranking Member OBERSTAR, Subcommittee Chairman MICA and Ranking Member COSTELLO for their cooperation and support throughout this process. Each of you, in addition to the committee staff, has been extremely helpful in accommodating the requests of myself and north Texas colleagues, and I am truly appreciative.

The road leading to this point has been long and arduous, but I am delighted that the bill before us today represents a bipartisan piece of sound legislation. The bill's fundamental objective is to open the north Texas market to more competition in air transportation, not to further restrict it, despite the claims of some.

This bill phases out the Wright amendment completely in 8 years, offers immediate thru-ticketing in and out of Love Field, saving consumers an estimated $259 million annually. It will generate over $2 billion annually in spending and related economic activity for north Texas and for many communities outside the current Wright amendment parameter.

It opens Love Field in a responsible way, ensuring resolution of Love Field-area residents' concerns over noise, traffic, and safety for the area.

It protects safety by prohibiting the legislation from taking effect until the Federal Aviation Administration notifies Congress that the additional aviation operations in the Dallas/Fort Worth/Love Field airspace expected as a result of this Act can be conducted safely and without adverse effect on airspace use.

It protects competition by preserving the FAA's authority to enforce airport rules that obligate Love Field to make its facilities available on a reasonable and nondiscriminatory basis to new entrant carriers, and stimulates competition and travel commerce throughout the United States.

This bill is important to north Texas, the aviation community at large, and particularly my constituents, as Dallas Love Field Airport is located within the heart of my congressional district.

Two months ago, the city of Dallas, the city of Fort Worth, Southwest Airlines, American Airlines, and Dallas/Fort Worth International Airport reached a compromise to resolve long-standing issues regarding the Wright amendment.

As many of you know, the three-decade-old legislation imposes long-haul flight restrictions to and from Dallas Love Field Airport. The agreement marks an important milestone, as efforts to repeal the restrictions over the past decades have served as a major point of contention among north Texas stakeholders and the aviation community at large.

To have all the aforementioned entities in solidarity behind this compromise that ultimately lifts long-haul flight restrictions at Dallas Love Field is nothing short of amazing.

I would like to impress the following upon my colleagues: It is important to note that the Wright amendment was a direct result of a community-crafted compromise between the cities of Dallas and Fort Worth, Texas, regarding two north Texas airports.

Thirty years ago, north Texas, upon the recommendation of the Civil Aeronautics Board, decided that DFW Airport would be the region's primary air travel investment. This decision is captured in the 1968 Regional Airport Concurrent Bond Ordinance, which I will enter into the RECORD.

In lieu of closing Love Field, the Wright amendment was crafted to protect the interests of the Dallas/Fort Worth Airport as well as those of Southwest Airlines. As the agreement said, that commercial traffic would close at the time that D/FW opened. The balance between our two airports as a result of the Wright amendment has served this region well.

These airports are eight miles apart. Dallas/Fort Worth International Airport and Love Field Airport are vital components to the overall health and success of the regional economy. Respectively, they rank third and fifty-fifth nationally in terms of total traffic enplanements. As such, I have felt quite strongly that any policy decision regarding the Wright amendment that could have implications for future aviation in north Texas should not be carried out without the input of the localities directly involved; and I have asked over and over again for the last 20 years to have the local entities to come to an agreement.

My position has not always gone over well within certain segments of my constituency, but, for the record, I would like to reiterate that I am not anti-competitive, I am not anti-lower fares, I would be stupid to do that, nor am I anti-free enterprise. I am, however, pro principle. And it has always been my belief that the Wright amendment exists as a principled agreement between these two cities.

Each time the subject of repeal of the Wright amendment has arisen, it has placed the cities of Dallas and Fort Worth, 27 miles apart, on guard against each other because it violates the agreement. Over the past decades, this issue has created much grief, litigation, and oftentimes flat-out distrust among the cities of Dallas and Fort Worth. This type of back and forth over the past 30 years has not been healthy for north Texas, as we have many pressing challenges that require us to work together in good faith if we are to be successful as a region.

Mr. Speaker, I support the compromise. The compromise outlined within Senate Bill 3661 requires give and take of all vested stakeholders. But, most importantly, Mr. Speaker, the measure represents a unified local consensus of which I am most proud.

Further, many homeowners and constituent groups that live and work within the Love Field area also support this compromise.

As I close, I want to commend the cities of Dallas and Fort Worth for coming to the table and acting in good faith to bring forth a compromise that I hope will allow us to once and for all bring an end to one of aviation's most storied standoffs.

Is the compromise perfect? No. But I do feel it represents one of the best chances we as a region have to finally bring resolution to a long-standing dispute. I want to urge my colleagues to join me in voting "yes" on this bill.

Congressional leaders have long urged the cities of Fort Worth and Dallas to come together and work toward a local compromise. This not only was instructed by two Secretaries of Transportation, the last two under the last two Presidents, but others as well to resolve the long-standing and divisive controversy over the Wright amendment. The communities have responded, and they are deserving of this body's support.

1968 Regional Airport Concurrent Bond Ordinance

Authorizing the Issuance of Dallas-Fort Worth Regional Airport Joint Revenue Bonds Initial Issues—$35,000,000

Adopted by The City Councils of The City of Dallas, Texas and The City of Fort Worth, Texas

---

Effective as of November 12, 1968

City of Dallas Ordinance, No. 12352

City of Fort Worth Ordinance, No. 6021

An Ordinance adopted concurrently by the City Councils, respectively, of the Cities of Dallas and Fort Worth, authorizing the issuance of Dallas-Fort Worth Regional Airport Joint Revenue Bonds, Series 1968, in the aggregate principal amount of $35,000,000 for the purpose of defraying in part the cost of constructing, equipping and otherwise improving the jointly owned Dallas-Fort Worth Regional Airport of the Cities; providing for the security and payment of said bonds from the revenues derived from the operation of said Airport and in certain instances from other airport revenues of the Cities; providing that the same shall not be payable from taxation; providing the form, terms and conditions of such bonds and the manner of their execution; providing covenants and commitments regarding the payment of said bonds, the construction of said Regional Airport, and the maintenance and operation thereof when constructed including the pledge to such operation and maintenance purposes of the tax authorized by law; containing covenants against competition; and covenants regarding transfers of airport properties; providing other details concerning such bonds and such Airport, including the reserved power to issue additional joint revenue bonds, and the subordination thereof to the lien and pledge securing other outstanding and future issues of airport revenue bonds of the Cities: providing for the deposit of the proceeds of such bonds into the Construction Fund of the Joint Airport Fund under and subject to the control of the Dallas-Fort Worth Regional Airport Board; authorizing said Board to see to the delivery of said bonds as herein directed and directing that due observance of the covenants herein contained be made by the Board to the extent such covenants are performable by it; providing and describing events of default and the consequences thereof; providing a method of amending this ordinance; ordaining other matters incident and relating to the subject and purpose hereof; and declaring an emergency.

Whereas, the Cities of Dallas and Fort Worth have heretofore determined that the present commercial aviation and airport facilities of the Cities, specifically Love Field Airport (hereinafter called and defined as "Love Field") of the City of Dallas and Greater Southwest International Airport (hereinafter called and defined as "GSLA") of the City of Fort Worth, are wholly inadequate to meet the foreseeable commercial aviation needs of the citizens of the Cities and the residents and citizens of the entire North Central Texas Region; and

Whereas, the Cities have further found and determined that the most effective, economic and efficient means of providing needed airport facilities is the construction and equipment of a centrally located airport for the Cities and to that end by an agreement entitled and hereinafter defined as the "Contract and Agreement," the Cities continued, expanded and further defined the powers and duties of the Dallas-Fort Worth Regional Airport Board (hereinafter defined as the "Board" or "Regional Airport Board") theretofore created; created the Joint Airport Fund of the Cities; and provided for the construction and operation of an airport to be known as the "Dallas-Fort Worth Regional Airport"; and

Whereas, in accordance with the requirements of the Contract and Agreement, the Board has submitted to the City Councils of the Cities a report containing its over-all preliminary plan for the construction of said Regional Airport which plan preliminarily defines and sets forth the estimated, partial cost thereof, together with statements of its projected size, scope and location; and

Whereas, the City Councils have each, by duly adopted resolution, approved said plan within the context of the Contract and Agreement, and accordingly the Cities, having been requested so to do by the Board in the manner contemplated by the Contract and Agreement, propose to proceed with the financing of the Regional Airport through the issuance of the joint revenue bonds contemplated by the Contract and Agreement, all in accordance with Article 1269j-5, Article 1269j-5.1, Article 1269j-5.2, Article 46d, and other applicable provisions of Texas Revised Civil Statutes, as amended; and

Whereas, the City Councils have each found and determined as to each that the matters to which this Ordinance relates are matters of imperative public need and necessity in the protection of the health, safety and morals of the citizens of each of the Cities and, as such, that this Ordinance is an emergency measure and shall be effective as to each City respectively upon its adoption by its City Council;

Now, Therefore, Be It Ordained by the City Council of The City of Dallas, Texas:

Now, Therefore, Be It Ordained by the City Council of The City of Fort Worth, Texas.

Mr. Speaker, I reserve the balance of my time.

Mr. MICA. Mr. Speaker, I am pleased to yield 1½ minutes to the distinguished gentleman from Texas (Mr. BARTON), who is also Chairman of the Energy and Commerce Committee.

Mr. BARTON of Texas. Mr. Speaker, I am told that the gentlewoman from Dallas (Ms. EDDIE BERNICE JOHNSON) will also yield me 1 minute. If that is true, could she yield it at this time so I can do my speech at one time?

Mr. SENSENBRENNER. Mr. Speaker, the big-hearted gentleman from Wisconsin yields an additional 1 minute to my friend from Texas.

Mr. BARTON of Texas. Thank you, Chairman SENSENBRENNER.

The SPEAKER pro tempore. The gentleman is recognized for 2½ minutes.

Mr. BARTON of Texas. Mr. Speaker, I thank the distinguished chairman of the Judiciary Committee for his gracious offer; and I rise today in strong support of Senate 3661, the Wright amendment compromise of 2006. I want to use the brief time that I have to explain what the compromise is all about.

Back in the 1960s, the two cities of Dallas and Fort Worth could not agree on anything, including where to locate their two respective airports. The Civil Aeronautics Administration said we will fund one Federal Aviation airport in the D/FW area but not two. That brought the two cities together to create what is now known as Dallas/Fort Worth Airport.

When a struggling airline called Southwest decided to fly their one plane out of Love Field to Houston and to San Antonio, they went to court and won the right to fly commercial air service out of Love Field, which had been suspended when D/FW came into existence. Hence, we got what is called the Wright compromise, which restricted flights from Love Field to an area within Texas or States contiguous to Texas.

Today, D/FW Airport is one of the five largest commercial aviation airports in the country. Love Field is a regional airport that currently has in use, I believe, 13 gates and several hundred flights per day. The compromise before us would repeal the Wright amendment over an 8-year period. It would allow thru-ticketing immediately from Love Field, and it would create what I call a super-regional airport, where the majority of the gates, over 100 gates, would be at D/FW, and no more than 20 gates would be at Love Field, which, as Congressman JOHNSON pointed out, is only eight miles from the eastern-most runway at D/FW.

There are currently only in use at Love Field 13 gates. So this limitation, so-called, of 20 gates, would actually allow an expansion of gates in actual use at Love Field. There are more empty gates at D/FW right now today than there are total gates at Love Field.

This compromise is supported by almost every member of the Texas delegation and may yet be supported by every member of the delegation. It would put to bed an issue that has been vexatious for a number of years, in fact, you could say a number of decades.

I know my good friend from the Judiciary Committee has some antitrust exemptions, but again I will point out there are more empty gates at D/FW than there are total gates at Love. This would be pro-competitive.

Mr. Speaker, I rise today in strong support of S. 3661, "The Wright Amendment Reform Act." This is a very timely bill that will help resolve, once and for all, a local dispute stemming from the Wright amendment. What we are doing here today is important to my constituents and the north Texas region.

I want to thank the Speaker and the majority leader for their willingness to schedule this legislation. I also want to give special thanks to Chairman DON YOUNG; Ranking Member OBERSTAR; and Subcommittee Chairman MICA for their leadership and excellent contributions in crafting this responsible and beneficial compromise into legislation. Their committee staff members also deserve a big, Texas "Thank You" for all of their hard work and support in this effort. I also want to thank my staff director, Theresa Lavery, for her tireless work on this issue.

As you may know, I have long supported the covenant between the cities of Dallas and Fort Worth because I believe the best public policy for the north Texas market is to have competing airlines, not competing airports. Today's legislation embodies a compromise intended to firmly cement the role of Dallas-Fort Worth International Airport and Love Field Airport, and put to rest calls for immediate repeal of the Wright amendment.

This bill, once signed into law, will give our region and the traveling public resolution on this issue and leave time for public and private stakeholders to plan for final repeal in eight years. In the interim, consumers across the Nation will reap the benefits of immediate thru-ticketing at Love Field.

The compromise was hammered out in a deliberative fashion, considering valid concerns and unique factors of operation that have benefited the growth of the Dallas-Fort Worth metroplex since enactment of the Wright amendment. This bill is a balanced compromise that has the support of Dallas and Fort Worth, as co-owners of DFW Airport.

Finally, this agreement ensures that Love Field will continue to offer an important alternative for consumers while not diminishing the capacity for competition available at DFW Airport. Growth at Love Field is restricted, as it is a land-locked airport and therefore should not be reconstituted for greater traffic with repeal of the Wright amendment. Love Field will be reduced to 20 gates over time, and this will allow the residents of the area peace of mind concerning pollution, noise, traffic, and safety concerns.

I view this agreement as facilitating a "super" airport, where the terminals at DFW Airport serve national and international destinations, and Love Field's gates provide a regional function with select national routes offering direct competition via thru-ticketing. Importantly, after 8 years the Wright amendment as it exists today will be repealed. This is truly the best of both worlds for consumers in Texas and throughout the country.

Mr. Speaker, local leaders have negotiated a thoughtful, viable alternative to the status quo that should be supported. I commend everyone involved for their efforts. I urge my colleagues to support S. 3661.

My fellow north Texas colleague, Congressman BURGESS, has traveled to Texas today for the funeral of his friend, Byron Nelson, but he would like me to express his support for S. 3661. As a representative of DFW International Airport, he feels strongly in protecting the economic engine of north Texas. While he believes in the integrity of the original Wright Amendment, he is pleased that the local entities' constructed a compromise that met the needs and wishes of all parties. Not only will the airports and airlines benefit from the compromise but also the tens of thousands of employees and residents of north Texas.

Mr. Speaker, I certainly hope we will get a two-thirds vote, and I again thank Mr. SENSENBRENNER for yielding me 1 minute.

Mr. SENSENBRENNER. Mr. Speaker, I yield such time as he may consume to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. Mr. Speaker and members of the various committees that are on the floor, before I begin my comments it is my observation that this may be the last bill that the House Judiciary Committee may be involved in until we adjourn, and so it becomes my responsibility as the ranking member to commend Chairman JAMES SENSENBRENNER for his efforts as chairman over almost the last 6 years.

He has been on the Committee of Judiciary for many years, and I have had the honor to serve and work with him throughout his career on the House Judiciary Committee. He has worked hard all the way up to the title of chairman.

☐ 1915

It has than been my pleasure and honor to join with him, and I would like to just take a moment to tell you why I am making this statement.

The first thing that comes to my mind is the fact that he has done a stellar job in protecting the jurisdiction of the Judiciary Committee. In doing so, he has brought us more work than anybody ever has. We handled more bills than almost any but one committee. And he has been willing to stand up to special interests wherever his convictions lead him.

Secondly, I commend this chairman for his willingness to protect the integrity of our antitrust laws and fight for competition. Time and time again, whether it was in sports, transportation or telecommunication, I have been proud to work with him together to ensure that America's consumers were protected from unfair competition.

Finally, I will never forget the unstinting work that he has put in voter rights legislation, starting back in 1982 when we reauthorized it, and certainly in 2006 where, without his strong leadership, we would not have been able to forge a bipartisan coalition to pass the bill, stronger and with greater ease in both bodies, than we have ever been able to do before. There is no doubt in my mind that he has been a leading, stalwart supporter of voting rights and its enforcement for all Americans throughout his career.

I salute the chairman of the House Judiciary Committee for his many years of service, particularly his leadership as chairman.

Now, Mr. Speaker, if I may return to the measure before us, because I am impressed with the argument that has been propounded by all my friends here, particularly the gentlewoman from Dallas, that there is no intent in this bill's language to provide antitrust immunity.

I take everyone at their word, of course, and if that is so, I am disappointed that the antitrust savings clause drafted by the House Judiciary Committee has been eliminated. It has disappeared. We voted this measure out with an antitrust provision. It has come back to us today, just hot off the press from the other body, and there is no antitrust provision. There has not been a sufficient amount of discussion about that.

Now, we are all "anti" a lot of things, but I want you to know I am not anti-consumer. These things called "consumers," you know, are the people in every district that are the ones called upon to vote and expend their resources on everything, including air travel.

Mr. Speaker, I love Dallas, Texas. I don't know much about Fort Worth, but I even get invited there from time to time, and I enjoy it very much.

By the way, I want to mention the former Speaker of the House for whom this amendment is named is someone who is remembered for his great work, not only as a leader in the Congress from Texas but as the Speaker of the House himself.

So, Mr. Speaker, to me, we have got a bit of difficulty here that may be resolved by restoring the antitrust exemption. We put it in before. Most of the Members that I am looking at have never expressed any hostility toward the antitrust exemption itself. This agreement between private parties missing the antitrust exemption is a very questionable act that we are about to do in the closing hours of this session.

We, with the chairman of the Judiciary Committee's leadership, amended the original bill to include the anti-savings clause, but this so-called new bill, hot off the press, doesn't contain such protections. It has never been considered by either the Transportation Committee or the Judiciary Committee. It was drafted, and just recently, I don't know what hour of the day or night, something happened in the other body, but it has not been considered by any committee on either side of the Capitol.

This new bill and the agreement preserves the Wright amendment for 8 more years, restricts the number of gates: and, if it weren't for this antitrust scrutiny, it seems to me that we would all be able to agree on supporting this measure.

So I rise very reluctantly, but nevertheless I have to do it. As I have said, I am not anti-consumer. The Consumers Union has guided some of my views in this matter.

Mr. Speaker, I include for the record a letter from the Consumers Union, Gene Kimmelman, vice president, as well as an article from the Washington Post, "Low-Fare, and Now No-Fair."

CONSUMER FEDERATION OF AMERICA,
September 29, 2006.

DEAR MEMBER OF CONGRESS: We are writing to urge you to stand with American consumers by voting "No" today on H.R. 6228, the "Wright Amendment" legislation. This bill codifies a private agreement between American Airlines and Southwest Airlines, along with the cities of Dallas, Ft. Worth and Dallas/Fort Worth Airport, to divide up the airline market for Dallas at the expense of the flying public. The Antitrust Division of the U.S. Department of Justice has called the bill a "per se" violation of the antitrust laws.

The proponents of H.R. 6228 are employing extraordinary tactics to bring this anti-consumer and anticompetitive legislation to a vote in the final hours prior to adjournment. In fact, the language of H.R. 6228 has never been considered by the Transportation and Infrastructure Committee, nor the Judiciary Committee. Even more objectionable, however, is the fact that H.R. 6228 completely ignores the vital work of the Judiciary Committee to strike the "deal's" antitrust immunity provisions.

The Judiciary Committee approved an amendment by Chairman Sensenbrenner and Ranking Member Conyers that would at least ensure that the bill comply with the nation's antitrust laws—laws enacted to protect consumers from this very type of special interest legislation. Instead of honoring these important amendments, the bill's proponents now bring this unacceptable version to the House floor under suspension of the rules. Erasing the important work of the committee charged with protecting consumers from anticompetitive behavior would constitute a breakdown of rational governance in the House of Representatives.

Passage of H.R. 6228 would not only harm consumers and competition in the Southeast and Southwest, it would be an affront to citizens across the nation. We agree with the attached column from The Washington Post which states, "The loser (in this deal), of course, was the only party with no seat at the negotiating table—namely, consumers. Any consumer representative would have immediately recognized the deal for what it is—collusion between two dominant competitors to limit supply, carve up a market and keep out other competitors. In other words, a flagrant violation of the antitrust laws."

As you and your colleagues work to conclude your business before the November elections, please don't forget about American consumers. With this assault on the anti-trust laws, a bad bill that affects an important part of the country has become one of national significance. We urge you to vote "No" today on H.R. 6228.

Thank you for considering our views.

Sincerely,

GENE KIMMELMAN,
Vice President, Federal and International Relations, Consumers Union.
MARK COOPER,
Research Director, Consumer Federation of America.

[From The Washington Post, July 28, 2006]

LOW-FARE, AND NOW NO-FAIR

(By Steven Pearlstein)

It's been one of the longest-running David and Goliath stories in American business.

Back in 1971, a scrappy, low-fare airline named Southwest started service from Dallas's Love Field, challenging American Airlines on its home turf and turning its back on the big new Dallas-Fort Worth International Airport, the pet project of the region's political and business establishment. Years of litigation ensued as American and DFW tried in vain to use the courts to deny Southwest access to Love Field. Then Jim Wright, a Texas congressman and the House majority leader at the time, attached a tiny little rider to an unrelated piece of legislation that limited flights from Love Field to destinations in Texas and four surrounding states.

Southwest soldiered on anyway, growing from its Dallas roots to revolutionize American commercial aviation with cheap airfares from other "secondary" airports.

But the Wright amendment always stuck in the craw of Southwest's Herb Kelleher. So two years ago, the airline's chairman launched an advertising and lobbying blitz to get it repealed—"Wright is wrong" was the catchy slogan. The public began to get behind it, and some members of Congress took notice—among them Sen. Kit Bond of Missouri, who pushed through a little rider of his own adding St. Louis to the list of approved Love Field destinations. Fares between the two cities plunged and traffic soared.

Sensing the ground was shifting, American and the mayors of Dallas and Fort Worth opened discussions with Southwest. Last month, they announced they had finally struck a deal.

The agreement is premised on Congress repealing the Wright amendment in 2014. Under the deal, Love Field would be reduced from 32 to 20 gates, with 16 going to Southwest, the others to American and Continental. In the meantime, Southwest could offer one-stop flights and fares from Love to anywhere it wanted. And to top it off, both American and Southwest agreed, in effect, that they wouldn't add to the total number of gates in the Dallas region.

It was, certainly, a good deal for American, which managed to put off the biggest threat to its fortress hub at DFW since the Justice Department took it to court in 1999, accusing it of using predatory practices to crush competition there. (That case got thrown out, alas.)

It was also a sweet deal for Southwest, which could add significantly to its Dallas traffic while keeping JetBlue or some new upstart from challenging its domination at Love Field.

Perhaps the biggest winner of all, however, was DFW, which was already reeling from Delta Air Lines' decision to close its Dallas hub and was desperate not to lose more traffic to Love.

The loser, of course, was the only party with no seat at the negotiating table—namely, consumers. They would have to wait another eight years for full repeal of the Wright amendment, and even then, there would not be the kind of robust competition that has produced airfares elsewhere that are half of what they are in and out of DFW.

Any consumer representative would have immediately recognized the deal for what it was—collusion between two dominant competitors to limit supply, carve up a market and keep out other competitors. In other words, a flagrant violation of antitrust laws. That's why, when legislation was introduced this month by Texas Sen. Kay Bailey Hutchison to codify the deal, it contained a blanket antitrust exemption.

Normally a free-market Republican, Hutchison defends this deal as a local solution to a seemingly endless local dispute, preferable to anything Washington might come up with. And from a competition standpoint, it's certainly better than the status quo.

How much better, however, is open to debate. An unnamed staff attorney at the Justice Department's antitrust division wrote in a review of the legislation that it "narrowly benefits the area's two dominant airlines at the expense of everyone who would benefit from real competition."

Meanwhile, several airlines voiced opposition. "We are concerned when any number of carriers get together to decide how big an airport should be and who should operate at that airport," said Ed Faberman, executive director of the Air Carrier Association of America.

All of this flak has set back Hutchison's plans to fast-track the legislation through Congress. Rep. James Sensenbrenner, chairman of the House Judiciary Committee, demanded this week that the legislation be referred to his committee rather than brought up on voice vote as uncontroversial. And in the Senate, Vermont Democrat Patrick Leahy promised a parliamentary challenge to Hutchison's plan to tack it onto an appropriations bill.

Back in Dallas, meanwhile, Southwest is struggling to square its starring role in "Wright Redux" with its image as an evangelist for "unfettered airline competition." Company officials adamantly reject the idea that the agreement will make it harder for other low-cost carriers to enter the market.

"Any airline that wants to serve the [region] can go to DFW today and fly anywhere they want," spokesman Ed Stewart explained to the Fort Worth Star-Telegram.

Funny. That's almost word for word what American used to say in defending the Wright amendment against criticism from Southwest.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I yield 1½ minutes to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Speaker, I had two concerns about the agreement that came from the two cities. The first was safety.

Years ago, I held hearings when I chaired the Aviation Subcommittee on Safety at Love Field, between Love Field and Dallas. There are only 2 miles of air space in the approach and departure patterns of those two airports. I was concerned that removing the limitations on operations at Love Field would create greater safety concerns than they did at the time. Since then, the FAA has fixed the safety issue with an innovative departure and arrival arrangement that will assure safety, provided there is no increase in operations.

That leads us to the second issue, and that is competition. The agreement limits the number of gates to 20. That is something that local citizens are concerned about, noise, safety, congestion. Congress has a right to act on safety and on noise and to limit operations in the interests of safety and of noise, without infringing upon the antitrust issue. In fact, the language that we have before us is an improvement over the agreement of the two cities that in fact would have had antitrust implications.

So the antitrust exemption has been removed, but the bill directs action and closing of gates, which is an authority Congress has, in the interest of safety and congestion.

Mr. Speaker, I rise in support of H.R. 6228, The Wright Amendment Reform Act, which would implement the agreement reached by the Cities of Dallas and Fort Worth, the Dallas/Fort Worth International Airport Board, American Airlines and Southwest Airlines to reform the so-called "Wright Amendment."

The Wright Amendment was an effort by our former colleague, Jim Wright, then Majority Leader, later, Speaker Wright, to codify an agreement reached in 1979 among the Dallas and Fort Worth business and political communities, and Southwest Airlines, which resisted efforts to move its operations to the newly opened Dallas/Fort Worth (DFW) Airport. This agreement ensured that DFW would be the primary airport for the DFW metropolitan region, and that Love Field would remain a limited, short haul airport.

Recently, the Dallas and Fort Worth communities, along with American Airlines and Southwest Airlines, came forward with a new agreement that would, in their view, make repealing the Wright Amendment acceptable.

The Transportation & Infrastructure Committee has chosen to deal with the issues surrounding the Wright Amendment legislatively, rather than allow it to erode piecemeal as it has over the years, without a view to the larger national aviation context. The "stakeholders" in this process are not just the Cities of Dallas and Fort Worth, the airlines, nor the airport authorities. The "stakeholders" are all Americans.

If you approve a law for an additional highway on the East Coast, it does not do much for traffic on the West Coast. However, if you approve a law for additional feet of runway at an airport on the East Coast, it does make traffic from the West Coast more accessible to the East Coast because of the nature of air travel. Similarly, dealing with DFW and Love Field is a national matter.

H.R. 6228, would implement three core provisions of the parties' contract: to repeal the Wright Amendment 8 years after enactment of this Act; eliminate the restrictions on through-ticketing from Love Field; and to cap the Love Field gates at 20 in perpetuity.

Importantly, the bill addresses two very significant issues that I raised in Committee: safety and new entrant access.

Love Field is approximately 8 miles from DFW. In 1991, when I served as Chairman of the Aviation Subcommittee, I held a hearing during which significant safety concerns were raised regarding the potential expansion of flights at Love Field. Many witnesses attending that hearing expressed concern that the proximity of approach and departure procedures to and from both DFW and Love Field, along with conflicting flight patterns, could decrease the margin of safety.

While I have the utmost confidence in our nation's air traffic controllers, I want to ensure that by adding more flights at Love Field, we are not reducing the cushion of safety. Controllers should not need to slow air traffic to accommodate the safety margin, nor should they be compelled to operate at the outside of the power curve to avoid delays in and around the Dallas-Fort Worth area.

H.R. 6228 addresses this very significant issue by including a provision that prohibits the legislation from taking effect until the Federal Aviation Administration (FAA) notifies Congress that additional aviation operations in the airspace serving Love Field and the Dallas-Fort Worth area, which are likely to be conducted after the enactment of this Act, can be accommodated in full compliance with FAA safety standards, in accordance with the FAA's mandate to maintain safety at the highest possible level, and without adverse effect on airspace use in the area.

The second issue is competition. The agreement would change the gate availability at Love Field to greatly increase the difficulty of any carrier other than Southwest or American to serve Love Field. Currently, there are 32 gates at Love Field, with 19 in use, and 13 available for new entrants. The agreement would reduce the gates to 20, and allocate all of these gates to American, Southwest, and Continental. To ensure that a prospective new carrier would have reasonable access to these 20 gates at Love Field, H.R. 6228 preserves the FAA's authority to enforce grant assurances that obligate Love Field to make its facilities available on a reasonable and non-discriminatory basis.

Further, Love Field continues to be subject to all federal requirements relating to safety, security, labor, environmental, civil rights, small business concerns, veteran's preference, disability access and revenue diversion that are applicable to all airports.

As to antitrust issues, this legislation does not implicitly or explicitly provide antitrust immunity to the parties. However, the legislation directs the City of Dallas to reduce the number of operational gates to no more than 20, which includes the removal of the 6 so-called Lemmon Avenue gates, and allows the City to allocate the use of the remaining gates based on existing leases and obligations. These directives could be advanced as a defense in an antitrust case.

Accordingly, I want to thank the Chairman YOUNG and the Texas delegation for working with me on this legislation to ensure that my concerns on safety and new entrant access are addressed and I urge my colleagues to support H.R. 6228.

WRIGHT AMENDMENT REFORM ACT ANTITRUST BULLETS

The Judiciary Committee opposed the original bill reported by the Transportation Committee because our bill included an exemption from the antitrust laws. To meet this concern the bill has been modified to remove the exemption. This change met the antitrust concerns of the Chairman of Senate Judiciary who now supports the bill.

The House Judiciary Committee Chair argues that even though the antitrust exemption has been removed, the bill still directs actions, such as the closing of gates, which would violate the antitrust laws if done by agreement of private parties. This is not a valid argument. Congress has the authority to direct the closing of gates for safety, environmental or economic reasons, even if private parties would not be allowed to do this under the anti-trust laws. The antitrust laws are only Congressional legislation, and Congress can pass subsequent legislation creating exceptions.

Mr. MICA. Mr. Speaker, I am pleased to yield 1½ minutes to the gentlewoman from Texas (Ms. GRANGER), one of the prime crafters and initiators of this compromise agreement.

Ms. GRANGER. Mr. Speaker, I would first like to thank the House Transportation Committee for their work on this bill and the leadership of Chairman DON YOUNG, Ranking Member OBERSTAR and Aviation Subcommittee Chairman MICA.

Also, I want to thank the Speaker and Majority Leader for working so hard to get this bill done and on the floor.

All of the Texas delegation, including our two Senators, have played a part in making this bill possible; and the five stakeholders, the cities of Dallas and Fort Worth, American and Southwest Airlines and Dallas-Fort Worth International Airport, have all come together in really an unprecedented way to forge an agreement and get this issue behind us.

The Mayors of Fort Worth and Dallas and community leaders met from both cities for months putting this agreement together, and they deserve much credit. Everyone gave up something for the better good, and then they gave their product to us to put into law, as is required for this to work.

Having worked and struggled with this issue for 15 years, first as Mayor and then as Congresswoman, I am more than ready to move on to something else and proudly support this legislation and urge a yes vote for its passage.

I also extend to Mr. CONYERS an invitation to come to Fort Worth. You will love it, and they will love you for helping with this bill.

Mr. SENSENBRENNER. Mr. Speaker, I yield 30 seconds to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. Mr. Speaker, I thank the chairman of the Judiciary Committee.

Mr. Speaker, I have heard the best arguments presented about why this is a good measure: Safety is increased, noise is decreased, congestion is mitigated, competition is increased. Is there anybody on any of the committees that wants to say something about the consumers? Is that something that hasn't been contemplated up until now?

Come on, guys. Give me a break. Consumers consist of everybody in America. They are not just in Texas.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I yield 30 seconds to the gentleman from New York (Mr. MEEKS).

Mr. MEEKS of New York. Mr. Speaker, I rise to urge all of my colleagues to support S. 3661. This is a fair and pro-consumer compromise that is in the public's best interests and was passed by unanimous consent this afternoon by the Senate.

Local communities should have input to limit airport size in order to deal with the issues of noise, congestion and safety. Accordingly, this bill respects the desire of the community to make sure that the more urban of its two airports does not become overbearing. Failure to do so will send a signal that the Federal Government is prepared to override every other community that wants to limit the size of its airport facilities to protect the environment for safety reasons.

I urge my colleagues to vote "yes" on S. 3661.

Mr. SENSENBRENNER. Mr. Speaker, I yield 30 seconds to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. Mr. Speaker, to my brother from New York, Brother Meeks, this is a pro-consumer compromise that all the consumer organizations that I have consulted and that have consulted me are strenuously opposed to. Can anyone can explain to me how this is a pro-consumer bill?

□ 1930

Mr. MICA. I am pleased at this time to yield to one of the most distinguished Members, not only of the Texas delegation but of the entire Congress, a real hero, SAM JOHNSON, for 2 minutes.

Mr. SAM JOHNSON of Texas. Mr. Speaker, I appreciate that. And I thank the gentleman for his opposition. The fact is that you have the whole Lone Star State delegation backing a bill to repeal that outdated Wright amendment.

Back in 1979, Congress created that law. Look at there. That is what those stewardesses were wearing in those days. That is where we were from, and today is a victory for freedom and free enterprise. That was 1979. People had mood rings, Rubik's cubes, smiley face stickers, and pet rocks. Just like this picture, so much has changed since 1979; but the Wright amendment never did.

I want to commend officials in north Texas who worked tirelessly to craft a local compromise that works for all parties involved. For Texans, the traveling public, we are making history. It is not perfect. In my opinion, it doesn't do the job fast enough. But there is one thing I have learned in the people's House: you have got to give a little to get a little.

Here, compromise can save the day, and it gives me great pleasure to come into the 21 century and cast my vote to end the outdated Wright amendment once and for all.

Mr. MICA. Mr. Speaker, I have one additional speaker at this time, another great Texan, a wonderful representative from the State, Mr. SESSIONS. I yield to him 1 minute.

Mr. SESSIONS. Mr. Speaker, I thank all the gentlemen and ladies who are here on the floor tonight talking about the Wright amendment, that we are going to pass this amendment tonight.

But to answer the gentleman's question from Michigan, the reason why this is a pro-consumer bill is that effective immediately, when the President signs this, every single person that takes off from Love Field will be able to ticket through wherever they want to go. Today, they have to ticket through to an adjacent State that is close to them, they have to get off the airplane, they have to get their bags, and they have to reticket through.

This is a pro-consumer bill. This is the right thing to do. We have come together as a delegation. I am asking for all the Members of the United States Congress to please support the bipartisan attempt between the cities of Dallas and Fort Worth, between the airlines to do something favorable for consumers tonight.

Our majority leader, JOHN BOEHNER, was aware of this issue. It has been a continuing, simmering, boiling issue for the Texas delegation. We have asked that it be brought here. I am asking for everybody's vote. Vote tonight "aye."

Mr. SENSENBRENNER. Mr. Speaker, I yield myself the balance of time.

Mr. Speaker, some nights when I drive out of here and go home, I follow some of my Texas friends out of the garage that have a big bumper sticker that says: "Don't Mess With Texas." Tonight is one of the nights where I think we ought to mess with Texas, because what is being proposed here is going to increase the fares of anybody who goes to Texas or decides to go out of the Dallas-Fort Worth area by a significant amount, because it protects monopoly status until 2025. This is the most anticonsumer, antifree enterprise legislation that has come before this House in a long time.

At Dallas-Fort Worth, approximately 85 percent of all passengers board an American or American Air regional carrier flight. This keeps American's near monopoly at DFW. And at Love Field, Southwest has a 95 percent market share.

Now, without the Wright amendment, both of those market shares are monopolistic. And despite what you hear about how this does away with the Wright amendment, it keeps these monopolies in place until the year 2025.

There has been a lawsuit that has been filed against Love Field by people who are standing up for consumers. This legislation extinguishes that lawsuit. The people who filed their lawsuit won't have a day in court to be able to get a fair determination by the judge, because what it does is it provides a backdoor antitrust exemption.

Now, we have to ask ourselves as elected representatives of the people whether we are going to allow a private group of local officials and business people in any community to come to Congress to get themselves exempted effectively from an antitrust law. What this bill does is it effectively delegates that power on this issue to the people who came to Congress, and they asked us to ratify this agreement. We shouldn't be delegating antitrust immunity to anybody. That should be determined by the court.

So if you believe in the operation of the law and letting people have their day in court, this bill ought to be voted down, particularly if you represent the 42 States that aren't covered by the Wright amendment.

Mr. Speaker, I yield back the balance of my time.

Mr. MICA. Mr. Speaker, I submit for printing in the RECORD a statement relating to the Wright Amendment Reform Act and the antitrust issues that have been raised, and information relating to how S. 3661 will enhance airline competition and benefit consumers, in response to questions that have been raised in regard to those items.

WRIGHT AMENDMENT REFORM ACT—ANTITRUST ISSUES

The Judiciary Committee opposed the original Wright amendment bill (H.R. 5830), which was reported by the Transportation and Infrastructure Committee, because our bill included an exemption from antitrust laws.

To meet the concerns expressed by the Judiciary Committee, S. 3661 has been modified to remove the exemption.

Chairman Sensenbrenner argues that even though the antitrust exemption has been removed, S. 3661 still directs actions, such as the closing of gates, which would violate the antitrust laws if carried out through an agreement of private parties.

This is not a valid argument. Congress has the authority to direct the closing of gates for safety, environmental or economic reasons, even if private parties would not be allowed to do this under the antitrust laws.

S. 3661 WILL ENHANCE AIRLINE COMPETITION AND BENEFIT CONSUMERS

CONGRESS MUST FIX MESS THAT IT CREATED BY ENACTING AMENDMENT

The Wright amendment was intended to protect the then-new Dallas-Fort Worth International Airport, DFW.

Since DFW is now the third-largest airport in the U.S. in terms of annual passenger enplanements, the Wright amendment is no longer needed.

By restricting commercial air service out of Dallas Love Field to cities in Texas and eight surrounding states, the Wright amendment has resulted in higher fares and fewer service options for consumers in the Dallas-Fort Worth market.

IMMEDIATE REPEAL OF WRIGHT AMENDMENT NO VIABLE OPTION

Due to complex and long-standing political, economic and environmental concerns, the ideal solution—immediate repeal of the Wright Amendment—was not supported by the Cities of Dallas and Fort Worth, local communities and affected airlines.

Consequently, S. 3661 represents a locally-generated, bipartisan compromise that balances carefully the interests of the local parties.

CONSUMERS WILL BENEFIT IMMEDIATELY UNDER S. 3661

S. 3661 will intensify competition in the entire Dallas-Ft. Worth market by lifting all existing geographic restrictions on commercial air service at Dallas Love Field in eight years.

Two independent studies found that S. 3661 will increase traffic to and from North Texas by 2 million passengers annually and produce $259 million per year in fare savings immediately.

Airlines serving Dallas Love Field could immediately begin marketing connecting commercial air service from Love Field to cities outside the Wright Amendment's geographic area.

20-GATE LIMITATION AT LOVE FIELD WILL NOT HINDER COMPETITION

Due to safety and environmental concerns raised by local communities, S. 3661 would limit capacity at Dallas Love Field to 20 gates for commercial service.

S. 3661 would not reduce existing capacity at Dallas Love Field, where fewer than 20 gates are currently being used by airlines for commercial air service.

S. 3661 protects existing procedures that ensure any airline seeking to provide new commercial passenger service at Love Field may do so.

In addition to utilizing Dallas Love Field, airlines that wish to provide new commercial service to the Dallas-Fort Worth area can operate at DFW Airport, which is located just eight miles from Love Field and currently has 20 unused gates.

I am pleased now to yield 1 minute to a very distinguished member of the Transportation and Infrastructure Committee, a newer member on the team but has also heard this issue, KENNY MARCHANT, the gentleman from Texas.

Mr. MARCHANT. Mr. Speaker, the Wright amendment is the number one business issue in my district, District 24. American Airlines headquarters and Dallas-Fort Worth International Airport are both based in District 24.

The job statistics speak for themselves: American Airlines has 7,300 employees in my district, and DFW Airport itself has 16,000 jobs. The airport itself is responsible for almost 260,000 jobs in the metroplex. Therefore, it is obvious that the people of my district have a lot riding on this bill.

Mr. Speaker, the Wright amendment was a unique law created for a unique circumstance; therefore, its repeal calls for a unique solution. I think the bill before us today provides just that, and I urge the House to suspend the rules and pass the bill.

Mr. MICA. Mr. Speaker, I am very pleased to yield to the distinguished Chair of the full Transportation and Infrastructure Committee, a gentleman who has helped craft this historic agreement and codify it today, Mr. YOUNG.

Mr. YOUNG of Alaska. Mr. Speaker, I thank the gentleman for yielding. I want to thank the Texas delegation for working together to bring forth this bill and solving a problem. My job is to solve problems, and this bill does solve a problem. It takes two cities and puts them together, and allows the State to go forward and we won't have this problem before us anymore.

A lot of times we lose sight of solving problems in this body by hanging up on jurisdiction or hanging up on a small clause. But we are the people that write the laws, we create the laws, and we try to make them work.

This is a bill that will take and rectify a mistake, I believe, in the past, and bring both parties together, both cities together, all airlines together, and provide for the service of the people of Texas and this Nation. I urge the passage of this bill.

Mr. COSTELLO. Mr. Speaker, I rise today to support S. 3661, the Wright Amendment Reform Act of 2006.

I'd like to thank Chairman YOUNG, Mr. MICA, Mr. OBERSTAR, and Mr. JOHNSON for their hard work on gettingOlegislative agreement on repealing the Wright amendment. I know there was a lot of "give and take" on both sides to reach this legislative agreement.

In particular, Ms. JOHNSON has been a leader on this matter and she should be commended for her hard work. Without her persistence, we would not be here today.

This legislation seeks to fully repeal the Wright amendment, with several conditions.

In 1979, the cities of Dallas and Fort Worth came together and reached an agreement to have one regional airport—Dallas/Fort Worth International Airport, DFW—thus restricting service at other local airports. This local agreement was codified by congressional action known as the Wright amendment.

The Wright amendment was a logical step when enacted in 1979. It brought stability to the north Texas air market.

As a result, I have supported the Wright amendment as a way to enhance DFW's growth and development. The airport has done its part by fueling the region's economy.

However, today, DFW is far from a small regional airport. As an international airport, its influence is far-reaching and has become a major player in markets that other airlines could not serve from Love Field.

In response, some have sought to repeal the Wright amendment through a piecemeal approach, an approach that is ineffective and very poor policy.

On June 15, 2006, it was announced that American, Southwest, DFW Airport, and the cities of Dallas and Fort Worth worked out a local agreement.

The Aviation Subcommittee held a hearing July 12, 2006, on this historic agreement where many questions, concerns, and issues were addressed.

While S. 3661 addresses many of those concerns, I must say that I have reservations that by accepting this agreement, we are restricting the aviation capacity at Love Field.

Congress, in part, will be making it harder for new airlines to enter the market—5 years, 10 years, or even 20 years from now—by allowing the infrastructure that a new competitor will need at Love Field to be destroyed.

I question the idea of restricting and destroying infrastructure that could be used in the future in order to address a problem today.

I hope the Transportation and Infrastructure Committee and the FAA will closely monitor the implementation of this legislation to ensure consumer protection, economic growth, and competition.

Mr. Speaker, that said, I will support S. 3661.

Mr. BURGESS. Mr. Speaker, I rise today in strong support of S. 3661, the Wright Amendment Reform Act of 2006. As a representative of D/FW International Airport, I have always felt strongly in protecting the economic engine of north Texas. To this day, I still believe in the integrity of the original Wright amendment; however, I am pleased that the local entities' constructed a compromise that met the needs and wishes of all parties. It was long in coming, but thorough in its mission. Not only will the airports and airlines benefit from the compromise but also the tens of thousands of employees and residents of north Texas.

I commend all the parties associated with this historic compromise. At the urging of Congress, Mayor Moncrief of Fort Worth and Mayor Miller of Dallas spent endless hours working on the best deal possible for the region. Together with DFW International Airport, American Airlines, and Southwest Airlines, they brought to Congress an agreement that will protect and benefit my constituents and allow for better service at Love Field. I sincerely thank the mayors for their commitment and dedication to this delicate and complicated task.

Also, the north Texas delegation has worked endlessly on this matter, and the passage of this legislation today is a testament to the determination and dedication of my colleagues. We have all had to make concessions, but at the end of the day, the enactment of this legislation is crucial for our districts.

I ask for my colleagues to support the north Texas delegation and as we try to solve a unique problem with this unique and important legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in support of S. 3661, the Wright Amendment Reform Act. This legislation implements a locally achieved compromise resolving the longstanding controversy over the 1979 Wright amendment, which imposed Federal restrictions on commercial airline service to and from Dallas Love Field.

I note Mr. Speaker that all of the key stakeholders—Southwest Airlines, Fort Worth, DFW Airport, American Airlines, and the city of Dallas—support the locally achieved Wright amendment compromise and urge Congress to approve this legislation. But as Southwest CEO, Herb Kelleher, states: "The only victor, the only sure fire winner from this locally achieved agreement, is the public—the public citizens who will find it easier and far less expensive to travel to and from North Texas for business and personal reasons; the citizens who will reap vast economic benefits in their communities from enhanced travel and tourism, at a lower cost."

A key component of the compromise is the change in Federal law embodied in the legislation allowing Southwest Airlines to immediately begin selling "through tickets" for travel to and from Dallas Love Field. This change will enable Love Field customers to travel on a one-stop basis to and from cities within our nationwide system which are outside the limited number of States Southwest currently is allowed to serve under the terms of the Wright amendment.

A recent study indicates that through ticketing at Dallas Love Field will increase passengers traveling to and from north Texas by 2 million annually and produce $259 million per year in fare savings. Additionally, the study found that through ticketing will generate over $2 billion annually in spending and related economic activity for north Texas and for many communities outside the current Wright amendment perimeter.

Because of through ticketing, the local compromise will have a very significant and widespread economic impact from the beginning. Further, the local compromise calls for the Wright amendment to be repealed in its entirety in 8 years, allowing airlines serving Love Field to fly nonstop to any domestic destination—generating substantial additional economic benefits for consumers nationwide.

Approval of this legislation by the Congress will bring to a close a dispute that preoccupied the Dallas Metroplex for nearly 30 years all the while negatively impacting the rest of the Nation. I applaud Congresswoman EDDIE BERNICE JOHNSON and other members of the Texas congressional delegation for their yeoman work in bringing this saga to a happy conclusion. I ask my colleagues to join me in supporting this legislation. I ask you to vote for S. 3661.

Mr. HENSARLING. Mr. Speaker, as many know, last year, I authored the Right to Fly Act which would completely and immediately repeal the Wright Amendment. The legislation ignited quite a debate in the metroplex.

Within a year the cities of Dallas and Fort Worth as well as D/FW Airport, American Airlines and Southwest Airlines reached an historic consensus among them. I saluted Mayors Miller and Moncrief for their tenacity and leadership in forging that consensus. Although disappointed, I certainly was not surprised to learn that their plan did not mirror my own. Still, I stood ready to compromise and support a congressional plan that provided immediate "through-ticketing" and full repeal of Wright 8 years later. Then I read the fine print.

Although I respect my Congressional colleagues with differing opinions, in my view, the Wright Amendment is not really repealed under this plan. It is simply repackaged. As a fervent supporter of free markets, I simply believe that the U.S. Congress should not interfere in the market competition between airports.

Still, I have always maintained a willingness to support Wright Amendment repeal plans aside from my own as long as they met a two-fold test: (1) the plan clearly benefits consumers and (2) the plan removes Congress from the business of airport protectionism, which costs us greatly. According to the Department of Transportation, we pay about ⅓ more for long distance airfares.

With respect to consumers, I am concerned that the agreement essentially constitutes an 8 year extension of the current Wright Amendment as opposed to a gradual phase-out. One study indicated that consumers annually pay almost $700 million extra in airfares due to the Wright Amendment. An 8-year extension would cost consumers an additional $5 billion—which, even by Washington standards, is a big number and a huge burden to American families.

On the other hand, I believe immediate "through-ticketing" can positively impact competition and airfares. American Airlines and Southwest Airlines commissioned a study—the findings of which I announced at a recent Congressional Hearing on the Wright Amendment—that concluded that through-ticketing can produce $259 million in fare savings annually. I find it encouraging that consumers could recoup some of their losses from this part of the local agreement.

My main concern is that the agreement does not get Congress out of the business of interfering with airport competition. That is the essence of the Wright Amendment, not the specific interference of perimeter restrictions. For example, in the local agreement, the City of Dallas agrees to reduce the number of gates at Love Field from 32 to 20. Though I might not like it, I respect their right to contractually bind themselves and decide whether Love Field is limited to 20 gates, 10 gates or even shut down. It is their airport.

But I believe it is wrong for the parties to ask Congress to establish into Federal law their private contractual obligations. Those are enforceable in court. By including these privately made agreements in a new federal law, Congress would be replacing one complex set of anti-competitive rules with another. Terminating today's version of the Wright Amendment, whereby Congress imposes distance limitations on an airport, only to replace it with a new version of the Wright Amendment whereby Congress imposes gate limitations on an airport, does not constitute repeal—today, in 8 years or ever. Additionally, the unusual anti-trust exemption language is troubling.

For far too long the Wright Amendment has been a burden on both consumers and the national economy. In the spirit of compromise, I again would support a simple federal law that would enact immediate through-ticketing, fully repeal of Wright in 8 years while respecting the rights of American Airlines, Southwest Airlines, D/FW and the cities of Fort Worth and Dallas to otherwise enter into lawful contracts to mutually bind themselves as they choose.

Try as I may, I cannot in good faith support the current bill, which I fear simply replaces one version of the Wright Amendment with another.

Should this legislation become law, I hope it proves to be of significant benefit to the air traveling public. If it does, I will take some satisfaction knowing I helped play a small role as its catalyst.

The SPEAKER pro tempore (Mr. BASS). The question is on the motion offered by the gentleman from Florida (Mr. MICA) that the House suspend the rules and pass the Senate bill, S. 3661.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. SENSENBRENNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

ALTERNATIVE ENERGY RESEARCH AND DEVELOPMENT ACT

Mrs. BIGGERT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6203) to provide for Federal energy research, development, demonstration, and commercial application activities, and for other purposes.

The Clerk read as follows:

H.R. 6203

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Alternative Energy Research and Development Act".

SEC. 2. DEFINITIONS.

For the purposes of this Act—

(1) the term "biomass" has the meaning given that term in section 932(a)(1) of the Energy Policy Act of 2005 (42 U.S.C. 16232(a)(1));

(2) the term "cellulosic feedstock" has the meaning given the term "lignocellulosic feedstock" in section 932(a)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16232(a)(2));

(3) the term "Department" means the Department of Energy;

(4) the term "institution of higher education" has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a));

(5) the term "National Laboratory" has the meaning given the term "nonmilitary energy laboratory" in section 903(3) of the Energy Policy Act of 2005 (42 U.S.C. 16182(3)); and

(6) the term "Secretary" means the Secretary of Energy.

SEC. 3. ADVANCED BIOFUEL TECHNOLOGIES.

(a) In General.—The Secretary shall carry out a program of research, development, demonstration, and commercial application for production of motor and other fuels from biomass.

(b) Objectives.—The Secretary shall design the program under this section to—

(1) develop technologies that would make ethanol produced from cellulosic feedstocks cost competitive with ethanol produced from corn by 2012;

(2) conduct research and development on how to apply advanced genetic engineering and bioengineering techniques to increase the efficiency and lower the cost of industrial-scale production of liquid fuels from cellulosic feedstocks; and

(3) conduct research and development on the production of hydrocarbons other than ethanol from biomass.

(c) Institution of Higher Education Grants.—The Secretary shall designate not less than 10 percent of the funds appropriated under subsection (d) for each fiscal year to carry out the program for grants to competitively selected institutions of higher education around the country focused on meeting the objectives stated in subsection (b).

(d) Authorization of Appropriations.—From amounts authorized to be appropriated under section 931(c) of the Energy Policy Act of 2005 (42 U.S.C. 16231(c)), there are authorized to be appropriated to the Secretary to carry out this section—

(1) $150,000,000 for fiscal year 2007; and

(2) such sums as may be necessary for each of the fiscal years 2008 and 2009.

SEC. 4. ADVANCED HYDROGEN STORAGE TECHNOLOGIES.

(a) In General.—The Secretary shall carry out a program of research, development, demonstration, and commercial application for technologies to enable practical onboard storage of hydrogen for use as a fuel for light-duty motor vehicles.

(b) Objective.—The Secretary shall design the program under this section to develop practical hydrogen storage technologies that would enable a hydrogen-fueled light-duty motor vehicle to travel 300 miles before refueling.

SEC. 5. ADVANCED SOLAR PHOTOVOLTAIC TECHNOLOGIES.

(a) In General.—The Secretary shall carry out a program of research, development, demonstration, and commercial application for advanced solar photovoltaic technologies.

(b) Objectives.—The Secretary shall design the program under this section to develop technologies that would—

(1) make electricity generated by solar photovoltaic power cost-competitive by 2015; and

(2) enable the widespread use of solar photovoltaic power.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary to carry out this section—

(1) $148,000,000 for fiscal year 2007; and

(2) such sums as may be necessary for each of the fiscal years 2008 through 2011.

SEC. 6. ADVANCED WIND ENERGY TECHNOLOGIES.

(a) In General.—The Secretary shall carry out a program of research, development, demonstration, and commercial application for advanced wind energy technologies.

(b) Objectives.—The Secretary shall design the program under this section to—

(1) improve the efficiency and lower the cost of wind turbines;

(2) minimize adverse environmental impacts; and

(3) develop new small-scale wind energy technologies for use in low wind speed environments.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary to carry out this section—

(1) $44,000,000 for fiscal year 2007; and

(2) such sums as may be necessary for each of the fiscal years 2008 through 2011.

SEC. 7. CONTINUING PROGRAMS.

The Secretary shall continue to carry out the research, development, demonstration, and commercial application activities authorized in sections 921(b)(1) (for distributed energy), 923 (for micro-cogeneration technology), and 931(a)(2)(C), (D),and (E)(i) (for geothermal energy, hydropower, and ocean energy) of the Energy Policy Act of 2005.

SEC. 8. PLUG-IN HYBRID ELECTRIC VEHICLE TECHNOLOGY PROGRAM.

(a) Short Title.—This section may be cited as the "Plug-In Hybrid Electric Vehicle Act of 2006".

(b) Definitions.—In this section:

(1) Battery.—The term "battery" means a device or system for the electrochemical storage of energy.

(2) E85.—The term "E85" means a fuel blend containing 85 percent ethanol and 15 percent gasoline by volume.

(3) Electric drive transportation technology.—The term "electric drive transportation technology" means—

(A) vehicles that use an electric motor for all or part of their motive power and that may or may not use offboard electricity, including battery electric vehicles, hybrid electric vehicles, plug-in hybrid electric vehicles, flexible fuel plug-in hybrid electric vehicles, and electric rail; and

(B) related equipment, including electric equipment necessary to recharge a plug-in hybrid electric vehicle.

(4) Flexible fuel plug-in hybrid electric vehicle.—The term "flexible fuel plug-in hybrid electric vehicle" means a plug-in hybrid electric vehicle warranted by its manufacturer as capable of operating on any combination of gasoline or E85 for its onboard internal combustion or heat engine.

(5) Hybrid electric vehicle.—The term "hybrid electric vehicle" means a vehicle that—

(A) can be propelled using liquid combustible fuel and electric power provided by an onboard battery; and

(B) utilizes regenerative power capture technology to recover energy expended in braking the vehicle for use in recharging the battery.

(6) Plug-in hybrid electric vehicle.—The term "plug-in hybrid electric vehicle" means a hybrid electric onroad light-duty vehicle that can be propelled solely on electric power for a minimum of 20 miles under city driving conditions, and that is capable of recharging its battery from an offboard electricity source.

(c) Program.—The Secretary shall conduct a program of research, development, demonstration, and commercial application on technologies needed for the development of plug-in hybrid electric vehicles and electric drive transportation, including—

(1) high capacity, high efficiency batteries, to—

(A) improve battery life, energy storage capacity, and power delivery capacity, and lower cost; and

(B) minimize waste and hazardous material production in the entire value chain, including after the end of the useful life of the batteries;

(2) high efficiency onboard and offboard charging components;

(3) high power drive train systems for passenger and commercial vehicles and for supporting equipment;

(4) onboard energy management systems, power trains, and systems integration for plug-in hybrid electric vehicles, flexible fuel plug-in hybrid electric vehicles, and hybrid electric vehicles, including efficient cooling systems and systems that minimize the emissions profile of such vehicles; and

(5) lightweight materials, including research, development, demonstration, and commercial application to reduce the cost of materials such as steel alloys and carbon fibers.

(d) Plug-In Hybrid Electric Vehicle Demonstration Program.—

(1) Establishment.—The Secretary shall establish a competitive grant pilot demonstration program to provide not more than 25 grants annually to State governments, local governments and public entities, metropolitan transportation authorities, or combinations thereof to carry out a project or projects for demonstration of plug-in hybrid electric vehicles.

(2) Applications.—

(A) Requirements.—The Secretary shall issue requirements for applying for grants under the demonstration pilot program. The Secretary shall require that applications, at a minimum, include a description of how data will be—

(i) collected on the—

(I) performance of the vehicle or vehicles and the components, including the battery, energy management, and charging systems, under various driving speeds, trip ranges, traffic, and other driving conditions;

(II) costs of the vehicle or vehicles, including acquisition, operating, and maintenance costs, and how the project or projects will be self-sustaining after Federal assistance is completed; and

(III) emissions of the vehicle or vehicles, including greenhouse gases, and the amount of petroleum displaced as a result of the project or projects; and

(ii) summarized for dissemination to the Department, other grantees, and the public.

(B) PARTNERS.—An applicant under subparagraph (A) may carry out a project or projects under the pilot program in partnership with one or more private or nonprofit entities, which may include institutions of higher education, including Historically Black Colleges and Universities, Hispanic Serving Institutions, and other minority-serving institutions.

(3) SELECTION CRITERIA.—

(A) PREFERENCE.—When making awards under this subsection, the Secretary shall consider each applicant's previous experience involving plug-in hybrid electric vehicles and shall give preference to proposals that—

(i) provide the greatest demonstration per award dollar, with preference increasing as the number of miles that a plug-in hybrid electric vehicle can be propelled solely on electric power under city driving conditions increases; and

(ii) maximize the non-Federal share of project funding and demonstrate the greatest likelihood that each project proposed in the application will be maintained or expanded after Federal assistance under this subsection is completed.

(B) BREADTH OF DEMONSTRATIONS.—In awarding grants under this subsection, the Secretary shall ensure the program will demonstrate plug-in hybrid electric vehicles under various circumstances, including—

(i) driving speeds;

(ii) trip ranges;

(iii) driving conditions;

(iv) climate conditions; and

(v) topography,

to optimize understanding and function of plug-in hybrid electric vehicles.

(4) PILOT PROJECT REQUIREMENTS.—

(A) SUBSEQUENT FUNDING.—An applicant that has received a grant in one year may apply for additional funds in subsequent years, but the Secretary shall not provide more than $10,000,000 in Federal assistance under the pilot program to any applicant for the period encompassing fiscal years 2007 through fiscal year 2011.

(B) INFORMATION.—The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are shared among the pilot program participants and are available to other interested parties, including other applicants.

(5) AWARD AMOUNTS.—The Secretary shall determine grant amounts, but the maximum size of grants shall decline as the cost of producing plug-in hybrid electric vehicles declines or the cost of converting a hybrid electric vehicle to a plug-in hybrid electric vehicle declines.

(e) COST SHARING.—The Secretary shall carry out the program under this section in compliance with section 988(a) through (d) and section 989 of the Energy Policy Act of 2005 (42 U.S.C. 16352(a) through (d) and 16353).

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary—

(1) for carrying out subsection (c), $100,000,000 for fiscal year 2008 and such sums as may be necessary for each of the fiscal years 2009 through 2011; and

(2) for carrying out subsection (d), $50,000,000 for fiscal year 2008 and such sums as may be necessary for each of the fiscal years 2009 through 2011.

SEC. 9. PHOTOVOLTAIC DEMONSTRATION PROGRAM.

(a) SHORT TITLE.—This section may be cited as the "Solar Utilization Now Demonstration Act of 2006" or the "SUN Act of 2006".

(b) IN GENERAL.—The Secretary shall establish a program of grants to States to demonstrate advanced photovoltaic technology.

(c) REQUIREMENTS.—

(1) ABILITY TO MEET REQUIREMENTS.—To receive funding under the program under this section, a State must submit a proposal that demonstrates, to the satisfaction of the Secretary, that the State will meet the requirements of subsection (g).

(2) COMPLIANCE WITH REQUIREMENTS.—If a State has received funding under this section for the preceding year, the State must demonstrate, to the satisfaction of the Secretary, that it complied with the requirements of subsection (g) in carrying out the program during that preceding year, and that it will do so in the future, before it can receive further funding under this section.

(3) FUNDING ALLOCATION.—Except as provided in subsection (d), each State submitting a proposal that meets the requirements under subsection (c) shall receive funding under the program based on the proportion of United States population in the State according to the 2000 census. In each fiscal year, the portion of funds attributable under this paragraph to States that have not submitted proposals that meet the requirements under subsection (c) in the time and manner specified by the Secretary shall be distributed pro rata to the States that have submitted proposals that meet the requirements under subsection (c) in the specified time and manner.

(d) COMPETITION.—If more than $80,000,000 is available for the program under this section for any fiscal year, the Secretary shall allocate 75 percent of the total amount of funds available according to subsection (c)(3), and shall award the remaining 25 percent on a competitive basis to the States with the proposals the Secretary considers most likely to encourage the widespread adoption of photovoltaic technologies. In awarding funds under this subsection, the Secretary may give preference to proposals that would demonstrate the use of newer materials or technologies.

(e) PROPOSALS.—Not later than 6 months after the date of enactment of this Act, and in each subsequent fiscal year for the life of the program, the Secretary shall solicit proposals from the States to participate in the program under this section.

(f) COMPETITIVE CRITERIA.—In awarding funds in a competitive allocation under subsection (d), the Secretary shall consider—

(1) the likelihood of a proposal to encourage the demonstration of, or lower the costs of, advanced photovoltaic technologies; and

(2) the extent to which a proposal is likely to—

(A) maximize the amount of photovoltaics demonstrated;

(B) maximize the proportion of non-Federal cost share; and

(C) limit State administrative costs.

(g) STATE PROGRAM.—A program operated by a State with funding under this section shall provide competitive awards for the demonstration of advanced photovoltaic technologies. Each State program shall—

(1) require a contribution of at least 60 percent per award from non-Federal sources, which may include any combination of State, local, and private funds, except that at least 10 percent of the funding must be supplied by the State;

(2) limit awards for any single project to a maximum of $1,000,000;

(3) prohibit any nongovernmental recipient from receiving more than $1,000,000 per year;

(4) endeavor to fund recipients in the commercial, industrial, institutional, governmental, and residential sectors;

(5) limit State administrative costs to no more than 10 percent of the grant;

(6) report annually to the Secretary on—

(A) the amount of funds disbursed;

(B) the amount of photovoltaics purchased; and

(C) the results of the monitoring under paragraph (7);

(7) provide for measurement and verification of the output of a representative sample of the photovoltaics systems demonstrated throughout the average working life of the systems, or at least 20 years;

(8) require that applicant buildings must have received an independent energy efficiency audit during the 6-month period preceding the filing of the application; and

(9) encourage Historically Black Colleges and Universities, Hispanic Serving Institutions, and other minority-serving institutions to apply for grants under this program.

(h) UNEXPENDED FUNDS.—If a State fails to expend any funds received under subsection (c) or (d) within 3 years of receipt, such remaining funds shall be returned to the Treasury.

(i) REPORTS.—The Secretary shall report to Congress 5 years after funds are first distributed to the States under this section—

(1) the amount of photovoltaics demonstrated;

(2) the number of projects undertaken;

(3) the administrative costs of the program;

(4) the amount of funds that each State has not received because of a failure to submit a qualifying proposal, as described in subsection (c)(3);

(5) the results of the monitoring under subsection (g)(7); and

(6) the total amount of funds distributed, including a breakdown by State.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for the purposes of carrying out this section—

(1) $50,000,000 for fiscal year 2008; and

(2) such sums as may be necessary for each of the fiscal years 2009 through 2011.

SEC. 10. ENERGY EFFICIENT BUILDING GRANT PROGRAM.

(a) ENERGY EFFICIENT BUILDING PILOT GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Secretary shall establish a pilot program to award grants to businesses and organizations for new construction of energy efficient buildings, or major renovations of buildings that will result in energy efficient buildings, to demonstrate innovative energy efficiency technologies, especially those sponsored by the Department.

(2) AWARDS.—The Secretary shall award grants under this subsection competitively to those applicants whose proposals—

(A) best demonstrate—

(i) likelihood to meet or exceed the standards referred to in subsection (b)(2);

(ii) likelihood to maximize cost-effective energy efficiency opportunities; and

(iii) advanced energy efficiency technologies; and

(B) maximize the leverage of private investment for costs related to increasing the energy efficiency of the building.

(3) CONSIDERATION.—The Secretary shall give due consideration to proposals for buildings that are likely to serve low and moderate income populations.

(4) AMOUNT OF GRANTS.—Grants under this subsection shall be for up to 50 percent of design and energy modeling costs, not to exceed $50,000 per building. No single grantee may be eligible for more than 3 grants per year under this program.

(5) GRANT PAYMENTS.—

(A) INITIAL PAYMENT.—The Secretary shall pay 50 percent of the total amount of the grant to grant recipients upon selection.

(B) REMAINDER OF PAYMENT.—The Secretary shall pay the remaining 50 percent of the grant only after independent certification, by a professional engineer or other qualified professional, that operational buildings are energy efficient buildings as defined in subsection (b).

(C) FAILURE TO COMPLY.—The Secretary shall not provide the remainder of the payment unless the building is certified within 6 months after operation of the completed building to meet the requirements described in subparagraph (B), or in the case of major renovations the building is certified within 6 months of the completion of the renovations.

(6) REPORT TO CONGRESS.—Not later than 3 years after awarding the first grant under this subsection, the Secretary shall transmit to Congress a report containing—

(A) the total number and dollar amount of grants awarded under this subsection; and

(B) an estimate of aggregate cost and energy savings enabled by the pilot program under this subsection.

(7) ADMINISTRATIVE EXPENSES.—Administrative expenses for the program under this subsection shall not exceed 10 percent of appropriated funds.

(b) DEFINITION OF ENERGY EFFICIENT BUILDING.—For purposes of this section the term "energy efficient building" means a building that—

(1) achieves a reduction in energy consumption of—

(A) at least 30 percent for new construction, compared to the energy standards set by the 2004 International Energy Conservation Code (in the case of residential buildings) or ASHRAE Standard 90.1–2004; or

(B) at least 20 percent for major renovations, compared to energy consumption before renovations are begun;

(2) is constructed or renovated in accordance with the most current, appropriate, and applicable voluntary consensus standards, as determined by the Secretary, such as those listed in the assessment under section 914(b), or revised or developed under section 914(c), of the Energy Policy Act of 2005; and

(3) after construction or renovation—

(A) uses heating, ventilating, and air conditioning systems that perform at no less than Energy Star standards; or

(B) if Energy Star standards are not applicable, uses Federal Energy Management Program recommended heating, ventilating, and air conditioning products.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $10,000,000 for fiscal year 2008; and

(2) such sums as may be necessary for each of the fiscal years 2009 through 2011.

SEC. 11. ENERGY TECHNOLOGY TRANSFER.

Section 917 of the Energy Policy Act of 2005 (42 U.S.C. 16197) is amended to read as follows:

"SEC. 917. ADVANCED ENERGY TECHNOLOGY TRANSFER CENTERS.

"(a) GRANTS.—Not later than 18 months after the date of enactment of the Alternative Energy Research and Development Act, the Secretary shall make grants to nonprofit institutions, State and local governments, cooperative extension services, or universities (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers. In establishing the network, the Secretary shall consider the special needs and opportunities for increased energy efficiency for manufactured and site-built housing, including construction, renovation, and retrofit. In making awards under this section, the Secretary shall—

"(1) give priority to applicants already operating or partnered with an outreach program capable of transferring knowledge and information about advanced energy efficiency methods and technologies;

"(2) ensure that, to the extent practicable, the program enables the transfer of knowledge and information—

"(A) about a variety of technologies and

"(B) in a variety of geographic areas; and

"(3) give preference to applicants that would significantly expand on or fill a gap in existing programs in a geographical region.

"(b) ACTIVITIES.—Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use. Funds awarded under this section may be used for the following activities:

"(1) Developing and distributing informational materials on technologies that could use energy more efficiently.

"(2) Carrying out demonstrations of advanced energy methods and technologies.

"(3) Developing and conducting seminars, workshops, long-distance learning sessions, and other activities to aid in the dissemination of knowledge and information on technologies that could use energy more efficiently.

"(4) Providing or coordinating onsite energy evaluations, including instruction on the commissioning of building heating and cooling systems, for a wide range of energy end-users.

"(5) Examining the energy efficiency needs of energy end-users to develop recommended research projects for the Department.

"(6) Hiring experts in energy efficient technologies to carry out activities described in paragraphs (1) through (5).

"(c) APPLICATION.—A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant under this section to an entity already in existence if the entity is otherwise eligible under this section. The application shall include, at a minimum—

"(1) a description of the applicant's outreach program, and the geographic region it would serve, and of why the program would be capable of transferring knowledge and information about advanced energy technologies that increase efficiency of energy use;

"(2) a description of the activities the applicant would carry out, of the technologies that would be transferred, and of any other organizations that will help facilitate a regional approach to carrying out those activities;

"(3) a description of how the proposed activities would be appropriate to the specific energy needs of the geographic region to be served;

"(4) an estimate of the number and types of energy end-users expected to be reached through such activities; and

"(5) a description of how the applicant will assess the success of the program.

"(d) SELECTION CRITERIA.—The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

"(1) The ability of the applicant to carry out the proposed activities.

"(2) The extent to which the applicant will coordinate the activities of the Center with other entities as appropriate, such as State and local governments, utilities, universities, and National Laboratories.

"(3) The appropriateness of the applicant's outreach program for carrying out the program described in this section.

"(4) The likelihood that proposed activities could be expanded or used as a model for other areas.

"(e) COST-SHARING.—In carrying out this section, the Secretary shall require cost-sharing in accordance with the requirements of section 988 for commercial application activities.

"(f) DURATION.—

"(1) INITIAL GRANT PERIOD.—A grant awarded under this section shall be for a period of 5 years.

"(2) INITIAL EVALUATION.—Each grantee under this section shall be evaluated during its third year of operation under procedures established by the Secretary to determine if the grantee is accomplishing the purposes of this section described in subsection (a). The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for 3 additional years beyond the original term of the grant.

"(3) ADDITIONAL EXTENSION.—If a grantee receives an extension under paragraph (2), the grantee shall be evaluated again during the second year of the extension. The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for a final additional period of 3 additional years beyond the original extension.

"(4) LIMITATION.—No grantee may receive more than 11 years of support under this section without reapplying for support and competing against all other applicants seeking a grant at that time.

"(g) PROHIBITION.—None of the funds awarded under this section may be used for the construction of facilities.

"(h) DEFINITIONS.—For purposes of this section:

"(1) ADVANCED ENERGY METHODS AND TECHNOLOGIES.—The term 'advanced energy methods and technologies' means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

"(2) CENTER.—The term 'Center' means an Advanced Energy Technology Transfer Center established pursuant to this section.

"(3) DISTRIBUTED GENERATION.—The term 'distributed generation' means an electric power generation technology, including photovoltaic, small wind and micro-combined heat and power, that is designed to serve retail electric consumers on-site.

"(4) COOPERATIVE EXTENSION.—The term 'Cooperative Extension' means the extension services established at the land-grant colleges and universities under the Smith-Lever Act of May 8, 1914.

"(5) LAND-GRANT COLLEGES AND UNIVERSITIES.—The term 'land-grant colleges and universities' means—

"(A) 1862 Institutions (as defined in section 2 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7601));

"(B) 1890 Institutions (as defined in section 2 of that Act); and

"(C) 1994 Institutions (as defined in section 2 of that Act).

"(i) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts otherwise authorized to be appropriated in section 911, there are authorized to be appropriated for the program under this section such sums as may be appropriated.".

SEC. 12. GREEN ENERGY EDUCATION.

(a) DEFINITION.—For the purposes of this section:

(1) DIRECTOR.—The term "Director" means the Director of the National Science Foundation.

(2) HIGH PERFORMANCE BUILDING.—The term "high performance building" has the meaning given that term in section 914(a) of the Energy Policy Act of 2005 (42 U.S.C. 16194(a)).

(b) GRADUATE TRAINING IN ENERGY RESEARCH AND DEVELOPMENT.—

(1) FUNDING.—In carrying out research, development, demonstration, and commercial application activities authorized for the Department, the Secretary may contribute funds to the National Science Foundation for the Integrative Graduate Education and Research Traineeship program to support projects that enable graduate education related to such activities.

(2) CONSULTATION.—The Director shall consult with the Secretary when preparing solicitations and awarding grants for projects described in paragraph (1).

(c) CURRICULUM DEVELOPMENT FOR HIGH PERFORMANCE BUILDING DESIGN.—

(1) FUNDING.—In carrying out advanced energy technology research, development, demonstration, and commercial application activities authorized for the Department related to high performance buildings, the Secretary may contribute funds to curriculum development activities at the National Science Foundation for the purpose of improving undergraduate or graduate interdisciplinary engineering and architecture education related to the design and construction of high performance buildings, including development of curricula, of laboratory activities, of training practicums, or of design projects. A primary goal of curriculum development activities supported under this section shall be to improve the ability of engineers, architects, and planners to work together on the incorporation of advanced energy technologies during the design and construction of high performance buildings.

(2) CONSULTATION.—The Director shall consult with the Secretary when preparing solicitations and awarding grants for projects described in paragraph (1).

(3) PRIORITY.—In awarding grants with respect to which the Secretary has contributed funds under this subsection, the Director shall give priority to applications from departments, programs, or centers of a school of engineering that are partnered with schools, departments, or programs of design, architecture, and city, regional, or urban planning, and due consideration to applications from Historically Black Colleges and Universities and other minority serving institutions.

SEC. 13. ARPA-E STUDY.

(a) IN GENERAL.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a detailed study of, and make further recommendations on, the October 2005 National Academy of Sciences recommendation to establish an Advanced Research Projects Agency-Energy (in this section referred to as ARPA-E).

(b) REPORT.—Not later than 12 months after the date of enactment of this Act, the Secretary shall transmit to Congress the study described in subsection (a) and the Secretary's response to the findings, conclusions, and recommendations of that study.

(c) TERMS OF REFERENCE.—The Secretary shall ensure that the study described in subsection (a) addresses the following questions:

(1) What basic research related to new energy technologies is occurring now, what entities are funding it, and what is preventing the results of that research from reaching the market?

(2) What economic evidence indicates that the limiting factor in the market penetration of new energy technologies is a lack of basic research on pathbreaking new technologies? What barriers do those trying to develop new energy technologies face during later stages of research and development?

(3) To what extent is the Defense Advanced Research Projects Agency an appropriate model for an energy research agency, given that the Federal Government would not be the primary customer for its technology and where cost is an important concern?

(4) How would research and development sponsored by ARPA-E differ from research and development conducted by the National Laboratories or sponsored by the Department through the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, the Office of Electricity Delivery and Energy Reliability, and the Office of Nuclear Energy?

(5) Should industry or National Laboratories be recipients of ARPA-E grants? What institutional or organizational arrangements would be required to ensure that ARPA-E sponsors transformational, rather than incremental, research and development?

SEC. 14. COAL METHANATION.

(a) PROGRAM.—The Secretary shall establish a program of research, development, demonstration, and commercial application of coal gasification facilities that convert coal into pipeline quality gaseous fuels for direct use or subsequent chemical or physical conversion.

(b) PROCEDURES.—The program established under subsection (a) shall be carried out using procedures described in title XVII of the Energy Policy Act of 2005.

SEC. 15. ALTERNATIVE BIOBASED FUELS AND ULTRA LOW SULFUR DIESEL.

(a) ALTERNATIVE FUEL AND ULSD INFRASTRUCTURE AND ADDITIVES RESEARCH AND DEVELOPMENT.—The Secretary, in consultation with the National Institute of Standards and Technology, shall carry out a program of research, development, demonstration, and commercial application of materials to be added to alternative biobased fuels and Ultra Low Sulfur Diesel fuels to make them more compatible with existing infrastructure used to store and deliver petroleum-based fuels to the point of final sale. The program shall address—

(1) materials to prevent or mitigate—

(A) corrosion of metal, plastic, rubber, cork, fiberglass, glues, or any other material used in pipes and storage tanks;

(B) dissolving of storage tank sediments;

(C) clogging of filters;

(D) contamination from water or other adulterants or pollutants;

(E) poor flow properties related to low temperatures;

(F) oxidative and thermal instability in long-term storage and use;

(G) increased volatile emissions;

(H) microbial contamination;

(I) problems associated with electrical conductivity; and

(J) increased nitrogen oxide emissions;

(2) alternatives to conventional methods for refurbishment and cleaning of gasoline and diesel tanks, including tank lining applications; and

(3) other problems as identified by the Secretary in consultation with the National Institute of Standards and Technology.

(b) SULFUR TESTING FOR DIESEL FUELS.—

(1) PROGRAM.—The Secretary, in consultation with the National Institute of Standards and Technology, shall carry out a research, development, and demonstration program on portable, low-cost, and accurate methods and technologies for testing of sulfur content in fuel, including Ultra Low Sulfur Diesel and Low Sulfur Diesel.

(2) SCHEDULE OF DEMONSTRATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall begin demonstrations of technologies under paragraph (1).

(c) STANDARD REFERENCE MATERIALS AND DATA BASE DEVELOPMENT.—Not later than 6 months after the date of enactment of this Act, the National Institute of Standards and Technology shall develop a physical properties data base and standard reference materials for alternative fuels. Such data base and standard reference materials shall be maintained and updated as appropriate as additional alternative fuels become available.

SEC. 16. BIOENERGY.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 931 of the Energy Policy Act of 2005 (42 U.S.C. 16231) is amended—

(1) in subsection (c)(1), by inserting ", including $25,000,000 for section 932(d)(1)(B)(v)" after "section 932(d)";

(2) in subsection (c)(2), by inserting ", including $25,000,000 for section 932(d)(1)(B)(v)" after "section 932(d)"; and

(3) in subsection (c)(3), by inserting ", including $25,000,000 for section 932(d)(1)(B)(v)" after "section 932(d)".

(b) BIOENERGY PROGRAM.—Section 932(d)(1)(B) of the Energy Policy Act of 2005 (42 U.S.C. 16232(d)(1)(B)) is amended—

(1) by striking "and" at the end of clause (iii); and

(2) by adding after clause (iv) the following new clause:

"(v) biodegradable natural plastics from biomass; and".

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Illinois (Mrs. BIGGERT) and the gentleman from Tennessee (Mr. GORDON) each will control 20 minutes.

The Chair recognizes the gentlewoman from Illinois.

GENERAL LEAVE

Mrs. BIGGERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on H.R. 6203, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Illinois?

There was no objection.

Mrs. BIGGERT. Mr. Speaker, I yield myself such time as I may consume.

I rise today in strong support of H.R. 6203, the Alternative Energy and Research Development Act.

As its title suggests, this bill is designed to advance development of a number of alternative energy technologies by establishing policy goals and focusing research on key technical challenges.

Building on the excellent R&D provisions the Science Committee included in the Energy Policy Act of 2005, or EPACT, H.R. 6203 supports the development of biofuels from cellulose, meaning feedstocks other than corn; biodegradable natural plastics from biomass; technologies for hydrogen storage onboard vehicles; advanced solar technologies that are economical and make solar power cost competitive in a decade; technologies that minimize the cost and environmental impact and maximize the efficiency of harnessing the power of the wind; and advanced battery technologies specifically for plug-in hybrid electric vehicles.

In addition to requiring the DOE to continue carrying out the geothermal energy, hydropower distributor and cogeneration research authorized in EPACT, H.R. 6203 supports research to convert coal into pipeline quality gaseous fuels.

The bill also promotes energy conservation in three important ways. First, it provides incentives for the construction of energy efficient buildings. Today's buildings consume 50 percent of the Nation's supply of natural gas and 70 percent of its electricity, more energy than any other sector of the economy, including industry and transportation.

Second, the bill offers grants to States who deploy solar cells and purchase plug-in hybrid electric vehicles.

Finally, it establishes a cooperative extension program to encourage the use of advanced energy technologies patterned after the successful agricultural extension programs that aided farmers in incorporating advanced technologies and food production.

H.R. 6203 is a modified version of H.R. 5656, which was approved by the Science Committee in July. Like most bills that emerge from the Science Committee, H.R. 6203 represents a compilation of great ideas from a number of members of the committee, including my colleagues from Texas, Lamar Smith and Mike McCaul. And I would especially like to thank the ranking member, Mr. Gordon, for his leadership and his additions to the bill. The bill was further perfected in committee by Representatives Ralph Hall, Doris Matsui, Lynn Woolsey, Sheila Jackson-Lee, Eddie Bernice Johnson, Ken Calvert, Al Green, Brian Baird, and Brad Miller. I want to thank my colleagues on the committee for their contributions. H.R. 6203 is the product of a truly bipartisan effort.

Mr. Speaker, high natural gas prices and the summer spike in gasoline prices serve as a stark reminder that the path to energy independence is a long and arduous one.

□ 1945

To make significant progress down this path requires a steadfast commitment from Congress and the Federal Government to support the development of advanced energy technologies and alternative fuels that will help end our addiction to oil and gasoline.

The bill we are considering today would do just that in a fiscally responsible way. In some cases, it gives new direction to research funding authorized in EPACT. In others, the House already has appropriated funds for the programs.

I urge my colleagues to support H.R. 6203.

Mr. Speaker, I reserve the balance of my time.

Mr. GORDON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6203. This bill is very similar to Mrs. Biggert's H.R. 5656 which the Science Committee passed favorably in June. We support the changes that were made and believe they express some of the concerns our Members had with H.R. 5656.

The original bill contained a number of important provisions from Democratic Members, and I want to thank Chairwoman Biggert for working with us to include them in this most recent version. I am especially pleased to see my bill, H.R. 5658, included as section 15 of this bill.

If our country is serious about reducing our dependency on foreign oil, we need to get serious about mobilizing the infrastructure necessary to distribute and dispense the next generation of fuels.

The bill instructs the Department of Energy and the National Institute of Standards and Technology to research fuel additives and other technologies that would make biodiesel fuels more compatible with the country's petroleum-based infrastructure.

My bill, contained in section 15, also addresses potential challenges as fuel suppliers transition to ultra-low sulfur diesel, a fuel significantly cleaner than traditional diesel.

This section instructs the Department of Energy and NIST to develop portable, low-cost, and accurate methods suppliers can use to test sulfur content in fuels. It should be noted that in no way is this meant to interfere with the authority or activities of the EPA to continue the successful transition to ultra-low sulfur diesel or other fuels programs. It is intended to assist companies that are complying with EPA's programs, and I encourage DOE and NIST to coordinate these activities with EPA.

While I support Mrs. Biggert's bill, I personally believe the committee should be sending a stronger message regarding the future of high-risk, high-payoff energy R&D.

Specifically, we should move towards the establishment of an Advanced Research Projects Agency for Energy, or ARPA–E, as directed in my bill, H.R. 4435.

There is a need for an organization capable of finding and promoting research breakthroughs and converting those findings into potentially transformational energy technologies that will make this country more energy self-sufficient.

Mr. Speaker, all in all, I believe this is a good bill with some strong energy research programs. I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mrs. BIGGERT. Mr. Speaker, I recognize a valuable member of the Science Committee, the gentleman from Texas (Mr. Smith) for 3 minutes.

Mr. SMITH of Texas. Mr. Speaker, first of all, I would like to thank the gentlewoman from Illinois, who is the chairman of the Science Committee's Subcommittee on Energy for yielding to me; and I want to express my appreciation to Mrs. Biggert for assembling this legislation, which will contribute mightily to our energy independence.

H.R. 6203, the Alternative Energy Research and Development Act, incorporates two pieces of legislation that I introduced: the Plug-in Hybrid Electric Vehicle Act of 2006 and the Solar Utilization Now, or SUN Act, of 2006. They will reduce our Nation's dependence on foreign sources of oil by promoting plug-in hybrid vehicles and the use of solar power.

The Plug-in Hybrid Electric Vehicle Act establishes a partnership between public and private entities and requires the Secretary of Energy to carry out a program of research and development for plug-in hybrid electric vehicles and electric drive transportation technology. The goal is to develop a plug-in vehicle that can travel up to 40 miles on battery power alone.

The bill also establishes a pilot program of grants to State and local governments and metropolitan transportation authorities.

Congress has a responsibility to help promote this new technology.

I introduced the SUN Act of 2006 because the answer to much of our energy needs in fact comes up every morning. The goal of this legislation is to make electricity from solar power cost-competitive by 2015. The SUN Act encourages State governments and private industry to team up to apply for Federal grants. Solar power is clean, plentiful, and it generates zero emissions and zero waste.

The Federal Government needs to ensure that the research and development of alternative energy technologies continues. Americans are concerned about high gas prices, our dependence on foreign oil and global warming. This bill addresses those concerns and is good for our energy security, national security and environmental security.

Mr. Speaker, I want to thank Congresswoman BIGGERT for taking the lead on these issues and for getting this package to the House floor.

Mr. GORDON. Mr. Speaker, we have no other requests for time, and I yield back the balance of my time.

Mrs. BIGGERT. Mr. Speaker, I recognize another member of the Science Committee who has worked hard in this area, the gentleman from Texas (Mr. MCCALL), for 2 minutes.

Mr. MCCALL of Texas. Mr. Speaker, I want to first thank Congresswoman BIGGERT for her leadership on this bill. We have worked very hard to get to this point to get this bill on the floor. I was very proud to be a part of it. I thank you again for your leadership. And I thank Congressman KIRK for helping us in this effort and my colleague from Texas, Mr. SMITH, for his hard work.

This alternative energy legislation is crucial for America. But it isn't just an alternative energy issue. It is also very much a national security issue. For some time now, we in the Congress have been pushing towards reducing America's addiction to foreign sources of oil. This is a giant step in the right direction. This bill will provide research and development for energy independence, for clean energy technologies, for plug-in hybrid vehicles, solar power, wind, biofuels, clean coal technologies, and hydrogen.

If passed, this visionary legislation will put us on the track to provide cheaper and more reliable alternatives to fossil fuels and will work to provide a cleaner environment for our children and our grandchildren.

I want to thank our colleagues on the other side of the aisle for their strong support of this legislation as well. It is an important bill for America's energy future.

Mrs. BIGGERT. Mr. Speaker, I recognize the gentleman from Tennessee (Mr. WAMP), who is not a member of the Science Committee but has been so helpful as a member of the Policy Committee and of the Appropriations Committee, and I yield 3 minutes.

Mr. WAMP. Mr. Speaker, I thank Mrs. BIGGERT and Mr. GORDON for their leadership.

For 6 years, I have had the privilege of serving as the co-Chair in the House of the Renewable Energy Efficiency Caucus with MARK UDALL of Colorado, which is over half of the House. They have a similar caucus in the Senate. There is widespread bipartisan support for these programs. I think it is so important that we do this.

I want to say that one of the underreported stories of the last 2 years is the impact of last year's energy bill, the final agreement. I didn't support the House bill, but I supported the final bill because the Senate made it so much better, advanced especially the production of ethanol. There are at least 41 new ethanol plants under construction across America today because alternative fuels is what we need to advance.

Leadership cries out for us to do what we need to do for the next generation with respect to energy, regardless of what energy costs today. Some people think if it is $4 a gallon you have to make changes, but if it is $2 a gallon you don't need to. No, we need to. And leadership cries out for us to be aggressive.

And I am a conservative. Sometimes conservatives forget we are supposed to conserve, to save, to be efficient. Plus our dependence on other sources of energy is causing our country to not be independent and to really be vulnerable. So this is a security issue.

I think, frankly, if we don't do things like this we are being penny-wise and pound-foolish. These initiatives are real. They are substantive. This is a great first step.

It is really a second step. I think EPACT was the first step. This is the second step. I would even argue next year we need to do a third step and continue to advance this cause.

We didn't balance the budget for 3 years by cutting spending. We did slow the rate of growth of spending, but we balanced the budget because the economy grew because we led the world in information. EARL BLUMENAUER, from out on your side of this country. The Microsoft explosion was a robust, U.S. manufacturing export-driven economy where revenues surpassed expenses and we balanced the budget.

We can do that again, solving the world's energy problems because we are the smartest people in the world. A dynamic, export-driven economy if we will invest in energy solutions for the world, and you can't just expect it to happen. The government plays a role. We have to lead on this issue.

This is a double negative, but I with close with this: We cannot afford not to do this. That is what the House needs to understand. We cannot afford not to do this. Please support this bill, move it forward, and then let's go further in the 110th Congress.

Mr. GORDON. Mr. Speaker, will the gentleman yield?

Mr. WAMP. I yield to the gentleman from Tennessee.

Mr. GORDON. Let me just add my voice to my friend and colleague from Tennessee to say he has been a strong, consistent leader in this area, and I want to thank you for that. It has made this Congress better for your efforts.

Mr. WAMP. Reclaiming my time, thank you for your leadership, and thank you, Mrs. BIGGERT.

Mrs. BIGGERT. Mr. Speaker, I recognize the gentleman from Illinois (Mr. KIRK). He has been the chairman of the Suburban Caucus, and this bill has been on the Suburban Caucus list for those bills that are important to not only suburban areas but all over the country, and I yield 2 minutes.

Mr. KIRK. Mr. Speaker, I thank my colleague from Illinois who put together this legislation as a leader in Congress. Along with Congressman MCCALL of Texas, you have outlined an alternative energy and renewable fuels future for the country in a bipartisan way, along with the gentleman from Tennessee.

The U.S. imports nearly 5 billion barrels of oil a year. And there has been a recent decline in the price of gas across the United States, but we need oil independence to protect us from a volatile world of oil markets, increasing global pollution, and unstable leaders in Iran and Venezuela. We know that alternative energy and renewable fuels equals national security for the United States.

This legislation will accelerate the development of advanced and clean technologies. It promotes the implementation of solar photovoltaic, wind, geothermal and hydropower. It establishes a research and development program for the conversion of coal into pipeline-quality fuel.

In my State of Illinois, we have a 250-year American supply of coal, one of the largest supplies in the United States; and with the development of clean coal technology we can better utilize a vast resource to help out the energy independence of the United States.

The grants, incentives and programs established in this bipartisan bill have the potential to save American consumers billions of dollars, create thousands of new jobs and dramatically decrease energy consumption and pollution. In achieving the goals set forth in this bipartisan bill, we end our addiction to foreign oil and enhance our national security.

Mr. Speaker, on a day in which we look at the loss of a colleague in this House, in which we see vigorous foreign policy debate, what is being missed without a single reporter in the gallery is bipartisan legislation working on an alternative-energy future for the Nation. It is a story that should not be missed, both parties joining together to make sure that we enhance renewable and alternative fuels and that we make sure that America leads.

Mrs. BIGGERT. Mr. Speaker, I recognize the gentleman from Maryland (Mr. BARTLETT), a long-time member of the Science Committee, for 3 minutes.

Mr. BARTLETT of Maryland. Mr. Speaker, there have been in the last couple of years two major government-sponsored studies on energy. One was a big SAIC report, commonly called the Hirsch Report. The other was a more recent report by the Corps of Engineers, and both of them reached essentially the same conclusion.

□ 2000

The world has either peaked in oil production, conventional oil production, or it will shortly peak in oil production with potentially devastating consequences. The Hirsch report said that the world has never faced a problem like this, that mitigation consequences will be unprecedented.

Today I got across my desk a flyer from a group here on the Hill that said that we ought to be cautious about this suspension vote because some new programs were suggested here. I hope, Mr. Speaker, that some new programs are suggested here because the reality is the Hirsch report said if you didn't anticipate the peaking of oil, in 20 years there were going to be economic consequences.

We knew 25 years ago that this was a reality. By 1980, 1981, we absolutely knew that M. King Huppert was right. The United States had peaked in 1970. We are well down that slope now. He predicted the world would be peaking about now.

I hope, Mr. Speaker, that there are a lot of new programs in here because we don't have 10 years. We don't have 20 years. I think we have essentially run out of time. We have run out of energy.

And don't be lulled into complacency by this find of oil in the gulf. Instead of our responding, saying here is some energy and we can invest in alternatives, what we have said is, I don't need to buy that hybrid now; I can now buy an SUV. We have exactly the wrong response to this.

Please, this is a great bill. I hope there are new programs in it. My only complaint with the bill is it doesn't have enough new programs in it.

Thank you very much for a great bill. Everybody should vote "yes" on this.

Mr. GORDON. Mr. Speaker, I ask unanimous consent to reclaim my time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. GORDON. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, let me rise in support of this legislation and ask my colleagues to support it and thank the gentlewoman from Illinois and the gentleman from Tennessee for their leadership and to comment on how the Science Committee provides such a contribution in a bipartisan way of looking at the next generation of alternative fuels.

Representing what has been called the "energy capital of the world," I know the use of fossil fuels, oil, gas, coal. And, frankly, I believe that energy connotes opportunity, new energy alternatives, and our companies are called "energy companies." So this gives us the opportunity in a bipartisan way to take this country forward.

I will drop tonight legislation that deals with cellulose research on ethanol to encourage the production of ethanol in a different manner. And I hope that as we are dependent at this time on oil, gas, and coal that we will also look to the research opportunities that have been created by this legislation and the forward-thinking aspects that this legislation generates. Research, investment in research, generates value for the consumers, efficiency for the consumers, and low cost for the consumers.

And, frankly, all of the dialogue that we have had, whether we are for or against wars that are raging around the world, all of us have discussed the question of dependency on foreign energy resources. This legislation allows us in a thoughtful manner to create a pathway of independence for America.

And I want to thank the gentleman for yielding and thank the gentlewoman and ask my colleagues to support this legislation. And I hope in the Science Committee in the 110th Congress we will be in the forefront of alternative energies because I would be delighted to have those same energy companies in Houston, Texas, of which I know may be listening and certainly not fearful because we are using oil and we are using gas, but in any event to diversify and utilize alternative fuels, and I think we will be the better for it.

I ask my colleagues to support it.

Mr. GORDON. Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Speaker, I thank the gentlewoman and the gentleman for yielding.

I just think there ought to be somebody who stands and says that research like this is going on in the private sector, continually, as it should be. That is where it ought to be. I hope that we can reach more energy independence. But when we look at the situation that we have now with a massive deficit and a huge debt, I think it is too much to ask, particularly given the oil prices where they are and the fact that there are huge profits being made by oil companies who have plenty of room to actually fund a lot of this research on their own, and it is a little too much to ask taxpayers, in my view, to come in. And I have heard the price tag to be somewhere around $400 million. That would seem to me to be a bit steep.

So I for one do not support the legislation. I know that it has overwhelming broad bipartisan support, and I am not hopeful that my views will prevail. But I just want to add that I think that this, for the taxpayers at this time, is not a wise move.

Mrs. BIGGERT. Mr. Speaker, I yield 1 minute to Mr. BARTLETT from Maryland.

Mr. BARTLETT of Maryland. Mr. Speaker, we have 2 percent of the nonreserves of oil. We use 25 percent of the world's oil. We import almost two-thirds of what we use. Ten years from now when we look back, our regret is going to be that there wasn't ten times as much money in this bill for these programs.

This is desperately needed. The market is neither omniscient nor omnipotent. It will not solve this problem. If this government does not solve it, it won't be solved because the private sector cannot do it. We need real leadership in this area, and that is a major responsibility of government.

And again I say mark it down. Ten years from now you will look back and say why wasn't there ten times as much money in that bill because we really needed it?

This falls far short of what we ought to be doing, but at least it is something. Please vote for it.

Mrs. BIGGERT. Before I close, Mr. Speaker, I would like to insert in the RECORD an exchange of letters between the Committees on Science and Education and the Workforce.

COMMITTEE ON EDUCATION AND THE WORKFORCE, HOUSE OF REPRESENTATIVES, 2181 RAYBURN HOUSE OFFICE BUILDING,
Washington, DC, September 29, 2006.

Hon. SHERWOOD BOEHLERT,
Chairman, Committee on Science, 2320 Rayburn HOB, Washington, DC.

DEAR CHAIRMAN BOEHLERT: I am writing to confirm our mutual understanding with respect to consideration of H.R. 6203, to provide for Federal energy research, development, demonstration, and commercial application, activities, and for other purposes. Education provisions in Section 12 of the bill as introduced are within the jurisdiction of the Committee on Education and the Workforce.

Given the importance of moving this bill forward promptly, I will not request the referral of H.R. 6203 to the Committee on Education and the Workforce. However, I do so only with the understanding that this procedural route should not be construed to prejudice the Committee on Education and the Workforce's jurisdictional interest and prerogative on these provisions or any other similar legislation and will not be considered as precedent for consideration of matters of jurisdictional interest to my Committee in the future.

Finally, I ask that you include a copy of our exchange of letters in the Congressional Record during the consideration of H.R. 6203.

If you have questions regarding this matter, please do not hesitate to contact me.

Sincerely,

HOWARD P. "BUCK" MCKEON,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON SCIENCE,
Washington, DC, September 29, 2006.

Hon. HOWARD P. "BUCK" MCKEON,
Chairman, Committee on Education and the Workforce, 2181 Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter regarding the consideration of H.R. 6203, the Alternative Energy Research and Development Act. I appreciate your waiving your Committee's right to a referral on this bill so that it can move expeditiously to the floor.

I recognize your Committee's jurisdiction over education provisions in Section 12 of the bill and will support any request you may make to have conferees on H.R. 6203 or similar legislation. The exchange of letters between our two committees will be included in the Congressional Record when the bill is considered on the floor.

Thank you for your attention to this matter.

Sincerely,

SHERWOOD BOEHLERT,
Chairman.

Mr. Speaker, yesterday's headlines announced that the national average price of gasoline dropped another 12 cents in the last week, the seventh straight week that gasoline prices have fallen. That is certainly good news for the American consumer in the U.S., and businesses.

However, we cannot allow ourselves to be lulled into a sense of complacency whenever the price of gasoline drops. We have to face the fact that we cannot meet today's energy needs, much less tomorrow's, with yesterday's energy infrastructure and technology. We must reduce our reliance on expensive natural gas and Mid-Eastern oil and instead encourage the use of clean, efficient alternatives like solar, wind, hydrogen, and biofuels. These advanced energy technologies offer the best hope for diversifying energy supplies. They can improve efficiency. They can promote conservation. And perhaps most importantly, they can bring us ever closer to ending our reliance on Mid-Eastern oil.

I want to thank the staff who worked so hard to bring this bill to the floor today, including Bill Koetzle in the Speaker's office and Michael Ference in the majority whip's office. And I want to thank the staff of the Science Committee for all their hard work on this bill and the many others we have worked on together over the past years. And particularly I want to commend David Goldston for his tireless efforts on behalf of the committee and its chairman. Both he and my good friend, Chairman BOEHLERT, will be missed.

Again, I urge my colleagues to support H.R. 6203.

Mr. BOEHLERT. Mr. Speaker, I rise in strong support of this bill, but I rise mostly to praise the Members who have contributed to it: Chairman JUDY BIGGERT, and Congressmen LAMAR SMITH and MIKE MCCAUL not only wrote the excellent provisions of this bill, but it's been their persistence that has enabled it to come to the floor today. I also want to recognize my ranking Member, Mr. GORDON, and his colleagues, who have also contributed provisions to this bill.

This bill should be one of the easiest votes we cast this Congress and certainly today. The bill commits our Nation to conducting more research and development on the technologies that will reduce our dependence on foreign oil. That includes biomass, solar, wind, hydrogen, and hybrid vehicle technologies. It's a non-controversial list; indeed, it's a must-do list.

Many of the provisions in the bill originated with the President's Advanced Energy Initiative.

This bill is quite frankly the bare minimum we can do; it establishes the R&D foundation we need to build from. I urge my colleagues to support this valuable measure.

Mr. HONDA. Mr. Speaker, I rise in support of H.R. 6203, which is very similar to a bill we marked up earlier this year in the Science Committee, with some of the more expensive and contentious elements taken out.

I'm pleased that this bill, which enjoys bipartisan support, contains amendments offered by a number of my colleagues in committee, including Mr. BAIRD, Ms. EDDIE BERNICE JOHNSON, Mr. BRAD MILLER, Ranking Member GORDON, Ms. MATSUI, Mr. AL GREEN, Ms. WOOLSEY, Ms. JACKSON-LEE.

The bill addresses research on a wide range of important energy technologies, including advanced biofuels, hydrogen storage, wind energy, plug in hybrid vehicles, energy efficient buildings, and alternative biobased fuels and ultra low sulfur diesel.

The bill also establishes programs for energy technology transfer and green energy education, and calls for a study of an advanced Research Projects Agency for Energy.

I'm particularly pleased that the bill includes research on advanced solar photovoltaic technologies and a photovoltaic demonstration program. In August, Chairwoman BIGGERT and I held a field hearing in my district that focused on photovoltaics.

At the hearing, the witnesses, and let me just note there were 2 Nobel Prize winners on the panel, described how the relatively high cost current supply constraints associated with currently available solar technologies are limiting adoption. But they also outlined several research directions that will help reduce costs and ease manufacturing, which will expand availability.

So I'm glad that this bill will help move that research along and establish a demonstration program to speed adoption, with the goal of making electricity generated by solar photovoltaic power cost-competitive by 2015.

I have some concerns about the ramifications of the coal methanation section in the area of greenhouse gas emissions. While I want to reduce America's dependence on foreign oil as much as anyone, in doing so we need to be mindful of the harmful effects of global climate change.

Converting coal to liquid or gaseous fuels results in much greater carbon dioxide emissions than for conventional crude oil derived hydrocarbon fuels. I hope that any plants built using such an approach will incorporate carbon capture and storage, in order to keep those gases out of our atmosphere.

The rapid development of alternative energy sources is essential to our nation's security, and while I wish we could do more, I'm happy to support the efforts included in H.R. 6203 and ask my colleagues to vote for it.

Mrs. BIGGERT. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Illinois (Mrs. BIGGERT) that the House suspend the rules and pass the bill, H.R. 6203.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. BIGGERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on Senate 3661.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Illinois?

There was no objection.

SUPPORTING THE GOALS AND IDEALS OF RED RIBBON WEEK

Mr. DEAL of Georgia. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 1028) supporting the goals and ideals of Red Ribbon Week.

The Clerk read as follows:

H. Res. 1028

Whereas the purpose of the Red Ribbon Campaign is to commemorate the service of Enrique "Kiki" Camarena, a Drug Enforcement Administration Special Agent who died in the line of duty in 1985 while engaged in the battle against illicit drugs;

Whereas the Red Ribbon Campaign is nationally recognized and is in its twenty-first year of celebration, helping to preserve Special Agent Camarena's memory and further the cause for which he gave his life;

Whereas the Governors and Attorneys General of the States, the National Family Partnership, Parent Teacher Associations, Boys and Girls Clubs of America, and more than 100 other organizations throughout the United States annually cosponsor Red Ribbon Week during the period of October 23 through October 31;

Whereas the objective of Red Ribbon Week is to promote drug-free communities through drug prevention efforts, education, parental involvement, and community-wide support;

Whereas drug and alcohol abuse contributes to domestic violence and sexual assaults, and places the lives of children at risk;

Whereas drug abuse is one of the major challenges that the Nation faces in securing a safe and healthy future for families and children;

Whereas although public awareness of illicit drug abuse is increasing, the silent abuse of prescription medication, with over 6,000,000 such abusers, has gone almost unnoticed and demands attention; and

Whereas parents, youth, schools, businesses, law enforcement agencies, religious institutions, service organizations, senior citizens, medical and military personnel, sports teams, and individuals throughout the United States will demonstrate their commitment to healthy, productive, and drug-free lifestyles by wearing and displaying red ribbons during this weeklong celebration: Now therefore, be it

Resolved, That the House of Representatives—

(1) supports the goals and ideals of Red Ribbon Week;

(2) encourages children and teens to choose to live a drug-free life; and

(3) encourages the people of the United States to promote drug-free communities and to participate in drug prevention activities to show support for healthy, productive, and drug-free lifestyles.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. DEAL) and the gentleman from New York (Mr. TOWNS) each will control 20 minutes.

The Chair recognizes the gentleman from Georgia.

GENERAL LEAVE

Mr. DEAL of Georgia. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on this legislation and to insert extraneous material on the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. DEAL of Georgia. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of House Resolution 1028, a resolution supporting the goals and ideals of Red Ribbon Week and to commemorate the life and service of DEA Special Agent Enrique "Kiki" Camarena, who died in the line of duty in 1985 while engaged in a battle against illicit drugs.

As my colleagues are aware, Red Ribbon Week, which will take place during the week of October 23 this year, encourages children and teens to choose a drug-free life. The resolution before us today encourages all people of the United States to promote drug-free communities and to participate in drug-free prevention activities in support of healthy, productive, drug-free lifestyles.

We know that ultimately education is the answer to preventing drugs among our children. What Red Ribbon Week does is nationally recognize the importance of keeping our youths off drugs, and I am particularly pleased that we are also commemorating Special Agent Enrique "Kiki" Camarena with this resolution. The agents of the Drug Enforcement Agent serve the public to make our communities a safer place to live and work. Our gratitude to them for doing their part in our communities and to keep them drug free should certainly be recognized.

Mr. Speaker, I think this is a great resolution, and I would like to commend my good friend from Indiana, Mr. SOUDER, for sponsoring this legislation and for his leadership on this issue. I would also like to commend my colleague on the Energy and Commerce Committee, Mr. TERRY from Nebraska, for serving as an original cosponsor of the legislation.

I urge my colleagues to support this important resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. TOWNS. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H. Res. 1028, a resolution that recognizes and supports the concept of Red Ribbon Week.

The Red Ribbon campaign began in 1985 after drug traffickers in Mexico City murdered Kiki Camarena, a United States Drug Enforcement agent.

Red Ribbon Week is sponsored by the National Family Partnership. Each year more than 80 million people show their commitment to a healthy, drug-free life by wearing a red ribbon. During the last 8 days of October, those who wear the red ribbon are saying that we will not tolerate the use or sale of illicit drugs in our Nation.

Substance abuse, and the sale of illegal drugs, is a serious problem in this country. That is why it is so important that as we approach the month of October that we remember Kiki Camarena by wearing a red ribbon. Preventing substance abuse and the associated violence that took Kiki's life is of great concern to me. Let us celebrate the life and work of Kiki Camarena by passing H. Res. 1028.

Mr. Speaker, I reserve the balance of my time.

Mr. DEAL of Georgia. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from Indiana (Mr. SOUDER), who is the sponsor of this resolution.

Mr. SOUDER. Mr. Speaker, I thank the chairman for yielding.

Mr. Speaker, Red Ribbon Week is a national week celebrated at the end of October that honors the sacrifice made by DEA Special Agent Enrique "Kiki" Camarena. It brings together local communities all over America for anti-drug abuse education and other prevention efforts.

I would like to thank all the Members who cosponsored this resolution, as well as Speaker HASTERT, Chairman JOE BARTON of the Energy and Commerce Committee, and Chairman NATHAN. DEAL of the Health Subcommittee, for their assistance in bringing this resolution to the floor this evening. I would also like to thank Congressman ELIJAH CUMMINGS, the ranking Democrat on our Drug Policy Subcommittee; and Congressman LEE TERRY of Nebraska for their consistent efforts in the anti-narcotics arena.

As you have already heard, 21 years ago in March, 1985, Special Agent Enrique Camarena of the DEA was kidnapped, tortured, and murdered by drug dealers in Mexico.

□ 2015

Red Ribbon Week began as a local commemorative effort in Special Agent Camarena's hometown of Calexico, California, when Congressman DUNCAN HUNTER and Camerena's high school friend, Henry Lozano, created Camarena Clubs to preserve the agent's legacy. The National Family Partnership later formalized Red Ribbon Week as a national campaign, an 8-day event proclaimed by the U.S. Congress and chaired by then President and Mrs. Ronald Reagan.

Red Ribbon Week is dedicated to helping preserve Agent Camarena's memory and further the cause for which he gave his life, the fight against violence of drug crime and the misery of addition. By gathering together in special events and wearing a red ribbon during the last week in October, Americans from all walks of life demonstrate their opposition to illegal narcotics. Such events include organizing drug prevention events in schools, distributing educational materials to young people about the dangers of drug abuse, and other activities designed to promote healthy choices. Approximately 80 million people participate in Red Ribbon events every year.

Red Ribbon Week is also a tribute to the men and women of the Drug Enforcement Administration who daily leave their families to stand on the front lines of this Nation's counter drug efforts. Those efforts extend to Afghanistan, where DEA Special Agents operate in an increasingly hazardous environment to aid the fledgling and almost overwhelmingly anti-drug efforts in that country.

It is regrettable that the work of these agents frequently lacks the necessary assistance from the Department of Defense to complete their perilous mission. I call on the Department of Defense to increase its level of support so that the memory and sacrifices made by Kiki Camerena and others continue to have meaning and value. Drugs and terror are inexorably linked, and the fight against them should be a seamless, unified campaign, where Government agency assets complement each other so more agents do not die.

Since 1985, we have made substantial progress in the fight against drug abuse, but even today it remains our number one health problem in America, claiming well over 20,000 lives a year. Each day all over America a new person and new people are tempted and fall to narcotics abuse.

We must never slacken our efforts. We will never completely win drug war, because new people are tempted every day. But we can make progress. And when we stay at it in prevention, in treatment, interdiction, eradication and enforcement, we do, in fact, reduce the level of drug abuse in the United States, as has been the last few years.

Mr. Speaker, once again, I thank the House for joining with me in supporting this resolution recognizing the vital work of drug abuse prevention, recognizing the DEA for their leadership, and encouraging all Americans to participate in Red Ribbon Week.

Mr. TOWNS. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, this red ribbon is saying to people across this country, don't get involved with drugs. Young people, stay in school. That is what it is saying, and stay away from drugs.

So every time you see this red ribbon, especially you young people, understand that it is saying, do not get involved in drugs.

Camerena gave his life trying to make this world a better place for us to live. We should never forget that. So we should wear the red ribbon, saying to people everywhere that we will not tolerate the use of drugs in this country, illegal drugs.

Also, let me just conclude by saying that we have an obligation and a responsibility to keep the work of Camerena alive; and we need to do that by demonstrating everywhere that we go that we have this red ribbon on, and that is what it means. The red ribbon says no to drugs. Stay in school, young people.

Mr. TERRY. Mr. Speaker, I rise in strong support of H. Res. 1028 to support the goals and ideals of Red Ribbon Week.

Red Ribbon Week was established 21 years ago to honor the life of Drug Enforcement Administration Special Agent Enrique "Kiki" Camarena, who died in the line of duty while fighting illicit drugs. More than 100 organizations across the United States, including the Nation's Governors and community organizations such as Boys and Girls Clubs of America, have joined in this effort to promote drug-free communities.

As a Representative of the great State of Nebraska, I recognize the importance of such efforts to prevent abuse of dangerous drugs such as methamphetamine. The war against the rising tide of meth in the Mid-West and on the West Coast—and now even in some parts of the East Coast—can only be effectively fought through partnerships with law enforcement, government, social service agencies, communities, schools, parents and children.

The meth problem affects all aspects of our communities and requires comprehensive solutions at all levels of government and in partnership with private charities and volunteer organizations.

We need effective drug prevention and education programs; greater parental involvement and public awareness; and law enforcement and social services coordination in order to rescue our communities from the ruination and devastation of meth.

The recent survey of 500 county law enforcement officials found that meth abuse is still the number 1 drug problem nationwide. Many States, including Nebraska, have enacted laws to control access to Sudafed and other drugs that act as the basis for "cooking" meth. The number of Mom and Pop meth labs dropped by an astounding 70 percent in Nebraska and other states. However, 85 percent of law enforcement officials report the meth problem is still growing due to drug trafficking from "superlabs" in Mexico.

This Congress can best honor the memory of Agent Camarena by continuing a strong battle in the "new front" of the war against drugs: methamphetamine.

I urge my colleagues to join me today in not only supporting our law enforcement officers who risk their lives each day to keep our communities safe, but to join me and other Members of the Congressional Caucus to Fight and Control Methamphetamine by pledging to stop the scourge of meth across our Nation.

Mr. TOWNS. Mr. Speaker, I yield back the balance of my time.

Mr. DEAL of Georgia. Mr. Speaker, I have no other requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. DEAL) that the House suspend the rules and agree to the resolution, H. Res. 1028.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

DISTRICT OF COLUMBIA'S 2007 BUDGET REQUEST ACT—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 109-136)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Appropriations and ordered to be printed:

To the Congress of the United States:

Pursuant to my constitutional authority and consistent with section 446 of The District of Columbia Self-Governmental Reorganization Act as amended in 1989, I am transmitting the District of Columbia's 2007 Budget Request Act.

The proposed 2007 Budget Request Act reflects the major programmatic objectives of the Mayor and the Council of the District of Columbia. For 2007, the District estimates total revenues and expenditures of $7.61 billion.

GEORGE W. BUSH.

THE WHITE HOUSE, *September 29, 2006*.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 8 o'clock and 20 minutes p.m.), the House stood in recess subject to the call of the Chair.

☐ 2130

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. RYAN of Wisconsin) at 9 o'clock and 30 minutes p.m.

COMMUNICATION FROM THE HON. JOE BACA, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Honorable JOE BACA, Member of Congress:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, September 28, 2006.

Hon. J. DENNIS HASTERT,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to notify you formally, pursuant to Rule VIII of the Rules of the House of Representatives that I have been served with a civil subpoena duces tecum, issued by the Superior Court of Los Angeles, California, which seeks personnel records relating to a former employee.

After consultation with the Office of General Counsel, I have determined that compliance with the subpoena is consistent with the precedents and privileges of the House.

Sincerely,

JOE BACA,
Congressman, 43rd CD.

CONFERENCE REPORT ON H.R. 4954, SAFE PORT ACT

Mr. KING of New York submitted the following conference report and statement on the bill (H.R. 4954) to improve maritime and cargo security through enhanced layered defenses, and for other purposes:

CONFERENCE REPORT (H. REPT. 109-711)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4954), to improve maritime and cargo security through enhanced layered defenses, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Security and Accountability For Every Port Act of 2006" or the "SAFE Port Act".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Definitions.

TITLE I—SECURITY OF UNITED STATES SEAPORTS

Subtitle A—General Provisions

Sec. 101. Area Maritime Transportation Security Plan to include salvage response plan.
Sec. 102. Requirements relating to maritime facility security plans.
Sec. 103. Unannounced inspections of maritime facilities.
Sec. 104. Transportation security card.
Sec. 105. Study to identify redundant background records checks.
Sec. 106. Prohibition of issuance of transportation security cards to persons convicted of certain felonies.
Sec. 107. Long-range vessel tracking.
Sec. 108. Establishment of interagency operational centers for port security.
Sec. 109. Notice of arrival for foreign vessels on the Outer Continental Shelf.
Sec. 110. Enhanced crewmember identification.

Subtitle B—Port Security Grants; Training and Exercise Programs

Sec. 111. Risk assessment tool.
Sec. 112. Port security grants.
Sec. 113. Port Security Training Program.
Sec. 114. Port Security Exercise Program.
Sec. 115. Facility exercise requirements.

Subtitle C—Port Operations

Sec. 121. Domestic radiation detection and imaging.
Sec. 122. Inspection of car ferries entering from abroad.
Sec. 123. Random searches of containers.
Sec. 124. Work stoppages and employee-employer disputes.
Sec. 125. Threat assessment screening of port truck drivers.
Sec. 126. Border Patrol unit for United States Virgin Islands.
Sec. 127. Report on arrival and departure manifests for certain commercial vessels in the United States Virgin Islands.
Sec. 128. Center of Excellence for Maritime Domain Awareness.

TITLE II—SECURITY OF THE INTERNATIONAL SUPPLY CHAIN

Subtitle A—General Provisions

Sec. 201. Strategic plan to enhance the security of the international supply chain.
Sec. 202. Post-incident resumption of trade.
Sec. 203. Automated Targeting System.
Sec. 204. Container security standards and procedures.
Sec. 205. Container Security Initiative.

Subtitle B—Customs-Trade Partnership Against Terrorism

Sec. 211. Establishment.
Sec. 212. Eligible entities.
Sec. 213. Minimum requirements.
Sec. 214. Tier 1 participants in C–TPAT.
Sec. 215. Tier 2 participants in C–TPAT.
Sec. 216. Tier 3 participants in C–TPAT.
Sec. 217. Consequences for lack of compliance.
Sec. 218. Third party validations.
Sec. 219. Revalidation.
Sec. 220. Noncontainerized cargo.
Sec. 221. C–TPAT program management.
Sec. 222. Additional personnel.
Sec. 223. Authorization of appropriations.

Subtitle C—Miscellaneous Provisions

Sec. 231. Pilot integrated scanning system.
Sec. 232. Screening and scanning of cargo containers.
Sec. 233. International cooperation and coordination.
Sec. 234. Foreign port assessments.
Sec. 235. Pilot program to improve the security of empty containers.
Sec. 236. Information sharing relating to supply chain security cooperation.

TITLE III—ADMINISTRATION

Sec. 301. Office of Cargo Security Policy.
Sec. 302. Reauthorization of Homeland Security Science and Technology Advisory Committee.
Sec. 303. Research, development, test, and evaluation efforts in furtherance of maritime and cargo security.

TITLE IV—AGENCY RESOURCES AND OVERSIGHT

Sec. 401. Trade and customs revenue functions of the department.
Sec. 402. Office of international trade; oversight.
Sec. 403. Resources.
Sec. 404. Negotiations.
Sec. 405. International Trade Data System.
Sec. 406. In-bond cargo.
Sec. 407. Sense of the Senate.

TITLE V—DOMESTIC NUCLEAR DETECTION OFFICE

Sec. 501. Establishment of Domestic Nuclear Detection Office.
Sec. 502. Technology research and development investment strategy for nuclear and radiological detection.

TITLE VI—COMMERCIAL MOBILE SERVICE ALERTS

Sec. 601. Short title.
Sec. 602. Federal Communications Commission duties.
Sec. 603. Commercial Mobile Service Alert Advisory Committee.
Sec. 604. Research and development.
Sec. 605. Grant program for remote community alert systems.
Sec. 606. Funding.
Sec. 607. Essential services disaster assistance.
Sec. 608. Community disaster loans.
Sec. 609. Public facilities.
Sec. 610. Expedited payments.
Sec. 611. Use of local contracting.
Sec. 612. FEMA programs.
Sec. 613. Homeland security definition.

TITLE VII—OTHER MATTERS

Sec. 701. Security plan for essential air service and small community airports.
Sec. 702. Disclosures regarding homeland security grants.
Sec. 703. Trucking security.
Sec. 704. Air and Marine Operations of the Northern Border Air Wing.
Sec. 705. Phaseout of vessels supporting oil and gas development.
Sec. 706. Coast Guard property in Portland, Maine.
Sec. 707. Methamphetamine and methamphetamine precursor chemicals.
Sec. 708. Aircraft charter customer and lessee prescreening program.
Sec. 709. Protection of health and safety during disasters.

TITLE VIII—UNLAWFUL INTERNET GAMBLING ENFORCEMENT

Sec. 801. Short title.
Sec. 802. Prohibition on acceptance of any payment instrument for unlawful Internet gambling.
Sec. 803. Internet gambling in or through foreign jurisdictions.

SEC. 2. DEFINITIONS.

In this Act:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—Except as otherwise provided, the term "appropriate congressional committees" means—

(A) the Committee on Appropriations of the Senate;

(B) the Committee on Commerce, Science, and Transportation of the Senate;

(C) the Committee on Finance of the Senate;

(D) the Committee on Homeland Security and Governmental Affairs of the Senate;

(E) the Committee on Appropriations of the House of Representatives;

(F) the Committee on Homeland Security of the House of Representatives;

(G) the Committee on Transportation and Infrastructure of the House of Representatives;

(H) the Committee on Ways and Means of the House of Representatives; and

(I) other congressional committees, as appropriate.

(2) COMMERCIAL OPERATIONS ADVISORY COMMITTEE.—The term "Commercial Operations Advisory Committee" means the Advisory Committee established pursuant to section 9503(c) of the Omnibus Budget Reconciliation Act of 1987 (19 U.S.C. 2071 note) or any successor committee.

(3) COMMERCIAL SEAPORT PERSONNEL.—The term "commercial seaport personnel" includes any person engaged in an activity relating to the loading or unloading of cargo or passengers, the movement or tracking of cargo, the maintenance and repair of intermodal equipment, the operation of cargo-related equipment (whether or not integral to the vessel), and the handling of mooring lines on the dock when a vessel is made fast or let go in the United States.

(4) COMMISSIONER.—The term "Commissioner" means the Commissioner responsible for the United States Customs and Border Protection of the Department of Homeland Security.

(5) CONTAINER.—The term "container" has the meaning given the term in the International Convention for Safe Containers, with annexes, done at Geneva, December 2, 1972 (29 UST 3707).

(6) CONTAINER SECURITY DEVICE.—The term "container security device" means a device, or system, designed, at a minimum, to identify positively a container, to detect and record the unauthorized intrusion of a container, and to secure a container against tampering throughout the supply chain. Such a device, or system, shall have a low false alarm rate as determined by the Secretary.

(7) DEPARTMENT.—The term "Department" means the Department of Homeland Security.

(8) EXAMINATION.—The term "examination" means an inspection of cargo to detect the presence of misdeclared, restricted, or prohibited items that utilizes nonintrusive imaging and detection technology.

(9) INSPECTION.—The term "inspection" means the comprehensive process used by the United States Customs and Border Protection to assess goods entering the United States to appraise them for duty purposes, to detect the presence of restricted or prohibited items, and to ensure compliance with all applicable laws. The process may include screening, conducting an examination, or conducting a search.

(10) INTERNATIONAL SUPPLY CHAIN.—The term "international supply chain" means the end-to-end process for shipping goods to or from the United States beginning at the point of origin (including manufacturer, supplier, or vendor) through a point of distribution to the destination.

(11) RADIATION DETECTION EQUIPMENT.—The term "radiation detection equipment" means any technology that is capable of detecting or identifying nuclear and radiological material or nuclear and radiological explosive devices.

(12) SCAN.—The term "scan" means utilizing nonintrusive imaging equipment, radiation detection equipment, or both, to capture data, including images of a container.

(13) SCREENING.—The term "screening" means a visual or automated review of information about goods, including manifest or entry documentation accompanying a shipment being imported into the United States, to determine the presence of misdeclared, restricted, or prohibited

items and assess the level of threat posed by such cargo.

(14) SEARCH.—The term "search" means an intrusive examination in which a container is opened and its contents are devanned and visually inspected for the presence of misdeclared, restricted, or prohibited items.

(15) SECRETARY.—The term "Secretary" means the Secretary of Homeland Security.

(16) TRANSPORTATION DISRUPTION.—The term "transportation disruption" means any significant delay, interruption, or stoppage in the flow of trade caused by a natural disaster, heightened threat level, an act of terrorism, or any transportation security incident (as defined in section 70101(6) of title 46, United States Code).

(17) TRANSPORTATION SECURITY INCIDENT.—The term "transportation security incident" has the meaning given the term in section 70101(6) of title 46, United States Code.

TITLE I—SECURITY OF UNITED STATES SEAPORTS

Subtitle A—General Provisions

SEC. 101. AREA MARITIME TRANSPORTATION SECURITY PLAN TO INCLUDE SALVAGE RESPONSE PLAN.

Section 70103(b)(2) of title 46, United States Code, is amended—

(1) in subparagraph (E), by striking "and" after the semicolon;

(2) by redesignating subparagraph (F) as subparagraph (G); and

(3) by inserting after subparagraph (E) the following:

"(F) include a salvage response plan—

"(i) to identify salvage equipment capable of restoring operational trade capacity; and

"(ii) to ensure that the waterways are cleared and the flow of commerce through United States ports is reestablished as efficiently and quickly as possible after a maritime transportation security incident; and".

SEC. 102. REQUIREMENTS RELATING TO MARITIME FACILITY SECURITY PLANS.

Section 70103(c) of title 46, United States Code, is amended—

(1) in paragraph (3)—

(A) in subparagraph (C)(ii), by striking "facility" and inserting "facility, including access by persons engaged in the surface transportation of intermodal containers in or out of a port facility";

(B) in subparagraph (F), by striking "and" at the end;

(C) in subparagraph (G), by striking the period at the end and inserting "; and"; and

(D) by adding at the end the following:

"(H) in the case of a security plan for a facility, be resubmitted for approval of each change in the ownership or operator of the facility that may substantially affect the security of the facility."; and

(2) by adding at the end the following:

"(8)(A) The Secretary shall require that the qualified individual having full authority to implement security actions for a facility described in paragraph (2) shall be a citizen of the United States.

"(B) The Secretary may waive the requirement of subparagraph (A) with respect to an individual if the Secretary determines that it is appropriate to do so based on a complete background check of the individual and a review of all terrorist watch lists to ensure that the individual is not identified on any such terrorist watch list.".

SEC. 103. UNANNOUNCED INSPECTIONS OF MARITIME FACILITIES.

Section 70103(c)(4)(D) of title 46, United States Code, is amended to read as follows:

"(D) subject to the availability of appropriations, verify the effectiveness of each such facility security plan periodically, but not less than 2 times per year, at least 1 of which shall be an inspection of the facility that is conducted without notice to the facility.".

SEC. 104. TRANSPORTATION SECURITY CARD.

(a) IN GENERAL.—Section 70105 of title 46, United States Code, is amended by adding at the end the following:

"(g) APPLICATIONS FOR MERCHANT MARINERS' DOCUMENTS.—The Assistant Secretary of Homeland Security for the Transportation Security Administration and the Commandant of the Coast Guard shall concurrently process an application from an individual for merchant mariner's documents under chapter 73 of title 46, United States Code, and an application from that individual for a transportation security card under this section.

"(h) FEES.—The Secretary shall ensure that the fees charged each individual applying for a transportation security card under this section who has passed a background check under section 5103a(d) of title 49, United States Code, and who has a current hazardous materials endorsement in accordance with section 1572 of title 49, Code of Federal Regulations, and each individual with a current merchant mariners' document who has passed a criminal background check under section 7302(d)—

"(1) are for costs associated with the issuance, production, and management of the transportation security card, as determined by the Secretary; and

"(2) do not include costs associated with performing a background check for that individual, except for any incremental costs in the event that the scope of such background checks diverge.

"(i) IMPLEMENTATION SCHEDULE.—In implementing the transportation security card program under this section, the Secretary shall—

"(1) establish a priority for each United States port based on risk, including vulnerabilities assessed under section 70102; and

"(2) implement the program, based upon such risk and other factors as determined by the Secretary, at all facilities regulated under this chapter at—

"(A) the 10 United States ports that the Secretary designates top priority not later than July 1, 2007;

"(B) the 40 United States ports that are next in order of priority to the ports described in subparagraph (A) not later than January 1, 2008; and

"(C) all other United States ports not later than January 1, 2009.

"(j) TRANSPORTATION SECURITY CARD PROCESSING DEADLINE.—Not later than January 1, 2009, the Secretary shall process and issue or deny each application for a transportation security card under this section for individuals with current and valid merchant mariners' documents on the date of the enactment of the SAFE Port Act.

"(k) DEPLOYMENT OF TRANSPORTATION SECURITY CARD READERS.—

"(1) PILOT PROGRAM.—

"(A) IN GENERAL.—The Secretary shall conduct a pilot program to test the business processes, technology, and operational impacts required to deploy transportation security card readers at secure areas of the marine transportation system.

"(B) GEOGRAPHIC LOCATIONS.—The pilot program shall take place at not fewer than 5 distinct geographic locations, to include vessels and facilities in a variety of environmental settings.

"(C) COMMENCEMENT.—The pilot program shall commence not later than 180 days after the date of the enactment of the SAFE Port Act.

"(2) CORRELATION WITH TRANSPORTATION SECURITY CARDS.—

"(A) IN GENERAL.—The pilot program described in paragraph (1) shall be conducted concurrently with the issuance of the transportation security cards described in subsection (b) to ensure card and card reader interoperability.

"(B) FEE.—An individual charged a fee for a transportation security card issued under this section may not be charged an additional fee if the Secretary determines different transportation security cards are needed based on the results of the pilot program described in paragraph (1) or for other reasons related to the technology requirements for the transportation security card program.

"(3) REGULATIONS.—Not later than 2 years after the commencement of the pilot program under paragraph (1)(C), the Secretary, after a notice and comment period that includes at least 1 public hearing, shall promulgate final regulations that require the deployment of transportation security card readers that are consistent with the findings of the pilot program and build upon the regulations prescribed under subsection (a).

"(4) REPORT.—Not later than 120 days before the promulgation of regulations under paragraph (3), the Secretary shall submit a comprehensive report to the appropriate congressional committees (as defined in section 2(1) of SAFE Port Act) that includes—

"(A) the findings of the pilot program with respect to technical and operational impacts of implementing a transportation security card reader system;

"(B) any actions that may be necessary to ensure that all vessels and facilities to which this section applies are able to comply with such regulations; and

"(C) an analysis of the viability of equipment under the extreme weather conditions of the marine environment.

"(l) PROGRESS REPORTS.—Not later than 6 months after the date of the enactment of the SAFE Port Act, and every 6 months thereafter until the requirements under this section are fully implemented, the Secretary shall submit a report on progress being made in implementing such requirements to the appropriate congressional committees (as defined in section 2(1) of the SAFE Port Act).

"(m) LIMITATION.—The Secretary may not require the placement of an electronic reader for transportation security cards on a vessel unless—

"(1) the vessel has more individuals on the crew that are required to have a transportation security card than the number the Secretary determines, by regulation issued under subsection (k)(3), warrants such a reader; or

"(2) the Secretary determines that the vessel is at risk of a severe transportation security incident.".

(b) CLARIFICATION OF ELIGIBILITY FOR TRANSPORTATION SECURITY CARDS.—Section 70105 of title 46, United States Code, is amended—

(1) in subsection (b)(2)—

(A) in subparagraph (E), by striking "and" at the end;

(B) in subparagraph (F), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following:

"(G) other individuals as determined appropriate by the Secretary including individuals employed at a port not otherwise covered by this subsection."; and

(2) in subsection (c)(2), by inserting "subparagraph (A), (B), or (D)" before "paragraph (1)".

(c) DEADLINE FOR SECTION 70105 REGULATIONS.—Not later than January 1, 2007, the Secretary shall promulgate final regulations implementing the requirements for issuing transportation security cards under section 70105 of title 46, United States Code. The regulations shall include a background check process to enable newly hired workers to begin working unless the Secretary makes an initial determination that

the worker poses a security risk. Such process shall include a check against the consolidated and integrated terrorist watch list maintained by the Federal Government.

SEC. 105. STUDY TO IDENTIFY REDUNDANT BACKGROUND RECORDS CHECKS.

(a) Study.—The Comptroller General of the United States shall conduct a study of background records checks carried out for the Department that are similar to the background records check required under section 5103a of title 49, United States Code, to identify redundancies and inefficiencies in connection with such checks.

(b) Report.—Not later than 6 months after the date of the enactment of this Act, the Comptroller General of the United States shall submit a report to Congress on the results of the study, including—

(1) an identification of redundancies and inefficiencies referred to in subsection (a); and

(2) recommendations for eliminating such redundancies and inefficiencies.

SEC. 106. PROHIBITION OF ISSUANCE OF TRANSPORTATION SECURITY CARDS TO PERSONS CONVICTED OF CERTAIN FELONIES.

The Secretary, in issuing a final rule pursuant to section 70105 of title 46, United States Code, shall provide for the disqualification of individuals who have been found guilty or have been found not guilty by reason of insanity of a felony, involving—

(1) treason, or conspiracy to commit treason;

(2) espionage, or conspiracy to commit espionage;

(3) sedition, or conspiracy to commit sedition; or

(4) a crime listed in chapter 113B of title 18, United States Code, a comparable State law, or conspiracy to commit such crime.

SEC. 107. LONG-RANGE VESSEL TRACKING.

(a) Regulations.—Section 70115 of title 46, United States Code, is amended in the first sentence by striking "The Secretary" and inserting "Not later than April 1, 2007, the Secretary".

(b) Voluntary Program.—The Secretary may issue regulations to establish a voluntary long-range automated vessel tracking system for vessels described in section 70115 of title 46, United States Code, during the period before regulations are issued under such section.

SEC. 108. ESTABLISHMENT OF INTERAGENCY OPERATIONAL CENTERS FOR PORT SECURITY.

(a) In General.—Chapter 701 of title 46, United States Code, is amended by inserting after section 70107 the following:

"§ 70107A. Interagency operational centers for port security

"(a) In General.—The Secretary shall establish interagency operational centers for port security at all high-priority ports not later than 3 years after the date of the enactment of the SAFE Port Act.

"(b) Characteristics.—The interagency operational centers established under this section shall—

"(1) utilize, as appropriate, the compositional and operational characteristics of existing centers, including—

"(A) the pilot project interagency operational centers for port security in Miami, Florida; Norfolk/Hampton Roads, Virginia; Charleston, South Carolina; and San Diego, California; and

"(B) the virtual operation center of the Port of New York and New Jersey;

"(2) be organized to fit the security needs, requirements, and resources of the individual port area at which each is operating;

"(3) in addition to the Coast Guard, provide, as the Secretary determines appropriate, for participation by representatives of the United States Customs and Border Protection, the United States Immigration and Customs Enforcement, the Transportation Security Administration, the Department of Justice, the Department of Defense, and other Federal agencies, State and local law enforcement or port security personnel, members of the Area Maritime Security Committee, and other public and private sector stakeholders adversely affected by a transportation security incident or transportation disruption; and

"(4) be incorporated in the implementation and administration of—

"(A) maritime transportation security plans developed under section 70103;

"(B) maritime intelligence activities under section 70113 and information sharing activities consistent with section 1016 of the National Security Intelligence Reform Act of 2004 (6 U.S.C. 485) and the Homeland Security Information Sharing Act (6 U.S.C. 481 et seq.);

"(C) short- and long-range vessel tracking under sections 70114 and 70115;

"(D) protocols under section 201(b)(10) of the SAFE Port Act;

"(E) the transportation security incident response plans required by section 70104; and

"(F) other activities, as determined by the Secretary.

"(c) Security Clearances.—The Secretary shall sponsor and expedite individuals participating in interagency operational centers in gaining or maintaining their security clearances. Through the Captain of the Port, the Secretary may identify key individuals who should participate. The port or other entities may appeal to the Captain of the Port for sponsorship.

"(d) Security Incidents.—During a transportation security incident on or adjacent to waters subject to the jurisdiction of the United States, the Coast Guard Captain of the Port designated by the Commandant of the Coast Guard in a maritime security command center described in subsection (a) shall act as the incident commander, unless otherwise directed by the President.

"(e) Rule of Construction.—Nothing in this section shall be construed to affect the normal command and control procedures for operational entities in the Department, unless so directed by the Secretary.

"(f) Authorization of Appropriations.—There are authorized to be appropriated $60,000,000 for each of the fiscal years 2007 through 2012 to carry out this section.".

(b) Report Requirement.—Nothing in this section or the amendments made by this section relieves the Commandant of the Coast Guard from complying with the requirements of section 807 of the Coast Guard and Maritime Transportation Act of 2004 (Public Law 108–293; 118 Stat. 1082). The Commandant shall utilize the information developed in making the report required by that section in carrying out the requirements of this section.

(c) Budget and Cost-Sharing Analysis.—Not later than 180 days after the date of the enactment of this Act, the Secretary of the department in which the Coast Guard is operating shall submit to the appropriate congressional committees a proposed budget analysis for implementing section 70107A of title 46, United States Code, as added by subsection (a), including cost-sharing arrangements with other Federal departments and agencies involved in the interagency operation of the centers to be established under such section.

(d) Clerical Amendment.—The chapter analysis for chapter 701 of title 46, United States Code, is amended by inserting after the item relating to section 70107 the following:

"70107A. Interagency operational centers for port security".

SEC. 109. NOTICE OF ARRIVAL FOR FOREIGN VESSELS ON THE OUTER CONTINENTAL SHELF.

(a) Notice of Arrival.—Not later than 180 days after the date of the enactment of this Act, the Secretary of the department in which the Coast Guard is operating shall update and finalize the rulemaking on notice of arrival for foreign vessels on the Outer Continental Shelf.

(b) Content of Regulations.—The regulations promulgated pursuant to subsection (a) shall be consistent with information required under the Notice of Arrival under section 160.206 of title 33, Code of Federal Regulations, as in effect on the date of the enactment of this Act.

SEC. 110. ENHANCED CREWMEMBER IDENTIFICATION.

Section 70111 of title 46, United States Code, is amended—

(1) in subsection (a) by striking "The" and inserting "Not later than 1 year after the date of enactment of the SAFE Port Act, the"; and

(2) in subsection (b) by striking "The" and inserting "Not later than 1 year after the date of enactment of the SAFE Port Act, the".

Subtitle B—Port Security Grants; Training and Exercise Programs

SEC. 111. RISK ASSESSMENT TOOL.

In updating Area Maritime Security Plans required under section 70103(b)(2)(F) of title 46, United States Code, and in applying for grants under section 70107 of such title, the Secretary of the Department in which the Coast Guard is operating shall make available, and Area Maritime Security Committees may use a risk assessment tool that uses standardized risk criteria, such as the Maritime Security Risk Assessment Tool used by the Coast Guard.

SEC. 112. PORT SECURITY GRANTS.

(a) Basis for Grants.—Section 70107(a) of title 46, United States Code, is amended by striking "for making a fair and equitable allocation of funds" and inserting "for the allocation of funds based on risk".

(b) Eligible Uses.—Section 70107(b) of title 46, United States Code, is amended—

(1) in paragraph (2), by inserting after "crewmembers." the following: "Grants awarded under this section may not be used to construct buildings or other physical facilities, except those which are constructed under terms and conditions consistent with the requirements under section 611(j)(8) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121(j)(8)), including those facilities in support of this paragraph, and specifically approved by the Secretary. Costs eligible for funding under this paragraph may not exceed the greater of—

"(A) $1,000,000 per project; or

"(B) such greater amount as may be approved by the Secretary, which may not exceed 10 percent of the total amount of the grant."; and

(2) by adding at the end the following:

"(5) The cost of conducting exercises or training for prevention and detection of, preparedness for, response to, or recovery from terrorist attacks.

"(6) The cost of establishing or enhancing mechanisms for sharing terrorism threat information and ensuring that the mechanisms are interoperable with Federal, State, and local agencies.

"(7) The cost of equipment (including software) required to receive, transmit, handle, and store classified information.".

(c) Multiple-Year Projects, etc.—Section 70107 of title 46, United States Code, is amended—

(1) by redesignating subsections (e), (f), (g), (h), and (i) as subsections (i), (j), (k), (l), and (m), respectively, and by inserting after subsection (d) the following:

"(e) Multiple-Year Projects.—

"(1) LETTERS OF INTENT.—The Secretary may execute letters of intent to commit funding to such authorities, operators, and agencies.

"(2) LIMITATION.—Not more than 20 percent of the grant funds awarded under this subsection in any fiscal year may be awarded for projects that span multiple years.

"(f) CONSISTENCY WITH PLANS.—The Secretary shall ensure that each grant awarded under subsection (e)—

"(1) is used to supplement and support, in a consistent and coordinated manner, the applicable Area Maritime Transportation Security Plan; and

"(2) is coordinated with any applicable State or Urban Area Homeland Security Plan.

"(g) APPLICATIONS.—Any entity subject to an Area Maritime Transportation Security Plan may submit an application for a grant under this section, at such time, in such form, and containing such information and assurances as the Secretary may require.

"(h) REPORTS.—Not later than 180 days after the date of the enactment of the SAFE Port Act, the Secretary, acting through the Commandant of the Coast Guard, shall submit a report to Congress, in a secure format, describing the methodology used to allocate port security grant funds on the basis of risk."; and

(2) in subsection (i)(1), as redesignated, by striking "program" and inserting "Secretary".

(d) AUTHORIZATION OF APPROPRIATIONS.—Section 70107(l) of title 46, United States Code, as redesignated, is amended to read as follows:

"(l) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $400,000,000 for each of the fiscal years 2007 through 2011 to carry out this section.".

(e) BASIS FOR GRANTS.—Section 70107(a) of title 46, United States Code, is amended by striking "national economic and strategic defense concerns" and inserting "national economic, energy, and strategic defense concerns based upon the most current risk assessments available".

SEC. 113. PORT SECURITY TRAINING PROGRAM.

(a) IN GENERAL.—The Secretary, acting through the Under Secretary for Preparedness and in coordination with the Commandant of the Coast Guard, shall establish a Port Security Training Program (referred to in this section as the "Training Program") for the purpose of enhancing the capabilities of each facility required to submit a plan under section 70103(c) of title 46, United States Code, to prevent, prepare for, respond to, mitigate against, and recover from threatened or actual acts of terrorism, natural disasters, and other emergencies.

(b) REQUIREMENTS.—The Training Program shall provide validated training that—

(1) reaches multiple disciplines, including Federal, State, and local government officials, commercial seaport personnel and management, and governmental and nongovernmental emergency response praviders;

(2) provides training at the awareness, performance, and management and planning levels;

(3) utilizes multiple training mediums and methods;

(4) addresses port security topics, including—

(A) facility security plans and procedures, including how security plans and procedures are adjusted when threat levels increase;

(B) facility security force operations and management;

(C) physical security and access control at facilities;

(D) methods of security for preventing and countering cargo theft;

(E) container security;

(F) recognition and detection of weapons, dangerous substances, and devices;

(G) operation and maintenance of security equipment and systems;

(H) security threats and patterns;

(I) security incident procedures, including procedures for communicating with governmental and nongovernmental emergency response providers; and

(J) evacuation procedures;

(5) is consistent with, and supports implementation of, the National Incident Management System, the National Response Plan, the National Infrastructure Protection Plan, the National Preparedness Guidance, the National Preparedness Goal, the National Maritime Transportation Security Plan, and other such national initiatives;

(6) is evaluated against clear and consistent performance measures;

(7) addresses security requirements under facility security plans; and

(8) educates, trains, and involves individuals in neighborhoods around facilities required to submit a plan under section 70103(c) of title 46, United States Code, on how to observe and report security risks.

(c) VESSEL AND FACILITY SECURITY PLANS.—Section 70103(c)(3) of title 46, United States Code, is amended—

(1) by redesignating subparagraphs (F), (G), and (H) (as added by section 102(1)(D)) as subparagraphs (G), (H), and (I), respectively; and

(2) by inserting after subparagraph (E) the following:

"(F) provide a strategy and timeline for conducting training and periodic unannounced drills;".

(d) CONSULTATION.—The Secretary shall ensure that, in carrying out the Program, the Office of Grants and Training shall consult with commercial seaport personnel and management.

(e) TRAINING PARTNERS.—In developing and delivering training under the Training Program, the Secretary, in coordination with the Maritime Administration of the Department of Transportation, and consistent with section 109 of the Maritime Transportation Security Act of 2002 (46 U.S.C. 70101 note), shall—

(1) work with government training facilities, academic institutions, private organizations, employee organizations, and other entities that provide specialized, state-of-the-art training for governmental and nongovernmental emergency responder providers or commercial seaport personnel and management; and

(2) utilize, as appropriate, government training facilities, courses provided by community colleges, public safety academies, State and private universities, and other facilities.

SEC. 114. PORT SECURITY EXERCISE PROGRAM.

(a) IN GENERAL.—The Secretary, acting through the Under Secretary for Preparedness and in coordination with the Commandant of the Coast Guard, shall establish a Port Security Exercise Program (referred to in this section as the "Exercise Program") for the purpose of testing and evaluating the capabilities of Federal, State, local, and foreign governments, commercial seaport personnel and management, governmental and nongovernmental emergency response providers, the private sector, or any other organization or entity, as the Secretary determines to be appropriate, to prevent, prepare for, mitigate against, respond to, and recover from acts of terrorism, natural disasters, and other emergencies at facilities required to submit a plan under section 70103(c) of title 46, United States Code.

(b) REQUIREMENTS.—The Secretary shall ensure that the Exercise Program—

(1) conducts, on a periodic basis, port security exercises at such facilities that are—

(A) scaled and tailored to the needs of each facility;

(B) live, in the case of the most at-risk facilities;

(C) as realistic as practicable and based on current risk assessments, including credible threats, vulnerabilities, and consequences;

(D) consistent with the National Incident Management System, the National Response Plan, the National Infrastructure Protection Plan, the National Preparedness Guidance, the National Preparedness Goal, the National Maritime Transportation Security Plan, and other such national initiatives;

(E) evaluated against clear and consistent performance measures;

(F) assessed to learn best practices, which shall be shared with appropriate Federal, State, and local officials, commercial seaport personnel and management, governmental and nongovernmental emergency response providers, and the private sector; and

(G) followed by remedial action in response to lessons learned; and

(2) assists State and local governments and facilities in designing, implementing, and evaluating exercises that—

(A) conform to the requirements of paragraph (1); and

(B) are consistent with any applicable Area Maritime Transportation Security Plan and State or Urban Area Homeland Security Plan.

(c) IMPROVEMENT PLAN.—The Secretary shall establish a port security exercise improvement plan process to—

(1) identify and analyze each port security exercise for lessons learned and best practices;

(2) disseminate lessons learned and best practices to participants in the Exercise Program;

(3) monitor the implementation of lessons learned and best practices by participants in the Exercise Program; and

(4) conduct remedial action tracking and long-term trend analysis.

SEC. 115. FACILITY EXERCISE REQUIREMENTS.

The Secretary of the Department in which the Coast Guard is operating shall require each high risk facility to conduct live or full-scale exercises described in section 105.220(c) of title 33, Code of Federal Regulations, not less frequently than once every 2 years, in accordance with the facility security plan required under section 70103(c) of title 46, United States Code.

Subtitle C—Port Operations

SEC. 121. DOMESTIC RADIATION DETECTION AND IMAGING.

(a) SCANNING CONTAINERS.—Subject to section 1318 of title 19, United States Code, not later than December 31, 2007, all containers entering the United States through the 22 ports through which the greatest volume of containers enter the United States by vessel shall be scanned for radiation. To the extent practicable, the Secretary shall deploy next generation radiation detection technology.

(b) STRATEGY.—The Secretary shall develop a strategy for the deployment of radiation detection capabilities that includes—

(1) a risk-based prioritization of ports of entry at which radiation detection equipment will be deployed;

(2) a proposed timeline of when radiation detection equipment will be deployed at each port of entry identified under paragraph (1);

(3) the type of equipment to be used at each port of entry identified under paragraph (1), including the joint deployment and utilization of radiation detection equipment and nonintrusive imaging equipment;

(4) standard operating procedures for examining containers with such equipment, including sensor alarming, networking, and communications and response protocols;

(5) operator training plans;

(6) an evaluation of the environmental health and safety impacts of nonintrusive imaging technology and a radiation risk reduction plan, in consultation with the Nuclear Regulatory Commission, the Occupational Safety and Health Administration, and the National Institute for Occupational Safety and Health, that

seeks to minimize radiation exposure of workers and the public to levels as low as reasonably achievable;

(7) the policy of the Department for using nonintrusive imaging equipment in tandem with radiation detection equipment; and

(8) a classified annex that—

(A) details plans for covert testing; and

(B) outlines the risk-based prioritization of ports of entry identified under paragraph (1).

(c) REPORT.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall submit the strategy developed under subsection (b) to the appropriate congressional committees.

(d) UPDATE.—Not later than 180 days after the date of the submission of the report under subsection (c), the Secretary shall provide a more complete evaluation under subsection (b)(6).

(e) OTHER WEAPONS OF MASS DESTRUCTION THREATS.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report on the feasibility of, and a strategy for, the development of equipment to detect and prevent shielded nuclear and radiological threat material and chemical, biological, and other weapons of mass destruction from entering the United States.

(f) STANDARDS.—The Secretary, acting through the Director for Domestic Nuclear Detection and in collaboration with the National Institute of Standards and Technology, shall publish technical capability standards and recommended standard operating procedures for the use of nonintrusive imaging and radiation detection equipment in the United States. Such standards and procedures—

(1) should take into account relevant standards and procedures utilized by other Federal departments or agencies as well as those developed by international bodies; and

(2) shall not be designed so as to endorse specific companies or create sovereignty conflicts with participating countries.

(g) IMPLEMENTATION.—Not later than 3 years after the date of the enactment of this Act, the Secretary shall fully implement the strategy developed under subsection (b).

(h) EXPANSION TO OTHER UNITED STATES PORTS OF ENTRY.—

(1) IN GENERAL.—As soon as practicable after—

(A) implementation of the program for the examination of containers for radiation at ports of entry described in subsection (a); and

(B) submission of the strategy developed under subsection (b) (and updating, if any, of that strategy under subsection (c)),

but not later than December 31, 2008, the Secretary shall expand the strategy developed under subsection (b), in a manner consistent with the requirements of subsection (b), to provide for the deployment of radiation detection capabilities at all other United States ports of entry not covered by the strategy developed under subsection (b).

(2) RISK ASSESSMENT.—In expanding the strategy under paragraph (1), the Secretary shall identify and assess the risks to those other ports of entry in order to determine what equipment and practices will best mitigate the risks.

(i) INTERMODAL RAIL RADIATION DETECTION TEST CENTER.—

(1) ESTABLISHMENT.—In accordance with subsection (b), and in order to comply with this section, the Secretary shall establish an Intermodal Rail Radiation Detection Test Center (referred to in this subsection as the "Test Center").

(2) PROJECTS.—The Secretary shall conduct multiple, concurrent projects at the Test Center to rapidly identify and test concepts specific to the challenges posed by on-dock rail.

(3) LOCATION.—The Test Center shall be located within a public port facility at which a majority of the containerized cargo is directly laden from (or unladen to) on-dock, intermodal rail.

SEC. 122. INSPECTION OF CAR FERRIES ENTERING FROM ABROAD.

Not later than 120 days after the date of the enactment of this Act, the Secretary, acting through the Commissioner, and in coordination with the Secretary of State and in cooperation with ferry operators and appropriate foreign government officials, shall seek to develop a plan for the inspection of passengers and vehicles before such passengers board, or such vehicles are loaded onto, a ferry bound for a United States facility required to submit a plan under section 70103(c) of title 46, United States Code.

SEC. 123. RANDOM SEARCHES OF CONTAINERS.

Not later than 1 year after the date of the enactment of this Act, the Secretary, acting through the Commissioner, shall develop and implement a plan, utilizing best practices for empirical scientific research design and random sampling, to conduct random searches of containers in addition to any targeted or preshipment inspection of such containers required by law or regulation or conducted under any other program conducted by the Secretary. Nothing in this section shall be construed to mean that implementation of the random sampling plan precludes additional searches of containers not inspected pursuant to the plan.

SEC. 124. WORK STOPPAGES AND EMPLOYEE-EMPLOYER DISPUTES.

Section 70101(6) of title 46, United States Code, is amended by adding at the end the following: "In this paragraph, the term 'economic disruption' does not include a work stoppage or other employee-related action not related to terrorism and resulting from an employee-employer dispute.".

SEC. 125. THREAT ASSESSMENT SCREENING OF PORT TRUCK DRIVERS.

Not later than 90 days after the date of the enactment of this Act, the Secretary shall implement a threat assessment screening, including name-based checks against terrorist watch lists and immigration status check, for all port truck drivers with access to secure areas of a port who have a commercial driver's license but do not have a current and valid hazardous materials endorsement issued in accordance with section 1572 of title 49, Code of Federal Regulations, that is the same as the threat assessment screening required for facility employees and longshoremen by the Commandant of the Coast Guard under Coast Guard Notice USCG–2006–24189 (Federal Register, Vol. 71, No. 82, Friday, April 28, 2006).

SEC. 126. BORDER PATROL UNIT FOR UNITED STATES VIRGIN ISLANDS.

(a) IN GENERAL.—The Secretary may establish at least 1 Border Patrol unit for the United States Virgin Islands.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit a report to the appropriate congressional committees that includes the schedule, if any, for carrying out subsection (a).

SEC. 127. REPORT ON ARRIVAL AND DEPARTURE MANIFESTS FOR CERTAIN COMMERCIAL VESSELS IN THE UNITED STATES VIRGIN ISLANDS.

Not later than 90 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report on the impact of implementing the requirements of section 231 of the Immigration and Nationality Act (8 U.S.C. 1221) (relating to providing United States border officers with arrival and departure manifests) with respect to commercial vessels that are fewer than 300 gross tons and operate exclusively between the territorial waters of the United States Virgin Islands and the territorial waters of the British Virgin Islands.

SEC. 128. CENTER OF EXCELLENCE FOR MARITIME DOMAIN AWARENESS.

(a) ESTABLISHMENT.—The Secretary shall establish a university-based Center for Excellence for Maritime Domain Awareness following the merit-review processes and procedures that have been established by the Secretary for selecting university program centers of excellence.

(b) DUTIES.—The Center established under subsection (a) shall—

(1) prioritize its activities based on the "National Plan to Improve Maritime Domain Awareness" published by the Department in October 2005;

(2) recognize the extensive previous and ongoing work and existing competence in the field of maritime domain awareness at numerous academic and research institutions, such as the Naval Postgraduate School;

(3) leverage existing knowledge and continue development of a broad base of expertise within academia and industry in maritime domain awareness; and

(4) provide educational, technical, and analytical assistance to Federal agencies with responsibilities for maritime domain awareness, including the Coast Guard, to focus on the need for interoperability, information sharing, and common information technology standards and architecture.

TITLE II—SECURITY OF THE INTERNATIONAL SUPPLY CHAIN

Subtitle A—General Provisions

SEC. 201. STRATEGIC PLAN TO ENHANCE THE SECURITY OF THE INTERNATIONAL SUPPLY CHAIN.

(a) STRATEGIC PLAN.—The Secretary, in consultation with appropriate Federal, State, local, and tribal government agencies and private sector stakeholders responsible for security matters that affect or relate to the movement of containers through the international supply chain, shall develop, implement, and update, as appropriate, a strategic plan to enhance the security of the international supply chain.

(b) REQUIREMENTS.—The strategic plan required under subsection (a) shall—

(1) describe the roles, responsibilities, and authorities of Federal, State, local, and tribal government agencies and private-sector stakeholders that relate to the security of the movement of containers through the international supply chain;

(2) identify and address gaps and unnecessary overlaps in the roles, responsibilities, or authorities described in paragraph (1);

(3) identify and make recommendations regarding legislative, regulatory, and organizational changes necessary to improve coordination among the entities or to enhance the security of the international supply chain;

(4) provide measurable goals, including objectives, mechanisms, and a schedule, for furthering the security of commercial operations from point of origin to point of destination;

(5) build on available resources and consider costs and benefits;

(6) provide incentives for additional voluntary measures to enhance cargo security, as recommended by the Commissioner;

(7) consider the impact of supply chain security requirements on small- and medium-sized companies;

(8) include a process for sharing intelligence and information with private-sector stakeholders to assist in their security efforts;

(9) identify a framework for prudent and measured response in the event of a transportation security incident involving the international supply chain;

(10) provide protocols for the expeditious resumption of the flow of trade in accordance with section 202;

(11) consider the linkages between supply chain security and security programs within

other systems of movement, including travel security and terrorism finance programs; and

(12) expand upon and relate to existing strategies and plans, including the National Response Plan, the National Maritime Transportation Security Plan, the National Strategy for Maritime Security, and the 8 supporting plans of the Strategy, as required by Homeland Security Presidential Directive 13.

(c) CONSULTATION.—In developing protocols under subsection (b)(10), the Secretary shall consult with Federal, State, local, and private sector stakeholders, including the National Maritime Security Advisory Committee and the Commercial Operations Advisory Committee.

(d) COMMUNICATION.—To the extent practicable, the strategic plan developed under subsection (a) shall provide for coordination with, and lines of communication among, appropriate Federal, State, local, and private-sector stakeholders on law enforcement actions, intermodal rerouting plans, and other strategic infrastructure issues resulting from a transportation security incident or transportation disruption.

(e) UTILIZATION OF ADVISORY COMMITTEES.—As part of the consultations described in subsection (a), the Secretary shall, to the extent practicable, utilize the Homeland Security Advisory Committee, the National Maritime Security Advisory Committee, and the Commercial Operations Advisory Committee to review, as necessary, the draft strategic plan and any subsequent updates to the strategic plan.

(f) INTERNATIONAL STANDARDS AND PRACTICES.—In furtherance of the strategic plan required under subsection (a), the Secretary is encouraged to consider proposed or established standards and practices of foreign governments and international organizations, including the International Maritime Organization, the World Customs Organization, the International Labor Organization, and the International Organization for Standardization, as appropriate, to establish standards and best practices for the security of containers moving through the international supply chain.

(g) REPORT.—

(1) INITIAL REPORT.—Not later than 270 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report that contains the strategic plan required by subsection (a).

(2) FINAL REPORT.—Not later than 3 years after the date on which the strategic plan is submitted under paragraph (1), the Secretary shall submit a report to the appropriate congressional committees that contains an update of the strategic plan.

SEC. 202. POST-INCIDENT RESUMPTION OF TRADE.

(a) IN GENERAL.—The Secretary shall develop and update, as necessary, protocols for the resumption of trade in accordance with section 201(b)(10) in the event of a transportation disruption or a transportation security incident. The protocols shall include—

(1) the identification of the appropriate initial incident commander, if the Commandant of the Coast Guard is not the appropriate person, and lead departments, agencies, or offices to execute such protocols;

(2) a plan to redeploy resources and personnel, as necessary, to reestablish the flow of trade;

(3) a plan to provide training for the periodic instruction of personnel of the United States Customs and Border Protection, the Coast Guard, and the Transportation Security Administration in trade resumption functions and responsibilities; and

(4) appropriate factors for establishing prioritization of vessels and cargo determined by the President to be critical for response and recovery, including factors relating to public health, national security, and economic need.

(b) VESSELS.—In determining the prioritization of vessels accessing facilities (as defined under section 70101 of title 46, United States Code), the Commandant of the Coast Guard may, to the extent practicable and consistent with the protocols and plans required under this section to ensure the safe and secure transit of vessels to ports in the United States after a transportation security incident, give priority to a vessel—

(1) that has an approved security plan under section 70103(c) of title 46, United States Code, or a valid international ship security certificate, as provided under part 104 of title 33, Code of Federal Regulations;

(2) that is manned by individuals who are described in section 70105(b)(2)(B) of title 46, United States Code; and

(3) that is operated by validated participants in the Customs-Trade Partnership Against Terrorism program.

(c) CARGO.—In determining the prioritization of the resumption of the flow of cargo and consistent with the protocols established under this section, the Commissioner may give preference to cargo—

(1) entering a port of entry directly from a foreign seaport designated under the Container Security Initiative;

(2) from the supply chain of a validated C-TPAT participant and other private sector entities, as appropriate; or

(3) that has undergone—

(A) a nuclear or radiological detection scan;

(B) an x-ray, density, or other imaging scan; and

(C) a system to positively identify the container at the last port of departure prior to arrival in the United States, which data has been evaluated and analyzed by personnel of the United States Customs and Border Protection.

(d) COORDINATION.—The Secretary shall ensure that there is appropriate coordination among the Commandant of the Coast Guard, the Commissioner, and other Federal officials following a maritime disruption or maritime transportation security incident in order to provide for the resumption of trade.

(e) COMMUNICATION.—Consistent with section 201, the Commandant of the Coast Guard, Commissioner, and other appropriate Federal officials, shall promptly communicate any revised procedures or instructions intended for the private sector following a maritime disruption or maritime transportation security incident.

SEC. 203. AUTOMATED TARGETING SYSTEM.

(a) IN GENERAL.—The Secretary, acting through the Commissioner, shall—

(1) identify and seek the submission of data related to the movement of a shipment of cargo through the international supply chain; and

(2) analyze the data described in paragraph (1) to identify high-risk cargo for inspection.

(b) REQUIREMENT.—The Secretary, acting through the Commissioner, shall require the electronic transmission to the Department of additional data elements for improved high-risk targeting, including appropriate security elements of entry data, as determined by the Secretary, to be provided as advanced information with respect to cargo destined for importation into the United States prior to loading of such cargo on vessels at foreign seaports.

(c) CONSIDERATION.—The Secretary, acting through the Commissioner, shall—

(1) consider the cost, benefit, and feasibility of—

(A) requiring additional nonmanifest documentation;

(B) reducing the time period allowed by law for revisions to a container cargo manifest;

(C) reducing the time period allowed by law for submission of certain elements of entry data, for vessel or cargo; and

(D) such other actions the Secretary considers beneficial for improving the information relied upon for the Automated Targeting System and any successor targeting system in furthering the security and integrity of the international supply chain; and

(2) consult with stakeholders, including the Commercial Operations Advisory Committee, and identify to them the need for such information, and the appropriate timing of its submission.

(d) REGULATIONS.—The Secretary shall promulgate regulations to carry out this section. In promulgating such regulations, the Secretary shall adhere to the parameters applicable to the development of regulations under section 343(a) of the Trade Act of 2002 (19 U.S.C. 2071 note), including provisions relating to consultation, technology, analysis, use of information, confidentiality, and timing requirements.

(e) SYSTEM IMPROVEMENTS.—The Secretary, acting through the Commissioner, shall—

(1) conduct, through an independent panel, a review of the effectiveness and capabilities of the Automated Targeting System;

(2) consider future iterations of the Automated Targeting System, which would incorporate smart features, such as more complex algorithms and real-time intelligence, instead of relying solely on rule sets that are periodically updated;

(3) ensure that the Automated Targeting System has the capability to electronically compare manifest and other available data for cargo entered into or bound for the United States to detect any significant anomalies between such data and facilitate the resolution of such anomalies;

(4) ensure that the Automated Targeting System has the capability to electronically identify, compile, and compare select data elements for cargo entered into or bound for the United States following a maritime transportation security incident, in order to efficiently identify cargo for increased inspection or expeditious release; and

(5) develop a schedule to address the recommendations of the Comptroller General of the United States, the Inspector General of the Department of the Treasury, and the Inspector General of the Department with respect to the operation of the Automated Targeting System.

(f) SECURE TRANSMISSION OF CERTAIN INFORMATION.—All information required by the Department from supply chain partners shall be transmitted in a secure fashion, as determined by the Secretary, so as to protect the information from unauthorized access.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the United States Customs and Border Protection to carry out the Automated Targeting System for identifying high-risk oceanborne container cargo for inspection—

(1) $33,200,000 for fiscal year 2008;

(2) $35,700,000 for fiscal year 2009; and

(3) $37,485,000 for fiscal year 2010.

SEC. 204. CONTAINER SECURITY STANDARDS AND PROCEDURES.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall initiate a rulemaking proceeding to establish minimum standards and procedures for securing containers in transit to the United States.

(2) INTERIM RULE.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall issue an interim final rule pursuant to the proceeding described in paragraph (1).

(3) MISSED DEADLINE.—If the Secretary is unable to meet the deadline established pursuant to paragraph (2), the Secretary shall submit a letter to the appropriate congressional committees explaining why the Secretary is unable to

meet that deadline and describing what must be done before such minimum standards and procedures can be established.

(4) DEADLINE FOR ENFORCEMENT.—Not later than 2 years after the date on which the standards and procedures are established pursuant to paragraph (1), all containers bound for ports of entry in the United States shall meet such standards and procedures.

(b) REVIEW AND ENHANCEMENT.—The Secretary shall regularly review and enhance the standards and procedures established pursuant to subsection (a), as appropriate, based on tests of technologies as they become commercially available to detect container intrusion and the highest consequence threats, particularly weapons of mass destruction.

(c) INTERNATIONAL CARGO SECURITY STANDARDS.—The Secretary, in consultation with the Secretary of State, the Secretary of Energy, and other Federal Government officials, as appropriate, and with the Commercial Operations Advisory Committee, the Homeland Security Advisory Committee, and the National Maritime Security Advisory Committee, is encouraged to promote and establish international standards for the security of containers moving through the international supply chain with foreign governments and international organizations, including the International Maritime Organization, the International Organization for Standardization, the International Labor Organization, and the World Customs Organization.

(d) INTERNATIONAL TRADE AND OTHER OBLIGATIONS.—In carrying out this section, the Secretary shall consult with appropriate Federal departments and agencies and private sector stakeholders and ensure that actions under this section do not violate international trade obligations or other international obligations of the United States.

SEC. 205. CONTAINER SECURITY INITIATIVE.

(a) ESTABLISHMENT.—The Secretary, acting through the Commissioner, shall establish and implement a program (referred to in this section as the "Container Security Initiative" or "CSI") to identify and examine or search maritime containers that pose a security risk before loading such containers in a foreign port for shipment to the United States, either directly or through a foreign port.

(b) ASSESSMENT.—The Secretary, acting through the Commissioner, may designate foreign seaports to participate in the Container Security Initiative after the Secretary has assessed the costs, benefits, and other factors associated with such designation, including—

(1) the level of risk for the potential compromise of containers by terrorists, or other threats as determined by the Secretary;

(2) the volume of cargo being imported to the United States directly from, or being transshipped through, the foreign seaport;

(3) the results of the Coast Guard assessments conducted pursuant to section 70108 of title 46, United States Code;

(4) the commitment of the government of the country in which the foreign seaport is located to cooperating with the Department in sharing critical data and risk management information and to maintain programs to ensure employee integrity; and

(5) the potential for validation of security practices at the foreign seaport by the Department.

(c) NOTIFICATION.—The Secretary shall notify the appropriate congressional committees of the designation of a foreign port under the Container Security Initiative or the revocation of such a designation before notifying the public of such designation or revocation.

(d) NEGOTIATIONS.—The Secretary, in cooperation with the Secretary of State and in consultation with the United States Trade Representative, may enter into negotiations with the government of each foreign nation in which a seaport is designated under the Container Security Initiative to ensure full compliance with the requirements under the Container Security Initiative.

(e) OVERSEAS INSPECTIONS.—

(1) REQUIREMENTS AND PROCEDURES.—The Secretary shall—

(A) establish minimum technical capability criteria and standard operating procedures for the use of nonintrusive inspection and nuclear and radiological detection systems in conjunction with CSI;

(B) require each port designated under CSI to operate nonintrusive inspection and nuclear and radiological detection systems in accordance with the technical capability criteria and standard operating procedures established under subparagraph (A);

(C) continually monitor the technologies, processes, and techniques used to inspect cargo at ports designated under CSI to ensure adherence to such criteria and the use of such procedures; and

(D) consult with the Secretary of Energy in establishing the minimum technical capability criteria and standard operating procedures established under subparagraph (A) pertaining to radiation detection technologies to promote consistency in detection systems at foreign ports designated under CSI.

(2) CONSTRAINTS.—The criteria and procedures established under paragraph (1)(A)—

(A) shall be consistent, as practicable, with relevant standards and procedures utilized by other Federal departments or agencies, or developed by international bodies if the United States consents to such standards and procedures;

(B) shall not apply to activities conducted under the Megaports Initiative of the Department of Energy; and

(C) shall not be designed to endorse the product or technology of any specific company or to conflict with the sovereignty of a country in which a foreign seaport designated under the Container Security Initiative is located.

(f) SAVINGS PROVISION.—The authority of the Secretary under this section shall not affect any authority or duplicate any efforts or responsibilities of the Federal Government with respect to the deployment of radiation detection equipment outside of the United States.

(g) COORDINATION.—The Secretary shall—

(1) coordinate with the Secretary of Energy, as necessary, to provide radiation detection equipment required to support the Container Security Initiative through the Department of Energy's Second Line of Defense Program and Megaports Initiative; or

(2) work with the private sector or host governments, when possible, to obtain radiation detection equipment that meets the Department's and the Department of Energy's technical specifications for such equipment.

(h) STAFFING.—The Secretary shall develop a human capital management plan to determine adequate staffing levels in the United States and in foreign seaports including, as appropriate, the remote location of personnel in countries in which foreign seaports are designated under the Container Security Initiative.

(i) ANNUAL DISCUSSIONS.—The Secretary, in coordination with the appropriate Federal officials, shall hold annual discussions with foreign governments of countries in which foreign seaports designated under the Container Security Initiative are located regarding best practices, technical assistance, training needs, and technological developments that will assist in ensuring the efficient and secure movement of international cargo.

(j) LESSER RISK PORT.—The Secretary, acting through the Commissioner, may treat cargo loaded in a foreign seaport designated under the Container Security Initiative as presenting a lesser risk than similar cargo loaded in a foreign seaport that is not designated under the Container Security Initiative, for the purpose of clearing such cargo into the United States.

(k) PROHIBITION.—

(1) IN GENERAL.—The Secretary shall issue a "do not load" order, using existing authorities, to prevent the onload of any cargo loaded at a port designated under CSI that has been identified as high risk, including by the Automated Targeting System, unless the cargo is determined to no longer be high risk through—

(A) a scan of the cargo with nonintrusive imaging equipment and radiation detection equipment;

(B) a search of the cargo; or

(C) additional information received by the Department.

(2) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to interfere with the ability of the Secretary to deny entry of any cargo into the United States.

(l) REPORT.—

(1) IN GENERAL.—Not later than September 30, 2007, the Secretary, acting through the Commissioner, shall, in consultation with other appropriate government officials and the Commercial Operations Advisory Committee, submit a report to the appropriate congressional committees on the effectiveness of, and the need for any improvements to, the Container Security Initiative. The report shall include—

(A) a description of the technical assistance delivered to, as well as needed at, each designated seaport;

(B) a description of the human capital management plan at each designated seaport;

(C) a summary of the requests made by the United States to foreign governments to conduct physical or nonintrusive inspections of cargo at designated seaports, and whether each such request was granted or denied by the foreign government;

(D) an assessment of the effectiveness of screening, scanning, and inspection protocols and technologies utilized at designated seaports and the effect on the flow of commerce at such seaports, as well as any recommendations for improving the effectiveness of screening, scanning, and inspection protocols and technologies utilized at designated seaports;

(E) a description and assessment of the outcome of any security incident involving a foreign seaport designated under the Container Security Initiative;

(F) the rationale for the continuance of each port designated under CSI;

(G) a description of the potential for remote targeting to decrease the number of personnel who are deployed at foreign ports under CSI; and

(H) a summary and assessment of the aggregate number and extent of trade compliance lapses at each seaport designated under the Container Security Initiative.

(2) UPDATED REPORT.—Not later than September 30, 2010, the Secretary, acting through the Commissioner, shall, in consultation with other appropriate government officials and the Commercial Operations Advisory Committee, submit an updated report to the appropriate congressional committees on the effectiveness of, and the need for any improvements to, the Container Security Initiative. The updated report shall address each of the elements required to be included in the report provided for under paragraph (1).

(m) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the United States Customs and Border Protection to carry out the provisions of this section—

(1) $144,000,000 for fiscal year 2008;

(2) $146,000,000 for fiscal year 2009; and

(3) $153,300,000 for fiscal year 2010.

Subtitle B—Customs-Trade Partnership Against Terrorism

SEC. 211. ESTABLISHMENT.

(a) Establishment.—The Secretary, acting through the Commissioner, is authorized to establish a voluntary government-private sector program (to be known as the "Customs-Trade Partnership Against Terrorism" or "C–TPAT") to strengthen and improve the overall security of the international supply chain and United States border security, and to facilitate the movement of secure cargo through the international supply chain, by providing benefits to participants meeting or exceeding the program requirements. Participants in C–TPAT shall include Tier 1 participants, Tier 2 participants, and Tier 3 participants.

(b) Minimum Security Requirements.—The Secretary, acting through the Commissioner, shall review the minimum security requirements of C–TPAT at least once every year and update such requirements as necessary.

SEC. 212. ELIGIBLE ENTITIES.

Importers, customs brokers, forwarders, air, sea, land carriers, contract logistics providers, and other entities in the international supply chain and intermodal transportation system are eligible to apply to voluntarily enter into partnerships with the Department under C–TPAT.

SEC. 213. MINIMUM REQUIREMENTS.

An applicant seeking to participate in C–TPAT shall—

(1) demonstrate a history of moving cargo in the international supply chain;

(2) conduct an assessment of its supply chain based upon security criteria established by the Secretary, acting through the Commissioner, including—

(A) business partner requirements;

(B) container security;

(C) physical security and access controls;

(D) personnel security;

(E) procedural security;

(F) security training and threat awareness; and

(G) information technology security;

(3) implement and maintain security measures and supply chain security practices meeting security criteria established by the Commissioner; and

(4) meet all other requirements established by the Commissioner, in consultation with the Commercial Operations Advisory Committee.

SEC. 214. TIER 1 PARTICIPANTS IN C-TPAT.

(a) Benefits.—The Secretary, acting through the Commissioner, shall offer limited benefits to a Tier 1 participant who has been certified in accordance with the guidelines referred to in subsection (b). Such benefits may include a reduction in the score assigned pursuant to the Automated Targeting System of not greater than 20 percent of the high-risk threshold established by the Secretary.

(b) Guidelines.—Not later than 180 days after the date of the enactment of this Act, the Secretary, acting through the Commissioner, shall update the guidelines for certifying a C–TPAT participant's security measures and supply chain security practices under this section. Such guidelines shall include a background investigation and extensive documentation review.

(c) Timeframe.—To the extent practicable, the Secretary, acting through the Commissioner, shall complete the Tier 1 certification process within 90 days of receipt of an application for participation in C–TPAT.

SEC. 215. TIER 2 PARTICIPANTS IN C-TPAT.

(a) Validation.—The Secretary, acting through the Commissioner, shall validate the security measures and supply chain security practices of a Tier 1 participant in accordance with the guidelines referred to in subsection (c). Such validation shall include on-site assessments at appropriate foreign locations utilized by the Tier 1 participant in its supply chain and shall, to the extent practicable, be completed not later than 1 year after certification as a Tier 1 participant.

(b) Benefits.—The Secretary, acting through the Commissioner, shall extend benefits to each C–TPAT participant that has been validated as a Tier 2 participant under this section, which may include—

(1) reduced scores in the Automated Targeting System;

(2) reduced examinations of cargo; and

(3) priority searches of cargo.

(c) Guidelines.—Not later than 180 days after the date of the enactment of this Act, the Secretary, acting through the Commissioner, shall develop a schedule and update the guidelines for validating a participant's security measures and supply chain security practices under this section.

SEC. 216. TIER 3 PARTICIPANTS IN C-TPAT.

(a) In General.—The Secretary, acting through the Commissioner, shall establish a third tier of C–TPAT participation that offers additional benefits to participants who demonstrate a sustained commitment to maintaining security measures and supply chain security practices that exceed the guidelines established for validation as a Tier 2 participant in C–TPAT under section 215.

(b) Criteria.—The Secretary, acting through the Commissioner, shall designate criteria for validating a C–TPAT participant as a Tier 3 participant under this section. Such criteria may include—

(1) compliance with any additional guidelines established by the Secretary that exceed the guidelines established pursuant to section 215 of this Act for validating a C–TPAT participant as a Tier 2 participant, particularly with respect to controls over access to cargo throughout the supply chain;

(2) submission of additional information regarding cargo prior to loading, as determined by the Secretary;

(3) utilization of container security devices, technologies, policies, or practices that meet standards and criteria established by the Secretary; and

(4) compliance with any other cargo requirements established by the Secretary.

(c) Benefits.—The Secretary, acting through the Commissioner, in consultation with the Commercial Operations Advisory Committee and the National Maritime Security Advisory Committee, shall extend benefits to each C–TPAT participant that has been validated as a Tier 3 participant under this section, which may include—

(1) the expedited release of a Tier 3 participant's cargo in destination ports within the United States during all threat levels designated by the Secretary;

(2) further reduction in examinations of cargo;

(3) priority for examinations of cargo; and

(4) further reduction in the risk score assigned pursuant to the Automated Targeting System; and

(5) inclusion in joint incident management exercises, as appropriate.

(d) Deadline.—Not later than 2 years after the date of the enactment of this Act, the Secretary, acting through the Commissioner, shall designate appropriate criteria pursuant to subsection (b) and provide benefits to validated Tier 3 participants pursuant to subsection (c).

SEC. 217. CONSEQUENCES FOR LACK OF COMPLIANCE.

(a) In General.—If at any time a C–TPAT participant's security measures and supply chain security practices fail to meet any of the requirements under this subtitle, the Commissioner may deny the participant benefits otherwise available under this subtitle, in whole or in part. The Commissioner shall develop procedures that provide appropriate protections to C–TPAT participants before benefits are revoked. Such procedures may not limit the ability of the Commissioner to take actions to protect the national security of the United States.

(b) False or Misleading Information.—If a C–TPAT participant knowingly provides false or misleading information to the Commissioner during the validation process provided for under this subtitle, the Commissioner shall suspend or expel the participant from C–TPAT for an appropriate period of time. The Commissioner, after the completion of the process under subsection (c), may publish in the Federal Register a list of participants who have been suspended or expelled from C–TPAT pursuant to this subsection, and may make such list available to C–TPAT participants.

(c) Right of Appeal.—

(1) In general.—A C–TPAT participant may appeal a decision of the Commissioner pursuant to subsection (a). Such appeal shall be filed with the Secretary not later than 90 days after the date of the decision, and the Secretary shall issue a determination not later than 180 days after the appeal is filed.

(2) Appeals of other decisions.—A C–TPAT participant may appeal a decision of the Commissioner pursuant to subsection (b). Such appeal shall be filed with the Secretary not later than 30 days after the date of the decision, and the Secretary shall issue a determination not later than 180 days after the appeal is filed.

SEC. 218. THIRD PARTY VALIDATIONS.

(a) Plan.—The Secretary, acting through the Commissioner, shall develop a plan to implement a 1-year voluntary pilot program to test and assess the feasibility, costs, and benefits of using third party entities to conduct validations of C–TPAT participants.

(b) Consultations.—Not later than 120 days after the date of the enactment of this Act, after consulting with private sector stakeholders, including the Commercial Operations Advisory Committee, the Secretary shall submit a report to the appropriate congressional committees on the plan described in subsection (a).

(c) Pilot Program.—

(1) In general.—Not later than 1 year after the consultations described in subsection (b), the Secretary shall carry out the 1-year pilot program to conduct validations of C–TPAT participants using third party entities described in subsection (a).

(2) Authority of the secretary.—The decision to validate a C–TPAT participant is solely within the discretion of the Secretary, or the Secretary's designee.

(d) Certification of Third Party Entities.—The Secretary shall certify a third party entity to conduct validations under subsection (c) if the entity—

(1) demonstrates to the satisfaction of the Secretary that the entity has the ability to perform validations in accordance with standard operating procedures and requirements designated by the Secretary; and

(2) agrees—

(A) to perform validations in accordance with such standard operating procedures and requirements (and updates to such procedures and requirements); and

(B) to maintain liability insurance coverage at policy limits and in accordance with conditions to be established by the Secretary; and

(3) signs an agreement to protect all proprietary information of C–TPAT participants with respect to which the entity will conduct validations.

(e) Information for Establishing Limits of Liability Insurance.—A third party entity

seeking a certificate under subsection (d) shall submit to the Secretary necessary information for establishing the limits of liability insurance required to be maintained by the entity under this Act.

(f) ADDITIONAL REQUIREMENTS.—The Secretary shall ensure that—

(1) any third party entity certified under this section does not have—

(A) any beneficial interest in or any direct or indirect control over the C–TPAT participant for which the validation services are performed; or

(B) any other conflict of interest with respect to the C–TPAT participant; and

(2) the C–TPAT participant has entered into a contract with the third party entity under which the C–TPAT participant agrees to pay all costs associated with the validation.

(g) MONITORING.—

(1) IN GENERAL.—The Secretary shall regularly monitor and inspect the operations of a third party entity conducting validations under subsection (c) to ensure that the entity is meeting the minimum standard operating procedures and requirements for the validation of C–TPAT participants established by the Secretary and all other applicable requirements for validation services.

(2) REVOCATION.—If the Secretary determines that a third party entity is not meeting the minimum standard operating procedures and requirements designated by the Secretary under subsection (d)(1), the Secretary shall—

(A) revoke the entity's certificate of conformance issued under subsection (d)(1); and

(B) review any validations conducted by the entity.

(h) LIMITATION ON AUTHORITY.—The Secretary may only grant a C–TPAT validation by a third party entity pursuant to subsection (c) if the C–TPAT participant voluntarily submits to validation by such third party entity.

(i) REPORT.—Not later than 30 days after the completion of the pilot program conducted pursuant to subsection (c), the Secretary shall submit a report to the appropriate congressional committees that contains—

(1) the results of the pilot program, including the extent to which the pilot program ensured sufficient protection for proprietary commercial information;

(2) the cost and efficiency associated with validations under the pilot program;

(3) the impact of the pilot program on the rate of validations conducted under C–TPAT;

(4) any impact on national security of the pilot program; and

(5) any recommendations by the Secretary based upon the results of the pilot program.

SEC. 219. REVALIDATION.

The Secretary, acting through the Commissioner, shall develop and implement—

(1) a revalidation process for Tier 2 and Tier 3 participants;

(2) a framework based upon objective criteria for identifying participants for periodic revalidation not less frequently than once during each 4-year period following the initial validation; and

(3) an annual plan for revalidation that includes—

(A) performance measures;

(B) an assessment of the personnel needed to perform the revalidations; and

(C) the number of participants that will be revalidated during the following year.

SEC. 220. NONCONTAINERIZED CARGO.

The Secretary, acting through the Commissioner, shall consider the potential for participation in C–TPAT by importers of noncontainerized cargoes that otherwise meet the requirements under this subtitle.

SEC. 221. C–TPAT PROGRAM MANAGEMENT.

(a) IN GENERAL.—The Secretary, acting through the Commissioner, shall establish sufficient internal quality controls and record management to support the management systems of C–TPAT. In managing the program, the Secretary shall ensure that the program includes:

(1) STRATEGIC PLAN.—A 5-year plan to identify outcome-based goals and performance measures of the program.

(2) ANNUAL PLAN.—An annual plan for each fiscal year designed to match available resources to the projected workload.

(3) STANDARDIZED WORK PROGRAM.—A standardized work program to be used by agency personnel to carry out the certifications, validations, and revalidations of participants. The Secretary shall keep records and monitor staff hours associated with the completion of each such review.

(b) DOCUMENTATION OF REVIEWS.—The Secretary, acting through the Commissioner, shall maintain a record management system to document determinations on the reviews of each C–TPAT participant, including certifications, validations, and revalidations.

(c) CONFIDENTIAL INFORMATION SAFEGUARDS.—In consultation with the Commercial Operations Advisory Committee, the Secretary, acting through the Commissioner, shall develop and implement procedures to ensure the protection of confidential data collected, stored, or shared with government agencies or as part of the application, certification, validation, and revalidation processes.

(d) RESOURCE MANAGEMENT STAFFING PLAN.—The Secretary, acting through the Commissioner, shall—

(1) develop a staffing plan to recruit and train staff (including a formalized training program) to meet the objectives identified in the strategic plan of the C–TPAT program; and

(2) provide cross-training in postincident trade resumption for personnel who administer the C–TPAT program.

(e) REPORT TO CONGRESS.—In connection with the President's annual budget submission for the Department, the Secretary shall report to the appropriate congressional committees on the progress made by the Commissioner to certify, validate, and revalidate C–TPAT participants. Such report shall be due on the same date that the President's budget is submitted to the Congress.

SEC. 222. ADDITIONAL PERSONNEL.

For fiscal years 2008 and 2009, the Commissioner shall increase by not less than 50 the number of full-time personnel engaged in the validation and revalidation of C–TPAT participants (over the number of such personnel on the last day of the previous fiscal year), and shall provide appropriate training and support to such additional personnel.

SEC. 223. AUTHORIZATION OF APPROPRIATIONS.

(a) C–TPAT.—There are authorized to be appropriated to the United States Customs and Border Protection to carry out the provisions of sections 211 through 221 to remain available until expended—

(1) $65,000,000 for fiscal year 2008;

(2) $72,000,000 for fiscal year 2009; and

(3) $75,600,000 for fiscal year 2010.

(b) ADDITIONAL PERSONNEL.—In addition to any amounts otherwise appropriated to the United States Customs and Border Protection, there are authorized to be appropriated for the purpose of meeting the staffing requirement provided for in section 222, to remain available until expended—

(1) $8,500,000 for fiscal year 2008;

(2) $17,600,000 for fiscal year 2009;

(3) $19,000,000 for fiscal year 2010;

(4) $20,000,000 for fiscal year 2011; and

(5) $21,000,000 for fiscal year 2012.

Subtitle C—Miscellaneous Provisions

SEC. 231. PILOT INTEGRATED SCANNING SYSTEM.

(a) DESIGNATIONS.—Not later than 90 days after the date of the enactment of this Act, the Secretary shall designate 3 foreign seaports through which containers pass or are transshipped to the United States for the establishment of pilot integrated scanning systems that couple nonintrusive imaging equipment and radiation detection equipment. In making the designations under this paragraph, the Secretary shall consider 3 distinct ports with unique features and differing levels of trade volume.

(b) COORDINATION.—The Secretary shall—

(1) coordinate with the Secretary of Energy, as necessary, to provide radiation detection equipment through the Department of Energy's Second Line of Defense and Megaports programs; or

(2) work with the private sector or, when possible, host governments to obtain radiation detection equipment that meets both the Department's and the Department of Energy's technical specifications for such equipment.

(c) PILOT SYSTEM IMPLEMENTATION.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall achieve a full-scale implementation of the pilot integrated scanning system at the ports designated under subsection (a), which—

(1) shall scan all containers destined for the United States that are loaded in such ports;

(2) shall electronically transmit the images and information to appropriate United States Government personnel in the country in which the port is located or in the United States for evaluation and analysis;

(3) shall resolve every radiation alarm according to established Department procedures;

(4) shall utilize the information collected to enhance the Automated Targeting System or other relevant programs;

(5) shall store the information for later retrieval and analysis; and

(6) may provide an automated notification of questionable or high-risk cargo as a trigger for further inspection by appropriately trained personnel.

(d) REPORT.—Not later than 180 days after achieving full-scale implementation under subsection (c), the Secretary, in consultation with the Secretary of State and, as appropriate, the Secretary of Energy, shall submit a report to the appropriate congressional committees, that includes—

(1) an evaluation of the lessons derived from the pilot system implemented under this subsection;

(2) an analysis of the efficacy of the Automated Targeting System or other relevant programs in utilizing the images captured to examine high-risk containers;

(3) an evaluation of the effectiveness of the integrated scanning system in detecting shielded and unshielded nuclear and radiological material;

(4) an evaluation of software and other technologies that are capable of automatically identifying potential anomalies in scanned containers; and

(5) an analysis of the need and feasibility of expanding the integrated scanning system to other container security initiative ports, including—

(A) an analysis of the infrastructure requirements;

(B) a projection of the effect on current average processing speed of containerized cargo;

(C) an evaluation of the scalability of the system to meet both current and future forecasted trade flows;

(D) the ability of the system to automatically maintain and catalog appropriate data for reference and analysis in the event of a transportation disruption;

(E) an analysis of requirements, including costs, to install and maintain an integrated scanning system;

(F) the ability of administering personnel to efficiently manage and utilize the data produced by a nonintrusive scanning system;

(G) the ability to safeguard commercial data generated by, or submitted to, a nonintrusive scanning system; and

(H) an assessment of the reliability of currently available technology to implement an integrated scanning system.

SEC. 232. SCREENING AND SCANNING OF CARGO CONTAINERS.

(a) One Hundred Percent Screening of Cargo Containers and 100 Percent Scanning of High-Risk Containers.—

(1) Screening of cargo containers.—The Secretary shall ensure that 100 percent of the cargo containers originating outside the United States and unloaded at a United States seaport undergo a screening to identify high-risk containers.

(2) Scanning of high-risk containers.—The Secretary shall ensure that 100 percent of the containers that have been identified as high-risk under paragraph (1), or through other means, are scanned or searched before such containers leave a United States seaport facility.

(b) Full-Scale Implementation.—The Secretary, in coordination with the Secretary of Energy and foreign partners, as appropriate, shall ensure integrated scanning systems are fully deployed to scan, using nonintrusive imaging equipment and radiation detection equipment, all containers entering the United States before such containers arrive in the United States as soon as possible, but not before the Secretary determines that the integrated scanning system—

(1) meets the requirements set forth in section 231(c);

(2) has a sufficiently low false alarm rate for use in the supply chain;

(3) is capable of being deployed and operated at ports overseas;

(4) is capable of integrating, as necessary, with existing systems;

(5) does not significantly impact trade capacity and flow of cargo at foreign or United States ports; and

(6) provides an automated notification of questionable or high-risk cargo as a trigger for further inspection by appropriately trained personnel.

(c) Report.—Not later than 6 months after the submission of a report under section 231(d), and every 6 months thereafter, the Secretary shall submit a report to the appropriate congressional committees describing the status of full-scale deployment under subsection (b) and the cost of deploying the system at each foreign port at which the integrated scanning systems are deployed.

SEC. 233. INTERNATIONAL COOPERATION AND COORDINATION.

(a) Inspection Technology and Training.—

(1) In general.—The Secretary, in coordination with the Secretary of State, the Secretary of Energy, and appropriate representatives of other Federal agencies, may provide technical assistance, equipment, and training to facilitate the implementation of supply chain security measures at ports designated under the Container Security Initiative.

(2) Acquisition and training.—Unless otherwise prohibited by law, the Secretary may—

(A) lease, loan, provide, or otherwise assist in the deployment of nonintrusive inspection and radiation detection equipment at foreign land and sea ports under such terms and conditions as the Secretary prescribes, including nonreimbursable loans or the transfer of ownership of equipment; and

(B) provide training and technical assistance for domestic or foreign personnel responsible for operating or maintaining such equipment.

(b) Actions and Assistance for Foreign Ports and United States Territories.—Section 70110 of title 46, United States Code, is amended—

(1) by striking the section header and inserting the following:

"§70110. Actions and assistance for foreign ports and United States territories"; and

(2) by adding at the end the following:

"(e) Assistance for Foreign Ports and United States Territories.—

"(1) In general.—The Secretary, in consultation with the Secretary of Transportation, the Secretary of State, and the Secretary of Energy, shall identify assistance programs that could facilitate implementation of port security antiterrorism measures in foreign countries and territories of the United States. The Secretary shall establish a program to utilize the programs that are capable of implementing port security antiterrorism measures at ports in foreign countries and territories of the United States that the Secretary finds to lack effective antiterrorism measures.

"(2) Caribbean basin.—The Secretary, in coordination with the Secretary of State and in consultation with the Organization of American States and the Commandant of the Coast Guard, shall place particular emphasis on utilizing programs to facilitate the implementation of port security antiterrorism measures at the ports located in the Caribbean Basin, as such ports pose unique security and safety threats to the United States due to—

"(A) the strategic location of such ports between South America and the United States;

"(B) the relative openness of such ports; and

"(C) the significant number of shipments of narcotics to the United States that are moved through such ports.".

(c) Report on Security at Ports in the Caribbean Basin.—

(1) In general.—Not later than 180 days after the date of the enactment of this Act, the Comptroller General of the United States shall submit a report to the appropriate congressional committees on the security of ports in the Caribbean Basin.

(2) Contents.—The report submitted under paragraph (1)—

(A) shall include—

(i) an assessment of the effectiveness of the measures employed to improve security at ports in the Caribbean Basin and recommendations for any additional measures to improve such security;

(ii) an estimate of the number of ports in the Caribbean Basin that will not be secured by January 1, 2007;

(iii) an estimate of the financial impact in the United States of any action taken pursuant to section 70110 of title 46, United States Code, that affects trade between such ports and the United States; and

(iv) an assessment of the additional resources and program changes that are necessary to maximize security at ports in the Caribbean Basin; and

(B) may be submitted in both classified and redacted formats.

(d) Clerical Amendment.—The chapter analysis for chapter 701 of title 46, United States Code, is amended by striking the item relating to section 70110 and inserting the following:

"70110. Actions and assistance for foreign ports and United States territories.".

SEC. 234. FOREIGN PORT ASSESSMENTS.

Section 70108 of title 46, United States Code, is amended by adding at the end the following:

"(d) Periodic Reassessment.—The Secretary, acting through the Commandant of the Coast Guard, shall reassess the effectiveness of antiterrorism measures maintained at ports as described under subsection (a) and of procedures described in subsection (b) not less than once every 3 years.".

SEC. 235. PILOT PROGRAM TO IMPROVE THE SECURITY OF EMPTY CONTAINERS.

(a) In General.—The Secretary shall conduct a 1-year pilot program to assess the risk posed by and improve the security of empty containers at United States seaports to ensure the safe and secure delivery of cargo and to prevent potential acts of terrorism involving such containers. The pilot program shall include the use of visual searches of empty containers at United States seaports.

(b) Report.—Not later than 90 days after the completion of the pilot program under paragraph (1), the Secretary shall prepare and submit to the appropriate congressional committees a report that contains—

(1) the results of the pilot program; and

(2) the determination of the Secretary on whether to expand the pilot program.

SEC. 236. INFORMATION SHARING RELATING TO SUPPLY CHAIN SECURITY COOPERATION.

(a) Purposes.—The purposes of this section are—

(1) to establish continuing liaison and to provide for supply chain security cooperation between Department and the private sector; and

(2) to provide for regular and timely interchange of information between the private sector and the Department concerning developments and security risks in the supply chain environment.

(b) System.—The Secretary shall develop a system to collect from and share appropriate risk information related to the supply chain with the private sector entities determined appropriate by the Secretary.

(c) Consultation.—In developing the system under subsection (b), the Secretary shall consult with the Commercial Operations Advisory Committee and a broad range of public and private sector entities likely to utilize the system, including importers, exporters, carriers, customs brokers, and freight forwarders, among other parties.

(d) Independently Obtained Information.—Nothing in this section shall be construed to limit or otherwise affect the ability of a Federal, State, or local government entity, under applicable law, to obtain supply chain security information, including any information lawfully and properly disclosed generally or broadly to the public and to use such information in any manner permitted by law.

(e) Authority to Issue Warnings.—The Secretary may provide advisories, alerts, and warnings to relevant companies, targeted sectors, other governmental entities, or the general public regarding potential risks to the supply chain as appropriate. In issuing a warning, the Secretary shall take appropriate actions to protect from disclosure—

(1) the source of any voluntarily submitted supply chain security information that forms the basis for the warning; and

(2) information that is proprietary, business sensitive, relates specifically to the submitting person or entity, or is otherwise not appropriately in the public domain.

TITLE III—ADMINISTRATION

SEC. 301. OFFICE OF CARGO SECURITY POLICY.

(a) Establishment.—Subtitle C of title IV of the Homeland Security Act of 2002 (6 U.S.C. 231 et seq.) is amended by adding at the end the following:

"SEC. 431. OFFICE OF CARGO SECURITY POLICY.

"(a) Establishment.—There is established within the Department an Office of Cargo Security Policy (referred to in this section as the 'Office').

"(b) PURPOSE.—The Office shall—

"(1) coordinate all Department policies relating to cargo security; and

"(2) consult with stakeholders and coordinate with other Federal agencies in the establishment of standards and regulations and to promote best practices.

"(c) DIRECTOR.—

"(1) APPOINTMENT.—The Office shall be headed by a Director, who shall—

"(A) be appointed by the Secretary; and

"(B) report to the Assistant Secretary for Policy.

"(2) RESPONSIBILITIES.—The Director shall—

"(A) advise the Assistant Secretary for Policy in the development of Department-wide policies regarding cargo security;

"(B) coordinate all policies relating to cargo security among the agencies and offices within the Department relating to cargo security; and

"(C) coordinate the cargo security policies of the Department with the policies of other executive agencies.".

(b) DESIGNATION OF LIAISON OFFICE OF DEPARTMENT OF STATE.—The Secretary of State shall designate a liaison office within the Department of State to assist the Secretary, as appropriate, in negotiating cargo security-related international agreements.

(c) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to affect—

(1) the authorities, functions, or capabilities of the Coast Guard to perform its missions; or

(2) the requirement under section 888 of the Homeland Security Act (6 U.S.C. 468) that those authorities, functions, and capabilities be maintained intact.

(d) CLERICAL AMENDMENT.—The table of contents of the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.) is amended by inserting after the item relating to section 430 the following:

"Sec. 431. Office of Cargo Security Policy".

SEC. 302. REAUTHORIZATION OF HOMELAND SECURITY SCIENCE AND TECHNOLOGY ADVISORY COMMITTEE.

(a) IN GENERAL.—Section 311(j) of the Homeland Security Act of 2002 (6 U.S.C. 191(j)) is amended by striking "3 years after the effective date of this Act" and inserting "on December 31, 2008".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective as if enacted on the date of the enactment of the Homeland Security Act of 2002 (6 U.S.C. 101 et seq.).

(c) ADVISORY COMMITTEE.—The Under Secretary for Science and Technology shall utilize the Homeland Security Science and Technology Advisory Committee, as appropriate, to provide outside expertise in advancing cargo security technology.

SEC. 303. RESEARCH, DEVELOPMENT, TEST, AND EVALUATION EFFORTS IN FURTHERANCE OF MARITIME AND CARGO SECURITY.

(a) IN GENERAL.—The Secretary shall—

(1) direct research, development, testing, and evaluation efforts in furtherance of maritime and cargo security;

(2) coordinate with public and private sector entities to develop and test technologies, and process innovations in furtherance of these objectives; and

(3) evaluate such technologies.

(b) COORDINATION.—The Secretary, in coordination with the Under Secretary for Science and Technology, the Assistant Secretary for Policy, the Commandant of the Coast Guard, the Director for Domestic Nuclear Detection, the Chief Financial Officer, and the heads of other appropriate offices or entities of the Department, shall ensure that—

(1) research, development, testing, and evaluation efforts funded by the Department in furtherance of maritime and cargo security are coordinated within the Department and with other appropriate Federal agencies to avoid duplication of efforts; and

(2) the results of such efforts are shared throughout the Department and with other Federal, State, and local agencies, as appropriate.

TITLE IV—AGENCY RESOURCES AND OVERSIGHT

SEC. 401. TRADE AND CUSTOMS REVENUE FUNCTIONS OF THE DEPARTMENT.

(a) TRADE AND CUSTOMS REVENUE FUNCTIONS.—

(1) DESIGNATION OF APPROPRIATE OFFICIAL.—The Secretary shall designate an appropriate senior official in the office of the Secretary who shall—

(A) ensure that the trade and customs revenue functions of the Department are coordinated within the Department and with other Federal departments and agencies, and that the impact on legitimate trade is taken into account in any action impacting the functions; and

(B) monitor and report to Congress on the Department's mandate to ensure that the trade and customs revenue functions of the Department are not diminished, including how spending, operations, and personnel related to these functions have kept pace with the level of trade entering the United States.

(2) DIRECTOR OF TRADE POLICY.—There shall be a Director of Trade Policy (in this subsection referred to as the "Director"), who shall be subject to the direction and control of the official designated pursuant to paragraph (1). The Director shall—

(A) advise the official designated pursuant to paragraph (1) regarding all aspects of Department policies relating to the trade and customs revenue functions of the Department;

(B) coordinate the development of Department-wide policies regarding trade and customs revenue functions and trade facilitation; and

(C) coordinate the trade and customs revenue-related policies of the Department with the policies of other Federal departments and agencies.

(b) STUDY; REPORT.—

(1) IN GENERAL.—The Comptroller General of the United States shall conduct a study evaluating the extent to which the Department of Homeland Security is meeting its obligations under section 412(b) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)) with respect to the maintenance of customs revenue functions.

(2) ANALYSIS.—The study shall include an analysis of—

(A) the extent to which the customs revenue functions carried out by the former United States Customs Service have been consolidated with other functions of the Department (including the assignment of noncustoms revenue functions to personnel responsible for customs revenue collection), discontinued, or diminished following the transfer of the United States Customs Service to the Department;

(B) the extent to which staffing levels or resources attributable to customs revenue functions have decreased since the transfer of the United States Customs Service to the Department; and

(C) the extent to which the management structure created by the Department ensures effective trade facilitation and customs revenue collection.

(3) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Comptroller General shall submit to the appropriate congressional committees a report on the results of the study conducted under subsection (a).

(4) MAINTENANCE OF FUNCTIONS.—Not later than September 30, 2007, the Secretary shall ensure that the requirements of section 412(b) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)) are fully satisfied and shall report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives regarding implementation of this paragraph.

(5) DEFINITION.—In this section, the term "customs revenue functions" means the functions described in section 412(b)(2) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)(2)).

(c) CONSULTATION ON TRADE AND CUSTOMS REVENUE FUNCTIONS.—

(1) BUSINESS COMMUNITY CONSULTATIONS.—The Secretary shall consult with representatives of the business community involved in international trade, including seeking the advice and recommendations of the Commercial Operations Advisory Committee, on Department policies and actions that have a significant impact on international trade and customs revenue functions.

(2) CONGRESSIONAL CONSULTATION AND NOTIFICATION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall notify the appropriate congressional committees not later than 30 days prior to the finalization of any Department policies, initiatives, or actions that will have a major impact on trade and customs revenue functions. Such notifications shall include a description of the proposed policies, initiatives or actions and any comments or recommendations provided by the Commercial Operations Advisory Committee and other relevant groups regarding the proposed policies, initiatives or actions.

(B) EXCEPTION.—If the Secretary determines that it is important to the national security interest of the United States to finalize any Department policies, initiatives, or actions prior to the consultation described in subparagraph (A), the Secretary shall—

(i) notify and provide any recommendations of the Commercial Operations Advisory Committee received to the appropriate congressional committees not later than 45 days after the date on which the policies, initiatives, or actions are finalized; and

(ii) to the extent appropriate, modify the policies, initiatives, or actions based upon the consultations with the appropriate congressional committees.

(d) NOTIFICATION OF REORGANIZATION OF CUSTOMS REVENUE FUNCTIONS.—

(1) IN GENERAL.—Not less than 45 days prior to any change in the organization of any of the customs revenue functions of the Department, the Secretary shall notify the Committee on Appropriations, the Committee on Finance, and the Committee on Homeland Security and Governmental Affairs of the Senate, and the Committee on Appropriations, the Committee on Homeland Security, and the Committee on Ways and Means of the House of Representatives of the specific assets, functions, or personnel to be transferred as part of such reorganization, and the reason for such transfer. The notification shall also include—

(A) an explanation of how trade enforcement functions will be impacted by the reorganization;

(B) an explanation of how the reorganization meets the requirements of section 412(b) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)) that the Department not diminish the customs revenue and trade facilitation functions formerly performed by the United States Customs Service; and

(C) any comments or recommendations provided by the Commercial Operations Advisory Committee regarding such reorganization.

(2) ANALYSIS.—Any congressional committee referred to in paragraph (1) may request that the Commercial Operations Advisory Committee provide a report to the committee analyzing the impact of the reorganization and providing any recommendations for modifying the reorganization.

(3) REPORT.—Not later than 1 year after any reorganization referred to in paragraph (1) takes place, the Secretary, in consultation with the Commercial Operations Advisory Committee, shall submit a report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives. Such report shall include an assessment of the impact of, and any suggested modifications to, such reorganization.

SEC. 402. OFFICE OF INTERNATIONAL TRADE; OVERSIGHT.

Section 2 of the Act of March 3, 1927 (44 Stat. 1381, chapter 348; 19 U.S.C. 2072), is amended by adding at the end the following:

"(d) OFFICE OF INTERNATIONAL TRADE.—

"(1) ESTABLISHMENT.—There is established within the United States Customs and Border Protection an Office of International Trade that shall be headed by an Assistant Commissioner.

"(2) TRANSFER OF ASSETS, FUNCTIONS, AND PERSONNEL; ELIMINATION OF OFFICES.—

"(A) OFFICE OF STRATEGIC TRADE.—

"(i) IN GENERAL.—Not later than 90 days after the date of the enactment of the SAFE Port Act, the Commissioner shall transfer the assets, functions, and personnel of the Office of Strategic Trade to the Office of International Trade established pursuant to paragraph (1) and the Office of Strategic Trade shall be abolished.

"(ii) LIMITATION ON FUNDS.—No funds appropriated to the United States Customs and Border Protection may be used to transfer the assets, functions, or personnel of the Office of Strategic Trade, to an office other than the office established pursuant to paragraph (1) of this subsection.

"(B) OFFICE OF REGULATIONS AND RULINGS.—

"(i) IN GENERAL.—Not later than 90 days after the date of the enactment of the SAFE Port Act, the Commissioner shall transfer the assets, functions, and personnel of the Office of Regulations and Rulings to the Office of International Trade established pursuant to paragraph (1) and the Office of Regulations and Rulings shall be abolished.

"(ii) LIMITATION ON FUNDS.—No funds appropriated to the United States Customs and Border Protection may be used to transfer the assets, functions, or personnel of the Office of Regulations and Rulings, to an office other than the office established pursuant to paragraph (1) of this subsection.

"(C) OTHER TRANSFERS.—The Commissioner is authorized to transfer any other assets, functions, or personnel within the United States Customs and Border Protection to the Office of International Trade established pursuant to paragraph (1). Not less than 45 days prior to each such transfer, the Commissioner shall notify the Committee on Appropriations, the Committee on Finance, and the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Appropriations, the Committee on Homeland Security, and the Committee on Ways and Means of the House of Representatives of the specific assets, functions, or personnel to be transferred, and the reason for such transfer. Such notification shall also include—

"(i) an explanation of how trade enforcement functions will be impacted by the reorganization;

"(ii) an explanation of how the reorganization meets the requirements of section 412(b) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)) that the Department of Homeland Security not diminish the customs revenue and trade facilitation functions formerly performed by the United States Customs Service; and

"(iii) any comments or recommendations provided by the Commercial Operations Advisory Committee regarding such reorganization.

"(D) REPORT.—Not later than 1 year after any reorganization pursuant to subparagraph (C) takes place, the Commissioner, in consultation with the Commercial Operations Advisory Committee, shall report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives. Such report shall include an assessment of the impact of, and any suggested modifications to, such reorganization.

"(E) LIMITATION ON AUTHORITY.—Notwithstanding any other provision of law, the Commissioner shall not transfer any assets, functions, or personnel from United States ports of entry, associated with the enforcement of laws relating to trade in textiles and apparel, to the Office of International Trade established pursuant to paragraph (1), until the following conditions are met:

"(i) The Commissioner submits the initial Resource Allocation Model required by section 301(h) of the Customs and Procedural Reform and Simplification Act of 1978 (19 U.S.C. 2075) and includes in such Resource Allocation Model a section addressing the allocation of assets, functions, and personnel associated with the enforcement of laws relating to trade in textiles and apparel.

"(ii) The Commissioner consults with the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives regarding any subsequent transfer of assets, functions, or personnel associated with the enforcement of laws relating to trade in textiles and apparel, not less than 45 days prior to such transfer.

"(F) LIMITATION ON APPROPRIATIONS.—No funds appropriated to the United States Customs and Border Protection may be used to transfer the assets, functions, or personnel associated with the enforcement of laws relating to trade in textiles and apparel, before the Commissioner consults with the congressional committees pursuant to subparagraph (E)(ii).

"(e) INTERNATIONAL TRADE COMMITTEE.—

"(1) ESTABLISHMENT.—The Commissioner shall establish an International Trade Committee, to be chaired by the Commissioner, and to include the Deputy Commissioner, the Assistant Commissioner in the Office of Field Operations, the Assistant Commissioner in the Office of Finance, the Assistant Commissioner in the Office of International Affairs, the Assistant Commissioner in the Office of International Trade, the Director of the Office of Trade Relations, and any other official determined by the Commissioner to be important to the work of the Committee.

"(2) RESPONSIBILITIES.—The International Trade Committee shall—

"(A) be responsible for advising the Commissioner with respect to the commercial customs and trade facilitation functions of the United States Customs and Border Protection;

"(B) assist the Commissioner in coordinating with the Secretary regarding commercial customs and trade facilitation functions; and

"(C) oversee the operation of all programs and systems that are involved in the assessment and collection of duties, bonds, and other charges or penalties associated with the entry of cargo into the United States, or the export of cargo from the United States, including the administration of duty drawback and the collection of antidumping and countervailing duties.

"(3) ANNUAL REPORT.—Not later than 30 days after the end of each fiscal year, the International Trade Committee shall submit a report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives. The report shall—

"(A) detail the activities of the International Trade Committee during the preceding fiscal year; and

"(B) identify the priorities of the International Trade Committee for the fiscal year in which the report is filed.

"(f) DEFINITION.—In this section:

"(1) COMMISSIONER.—The term 'Commissioner' means the Commissioner responsible for the United States Customs and Border Protection in the Department of Homeland Security.

"(2) COMMERCIAL OPERATIONS ADVISORY COMMITTEE.—The term 'Commercial Operations Advisory Committee' means the Advisory Committee established pursuant to section 9503(c) of the Omnibus Budget Reconciliation Act of 1987 (19 U.S.C. 2071 note) or any successor committee.".

SEC. 403: RESOURCES.

Section 301 of the Customs Procedural Reform and Simplification Act of 1978 (19 U.S.C. 2075) is amended by adding at the end the following:

"(h) RESOURCE ALLOCATION MODEL.—

"(1) RESOURCE ALLOCATION MODEL.—Not later than June 30, 2007, and every 2 years thereafter, the Commissioner shall prepare and submit to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives a Resource Allocation Model to determine the optimal staffing levels required to carry out the commercial operations of United States Customs and Border Protection, including commercial inspection and release of cargo and the revenue functions described in section 412(b)(2) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)(2)). The Model shall comply with the requirements of section 412(b)(1) of such Act and shall take into account previous staffing models, historic and projected trade volumes, and trends. The Resource Allocation Model shall apply both risk-based and random sampling approaches for determining adequate staffing needs for priority trade functions, including—

"(A) performing revenue functions;

"(B) enforcing antidumping and countervailing duty laws;

"(C) protecting intellectual property rights;

"(D) enforcing provisions of law relating to trade in textiles and apparel;

"(E) conducting agricultural inspections;

"(F) enforcing fines, penalties, and forfeitures; and

"(G) facilitating trade.

"(2) PERSONNEL.—

"(A) IN GENERAL.—Not later than September 30, 2007, the Commissioner shall ensure that the requirements of section 412(b) of the Homeland Security Act of 2002 (6 U.S.C. 212(b)) are fully satisfied and shall report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives regarding the implementation of this subparagraph.

"(B) CUSTOMS AND BORDER PROTECTION OFFICERS.—The initial Resource Allocation Model required pursuant to paragraph (1) shall provide for the hiring of a minimum of 200 additional Customs and Border Protection Officers per year for each of the fiscal years 2008 through 2012. The Commissioner shall hire such additional Officers subject to the appropriation of funds to pay for the salaries and expenses of such Officers. In assigning the 1,000 additional Officers authorized by this subparagraph, the Commissioner shall—

"(i) consider the volume of trade and the incidence of nonvoluntarily disclosed customs and trade law violations in addition to security priorities among United States ports of entry; and

"(ii) before October 1, 2010, assign at least 10 additional Officers among each service port and the ports of entry serviced by such service port, except as provided in subparagraph (C).

"(C) ASSIGNMENT.—In assigning such Officers pursuant to subparagraph (B), the Commissioner shall consult with the port directors of each service port and the other ports of entry serviced by such service port. The Commissioner shall not assign an Officer to a port of entry *pursuant to subparagraph (B)(ii) if the port director of the service port that services such port of entry certifies to the Commissioner that an additional Officer is not needed at such port of entry.*

"(D) REPORT.—Not later than 60 days after the beginning of each of the fiscal years 2008 through 2012, the Commissioner shall submit a report to the Committee on Finance of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Homeland Security of the House of Representatives, and the Committee on Ways and Means of the House of Representatives, that describes how the additional Officers authorized under subparagraph (B) will be allocated among the ports of entry in the United States in accordance with subparagraph (C).

"(3) AUTHORIZATION OF APPROPRIATIONS.—In addition to any monies hereafter appropriated to United States Customs and Border Protection in the Department of Homeland Security, there are authorized to be appropriated for the purpose of meeting the requirements of paragraph (2)(B), to remain available until expended—

"(A) $36,000,000 for fiscal year 2008;

"(B) $75,000,000 for fiscal year 2009;

"(C) $118,000,000 for fiscal year 2010;

"(D) $165,000,000 for fiscal year 2011; and

"(E) $217,000,000 for fiscal year 2012.

"(4) REPORT.—Not later than 30 days after the end of each fiscal year, the Commissioner shall report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives on the resources directed to commercial and trade facilitation functions within the Office of Field Operations for the preceding fiscal year. Such information shall be reported for each category of personnel within the Office of Field Operations.

"(5) REGULATIONS TO IMPLEMENT TRADE AGREEMENTS.—Not later than 30 days after the date of the enactment of the SAFE Port Act, the Commissioner shall designate and maintain not less than 5 attorneys within the Office of International Trade established pursuant to section 2 of the Act of March 3, 1927 (44 Stat. 1381, chapter 348; 19 U.S.C. 2072), with responsibility for the prompt development and promulgation of regulations necessary to implement any trade agreement entered into by the United States, in addition to any other responsibilities assigned by the Commissioner.

"(6) DEFINITION.—In this subsection, the term 'Commissioner' means the Commissioner responsible for United States Customs and Border Protection in the Department of Homeland Security.".

SEC. 404. NEGOTIATIONS.

Section 629 of the Tariff Act of 1930 (19 U.S.C. 1629) is amended by adding at the end the following:

"(h) CUSTOMS PROCEDURES AND COMMITMENTS.—

"(1) IN GENERAL.—The Secretary of Homeland Security, the United States Trade Representative, and other appropriate Federal officials shall work through appropriate international organizations including the World Customs Organization (WCO), the World Trade Organization (WTO), the International Maritime Organization, and the Asia-Pacific Economic Cooperation, to align, to the extent practicable, customs procedures, standards, requirements, and commitments in order to facilitate the efficient flow of international trade.

"(2) UNITED STATES TRADE REPRESENTATIVE.—

"(A) IN GENERAL.—The United States Trade Representative shall seek commitments in negotiations in the WTO regarding the articles of GATT 1994 that are described in subparagraph (B) that make progress in achieving—

"(i) harmonization of import and export data collected by WTO members for customs purposes, to the extent practicable;

"(ii) enhanced procedural fairness and transparency with respect to the regulation of imports and exports by WTO members;

"(iii) transparent standards for the efficient release of cargo by WTO members, to the extent practicable; and

"(iv) the protection of confidential commercial data.

"(B) ARTICLES DESCRIBED.—The articles of the GATT 1994 described in this subparagraph are the following:

"(i) Article V (relating to transit).

"(ii) Article VIII (relating to fees and formalities associated with importation and exportation).

"(iii) Article X (relating to publication and administration of trade regulations).

"(C) GATT 1994.—The term 'GATT 1994' means the General Agreement on Tariff and Trade annexed to the WTO Agreement.

"(3) CUSTOMS.—The Secretary of Homeland Security, acting through the Commissioner and in consultation with the United States Trade Representative, shall work with the WCO to facilitate the efficient flow of international trade, taking into account existing international agreements and the negotiating objectives of the WTO. The Commissioner shall work to—

"(A) harmonize, to the extent practicable, import data collected by WCO members for customs purposes;

"(B) automate and harmonize, to the extent practicable, the collection and storage of commercial data by WCO members;

"(C) develop, to the extent practicable, transparent standards for the release of cargo by WCO members;

"(D) develop and harmonize, to the extent practicable, standards, technologies, and protocols for physical or nonintrusive examinations that will facilitate the efficient flow of international trade; and

"(E) ensure the protection of confidential commercial data.

"(4) DEFINITION.—In this subsection, the term 'Commissioner' means the Commissioner responsible for the United States Customs and Border Protection in the Department of Homeland Security.".

SEC. 405. INTERNATIONAL TRADE DATA SYSTEM.

Section 411 of the Tariff Act of 1930 (19 U.S.C. 1411) is amended by adding at the end the following:

"(d) INTERNATIONAL TRADE DATA SYSTEM.—

"(1) ESTABLISHMENT.—

"(A) IN GENERAL.—The Secretary of the Treasury (in this subsection, referred to as the 'Secretary') shall oversee the establishment of an electronic trade data interchange system to be known as the 'International Trade Data System' (ITDS). The ITDS shall be implemented not later than the date that the Automated Commercial Environment (commonly referred to as 'ACE') is fully implemented.

"(B) PURPOSE.—The purpose of the ITDS is to eliminate redundant information requirements, to efficiently regulate the flow of commerce, and to effectively enforce laws and regulations relating to international trade, by establishing a single portal system, operated by the United States Customs and Border Protection, for the collection and distribution of standard electronic import and export data required by all participating Federal agencies.

"(C) PARTICIPATION.—

"(i) IN GENERAL.—All Federal agencies that require documentation for clearing or licensing the importation and exportation of cargo shall participate in the ITDS.

"(ii) WAIVER.—The Director of the Office of Management and Budget may waive, in whole or in part, the requirement for participation for any Federal agency based on the vital national interest of the United States.

"(D) CONSULTATION.—The Secretary shall consult with and assist the United States Customs and Border Protection and other agencies in the transition from paper to electronic format for the submission, issuance, and storage of documents relating to data required to enter cargo into the United States. In so doing, the Secretary shall also consult with private sector stakeholders, including the Commercial Operations Advisory Committee, in developing uniform data submission requirements, procedures, and schedules, for the ITDS.

"(E) COORDINATION.—The Secretary shall be responsible for coordinating the operation of the ITDS among the participating agencies and the office within the United States Customs and Border Protection that is responsible for maintaining the ITDS.

"(2) DATA ELEMENTS.—

"(A) IN GENERAL.—The Interagency Steering Committee (established under paragraph (3)) shall, in consultation with the agencies participating in the ITDS, define the standard set of data elements to be collected, stored, and shared in the ITDS, consistent with laws applicable to the collection and protection of import and export information. The Interagency Steering Committee shall periodically review the data elements in order to update the standard set of data elements, as necessary.

"(B) COMMITMENTS AND OBLIGATIONS.—The Interagency Steering Committee shall ensure that the ITDS data requirements are compatible with the commitments and obligations of the United States as a member of the World Customs Organization (WCO) and the World Trade Organization (WTO) for the entry and movement of cargo.

"(3) INTERAGENCY STEERING COMMITTEE.—There is established an Interagency Steering Committee (in this section, referred to as the 'Committee'). The members of the Committee shall include the Secretary (who shall serve as the chairperson of the Committee), the Director of the Office of Management and Budget, and the head of each agency participating in the ITDS. The Committee shall assist the Secretary in overseeing the implementation of, and participation in, the ITDS.

"(4) REPORT.—The President shall submit a report before the end of each fiscal year to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives. Each report shall include information on—

"(A) the status of the ITDS implementation;

"(B) the extent of participation in the ITDS by Federal agencies;

"(C) the remaining barriers to any agency's participation;

"(D) the consistency of the ITDS with applicable standards established by the World Customs Organization and the World Trade Organization;

"(E) recommendations for technological and other improvements to the ITDS; and

"(F) the status of the development, implementation, and management of the Automated Commercial Environment within the United States Customs and Border Protection.

"(5) SENSE OF CONGRESS.—It is the sense of Congress that agency participation in the ITDS is an important priority of the Federal Government and that the Secretary shall coordinate the operation of the ITDS closely among the participating agencies and the office within the United States Customs and Border Protection that is responsible for maintaining the ITDS.

"(6) CONSTRUCTION.—Nothing in this section shall be construed as amending or modifying subsection (g) of section 301 of title 13, United States Code.

"(7) DEFINITION.—The term 'Commercial Operations Advisory Committee' means the Advisory Committee established pursuant to section

9503(c) of the Omnibus Budget Reconciliation Act of 1987 (19 U.S.C. 2071 note) or any successor committee.''.

SEC. 406. IN-BOND CARGO.

Title IV of the Tariff Act of 1930 is amended by inserting after section 553 the following:

"SEC. 553A. REPORT ON IN-BOND CARGO.

''(a) REPORT.—Not later than June 30, 2007, the Commissioner shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Finance of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on Homeland Security of the House of Representatives, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Ways and Means of the House of Representatives that includes—

''(1) a plan for closing in-bond entries at the port of arrival;

''(2) an assessment of the personnel required to ensure 100 percent reconciliation of in-bond entries between the port of arrival and the port of destination or exportation;

''(3) an assessment of the status of investigations of overdue in-bond shipments and an evaluation of the resources required to ensure adequate investigation of overdue in-bond shipments;

''(4) a plan for tracking in-bond cargo within the Automated Commercial Environment (ACE);

''(5) an assessment of whether any particular technologies should be required in the transport of in-bond cargo;

''(6) an assessment of whether ports of arrival should require any additional information regarding shipments of in-bond cargo;

''(7) an evaluation of the criteria for targeting and examining in-bond cargo; and

''(8) an assessment of the feasibility of reducing the transit time for in-bond shipments, including an assessment of the impact of such a change on domestic and international trade.

''(b) DEFINITION.—In this section, the term 'Commissioner' means the Commissioner responsible for the United States Customs and Border Protection in the Department of Homeland Security.''.

SEC. 407. SENSE OF THE SENATE.

It is the sense of the Senate that nothing in sections 111 through 114, 121, and 201 through 236, or the amendments made by such sections, shall be construed to affect the jurisdiction of any Standing Committee of the Senate.

TITLE V—DOMESTIC NUCLEAR DETECTION OFFICE

SEC. 501. ESTABLISHMENT OF DOMESTIC NUCLEAR DETECTION OFFICE.

(a) ESTABLISHMENT OF OFFICE.—The Homeland Security Act of 2002 (6 U.S.C. 101 et seq.) is amended by adding at the end the following:

"TITLE XVIII—DOMESTIC NUCLEAR DETECTION OFFICE

"SEC. 1801. DOMESTIC NUCLEAR DETECTION OFFICE.

''(a) ESTABLISHMENT.—There shall be established in the Department a Domestic Nuclear Detection Office (referred to in this title as the 'Office'). The Secretary may request that the Secretary of Defense, the Secretary of Energy, the Secretary of State, the Attorney General, the Nuclear Regulatory Commission, and the directors of other Federal agencies, including elements of the Intelligence Community, provide for the reimbursable detail of personnel with relevant expertise to the Office.

''(b) DIRECTOR.—The Office shall be headed by a Director for Domestic Nuclear Detection, who shall be appointed by the President.

"SEC. 1802. MISSION OF OFFICE.

''(a) MISSION.—The Office shall be responsible for coordinating Federal efforts to detect and protect against the unauthorized importation, possession, storage, transportation, development, or use of a nuclear explosive device, fissile material, or radiological material in the United States, and to protect against attack using such devices or materials against the people, territory, or interests of the United States and, to this end, shall—

''(1) serve as the primary entity of the United States Government to further develop, acquire, and support the deployment of an enhanced domestic system to detect and report on attempts to import, possess, store, transport, develop, or use an unauthorized nuclear explosive device, fissile material, or radiological material in the United States, and improve that system over time;

''(2) enhance and coordinate the nuclear detection efforts of Federal, State, local, and tribal governments and the private sector to ensure a managed, coordinated response;

''(3) establish, with the approval of the Secretary and in coordination with the Attorney General, the Secretary of Defense, and the Secretary of Energy, additional protocols and procedures for use within the United States to ensure that the detection of unauthorized nuclear explosive devices, fissile material, or radiological material is promptly reported to the Attorney General, the Secretary, the Secretary of Defense, the Secretary of Energy, and other appropriate officials or their respective designees for appropriate action by law enforcement, military, emergency response, or other authorities;

''(4) develop, with the approval of the Secretary and in coordination with the Attorney General, the Secretary of State, the Secretary of Defense, and the Secretary of Energy, an enhanced global nuclear detection architecture with implementation under which—

''(A) the Office will be responsible for the implementation of the domestic portion of the global architecture;

''(B) the Secretary of Defense will retain responsibility for implementation of Department of Defense requirements within and outside the United States; and

''(C) the Secretary of State, the Secretary of Defense, and the Secretary of Energy will maintain their respective responsibilities for policy guidance and implementation of the portion of the global architecture outside the United States, which will be implemented consistent with applicable law and relevant international arrangements;

''(5) ensure that the expertise necessary to accurately interpret detection data is made available in a timely manner for all technology deployed by the Office to implement the global nuclear detection architecture;

''(6) conduct, support, coordinate, and encourage an aggressive, expedited, evolutionary, and transformational program of research and development to generate and improve technologies to detect and prevent the illicit entry, transport, assembly, or potential use within the United States of a nuclear explosive device or fissile or radiological material, and coordinate with the Under Secretary for Science and Technology on basic and advanced or transformational research and development efforts relevant to the mission of both organizations;

''(7) carry out a program to test and evaluate technology for detecting a nuclear explosive device and fissile or radiological material, in coordination with the Secretary of Defense and the Secretary of Energy, as appropriate, and establish performance metrics for evaluating the effectiveness of individual detectors and detection systems in detecting such devices or material—

''(A) under realistic operational and environmental conditions; and

''(B) against realistic adversary tactics and countermeasures;

''(8) support and enhance the effective sharing and use of appropriate information generated by the intelligence community, law enforcement agencies, counterterrorism community, other government agencies, and foreign governments, as well as provide appropriate information to such entities;

''(9) further enhance and maintain continuous awareness by analyzing information from all Office mission-related detection systems; and

''(10) perform other duties as assigned by the Secretary.

"SEC. 1803. HIRING AUTHORITY.

''In hiring personnel for the Office, the Secretary shall have the hiring and management authorities provided in section 1101 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (5 U.S.C. 3104 note). The term of appointments for employees under subsection (c)(1) of such section may not exceed 5 years before granting any extension under subsection (c)(2) of such section.

"SEC. 1804. TESTING AUTHORITY.

''(a) IN GENERAL.—The Director shall coordinate with the responsible Federal agency or other entity to facilitate the use by the Office, by its contractors, or by other persons or entities, of existing Government laboratories, centers, ranges, or other testing facilities for the testing of materials, equipment, models, computer software, and other items as may be related to the missions identified in section 1802. Any such use of Government facilities shall be carried out in accordance with all applicable laws, regulations, and contractual provisions, including those governing security, safety, and environmental protection, including, when applicable, the provisions of section 309. The Office may direct that private sector entities utilizing Government facilities in accordance with this section pay an appropriate fee to the agency that owns or operates those facilities to defray additional costs to the Government resulting from such use.

''(b) CONFIDENTIALITY OF TEST RESULTS.—The results of tests performed with services made available shall be confidential and shall not be disclosed outside the Federal Government without the consent of the persons for whom the tests are performed.

''(c) FEES.—Fees for services made available under this section shall not exceed the amount necessary to recoup the direct and indirect costs involved, such as direct costs of utilities, contractor support, and salaries of personnel that are incurred by the United States to provide for the testing.

''(d) USE OF FEES.—Fees received for services made available under this section may be credited to the appropriation from which funds were expended to provide such services.

"SEC. 1805. RELATIONSHIP TO OTHER DEPARTMENT ENTITIES AND FEDERAL AGENCIES.

''The authority of the Director under this title shall not affect the authorities or responsibilities of any officer of the Department or of any officer of any other department or agency of the United States with respect to the command, control, or direction of the functions, personnel, funds, assets, and liabilities of any entity within the Department or any Federal department or agency.

"SEC. 1806. CONTRACTING AND GRANT MAKING AUTHORITIES.

''The Secretary, acting through the Director for Domestic Nuclear Detection, in carrying out the responsibilities under paragraphs (6) and (7) of section 1802(a), shall—

''(1) operate extramural and intramural programs and distribute funds through grants, cooperative agreements, and other transactions and contracts;

"(2) ensure that activities under paragraphs (6) and (7) of section 1802(a) include investigations of radiation detection equipment in configurations suitable for deployment at seaports, which may include underwater or water surface detection equipment and detection equipment that can be mounted on cranes and straddle cars used to move shipping containers; and

"(3) have the authority to establish or contract with 1 or more federally funded research and development centers to provide independent analysis of homeland security issues and carry out other responsibilities under this title.".

(b) TECHNICAL AND CONFORMING AMENDMENTS.—The Homeland Security Act of 2002 (6 U.S.C. 101 et seq.) is amended—

(1) in section 103(d) (6 U.S.C. 113(d)), by adding at the end the following:

"(5) A Director for Domestic Nuclear Detection.";

(2) in section 302 (6 U.S.C. 182)—

(A) in paragraph (2), by striking "radiological, nuclear"; and

(B) in paragraph (5)(A), by striking "radiological, nuclear"; and

(3) in the table of contents, by adding at the end the following:

"TITLE XVIII—DOMESTIC NUCLEAR DETECTION OFFICE

"Sec. 1801. Domestic Nuclear Detection Office.
"Sec. 1802. Mission of Office.
"Sec. 1803. Hiring authority.
"Sec. 1804. Testing authority.
"Sec. 1805. Relationship to other Department entities and Federal agencies.
"Sec. 1806. Contracting and grant making authorities.".

SEC. 502. TECHNOLOGY RESEARCH AND DEVELOPMENT INVESTMENT STRATEGY FOR NUCLEAR AND RADIOLOGICAL DETECTION.

(a) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, the Secretary, the Secretary of Energy, the Secretary of Defense, and the Director of National Intelligence shall submit to Congress a research and development investment strategy for nuclear and radiological detection.

(b) CONTENTS.—The strategy under subsection (a) shall include—

(1) a long term technology roadmap for nuclear and radiological detection applicable to the mission needs of the Department, the Department of Energy, the Department of Defense, and the Office of the Director of National Intelligence;

(2) budget requirements necessary to meet the roadmap; and

(3) documentation of how the Department, the Department of Energy, the Department of Defense, and the Office of the Director of National Intelligence will execute this strategy.

(c) INITIAL REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit a report to the appropriate congressional committees on—

(1) the impact of this title, and the amendments made by this title, on the responsibilities under section 302 of the Homeland Security Act of 2002 (6 U.S.C. 182); and

(2) the efforts of the Department to coordinate, integrate, and establish priorities for conducting all basic and applied research, development, testing, and evaluation of technology and systems to detect, prevent, protect, and respond to chemical, biological, radiological, and nuclear terrorist attacks.

(d) ANNUAL REPORT.—The Director for Domestic Nuclear Detection and the Under Secretary for Science and Technology shall jointly and annually notify Congress that the strategy and technology road map for nuclear and radiological detection developed under subsections (a) and (b) is consistent with the national policy and strategic plan for identifying priorities, goals, objectives, and policies for coordinating the Federal Government's civilian efforts to identify and develop countermeasures to terrorist threats from weapons of mass destruction that are required under section 302(2) of the Homeland Security Act of 2002 (6 U.S.C. 182(2)).

TITLE VI—COMMERCIAL MOBILE SERVICE ALERTS

SEC. 601. SHORT TITLE.

This title may be cited as the "Warning, Alert, and Response Network Act".

SEC. 602. FEDERAL COMMUNICATIONS COMMISSION DUTIES.

(a) COMMERCIAL MOBILE SERVICE ALERT REGULATIONS.—Within 180 days after the date on which the Commercial Mobile Service Alert Advisory Committee, established pursuant to section 603(a), transmits recommendations to the Federal Communications Commission, the Commission shall complete a proceeding to adopt relevant technical standards, protocols, procedures, and other technical requirements based on the recommendations of such Advisory Committee necessary to enable commercial mobile service alerting capability for commercial mobile service providers that voluntarily elect to transmit emergency alerts. The Commission shall consult with the National Institute of Standards and Technology regarding the adoption of technical standards under this subsection.

(b) COMMERCIAL MOBILE SERVICE ELECTION.—

(1) AMENDMENT OF COMMERCIAL MOBILE SERVICE LICENSE.—Within 120 days after the date on which the Federal Communications Commission adopts relevant technical standards and other technical requirements pursuant to subsection (a), the Commission shall complete a proceeding—

(A) to allow any licensee providing commercial mobile service (as defined in section 332(d)(1) of the Communications Act of 1934 (47 U.S.C. 332(d)(1))) to transmit emergency alerts to subscribers to, or users of, the commercial mobile service provided by such licensee;

(B) to require any licensee providing commercial mobile service that elects, in whole or in part, under paragraph (2) not to transmit emergency alerts to provide clear and conspicuous notice at the point of sale of any devices with which its commercial mobile service is included, that it will not transmit such alerts via the service it provides for the device; and

(C) to require any licensee providing commercial mobile service that elects under paragraph (2) not to transmit emergency alerts to notify its existing subscribers of its election.

(2) ELECTION.—

(A) IN GENERAL.—Within 30 days after the Commission issues its order under paragraph (1), each licensee providing commercial mobile service shall file an election with the Commission with respect to whether or not it intends to transmit emergency alerts.

(B) TRANSMISSION STANDARDS; NOTIFICATION.—If a licensee providing commercial mobile service elects to transmit emergency alerts via its commercial mobile service, the licensee shall—

(i) notify the Commission of its election; and

(ii) agree to transmit such alerts in a manner consistent with the technical standards, protocols, procedures, and other technical requirements implemented by the Commission.

(C) NO FEE FOR SERVICE.—A commercial mobile service licensee that elects to transmit emergency alerts may not impose a separate or additional charge for such transmission or capability.

(D) WITHDRAWAL; LATE ELECTION.—The Commission shall establish a procedure—

(i) for a commercial mobile service licensee that has elected to transmit emergency alerts to withdraw its election without regulatory penalty or forfeiture upon advance written notification of the withdrawal to its affected subscribers;

(ii) for a commercial mobile service licensee to elect to transmit emergency alerts at a date later than provided in subparagraph (A); and

(iii) under which a subscriber may terminate a subscription to service provided by a commercial mobile service licensee that withdraws its election without penalty or early termination fee.

(E) CONSUMER CHOICE TECHNOLOGY.—Any commercial mobile service licensee electing to transmit emergency alerts may offer subscribers the capability of preventing the subscriber's device from receiving such alerts, or classes of such alerts, other than an alert issued by the President. Within 2 years after the Commission completes the proceeding under paragraph (1), the Commission shall examine the issue of whether a commercial mobile service provider should continue to be permitted to offer its subscribers such capability. The Commission shall submit a report with its recommendations to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives.

(c) DIGITAL TELEVISION TRANSMISSION TOWERS RETRANSMISSION CAPABILITY.—Within 90 days after the date on which the Commission adopts relevant technical standards based on recommendations of the Commercial Mobile Service Alert Advisory Committee, established pursuant to section 603(a), the Commission shall complete a proceeding to require licensees and permittees of noncommercial educational broadcast stations or public broadcast stations (as those terms are defined in section 397(6) of the Communications Act of 1934 (47 U.S.C. 397(6))) to install necessary equipment and technologies on, or as part of, any broadcast television digital signal transmitter to enable the distribution of geographically targeted alerts by commercial mobile service providers that have elected to transmit emergency alerts under this section.

(d) FCC REGULATION OF COMPLIANCE.—The Federal Communications Commission may enforce compliance with this title but shall have no rulemaking authority under this title, except as provided in subsections (a), (b), (c), and (f).

(e) LIMITATION OF LIABILITY.—

(1) IN GENERAL.—Any commercial mobile service provider (including its officers, directors, employees, vendors, and agents) that transmits emergency alerts and meets its obligations under this title shall not be liable to any subscriber to, or user of, such person's service or equipment for—

(A) any act or omission related to or any harm resulting from the transmission of, or failure to transmit, an emergency alert; or

(B) the release to a government agency or entity, public safety, fire service, law enforcement official, emergency medical service, or emergency facility of subscriber information used in connection with delivering such an alert.

(2) ELECTION NOT TO TRANSMIT ALERTS.—The election by a commercial mobile service provider under subsection (b)(2)(A) not to transmit emergency alerts, or to withdraw its election to transmit such alerts under subsection (b)(2)(D) shall not, by itself, provide a basis for liability against the provider (including its officers, directors, employees, vendors, and agents).

(f) TESTING.—The Commission shall require by regulation technical testing for commercial mobile service providers that elect to transmit emergency alerts and for the devices and equipment used by such providers for transmitting such alerts.

SEC. 603. COMMERCIAL MOBILE SERVICE ALERT ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—Not later than 60 days after the date of enactment of this Act, the chairman of the Federal Communications Commission shall establish an advisory committee, to

be known as the Commercial Mobile Service Alert Advisory Committee (referred to in this section as the "Advisory Committee").

(b) MEMBERSHIP.—The chairman of the Federal Communications Commission shall appoint the members of the Advisory Committee, as soon as practicable after the date of enactment of this Act, from the following groups:

(1) STATE AND LOCAL GOVERNMENT REPRESENTATIVES.—Representatives of State and local governments and representatives of emergency response providers, selected from among individuals nominated by national organizations representing such governments and personnel.

(2) TRIBAL GOVERNMENTS.—Representatives from Federally recognized Indian tribes and National Indian organizations.

(3) SUBJECT MATTER EXPERTS.—Individuals who have the requisite technical knowledge and expertise to serve on the Advisory Committee in the fulfillment of its duties, including representatives of—

(A) communications service providers;

(B) vendors, developers, and manufacturers of systems, facilities, equipment, and capabilities for the provision of communications services;

(C) third-party service bureaus;.

(D) technical experts from the broadcasting industry;

(E) the national organization representing the licensees and permittees of noncommercial broadcast television stations;

(F) national organizations representing individuals with special needs, including individuals with disabilities and the elderly; and

(G) other individuals with relevant technical expertise.

(4) QUALIFIED REPRESENTATIVES OF OTHER STAKEHOLDERS AND INTERESTED PARTIES.—Qualified representatives of such other stakeholders and interested and affected parties as the chairman deems appropriate.

(c) DEVELOPMENT OF SYSTEM-CRITICAL RECOMMENDATIONS.—Within 1 year after the date of enactment of this Act, the Advisory Committee shall develop and submit to the Federal Communications Commission recommendations—

(1) for protocols, technical capabilities, and technical procedures through which electing commercial mobile service providers receive, verify, and transmit alerts to subscribers;.

(2) for the establishment of technical standards for priority transmission of alerts by electing commercial mobile service providers to subscribers;

(3) for relevant technical standards for devices and equipment and technologies used by electing commercial mobile service providers to transmit emergency alerts to subscribers;

(4) for the technical capability to transmit emergency alerts by electing commercial mobile providers to subscribers in languages in addition to English, to the extent practicable and feasible;

(5) under which electing commercial mobile service providers may offer subscribers the capability of preventing the subscriber's device from receiving emergency alerts, or classes of such alerts, (other than an alert issued by the President), consistent with section 602(b)(2)(E);

(6) for a process under which commercial mobile service providers can elect to transmit emergency alerts if—

(A) not all of the devices or equipment used by such provider are capable of receiving such alerts; or

(B) the provider cannot offer such alerts throughout the entirety of its service area; and

(7) as otherwise necessary to enable electing commercial mobile service providers to transmit emergency alerts to subscribers.

(d) MEETINGS.—

(1) INITIAL MEETING.—The initial meeting of the Advisory Committee shall take place not later than 60 days after the date of the enactment of this Act.

(2) OTHER MEETINGS.—After the initial meeting, the Advisory Committee shall meet at the call of the chair.

(3) NOTICE; OPEN MEETINGS.—Any meetings held by the Advisory Committee shall be duly noticed at least 14 days in advance and shall be open to the public.

(e) RULES.—

(1) QUORUM.—One-third of the members of the Advisory Committee shall constitute a quorum for conducting business of the Advisory Committee.

(2) SUBCOMMITTEES.—To assist the Advisory Committee in carrying out its functions, the chair may establish appropriate subcommittees composed of members of the Advisory Committee and other subject matter experts as deemed necessary.

(3) ADDITIONAL RULES.—The Advisory Committee may adopt other rules as needed.

(f) FEDERAL ADVISORY COMMITTEE ACT.—Neither the Federal Advisory Committee Act (5 U.S.C. App.) nor any rule, order, or regulation promulgated under that Act shall apply to the Advisory Committee.

(g) CONSULTATION WITH NIST.—The Advisory Committee shall consult with the National Institute of Standards and Technology in its work on developing recommendations under paragraphs (2) and (3) of subsection (c).

SEC. 604. RESEARCH AND DEVELOPMENT.

(a) IN GENERAL.—The Under Secretary of Homeland Security for Science and Technology, in consultation with the director of the National Institute of Standards and Technology and the chairman of the Federal Communications Commission, shall establish a research, development, testing, and evaluation program based on the recommendations of the Commercial Mobile Service Alert Advisory Committee, established pursuant to section 603(a), to support the development of technologies to increase the number of commercial mobile service devices that can receive emergency alerts.

(b) FUNCTIONS.—The program established under subsection (a) shall—

(1) fund research, development, testing, and evaluation at academic institutions, private sector entities, government laboratories, and other appropriate entities; and

(2) ensure that the program addresses, at a minimum—

(A) developing innovative technologies that will transmit geographically targeted emergency alerts to the public; and

(B) research on understanding and improving public response to warnings.

SEC. 605. GRANT PROGRAM FOR REMOTE COMMUNITY ALERT SYSTEMS.

(a) GRANT PROGRAM.—The Under Secretary of Commerce for Oceans and Atmosphere, in consultation with the Secretary of Homeland Security, shall establish a program under which grants may be made to provide for outdoor alerting technologies in remote communities effectively unserved by commercial mobile service (as determined by the Federal Communications Commission within 180 days after the date of enactment of this Act) for the purpose of enabling residents of those communities to receive emergency alerts.

(b) APPLICATIONS AND CONDITIONS.—In conducting the program, the Under Secretary—

(1) shall establish a notification and application procedure; and

(2) may establish such conditions, and require such assurances, as may be appropriate to ensure the efficiency and integrity of the grant program.

(c) SUNSET.—The Under Secretary may not make grants under subsection (a) more than 5 years after the date of enactment of this Act.

(d) LIMITATION.—The sum of the amounts awarded for all fiscal years as grants under this section may not exceed $10,000,000.

SEC. 606. FUNDING.

(a) IN GENERAL.—In addition to any amounts provided by appropriation Acts, funding for this title shall be provided from the Digital Transition and Public Safety Fund in accordance with section 3010 of the Digital Television Transition and Public Safety Act of 2005 (47 U.S.C. 309 note).

(b) COMPENSATION.—The Assistant Secretary of Commerce for Communications and Information shall compensate any such broadcast station licensee or permittee for reasonable costs incurred in complying with the requirements imposed pursuant to section 602(c) from funds made available under this section. The Assistant Secretary shall ensure that sufficient funds are made available to effectuate geographically targeted alerts.

(c) CREDIT.—The Assistant Secretary of Commerce for Communications and Information, in consultation with the Under Secretary of Homeland Security for Science and Technology and the Under Secretary of Commerce for Oceans and Atmosphere, may borrow from the Treasury beginning on October 1, 2006, such sums as may be necessary, but not to exceed $106,000,000, to implement this title. The Assistant Secretary of Commerce for Communications and Information shall ensure that the Under Secretary of Homeland Security for Science and Technology and the Under Secretary of Commerce for Oceans and Atmosphere are provided adequate funds to carry out their responsibilities under sections 604 and 605 of this title. The Treasury shall be reimbursed, without interest, from amounts in the Digital Television Transition and Public Safety Fund as funds are deposited into the Fund.

SEC. 607. ESSENTIAL SERVICES DISASTER ASSISTANCE.

Title IV of the Robert T. Stafford Disaster Relief and Emergency Assistdnce Act (42 U.S.C. 5170 et seq.) is amended by adding at the end the following:

"SEC. 425. ESSENTIAL SERVICE PROVIDERS.

"(a) DEFINITION.—In this section, the term 'essential service provider' means an entity that—

"(1) provides—

"(A) telecommunications service;

"(B) electrical power;

"(C) natural gas;

"(D) water and sewer services; or

"(E) any other essential service, as determined by the President;

"(2) is—

"(A) a municipal entity;

"(B) a nonprofit entity; or

"(C) a private, for profit entity; and

"(3) is contributing to efforts to respond to an emergency or major disaster.

"(b) AUTHORIZATION FOR ACCESSIBILITY.—Unless exceptional circumstances apply, in an emergency or major disaster, the head of a Federal agency, to the greatest extent practicable, shall not—

"(1) deny or impede access to the disaster site to an essential service provider whose access is necessary to restore and repair an essential service; or

"(2) impede the restoration or repair of the services described in subsection (a)(1).

"(c) IMPLEMENTATION.—In implementing this section, the head of a Federal agency shall follow all applicable Federal laws, regulations, and policies.".

SEC. 608. COMMUNITY DISASTER LOANS.

Section 417(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5184(b)) is amended—

(1) by striking "exceed 25 per centum" and inserting the following: "exceed—

"(1) 25 percent"; and

(2) by striking the period at the end and inserting the following: "; or

"(2) if the loss of tax and other revenues of the local government as a result of the major disaster is at least 75 percent of the annual operating budget of that local government for the fiscal year in which the major disaster occurs, 50 percent of the annual operating budget of that local government for the fiscal year in which the major disaster occurs, and shall not exceed $5,000,000.".

SEC. 609. PUBLIC FACILITIES.

Section 406(c)(1) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5172(c)(1)) is amended—

(1) in subparagraph (A), by striking "75" and inserting "90";

(2) by striking subparagraph (B); and

(3) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

SEC. 610. EXPEDITED PAYMENTS.

Section 407 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5173) is amended by adding at the end the following:

"(e) EXPEDITED PAYMENTS.—

"(1) GRANT ASSISTANCE.—In making a grant under subsection (a)(2), the President shall provide not less than 50 percent of the President's initial estimate of the Federal share of assistance as an initial payment in accordance with paragraph (2).

"(2) DATE OF PAYMENT.—Not later than 60 days after the date of the estimate described in paragraph (1) and not later than 90 days after the date on which the State or local government or owner or operator of a private nonprofit facility applies for assistance under this section, an initial payment described in paragraph (1) shall be paid.".

SEC. 611. USE OF LOCAL CONTRACTING.

Section 307(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5150), as amended by the Post-Katrina Emergency Management Reform Act of 2006, is amended by adding at the end the following:

"(3) FORMULATION OF REQUIREMENTS.—The head of a Federal agency, as feasible and practicable, shall formulate appropriate requirements to facilitate compliance with this section.".

SEC. 612. FEMA PROGRAMS.

Notwithstanding any other provision of Federal law, as of April 1, 2007, the Director of the Federal Emergency Management Agency shall be responsible for the radiological emergency preparedness program and the chemical stockpile emergency preparedness program.

SEC. 613. HOMELAND SECURITY DEFINITION.

Section 2(6) of the Homeland Security Act of 2002 (6 U.S.C. 101(6)) is amended by inserting "governmental and nongovernmental" after "local".

TITLE VII—OTHER MATTERS

SEC. 701. SECURITY PLAN FOR ESSENTIAL AIR SERVICE AND SMALL COMMUNITY AIRPORTS.

(a) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Assistant Secretary for the Transportation Security Administration shall submit to Congress a security plan for—

(1) Essential Air Service airports in the United States; and

(2) airports whose community or consortia of communities receive assistance under the Small Community Air Service Development Program authorized under section 41743 of title 49, United States Code, and maintain, resume, or obtain scheduled passenger air carrier service with assistance from that program in the United States.

(b) ELEMENTS OF PLAN.—The security plans required under subsection (a) shall include the following:

(1) Recommendations for improved security measures at such airports.

(2) Recommendations for proper passenger and cargo security screening procedures at such airports.

(3) A timeline for implementation of recommended security measures or procedures at such airports.

(4) Cost analysis for implementation of recommended security measures or procedures at such airports.

SEC. 702. DISCLOSURES REGARDING HOMELAND SECURITY GRANTS.

(a) DEFINITIONS.—In this section:

(1) HOMELAND SECURITY GRANT.—The term "homeland security grant" means any grant made or administered by the Department, including—

(A) the State Homeland Security Grant Program;

(B) the Urban Area Security Initiative Grant Program;

(C) the Law Enforcement Terrorism Prevention Program;

(D) the Citizen Corps; and

(E) the Metropolitan Medical Response System.

(2) LOCAL GOVERNMENT.—The term "local government" has the meaning given the term in section 2 of the Homeland Security Act of 2002 (6 U.S.C. 101).

(b) REQUIRED DISCLOSURES.—Each State or local government that receives a homeland security grant shall, not later than 12 months after the later of the date of the enactment of this Act and the date of receipt of such grant, and every 12 months thereafter until all funds provided under such grant are expended, submit a report to the Secretary that contains a list of all expenditures made by such State or local government using funds from such grant.

SEC. 703. TRUCKING SECURITY.

(a) LEGAL STATUS VERIFICATION FOR LICENSED UNITED STATES COMMERCIAL DRIVERS.—Not later than 18 months after the date of the enactment of this Act, the Secretary of Transportation, in cooperation with the Secretary, shall issue regulations to implement the recommendations contained in the memorandum of the Inspector General of the Department of Transportation issued on June 4, 2004 (Control No. 2004–054).

(b) COMMERCIAL DRIVER'S LICENSE ANTIFRAUD PROGRAMS.—Not later than 18 months after the date of the enactment of this Act, the Secretary of Transportation, in cooperation with the Secretary, shall issue a regulation to implement the recommendations contained in the Report on Federal Motor Carrier Safety Administration Oversight of the Commercial Driver's License Program (MH–2006–037).

(c) VERIFICATION OF COMMERCIAL MOTOR VEHICLE TRAFFIC.—

(1) GUIDELINES.—Not later than 18 months after the date of the enactment of this Act, the Secretary, in consultation with the Secretary of Transportation, shall draft guidelines for Federal, State, and local law enforcement officials, including motor carrier safety enforcement personnel, on how to identify noncompliance with Federal laws uniquely applicable to commercial motor vehicles and commercial motor vehicle operators engaged in cross-border traffic and communicate such noncompliance to the appropriate Federal authorities. Such guidelines shall be coordinated with the training and outreach activities of the Federal Motor Carrier Safety Administration under section 4139 of SAFETEA-LU (Public Law 109–59).

(2) VERIFICATION.—Not later than 18 months after the date of the enactment of this Act, the Administrator of the Federal Motor Carrier Safety Administration shall modify the final rule regarding the enforcement of operating authority (Docket No. FMCSA–2002–13015) to establish a system or process by which a carrier's operating authority can be verified during a roadside inspection.

SEC. 704. AIR AND MARINE OPERATIONS OF THE NORTHERN BORDER AIR WING.

In addition to any other amounts authorized to be appropriated for Air and Marine Operations of United States Customs and Border Protection for fiscal year 2008, there are authorized to be appropriated such sums as may be necessary for operation expenses and aviation assets, for primary and secondary sites, of the Northern Border Air Wing Branch in Great Falls, Montana.

SEC. 705. PHASEOUT OF VESSELS SUPPORTING OIL AND GAS DEVELOPMENT.

(a) IN GENERAL.—Notwithstanding section 12105(c) of title 46, United States Code, a foreign-flag vessel may be chartered by, or on behalf of, a lessee to be employed for the setting, relocation, or recovery of anchors or other mooring equipment of a mobile offshore drilling unit that is located over the Outer Continental Shelf (as defined in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a)) for operations in support of exploration, or flowtesting and stimulation of wells, for offshore mineral or energy resources in the Beaufort Sea or the Chukchi Sea adjacent to Alaska—

(1) until December 31, 2009, if the Secretary of Transportation determines after publishing notice in the Federal Register, that insufficient vessels documented under section 12105(c) of title 46, United States Code, are reasonably available and suitable for these support operations and all such reasonably available and suitable vessels are employed in support of such operations; and

(2) for an additional 2-year period beginning January 1, 2010, if the Secretary of Transportation determines —

(A) as of December 31, 2009, the lessee has entered into a binding agreement to employ an eligible vessel or vessels to be documented under section 12105(c) of title 46, United States Code, in sufficient numbers and with sufficient suitability to replace any vessel or vessels operating under this section; and

(B) after publishing notice in the Federal Register, that insufficient vessels documented under section 12105(c) of title 46, United States Code, are reasonably available and suitable for these support operations and all such reasonably available and suitable vessels are employed in support of such operations.

(b) LESSEE DEFINED.—In this section, the term "lessee" means the holder of a lease (as defined in section 1331(c) of title 43, United States Code).

(c) SAVINGS PROVISION.—Nothing in subsection (a) may be construed to authorize the employment in the coastwise trade of a vessel that does not meet the requirements of section 12106 of title 46, United States Code.

SEC. 706. COAST GUARD PROPERTY IN PORTLAND, MAINE.

Section 347(c) of the Maritime Transportation Security Act of 2002 (Public Law 107–295; 116 Stat. 2109) is amended by striking "within 30 months from the date of conveyance" and inserting "by December 31, 2009".

SEC. 707. METHAMPHETAMINE AND METHAMPHETAMINE PRECURSOR CHEMICALS.

(a) COMPLIANCE WITH PERFORMANCE PLAN REQUIREMENTS.—As part of the annual performance plan required in the budget submission of the United States Customs and Border Protection under section 1115 of title 31, United States Code, the Commissioner shall establish performance indicators relating to the seizure of methamphetamine and methamphetamine precursor chemicals in order to evaluate the performance *goals of the United States Customs and Border Protection with respect to the interdiction of illegal drugs entering the United States.*

(b) STUDY AND REPORT RELATING TO METHAMPHETAMINE AND METHAMPHETAMINE PRECURSOR CHEMICALS.—

(1) ANALYSIS.—The Commissioner shall, on an ongoing basis, analyze the movement of methamphetamine and methamphetamine precursor chemicals into the United States. In conducting the analysis, the Commissioner shall—

(A) consider the entry of methamphetamine and methamphetamine precursor chemicals through ports of entry, between ports of entry, through international mails, and through international courier services;

(B) examine the export procedures of each foreign country where the shipments of methamphetamine and methamphetamine precursor chemicals originate and determine if changes in the country's customs over time provisions would alleviate the export of methamphetamine and methamphetamine precursor chemicals; and

(C) identify emerging trends in smuggling techniques and strategies.

(2) REPORT.—Not later than September 30, 2007, and each 2-year period thereafter, the Commissioner, in the consultation with the Attorney General, United States Immigration and Customs Enforcement, the United States Drug Enforcement Administration, and the United States Department of State, shall submit a report to the Committee on Finance of the Senate, the Committee on Foreign Relations of the Senate, the Committee on the Judiciary of the Senate, the Committee on Ways and Means of the House of Representatives, the Committee on International Relations of the House of Representatives, and the Committee on the Judiciary of the House of Representatives, that includes—

(A) a comprehensive summary of the analysis described in paragraph (1); and

(B) a description of how the Untied States Customs and Border Protection utilized the analysis described in paragraph (1) to target shipments presenting a high risk for smuggling or circumvention of the Combat Methamphetamine Epidemic Act of 2005 (Public Law 109–177).

(3) AVAILABILITY OF ANALYSIS.—The Commissioner shall ensure that the analysis described in paragraph (1) is made available in a timely manner to the Secretary of State to facilitate the Secretary in fulfilling the Secretary's reporting requirements in section 722 of the Combat Methamphetamine Epidemic Act of 2005.

(c) DEFINITION.—In this section, the term "methamphetamine precursor chemicals" means the chemicals ephedrine, pseudoephedrine, or phenylpropanolamine, including each of the salts, optical isomers, and salts of optical isomers of such chemicals.

SEC. 708. AIRCRAFT CHARTER CUSTOMER AND LESSEE PRESCREENING PROGRAM.

(a) IMPLEMENTATION STATUS.—Not later than 270 days after the implementation of the Department's aircraft charter customer and lessee prescreening process required under section 44903(j)(2) of title 49, United States Code, the Comptroller General of the United States shall—

(1) assess the status and implementation of the program and the use of the program by the general aviation charter and rental community; and

(2) submit a report containing the findings, conclusions, and recommendations, if any, of such assessment to—

(A) the Committee on Commerce, Science, and Transportation of the Senate;

(B) the Committee on Homeland Security of the House of Representatives; and

(C) the Committee on Transportation and Infrastructure of the House of Representatives.

SEC. 709. PROTECTION OF HEALTH AND SAFETY DURING DISASTERS.

(a) DEFINITIONS.—In this section:

(1) CERTIFIED MONITORING PROGRAM.—The term "certified monitoring program" means a medical monitoring program—

(A) in which a participating responder is a participant as a condition of the employment of such participating responder; and

(B) that the Secretary of Health and Human Services certifies includes an adequate baseline medical screening.

(2) DISASTER AREA.—The term "disaster area" means an area in which the President has declared a major disaster (as that term is defined in section 102 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122)), during the period of such declaration.

(3) HIGH EXPOSURE LEVEL.—The term "high exposure level" means a level of exposure to a substance of concern that is for such a duration, or of such a magnitude, that adverse effects on human health can be reasonably expected to occur, as determined by the President, acting through the Secretary of Health and Human Services, in accordance with human monitoring or environmental or other appropriate indicators.

(4) INDIVIDUAL.—The term "individual" includes—

(A) a worker or volunteer who responds to a disaster, either natural or manmade, involving any mode of transportation in the United States or disrupting the transportation system of the United States, including—

(i) a police officer;

(ii) a firefighter;

(iii) an emergency medical technician;

(iv) any participating member of an urban search and rescue team; and

(v) any other relief or rescue worker or volunteer that the President, acting through the Secretary of Health and Human Services, determines to be appropriate;

(B) a worker who responds to a disaster, either natural or manmade, involving any mode of transportation in the United States or disrupting the transportation system of the United States, by assisting in the cleanup or restoration of critical infrastructure in and around a disaster area;

(C) a person whose place of residence is in a disaster area, caused by either a natural or manmade disaster involving any mode of transportation in the United States or disrupting the transportation system of the United States;

(D) a person who is employed in or attends school, child care, or adult day care in a building located in a disaster area, caused by either a natural or manmade disaster involving any mode of transportation in the United States or disrupting the transportation system of the United States, of the United States; and

(E) any other person that the President, acting through the Secretary of Health and Human Services, determines to be appropriate.

(5) PARTICIPATING RESPONDER.—The term "participating responder" means an individual described in paragraph (4)(A).

(6) PROGRAM.—The term "program" means a program described in subsection (b) that is carried out for a disaster area.

(7) SUBSTANCE OF CONCERN.—The term "substance of concern" means a chemical or other substance that is associated with potential acute or chronic human health effects, the risk of exposure to which could potentially be increased as the result of a disaster, as determined by the President, acting through the Secretary of Health and Human Services, and in coordination with the Agency for Toxic Substances and Disease Registry, the Environmental Protection Agency, the Centers for Disease Control and Prevention, the National Institutes of Health, the Federal Emergency Management Agency, the Occupational Health and Safety Administration, and other agencies.

(b) PROGRAM.—

(1) IN GENERAL.—If the President, acting through the Secretary of Health and Human Services, determines that 1 or more substances of concern are being, or have been, released in an area declared to be a disaster area and disrupts the transportation system of the United States, the President, acting through the Secretary of Health and Human Services, may carry out a program for the coordination, protection, assessment, monitoring, and study of the health and safety of individuals with high exposure levels to ensure that—

(A) the individuals are adequately informed about and protected against potential health impacts of any substance of concern in a timely manner;

(B) the individuals are monitored and studied over time, including through baseline and followup clinical health examinations, for—

(i) any short- and long-term health impacts of any substance of concern; and

(ii) any mental health impacts;

(C) the individuals receive health care referrals as needed and appropriate; and

(D) information from any such monitoring and studies is used to prevent or protect against similar health impacts from future disasters.

(2) ACTIVITIES.—A program under paragraph (1) may include such activities as—

(A) collecting and analyzing environmental exposure data;

(B) developing and disseminating information and educational materials;

(C) performing baseline and followup clinical health and mental health examinations and taking biological samples;

(D) establishing and maintaining an exposure registry;

(E) studying the short- and long-term human health impacts of any exposures through epidemiological and other health studies; and

(F) providing assistance to individuals in determining eligibility for health coverage and identifying appropriate health services.

(3) TIMING.—To the maximum extent practicable, activities under any program carried out under paragraph (1) (including baseline health examinations) shall be commenced in a timely manner that will ensure the highest level of public health protection and effective monitoring.

(4) PARTICIPATION IN REGISTRIES AND STUDIES.—

(A) IN GENERAL.—Participation in any registry or study that is part of a program carried out under paragraph (1) shall be voluntary.

(B) PROTECTION OF PRIVACY.—The President, acting through the Secretary of Health and Human Services, shall take appropriate measures to protect the privacy of any participant in a registry or study described in subparagraph (A).

(C) PRIORITY.—

(i) IN GENERAL.—Except as provided in clause (ii), the President, acting through the Secretary of Health and Human Services, shall give priority in any registry or study described in subparagraph (A) to the protection, monitoring and study of the health and safety of individuals with the highest level of exposure to a substance of concern.

(ii) MODIFICATIONS.—Notwithstanding clause (i), the President, acting through the Secretary of Health and Human Services, may modify the priority of a registry or study described in subparagraph (A), if the President, acting through the Secretary of Health and Human Services, determines such modification to be appropriate.

(5) COOPERATIVE AGREEMENTS.—

(A) IN GENERAL.—The President, acting through the Secretary of Health and Human

Services, may carry out a program under paragraph (1) through a cooperative agreement with a medical institution, including a local health department, or a consortium of medical institutions.

(B) SELECTION CRITERIA.—To the maximum extent practicable, the President, acting through the Secretary of Health and Human Services, shall select, to carry out a program under paragraph (1), a medical institution or a consortium of medical institutions that—

(i) is located near—

(I) the disaster area with respect to which the program is carried out; and

(II) any other area in which there reside groups of individuals that worked or volunteered in response to the disaster; and

(ii) has appropriate experience in the areas of environmental or occupational health, toxicology, and safety, including experience in—

(I) developing clinical protocols and conducting clinical health examinations, including mental health assessments;

(II) conducting long-term health monitoring and epidemiological studies;

(III) conducting long-term mental health studies; and

(IV) establishing and maintaining medical surveillance programs and environmental exposure or disease registries.

(6) INVOLVEMENT.—

(A) IN GENERAL.—In carrying out a program under paragraph (1), the President, acting through the Secretary of Health and Human Services, shall involve interested and affected parties, as appropriate, including representatives of—

(i) Federal, State, and local government agencies;

(ii) groups of individuals that worked or volunteered in response to the disaster in the disaster area;

(iii) local residents, businesses, and schools (including parents and teachers);

(iv) health care providers;

(v) faith based organizations; and

(vi) other organizations and persons.

(B) COMMITTEES.—Involvement under subparagraph (A) may be provided through the establishment of an advisory or oversight committee or board.

(7) PRIVACY.—The President, acting through the Secretary of Health and Human Services, shall carry out each program under paragraph (1) in accordance with regulations relating to privacy promulgated under section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d–2 note; Public Law 104–191).

(8) EXISTING PROGRAMS.—In carrying out a program under paragraph (1), the President, acting through the Secretary of Health and Human Services, may—

(A) include the baseline clinical health examination of a participating responder under a certified monitoring programs; and

(B) substitute the baseline clinical health examination of a participating responder under a certified monitoring program for a baseline clinical health examination under paragraph (1).

(c) REPORTS.—Not later than 1 year after the establishment of a program under subsection (b)(1), and every 5 years thereafter, the President, acting through the Secretary of Health and Human Services, or the medical institution or consortium of such institutions having entered into a cooperative agreement under subsection (b)(5), may submit a report to the Secretary of Homeland Security, the Secretary of Labor, the Administrator of the Environmental Protection Agency, and appropriate committees of Congress describing the programs and studies carried out under the program.

(d) NATIONAL ACADEMY OF SCIENCES REPORT ON DISASTER AREA HEALTH AND ENVIRONMENTAL PROTECTION AND MONITORING.—

(1) IN GENERAL.—The Secretary of Health and Human Services, the Secretary of Homeland Security, and the Administrator of the Environmental Protection Agency shall jointly enter into a contract with the National Academy of Sciences to conduct a study and prepare a report on disaster area health and environmental protection and monitoring.

(2) PARTICIPATION OF EXPERTS.—The report under paragraph (1) shall be prepared with the participation of individuals who have expertise in—

(A) environmental health, safety, and medicine;

(B) occupational health, safety, and medicine;

(C) clinical medicine, including pediatrics;

(D) environmental toxicology;

(E) epidemiology;

(F) mental health;

(G) medical monitoring and surveillance;

(H) environmental monitoring and surveillance;

(I) environmental and industrial hygiene;

(J) emergency planning and preparedness;

(K) public outreach and education;

(L) State and local health departments;

(M) State and local environmental protection departments;

(N) functions of workers that respond to disasters, including first responders;

(O) public health; and

(P) family services, such as counseling and other disaster-related services provided to families.

(3) CONTENTS.—The report under paragraph (1) shall provide advice and recommendations regarding protecting and monitoring the health and safety of individuals potentially exposed to any chemical or other substance associated with potential acute or chronic human health effects as the result of a disaster, including advice and recommendations regarding—

(A) the establishment of protocols for monitoring and responding to chemical or substance releases in a disaster area to protect public health and safety, including—

(i) chemicals or other substances for which samples should be collected in the event of a disaster, including a terrorist attack;

(ii) chemical- or substance-specific methods of sample collection, including sampling methodologies and locations;

(iii) chemical- or substance-specific methods of sample analysis;

(iv) health-based threshold levels to be used and response actions to be taken in the event that thresholds are exceeded for individual chemicals or other substances;

(v) procedures for providing monitoring results to—

(I) appropriate Federal, State, and local government agencies;

(II) appropriate response personnel; and

(III) the public;

(vi) responsibilities of Federal, State, and local agencies for—

(I) collecting and analyzing samples;

(II) reporting results; and

(III) taking appropriate response actions; and

(vii) capabilities and capacity within the Federal Government to conduct appropriate environmental monitoring and response in the event of a disaster, including a terrorist attack; and

(B) other issues specified by the Secretary of Health and Human Services, the Secretary of Homeland Security, and the Administrator of the Environmental Protection Agency.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this subsection.

TITLE VIII—UNLAWFUL INTERNET GAMBLING ENFORCEMENT

SEC. 801. SHORT TITLE.

This title may be cited as the "Unlawful Internet Gambling Enforcement Act of 2006".

SEC. 802. PROHIBITION ON ACCEPTANCE OF ANY PAYMENT INSTRUMENT FOR UNLAWFUL INTERNET GAMBLING.

(a) IN GENERAL.—Chapter 53 of title 31, United States Code, is amended by adding at the end the following:

"SUBCHAPTER IV—PROHIBITION ON FUNDING OF UNLAWFUL INTERNET GAMBLING

"§5361. Congressional findings and purpose

"(a) FINDINGS.—Congress finds the following:

"(1) Internet gambling is primarily funded through personal use of payment system instruments, credit cards, and wire transfers.

"(2) The National Gambling Impact Study Commission in 1999 recommended the passage of legislation to prohibit wire transfers to Internet gambling sites or the banks which represent such sites.

"(3) Internet gambling is a growing cause of debt collection problems for insured depository institutions and the consumer credit industry.

"(4) New mechanisms for enforcing gambling laws on the Internet are necessary because traditional law enforcement mechanisms are often inadequate for enforcing gambling prohibitions or regulations on the Internet, especially where such gambling crosses State or national borders.

"(b) RULE OF CONSTRUCTION.—No provision of this subchapter shall be construed as altering, limiting, or extending any Federal or State law or Tribal-State compact prohibiting, permitting, or regulating gambling within the United States.

"§5362. Definitions

"In this subchapter:

"(1) BET OR WAGER.—The term 'bet or wager'—

"(A) means the staking or risking by any person of something of value upon the outcome of a contest of others, a sporting event, or a game subject to chance, upon an agreement or understanding that the person or another person will receive something of value in the event of a certain outcome;

"(B) includes the purchase of a chance or opportunity to win a lottery or other prize (which opportunity to win is predominantly subject to chance);

"(C) includes any scheme of a type described in section 3702 of title 28;

"(D) includes any instructions or information pertaining to the establishment or movement of funds by the bettor or customer in, to, or from an account with the business of betting or wagering; and

"(E) does not include—

"(i) any activity governed by the securities laws (as that term is defined in section 3(a)(47) of the Securities Exchange Act of 1934 for the purchase or sale of securities (as that term is defined in section 3(a)(10) of that Act);

"(ii) any transaction conducted on or subject to the rules of a registered entity or exempt board of trade under the Commodity Exchange Act;

"(iii) any over-the-counter derivative instrument;

"(iv) any other transaction that—

"(I) is excluded or exempt from regulation under the Commodity Exchange Act; or

"(II) is exempt from State gaming or bucket shop laws under section 12(e) of the Commodity Exchange Act or section 28(a) of the Securities Exchange Act of 1934;

"(v) any contract of indemnity or guarantee;

"(vi) any contract for insurance;

"(vii) any deposit or other transaction with an insured depository institution;

"(viii) participation in any game or contest in which participants do not stake or risk anything of value other than—

"(I) personal efforts of the participants in playing the game or contest or obtaining access to the Internet; or

“(II) points or credits that the sponsor of the game or contest provides to participants free of charge and that can be used or redeemed only for participation in games or contests offered by the sponsor; or

“(ix) participation in any fantasy or simulation sports game or educational game or contest in which (if the game or contest involves a team or teams) no fantasy or simulation sports team is based on the current membership of an actual team that is a member of an amateur or professional sports organization (as those terms are defined in section 3701 of title 28) and that meets the following conditions:

“(I) All prizes and awards offered to winning participants are established and made known to the participants in advance of the game or contest and their value is not determined by the number of participants or the amount of any fees paid by those participants.

“(II) All winning outcomes reflect the relative knowledge and skill of the participants and are determined predominantly by accumulated statistical results of the performance of individuals (athletes in the case of sports events) in multiple real-world sporting or other events.

“(III) No winning outcome is based—

“(aa) on the score, point-spread, or any performance or performances of any single real-world team or any combination of such teams; or

“(bb) solely on any single performance of an individual athlete in any single real-world sporting or other event.

“(2) BUSINESS OF BETTING OR WAGERING.—The term ‘business of betting or wagering’ does not include the activities of a financial transaction provider, or any interactive computer service or telecommunications service.

“(3) DESIGNATED PAYMENT SYSTEM.—The term ‘designated payment system’ means any system utilized by a financial transaction provider that the Secretary and the Board of Governors of the Federal Reserve System, in consultation with the Attorney General, jointly determine, by regulation or order, could be utilized in connection with, or to facilitate, any restricted transaction.

“(4) FINANCIAL TRANSACTION PROVIDER.—The term ‘financial transaction provider’ means a creditor, credit card issuer, financial institution, operator of a terminal at which an electronic fund transfer may be initiated, money transmitting business, or international, national, regional, or local payment network utilized to effect a credit transaction, electronic fund transfer, stored value product transaction, or money transmitting service, or a participant in such network, or other participant in a designated payment system.

“(5) INTERNET.—The term ‘Internet’ means the international computer network of interoperable packet switched data networks.

“(6) INTERACTIVE COMPUTER SERVICE.—The term ‘interactive computer service’ has the meaning given the term in section 230(f) of the Communications Act of 1934 (47 U.S.C. 230(f)).

“(7) RESTRICTED TRANSACTION.—The term ‘restricted transaction’ means any transaction or transmittal involving any credit, funds, instrument, or proceeds described in any paragraph of section 5363 which the recipient is prohibited from accepting under section 5363.

“(8) SECRETARY.—The term ‘Secretary’ means the Secretary of the Treasury.

“(9) STATE.—The term ‘State’ means any State of the United States, the District of Columbia, or any commonwealth, territory, or other possession of the United States.

“(10) UNLAWFUL INTERNET GAMBLING.—

“(A) IN GENERAL.—The term ‘unlawful Internet gambling’ means to place, receive, or otherwise knowingly transmit a bet or wager by any means which involves the use, at least in part, of the Internet where such bet or wager is unlawful under any applicable Federal or State law in the State or Tribal lands in which the bet or wager is initiated, received, or otherwise made.

“(B) INTRASTATE TRANSACTIONS.—The term ‘unlawful Internet gambling’ does not include placing, receiving, or otherwise transmitting a bet or wager where—

“(i) the bet or wager is initiated and received or otherwise made exclusively within a single State;

“(ii) the bet or wager and the method by which the bet or wager is initiated and received or otherwise made is expressly authorized by and placed in accordance with the laws of such State, and the State law or regulations include—

“(I) age and location verification requirements reasonably designed to block access to minors and persons located out of such State; and

“(II) appropriate data security standards to prevent unauthorized access by any person whose age and current location has not been verified in accordance with such State’s law or regulations; and

“(iii) the bet or wager does not violate any provision of—

“(I) the Interstate Horseracing Act of 1978 (15 U.S.C. 3001 et seq.);

“(II) chapter 178 of title 28 (commonly known as the ‘Professional and Amateur Sports Protection Act’);

“(III) the Gambling Devices Transportation Act (15 U.S.C. 1171 et seq.); or

“(IV) the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

“(C) INTRATRIBAL TRANSACTIONS.—The term ‘unlawful Internet gambling’ does not include placing, receiving, or otherwise transmitting a bet or wager where—

“(i) the bet or wager is initiated and received or otherwise made exclusively—

“(I) within the Indian lands of a single Indian tribe (as such terms are defined under the Indian Gaming Regulatory Act; or

“(II) between the Indian lands of 2 or more Indian tribes to the extent that intertribal gaming is authorized by the Indian Gaming Regulatory Act;

“(ii) the bet or wager and the method by which the bet or wager is initiated and received or otherwise made is expressly authorized by and complies with the requirements of—

“(I) the applicable tribal ordinance or resolution approved by the Chairman of the National Indian Gaming Commission; and

“(II) with respect to class III gaming, the applicable Tribal-State Compact;

“(iii) the applicable tribal ordinance or resolution or Tribal-State compact includes—

“(I) age and location verification requirements reasonably designed to block access to minors and persons located out of the applicable Tribal lands; and

“(II) appropriate data security standards to prevent unauthorized access by any person whose age and current location has not been verified in accordance with the applicable tribal ordinance or resolution or Tribal-State Compact; and

“(iv) the bet or wager does not violate any provision of—

“(I) the Interstate Horseracing Act of 1978 (15 U.S.C. 3001 et seq.);

“(II) chapter 178 of title 28 (commonly known as the ‘Professional and Amateur Sports Protection Act’);

“(III) the Gambling Devices Transportation Act (15 U.S.C. 1171 et seq.); or

“(IV) the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

“(D) INTERSTATE HORSERACING.—

“(i) IN GENERAL.—The term ‘unlawful Internet gambling’ shall not include any activity that is allowed under the Interstate Horseracing Act of 1978 (15 U.S.C. 3001 et seq.).

“(ii) RULE OF CONSTRUCTION REGARDING PREEMPTION.—Nothing in this subchapter may be construed to preempt any State law prohibiting gambling.

“(iii) SENSE OF CONGRESS.—It is the sense of Congress that this subchapter shall not change which activities related to horse racing may or may not be allowed under Federal law. This subparagraph is intended to address concerns that this subchapter could have the effect of changing the existing relationship between the Interstate Horseracing Act and other Federal statutes in effect on the date of the enactment of this subchapter. This subchapter is not intended to change that relationship. This subchapter is not intended to resolve any existing disagreements over how to interpret the relationship between the Interstate Horseracing Act and other Federal statutes.

“(E) INTERMEDIATE ROUTING.—The intermediate routing of electronic data shall not determine the location or locations in which a bet or wager is initiated, received, or otherwise made.

“(11) OTHER TERMS.—

“(A) CREDIT; CREDITOR; CREDIT CARD; AND CARD ISSUER.—The terms ‘credit’, ‘creditor’, ‘credit card’, and ‘card issuer’ have the meanings given the terms in section 103 of the Truth in Lending Act (15 U.S.C. 1602).

“(B) ELECTRONIC FUND TRANSFER.—The term ‘electronic fund transfer’—

“(i) has the meaning given the term in section 903 of the Electronic Fund Transfer Act (15 U.S.C. 1693a), except that the term includes transfers that would otherwise be excluded under section 903(6)(E) of that Act; and

“(ii) includes any fund transfer covered by Article 4A of the Uniform Commercial Code, as in effect in any State.

“(C) FINANCIAL INSTITUTION.—The term ‘financial institution’ has the meaning given the term in section 903 of the Electronic Fund Transfer Act, except that such term does not include a casino, sports book, or other business at or through which bets or wagers may be placed or received.

“(D) INSURED DEPOSITORY INSTITUTION.—The term ‘insured depository institution’—

“(i) has the meaning given the term in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)); and

“(ii) includes an insured credit union (as defined in section 101 of the Federal Credit Union Act).

“(E) MONEY TRANSMITTING BUSINESS AND MONEY TRANSMITTING SERVICE.—The terms ‘money transmitting business’ and ‘money transmitting service’ have the meanings given the terms in section 5330(d) (determined without regard to any regulations prescribed by the Secretary thereunder).

“§5363. Prohibition on acceptance of any financial instrument for unlawful Internet gambling

“No person engaged in the business of betting or wagering may knowingly accept, in connection with the participation of another person in unlawful Internet gambling—

“(1) credit, or the proceeds of credit, extended to or on behalf of such other person (including credit extended through the use of a credit card);

“(2) an electronic fund transfer, or funds transmitted by or through a money transmitting business, or the proceeds of an electronic fund transfer or money transmitting service, from or on behalf of such other person;

“(3) any check, draft, or similar instrument which is drawn by or on behalf of such other person and is drawn on or payable at or through any financial institution; or

“(4) the proceeds of any other form of financial transaction, as the Secretary and the Board of Governors of the Federal Reserve System may jointly prescribe by regulation, which involves a financial institution as a payor or financial intermediary on behalf of or for the benefit of such other person.

“§ 5364. Policies and procedures to identify and prevent restricted transactions

“(a) Regulations.—Before the end of the 270-day period beginning on the date of the enactment of this subchapter, the Secretary and the Board of Governors of the Federal Reserve System, in consultation with the Attorney General, shall prescribe regulations (which the Secretary and the Board jointly determine to be appropriate) requiring each designated payment system, and all participants therein, to identify and block or otherwise prevent or prohibit restricted transactions through the establishment of policies and procedures reasonably designed to identify and block or otherwise prevent or prohibit the acceptance of restricted transactions in any of the following ways:

“(1) The establishment of policies and procedures that—

“(A) allow the payment system and any person involved in the payment system to identify restricted transactions by means of codes in authorization messages or by other means; and

“(B) block restricted transactions identified as a result of the policies and procedures developed pursuant to subparagraph (A).

“(2) The establishment of policies and procedures that prevent or prohibit the acceptance of the products or services of the payment system in connection with a restricted transaction.

“(b) Requirements for Policies and Procedures.—In prescribing regulations under subsection (a), the Secretary and the Board of Governors of the Federal Reserve System shall—

“(1) identify types of policies and procedures, including nonexclusive examples, which would be deemed, as applicable, to be reasonably designed to identify and block or otherwise prevent or prohibit the acceptance of the products or services with respect to each type of restricted transaction;

“(2) to the extent practical, permit any participant in a payment system to choose among alternative means of identifying and blocking, or otherwise preventing or prohibiting the acceptance of the products or services of the payment system or participant in connection with, restricted transactions;

“(3) exempt certain restricted transactions or designated payment systems from any requirement imposed under such regulations, if the Secretary and the Board jointly find that it is not reasonably practical to identify and block, or otherwise prevent or prohibit the acceptance of, such transactions; and

“(4) ensure that transactions in connection with any activity excluded from the definition of unlawful internet gambling in subparagraphs (B), (C), or (D)(i) of section 5362(10) are not blocked or otherwise prevented or prohibited by the prescribed regulations.

“(c) Compliance With Payment System Policies and Procedures.—A financial transaction provider shall be considered to be in compliance with the regulations prescribed under subsection (a) if—

“(1) such person relies on and complies with the policies and procedures of a designated payment system of which it is a member or participant to—

“(A) identify and block restricted transactions; or

“(B) otherwise prevent or prohibit the acceptance of the products or services of the payment system, member, or participant in connection with restricted transactions; and

“(2) such policies and procedures of the designated payment system comply with the requirements of regulations prescribed under subsection (a).

“(d) No Liability for Blocking or Refusing to Honor Restricted Transactions.—A person that identifies and blocks a transaction, prevents or prohibits the acceptance of its products or services in connection with a transaction, or otherwise refuses to honor a transaction—

“(1) that is a restricted transaction;

“(2) that such person reasonably believes to be a restricted transaction; or

“(3) as a designated payment system or a member of a designated payment system in reliance on the policies and procedures of the payment system, in an effort to comply with regulations prescribed under subsection (a),

shall not be liable to any party for such action.

“(e) Regulatory Enforcement.—The requirements under this section shall be enforced exclusively by—

“(1) the Federal functional regulators, with respect to the designated payment systems and financial transaction providers subject to the respective jurisdiction of such regulators under section 505(a) of the Gramm-Leach-Bliley Act and section 5g of the Commodities Exchange Act; and

“(2) the Federal Trade Commission, with respect to designated payment systems and financial transaction providers not otherwise subject to the jurisdiction of any Federal functional regulators (including the Commission) as described in paragraph (1).

“§ 5365. Civil remedies

“(a) Jurisdiction.—In addition to any other remedy under current law, the district courts of the United States shall have original and exclusive jurisdiction to prevent and restrain restricted transactions by issuing appropriate orders in accordance with this section, regardless of whether a prosecution has been initiated under this subchapter.

“(b) Proceedings.—

“(1) Institution by federal government.—

“(A) In general.—The United States, acting through the Attorney General, may institute proceedings under this section to prevent or restrain a restricted transaction.

“(B) Relief.—Upon application of the United States under this paragraph, the district court may enter a temporary restraining order, a preliminary injunction, or an injunction against any person to prevent or restrain a restricted transaction, in accordance with rule 65 of the Federal Rules of Civil Procedure.

“(2) Institution by state attorney general.—

“(A) In general.—The attorney general (or other appropriate State official) of a State in which a restricted transaction allegedly has been or will be initiated, received, or otherwise made may institute proceedings under this section to prevent or restrain the violation or threatened violation.

“(B) Relief.—Upon application of the attorney general (or other appropriate State official) of an affected State under this paragraph, the district court may enter a temporary restraining order, a preliminary injunction, or an injunction against any person to prevent or restrain a restricted transaction, in accordance with rule 65 of the Federal Rules of Civil Procedure.

“(3) Indian lands.—

“(A) In general.—Notwithstanding paragraphs (1) and (2), for a restricted transaction that allegedly has been or will be initiated, received, or otherwise made on Indian lands (as that term is defined in section 4 of the Indian Gaming Regulatory Act)—

“(i) the United States shall have the enforcement authority provided under paragraph (1); and

“(ii) the enforcement authorities specified in an applicable Tribal-State compact negotiated under section 11 of the Indian Gaming Regulatory Act (25 U.S.C. 2710) shall be carried out in accordance with that compact.

“(B) Rule of construction.—No provision of this section shall be construed as altering, superseding, or otherwise affecting the application of the Indian Gaming Regulatory Act.

“(c) Limitation Relating to Interactive Computer Services.—

“(1) In general.—Relief granted under this section against an interactive computer service shall—

“(A) be limited to the removal of, or disabling of access to, an online site violating section 5363, or a hypertext link to an online site violating such section, that resides on a computer server that such service controls or operates, except that the limitation in this subparagraph shall not apply if the service is subject to liability under this section under section 5367;

“(B) be available only after notice to the interactive computer service and an opportunity for the service to appear are provided;

“(C) not impose any obligation on an interactive computer service to monitor its service or to affirmatively seek facts indicating activity violating this subchapter;

“(D) specify the interactive computer service to which it applies; and

“(E) specifically identify the location of the online site or hypertext link to be removed or access to which is to be disabled.

“(2) Coordination with other law.—An interactive computer service that does not violate this subchapter shall not be liable under section 1084(d) of title 18, except that the limitation in this paragraph shall not apply if an interactive computer service has actual knowledge and control of bets and wagers and—

“(A) operates, manages, supervises, or directs an Internet website at which unlawful bets or wagers may be placed, received, or otherwise made or at which unlawful bets or wagers are offered to be placed, received, or otherwise made; or

“(B) owns or controls, or is owned or controlled by, any person who operates, manages, supervises, or directs an Internet website at which unlawful bets or wagers may be placed, received, or otherwise made, or at which unlawful bets or wagers are offered to be placed, received, or otherwise made.

“(d) Limitation on Injunctions Against Regulated Persons.—Notwithstanding any other provision of this section, and subject to section 5367, no provision of this subchapter shall be construed as authorizing the Attorney General of the United States, or the attorney general (or other appropriate State official) of any State to institute proceedings to prevent or restrain a restricted transaction against any financial transaction provider, to the extent that the person is acting as a financial transaction provider.

“§ 5366. Criminal penalties

“(a) In General.—Any person who violates section 5363 shall be fined under title 18, imprisoned for not more than 5 years, or both.

“(b) Permanent Injunction.—Upon conviction of a person under this section, the court may enter a permanent injunction enjoining such person from placing, receiving, or otherwise making bets or wagers or sending, receiving, or inviting information assisting in the placing of bets or wagers.

“§ 5367. Circumventions prohibited

“Notwithstanding section 5362(2), a financial transaction provider, or any interactive computer service or telecommunications service, may be liable under this subchapter if such person has actual knowledge and control of bets and wagers, and—

“(1) operates, manages, supervises, or directs an Internet website at which unlawful bets or

wagers may be placed, received, or otherwise made, or at which unlawful bets or wagers are offered to be placed, received, or otherwise made; or

"(2) owns or controls, or is owned or controlled by, any person who operates, manages, supervises, or directs an Internet website at which unlawful bets or wagers may be placed, received, or otherwise made, or at which unlawful bets or wagers are offered to be placed, received, or otherwise made.".

(b) TECHNICAL AND CONFORMING AMENDMENT.—The table of sections for chapter 53 of title 31, United States Code, is amended by adding at the end the following:

"SUBCHAPTER IV—PROHIBITION ON FUNDING OF UNLAWFUL INTERNET GAMBLING

"5361. Congressional findings and purpose
"5362. Definitions
"5363. Prohibition on acceptance of any financial instrument for unlawful Internet gambling
"5364. Policies and procedures to identify and prevent restricted transactions
"5365. Civil remedies
"5366. Criminal penalties
"5367. Circumventions prohibited".

SEC. 803. INTERNET GAMBLING IN OR THROUGH FOREIGN JURISDICTIONS.

(a) IN GENERAL.—In deliberations between the United States Government and any foreign country on money laundering, corruption, and crime issues, the United States Government should—

(1) encourage cooperation by foreign governments and relevant international fora in identifying whether Internet gambling operations are being used for money laundering, corruption, or other crimes;

(2) advance policies that promote the cooperation of foreign governments, through information sharing or other measures, in the enforcement of this Act; and

(3) encourage the Financial Action Task Force on Money Laundering, in its annual report on money laundering typologies, to study the extent to which Internet gambling operations are being used for money laundering purposes.

(b) REPORT REQUIRED.—The Secretary of the Treasury shall submit an annual report to the Congress on any deliberations between the United States and other countries on issues relating to Internet gambling.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the Conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4954), the "Security and Accountability for Every Port Act" or "SAFE Port Act," to improve maritime and cargo security through enhanced layered defenses, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying Conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment The differences between the House bill, the Senate amendment, and the substitute agreed to in Conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the Conferees, and minor drafting and clarifying changes.

Section 1. Short title

Section 1 of the House bill states that the Act may be cited as the "Security and Accountability for Every Port Act" or "SAFE Port Act."

Section 1 of the Senate amendment states that the Act may be cited as the "Port Security Improvement Act of 2006."

The Conference Report adopts the House provision so that the Act may be referred to as the "Security and Accountability for Every Port Act" or "SAFE Port Act."

Section 2. Definitions

House Section 3 defines several terms that are used in this bill and are relevant to maritime and cargo security. "Appropriate Congressional Committees," "Department," "International Supply Chain," and "Secretary" are defined.

Senate Section 2 is used to define the following relevant terms: "Appropriate Congressional Committees," "Commercial Seaport Personnel," "Commissioner," "Container," "Container Security Device," "Department," "Examination," "Inspection," "International Supply Chain," "Radiation Detection Equipment," "Scan," "Screening," "Search," "Secretary," "Transportation Disruption," and "Transportation Security Incident."

The Conference Report adopts the Senate provision with modifications to the definition of commercial seaport personnel.

TITLE I—SECURITY OF UNITED STATES SEAPORTS

Subtitle A—General Provisions

Section 101. Area maritime transportation security plan to include salvage response plan

Senate Section 101 amends the Maritime Transportation Security Act of 2002, (P.L. 107–295), to include a salvage response plan to identify equipment capable of restoring operational trade capacity and to ensure that waterways are cleared after a maritime transportation security incident.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision.

Section 102. Requirements relating to maritime facility security plans

Section 103 of the House bill amends the Maritime Transportation Security Act of 2002 (P.L. 107–295), by setting requirements for Facility Security Officers, including the requirement of citizenship for an individual having full authority to implement security actions at United States seaports. This section also authorizes the Secretary of the department in which the Coast Guard is operating to waive the citizenship requirement based on a complete background check of the individual and a review of all terrorist watch lists.

Senate section 102 is a comparable provision.

The Conference Report adopts the Senate provision.

The Conferees agreed to clarify that facility security plans required under the Maritime Transportation Security Act of 2002 (P.L. 107–295) must include provisions establishing and controlling access to secure areas of a vessel or facility by "persons" engaged in the surface transportation of intermodal containers in or out of a port facility. The Conferees intend for "persons" to include drayage companies.

Section 103. Unannounced inspections of maritime facilities

House Section 104 amends the Maritime Transportation Security Act of 2002 (P.L. 107–295) to authorize the Secretary of the department in which the Coast Guard is operating to verify the effectiveness of Area Maritime Security Plans by conducting at least two inspections of a facility per year, one of which shall be conducted without prior notice to the facility.

Senate Section 103 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 104. Transportation security card

House Section 105 provides a timeline for implementation of the Transportation Worker Identification Credential (TWIC) Program and requires the interim name-based screening of individuals.

Senate Section 104 is a comparable provision, which requires the Secretary of the department in which the Coast Guard is operating to ensure that individuals who have undergone the Hazardous Materials Endorsement (HME) or Merchant Mariner Document (MMD) background check are not required to pay additional fees related to a similar background check for a TWIC card. Additionally, the Senate provision provides for concurrent processing of an applicant for TWIC and MMD, a pilot program for vessel and facility card readers, and other clarifying edits.

The Conference Report adopts the Senate provision, as modified.

Section 105. Study to identify redundant background records checks

Section 106 is based upon Senate Section 1113, which requires a study by the Comptroller General to identify redundancies in connection with Federal background checks.

The House bill does not include a comparable provision.

The Conference Report adopts the Senate provision, as modified to limit the scope of redundant background checks to those conducted by the Department of Homeland Security.

Section 106. Prohibition of issuance of transportation security cards to persons convicted of certain felonies

Section 105 of the Senate bill amends 46 U.S.C. 70105 to insert a list of permanent and interim disqualifying crimes for individuals applying for a Transportation Worker Identification Credential.

The House bill does not include a comparable provision.

The Conference Report adopts the Senate provision, as amended, which requires the Secretary of the department in which the Coast Guard is operating to permanently disqualify an individual applying for a transportation worker identification credential that have been found guilty, or not guilty by reason of insanity, of treason, espionage, sedition, or a crime listed in 18 U.S.C. 1138, or conspiracy to commit one of those crimes.

Section 107. Long-Range vessel tracking

House Section 108 establishes a deadline of April 1, 2007, for the Secretary of the department in which the Coast Guard is operating to develop and implement a long-range automated vessel tracking system for all vessels in United States territorial waters that are equipped with the Global Maritime Distress and Safety System or equivalent satellite technology. This section also authorizes the Secretary of Homeland Security to issue regulations to establish a voluntary long-range automated vessel tracking system for certain vessels.

Senate Section 106 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 108. Establishment of interagency operational centers for port security

House Section 109, "Maritime Command Centers," directs the Secretary of the department in which the Coast Guard is operating to consult with Federal, State, and local officials to establish an integrated network of virtual and physical maritime security command centers at appropriate United States seaports and maritime regions. These centers serve to enhance information sharing, facilitate operational coordination, and facilitate incident management and response. The provision further designates the Coast Guard Captain of the Port as the initial incident commander in the event of a transportation disruption.

Senate Section 107, "Establishment of Interagency Operational Centers for Port Security," is similar to House Section 109 and directs the Secretary of the Department in which the Coast Guard is operating to establish additional Interagency Operational Centers at all high priority ports within three years. These centers would serve to enhance information sharing, facilitate operational coordination, and facilitate incident management and response.

The Conference Report adopts the Senate provision, as modified to include the House language, which designates the Coast Guard Captain of the Port as the initial incident commander in the event of a transportation security incident in the maritime domain.

The Conferees would like to clarify that in determining what constitutes a "high-priority" port, the Secretary shall consider the following: the quantity of cargo that passes through the port annually, the port's proximity to military or other national security assets, and the economic impact to the United States resulting from a catastrophic loss of that port.

Section 109. Notice of arrival for foreign vessels on the outer continental shelf

Section 108 of the Senate bill directs the Secretary of the department in which the Coast Guard is operating to update and finalize its rulemaking on Notice of Arrival for foreign vessels on the Outer Continental Shelf not later than 180 days after the date of the enactment of this Act.

The House bill does not include a comparable provision.

The Conference Report adopts the Senate provision.

Section 110. Enhanced crewmember identification

Section 107 of the House bill sets a deadline of May 15, 2007 for the Secretary of the department in which the Coast Guard is operating, in consultation with the Attorney General of the United States and the Secretary of State, to require crewmembers on vessels calling at United States ports to carry and present on demand any identification that the Secretary deems necessary. This section also sets a deadline of May 15, 2007 for the Secretary of Homeland Security, in consultation with the Attorney General and the Secretary of State, to establish the proper forms and process to be used for identification and verification of crewmembers.

The Senate bill contains no comparable provision.

The Conference Report adopts the House provision, with a compromise to strike May 15, 2007, and extend the deadline to one year after the date of enactment.

Subtitle B—Port Security Grants; Training and Exercise Programs

Section 111. Risk assessment tool

Section 111 was developed out of the Senate passed Section 111, "Port Security Grants," to require each Area Maritime Security Committee, under the direction of the Commandant of the Coast Guard, to develop a Port Wide Risk Management Plan that includes security goals and objectives, a management selection process, and active monitoring to measure effectiveness. This section also requires the Secretary to make available a risk assessment tool that uses standardized risk criteria, such as the Maritime Security Risk Assessment Tool used by the Coast Guard, to develop the Port Wide Risk Management Plan.

The House bill contains no comparable section.

The Conference substitute adopts the Senate provision.

Section 111 of the Conference agreement is based on Senate Section 111(b), and requires the Coast Guard to make available a risk assessment tool that uses standardized risk criteria, such as the Maritime Security Risk Assessment Tool used by the Coast Guard, to Area Maritime Security Committees for the purposes of updating Area Maritime Security Plans and in applying for grants under the port security grant program authorized pursuant to 46 U.S.C. 70107.

Section 112. Port security grants

Section 111 of the House bill amends the Homeland Security Act of 2002 (P.L. 107–296) to authorize the Secretary to establish a port security grant program to allocate Federal financial assistance to United State seaports on the basis of risk and need. Grant funds under this section may be used for activities to implement Area Maritime Security Plans, remedy port security vulnerabilities, conduct exercises or training for the prevention and detection of, preparedness for, response to, or recovery from terrorist attacks, protect critical infrastructure against potential attack, and establish or enhance mechanisms for sharing terrorism threat information. Section 111 also authorizes $400 million for each of the Fiscal Years 2007 through 2012.

Senate Section 111 amends 46 U.S.C. 70107 to require the Secretary of the Department in which the Coast Guard is operating to allocate grants based on risk, allow for letters of intent to be issued for multiple-year projects, and amends the authorized level of funding to $400 million for each of Fiscal Years 2007 through 2011. Further, the Senate bill modifies 46 U.S.C. 701017(i) to specifically authorize the research and development of container scanning technology on straddle cars and cranes at $70 million for each of Fiscal Years 2008 through 2009.

The Conference Report adopts the Senate provision, as modified to strike the specific container scanning technology authorization, allow for the additional eligible costs of conducting training and exercises, and the cost of establishing mechanisms for sharing terrorism threat information. The Conference Report requires grants under this section to be awarded on the basis of risk.

The Conferees note that "energy" was specifically included in language to take into consideration current and future ports with critical energy infrastructure, such as Port Fourchon and the Louisiana Offshore Oil Platform (LOOP).

Section 113. Port security training program

House Section 112 amends the Homeland Security Act of 2002 (P.L. 107–296) to allow for the establishment of a training program to enhance the capabilities of United States commercial seaports to prevent, prepare for, respond to, mitigate against, and recover from threatened or actual acts of terrorism, natural disasters, and other emergencies. The section also addresses requirements for the Program and the Secretary's role in supporting the development, promulgation, and regular updating of national voluntary consensus standards for port security training.

Senate Section 112 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 114. Port security exercise program

House Section 113 authorizes the Secretary, acting through the Under Secretary for Preparedness, and in coordination with the Commandant of the Coast Guard, to establish an exercise program to test and evaluate the capabilities of Federal, State, local and other relevant stakeholders to coordinate appropriate response and recovery from threats at commercial seaports.

Senate Section 113 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 115. Facility exercise requirements

The Senate bill contains no comparable provision.

The House bill contains no comparable provision.

Section 115 of the Conference Report directs the Secretary of the department in which the Coast Guard is operating to require each high risk facility to conduct live or full scale exercises not less than once every two years in accordance with the facility security plan.

Subtitle C—Port Operations.

Section 121. Domestic radiation detection and imaging

House Section 402 requires the Secretary to deploy nuclear and radiological detection systems at the 22 busiest United States seaports not later than September 30, 2007, and to utilize advanced technology tested in a pilot program also established in this section. Within 90 days, the Secretary must submit a strategy on the deployment of nuclear and radiological detection systems at all remaining maritime ports of entry including a risk-based deployment schedule, description of equipment to be used, standard operating procedures for examining containers, and evaluation of the health effects of using radiation equipment. Lastly, the provision requires the Director of the Domestic Nuclear Detection Office (DNDO) to coordinate with other appropriate Federal agencies to deploy nuclear and radiological detection systems at foreign ports.

Senate Section 121 is comparable to House Section 402, and requires the Secretary of Homeland Security to develop a strategy for deployment of radiation detection capabilities and ensures that by December 31, 2007, all containers entering the United States, through the busiest 22 seaports, are scanned for radiation. Section 121 also requires the Department of Homeland Security to submit a separate report on the feasibility of, and plan for, the development of equipment to detect other weapons of mass destruction including chemical and biological threats at all United States ports of entry. The section also requires the Department of Homeland Security to establish an Intermodal Rail Radiation Detection Test Center to identify and test concepts specific to the challenges posed by on-dock intermodal rail.

The Conference Report adopts House Section 402, with modification. The Conferees agree that "shielded nuclear and radiological threat material" be inserted into subsection (e) as it relates to weapons of mass destruction threats.

The Conferees note the progress made by the Department of Homeland Security in developing next general portal monitors with spectroscopic capabilities and have removed the requirement for a House pilot project, accordingly. Instead, the appropriate use of such technology is encouraged. This does not represent a requirement to scan all containers at the seaports using such technology. In primary screening, such technology can reduce nuisance alarms, which is of great importance at very high volume ports. In secondary screening, such technology can speed effective alarm resolution. It is the targeted use of this technology that the House and Senate support. The Conferees also note that nothing in this section shall be interpreted to limit the Secretary's authority under 19 U.S.C. 1318 concerning the entry of containers into United States ports under certain circumstances.

Section 122. Inspection of car ferries entering from abroad

Senate Section 123 requires the Department of Homeland Security, in coordination with Department of State, to develop a plan for the inspection of passengers and vehicles prior to loading onto ferries bound for a United States port.

There is no comparable provision in the House bill.

The Conference Report adopts the Senate provision.

Section 123. Random searches of containers

Senate Section 124 requires the Department of Homeland Security to develop and implement a plan, within one year after enactment, for random physical inspection of shipping containers. The random searches prescribed in this section do not preclude additional container searches.

There is no comparable provision in the House bill.

The Conference Report adopts the Senate provision.

Section 124. Work stoppages and employee-employer disputes

House Section 101 amends the definition of a transportation security incident, defined in 46 U.S.C. 70101(6), to clarify that a "transportation security incident" does not include labor strikes or other related events.

Senate Section 125 also amends the definition of a transportation security incident to note that the term economic disruption does not include a work stoppage or nonviolent employee-related action, not related to terrorism, and resulting from an employee-employer dispute.

The Conference Report adopts the Senate provision, with an agreement to strike the word "nonviolent" from the definition of the term.

Section 125. Threat assessment screening of port truck drivers

Senate Section 126 requires the Department of Homeland Security to implement a threat assessment screening for all truck drivers accessing ports that is the same screening required for facility employees and longshoremen. The section also requires, subject to the availability of appropriations, this screening to begin within 90 days of enactment.

House section 106 contains a similar requirement that all individuals who have unescorted access to a secure area of a seaport facility be checked against terrorist watch lists to determine if the individual poses a threat.

The Conference Report adopts the Senate provision, modified to strike the phrase "subject to the availability of appropriations."

Section 126. Border patrol unit for United States Virgin Islands

House Section 123 requires the Secretary of Homeland Security to establish a Border Patrol unit for the United States Virgin Islands not later than 180 days after the date of the enactment of this Act.

There is no comparable provision in the Senate bill.

The Conference Report adopts the House provision, but the Conferees agree to change the word "shall" to "may." Under this agreement, the Secretary will not be required to establish a Border Patrol unit for the United States Virgin Islands, but he is authorized to do so if it is deemed necessary. The Conference agreement also requires the Secretary of Homeland Security to submit a report to the appropriate congressional committees, within 180 days of enactment, that includes the schedule, if any, for establishing a Border Patrol unit in the United States Virgin Islands. The Conferees included this provision out of recognition of the increasing border security risks in the United States Virgin Islands, including human smuggling and drug trafficking.

Section 127. Report on arrival and departure manifests for certain commercial vessels in the United States Virgin Islands

House Section 126 requires the Secretary of Homeland Security to submit, to the appropriate congressional committees, a report on the impact of implementing the requirements of the Immigration and Nationality Act (8 U.S.C. 1221) with respect to commercial vessels that are fewer than 300 gross tons and only operate between the territorial waters of the United States Virgin Islands and the territorial waters of the British Virgin Islands.

There is no comparable provision in the Senate bill.

The Conference Report adopts the House provision.

Section 128. Center of excellence for maritime domain awareness

House Section 127 requires the Secretary of Homeland Security to establish a university-based Center of Excellence for Maritime Domain Awareness following appropriate merit-review processes and procedures that have been established by the Secretary.

There is no comparable provision in the Senate bill.

The Conference Report adopts the House provision.

Title II—Security of the International Supply Chain

Subtitle A—General Provisions.

Section 201. Strategic plan to enhance the security of the international supply chain

House Section 201 amends the Homeland Security Act of 2002 (P.L. 107-296) to require the Secretary of Homeland Security to create a strategy for improving security of containers within the international supply chain. The strategy must describe the roles and responsibilities of Federal, State, and local governments, identify security goals and minimum requirements, provide a process for enhanced intelligence sharing with the private sector, streamline initiatives, and recommend legislative and regulatory changes.

Senate Section 201 requires the Department of Homeland Security to develop, implement and update a strategic plan to improve the security of the international cargo supply chain. This section requires the plan to identify and address gaps; provide improvements and goals; establish protocols for the resumptions of trade including identification of the initial incident commander; consider international standards for container security; and allow for communication with stakeholders.

The Conference Report adopts the Senate provision, with modifications. In Senate Section 201 subparagraph (6), the word "determined" is replaced by "recommended," as it relates to the Commissioner's role in providing incentives for additional voluntary measures to enhance cargo security. The Conferees agree to extend the deadline from 180 days to 270 days after the date of the enactment for the Secretary to submit a report to the appropriate congressional committees that contains the strategic plan required under this section. The requirements listed for protocols for the resumption of trade required in subparagraph (10) are moved to Section 202. The Conferees note that the consultation recommendations in Senate Sections 201(c) and 201(e) are not mutually exclusive.

Section 202. Post-Incident resumption of trade

Senate Section 202 requires the initial incident commander and lead department or agency carry out the protocols of the international supply chain strategic plan following a maritime transportation security incident. This section also requires the United States Coast Guard to ensure the safe and secure transit of vessels to United States ports, and recommends preference be given to vessels and cargo involved in the Container Security Initiative (CSI) or Customs-Trade Partnership Against Terrorism (C–TPAT) for the resumption of trade. Section 202 requires the Secretary to ensure that there is appropriate coordination among Federal officials and communication of revised procedures, not inconsistent with security interests, to the private sector to provide for the resumption of trade.

House Section 102 is a comparable provision.

The Conference Report adopts the Senate provision, as modified to clarify that resumption of trade benefits may be provided.

Section 203. Automated targeting system

House Section 201 amends the Homeland Security Act of 2002, and inserts a new Section 1802, "Transmission of Additional Data Elements for Improved High Risk Targeting," and Section 1803, "Plan to Improve the Automated Targeting System." House Sections 1802 requires the Secretary to issue regulations within one year of enactment to collect additional advanced data, including appropriate elements of entry data prior to loading containers overseas. House Section 1803 requires the Secretary of Homeland Security, within 180 days of enactment, to develop a plan to improve the Automated Targeting System (ATS) in order to enhance capabilities to detect high-risk containers. Section 1803 authorizes $5 million for each of the fiscal years 2007 through 2012.

Senate Section 203 requires the Department of Homeland Security to request and identify additional data (non-manifest and entry-data elements) of container cargo moving through the international supply chain. Data would be analyzed to identify high-risk cargo for inspection. This section includes an authorization of appropriations to fund the Automated Targeting System for Fiscal Years 2008 through 2010 ($33 million, $35 million, $37 million respectively).

The Conference Report adopts the House provision on the Automated Targeting System, as modified, including the Senate's provision generally authorizing the Automated Targeting System.

Section 204. Container security standards and procedures

House Section 201 amends the Homeland Security Act of 2002, and inserts a new Section 1804, "Container Standards and Verification Procedures." This section requires the Secretary of Homeland Security to establish minimum standards and verification procedures for securing containers in transit to the United States. This section also requires all containers bound for United States ports of entry meet these standards within two years. In addition, Section 1804 requires the Secretary to regularly review and enhance these security standards.

Senate Section 204 requires the Secretary of Homeland Security to promulgate a rule to establish minimum standards and procedures for securing containers in transit to the United States. If the rulemaking deadline is not met, the Secretary is required to provide a letter to the Congress explaining the reason for the Department's failure to meet the deadline. This section also encourages the Department of Homeland Security and other Federal agencies to promote international cargo security standards.

The Conference Report adopts the Senate provision, as modified. An agreement has been reached to extend the deadline from 60 days to 90 days after the date of enactment of this Act for the Secretary to initiate a rulemaking proceeding to establish minimum standards and procedures for securing containers in transit to the United States.

In developing standards for container security devices, the Conferees direct the Secretary of Homeland Security to ensure that the standards are consistent with standards promulgated by international standards organizations, such as the International Organization for Standardization, the International Maritime Organization, and the World Customs Organization.

Section 205. Container security initiative

House Section 201 amends the Homeland Security Act of 2002, and inserts a new Section 1805, "Container Security Initiative (CSI)." This section authorizes the CSI Program and requires the Secretary of Homeland Security is required to conduct a thorough security assessment at each port prior to designating them as CSI ports, including an assessment of the level of risk for compromise by terrorists as well as a Coast Guard foreign port assessment. The section also requires the Secretary of Homeland Security to notify Congress prior to announcing a CSI port. In addition, the section requires the Secretary of Homeland Security to set standards for inspecting containers abroad and using inspection technology. Section 1805 also requires the Secretary of Homeland Security to evaluate options for providing foreign assistance to facilitate implementation of cargo security measures at foreign ports and may loan inspection technology for use at a CSI port. The section also requires the Secretary of Homeland Security to report annually on March 1 on the status of the CSI program and an assessment of the necessary personnel deployed overseas through the program. Finally, Section 1805 authorizes $196 million for each of the fiscal years 2007 through 2012.

Senate Section 205 authorizes the Container Security Initiative (CSI) program to identify, examine, or search maritime containers before cargo bound for the United States is loaded in a foreign port. This section authorizes the Secretary of Homeland Security to designate foreign ports as part of the CSI program based upon criteria including risk, trade volume and value of cargo, United States Coast Guard assessments, and the commitment of the host nation to comply with data sharing requirements. This section also requires the Secretary of Homeland Security to establish standards for the use of nonintrusive imaging and radiation detection equipment at CSI ports. In addition, the Secretary of Homeland Security is required to develop a plan to ensure adequate staffing at CSI ports. Section 205 also requires the Secretary of Homeland Security to submit a report to Congress on the effectiveness of, and need for, improvements to CSI. This section authorizes appropriations for fiscal years 2008 through 2010 ($144 million, $146 million, $153 million respectively).

The Conference Report adopts the Senate provision, with several modifications. The Senate recedes to the House request to strike "an importer in" in Senate Section 205 subsection (1). The Senate also recedes to the striking of the words "and value" in subsection (2) as it relates to cargo being imported into the United States. In addition, the Senate recedes to the House in requiring the Secretary of Homeland Security consult with appropriate Federal departments and agencies and private sector stakeholders to ensure that no international trade obligations are violated under this section.

It is important to note that authorities granted to the Secretary of Homeland Security in this section will not affect the authorities or responsibilities of any other Federal agency with respect to overseas deployment of radiation detection equipment. The Conferees encourage the Secretary of Homeland Security to coordinate the CSI program with the Department of Energy's Megaports program.

Subtitle B—Customs-Trade Partnership Against Terrorism

Section 211. Establishment

House Section 201 amends the Homeland Security Act of 2002 and inserts a new Section 1811, which authorizes the Secretary of Homeland Security to establish a voluntary program (the Customs-Trade Partnership Against Terrorism) to strengthen international supply chain and border security, facilitate the movement of secure cargo, and provide benefits to eligible participants.

Senate Section 211 is a comparable provision.

The Conference Report adopts the House provision, but does not amend the Homeland Security Act of 2002.

Section 212. Eligible entities

House Section 201 amends the Homeland Security Act of 2002 and inserts a new Section 1812, which allows importers, customs brokers, forwarders, air-sea-and landcarriers, contract logistics providers, and other entities in the international supply chain and intermodal transportation system to apply for membership in this program.

Senate Section 212 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 213. Minimum requirements

House Section 201 amends the Homeland Security Act of 2002 and inserts a new Section 1813, which establishes minimum security and other requirements that applicants must meet to be eligible to participate in the Customs-Trade Partnership Against Terrorism (C–TPAT).

Senate Section 213 is a comparable provision.

The Conference Report adopts the Senate provision.

The Conferees note that the requirement in Section 213(1) that a company demonstrate a history of moving cargo in the international supply chain should not prevent start-up companies or other newly-created business entities from participating in C–TPAT if they are able to demonstrate adequate compliance with relevant security requirements.

Section 214. Tier 1 participants in C–TPAT

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1814, that allows for limited benefits for Customs-Trade Partnership Against Terrorism (C–TPAT) participants.

Senate Section 214 allows for limited benefits for Customs-Trade Partnership Against Terrorism (C–TPAT) participants. These benefits may include a reduction of the Automated Targeting System risk score for those C–TPAT participants that meet the minimum guidelines established. This section also requires, to the extent practicable, the Secretary to complete the Tier 1 certification process within 90 days of receipt of a candidate's application.

The Conference Report adopts the Senate provision.

Senate Section 214 included a provision, which the Conferees accept, clarifying that the benefits to Tier 1 C–TPAT benefits may include a reduction in scores assigned pursuant to the Automated Targeting System (A TS) of not greater than 20 percent of the high risk threshold established by the Secretary. This provision ensures that a C-TPAT participant's container or cargo will not be classified as low-risk under the ATS simply because the participant is certified for Tier 1 of C–TPAT.

Section 215. Tier 2 participants in C–TPAT

Senate Section 215 allows for additional benefits in the form of reduced cargo examinations and priority processing to those participants who meet a higher level of Customs-Trade Partnership Against Terrorism (C-TPAT) security requirements. Section 215 also requires the Secretary of Homeland Security to validate the security measures and supply chain practices of C–TPAT participants, including on-site assessments, within one year of certification.

House Section 1815 is a comparable provision.

The Conference Report adopts the Senate provision.

Section 216. Tier 3 participants in C–TPAT

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1816, which establishes a third tier of the Customs-Trade Partnership Against Terrorism (C–TPAT) program, offering increased benefits to participants that demonstrate a sustained commitment to security based on certain criteria. Benefits may include, among others, expedited release of cargo, further reduced examinations, and reduced bonding requirements.

Senate Section 216 is similar to the House provision. Section 216 authorizes the submission of additional information, and notification of specific alerts.

The Conference Report adopts the Senate provision, as modified to remove the notification of specific alerts and post-incident procedures provisions.

Section 217. Consequences for lack of compliance

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1817, which allows the Secretary of Homeland Security to deny benefits, in whole or in part, including suspension or elimination for at least five years, of any participant that fails to meet Customs-Trade Partnership Against Terrorism (C–TPAT) requirements, or knowingly provides false or misleading information.

Senate Section 217 is similar to the House provision. Section 217 establishes an appeals process for C-TPAT participants suspended or eliminated for lack of compliance.

The Conference Report adopts the Senate provision, as modified to require the Commissioner of United States Customs and Border Protection to establish procedural protections to safeguard against improper revocation of benefits. These procedures shall not be interpreted to impede the Secretary of Homeland Security's ability to take action to protect the national security of the United States.

Section 218. Third party validations

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1818, which requires the Secretary of Homeland Security to establish a pilot program to utilize third party entities to conduct validations of Customs-Trade Partnership Against Terrorism (C–TPAT) participants. The pilot program, and any extension of the use of third party validators, shall apply for Safety Act certification under Section 864 of the Homeland Security Act of 2002 (P.L. 107-296), to enter into contractual agreements directly with the C–TPAT members, and shall meet all standards for validating C–TPAT participants. This section also requires the Secretary of Homeland Security to report to Congress 30 days after the conclusion of the year-long pilot program.

There is no comparable Senate provision in the bill.

Section 218 of the Conference agreement is similar to House Section 1818 and requires the Secretary of Homeland Security, acting through the Commissioner of United States Customs and Border Protection of the Department of Homeland Security, to establish a plan to implement a one year voluntary pilot program to test and assess the feasibility, costs, and benefits of utilizing third party entities to conduct validations of CTPAT participants. The Conference Report also requires the Secretary of Homeland Security to provide a report to the appropriate congressional committees regarding the plan within 120 days of enactment. The agreement provides for the certification of third party entities and requires the Secretary of Homeland Security to monitor and inspect the operations of the entities conducting validations to ensure that they are meeting the minimum procedures and requirements for the validation of C–TPAT participants. If the Secretary of Homeland Security determines that a validator is not meeting the minimum procedures and requirements, the Secretary of Homeland Security is required to revoke the validator's certificate and review any validations conducted by the entity. The agreement also requires the Secretary of Homeland Security to submit a report to the appropriate congressional committees detailing the results of the pilot program.

Section 219. Revalidation

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1819. This section requires revalidation of Customs-Trade Partnership Against Terrorism (C–TPAT) participants not less frequently than once during a three-year period.

Senate Section 218 establishes a process for revalidating C–TPAT participants in tiers 2 and 3 and requires an annual plan for revalidation, detailing performance measures and necessary personnel requirements. The Senate language requires revalidation of C-TPAT participants not less frequently than once during a five-year period.

The Conference Report adopts the Senate provision, as modified to require revalidation not less frequently than once during a four-year period.

Section 220. Noncontainerized cargo

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1820, which requires the Secretary of Homeland Security to consider including importers of non-containerized cargo as participants in the Customs-Trade Partnership Against Terrorism (C–TPAT), provided program requirements are met.

Senate Section 219 is a comparable provision.

The Conference Report adopts the Senate provision

Section 221. C–TPAT program management

Senate Section 220 requires the Secretary of Homeland Security to establish sufficient internal quality controls and record management of the Customs-Trade Partnership Against Terrorism (C–TPAT) program including development of a strategic plan to identify goals; annual plans to match resources with workload; a standardized work program to monitor progress; a record management system; and a data protection program.

There is no comparable language in the House bill.

The Conference Report adopts the Senate provision, with an agreement to merge this section with Senate-passed 221, "Resource Management Staffing," and Senate-passed Section 224, "Report to Congress."

The Conferees do not intend for section 221 (c), which deals with confidential information safeguards, to create a new exemption to information otherwise required to be disclosed under the Freedom of Information Act (5 U.S.C. 552).

Section 222. Additional personnel

Senate Section 222 requires the Secretary of Homeland Security to increase, by at least 50 positions annually for fiscal years 2007 through 2009, the number of personnel to validate and revalidate Customs-Trade Partnership Against Terrorism (C–TPAT) participants.

There is no comparable provision in the House bill.

The Conference Report adopts the Senate provision, as modified to authorize the hiring of 50 validation personnel for each of fiscal years 2008 and 2009.

Section 223. Authorization of appropriations

Senate Section 223 authorizes appropriations to United States Customs and Border Protection in the Department of Homeland Security to carry out the Customs-Trade Partnership Against Terrorism (C–TPAT) provisions of Sections 211 through 221. The section authorizes $65 million for fiscal year 2008; $72 million for fiscal year 2009; and $75.6 million for fiscal year 2010. In addition to any monies appropriated to Customs and Border Protection, this section authorizes funds to be appropriated funds for the purpose of meeting the staffing requirement provided in Section 222. This section authorizes $8.5 million for fiscal year 2007; $17.6 million for fiscal year 2008; $27.3 million for fiscal year 2009; $28.3 million for fiscal year 2010; $29.2 million for fiscal year 2011.

House Section 1821 is a comparable provision. House Section 1821 authorizes $75 million for each Fiscal Year 2007 through 2012 for this subtitle.

The Conference Report adopts the Senate provision, as modified to reflect the changes in Conference Report Section 222. As a result, this section authorizes $8.5 million for Fiscal Year 2008 and $17.6 million for Fiscal Year 2009 for the staffing requirement in Section 222.

Subtitle C—Miscellaneous Provisions

Section 231. Pilot integrated scanning system

House Section 208, "Integrated Container Inspection System Pilot Project," is similar in content and purpose to Senate Section 231, "Pilot Integrated Scanning System."

Senate Section 231 authorizes the development of a pilot program in three foreign seaports, each with unique features and varying levels of trade volume to test integrated scanning systems using nonintrusive inspection and radiation detection equipment. This section requires full-scale pilot program implementation within one year of enactment. An evaluation report is required to be submitted to Congress 90 days after full implementation of the pilot as full implementation is required as soon as practicable and possible.

The Conference Report adopts the Senate provision, with a modification to subsection (b) "Coordination" to reflect similar intent in the provision for the Container Security Initiative (CSI). The Conference Report also modifies the reporting requirement from 90 to 180 days. The Conference Report also removes the implementation requirement in Senate Section 231. The Conferees note that nothing in this Subtitle should be read as to promote or support any particular company's technology.

Section 232. Screening and scanning of cargo containers

House Section 202 requires an evaluation of detection systems available to scan containers at foreign seaports. If the Secretary determines the technology meets specific performance criteria, including the ability to automatically identify high-risk cargo such as a shielded nuclear device, the Secretary must seek the cooperation of foreign governments to scan all cargo possible. An annual report on the status of implementation and foreign cooperation is required.

Senate Section 232 requires the Secretary of Homeland Security to ensure that 100 percent of cargo containers entering the United States through a seaport undergo screening to identify high-risk containers. This section also requires the Secretary of Homeland Security to ensure that 100 percent of the aforementioned high-risk containers be scanned for radiation before such containers arrive in the United States seaport facility. In addition, this directs the Secretary of Homeland Security to ensure all containers entering the United States are scanned when effective screening equipment becomes available and other criteria are met. The section requires the equipment to include both nonintrusive imaging and radiation detection features, as well as a means to positively identify each container so that recorded data can be tagged appropriately.

The Conference Report adopts the Senate provision, as modified. This section describes the minimum performance requirements that must be met by a scanning system before wide scale deployment. Of particular significance is the requirement for an automated alarm when dangerous material is found in a container, including a shielded nuclear device. The Conference Report also require the Secretary of Homeland Security to provide periodic reports to Congress on the status of full scale deployment. The Conferees note that full scale implementation should only occur after the successful completion of the three port pilot projects.

Section 233. International cooperation and coordination

Senate Section 232 allows the Secretary of Homeland Security to provide assistance, equipment, and training to facilitate the implementation of supply chain security measures at ports designated by the Container Security Initiative (CSI). This section also requires the Secretary of Homeland Security to identify assistance programs to encourage implementation of port security antiterrorism measures in foreign nations and United States territories, including the United States Virgin Islands, with particular emphasis on ports in the Caribbean Basin. In addition, this section requires Government Accountability Office to submit a report on the security of Caribbean ports within 180 days.

There is no comparable provision in the House bill.

The Conference Report adopts the Senate provision.

Section 234. Foreign port assessments

House Section 204 requires the Secretary of the department in which the Coast Guard is operating, acting through the Commandant of the Coast Guard, to reassess security measures at foreign ports every three years.

Senate Section 234 requires the Commandant of the Coast Guard to dedicate resources to complete inspections of foreign ports through which trade moves destined for the United States and to reinspect such ports every two years.

The Conference Report adopts the House provision.

Section 235. Pilot program to improve the security of empty containers

House Section 205 requires the Department of Homeland Security to conduct a one-year pilot program to assess the risk posed by, and improve the security of, empty containers at United States seaports. This section requires the Secretary of Homeland Security to prepare and submit a report to the appropriate congressional committees, not later than 90 days after the completion of the pilot program, the results of the program and a determination of whether to expand this program.

The Senate bill does not contain a comparable provision.

The Conference Report adopts the House provision, with an agreement to replace the word "evaluate" in subsection (a) with the words "assess the risk posed by."

Section 236. Information sharing relating to supply chain security cooperation

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1806, which establishes continuing liaison and provides for supply chain security cooperation between the Department of Homeland Security and the private sector. The section also provides for information sharing between the private sector and the Department of Homeland Security as it relates to developments and security risks in the supply chain environment.

The Senate does not contain a comparable provision.

The Conference adopts the House provision.

The Conferees do not intend this section to be interpreted to impede or supersede existing programs such as the International Trade Data System (ITDS) or the Automated Commercial Environment (ACE).

Title III—Administration

Section 301. Office of cargo security policy

House Section 603 establishes a Director of Cargo Security Policy within the Directorate for Policy, Planning, and International Affairs of the Department of Homeland Security (established in House Section 601). The section requires the Director of the Office of Cargo Security Policy to advise the Assistant Secretary for Policy regarding all aspects of Department programs related to cargo security, coordinate Department-wide policies regarding cargo security, and coordinate the cargo security policies of the Department with other Federal departments and agencies.

Senate Section 301 establishes the Office of Cargo Security Policy in the Department of Homeland Security, headed by a Director, to coordinate all Department of Homeland Security policies relating to cargo security and consult with other Federal agencies in the establishment of standards and regulations and to promote best practices. This section also requires the Secretary of State to designate a liaison office with the Department of State to assist, as appropriate, in negotiating cargo security-related international agreements.

The Conference Report adopts the Senate provision.

The Conferees note that the creation of this new office does not affect the Coast Guard's direct control over its missions, assets, and personnel and the Coast Guard is not required to seek the approval, permission, or clearance of this office in performing any Coast Guard mission.

Section 302. Reauthorization of Homeland Security Science and Technology Advisory Committee

Senate Section 302 reauthorizes the Homeland Security Science and Technology Advisory Committee and requires the Assistant Secretary for Science and Technology of the Department of Homeland Security to utilize the Committee to provide outside expertise in advancing cargo security technology.

There is no comparable section in the House bill.

The Conference Report adopts the Senate provision.

Section 303. Research, development, test, and evaluation efforts in furtherance of maritime and cargo security

Senate Section 303 assures coordination within the Department of Homeland Security and with other public and private sector entities for research and development of maritime and cargo security innovations.

House Section 201 amends the Homeland Security Act of 2002 to insert a new Section 1831, which is comparable to Senate Section 303.

The Conference Report adopts the Senate provision.

TITLE IV—AGENCY RESOURCES AND OVERSIGHT

Section 401. Trade and Customs Revenue Functions of the Department.

House Sections 301 and 302, among other things, establish the Director of Trade policy in the Department of Homeland Security.

The Senate bill contains no comparable provision.

The Conference Report adopts the House provision, as modified to require the Secretary of Homeland Security to designate a senior official in the Office of the Secretary to ensure that the trade and customs revenue functions of the Department of Homeland Security are coordinated within the Department of Homeland Security and other Federal departments and agencies and to monitor and report to the Congress on the Department's mandate ensuring that trade and customs revenue functions are not diminished. This section also establishes a Director of Trade Policy to advise on all aspects of Department of Homeland Security policies relating to the trade and customs revenue functions. Section 401 requires the Comptroller General of the United States to conduct a study evaluating the Department of Homeland Security's compliance with section 412(b) of the Homeland Security Act of 2002 (P.L. 107–296) and report the findings to the Congress. In addition, this section requires the Secretary to ensure that the requirements of section 412(b) of the Homeland Security Act of 2002 (P.L. 107–296) are fully satisfied and submit a report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate by September 30, 2007. Section 401 further requires the Secretary of Homeland Security to consult with representatives of the business community on Department of Homeland Security policies that have a significant impact on trade. Finally, section 401 requires the Secretary of Homeland Security to notify the appropriate congressional committees not later than 30 days prior to the finalization of any Department of Homeland Security policies, initiatives, or actions that will have a major impact on trade and customs revenue functions, with certain exceptions if the Secretary of Homeland Security determines that it is important to the national security of the United States. The notification must include a description of the proposed policy initiatives or actions and any comments or recommendations provided by the Commercial Operations Advisory Committee (COAC) and other relevant groups.

The Conferees intend the senior official in section 401(a)(1) to be the current Assistant Secretary for Policy under the Department of Homeland Security's current organizational structure, or the Under Secretary for Policy if one is created. The Conferees oppose the designation of the Commissioner of United States Customs and Border Protection, or another officer outside of the Office of the Secretary of Homeland Security, who does not have authority for Department-wide functions or oversight. It is the intent of Conference that the business community consultations and relevant groups referred to in Section 401(c) shall include a wide cross section of the interested parties including representatives of domestic industry sectors, particularly those affected by enforcement actions; customs brokers and other trade facilitators; and small businesses. In addition, the COAC should strive to represent the wide range of commercial interests impacted by the operations of the Department of Homeland Security.

Section 402. Office of International Trade; Oversight

Senate Section 401 establishes an International Trade Policy Committee and an International Trade Finance Committee. This section requires both the International Trade Policy Committee and the International Trade Finance Committee to submit a report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives within 30 days of the end of each fiscal year detailing their activities and identifying their future priorities.

The House bill does not include a comparable provision.

The Conference Report adopts the Senate provision as modified. It establishes the Office of International Trade, headed by an Assistant Commissioner of United States Customs and Border Protection of the Department of Homeland Security. This section requires the transfer of the assets, functions, and personnel of the Office of Strategic Trade and the Office of Regulations and Rulings to the Office of International Trade within 90 days of the date of enactment. In addition, this section authorizes the Commissioner of United States Customs and Border Protection to transfer any other assets, functions, or personnel to the Office of International Trade, provided that the Commissioner notifies the Congress of a planned transfer 45 days prior to such transfer. However, certain exceptions apply with respect to resources from United States ports of entry associated with the enforcement of textile and apparel laws. This section also requires the Commissioner of United States Customs and Border Protection to establish an International Trade Policy Committee to advise the Commissioner with respect to the commercial customs and trade facilitation functions of United States Customs and Border Protection.

Section 403. Resources

Senate Section 402 requires United States Customs and Border Protection to complete a resource allocation model by June 30, 2007, and every two years thereafter, to determine optimal staffing for commercial and revenue functions. The section requires submission of these models to the Congress. Section 402 authorizes appropriations to increase the number of United States Customs and Border Protection personnel to perform commercial operations and customs revenue functions, based on the resource allocation models required by this section. The section also authorizes the hiring of an additional 1000 Customs and Border Protection Officers (CBPOs).

The House bill does not contain a comparable provision, although House Section 121 provides for 200 additional CBPOs for each of the Fiscal Years 2007 through 2012.

The Conference Report adopts Senate Section 402, as modified. The Conferees agree to include language requiring the initial resource allocation model to provide for the hiring of a minimum of 200 CBPOs for each of the Fiscal Years 2008 through 2012. The Conference agreement requires the Commissioner of United States Customs and Border Protection, in assigning the additional personnel, to consider the volume of trade, the incidence of non-voluntarily disclosed customs and trade law violations, and security priorities at the United States ports of entry. The Commissioner of United States Customs and Border Protection shall assign at least 10 additional CBPOs at each service port and the ports of entry serviced by such service port no later than October 2010. However, the Commissioner shall not assign an additional CBPO to a port of entry that does not need such an additional CBPO. The agreement also requires the Commissioner of Customs and Border Protection to consult with the port directors of each service port prior to assigning CBPOs to determine where to assign such additional CBPOs.

The Conferees expect that the Commissioner of United States Customs and Border Protection will use the resources of Section 403 to accelerate the development and promulgation of regulations to implement trade agreements because the pace has been too slow.

Section 404. Negotiations

The Conference agreement is identical to Senate Section 403, which requires the Department of Homeland Security to work with appropriate Federal officials and international organizations to harmonize customs procedures, standards, requirements, and commitments to facilitate the efficient flow of international trade.

The House bill does not contain a comparable provision.

The Conference substitute adopts the Senate provision.

Section 405. International trade data system

House Section 203 requires the President to establish and implement the International Trade Data System (ITDS), a single, uniform data system for the electronic collection, dissemination, and sharing of import and export information, to increase the efficiency of data submission and the security of such data related to border security, trade, and public health and safety of international cargoes. The section requires the President to consult with private sector stakeholders in developing uniform data submission requirements, procedures, and schedules. Section 203 also requires the President to provide a report to the appropriate congressional committees on the schedule for full implementation of ITDS.

Senate Section 404 requires the Secretary of the Treasury to: oversee the establishment of an electronic trade data interchange system; eliminate redundant information requirements; efficiently regulate the flow of commerce; and enforce regulations relating to international trade. This section also requires all Federal agencies that require documentation for clearing or licensing the importation and exportation of cargo to participate in the International Trade Data System (ITDS). This section allows the Office of Management and Budget (OMB) to waive the participation requirement if it is in the interest of National security. In addition, this section establishes an Interagency Steering Committee to define the standard set of data elements to be collected, stored and shared in the ITDS and requires the Committee to submit a report to the Congress before the end of each fiscal year.

The Conference Report adopts the Senate provision as modified.

Section 406. In-Bond cargo

Senate Section 405 requires the Commissioner of United States Customs and Border Protection to submit a report regarding in-bond cargo to the Committees on Commerce, Science, and Transportation; Homeland Security and Government Affairs; and Finance of the Senate and the Committees on Homeland Security; Transportation and Infrastructure; and Ways and Means of the House of Representatives not later than June 30, 2007. The report must include: a plan for closing in-bond entries at the port of arrival; an assessment of whether ports of arrival should require any additional information regarding shipments of in-bond cargo; and an evaluation of criteria for targeting and examining in-bond cargo.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision.

Section 407. Sense of the Senate

Senate Section 406 expresses the sense of the Senate that nothing in Sections 2, 106, 111 through 113, and 201 through 232 of the bill shall be construed to affect the jurisdiction of any standing committee of the Senate.

The House bill does not include a comparable provision.

The Conference Report adopts the Senate provision.

TITLE V—DOMESTIC NUCLEAR DETECTION OFFICE

Section 501. Establishment of Domestic Nuclear Detection Office

House Section 401 amends the Homeland Security Act of 2002 (P.L. 107-296) to add a new Sections 2001 through 2015, which establish the Domestic Nuclear Detection Office (DNDO) in the Department of Homeland Security.

The Senate Section 801 also establishes DNDO, and is similar to section 401 of the House bill.

The Conference Report adopts the Senate provision, as modified, amending the Homeland Security Act as noted below.

Section 1801. Domestic Nuclear Detection Office

Section 1801 of the Conference Report establishes the Domestic Nuclear Detection Office (DNDO) in the Department of Homeland Security, to be headed by a Director appointed by the President. This section allows the Secretary of Homeland Security to request that the heads of various Federal agencies provide for the reimbursable detail of personnel with relevant expertise to the DNDO.

Section 1802. Mission of office

Section 1802 of the Conference Report defines the mission of the Domestic Nuclear Detection Office (DNDO) and the responsibilities of the Director of DNDO. In fulfilling its mission to coordinate Federal efforts to detect and prevent acts of nuclear or radiological terrorism against the United States, DNDO will be responsible for: developing the global nuclear detection architecture (a blueprint for an international and domestic network of nuclear and radiological detectors), implementing the domestic portion of this architecture, and continually maintaining situational awareness throughout the global architecture; enabling effective information and intelligence sharing with and reporting to appropriate officials including the intelligence community, law enforcement agencies, the emergency response community, and other appropriate authorities; and, developing, coordinating and executing a research and development program focused on achieving dramatically improved nuclear detection capabilities.

The Conference Report adopts the provision in Senate Section 801. The Senate recedes to House language which clarifies DNDO's responsibilities to include technical reachback. This ensures technical experts are available for interpreting detector data. This provision is critical to the success of the implementation of the global nuclear detection architecture. The Senate also recedes to House language requiring DNDO to conduct rigorous testing and evaluation of detectors and detection systems to ensure that desired performance capabilities are known and can be attained under realistic operating conditions prior to large scale acquisition and deployment.

Section 1803. Hiring authority

Section 1803 of the Conference Report gives the Secretary of Homeland Security flexible hiring authority designed to attract qualified technical personnel needed in the Domestic Nuclear Detection Office to successfully fulfill its mission.

Section 1804. Testing authority

Section 1804 provides the Director of the Domestic Nuclear Detection Office (DNDO) with the authority to use Federal facilities to test equipment and any other items related to the mission of DNDO. This section ensures that test results remain confidential, unless consent is provided. The House and Senate confidentiality provisions are identical. Section 1804 also establishes a fee structure that allows for private sector companies to use Federal facilities to test mission-related equipment. While the provision for testing services in the House bill is similar to the Senate version, the Conference Report adopts the Senate amendment in order to provide greater clarity on fees incurred by the Government for providing services to the private sector.

Section 1805. Relationship to other department entities and Federal agencies

House Section 2001(d) and 2003(c) are similar in content and purpose to Senate Section 1805, but the Senate provision has a more extensive savings clause.

Senate Section 1805 clarifies that the authorities and responsibilities of the Director created in this Act will not affect those of other Department entities, nor those of other Federal Departments or agencies.

The Conference Report adopts the Senate provision.

Section 1806. Contracting and grant making authorities

The House Section 401 contains conforming language enabling the Director of DNDO to carry out research, development, testing, and evaluation of nuclear and radiological detection technologies through extramural and intramural programs using grants, contracts, cooperative agreements and other transactions. Additionally, the House bill allows the Director to establish or contract with a Federally Funded Research and Development Center to assist in carrying out mission-related responsibilities. These authorities are vested in the Director by amending Title III of the Homeland Security Act of 2002 (P.L. 107–296), and thus these authorities are given by the Secretary to the Director, in conjunction with the Under Secretary for Science and Technology.

Senate section 802 is a comparable provision.

The Conference Report creates authorities for the Director, not through amending Title III of the Homeland Security Act of 2002, but by establishing these authorities, independent of the Under Secretary for Science and Technology, directly within Title XVIII-Domestic Nuclear Detection Office of the Homeland Security Act of 2002, as amended by this Act. Section 1806 of the Conference Report also includes language from a Senate amendment directing DNDO to investigate radiation detection equipment in configurations suitable for deployment at seaports.

Section 502. Technology research and development investment strategy for nuclear and radiological detection

Senate Section 802 requires the development of a long-term, interagency road map to guide research and development on nuclear and radiological detection systems. A report on the impact of this title on the Department of Homeland Security's research and development efforts is also required. The Director of DNDO and the Under Secretary for Science and Technology are required to report annually on their efforts to provide a cohesive, integrated research and development strategy.

House Section 401 amended the Homeland Security Act to insert a new Section 2011. The report provision included in this section, in contrast to the requirement above, is an internal DNDO activity requiring the Director to inform Congress of its global detection strategy, status, and schedule.

The Conference Report adopts the Senate provision.

TITLE VI—COMMERCIAL MOBILE SERVICE ALERTS

Section 601. Short title

Senate Section 601 states that this title may be cited as the "Warning Alert and Response Network Act."

The House bill contains no comparable provision.

The Conference Report adopts the Senate provision.

Section 602. Federal Communications Commission duties

The Senate bill contains no comparable section.

The House bill contains no comparable section.

The Conference Report adopts the Senate provision, as modified. This section sets forth certain duties of the Federal Communications Commission (FCC) in connection with this title necessary to create a process through which commercial mobile service providers (as such term is defined by Section 332(d)(1) of the Communications Act of 1934) can voluntarily elect to transmit emergency alerts. The FCC must complete a proceeding adopting relevant technical standards, protocols, procedures and other technical requirements based on the recommendations of the Commercial Mobile Service Alert Advisory Committee established in this title to enable the transmission of emergency alerts by commercial mobile service providers who elect to transmit such alerts. This section also provides the FCC with authority necessary to implement this title and provides liability protection to commercial mobile service providers, including the vendors for such providers, electing to transmit emergency alerts.

Section 603. Commercial Mobile Service Alert Advisory Committee

Senate Section 606 establishes a Working Group to provide guidance on the development of the National Alert System.

The House bill contains no comparable section.

The Conference Report adopts the Senate provision, as modified. This section directs the Chairman of the FCC to establish a Commercial Mobile Service Alert Advisory Committee (Advisory Committee) that is required to develop recommendations critical to enable the transmission of emergency alerts by commercial mobile service providers that elect to transmit such alerts. Such recommendations must be submitted by the Advisory Committee to the FCC within one year of enactment, and include protocols, technical capabilities, and technical procedures through which participating providers may receive, verify and transmit alerts to subscribers. This section also requires the Advisory Committee to make recommendations concerning the transmission of alerts in languages other than English, to the extent practicable and feasible. The membership of the Advisory Committee includes representatives of State, local and tribal governments, industry experts and such other stakeholders as the FCC Chairman deems appropriate. This section provides rules for the Advisory Committee, exempts it from the requirements of the Federal Advisory Committee Act, and requires its meetings to be public and announced in advance.

Section 604. Research and development

Senate Section 607 requires the Undersecretary of Homeland Security for Science and Technology and the Director of the National Alert Office to establish a research and. development program to help facilitate future communication devices to effectively participate in the system.

The House bill contains no comparable section.

The Conference Report adopts the Senate provision, as modified. This provision directs the Department of Homeland Security's Under Secretary for Science and Technology to establish a research, development, testing, and evaluation program to facilitate the transmission of emergency alerts by commercial mobile service providers, including the transmission of geographically targeted alerts.

Section 605. Grant program for remote community alert systems

Senate Section 608 instructs the Administrator of National Oceanic and Atmospheric Administration (NOAA) to establish a grant program to provide for the installation of technologies in remote communities to ensure they are effectively alerted. This grant program sunsets after five years.

The House bill contains no comparable section.

The Conference Report adopts the Senate provision, as modified. This provision directs the Administrator of the National Oceanic and Atmospheric Administration (NOAA), in consultation with the Secretary of Homeland Security, to establish a grant program for outdoor alerting technologies for remote communities that are effectively unserved by commercial mobile service. The grant program sunsets after five years and is capped at $10 million.

Section 606. Funding

Senate Section 613 authorizes $106 million through the Digital Transition and Public Safety Fund in accordance with section 3010 of the Digital Television Transition and Public Safety Act of 2005

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified. This provision establishes the funding mechanisms for this title and provides borrowing authority to accelerate implementation of this title. It emphasizes that priority should be given to the provisioning of backbone capability by public broadcast stations to ensure sufficient funding for such capability.

Section 607. Essential services disaster assistance

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which prohibits Federal agencies, to the greatest extent practicable, from denying or impeding essential service provider access to a disaster site for the purpose of restoring essential services or impeding the repair or restoration of essential services by such providers, unless exceptional circumstances apply. This provision does not waive any Federal laws, regulations or policies.

Section 608. Community disaster loans

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which increases the community disaster loan percentage to 50 percent of local government's annual operating income if local government loses 75 percent of its tax and other revenue due to a major disaster, but retains the $5 million cap. This would primarily help small local governments with annual budgets of under $10 million.

Section 609. Public facilities

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which authorizes a 90 percent reimbursement for relocating a public building that was destroyed by disaster in all cases, regardless of whether there is soil instability.

The Conferees note that this approach may be more efficient than having the Federal Emergency Management Agency pay the extra cost of raising the elevation of a rebuilt public building when flood zones change, as is the case under current law. Current law allows, as an alternative to rebuilding in place a public building destroyed by a major disaster, the option of taking a grant to replace that capability in another location. The Federal contribution 75 percent of the Federal cost share, unless the reason for relocating is soil instability, in which case the Federal contribution is 90 percent of the Federal cost share.

Section 610. Expedited payments

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which requires the Federal Emergency Management Agency to make a down-payment of at least 50 percent of the Federal estimated cost of the reimbursement to a local government for debris removal within 60 days of developing the estimate, but not later than 90 days after the filing of the claim.

Section 611. Use of local contracting

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which instructs Federal agency contracting officers, when practicable and feasible, to break disaster response and recovery work requirements into smaller packages to facilitate participation by local contractors.

The Conferees note that in response to Hurricane Katrina, Federal agencies tended to hire large contractors to perform broad responsibilities over the entire disaster area, which made it difficult for smaller, local firms to compete.

Section 612. Federal emergency management agency programs

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which requires the Federal Emergency Management Agency to be responsible for the radiological emergency preparedness program and the chemical stockpile emergency preparedness program.

Section 613. Homeland security definition

The House bill does not contain a comparable provision.

The Senate bill does not contain a comparable provision.

The Conference Report adopts this provision, which amends the Homeland Security Act of 2002 (107-296) to insert "governmental and non-governmental" after "local."

TITLE VII—OTHER MATTERS

Section 701. Security plan for essential air service and small community airports

Senate Section 1106 requires the Assistant Secretary of Homeland Security for Transportation Security, not later than 60 days after the date of enactment, to submit a security plan to Congress for Essential Air Service airports in the United States. The section requires the plan to include recommendations for improved security measures and passenger and cargo screening procedures, and a timeline and cost analysis for the implementation of the recommended security measures and screening procedures.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified to require a security plan for Essential Air Service Airports in the United States and airports whose community or consortia of communities receive assistance under the Small Community Air Service Development Program and maintain, resume, or obtain scheduled passenger air carrier service with assistance from that program.

Section 702. Disclosures regarding homeland security grants

Senate Section 1107 requires each State or local government that receives a grant from the Department of Homeland Security to provide a report to the Secretary of Homeland security listing all expenditures using such funds.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision.

Section 703. Trucking security

Senate Section 1109 requires the Secretary of Transportation, in cooperation with the Secretary of Homeland Security, not later than 12 months after the date of enactment, to issue regulations to implement the recommendations of the Department of Transportation Inspector General's memorandum issued on June 4, 2004. In addition, this section requires the Secretary of Transportation, in conjunction with the Secretary of Homeland Security, to issue a regulation to implement the recommendations contained in the Report on Federal Motor Carrier Safety Administration Oversight of the Commercial Driver's License Program. This section also requires the Secretary of Homeland Security, within 12 months of enactment, to draft guidelines for Federal, State, and local law enforcement officials to improve compliance with Federal immigration and customs laws. In addition, this section requires the Administrator of the Federal Motor Carrier Safety Administration, within 12 months of enactment, to modify the final rule regarding the enforcement of operating authority to establish a system or process by which a carrier's operating authority can be verified during a roadside inspection.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified to require the Secretary of Transportation to work in cooperation with the Secretary of Homeland Security in issuing regulations to implement the recommendations in the Report on Federal Motor Carrier Safety Administration Oversight of the Commercial Driver's License Program. In addition, the Conference agreement changes the time frame for completion of the various tasks in this section from 12 months to 18 months.

Section 704. Air and marine operations of the northern border air wing

Senate Section 1112 authorizes $40 million, in addition to any other amounts authorized for United States Customs and Border Protection, for each of fiscal years 2007 and 2008 for the operating expenses of the Northern Border Air Wing in Great Falls, Montana.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified. This section authorizes such sums as are appropriate in fiscal year 2008, in addition to any other amounts authorized for United States Customs and Border Protection, for the Northern Border Air Wing Branch in Great Falls, Montana.

Section 705. Phase-out of vessels supporting oil and gas development

Senate Section 1114 allows foreign-flag vessels to be employed for the movement or transportation of anchors in the Beaufort Sea.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision.

Section 706. Coast Guard property in Portland, Maine

Senate Section 1115 changes the conveyance date for United States Coast Guard Property in Portland, Maine.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision.

Section 707. Methamphetamine and methamphetamine precursor chemicals

Senate Section 1116 requires the Commissioner of the United States Customs and Border Protection to conduct a study and submit a report on matters relating to Methamphetamine and Methamphetamine Precursor Chemicals.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified to specify that the Commissioner consult with the Attorney General of the United States in addition to the United States Immigration and Customs Enforcement, the United States Drug Enforcement Administration, and the United States Department of State. The House also requested that the Committee on the Judiciary in the House of Representatives receive a copy of the report and that the word "international" be inserted before the word "mails."

Section 708. Aircraft charter customer and lessee prescreening program

Senate Section 1117 requires the Comptroller General to assess and report on the status, implementation, and use of the Department of Homeland Security's aircraft charter customer and lessee pre-screening process. This section requires the report to be submitted to the Committees on Commerce, Science, and Transportation of the Senate and the Committee on Homeland Security of the House of Representatives within 180 days of the date of enactment.

The House bill does not contain a comparable provision.

The Conference Report adopts the Senate provision, as modified to require the Comptroller to submit the report within 270 days of the implementation of the Department of Homeland Security's aircraft charter customer and lessee prescreening process.

Section 709. Protection of health and safety during disasters

Senate Section 1104 authorizes the Department of Health and Human Services to establish a coordinated protection, assessment, and monitoring program for individuals that suffer from a high exposure level to a substance of concern in disaster areas. The program informs these individuals of the health hazards associated with such releases, and monitors the short and long-term health affects of such a release. It allows for the voluntary registry in any such program. The section requires the National Academy of Sciences to gather a series of subject matter experts and provide a report on disaster area health and environmental monitoring and provide for recommendations to improve monitoring and response activities at the Federal, State, and local level.

The House has no comparable provision.

The Conference Report adopts the Senate language. The Conference clarifies that the intent of this provision is to provide for the protection, assessment, and monitoring of all responders, whether uniformed or volunteer, and those individuals living, working, or attending school within the disaster area involving any mode of transportation that suffer from a high exposure level to a substance of concern in the disaster area.

COMPLIANCE WITH HOUSE RESOLUTION 1000

In compliance with H. Res. 1000, (109th Congress), the following provisions have been included in H.R. 4954:

The bill contains language requiring disclosure under House Resolution 1000 on page 46, lines 16 through page 47, line 10. This section requires the establishment of an intermodal rail radiation detection test center to be located at a port with the majority of its cargo leaving the facility using on-dock, intermodal rail. The language is from an amendment offered by Senator Cantwell.

The bill also contains language requiring disclosure on page 50, lines 1 through 10. This section requires the establishment of a Border Patrol unit in the United State Virgin Islands. The language is from an amendment offered by Delegate Christensen.

The bill also contains language requiring disclosure on page 190, line 16 through page 191, line 3. This section authorizes such sums as may be necessary for the Northern Border Air Wing Branch located in Great Falls, Montana. The language is from an amendment offered by Senator Baucus.

The bill also contains language requiring disclosure on page 193, lines 8 through 12. This section amends the conveyance date for United States Coast Guard Property in Portland, Maine. The language is from an amendment offered by Senator Collins.

WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4954, SAFE PORT ACT

Mr. DREIER. Mr. Speaker, I ask unanimous consent that it be in order at any time for the chairman of the Committee on Rules or his designee, without intervention of any point of order, to call up House Resolution 1064; that the resolution be considered as read; and that the resolution be debatable for 20 minutes equally divided and controlled by the proponent and an opponent.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SESSIONS. Mr. Speaker, pursuant to the previous order of the House and as the designee of the chairman of the Committee on Rules, I call up House Resolution 1064 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 1064

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 4954) to improve maritime and cargo security through enhanced layered defenses, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. Pursuant to the order of the House, the gentleman from Texas (Mr. SESSIONS) and the gentleman from Florida (Mr. HASTINGS) each will control 10 minutes.

The Chair recognizes the gentleman from Texas.

Mr. SESSIONS. Mr. Speaker, I rise in support of this consent agreement providing for the consideration of a conference report for the Security and Accountability for Every Port Act. This port security bill, which has been agreed to now by the conference committee, came as a result of House action that was made on May 4 that passed this House 421–2.

Mr. Speaker, I want you to know that there are four major provisions within this SAFE Act: number one, enhancing security at U.S. ports; number two, preventing threats from reaching the United States of America; number three, tracking and protecting containers en route to the United States; and, number four, establishing the Domestic Nuclear Detection Office.

Mr. Speaker, we have spent a lot of time in this House of Representatives speaking about and working with our counterparts in the United States Senate as well as the administration on better ways that we can enhance port security. This conference report which we bring tonight, the last night before we go to recess, is an important victory for the American people. It stands to continue the safeguard position that this great Nation expects not only of its government but expects from the House of Representatives. I am proud that we are able to bring this bill forward tonight.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, as has already been pointed out, today, at least tonight, we consider the conference report for the major security legislation for this year. I voted for this bill in May, and I likely will vote for this conference report.

I point out, however, that this bill could have and should have been much better. If the majority really cared about safety and security and if they cared more than they do about naked partisanship and political advantage, this would be a bill that we could all be proud to pass.

For example, Mr. Speaker, when the bill was considered this spring and again now, we were prohibited from considering a Democratic amendment offered by Representatives NADLER, OBERSTAR, MARKEY, and others which requires that every shipping container be scanned and sealed before being loaded onto a ship destined for the United States. The scary fact remains that less than 5 percent of all containers coming into the United States through our ports are scanned.

Mr. Speaker, as someone who represents a district which depends greatly upon three major international ports for economic activity, I took considerable umbrage with the majority's not allowing this amendment to be considered. I take issue with your conscious decision to block the House from considering proposals which would have, without a doubt, made my constituents and the American people safer.

Moreover, the rule this past spring prohibited the ranking Democratic member of the Homeland Security Committee, an expert in this field, BENNIE THOMPSON, from making constructive changes to the bill. Ranking Member THOMPSON's changes address the fact that we cannot continue asking Customs officials to do more with less. His amendment authorized funding for U.S. Customs and Border Patrol to hire 1,600 more officers at seaports.

Mr. Speaker, as I previously mentioned, I am proud to represent a region in our country which is home to some of our largest international seaports. Port Everglades in Fort Lauderdale, Port of Palm Beach in Riviera Beach, and the Port of Miami, each within or just minutes from the district I am privileged to represent, have led the way in security improvements in America. The three, Port Everglades in particular, have all enjoyed national and international best practices recognition.

So when I come to the floor today and consider the underlying legislation, I have to ask does this legislation get our ports to where they need to be regarding security. The answer is it gets us closer, but we can and must do better.

Mr. Speaker, we had an opportunity in May to do something about a real problem which we all know exists at America's seaports. We will accomplish some with the passage of this bill, but we must return to this topic when the new Congress convenes next January after a new direction. We can do better and we will do better for the American people. When we come next year, Democrats will give our Customs and Border Patrol officers the necessary tools and directives to do everything that they can possibly do to stop attacks from happening here in the United States. Until this time we have this bill, which is a first step, and that is all it is, a first step.

Mr. Speaker, I reserve the balance of my time.

Mr. SESSIONS. Mr. Speaker, my colleague from Florida has pointed up not only the hard work that we have been doing on this bill, bipartisan work for a number of years, but also really about the effort or the direction, the direction that we are aiming at. And, in fact, under this SAFE Port Act of 2006, we are setting a timeline by which 100 percent of all containers will be scanned for radiation, by requiring the Department of Homeland Security to set the timeline for deploying these radiation detectors.

Mr. Speaker, we are also making sure that we are adding the number of people to the Customs and Border Patrol who will conduct these validations. We are going to make sure that we continue to add, as necessary, the numbers of people pointed at the right direction.

The gentleman from Florida is correct: we are not exactly where we want to be. But for us to think that 100 percent of everything can just be done overnight is not the reality of where the threat is at this country. I believe this President, I believe this administration, I believe this Congress have been aware of the frailties of our systems. We are trying to match our dollars, the resolve of this great Nation, with the ability on all of our borders to be able to make sure that we are looking at the threats of the 21st century that come to us as a result of terrorist organizations. We want to make sure that by doing this bill tonight that we allow and put into motion the opportunity for the Department of Homeland Security to be better prepared to face those threats that come against the United States.

This passed 421–2. It is an indication, it was in May, that we are headed in the right direction. I am confident tonight that the final answer that comes from the negotiation with the Senate can be on the President's desk as early as tomorrow, ready and waiting to protect this country.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. I heard that the conference was a farce. My colleague from Texas said we are headed in a new direction.

People don't need no new direction. What people need is an absolute destination. And the fact of the matter is there were people who could have made this bill better and we are shut out of the process the same as we have been all the way down the line.

Mr. Speaker, I am very pleased to yield 3 minutes to my very good friend, the gentlewoman from Nevada (Ms. BERKLEY).

Ms. BERKLEY. Mr. Speaker, I want to thank my very dear friend, the outstanding congressman from Florida (Mr. HASTINGS) for yielding me this time.

On Wednesday morning I came to the floor of the House to protest the fact that the Republican leadership was holding up the Department of Defense bill because they wanted to attach a ban on Internet gaming. It was more important to the Republican leadership to keep people from playing poker on their computers in their homes than passing a defense bill that would help protect our troops serving this Nation in Iraq, Afghanistan, and the rest of the world. So the last bill that we pass before we adjourn on the vital and important issue of port security contains the ban on Internet gaming.

What does a ban on Internet gaming have to do with port security? Absolutely nothing.

This section was added to the bill in an attempt to fire up the far-right anti-gaming element of the Republican Party in time for this year's election. They could not sneak it into the defense bill, so they put it into the port security bill.

What does banning Internet gaming have to do with port security? I cannot think of a single thing.

To ensure that this provision stayed in, they actually prevented the conferees from meeting and offering amendments. That is taking partisanship to a new low even in this Congress where partisanship is the rule rather than the exception.

If we must resign ourselves to adding extraneous provisions to conference reports, why don't we add something meaningful that could actually help people? How about stopping the cut in Medicare physicians' reimbursement so that the doctors can continue to treat older Americans? How about something like that that can do millions of Americans some good? But that wouldn't please the far-right ultraconservative anti-gaming types in the Republican Party as much as preventing individuals from wagering on the Internet in the comfort of their own homes.

Mr. Speaker, I will vote for this bill because it addresses important national security issues. But I hope that the American people, those that are listening to us debate tonight, are aware of the partisan games that are being played with this bill by the Republican leadership in this Congress.

I support all of the strenuous objections you have, Mr. HASTINGS, to this piece of legislation that is important, could have been good, should have been better, and isn't.

Mr. SESSIONS. Mr. Speaker, I came down to speak about the bill, the SAFE Port Act of 2006, and to move this bill forward.

Mr. Speaker, I have no further requests for time, and I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself the balance of my time.

I will be asking Members to vote "no" on the previous question. If the previous question is defeated, I will offer an amendment to the rule that instructs the enrolling Clerk to modify the conference report and add important provisions from the Senate version of this bill. These provisions are virtually identical to those in the motion to instruct that the House overwhelmingly adopted just 24 hours ago by a vote of 281–140.

☐ 2145

Any Member who supported that motion last night should support my amendment today.

Mr. Speaker, I ask unanimous consent that the text of the amendment be printed in the RECORD immediately before the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. HASTINGS of Florida. Mr. Speaker, when the House passed this bill in May, it passed by a wide bipartisan margin and focused exclusively on port security issues. When the Senate took up this bill, however, it broadened the scope of this legislation to address the gaping security holes in our country's rail, subway, bus and trucking system.

Secretary Chertoff and the House Republicans called these new sections "goulash." I think they are good policy, and I think they should be part of the bill we send to the President today. If we can stick unrelated gambling legislation into this conference report, Mr. Speaker, why cannot we include legislation that will improve our mass transit and rail security?

Mr. Speaker, the 9/11 Commission noted in its final report that our surface transportation systems such as railroads and mass transit remain hard to protect because they are so accessible and extensive. We all know that Congress has not done enough to address this problem. So let's take this final opportunity to make some progress by including the Senate language.

Mr. Speaker, I want to stress that a "no" vote on the previous question will not stop consideration of the port security conference report, but a "no" vote will allow the House to include in the conference report the critical Senate provisions that were contained in yesterday's motion to instruct that passed this House by a bipartisan and overwhelming vote.

Again, vote "no" on the previous question.

Mr. Speaker, I yield back the balance of my time.

Mr. SESSIONS. Mr. Speaker, I want to thank the gentleman from Florida, my friend, who has engaged this entire year in attempting to work with us the best as possible, despite some objections, on getting these bills to the floor.

The Rules Committee does have a job to do. That is our job tonight. Our job is to make sure that this rule is brought forward. I am asking all Members to vote "aye" on the previous question, to vote "aye" and then to get this bill on the floor with an overwhelming bipartisan vote, 421–2 the last time we voted on this bill.

It is the right thing. It makes sure that we provide the tools that are necessary to the President of the United States effective immediately. I think we are going to get it done, Mr. Speaker. I am very proud of the work that is happening in the U.S. House of Representatives.

I am proud to know that tonight we will be through, we will be home, we will be with our families, but we should not leave until we get our work done, and that we are doing.

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise in opposition to the rule on H.R. 4954, the Security and Accountability for Every Port Act of 2006.

This rule is furtherance of a process that can be summed up in two words—a joke.

After weeks of negotiations, Republicans refused to share the final conference report on legislation that was supposed to be bipartisan.

Indeed, this is legislation that builds on what my colleague LORETTA SANCHEZ did last Congress and that JANE HARMAN took up this Congress.

Last night at 7:30, a conference report meeting was called and it was missing the key ingredient—a conference report.

After opening statements, Chairman PETER KING closed the meeting, telling us it was his intention "that amendments would be offered."

And, at 11:30 last night, we finally received the report with a very clear P.S. from Mr. KING—there would be no amendments offered.

His actions contradicted the will of this House, which voted yesterday 281–140 to instruct conferees to consider specific issues that the amendments to be offered would have covered.

Now, the Committee on Homeland Security has been a bipartisan committee to date. These questionable processes undermine our homeland security efforts—all in the name of politics.

I know the elections are important to my colleagues across the aisle but they should not take precedent over America's homeland security efforts.

Adding even more insult to the process, the Republicans have attached internet gambling to the port security bill.

Now, Mr. Speaker, I ask someone to explain to me how prohibiting internet gambling is more important to our homeland security than making our trains, subways, and buses safe?

You will hear excuses about why we can't do mass transit and rail security and that we will "take it up soon."

When?

Madrid happened in 2004. London happened in 2005. Mumbai happened only a few months ago.

Are we waiting for New York City's Long Island Railroad to be attacked to pass sensible security for trains?

If so, at least we'll have comfort in knowing that Americans can't bet on the Superbowl online.

Now, I have signed on to the conference report because there are good things, but they aren't enough.

Frankly, this body can and should do better. We need to put America's security first and foremost before politics.

I urge all Members to oppose the rule.

The material previously referred to by Mr. HASTINGS of Florida is as follows:

PREVIOUS QUESTION FOR RULE ON CONFERENCE REPORT FOR H.R. 4954—"SAFE" PORT ACT

Strike all after the resolved clause and insert:

"That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 4954) To improve maritime and cargo security through enhanced layered defenses, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

Sec. 2. (a) A concurrent resolution specified in subsection (b) is hereby adopted.

(b) The concurrent resolution referred to in subsection (a) is a concurrent resolution

(1) which has no preamble;

(2) the title of which is as follows: "Providing for Corrections to the Enrollment of the Conference Report on the bill H.R. 4954"; and

(3) the text of which is as follows:

"That, in the enrollment of the bill H.R. 4954 entitled" An Act to improve maritime and cargo security through enhanced layered defenses, and for other purposes', the Clerk of the House of Representatives is hereby authorized and directed to make the following corrections:

"(1) Insert title V of the Senate amendment to the bill (relating to the Rail Security Act of 2006).

"(2) Insert title VII of the Senate amendment to the bill (relating to mass transit security).

"(3) Insert title IX of the Senate amendment to the bill (relating to improved motor carrier, bus, and hazardous material security).

"(4) Insert the following sections of title XI of the Senate amendment to the bill:

"(A) Section 1101 (relating to certain TSA personnel limitations not to apply).

"(B) Section 1102 (relating to the Rural Policing Institute).

"(C) Section 1103 (relating to evacuation in emergencies).

The Vote on the Previous Question: What It Really Means

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Republican majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule . . . When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda to offer an alternative plan.

Mr. SESSIONS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HASTINGS of Florida. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question on House Resolution 1064 will be followed by 5-minute votes on adopting House Resolution 1064, if ordered; and suspending the rules and passing S. 3661.

The vote was taken by electronic device, and there were—yeas 220, nays 189, not voting 23, as follows:

☐ 2219

Mr. SPRATT changed his vote from "yea" to "nay."

Mr. WALSH and Mr. BOOZMAN changed their vote from "nay" to "yea."

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated for:

Mr. JOHNSON of Illinois. Mr. Speaker, on September 29, 2006, I was away from my official duties due to a family matter, and subsequently missed a recorded vote on rollcall No. 512, on ordering the Previous Question on H. Res. 1064, waiving points of order against the conference report to accompany the bill (H.R. 4954) to improve maritime and cargo security through enhanced layered defenses, and for other purposes. Had I been present, I would have voted "yea."

The SPEAKER pro tempore (Mr. LAHOOD). The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PRIVILEGES OF THE HOUSE—PRIVILEGED RESOLUTION REQUIRING INVESTIGATION OF KNOWLEDGE OF OFFENSES OF REPRESENTATIVE MARK FOLEY

Ms. PELOSI. Mr. Speaker, pursuant to rule IX, I rise in regard to a question of the privileges of the House and I send to the desk a privileged resolution.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read the resolution, as follows:

Whereas for more than 150 years, parents from across the country have sent their children to be pages in the U.S. Capitol, the Page School is a national treasure, and the children who attend it and work in the Congress are our special trust;

Whereas, according to press reports, Representative MARK FOLEY (R–FL) reportedly engaged in highly inappropriate and explicit communications with a former underage page;

Whereas these allegations were so severe that Representative FOLEY immediately resigned his seat;

Whereas the page worked for Congressman RODNEY ALEXANDER (R–FL) and, according to press reports, Representative ALEXANDER learned of the e-mails "10 to 11 months ago"; (AP, September 29, 2006)

Whereas Rep. ALEXANDER has said, "We also notified the House leadership that there might be a potential problem", and the Democratic leadership was not informed; (AP, September 29, 2006)

Whereas all Members of Congress have a responsibility to protect their employees, especially young pages who serve this institution;

Whereas these charges demand immediate investigation, including when the e-mails were sent, who knew of the e-mails, whether there was a pattern of inappropriate activity by Mr. FOLEY involving e-mail or other contacts with pages, when the Republican leadership was notified, and what corrective action was taken once officials learned of any improper activity;

Whereas given the serious nature of these charges, the pages, their parents, the public, and our colleagues must be assured that such egregious behavior is not tolerated and will never happen again;

Therefore be it resolved,

That the Chairman and Ranking Member of the Committee on Standards of Official Conduct are directed to immediately appoint a Subcommittee, pursuant to Rule 19 of the Rules of the Committee, to fully and expeditiously determine the facts connected with Representative FOLEY's conduct and the response thereto; and

That the Chairman and Ranking Minority Member of the Committee on Standards are further directed to make a preliminary report within 10 days.

The SPEAKER pro tempore. The resolution presents a question of the privileges of the House.

MOTION TO REFER THE RESOLUTION

Mr. BOEHNER. Mr. Speaker, I offer a motion.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. BOEHNER moves that the resolution be referred to the Committee on Standards of Official Conduct.

The SPEAKER pro tempore. The majority leader is recognized under the hour rule.

Mr. BOEHNER. Mr. Speaker and my colleagues, I think all of us realize this is a very serious matter. We have not seen this resolution nor known of its contents until this moment; and, given the seriousness of the matter, I would ask that the House refer this issue to the Committee on Ethics immediately.

Again, this is a very serious matter, and I think we all realize it is a serious matter, but I would ask we do this under the rules of the House. Referring this to the Ethics Committee is the appropriate place to do it.

Mr. Speaker, I move the previous question on the motion.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Ms. PELOSI. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 410, noes 0, not voting 22, as follows:

[Roll No. 513]

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated for:

Mr. JOHNSON of Illinois. Mr. Speaker, on September 29, 2006, I was away from my official duties due to a family matter, and subsequently missed a recorded vote on rollcall No. 513, on ordering the previous question on the motion to refer the privileged resolution to the Committee on Standards of Official Conduct. Had I been present, I would have voted "aye."

The SPEAKER pro tempore (Mr. RYAN of Wisconsin). The question is on the motion that the resolution be referred to the Committee on Standards of Official Conduct.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Ms. PELOSI. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote will be followed by a 5-minute vote on the motion to suspend on S. 3661, if arising without intervening business.

The vote was taken by electronic device, and there were—ayes 409, noes 0, not voting 23, as follows:

So the motion to refer the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mrs. MYRICK. Mr. Speaker, on rollcall No. 514, I was unable to vote due to unforeseen circumstances. Had I been present, I would have voted "yea."

Mr. JOHNSON of Illinois. Mr. Speaker, on September 29, 2006, I was away from my official duties due to a family matter, and subsequently missed a recorded vote on rollcall No. 514, on a motion to refer the Privileged Resolution to the Committee on Standards of Official Conduct. Had I been present, I would have voted "yea."

WRIGHT AMENDMENT REFORM ACT OF 2006

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the Senate bill, S. 3661.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. MICA) that the House suspend the rules and pass the Senate bill, S. 3661, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 386, nays 22, not voting 24, as follows:

□ 2305

So (two-thirds of those voting having responded in the affirmative) the rules were suspended and the Senate bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. JOHNSON of Illinois. Mr. Speaker, on September 29, 2006, I was away from my official duties due to a family matter, and subsequently missed a recorded vote on rollcall No. 515, to suspend the rules and pass S. 3661, a bill to amend section 29 of the International Air Transportation Competition Act of 1979 relating to air transportation to and from Love Field, Texas. Had I been present, I would have voted "yes."

APPOINTMENT OF THE HONORABLE FRANK R. WOLF AND THE HONORABLE TOM DAVIS TO ACT AS SPEAKER PRO TEMPORE TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS THROUGH NOVEMBER 13, 2006

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 29, 2006.

I hereby appoint the Honorable FRANK R. WOLF and the Honorable TOM DAVIS to act as Speaker pro tempore to sign enrolled bills and joint resolutions through November 13, 2006.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

The SPEAKER pro tempore. Without objection, the appointment is approved.

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3938

Mr. WELDON of Florida. Mr. Speaker, I ask unanimous consent that my name be withdrawn as a cosponsor of H.R. 3938.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

CONFERENCE REPORT ON H.R. 4954, SAFE PORT ACT

Mr. KING of New York. Mr. Speaker, pursuant to House Resolution 1064, I call up the conference report on the bill (H.R. 4954) to improve maritime and cargo security through enhanced layered defenses, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 1064, the conference report is considered read.

[For conference report and statement, see proceedings of the House of today.]

The SPEAKER pro tempore. The gentleman from New York (Mr. KING) and the gentleman from Mississippi (Mr. THOMPSON) each will control 30 minutes.

The Chair recognizes the gentleman from New York.

Mr. KING of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise tonight in strong support of the conference report on H.R. 4954, the SAFE Port Act.

This is a night of a true success in the area of homeland security and port security. This is an issue which the country was focused on earlier this year with the whole Dubai Ports issue. It is an issue which the Homeland Security Committee addressed head on. We passed the bill out of committee. It passed the full House floor by a vote of

421–2; and now we are here tonight, Mr. Speaker, for final passage.

Let me at the outset commend the ranking member of the committee, Mr. THOMPSON of Mississippi, for the tremendous cooperation that he gave throughout the committee process on this bill; Subcommittee Chairman LUNGREN on our side for his work, the leadership he demonstrated; and also Ms. SANCHEZ and Ms. HARMAN. This was definitely and truly a bipartisan effort, and we are here tonight because both parties came together, we worked together, we realized the importance of this. We realized that homeland security should not be a partisan issue.

Mr. Speaker, I do not intend to go on at great length, but I will give just some of the highlights of the bill. It provides $400 million a year in dedicated port security grant programs, three pilot programs for 100 percent screening for nuclear and radiological material. It enhances the Container Security Initiative, CSI. It codifies and strengthens CTPAT. It also establishes the Domestic Nuclear Detection Office. It also sets deadlines for TWIC.

Mr. Speaker, this is legislation which encompasses so much of the issues that we have to address with port security. It is legislation whose time has come. It is legislation which makes our country safer or makes our ports more secure. It will enable the commerce of the country to go forward. And it is a bill which distinctly addresses the concerns raised by the American people.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, once again we are here on the floor debating another security bill that will not fully secure America. This bill does a lot to strengthen port security, but it leaves a number of glaring gaps.

I want to thank Ms. SANCHEZ and Ms. HARMAN. They are the chief architects of the best ideas in this bill. They have been true champions on port security since the early days of this committee. I want to thank Mr. LUNGREN and Mr. KING for working with us on this bill on a bipartisan basis, although I was very disappointed that this process broke down in the last few days.

Additionally, Homeland Security staff on both sides of the aisle made sure the process was an inclusive one. We heard positive insight from industry, first responders, port security experts. I appreciate all of them for their help.

But despite all our efforts, at the end of the day this measure falls short. Once again House Republicans have turned their back on everyday working folks who rely on buses and trains to get to work. When offered an opportunity by the Senate to secure our mass transit and rail security, they chose to do nothing.

Quite frankly, Mr. Speaker, this port bill has become just another act in the play the House Republicans have billed as "homeland security" month. They could have offered America a star performance, and instead, Mr. Speaker, they delivered mediocrity.

Let me serve as a narrator of this story for a few moments:

Act one, protecting ponies. The week before the fifth anniversary of 9/11, the House leadership was more concerned about protecting horses than protecting our ports.

Act two, border security. Thinking good fences make good neighbors, they squandered the little time we had left in this session to revote a fence bill. As the Senate passes the fence bill tonight, Americans should feel safe in their homes. America will have a 700-mile fence across the U.S.-Mexico border.

Well, Mr. Speaker, not really. The appropriations bill we passed today paid for barely half of that fence. I am sure terrorists and others crossing the border are quivering in their boots at this half-baked half fence.

Let us move to act three, FEMA. The Committee on Homeland Security tried to fix FEMA and give first responders the interoperability they needed. Instead of fully funding the reorganization, Republicans chose to do "FEMA on the cheap," leaving our police, firefighters, and EMTs without the ability to talk to one another.

□ 2315

And here we are at this late hour beginning act four, the closing act in this political comedy, port security. H.R. 4954, as passed by the House, was a good bill overall. The Senate improved upon the bill by, among other things, addressing rail and mass transit security. Unfortunately, this sham conference process denied consideration of the Senate ideas as well as Democratic amendments to better protect our Nation. And that, after this body overwhelmingly approved my motion to instruct the conferees to accept the Senate position on rail and mass transit security, the conference Chair denied the will of this body. Why do not the Republicans want to eliminate this critical vulnerability now? We have the time. So why not now?

The American people would much rather see this body work through the night to get homeland security right than go home to run for reelections. Instead of calling this month Homeland Security Month, we should rename it Amateur Hour Month, because that is all we have seen from this Congress.

While I have enormous issues with the process and the scope of this bill, Mr. Speaker, I still intend to vote for it. I make this pledge. In the next Congress, we will absolutely be back here to finish the job and get homeland security right.

Mr. Speaker, I reserve the balance of my time.

Mr. KING of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would just note that I was listening very carefully to the gentleman's remarks, and I really heard nothing at all critical of the port security bill. We are talking about other bills that maybe should be covered or other items. The fact is, on the issue of port security, this is the port security bill. It did receive wide bipartisan support. And I think, rather than go on extraneous issues and talking and talking about fences, we are talking about port security.

Mr. Speaker, I yield such time as he may consume to the prime sponsor of the port security bill, the gentleman from California, Mr. LUNGREN.

Mr. DANIEL E. LUNGREN of California. I thank the chairman for yielding.

Mr. Speaker, I want to thank Chairman KING for his leadership, Ranking Member THOMPSON, the ranking member of my subcommittee, Ms. SANCHEZ, and Congresswoman HARMAN for all of the hard work in passing this important bill to protect our ports.

Mr. Speaker, I must say that I guess I must have gotten very tired tonight, because I think I misheard my good friend, Mr. THOMPSON, in his description of this bill and about some play we are at.

I remember act one, act two, act three being consultation with the other side. I remember working very closely with Members of the other side of the aisle and their staffs. I recall us spending months working this out. I recall early morning meetings with Ms. HARMAN, joining Congresswoman HARMAN to go across the Rotunda to the other side, to try and see if we could begin our journey together, that is, to see that our bill would be close in terms of its tone, in terms of its breadth, in terms of its direction with that of our colleagues on the other side.

I can recall the next act when we brought it to the subcommittee, and I can recall getting a unanimous vote out of the subcommittee. I can recall the next act, which was the full committee. We had a 29–0 vote; and where I come from, that is pretty doggone close to unanimous.

We then had the further act which was acting on the floor of the House, and we got a 421–2 vote. It was totally bipartisan. Even the two who voted against it split one Republican and one Democrat. You cannot get much more bipartisan than that.

We have worked together to preserve the essence or the guts of the bill that we have crafted through our committee structure and which we passed on the floor. I am proud to stand here and say that we have accomplished something that many people thought could not be accomplished.

The Senate began their journey several months before we did in terms of a formed bill. Yet we leapfrogged over them in the work that was done in our subcommittee and committee. And I do believe that the actions of this House nudged, if I might use that term, our colleagues on the other side of the Rotunda such that we are able to bring this bill to the floor for completed action tonight on this side of the Rotunda and the other side of the Rotunda.

Rather than create an act of political statement, we have created an act of law. That is, this will go to the President, and the President will sign this. So I hope that all who are here in this Chamber will think of the spirit of bipartisanship with which we started this journey that will be part of the end of this journey.

Today, we have taken a solid step forward in securing our Nation. I do not think there can be any doubt about that. This is not a half measure. This is a major measure.

The sums of money authorized in here are significant. The grant program is a stream of $400 million a year for 5 years. That is a $2 billion grant program for our ports across this Nation. That is something we have been looking for for some time.

We now authorize it. We authorize other programs that Members on both sides of this aisle have spoken for for a long period of time, all to secure this Nation and particularly to secure our ports.

Our enemies have stated that they want to disrupt our economy, murder our citizens, and destroy our way of life. By passing this bill, we do not make a statement, we actually begin to protect our Nation's ports, safeguard the American people, and increase the confidence in our international trade routes.

The American people expect us to take action to protect our ports, and with this bill we have done precisely that. We have addressed the possibility of our enemies using our open society and free economy against us. We have taken away a potential weapon, one capable of causing major disruption to our economy.

In passing this bill tonight, we are taking rational action to harden our domestic critical infrastructure, ensuring that those who wish to harm us are unable to have access to those critical facilities.

But this bill is more than just protecting our local facilities. Securing international maritime trade is incredibly complex. At any one time there are hundreds of vessels and literally hundreds of thousands of containers crossing the oceans on the way to our ports.

With this bill, we have developed a strategy to implement a system to scan each container before it enters our domestic stream of commerce. We will be able to identify and track containers destined for our shores, using training and technology to identify any that may pose a risk.

We are pushing out our borders beyond our geographical limits to make a rational approach to stopping the opportunity that those who would kill us and maim us and destroy our economy would otherwise have.

We have reached out in this way to our trading partners to include them in this strategy to keep international trade flowing with minimal disruption. This strategy allows us to integrate security into international commerce, allowing us to facilitate trade rather than hinder it, so that we do not allow the terrorists to succeed.

We have given the Department of Homeland Security the tools it needs to protect against the potential of weapons of mass destruction being delivered to our shores. We have created a program for our best minds to develop even more effective and less intrusive scanning technology to make security completely transparent, seamless and even more effective.

Recognizing that technology is only as good as the people who use it, we provided a multitude of grants available to our local port facilities so that they can train their employees in emergency procedure and response. That is something that we very much wanted to emphasize, and I would like to give Congressman REICHERT credit for pursuing that in such a strong way.

The bill also provides for more Customs and border protection agents, which should enable the Department to continue its mission of both building security and facilitating legitimate trade that is critical to the Nation.

We provided for the Coast Guard to create joint port security operational centers in our Nation's major ports to coordinate effective response to any incident that threatens the security of these ports.

Some may wish to focus on what the bill does not do, when we should appreciate it for what it does. It strengthens our port facilities, it enhances the security of the international supply chain, increases the resiliency and confidence in our economy.

By doing all of this, the significant piece of legislation and all of those that worked so hard to bring it to passage, including Chairman KING, Ranking Member THOMPSON, Congresswoman HARMAN, Ranking Member SANCHEZ and our colleagues in the Senate all have joined together to increase the security of our Nation; and I, for one, am proud to have been involved.

Mr. THOMPSON of Mississippi. Mr. Speaker, I thank Mr. LUNGREN for the accurate recap of the early parts of the act. But like most early parts of the act, people forget how it ends; and what I am saying to you is, while bipartisanship might be good, the process is incomplete.

Mr. Speaker, I yield 4 minutes to the gentlewoman from California (Ms. HARMAN), one of original authors of the bill.

Ms. HARMAN. Mr. Speaker, I thank the Ranking Member of the Full Committee for yielding to me so early in this debate.

Mr. Speaker, today, I rise in support of the conference report for the SAFE Port Act. In a month that was supposed to be all about security, this measure is the only one we have considered that will actually make America more secure.

This bill is as good as it is because it was developed through a bipartisan approach. From introduction back in March, through subcommittee and full committee mark-up, to passage by an astonishing vote of 421-2 in May, we worked on this bill together.

Sadly, as our Ranking Member has said, this bipartisanship ended in the conference. The conference agreement, while good, could have been much, much better. But the fact remains that this bill will add value. As we debate tonight, operations are ongoing at the port complex of Los Angeles and Long Beach. This complex, which adjoins my district, is the largest container complex in the Nation.

Nearly 55,000 20-foot containers were processed at this complex today. Right now, thousands of containers are being unloaded from large cargo ships by 4,000 dock workers who work every day under the threat of a terrorist attack. They will be comforted that we are closing big gaps in port security with this legislation.

Because of the SAFE Port Act, most containers will have been screened for nuclear and radiological materials at their port of embarkation, thousands of miles from us, our business and our families.

I am sure we will hear later in this debate that scanning would be better, and I agree. But we could not achieve that in this legislation. The good news is we have three pilot projects.

Because of the SAFE Port Act, a trusted company can partner with the U.S. Government to take additional steps to prevent security breaches.

Because of the SAFE Port Act, workers with access to secure areas will carry identification cards that control their access, verify their identities and background and assure they pose no threat. Right this minute, on hundreds of trucks traveling on southern California highways, containers are about to make their way through the City of Los Angeles bound for large retailers, 'mom and pop' stores, and wholesalers across the country.

Because of the SAFE Port Act, port officials will have the technology to be sure that radiological materials do not leave our ports and enter the center of our country.

This process will be repeated millions of times every year, and each time we will significantly reduce the chance of a terrorist attack that could make 9/11 look tame.

My thanks to the co-author of this bill, Mr. LUNGREN of California, who was a terrific partner working this bill through to the conference; to the Ranking Member of the Committee, Mr. THOMPSON; of the Subcommittee, Ms. SANCHEZ; and to the Chairman of the Full Committee, Mr. KING. It is also true that our security sisters in the Senate, Senators SUSAN COLLINS and PATTY MURRAY, made a great effort to be sure that the bill would be heard in that body.

Yes, the SAFE Port Act is not perfect; and it passes late at night in a week of disappointments. But it is the real deal. One star in a dark night. Vote "aye."

Mr. KING of New York. Mr. Speaker, I yield 3 minutes to the gentleman from Iowa (Mr. LEACH).

☐ 2330

Mr. LEACH. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise to note that folded into the SAFE Port Act is the Unlawful Internet Gambling Enforcement Act which is one of the most important pieces of family legislation this Congress has ever considered.

Internet gambling restraints have been under review for four Congresses. This evening we are finally poised to act decisively on this subject, and I want to extend my personal appreciation to the Speaker; to the majority leader, Mr. BOEHNER; and to the Senate majority leader, Mr. FRIST, for their steadfast support.

Companion legislation to the House product was forthrightly led in the Senate by JOHN KYL of Arizona. Many Members have played an important part over the years in this legislation, particularly MIKE OXLEY and SPENCER BACHUS from the Financial Services Committee and BOB GOODLATTE and CHRIS CANNON from Judiciary.

But I want to stress this is bipartisan legislation. The majority of Democrats voted for it just a few weeks ago. Indeed, all of us can be proud of this legislation. It should be considered a significant accomplishment of this Congress. After all, with each passing day we learn of friends and neighbors touched by devastating losses from Internet gambling. Never has it been so easy to lose so much so quickly at such a young age.

As a professor of business at the University of Illinois has noted, Internet gambling is crack cocaine for gamblers. There are no needle marks; you just click the mouse and lose your house.

The reason the NCAA, the NFL and the NBA, the NHL, and Major League Baseball support this legislation is their concern for the integrity of the games. The reason the religious community from Baptists and Methodists to Muslims has rallied to this cause is because it is concerned for the unity of the American family.

The reason we should adopt this approach is that we must be mindful of our obligations to the American family.

Mr. Speaker, I urge support for this legislation, and I will submit for the RECORD at this point its legislative history.

LEGISLATIVE HISTORY FOR THE UNLAWFUL INTERNET GAMBLING ENFORCEMENT ACT

Section 801. Short title

This Act may be cited as the 'Unlawful Internet Gambling Enforcement Act of 2006.'

Section 802. Prohibition on acceptance of any payment instrument for unlawful Internet gambling

Subsection (a) adds a new 'Subchapter IV—Prohibition on Funding of Unlawful Internet Gambling' to Chapter 53 of Title 31 (Monetary Transactions). The new subchapter will come immediately after subchapter III, covering Money Laundering and Related Financial Crimes.

Section 5361. Congressional findings and purpose

(a) Findings. The Congressional findings note that: (1) Internet gambling is primarily funded through the personal use of payment system instruments, credit cards, and wire transfers; (2) the National Gambling Impact Study Commission in 1999 recommended the passage of legislation to prohibit wire transfers to Internet gambling sites or the banks which represent such sites; (3) Internet gambling is a growing cause of debt collection problems for insured depository institutions and the consumer credit industry; and (4) new mechanisms for enforcing gambling laws on the Internet are necessary because traditional law enforcement mechanisms are often inadequate for enforcing gambling prohibitions on the Internet, especially where such gambling crosses State or national borders.

(b) Rule of Construction. No provision is to be construed as altering, limiting, or extending any Federal or State law or Tribal-State compact prohibiting, permitting or regulating gambling within the United States. This is intended to alleviate fears that this bill could have the effect of changing the legality of any gambling-related activity in the United States.

Section 5362. Definitions

This defines the term 'bet or wager' as the staking or risking by any person of something of value upon the outcome of a contest of others, a sporting event, or a game subject to chance with the agreement that the winner will receive something of value in the event of a certain outcome. This subsection clarifies that 'bet or wager' does not include bona fide business transactions such as securities trading or buying or selling insurance contracts, or participation in a simulation sports game or educational game. "Something of value" does not include personal efforts of the participants in playing the game or contest, or points or credits that the sponsor of the game or contest provides to participants free of charge and that can be used or redeemed only for participation in games or contests offered by the sponsor.

Defines the term 'unlawful Internet gambling' as placing, receiving, or transmitting a bet or wager by any means which involves the use of the Internet, where such bet or wager is unlawful under any applicable Federal or State law in the State or Tribal lands in which the bet or wager is initiated, received, or otherwise made. Clarifies that purely intrastate transactions oonducted in accordance with state laws with appropriate security controls will not be considered unlawful internet gambling. Likewise, transactions solely within Tribal lands complying with similar security requirements and the Indian Gaming Regulatory Act will not be considered unlawful. Section 5362(10)(D) addresses transactions complying with Interstate Horseracing Act (IHA) which will not be considered unlawful, because the IHA only regulates legal transactions that are lawful in each of the states involved. Also clarifies that intermediate routing of data packets does not determine the location in which bets or wagers are made.

The Internet gambling provisions do not change the legality of any gambling-related activity in the United States. For instance, if use of the Internet in connection with dog racing is approved by state regulatory agencies and does not violate any Federal law, then it is allowed under the new section 5362(10)(A) of title 31.

The Internet gambling provisions do not interfere with intrastate laws. New section 5362(10)(B) creates a safe harbor from the term "unlawful Internet gambling" for authorized intrastate transactions, if the state law has adequate security measures to prevent participation by minors and persons located out of the state. The safe harbor would leave intact the current interstate gambling prohibitions such as the Wire Act, federal prohibitions on lotteries, and the Gambling Ship Act so that casino and lottery games could not be placed on websites and individuals could not access these games from their homes or businesses. The safe harbor is intended to recognize current law which allows states jurisdiction over wholly intrastate activity, where bets or wagers, or information assisting in bets or wagers, do not cross state lines. This would, for example, allow retail lottery terminals to interact with a processing center within a state, and linking of terminals between separate casinos within a state if authorized by the state.

Tribal gaming laws are similarly preserved. Transactions solely within tribal lands complying with similar security requirements and the Indian Gaming Regulatory Act will not be considered unlawful, under section 5362(10)(C). Moreover, the principle of the Indian Gaming Regulatory Act is that state governments cannot apply discriminatory laws against gaming authorized by tribal governments within the state. If a state authorizes use of the Internet for gambling pursuant to this section and the tribal government also authorizes this, gambling businesses located on tribal lands within that state would be permitted to "export" gambling services to persons in the rest of the state, off of tribal lands, if the "exported" game complies with state law, pursuant to section 5362(10)(B). This does not give the state jurisdiction over the operation of the tribal gambling business, including licensing requirements, and does not allow the state to dictate tribal gaming laws. Only the game itself—including the method for playing the game—must comply with state law if a person physically located off of tribal lands places a bet that is received by a tribal gambling business. This principle also applies in reverse: if a person on tribal lands plays a gambling game with a state-based gambling business, the game must not violate tribal law.

Section 5362 also defines the terms ‘business of betting or wagering,’ ‘designated payment system,’ ‘Internet,’ and ‘restricted transaction.’ Several additional terms are defined by reference to other sections of the U.S. Code.

Section 5363. Prohibition on acceptance of any financial instrument for unlawful Internet gambling

Prohibits persons engaged in the business of betting or wagering from knowingly accepting credit, funds, bank instruments, or proceeds of any other form of financial transaction in connection with the participation of another person in unlawful Internet gambling. This is called a 'restricted transaction' according to the definitions section.

Section 5364. Policies and procedures to identify and prevent restricted transactions

(a) Regulations and (b) Requirements for Policies and Procedures. Requires the Secretary of the Treasury and the Federal Reserve Board, in conjunction with the U.S. Attorney General, to prescribe regulations within nine months requiring any payment system to establish policies and procedures reasonably designed to identify and block restricted transactions, or otherwise prevent restricted transactions from entering its system.

(c) Compliance and (d) Liability. Provides persons operating financial systems with immunity from civil liability for blocking transactions that they reasonably believe are restricted transactions, or in reliance on the regulations promulgated by the Treasury Department and Federal Reserve. Though a financial institution may block additional transactions based on reasonable belief, it has no duty to do so, and may rely solely on the regulations to fully discharge its obligations.

(e) Enforcement. The Federal functional regulators and the Federal Trade Commission are given the exclusive authority to enforce this section.

Section 5365. Civil remedies

Authorizes the U.S. Attorney General and State Attorneys General to pursue civil remedies, including a preliminary injunction or injunction against any person to prevent or restrain a violation of this legislation. It clarifies that the bill does not alter, supersede or otherwise affect the Indian Gaming Regulatory Act; generally limits responsibility of an interactive computer service to the removal or disabling of access to an online site violating this section, upon proper notice; restricts the ability to bring injunctive cases against financial transaction provider activities.

Internet gambling operators primarily use the resources of two types of businesses to conduct their unlawful enterprises: payment systems and interactive computer services. The unlawful use of payment systems is addressed by section 5364, not by injunctions. The legislation addresses the unlawful use of interactive computer services through injunctions, but with appropriate limits to avoid imposing any duty to censor or monitor on these computer services. Section 5365(c)(2) also extends to interactive computer services the same immunity from liability that common carriers are afforded when complying with a notice from law enforcement pursuant to section 1084(d) of title 18 to discontinue service to a gambling business.

Section 5366. Criminal penalties

Authorizes criminal penalties for violating section 5363, including fines or imprisonment for not more than five years or both. Also authorizes permanently enjoining a person convicted under this section from engaging in gambling activities.

Section 5367. Circumventions prohibited

Provides that, notwithstanding the safe harbor provided in section 5362(2), a financial intermediary or interactive computer service or telecommunications service that has actual knowledge and control of bets and wagers, and operates or is controlled by an entity that operates, an unlawful Internet gambling site can be held criminally liable under this subchapter.

Section 803. Internet gambling in or through foreign jurisdictions

Subsection (a) provides that, in deliberations between the U.S. Government and any other country on money laundering, corruption, and crime issues, the U.S. Government should encourage cooperation by foreign governments in identifying whether Internet gambling operations are being used for money laundering, corruption, or other crimes, advance policies that promote the cooperation by foreign governments in the enforcement of this Act, and encourage the Financial Action Task Force on Money Laundering to study the extent to which Internet gambling operations are being used for money laundering. It also requires the Secretary of the Treasury to submit an annual report to Congress on the deliberations between the United States and other countries on issues relating to Internet gambling.

Subsection (b) requires the Secretary of the Treasury to submit an annual report to Congress on any deliberations between the United States and other countries on tissues relating to Internet Gambling.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota (Mr. OBERSTAR), the ranking member on the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for the time and for the very strong statement he made earlier, the very straightforward and candid assessment of the process to which this legislation has been subjected.

While I appreciate the work of the gentleman from New York, chairman of the committee of conference, and also Chair of the Homeland Security Committee, and the gentleman from Mississippi who have done stellar work on this legislation, I am disappointed with the outcome.

There are two issues here. There are substance and process. On the substance, sure, I will vote for the conference report because what is in the bill will improve port security. What is left out is what is troubling and disappointing.

When the bill cleared the House, there was the expectation, as there always is when we pass a part in one bill and have a comparable in the other, that the missing links will be addressed in a conference committee, and in this case, the missing links in security will be addressed in conference. That did not happen.

This bill does not make improvements in rail and transit security, even though the Senate version had good provisions to address transit and intercity passenger rail security. For reasons I do not understand and no one has explained, the House Republican leadership apparently determined late at night last night that it would not attempt to work out rail and transit security in conference.

The committee of conference held a meeting. Conferees elected a chairman and made opening statements, and that was it. The supporters of rail and transit security improvements were never permitted to make proposals or offer amendments to improve rail and transit security. We expected that we were going to be able to do that, but it never happened.

The security needs in rail and transit are huge, $700 million for Amtrak, $6 billion for transit. In the wake of the Madrid, London, and Mumbai bombings, the leadership of the other party should not have passed up an opportunity to protect millions who use intercity rail and transit each day.

There is much more that we could have and should have done. We should not be kicking it over to the next Congress. That is the disappointment. We have an opportunity to make an improvement. You should seize that opportunity and move ahead.

As far as it goes, it is a useful bill. It is not what it should be.

The Committee on Transportation and Infrastructure wrote the original Marine Transportation Security Act of 2002 (MTSA). That landmark legislation significantly improved security at our Nation's ports. The conference report before us fine tunes that original security act and gives added direction to the Administration in how to carry out its multiple port security programs. It also provides a statutory framework for many regulatory initiatives established by the Department of Homeland Security, including the Container Security Initiative and the Customs Trade Partnership Against Terrorism Program (CT–PAT).

Republicans rejected the Nadler-Oberstar amendment offered during House consideration of the bill. That amendment would have required 100 percent of containers to be scanned for nuclear weapons before a container destined for the United States was loaded in a foreign port. I am pleased that the conference report adopts the Senate provision to authorize a pilot program for 100 percent scanning of containers in three foreign ports. I am also encouraged that the conference report requires the Secretary to scan 100 percent of containers entering the 22 largest container ports in the United States. What I don't understand is if we can scan 100 percent of containers when they are offloaded from a ship in a U.S. port, why can't we scan those same containers before they are loaded on that same ship in the foreign port? Why can't we continue to work to "push the borders out"?

While the conference report goes a long way toward strengthening port security, it does not do a thing for rail and transit security and other issues, which were covered in the Senate bill, and should have been included in this conference report.

Last night, the House passed, by a vote of 281–140, a motion to instruct conferees on H.R. 4954 to adopt the Senate provisions on rail and transit security, as well as other security measures. Less than an hour later, the Conference Committee met and conferees were allowed to make statements, but not amendments to a draft conference report. In fact, the conferees had no legislative text to consider. It was obvious to all that there was no interest among House Republican conferees to have a serious discussion about including rail and transit security in this bill.

One by one, Members of the Conference Committee—House and Senate—asked the Conference Committee Chairman when we were going to be able to review the final conference report and when Members were going to be able to offer amendments to it. The gentleman from New York (Mr. KING)—and I quote—stated, "The expectation is we will receive the final documents, go to debate and consider amendments and go forward at that time."

Two hours later, Mr. KING's staff advised members that there would be no further meetings of the conferees. What could have possibly happened in those two hours to create such a great delay that the documents were not available for a meeting today? Why do Republicans consistently prevent Democrats from offering amendments that will make our country safer?

In the wake of the Madrid, London, and Mumbai bombings, Congress has a responsibility to the American people to assure the safety and security of our Nation's rail and transit systems. This year, the Federal government will invest $4.7 billion in aviation security improvements, while spending only $150 million on rail and transit security, even though five times as many people take trains as planes every day.

Amtrak has requested more than $100 million in security upgrades and nearly $600 million for fire and life-safety improvements to tunnels on the Northeast Corridor in New York, Maryland, and Washington, DC. The American Public Transportation Association, which represents transit agencies and commuter railroads, has well-documented transit security needs that exceed $6 billion (including more than $5.2 billion of capital investment security needs).

The Senate-passed port security bill would have helped meet those needs, and the conferees should have been granted the right to vote on them before they were stripped from the final version of the bill. Do we have to wait for an attack before we take action to secure our nation's railroads and transit systems? What is wrong with providing funding for critical rail and transit security needs? What is wrong with hiring more inspectors? There are only 100 Transportation Security Administration (TSA) rail inspectors responsible for the security of our Nation's 144,000-mile freight and passenger railroad system. What is wrong with requiring development and implementation of a national rail and transit security plan to clarify the roles and responsibilities of federal, state, and local agencies in securing rail and transit systems? What is wrong with ensuring that key workers have the necessary support and training required to protect our rail and public transit systems? Nothing, the House Republican Leadership just did not want to do it.

Another example of what should have been included in this conference report and wasn't: Removal of the cap of 45,000 on TSA screeners. That cap is both arbitrary and counterintuitive, and it is also impairing security. The Aviation and Transportation Security Act (ATSA) passed by Congress in the wake of the September 11th terrorist attacks requires 100 percent electronic baggage screening. Yet, there is evidence that staffing shortages are undermining electronic screening efforts.

Staffing shortages often require TSA to use alternative screening procedures to screen checked bags, and the Government Accountability Office (GAO) reports that TSA's use of alternative screening procedures involves trade-offs in security effectiveness.

While the number of airport screeners remains static, passenger traffic grows. Airlines are expected to carry more than one billion passengers by 2015, increasing from approximately 700 million in 2004. TSA currently screens 522 million bags per year. GAO reports that TSA could be screening as many as 96 million more bags than it now screens—an 18 percent increase—by as early as 2010. According to TSA data, the use of alternative screening procedures will increase at some airports because of rising passenger traffic.

All of these issues should have been dealt with in this conference report. While I support the port security bill, it has left much work undone.

Mr. KING of New York. Mr. Speaker, could I inquire as to how much time is remaining.

The SPEAKER pro tempore. Each side has 17½ minutes remaining.

Mr. KING of New York. Could I inquire of the gentleman from Mississippi how many speakers he has remaining.

Mr. THOMPSON of Mississippi. I have four.

Mr. KING of New York. Mr. Speaker, I reserve my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. DINGELL), the ranking member from Energy and Commerce.

Mr. DINGELL. Mr. Speaker, well, the mountain shook, the lightning flashed, the thunder roared and the mountain gave birth to a mouse.

In last night's discussion, there was no discussion and nobody has been brought in to talk about what this legislation does, but I think we can talk about what it does not do.

First of all, it does not allow the Members opportunities to offer amendments to discuss issues of importance. It does virtually nothing to protect 25 million Amtrak riders and millions of Americans who live and work near railroad and freight tracks and passing trains carrying highly hazardous materials. It also stripped long overdue rail and mass transit measures from the final bill, as well as a number of other important security measures.

It should be noted that the bill in the Senate included provisions improving the securities of other surface transportation, including truck, bus, hazardous material transportation and pipeline security, as well as it strengthened aviation security. All gone, gone, gone.

The conferees should have been granted the right to vote on these provisions before they were stripped from the final version of the bill, particularly in light of the fact that last night we heard the House express its wishes overwhelmingly when we voted for the instruction of House conferees 281–140 to accept rail and transit titles, as well as other important provisions.

We talk about this as a great bill to address the question of airport, railroad and port security. It does not. It is not.

I would note that when we showed up last night for the conference, we all sat around for a goodly while. We had no agenda. We had no business to come before the committee. We were told there would be a meeting this morning to discuss, and we would have an opportunity to amend. Somehow or another that commitment vanished, but it did not vanish so much we do not have a bill here which was drafted without any input from any Member on this side of the aisle.

So we have sent the distinguished chairman, for whom I have enormous affection, a letter. Fifteen of our colleagues on this side of the aisle joined in signing it, and we said to you: "Dear Chairman KING: You made a personal and public commitment last night. You broke it.

"We write to protest your decision to shut down the House-Senate conference on H.R. 4954. Many of us took your word that we would have a voice in the conference process. However, your action to silence input from every Democratic member of the conference by denying the right to offer amendments effectively stripped the long-overdue rail and mass transit security measures from the final bill."

This is a sorry process. It is a sorry procedure. It is a sorry piece of legislation. It is inadequate, and it is another example of the majority trying to do things on the cheap and then marketing it as something good.

CONGRESS OF THE UNITED STATES,
Washington, DC, September 29, 2006.

Chairman PETER KING,
House of Representatives, Committee on Homeland Security, The Capitol, Washington, DC.

DEAR CHAIRMAN KING: You made a personal and public commitment last night. You broke it.

We write to protest your decision to shut down the House-Senate conference on H.R. 4954. Many of us took your word that we would have a voice in the conference process.

However, your action to silence input from every Democratic member of the conference by denying the right to offer amendments effectively stripped the long-overdue rail and mass transit security measures from the final bill, as well as many other important security measures. Consequently, these important elements of our transportation systems remain vulnerable to terrorist attack.

Despite deadly attacks on transit systems worldwide—in Madrid two years ago (191 innocent civilians killed), in London last year (52 killed), and Mumbai this year (207 killed)—Congress has not passed a transit security bill. The transit community has identified $6 billion in security needs, of which only less than a tenth has been made available by Congress. Even less has been done to protect the 25 million annual Amtrak riders and the millions of Americans that live and work near freight railroad tracks and passing trains carrying highly hazardous materials.

The Senate had included in its version of the bill comprehensive plans to improve U.S. rail security and mass transit security, the second time the Senate has passed these provisions since 9/11. In addition, the Senate included provisions improving the security of other surface transportation modes, including truck, bus, hazardous materials transportation, and pipeline security, as well as several that strengthen aviation security.

Conferees should have been granted the right to vote on these provisions before they were stripped from the final version of the bill, particularly in light of the wishes of an overwhelming majority of House members, who voted last night 281-140 to instruct House conferees to accept rail and transit titles, as well as other important provisions.

Americans expect us to help keep them safe. We can only hope that you have a good reason for denying them that peace of mind.

Sincerely,

FRANK R. LAUTENBERG.
PATTY MURRAY.
JOE LIEBERMAN.
PAUL SARBANES.
JOHN D. DINGELL.
ED MARKEY.

Mr. KING of New York. Mr. Speaker, I yield myself such time as I may consume.

Let me first of all thank the gentleman from Michigan for his undying affection that he shows for me so often, especially tonight. It really warms my heart, and I want to thank him especially for it.

I would, however, just like to touch on a few things. First of all, this is the SAFE Port Act. I have listened as carefully as I possibly can. I have listened; I have asked Mr. LUNGREN to listen; I have asked staff to listen. I have not heard even one remote criticism of the port security aspects of this bill. This is a port security bill. We had staff negotiations going on day after day after day.

Now, the gentleman from Michigan raised the question of last night. Let us explain this right now. It was explained before. We will try again.

The fact is last night there was no legislative text incorporating the staff recommendations. The Senate assured us they would provide it. The Senate did not have it last night. The Senate refused to provide it. The first we saw it was 3 o'clock this afternoon. What is going on in the Senate is up to them, but that is where the final text was.

Now, if the gentleman is saying that when they came back in at 3 o'clock this afternoon, rather than take advantage of a bill which has been worked on for 6 months, which has gone through subcommittee, which has gone through committee and which has gone through the House floor, which was worked out so carefully with Senator COLLINS and Senator LIEBERMAN and Senator MURRAY, which had strong bipartisan support, that because of the fact that the Senate language was not over here in time for the gentleman from Michigan, that we should put that aside, and taking the risk of not taking advantage of this moment, of not seizing the moment and passing this historic legislation to save our Nation, I have heard of people who cannot take "yes" for an answer.

We said last March, let us put together a port security bill. We did it. We put together a good bill and all we get tonight is begrudgery. Well, it is good, it is this, it is that, but it is not good enough because it does not cover rail, it does not cover transit or it does not cover this. Also, as the gentleman from California reminded me, it does not contain the cure for cancer either.

But the fact is it is a very good port security bill. As the gentlewoman from California said, it is the real deal. If you want to turn your back on the real deal, if you want to vote and say I really wanted something else, this is not good enough for me, the real deal should be good enough for me.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 4 minutes to the gentlewoman from California (Ms. LINDA T. SÁNCHEZ), ranking member on the subcommittee with responsibility for ports.

Ms. LINDA T. SÁNCHEZ of California. Mr. Speaker, I thank my ranking member, Mr. THOMPSON.

This conference report is a culmination of many years of working on the issue of port security. I want to begin by thanking my colleague, actually JUANITA MILLENDER-MCDONALD, whose original bill was brought to me a couple of years ago, was the framework for this, and added to that were many of the port bills that I had authored were put into that; and then Ms. HARMAN put in some more and Mr. LUNGREN put in some more and Mr. THOMPSON put in some more, and pretty soon we had a pretty good port bill. I am pleased with the port bill.

Our chairman said he did not want rail or transit or any of that, which the Senate also put in their port bill, because he did not have the time, he did not want to jeopardize a port bill.

So why is there Internet gambling in our port bill? If you had time to stick Internet gambling in our port bill, then I think you could have held a meeting today, or tomorrow if we had to stay an extra day, or the next day if we had to stay an extra day to make our country safer, especially for the people who take rail and mass transit to work.

But, no, that would have been too much. This is just a port bill, plus Internet gambling. That is why people are upset. The Senate put in rail and mass transit and port. You had people last night who asked you, Will we get to make amendments, because they wanted to put in rail and mass transit like the Senate had put in, and we had the votes in the room to pass this port bill and to pass rail and mass transit.

□ 2345

But it was too much. I don't know if it was you, Mr. Chairman, or Speaker HASTERT. I don't know who is going to answer what happens if we have something that happens like happened in Madrid or London and we didn't fund rail or transit. Will we get blamed? Will you take the blame, Mr. Chairman? Or will you stand up and say it was the leadership; it wasn't me?

Who is responsible for not having done the right thing? That is what people are asking. That is why people are upset. They are not just upset on this side of the aisle because we know it is the right thing to do. They are upset in the Senate, on both sides of the aisle.

This is way too important for us to say, oh, gosh, we have got to get out of here on Friday, and let's not work another day. I would have stayed here a week. I would have stayed here a month. You know, I have been working on this for about 4 or 5 years. If we could have gotten that in, it would have been the right thing to do.

You are right, Mr. Chairman. This is a good port bill, because we took our time and we did it right. But it could have been a much better security bill, a security bill that last night the majority in this House said they wanted, a security bill not only to secure containers and freight that come into this country but a bill that would have helped the people who commute every day to work and make America go.

Mr. KING of New York. Mr. Speaker, again I inquire as to how much time remains.

The SPEAKER pro tempore. The gentleman from New York has 15½ minutes remaining, and the gentleman from Mississippi has 10½ minutes remaining.

Mr. KING of New York. Mr. Speaker, I would add that, again, I have been listening and listening, and there is no criticism at all of the port security. And again, rather than to take yes for an answer, we are talking about going around our committee process. The fact is, one of the reasons this bill is so good is because it was at the subcommittee level, the committee level, and then it went to the floor.

This was a long process on the port security aspect of it. Rather than just accept something coming over from the Senate at the last minute, I have enough respect for the integrity of the process of our committee that I want to replicate that when we are dealing with transit and when we are dealing with rail and working, of course, with Mr. YOUNG. I don't want to get him nervous while he is sitting here. But it is essential that we do do it in a deliberative process.

Again, it is beyond me why, after a 6-month process where there was such bipartisanship, such working together, both here and in the Senate, that the begrudgers of the world have arrived on the floor tonight and all they can say is there is something here that is good, though they are afraid to acknowledge it, and then they talk about something which was never part of our bill to begin with.

We dedicated ourselves to port security, and we got it done. We should be proud of that. And, again, there is a special place in life for begrudgers.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 2½ minutes to the gentleman from New Jersey (Mr. PASCRELL), one of the conferees on this particular bill.

Mr. PASCRELL. You know, Mr. Chairman, you sound like an Irish tenor this evening.

This is a bill which we can support. We thank both staffs on both sides of the aisle. They worked very hard on this.

Simply put, this is a good bill. Many Members on both sides of the aisle have worked tirelessly to bring the critical legislation to finality; and while I think it could have been improved if those of us on the conference committee were given a chance to offer further amendments, I wish to remind the chairman, last night, ultimately, this is still a good product.

There is no doubt that authorizing $400 million in port security grants for each of the fiscal years of 2007 to 2012 is a wise undertaking, as is creating firm deadlines to require the Department of Homeland Security to issue transportation worker identification cards to workers with access to secure areas of ports. No one should be allowed into those ports that do not have a proper card and a proper identification; and we should really carry this over to those folks who work at our airports, which we have not done.

I am particularly pleased that the two provisions I was able to secure when this bill originally came before the Homeland Security Committee remains within the legislation this evening: Section 114, which authorizes the Secretary of DHS to establish an exercise program to test and evaluate the capabilities of Federal, State, local, and other relevant stakeholders to coordinate appropriate response and recovery from acts of terror. Section 115, which directs the Secretary to require each high-risk facility to conduct live or full-scale exercises not less than once every 2 years in accordance with the facility security plan that this bill mandates.

Both provisions will enhance the capabilities of our Nation's seaports to prevent, prepare for, respond to and mitigate against acts of terror. I am grateful for this inclusion in the legislation.

But, as with so many things in the realm of homeland security, we have missed some opportunities. I, like most of my Democratic colleagues, would have much preferred that this bill also included improvements to security for America's rail, subway, buses, and trucking. And in all due reverence, I know that you feel the same way, Mr. Chairman.

But we've got to the best point at the best time, and we need to pass this legislation, and I want to thank the ranking member, Mr. THOMPSON.

Mr. KING of New York. Mr. Speaker, I would like to thank the gentleman from New Jersey for his kind remarks about the bill, and I especially want to tell him how much it means to me that he commented on my great Irish singing voice as I was delivering my oration tonight. So, Mr. PASCRELL, you are a man of great ethnic perspicacity and my admiration for you is unbounded.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I now yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN).

Mr. LANGEVIN. Mr. Speaker, I rise today in support of H.R. 4954, the SAFE Port Act, which is a comprehensive approach to securing our ports. And though not a perfect bill, it surely could have been better, it is an important first step.

One of the worst-case scenarios experts fear is that terrorists would be able to smuggle nuclear material across our ports. This is an unacceptable reality that we face today, which highlights just how important it is that we have adequate detection devices at all of our seaports and border crossings. Our radiation portal monitors are our last, best chance to prevent catastrophic nuclear or radiological attack, and our intelligence analysts continue to tell us that the threat is very real.

I am glad to see that under this bill all containers entering the U.S. through the 22 busiest seaports will be examined for radiation by the end of next year. While this is certainly a great start, we ultimately need to deploy radiation portal monitors at every point of entry to fully secure our Nation's ports.

I am also pleased to see that this bill contains provisions to strengthen the Container Security Initiative. Under the SAFE Port Act, we will have a greater ability to foster communication between the United States and the operators of foreign ports to inspect more U.S.-bound cargo before it reaches our ports. We need to continue to do everything in our power to screen cargo at its point of origin to prevent the dangerous possibility of nuclear material ever reaching our shores.

Mr. Speaker, the SAFE Port Act most certainly makes strides in terms of securing our ports, but we must acknowledge that it is just one step in a much larger process. I will continue to work with my colleagues on both sides of the aisle to secure our Nation's vulnerable ports.

I want to commend both the chairman and the ranking member for their hard work in getting us to this point today. Again, it is an important first step. Let us continue to rededicating ourselves to making sure that we are doing all we can to make sure the American people are safe.

Mr. KING of New York. Mr. Speaker, I continue to reserve the balance of my time.

Mr. THOMPSON. Might I inquire, Mr. Speaker, as to how much time remains.

The SPEAKER pro tempore. The gentleman from Mississippi has 6 minutes remaining.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the distinguished gentleman. As there is a great deal of admiration in this room, let me say that I too admire the staff and the authors of this bill, Ms. SANCHEZ, Ms. HARMAN, Mr. THOMPSON, and the work of Mr. LUNGREN and Mr. KING, but it is obvious we could have done more. And I listened to the distinguished gentleman talking about regular order. We have not had regular order this entire day.

I do want to say the good work shows that we are concerned about port security, with $400 million in port security grants, training for port workers, such as longshoremen, transportation workers' I.D. cards, screening of the 22 busiest airports, establishing the Domestic Nuclear Detection Office, additional Customs and border protection personnel and port security plans.

But I am very proud of the language of training residents of seaport communities, that the conferees agreed that it is crucial to involve communities in disaster preparedness by providing for an annual community update to the homeland security training program described in this bill. This was language that I included because of the area in which we live in Houston where there is sizable populations living around the community.

The port security training program is designed for the purpose of enhancing the capabilities of each of the Nation's commercial seaports to prevent, prepare for, respond to, mitigate against, and recover from threatened or actual acts of terrorism, natural disasters, and other emergencies. The language I contributed extends this training program to include communities and neighborhoods in proximity of the seaports by educating, training, and involving population at-risk neighborhoods around ports, including training on an annual basis to learn what to watch for.

However, I would hope that we would move toward in the next few months 100 percent screening of container cargo, which we have not done.

I also hope that we realize, as my colleagues have said and as Mr. THOMPSON's overwhelming motion to instruct said, we have to be concerned about rail security. I mentioned during his motion to instruct that rail security is not just people riding Amtrak. It is the railroads that travel through neighborhoods throughout the regions of the Nation, including the South.

I would also note that I live around a very large port, and this will have a positive impact on the Houston port. I ask my colleagues to support it, though I am disappointed, Mr. Speaker, that we have extraneous material, such as the Internet gambling, on this bill.

I rise in support of the Conference Report to the SAFE Port Act of 2006, H.R. 4954, which represents a significant step forward toward national security and safety for our seaports. I am proud of my colleagues who have crafted this bill to be inclusive of many issues that members of the Committee on Homeland Security and other Members of the Congress have expressed over the last few years, and more intensely over the last few months.

All of us share the common goal of all Americans of making the movement of cargo through the global supply chain as secure as possible, and are committed to doing everything feasible to ensure the security of the Nation's ports.

Many elements of this legislation are beneficial: $400 million in port security grants for each of fiscal years 2007–2012; training for port workers, such as longshoremen; Transportation Workers Identification Credential (TWIC) cards to workers with access to secure areas of ports and background checks; screening at the 22 busiest seaports; establishment of the Domestic Nuclear Detection office, DNDO, within the Department of Homeland Security; additional Customs and Border Protection personnel; requires port security plans to include training for residents of neighborhoods around facilities.

Safe and secure seaports are an essential element in building efficient and technologically advanced supply chains that move cargo quickly to distribution centers, stores, and factories around the world. Although we have made progress since the 9/11 attacks in enhancing the security of the nation's ports, we cannot afford to be complacent.

INCORPORATED AMENDMENT: TRAINING FOR RESIDENTS OF SEAPORT COMMUNITIES

I am proud and thankful that the conferees agreed that it is crucial to involve communities in disaster preparedness by providing for an annual community update to the Homeland Security Training Program described in this bill.

The Port Security Training Program is designed for the purpose of enhancing the capabilities of each of the Nation's commercial seaports to prevent, prepare for, respond to, mitigate against, and recover from threatened or actual acts of terrorism, natural disasters, and other emergencies.

The language I contributed extends this training program to include communities and neighborhoods in proximity of the seaports by educating, training, and involving populations of at-risk neighborhoods around ports, including training on an annual basis to learn what to watch for.

Many communities across the country have a "Neighborhood Watch" program that teaches citizens to watch for suspicious activity or other signs of danger. This language provides for a similar "citizens corps" preparation program in anticipation of a national security threat. The intent is to mimic the Citizen Corps initiative begun by the White House and the Department of Homeland Security in 2002.

While 44 percent of Americans say their neighborhood has a plan to help reduce crime, only 13 percent report having a neighborhood plan for disasters. Nearly two-thirds of respondents, 63 percent, believe it is important for neighborhoods to have a way to work together on emergency preparedness.

Fifty-two states and territories have formed state level Citizen Corps Councils to support local efforts. My hope is that before the next disaster, our citizens will be aware and trained to react effectively and timely, and perform as local responders themselves.

MORE MUST BE DONE 100% SCREENING

While there are good elements of this bill, I am compelled to discuss the fact that this bill could have been so much more, and could have definitively contributed to national security efforts. I am dismayed at the fact that there are gaps in this report wide enough to let terrorists through.

Apparently, it is not important to know what is arriving by sea cargo.

This bill fails to require 100 percent scanning of contents bound for our borders before they leave other nations. By the time they arrive and are unloaded onto our soil, it is too late.

We have the technology to do this—the ports of Hong Kong and Boston already screen most inbound cargo for both radiation and lead shielding (to hide the radiological materials) using commercially available technology without interrupting the flow of commerce. As we continue to fight to protect our borders, we need to continue to develop cutting edge technologies to detect and defeat next generation threats to port security.

According to security expert Steve Flynn, the cost would be about $50—$100 per container—minimal compared to the $4000 per container it costs to ship from Asia to the U.S., and to the $66,000 in average worth that each container carries. This is accessible, technologically feasible, and necessary. It is beyond me why it is not a part of this bill.

RAIL AND MASS TRANSIT

It is unacceptable to consider rail and mass transit security, as Secretary Chertoff stated, "goulash." I fear the day when a tragedy will strike on a subway, or on a bus, and we will suddenly discover how large a mistake it was to miss this opportunity . We know how easy a target mass transportation can be-witness Israel, London, Madrid, and Mumbai amongst so many others. We have focused so much effort on securing our borders. I wonder why Republicans are not just as concerned with securing us.

I am disappointed that this provision is not included in this conference report. At the very least, yesterday's Motion to Instruct the Conferees, which passed 281–170, instructed the conferees to accept the rail and mass transit provisions from the Senate. It takes gall to ignore an on-record vote of the House of Representatives.

HOUSTON PORT AND ECONOMIC DATA

The Port of Houston is a 25-mile-long complex of public and private facilities located just a few hours' sailing time from the Gulf of Mexico. The port is ranked first in the United States in foreign waterborne commerce, second in total tonnage, and sixth in the world.

About 200 million tons of cargo moved through the Port of Houston in 2005. A total of 7,057 vessel calls were recorded at the Port of Houston during the year 2003.

Economic studies reveal that ship channel-related businesses support more than 287,000 direct and indirect jobs throughout Texas while generating nearly $11 billion in economic impact. Additionally, more than $649 million in state and local tax revenues are generated by business activities related to the port. Approximately 87,000 jobs are connected with the Port of Houston itself, and over 80% of those people live in the Houston metropolitan area.

Centrally located on the Gulf Coast, Houston is a strategic gateway for cargo originating in or destined for the U.S. West and Midwest. Houston lies within close reach of one of the nation's largest concentrations of consumers. More than 17 million people live within 300 miles of the city, and approximately 60 million live within 700 miles.

CONCLUSION

The danger is very real that we may be escorting a weapon of mass destruction to its target. For every mile along the Houston Ship Channel that dangerous cargo passes, an additional 2000 people are at risk. Clearly, once the cargo reaches the city, the risk is greatest. There are many such cities and states across the country that are vulnerable and need the federal government's leadership for security and protection. The legislation is a good start, yet it will not be sufficient. I challenge my colleagues on the Homeland Security Committee to consider this only the first step in securing and protecting our nation's ports, and a necessary gateway to addressing the vulnerabilities of rail and mass transit.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from Las Vegas (Ms. BERKLEY).

Ms. BERKLEY. Mr. Speaker, I would like to thank the ranking member of

Homeland Security, Mr. THOMPSON, for allowing me to speak for a minute.

I have a question to ask. I was listening to Mr. DINGELL when he spoke eloquently about his disappointment that this bill did not address security when it comes to mass transit, railroads, bus stations, and Amtrak. And when Mr. KING got up to respond, he said the reason it doesn't contain any security for mass transit, railroads, bus stations, and Amtrak is because this is a port security bill. And he said it again. This is a port security bill. And he repeated it a third time. This is a port security bill.

So can he please explain to me if this is a port security bill, that we can't put protections and security for our buses and Amtrak and mass transit and railroads, how it is that we managed to put a ban on Internet gaming?

□ 0000

Mr. KING of New York. Mr. Speaker will the gentlewoman yield?

Ms. BERKLEY. I yield to the gentleman from New York.

Mr. KING of New York. First of all, I am not responsible for the germaneness rules in the Senate. Secondly, this is the bill that came back to us from the Senate.

Ms. BERKLEY. Before I yield again, I know you may not control the rules of the Senate, but how about the House? Do you have any say here?

Mr. KING of New York. I would just add, if the gentlewoman will yield, this is the bill that came back to us from the Senate, and I would remind the gentlewoman that unlike the transit and rail provisions, which never passed this House, the Internet gambling bill legislation did pass this House by a vote of 317–93. There was at least some nexus which was lacking with the others.

Ms. BERKLEY. Mr. Speaker, reclaiming my time, could you please explain the nexus to me between port security to keep this country safer and a ban on Internet gaming? Give me a break.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to remind my chairman that the motion to instruct said to include rail and mass transit to the conferees. That is in response to your response to the gentlewoman from Las Vegas. We more or less said "do it" from the House perspective, and it wasn't done.

Mr. KING of New York. Mr. Speaker, if the gentleman will yield, I was just trying to answer the gentlewoman's question. She thought I was giving her a break.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield the balance of my time to the gentleman from Massachusetts (Mr. MARKEY).

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 2½ minutes.

Mr. MARKEY. Mr. Speaker, I thank the gentleman from Mississippi, and I thank him for his excellent work on that legislation.

I would say that the gentlewoman made a fine point here. The Democrats waited for days to find out what was in this bill as the Republicans deliberated by themselves. Finally it comes back over, and we learn what they included.

Did it have anything on rail and rapid transit security? No. Did it have something on moving hazardous materials in a way that got them around densely populated areas? No. Did it have anything to do with ensuring that we screen for nuclear bombs on ships before they came into the ports of the United States? No.

But what did they include? Well, they included an Internet gambling bill. Now, you would think given the fact that it was a port bill, you would think they would have something in it on riverboat gambling. But, no, nothing even on that.

So, ladies and gentlemen, what they have produced is a fine piece of political pork that the Republican Party in secret has put together. Meantime, al Qaeda has their number one objective in the world still undealt with by the Republicans, and that is obtaining a nuclear weapon out of the former Soviet Union, bringing it to a port in the world, placing it in a container on that ship, bringing the ship into a port in the United States, and then detonating that nuclear bomb before it is ever taken off the ship. And the Republicans in this bill, do they require that there be screening for nuclear bombs before they leave for the United States? No.

So, ladies and gentlemen, this bill on the central issue is a failure. The number one threat to our security, a nuclear bomb in a container on a ship, no requirement at all for the screening before it comes to our port. They have the screening after the nuclear bomb reaches the port in the United States. By then it is too late.

So, ladies and gentlemen, it is like instead of buying a dog, they put up a "beware of dog" sign. So when the bomb has reached the port of New York or Boston or L.A., the only thing that will be there is "beware of dog." They refuse to put up the protection.

Vote "no" on this terrible bill.

The SPEAKER pro tempore. The gentleman from New York has 14 minutes remaining.

GENERAL LEAVE

Mr. KING of New York. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on the matter under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. KING of New York. Mr. Speaker, I yield myself such time as I may consume. I assure the House I will not use the 14 minutes.

I also at this stage would like to commend the staff for the tremendous work they have done throughout this process. I would like to thank Mandy Bowers, Matt McCabe, Amanda Halpern, Kevin Gronberg, Diane Berry, Sterling Marchand, Kerry Kinirons, Mark Klaassen, Mike Power, and also the people on the minority staff.

In saying that, let me just say, Mr. MARKEY brought us into the new day, his eloquence, his soaring rhetoric brought us into the new day, but he uses the same tired arguments of yesterday, the arguments we hear time and again, the tired metaphors, the lame similes, he goes on and on.

He says Democrats were kept out of the process. Democrats were involved every step of the way, every minute, until the Internet gambling came over, which we found out about for the first time at the same time he did. Now, he may want to talk to the minority leader in the Senate and ask him why he consented to this being in, why they wanted it in. That is not my problem.

But the fact is, it is really wrong to suggest that there was any moment at all throughout the past 10 or 12 days, when at every stage of the way we ensured that the Democratic staff was there reporting back to their principals, I don't know where the gentleman from Massachusetts was. Maybe he was out buying a dog. I don't know. But the fact is if he had spoken with his staff, if he had spoken to the committee staff, if he had spoken to the ranking member, he would have known what was going on.

Also, I waited patiently for 29½ minutes listening to the opposition trying to hear one person say one negative word about the port security bill. Finally, Mr. MARKEY came up with his argument and he was talking about detecting radiation overseas.

The fact is, again in the spirit of bipartisanship and bicameralism, we adopted the language put forth by Senator LAUTENBERG in the Senate to have three pilot projects. So there we are agreeing with the Senator from New Jersey, which I guess is not good enough for the gentleman from Massachusetts.

I would also say that this legislation goes right to the heart of the issues that we are trying to address. The gentleman from Massachusetts cannot accept that.

But I will say for the other Members, certainly Mr. PASCRELL, for the contributions that he made to this bill, to the ranking member, to Mr. LANGEVIN, who has really been a leader in the whole issue of radiation portal monitors, they have been there.

So I would again say let us celebrate the fact that we are passing historic port security legislation tonight. Let us respect the fact that our committee, which is only in its second year, has passed major legislation. Let us respect the fact and acknowledge the fact that our committee paved the way. We showed the way for the Senate. We passed a bill which has been virtually intact, from the subcommittee to the committee to the House floor and now here tonight with the conference report.

And rather than begrudging, rather than saying it could have been this or it could have been that, rather than let the perfect be the enemy of the good, let's accept this good legislation, let's go forward, let us realize we made the American people far safer. And we did it because of a bipartisan effort, which should have been bipartisan right to the last moment. Unfortunately, the naysayers tried to take this over. The fact is they cannot deny the reality. This is excellent legislation that makes our country safe. We should be proud.

I urge the adoption of the resolution.

Mr. LoBIONDO. Mr. Speaker, I rise in support of the very significant provisions in the SAFE Port Act that will go a long way to make our ports and waterways secure. I thank Chairman YOUNG and Chairman KING for their hard work on this legislation.

I am particularly pleased with the inclusion of the Maritime Terminal Security Enhancement Act, legislation I authored in the wake of the Dubai Ports deal to ensure that the security at our ports remains in the hands of American citizens. The Maritime Terminal Security Enhancement Act would require Facility Security Officers to be American citizens. It would also provide for periodic, unannounced inspections of security at our port facilities, as well as place deadlines on the deployment of the Transportation Worker Identification Card to ensure the identity of our port workers; a long range vessel tracking system that will enable the Coast Guard to further extend our borders and monitor vessels bound for U.S. ports; and requires the Department of Homeland Security to issue regulations to require foreign merchant mariners to carry an enhanced crew member identification credential when calling on U.S. ports.

The SAFE Port Act builds on the unprecedented work we did in the Maritime Transportation Security Act of 2002. I was proud to be an author of that bill and I am proud of the work we did to enhance port security in this bill.

However, I am not proud, nor do I support the decision by the leadership in the other body to attach at the last minute and without consultation, the Internet Gambling Prohibition and Enforcement Act. There is no question that Internet technology has rapidly and substantively changed over the past six years, with new advancements being made every day. It is therefore imperative that our thinking about how best to regulate activities such as Internet gaming also evolve with the times. Unfortunately, this bill does not take into account the significant advancements in the technology, nor does it include language I support to establish a commission to study whether Internet gaming can be properly regulated.

Mr. Speaker, I will be reluctantly supporting the SAFE Port Act, as I am extremely disappointed with the action of the leadership in the other body to attach this non germane issue to an otherwise tremendous piece of legislation that will strengthen and enhance our ability to keep our nation's ports and waterways secure.

Ms. CORRINE BROWN of Florida. Mr. Speaker, I'm glad to see that we're finally seeing this very important and long overdue port security legislation on the House floor.

There are 14 major ports in my home state of Florida, with the Port of Jacksonville in my hometown. And we have failed so far in devoting the money they need to protect their facility.

Unfortunately, we're still failing to protect the 25 million passengers who ride Amtrak each year. 69,000 passengers ride Amtrak every day, and yet they don't qualify for any of the money being authorized in this bill and are offered no more protections than they have today. That is shameful.

I can't believe that anyone in this House, following the bombings in Madrid and in London, doesn't believe that terrorists would attack an Amtrak train on the Northeast corridor that connects Washington, DC, New York, and Boston.

This Republican Congress deserves an F for what they have done to protect transit and passenger rail in this country. They wasted an opportunity to protect the citizens who take public transit and passenger rail to work every day.

Mr. GIBBONS. Mr. Speaker, I rise today to state how deeply disappointed I am that the conference report for H.R. 4954, this vitally important bill that is meant to secure our ports and protect our nation from terrorists, has been amended to include internet gaming language.

Internet gaming has nothing whatsoever to do with port security. It is irresponsible to insert this non-germane language into a homeland security measure.

This Congress should not overreact by restricting the growing industry of online gaming without giving serious review to the potentially negative impacts of such a rash decision.

We know that current efforts by states and the federal government to regulate internet gaming have pushed online consumers to illegal, black market sites that have little to no regulation.

Online gaming is a potential economic opportunity for the State of Nevada and the entire country. Current estimates of online gaming revenues range from $7 billion to $10 billion for 2004 alone, with U.S. bettors providing at least $4 billion or more of that amount.

Many nations, including England, are in the process of legalizing, regulating, and taxing online gaming.

I, along with my colleagues from Nevada, Congresswoman BERKLEY and Congressman PORTER, have introduced a bill, H.R. 5474, that would establish a nine-member commission to undertake a complete study of the internet gaming issue. The results of this study would allow the President, the Congress, and every state and tribal government to make informed decisions about this issue and presents a much better alternative to a knee-jerk total ban on the activity.

I voted for H.R. 4954 because it is necessary that we secure our ports against those who wish to do us harm, but I do so with grave disappointment in the decision to add this nongermane internet gaming language.

Mr. PAUL. Mr. Speaker, I was pleased to vote for the SAFE Ports Act when it was considered by Congress in May and I intend to do so tonight. However, I am disturbed that The Internet Gambling Prohibition and Enforcement Act was added to this bill during conference. My understanding is that this provision was slipped into the bill at the conclusion of the conference even though internet gambling has nothing to do with port security.

I have long opposed The Internet Gambling Prohibition and Enforcement Act since the federal government has no constitutional authority to ban or even discourage any form of internet gambling. In addition to being unconstitutional, this provision is likely to prove ineffective at ending internet gambling. Instead, by passing law proportion to ban internet gambling Congress will ensure that gambling is controlled by organized crime. History, from the failed experiment of prohibition to today's futile "war on drugs," shows that the government cannot eliminate demand for something like internet gambling simply by passing a law. Instead, this provision will force those who wish to gamble over the internet to patronize suppliers willing to flaunt the ban. In many cases, providers of services banned by the government will be members of criminal organizations. Even if organized crime does not operate internet gambling enterprises their competitors are likely to be controlled by organized crime. After all, since the owners and patrons of internet gambling cannot rely on the police and courts to enforce contracts and resolve other disputes, they will be forced to rely on members of organized crime to perform those functions. Thus, the profits of internet gambling will flow into organized crime. Furthermore, outlawing an activity will raise the price vendors are able to charge consumers, thus increasing the profits flowing to organized crime from internet gambling. It is bitterly ironic that a bill masquerading as an attack on crime will actually increase organized crime's ability to control and profit from internet gambling!

In conclusion, the ban on internet gambling violates the constitutional limits on federal power. Furthermore, laws such as this are ineffective in eliminating the demand for vices such as internet gambling; instead, they ensure that these enterprises will be controlled by organized crime. It is a shame to clutter an important and good piece of legislation like the Safe Ports Act with a blatantly unconstitutional power grab over the internet like the Internet Gambling Prohibition and Enforcement Act.

Mr. LYNCH. Mr. Speaker, I'd like to thank the gentleman from Mississippi, Mr. THOMPSON, for yielding me this time.

Mr. Speaker, I rise in regards to the conference report to accompany H.R. 4954, the SAFE Port Act.

As representative of the Port of Boston—I'm pleased that today's conference report takes important steps towards better safeguarding our Nation's 361 sea and river ports—through the authorization of significant increases in port security grants for each of fiscal years 2007 through 2012, meaningful port worker security training provisions, and substantive container screening and scanning improvements.

At the same time, I must say that I'm disappointed that the agreement under consideration does not include the language to strenghten rail and transit security passed by the U.S. Senate during its consideration of port security legislation.

By including language to authorize $1.2 billion for freight and passenger rail security as well as $3.5 billion for mass transit security in a ports bill, the Senate clearly recognized that rail and mass transit have also been grossly underfunded, this in the face of repeated terrorist attacks against rail and transit systems worldwide—from Paris, Tokyo, and Moscow to Madrid, London, and most recently, Mumbai.

In furtherance of the Senate's action, just yesterday the House passed a motion to instruct the House conferees to accept the Senate's position on rail and mass transit security by a margin of 281–140. Regrettably however, the rail and transit language did not make it into this conference report.

Mr. Speaker, while this agreement is a good start towards securing our seaports and the international supply chain, I think we've missed a major opportunity to afford rail and transit similar respect.

Mr. SMITH of Washington. Mr. Speaker, I rise today in support the Conference Report on H.R. 4954, the SAFE Port Act. This bipartisan legislation makes critical improvements to strengthen our domestic and international security efforts and provides the resources necessary to detect tampered cargo before it enters our ports. Passage of the SAFE Port Act today is vital to our national security.

For Washington state, the SAFE Port Act will bring greater regional coordination, new security grants, increased Customs personnel for Puget Sound and radiation detection equipment that is both modern and appropriate for the Port of Tacoma's increased rail capacity.

The SAFE Port Act also takes important steps to plan for and immediately recover from any incidents on our docks. With the increased role of western ports like the Port of Tacoma and the Port of Seattle in our global economy, we must ensure the free flow of commerce.

Passage of the SAFE Port Act will help protect our communities, our critical infrastructure and our homeland. The SAFE Port Act will move America in the right direction.

Ms. LEE. Mr. Speaker, I rise in support of the conference report for H.R. 4954, the SAFE Port Act.

As a member of the Port Security Caucus and as an original co-sponsor of this legislation, I have been consistently fighting for a massive increase in funding and focus to secure our Nation's ports.

But as the 9/11 Commission's failing grades have pointed out, over the last four years, the administration and the Republican Congress have done far too little to secure our Nation's critical infrastructure.

Just earlier this week the Homeland Security Department announced its latest round of port security grants. The Port of Oakland in my district did not get a single penny even though it's the 4th busiest container port in the country and is a gateway to trade with Asia and the Pacific. That is just inexcusable.

By authorizing $400 million in annual port security grants, the SAFE Port Act takes a step in the right direction. Now we have the responsibility to fund it.

We must also fix the gaps that still remain by requiring 100% screening of cargo before it reaches our shores.

At the same time I am disappointed that the Senate language to expand funding to secure our rail and transit systems was not included in this bill.

The London and Mumbai rail and subway bombings happened on our watch. We should not adjourn this session without addressing this critical vulnerability.

Ms. MILLENDER-McDONALD. Mr. Speaker, I am pleased the House and Senate were able to come together and address port security through the passage of H.R. 4954, the SAFE Port Act. This may be the most important piece of legislation we pass in the 109th Congress.

Clearly our Nation's ports are critical to America's economic vitality. A major attack on the U.S. maritime transportation system would simply devastate the U.S. economy. Some 95% of American trade enters the U.S. through one of 361 seaports on board 8,500 foreign vessels and makes more than 55,000 port calls per year, which total worth is nearly $1 trillion dollars. Securing these and the rest of America's ports as well as the economic contributions they make must remain a top priority for each of us.

As the proud Representative from California's 37th District, it is my responsibility to enhance the security at the Ports of Long Beach and Los Angeles, the largest port complex in the Nation and the third largest in the world. In fact, over 52% of all waterborne cargo moves through the Ports of Long Beach and Los Angeles alone.

This is a bill rooted in sound policy. Many provisions of the SAFE Port Act was language in my legislation H.R. 478, the United States Seaport Multiyear Security Enhancement Act, which I introduced in February 2005. It was imperative that Congress passed a port security bill which included multi-funding and a broad approach to securing the entire international supply chain.

I urge the President to sign the SAFE Port Act as soon as possible, as America's ports and those who live around them can wait no longer.

Mr. PORTER. Mr. Speaker, I take this opportunity to clarify my "yes" vote on Final Passage on the Conference Report H.R. 4954 SAFE Port Act. My "yes" vote is in full support of all the necessary Homeland Security and Port Security provisions included within the legislation, however, I do not support the inclusion of the non-germane and unnecessary prohibition on Internet Gaming. I am strongly opposed to the inclusion of this language and long felt that Congress does not have a comprehensive understanding of the complexities of this issue. It is based on this lack of knowledge that I introduced H.R. 5474, The Internet Gambling Study Commission Act. It is imperative that Congress fully understand the facts of internet gaming before coming to any rash decisions. The purpose of my bill is:

To establish a commission to study issues posed by the continued spread and growth of interstate commerce with respect to Internet gambling.

Although U.S. federal and state governments insist that online gambling is illegal, in reality it is thriving. There is a huge disconnect between current government policy and reality.

Millions of U.S. residents gamble online every day without the protection of reliable regulatory structures that ensure age and identity verification, the integrity and fairness of the games, or that responsible gaming policies are followed.

Neither U.S. federal nor state governments receive tax revenues from online gaming.

Disrespect spreads for laws that are neither enforced nor evidently enforceable against an activity that enjoys wide and growing popularity.

The online gaming industry creates no jobs in the United States and American businesses earn no returns from online gambling.

Current inconsistencies in U.S. Internet gambling policy could lead to sanctions by the World Trade Organization (WTO).

Again, Mr. Speaker, I am opposed to this inclusion of this language and look forward to working with my colleagues to enact my legislation, or some similar type of study legislation in the future.

Mr. THOMAS. Mr. Speaker, I am pleased to be here today to advance this important legislation. A few weeks ago, Presidnt Bush gave a speech in which he stated that our intelligence shows that al-Qaeda has two main goals—to destroy our nation physically through attacks such as 9/11; and to pursue a "death by bleeding" strategy in which terrorists destroy us economically. We could protect against al-Qaeda's first goal by shutting down our borders—but by cutting off America's life blood of trade, we would actually be helping al-Qaeda achieve its second goal.

This bill is the right way to protect both our borders and our economy. It utilizes innovative systems to protect our citizens, and it provides new resources along our borders. Through programs such as the Customs-Trade Partnership against Terrorism, we bring the energy and experience of the trade community into our fight against terrorism. These programs, together with the bill's provisions modernizing our international trade data systems, also show that we can facilitate legitimate trade while at the same time providing information to our law enforcement officials to identify and stop threats.

To defeat al-Qaeda and prevent it from achieving its goals of destroying America physically and economically, the Administration, Congress, our citizens in the private sector, and our international partners must work together—and trade cannot be seen as the enemy of security.

I have made it a priority in this bill to ensure that through consultation and cooperative programs, all of these key partners are brought together so that we have the most effective and unified effort we can against terror and for trade.

I congratulate all the Members of this Conference on this bill and look forward to its quick passage.

Mr. KING of New York. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. KING of New York. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 409, noes 2, not voting 21, as follows:

☐ 0032

Mr. BARRETT of South Carolina changed his vote from "no" to "aye."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. JOHNSON of Illinois. Mr. Speaker, on September 29, 2006, I was away from my official duties due to a family mater, and subsequently missed a recorded vote on Rollcall No. 516, on final passage of H.R. 4954, a bill to improve maritime and cargo security through enhanced layered defenses, and for other purposes. Had I been present, I would have voted "aye."

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to a concurrent resolution of the following title:

H. Con. Res. 483. Concurrent resolution providing for a conditional adjournment of the House of Representatives and a conditional recess or adjournment of the Senate.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 5441) "An Act making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2007, and for other purposes.".

FEDERAL AND DISTRICT OF COLUMBIA GOVERNMENT REAL PROPERTY ACT OF 2005

Mr. TOM DAVIS of Virginia. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H.R. 3699) to provide for the sale, acquisition, conveyance, and exchange of certain real property in the District of Columbia to facilitate the utilization, development, and redevelopment of such property, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3699

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal and District of Columbia Government Real Property Act of 2005".

TITLE I—REAL PROPERTY CONVEYANCES BETWEEN THE GENERAL SERVICES ADMINISTRATION AND THE DISTRICT OF COLUMBIA

SEC. 101. EXCHANGE OF TITLE OVER RESERVATION 13 AND CERTAIN OTHER PROPERTIES.

(a) CONVEYANCE OF PROPERTIES.—

(1) IN GENERAL.—On the date on which the District of Columbia conveys to the Administrator of General Services all right, title, and interest of the District of Columbia in the property described in subsection (c), the Administrator shall convey to the District of Columbia all right, title, and interest of the United States in—

(A) U.S. Reservation 13, subject to the conditions described in subsection (b); and

(B) Old Naval Hospital.

(2) PROPERTIES DEFINED.—In this section—

(A) the term "U.S. Reservation 13" means that parcel of land in the District of Columbia consisting of the approximately 66 acres which is bounded on the north by Independence Avenue Southeast, on the west by 19th Street Southeast, on the south by G Street Southeast, and on the east by United States Reservation 343, and being the same land described in the Federal transfer letter of October 25, 2002, from the United States to the District of Columbia, and subject to existing matters of record; and

(B) the term "Old Naval Hospital" means the property in the District of Columbia consisting of Square 948 in its entirety, together with all the improvements thereon.

(b) CONDITIONS FOR CONVEYANCE OF RESERVATION 13.—As a condition for the conveyance of U.S. Reservation 13 to the District of Columbia under this section, the District of Columbia shall agree—

(1) to set aside a portion of the property for the extension of Massachusetts Avenue Southeast and the placement of a potential commemorative work to be established pursuant to chapter 89 of title 40, United States Code, at the terminus of Massachusetts Avenue Southeast (as so extended) at the Anacostia River;

(2) to convey all right, title, and interest of the District of Columbia in the portion set aside under paragraph (1) to the Secretary of the Interior (acting through the Director of the National Park Service) at such time as the Secretary may require, if a commemorative work is established in the manner described in paragraph (1); and

(3) to permit the Court Services and Offender Supervision Agency for the District of Columbia to continue to occupy a portion of the property consistent with the requirements of the District of Columbia Appropriations Act, 2002 (Public Law 107–96; 115 Stat. 931).

(c) DISTRICT OF COLUMBIA PROPERTY TO BE CONVEYED TO THE ADMINISTRATOR.—The property described in this subsection is the real property consisting of Building Nos. 16, 37, 38, 118, and 118–A and related improvements, together with the real property underlying those buildings and improvements, on the West Campus of Saint Elizabeths Hospital, as described in the quitclaim deed of September 30, 1987, by and between the United States and the District of Columbia and recorded in the Office of the Recorder of Deeds of the District of Columbia on October 7, 1987.

(d) LIMITATION ON ENVIRONMENTAL LIABILITY.—Notwithstanding any other provision of law—

(1) the District of Columbia shall not be responsible for any environmental liability, response action, remediation, corrective action, damages, costs, or expenses associated with the property for which title is conveyed to the Administrator of General Services under this section; and

(2) all environmental liability, responsibility, remediation, damages, costs, and expenses as required by applicable Federal, State and local law, including the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9601 et seq.), the Federal Water Pollution Control Act (known as Clean Water Act) (33 U.S.C. 1251 et seq.), the Clean Air Act (42 U.S.C. 7401 et seq.), the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.), the Rivers and Harbors Act (33 U.S.C. 540 et seq.), the Toxic Substances Control Act (15 U.S.C. 2601, et seq.), and the Oil Pollution Act (33 U.S.C. 2701 et seq.) for such property shall be borne by the United States, which shall conduct all environmental activity with respect to such properties, and bear any and all costs and expenses of any such activity.

SEC. 102. TERMINATION OF CLAIMS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the United States is not required to perform, or to reimburse the District of Columbia for the cost of performing, any of the following services:

(1) Repairs or renovations pursuant to section 4(f) of the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act (24 U.S.C. 225b(f); sec. 44–903(f), D.C. Official Code).

(2) Preservation, maintenance, or repairs pursuant to a use permit executed on September 30, 1987, under which the United States (acting through the Secretary of Health and Human Services) granted permission to the District of Columbia to use and occupy portions of the Saint Elizabeths Hospital property known as the "West Campus".

(3) Mental health diagnostic and treatment services for referrals as described in section 9(b) of the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act (24 U.S.C. 225g(b); sec. 44–908(b), D.C. Official Code), but only with respect to services provided on or before the date of the enactment of this Act.

(b) EFFECT ON PENDING CLAIMS.—Any claim of the District of Columbia against the United States for the failure to perform, or to reimburse the District of Columbia for the cost of performing, any service described in subsection (a) which is pending as of the date of the enactment of this Act shall be extinguished and terminated.

TITLE II—STREAMLINING MANAGEMENT OF PROPERTIES LOCATED IN THE DISTRICT OF COLUMBIA

SEC. 201. TRANSFER OF ADMINISTRATIVE JURISDICTION OVER CERTAIN PROPERTIES.

(a) TRANSFER OF ADMINISTRATIVE JURISDICTION FROM DISTRICT OF COLUMBIA TO UNITED STATES.—

(1) IN GENERAL.—Administrative jurisdiction over each of the following properties (owned by the United States and as depicted on the Map) is hereby transferred, subject to the terms in this subsection, from the District of Columbia to the Secretary of the Interior for administration by the Director:.

(A) An unimproved portion of Audubon Terrace Northwest, located east of Linnean Avenue Northwest, that is within U.S. Reservation 402 (National Park Service property).

(B) An unimproved portion of Barnaby Street Northwest, north of Aberfoyle Place Northwest, that abuts U.S. Reservation 545 (National Park Service property).

(C) A portion of Canal Street Southwest, and a portion of V Street Southwest, each of which abuts U.S. Reservation 467 (National Park Service property).

(D) Unimproved streets and alleys at Fort Circle Park located within the boundaries of U.S. Reservation 497 (National Park Service property).

(E) An unimproved portion of Western Avenue Northwest, north of Oregon Avenue Northwest, that abuts U.S. Reservation 339 (National Park Service property).

(F) An unimproved portion of 17th Street Northwest, south of Shepherd Street Northwest, that abuts U.S. Reservation 339 (National Park Service property).

(G) An unimproved portion of 30th Street Northwest, north of Broad Branch Road Northwest, that is within the boundaries of U.S. Reservation 515 (National Park Service property).

(H) Subject to paragraph (2), lands over I-395 at Washington Avenue Southwest.

(I) A portion of U.S. Reservation 357 at Whitehaven Parkway Northwest, previously transferred to the District of Columbia in conjunction with the former proposal for a residence for the Mayor of the District of Columbia.

(2) USE OF CERTAIN PROPERTY FOR MEMORIAL.—In the case of the property for which administrative jurisdiction is transferred under paragraph (1)(H), the property shall be used as the site for the establishment of a memorial to honor disabled veterans of the United States Armed Forces authorized to be established by the Disabled Veterans' LIFE Memorial Foundation by Public Law 106–348 (114 Stat. 1358; 40 U.S.C. 8903 note), except that the District of Columbia shall retain administrative jurisdiction over the subsurface area beneath the site for the tunnel, walls, footings, and related facilities.

(b) TRANSFER OF ADMINISTRATIVE JURISDICTION FROM UNITED STATES TO DISTRICT OF COLUMBIA.—Administrative jurisdiction over the following property owned by the United States and depicted on the Map is hereby transferred from the Secretary to the District of Columbia for administration by the District of Columbia:

(1) A portion of U.S. Reservation 451.

(2) A portion of U.S. Reservation 404.

(3) U.S. Reservations 44, 45, 46, 47, 48, and 49.

(4) U.S. Reservation 251.

(5) U.S. Reservation 8.

(6) U.S. Reservations 277A and 277C.

(7) Portions of U.S. Reservation 470.

(c) EFFECTIVE DATE.—The transfers of administrative jurisdiction under this section shall take effect on the date of the enactment of this Act.

SEC. 202. EXCHANGE OF TITLE OVER CERTAIN PROPERTIES.

(a) CONVEYANCE OF TITLE.—

(1) IN GENERAL.—On the date on which the District of Columbia conveys to the Secretary all right, title, and interest of the District of Columbia in each of the properties described in subsection (b) for use as described in such subsection, the Secretary shall convey to the District of Columbia all right, title, and interest of the United States in each of the properties described in subsection (c).

(2) ADMINISTRATION BY NATIONAL PARK SERVICE.—The properties conveyed by the District of Columbia to the Secretary under this section shall be administered by the Director upon conveyance.

(b) PROPERTIES TO BE CONVEYED TO THE SECRETARY; USE.—The properties described in this subsection and their uses are as follows (as depicted on the Map):

(1) Lovers Lane Northwest, abutting U.S. Reservation 324, for the closure of a one-block long roadway adjacent to Montrose Park.

(2) Needwood, Niagara, and Pitt Streets Northwest, within the Chesapeake and Ohio Canal National Historical Park, for the closing of the rights-of-way now occupied by the Chesapeake and Ohio Canal.

(c) PROPERTIES TO BE CONVEYED TO THE DISTRICT OF COLUMBIA.—The properties described in this subsection are as follows (as depicted on the Map):

(1) U.S. Reservation 17A.

(2) U.S. Reservation 484.

(3) U.S. Reservations 243, 244, 245, and 247.

(4) U.S. Reservations 128, 129, 130, 298, and 299.

(5) Portions of U.S. Reservations 343D and 343E.

(6) U.S. Reservations 721, 722, and 723.

SEC. 203. CONVEYANCE OF UNITED STATES RESERVATION 174.

(a) CONVEYANCE; USE.—If the District of Columbia enacts a final plan for the development of the former Convention Center Site which meets the requirements of subsection (b)—

(1) the Secretary shall convey all right, title, and interest of the United States in U.S. Reservation 174 (as depicted on the Map) to the District of Columbia upon the enactment of such plan; and

(2) the District shall use the property so conveyed in accordance with such plan.

(b) REQUIREMENTS FOR DEVELOPMENT PLAN.—The plan for the development of the former Convention Center Site meets the requirements of this subsection if—

(1) the plan is developed through a public process;

(2) during the process for the development of the plan, the District of Columbia considers at least one version of the plan under which the entire portion of U.S. Reservation 174 which is set aside as open space as of the date of the enactment of this Act shall continue to be set aside as open space (including a version under which facilities are built under the surface of such portion); and

(3) not less than 1¼ acres of the former Convention Center Site are set aside for open space under the plan.

(c) FORMER CONVENTION CENTER SITE DEFINED.—In this section, the "former Convention Center Site" means the parcel of land in the District of Columbia which is bounded on the east by 9th Street Northwest, on the north by New York Avenue Northwest, on the west by 11th Street Northwest, and on the south by H Street Northwest.

SEC. 204. CONVEYANCE OF PORTION OF RFK STADIUM SITE FOR EDUCATIONAL PURPOSES.

Section 7 of the District of Columbia Stadium Act of 1957 (sec. 3-326, D.C. Official Code) is amended by adding at the end the following new subsection:

"(e)(1) Upon receipt of a written description from the District of Columbia of a parcel of land consisting of not more than 15 contiguous acres (hereafter in this subsection referred to as 'the described parcel'), with the longest side of the described parcel abutting one of the roads bounding the property, within the area designated 'D' on the revised map entitled 'Map to Designate Transfer of Stadium and Lease of Parking Lots to the District' and bound by Oklahoma Avenue Northeast, Benning Road Northeast, the Metro line, and Constitution Avenue Northeast, and a long-term lease executed by the District of Columbia that is contingent upon the Secretary's conveyance of the described parcel and for the purpose consistent with this paragraph, the Secretary shall convey all right, title, and interest in the described parcel to the District of Columbia for the purpose of siting, developing, and operating an educational institution for the public welfare, with first preference given to a pre-collegiate public boarding school.

"(2) Upon conveyance under paragraph (1), the portion of the stadium lease that affects the described parcel and all the conditions associated therewith shall terminate, the described parcel shall be removed from the 'Map to Designate Transfer of Stadium and Lease of Parking Lots to the District', and the long-term lease described in paragraph (1) shall take effect immediately.".

TITLE III—POPLAR POINT

SEC. 301. CONVEYANCE OF POPLAR POINT TO DISTRICT OF COLUMBIA.

(a) CONVEYANCE.—Upon certification by the Secretary of the Interior (acting through the Director) that the District of Columbia has adopted a land-use plan for Poplar Point which meets the requirements of section 302, the Director shall convey to the District of Columbia all right, title, and interest of the United States in Poplar Point, in accordance with this title.

(b) WITHHOLDING OF EXISTING FACILITIES AND PROPERTIES OF NATIONAL PARK SERVICE FROM INITIAL CONVEYANCE.—The Director shall withhold from the conveyance made under subsection (a) the facilities and related property (including necessary easements and utilities related thereto) which are occupied or otherwise used by the National Park Service in Poplar Point prior to the adoption of the land-use plan referred to in subsection (a), as identified in such land-use plan in accordance with section 302(c).

SEC. 302. REQUIREMENTS FOR POPLAR POINT LAND-USE PLAN.

(a) IN GENERAL.—The land-use plan for Poplar Point meets the requirements of this section if the plan includes each of the following elements:

(1) The plan provides for the reservation of a portion of Poplar Point for park purposes, in accordance with subsection (b).

(2) The plan provides for the identification of existing facilities and related properties of the National Park Service, and the relocation of the National Park Service to replacement facilities and related properties, in accordance with subsection (c).

(3) Under the plan, at least two sites within the areas designated for park purposes are set aside for the placement of potential commemorative works to be established pursuant to chapter 89 of title 40, United States Code, and the plan includes a commitment by the District of Columbia to convey back those sites to the National Park Service at the appropriate time, as determined by the Secretary.

(4) To the greatest extent practicable, the plan is consistent with the Anacostia Waterfront Framework Plan referred to in section 103 of the Anacostia Waterfront Corporation Act of 2004 (sec. 2-1223.03, D.C. Official Code).

(b) RESERVATION OF AREAS FOR PARK PURPOSES.—The plan shall identify a portion of Poplar Point consisting of not fewer than 70 acres (including wetlands) which shall be reserved for park purposes and shall require such portion to be reserved for such purposes in perpetuity, and shall provide that any person (including an individual or a public entity) shall have standing to enforce the requirement.

(c) IDENTIFICATION OF EXISTING AND REPLACEMENT FACILITIES AND PROPERTIES FOR NATIONAL PARK SERVICE.—

(1) IDENTIFICATION OF EXISTING FACILITIES.—The plan shall identify the facilities and related property (including necessary easements and utilities related thereto) which are occupied or otherwise used by the National Park Service in Poplar Point prior to the adoption of the plan.

(2) RELOCATION TO REPLACEMENT FACILITIES.—

(A) IN GENERAL.—To the extent that the District of Columbia and the Director determine jointly that it is no longer appropriate for the National Park Service to occupy or otherwise use any of the facilities and related property identified under paragraph (1), the plan shall—

(i) identify other suitable facilities and related property (including necessary easements and utilities related thereto) in the District of Columbia to which the National Park Service may be relocated;

(ii) provide that the District of Columbia shall take such actions as may be required to carry out the relocation, including preparing the new facilities and properties and providing for the transfer of such fixtures and equipment as the Director may require; and

(iii) set forth a timetable for the relocation of the National Park Service to the new facilities.

(B) RESTRICTION ON USE OF PROPERTY RESERVED FOR PARK PURPOSES.—The plan may not identify any facility or property for purposes of this paragraph which is located on any portion of Poplar Point which is reserved for park purposes in accordance with subsection (b).

(3) CONSULTATION REQUIRED.—In developing each of the elements of the plan which are required under this subsection, the District of Columbia shall consult with the Director.

SEC. 303. CONVEYANCE OF REPLACEMENT FACILITIES AND PROPERTIES FOR NATIONAL PARK SERVICE.

(a) CONVEYANCE OF FACILITIES AND RELATED PROPERTIES.—Upon certification by the Director that the facilities and related property to which the National Park Service is to be relocated under the land-use plan under this title (in accordance with section 302(c)) are ready to be occupied or used by the National Park Service—

(1) the District of Columbia shall convey to the Director all right, title, and interest in the facilities and related property (including necessary easements and utilities related thereto) to which the National Park Service is to be relocated (without regard to whether such facilities are located in Poplar Point); and

(2) the Director shall convey to the District of Columbia all, right, title, and interest in the facilities and related property which were withheld from the conveyance of Poplar Point under section 301(b) and from which the National Park Service is to be relocated.

(b) RESTRICTION ON CONSTRUCTION PROJECTS PENDING CERTIFICATION OF FACILITIES.—

(1) IN GENERAL.—The District of Columbia may not initiate any construction project with respect to Poplar Point until the Director makes the certification referred to in subsection (a).

(2) EXCEPTION FOR PROJECTS REQUIRED TO PREPARE FACILITIES FOR OCCUPATION BY NATIONAL PARK SERVICE.—Paragraph (1) shall not apply with respect to any construction project required to ensure that the facilities and related property to which the National Park Service is to be relocated under the land-use plan under this title (in accordance with section 302(c)) are ready to be occupied by the National Park Service.

SEC. 304. POPLAR POINT DEFINED.

In this title, "Poplar Point" means the parcel of land in the District of Columbia which is owned by the United States and which is under the administrative jurisdiction of the District of Columbia or the Director on the day before the date of enactment of this Act, and which is bounded on the north by the Anacostia River, on the northeast by and inclusive of the southeast approaches to the 11th Street bridges, on the southeast by and inclusive of Route 295, and on the northwest by and inclusive of the Frederick Douglass Memorial Bridge approaches to Suitland Parkway, as depicted on the Map.

TITLE IV—GENERAL PROVISIONS

SEC. 401. DEFINITIONS.

In this Act, the following definitions apply:

(1) The term "Administrator" means the Administrator of General Services.

(2) The term "Director" means the Director of the National Park Service.

(3) The term "Map" means the map entitled "Transfer and Conveyance of Properties in the District of Columbia", numbered 869/80460, and dated July 2005, which shall be kept on file in the appropriate office of the National Park Service.

(4) The term "Secretary" means the Secretary of the Interior.

SEC. 402. LIMITATION ON ENVIRONMENTAL LIABILITY.

Notwithstanding any other provision of law—

(1) the United States shall not be responsible for any environmental liability, response action, remediation, corrective action, damages, costs, or expenses associated with any property for which title is conveyed to the District of Columbia under this Act or any amendment made by this Act; and

(2) all environmental liability, responsibility, remediation, damages, costs, and expenses as required by applicable Federal, state and local law, including the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9601 et seq.), the Federal Water Pollution Control Act (known as Clean Water Act) (33 U.S.C. 1251 et seq.), the Clean Air Act (42 U.S.C. 7401 et seq.), the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.), the Rivers and Harbors Act (33 U.S.C. 540 et seq.), the Toxic Substances Control Act (15 U.S.C. 2601, et seq.), and the Oil Pollution Act (33 U.S.C. 2701 et seq.) for any such property shall be borne by the District of Columbia, which shall conduct all environmental activity with respect to such properties, and bear any and all costs and expenses of any such activity.

SEC. 403. LIMITATION ON COSTS.

The United States shall not be responsible for paying any costs and expenses incurred by the District of Columbia or any other parties at any time in connection with effecting the provisions of this Act or any amendment made by this Act, including costs and expenses associated with surveys, zoning, land-use processes, transfer taxes, recording taxes, recording fees, as well as the costs associated with the relocation of the National Park Service to replacement facilities required under the land-use plan for Poplar Point described in section 302(c)(2).

SEC. 404. DEADLINE FOR PROVISION OF DEEDS AND RELATED DOCUMENTS.

With respect to each property conveyed under this Act or any amendment made by this Act, the Mayor of the District of Columbia, the Administrator, or the Secretary (as the case may be) shall execute and deliver a quitclaim deed or prepare and record a transfer plat, as appropriate, not later than 6 months after the property is conveyed.

AMENDMENT IN LIEU OF COMMITTEE AMENDMENTS OFFERED BY MR. TOM DAVIS OF VIRGINIA

Mr. TOM DAVIS of Virginia. Mr. Speaker, I offer an amendment in lieu of the amendments reported by the Committees on Government Reform, Energy and Commerce, and Transportation and Infrastructure now printed in the bill.

The Clerk read as follows:

Committee amendment offered by Mr. TOM DAVIS of Virginia:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal and District of Columbia Government Real Property Act of 2006".

TITLE I—REAL PROPERTY CONVEYANCES BETWEEN THE GENERAL SERVICES ADMINISTRATION AND THE DISTRICT OF COLUMBIA

SEC. 101. EXCHANGE OF TITLE OVER RESERVATION 13 AND CERTAIN OTHER PROPERTIES.

(a) CONVEYANCE OF PROPERTIES.—

(1) IN GENERAL.—On the date on which the District of Columbia conveys to the Administrator of General Services all right, title, and interest of the District of Columbia in the property described in subsection (c), the Administrator shall convey to the District of Columbia all right, title, and interest of the United States in—

(A) U.S. Reservation 13, subject to the conditions described in subsection (b); and

(B) Old Naval Hospital.

(2) PROPERTIES DEFINED.—In this section—

(A) the term "U.S. Reservation 13" means that parcel of land in the District of Columbia consisting of the approximately 66 acres which is bounded on the north by Independence Avenue Southeast, on the west by 19th Street Southeast, on the south by G Street Southeast, and on the east by United States Reservation 343, and being the same land described in the Federal transfer letter of October 25, 2002, from the United States to the District of Columbia, and subject to existing matters of record; and

(B) the term "Old Naval Hospital" means the property in the District of Columbia consisting of Square 948 in its entirety, together with all the improvements thereon.

(b) CONDITIONS FOR CONVEYANCE OF RESERVATION 13.—As a condition for the conveyance of U.S. Reservation 13 to the District of Columbia under this section, the District of Columbia shall agree—

(1) to set aside a portion of the property for the extension of Massachusetts Avenue Southeast and the placement of a potential commemorative work to be established pursuant to chapter 89 of title 40, United States Code, at the terminus of Massachusetts Avenue Southeast (as so extended) at the Anacostia River;

(2) to convey all right, title, and interest of the District of Columbia in the portion set aside under paragraph (1) to the Secretary of the Interior (acting through the Director of the National Park Service) at such time as the Secretary may require, if a commemorative work is established in the manner described in paragraph (1);

(3) to permit the Court Services and Offender Supervision Agency for the District of Columbia to continue to occupy a portion of the property consistent with the requirements of the District of Columbia Appropriations Act, 2002 (Public Law 107–96; 115 Stat. 931); and

(4) to develop the property consistent with the Anacostia Waterfront Corporation's Master Plan for Reservation 13 (also known as the Hill East Waterfront).

(c) DISTRICT OF COLUMBIA PROPERTY TO BE CONVEYED TO THE ADMINISTRATOR.—The property described in this subsection is the real property consisting of Building Nos. 16, 37, 38, 118, and 118–A and related improvements, together with the real property underlying those buildings and improvements, on the West Campus of Saint Elizabeths Hospital, as described in the quitclaim deed of September 30, 1987, by and between the United States and the District of Columbia and recorded in the Office of the Recorder of Deeds of the District of Columbia on October 7, 1987.

SEC. 102. TERMINATION OF CLAIMS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the United States is not required to perform, or to reimburse the District of Columbia for the cost of performing, any of the following services:

(1) Repairs or renovations pursuant to section 4(f) of the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act (24 U.S.C. 225b(f); sec. 44–903(f), D.C. Official Code).

(2) Preservation, maintenance, or repairs pursuant to a use permit executed on September 30, 1987, under which the United States (acting through the Secretary of Health and Human Services) granted permission to the District of Columbia to use and occupy portions of the Saint Elizabeths Hospital property known as the "West Campus".

(3) Mental health diagnostic and treatment services for referrals as described in section 9(b) of the Saint Elizabeths Hospital and District of Columbia Mental Health Services Act (24 U.S.C. 225g(b); sec. 44–908(b), D.C. Official Code), but only with respect to services provided on or before the date of the enactment of this Act.

(b) EFFECT ON PENDING CLAIMS.—Any claim of the District of Columbia against the United States for the failure to perform, or to reimburse the District of Columbia for the cost of performing, any service described in subsection (a) which is pending as of the date of the enactment of this Act shall be extinguished and terminated.

TITLE II—STREAMLINING MANAGEMENT OF PROPERTIES LOCATED IN THE DISTRICT OF COLUMBIA

SEC. 201. TRANSFER OF ADMINISTRATIVE JURISDICTION OVER CERTAIN PROPERTIES.

(a) TRANSFER OF ADMINISTRATIVE JURISDICTION FROM DISTRICT OF COLUMBIA TO UNITED STATES.—

(1) IN GENERAL.—Administrative jurisdiction over each of the following properties (owned by the United States and as depicted on the Map) is hereby transferred, subject to the terms in this subsection, from the District of Columbia to the Secretary of the Interior for administration by the Director:

(A) An unimproved portion of Audubon Terrace Northwest, located east of Linnean Avenue Northwest, that is within U.S. Reservation 402 (National Park Service property).

(B) An unimproved portion of Barnaby Street Northwest, north of Aberfoyle Place Northwest, that abuts U.S. Reservation 545 (National Park Service property).

(C) A portion of Canal Street Southwest, and a portion of V Street Southwest, each of which abuts U.S. Reservation 467 (National Park Service property).

(D) Unimproved streets and alleys at Fort Circle Park located within the boundaries of U.S. Reservation 497 (National Park Service property).

(E) An unimproved portion of Western Avenue Northwest, north of Oregon Avenue Northwest, that abuts U.S. Reservation 339 (National Park Service property).

(F) An unimproved portion of 17th Street Northwest, south of Shepherd Street Northwest, that abuts U.S. Reservation 339 (National Park Service property).

(G) An unimproved portion of 30th Street Northwest, north of Broad Branch Road Northwest, that is within the boundaries of U.S. Reservation 515 (National Park Service property).

(H) Subject to paragraph (2), lands over I-395 bounded by Washington Avenue Southwest, 2nd Street Southwest, and the C Street Southwest ramps to I-295.

(I) A portion of U.S. Reservation 357 at Whitehaven Parkway Northwest, previously transferred to the District of Columbia in conjunction with the former proposal for a residence for the Mayor of the District of Columbia.

(2) USE OF CERTAIN PROPERTY FOR MEMORIAL.—In the case of the property for which administrative jurisdiction is transferred under paragraph (1)(H), the property shall be used as the site for the establishment of a memorial to honor disabled veterans of the United States Armed Forces authorized to be established by the Disabled Veterans' LIFE Memorial Foundation by Public Law 106-348 (114 Stat. 1358; 40 U.S.C. 8903 note), except that—

(A) the District of Columbia shall retain administrative jurisdiction over the subsurface area beneath the site for the tunnel, walls, footings, and related facilities;

(B) C Street Southwest shall not be connected between 2nd Street Southwest and Washington Avenue Southwest without the approval of the Architect of the Capitol; and

(C) a walkway shall be included across the site of the memorial between 2nd Street Southwest and Washington Avenue Southwest.

(3) ADDITIONAL TRANSFER.—

(A) IN GENERAL.—Administrative jurisdiction over the parcel bounded by 2nd Street Southwest, the C Street Southwest ramp to I-295, the D Street Southwest ramp to I-395, and I-295 is hereby transferred, subject to the terms in this paragraph, from the District of Columbia as follows:

(i) The northernmost .249 acres is transferred to the Secretary for administration by the Director, who (subject to the approval of the Architect of the Capitol) shall landscape the parcel or use the parcel for special needs parking for the memorial referred to in paragraph (2).

(ii) The remaining portion is transferred to the Architect of the Capitol.

(B) RETENTION OF JURISDICTION OVER SUBSURFACE AREA.—The District of Columbia shall retain administrative jurisdiction over the subsurface area beneath the parcel referred to in subparagraph (A) for the tunnel, walls, footings, and related facilities.

(b) TRANSFER OF ADMINISTRATIVE JURISDICTION FROM UNITED STATES TO DISTRICT OF COLUMBIA.—Administrative jurisdiction over the following property owned by the United States and depicted on the Map is hereby transferred from the Secretary to the District of Columbia for administration by the District of Columbia:

(1) A portion of U.S. Reservation 451.

(2) A portion of U.S. Reservation 404.

(3) U.S. Reservations 44, 45, 46, 47, 48, and 49.

(4) U.S. Reservation 251.

(5) U.S. Reservation 8.

(6) U.S. Reservations 277A and 277C.

(7) Portions of U.S. Reservation 470.

(c) EFFECTIVE DATE.—The transfers of administrative jurisdiction under this section shall take effect on the date of the enactment of this Act.

SEC. 202. EXCHANGE OF TITLE OVER CERTAIN PROPERTIES.

(a) CONVEYANCE OF TITLE.—

(1) IN GENERAL.—On the date on which the District of Columbia conveys to the Secretary all right, title, and interest of the District of Columbia in each of the properties described in subsection (b) for use as described in such subsection, the Secretary shall convey to the District of Columbia all right, title, and interest of the United States in each of the properties described in subsection (c).

(2) ADMINISTRATION BY NATIONAL PARK SERVICE.—The properties conveyed by the District of Columbia to the Secretary under this section shall be administered by the Director upon conveyance.

(b) PROPERTIES TO BE CONVEYED TO THE SECRETARY; USE.—The properties described in this subsection and their uses are as follows (as depicted on the Map):

(1) Lovers Lane Northwest, abutting U.S. Reservation 324, for the closure of a one-block long roadway adjacent to Montrose Park.

(2) Needwood, Niagara, and Pitt Streets Northwest, within the Chesapeake and Ohio Canal National Historical Park, for the closing of the rights-of-way now occupied by the Chesapeake and Ohio Canal.

(c) PROPERTIES TO BE CONVEYED TO THE DISTRICT OF COLUMBIA.—The properties described in this subsection are as follows (as depicted on the Map):

(1) U.S. Reservation 17A.

(2) U.S. Reservation 484.

(3) U.S. Reservations 243, 244, 245, 247, and 248.

(4) U.S. Reservations 128, 129, 130, 298, and 299.

(5) Portions of U.S. Reservations 343D and 343E.

(6) U.S. Reservations 721, 722, and 723.

SEC. 203. CONVEYANCE OF UNITED STATES RESERVATION 174.

(a) CONVEYANCE; USE.—If the District of Columbia enacts a final plan for the development of the former Convention Center Site which meets the requirements of subsection (b)—

(1) the Secretary shall convey all right, title, and interest of the United States in U.S. Reservation 174 (as depicted on the Map) to the District of Columbia upon the enactment of such plan; and

(2) the District shall use the property so conveyed in accordance with such plan.

(b) REQUIREMENTS FOR DEVELOPMENT PLAN.—The plan for the development of the former Convention Center Site meets the requirements of this subsection if—

(1) the plan is developed through a public process;

(2) during the process for the development of the plan, the District of Columbia considers at least one version of the plan under which U.S. Reservation 174 is set aside as public open space as of the date of the enactment of this Act and shall continue to be set aside as public open space (including a version under which facilities are built under the surface of such portion); and

(3) not less than 1¼ acres of the former Convention Center Site are set aside for public open space under the plan.

(c) FORMER CONVENTION CENTER SITE DEFINED.—In this section, the "former Convention Center Site" means the parcel of land in the District of Columbia which is bounded on the east by 9th Street Northwest, on the north by New York Avenue Northwest, on the west by 11th Street Northwest, and on the south by H Street Northwest.

SEC. 204. CONVEYANCE TO ARCHITECT OF THE CAPITOL.

(a) IN GENERAL.—Prior to conveyance of title to U.S. Reservation 13 to the District of Columbia under this Act, the District of Columbia shall convey, with the approval of the Architect of the Capitol and subject to subsections (b) and (c), not more than 12 acres of real property to the Architect of the Capitol.

(b) TITLE HELD BY SECRETARY.—If title to the real property identified for conveyance under subsection (a) is held by the Secretary, not later than 30 days after being notified by the Architect of the Capitol that property has been so identified, the Secretary shall agree or disagree to conveying the interest in such property to the Architect of the Capitol.

(c) REVIEW.—If the Secretary agrees to the conveyance under subsection (b), or if title to the property is held by the District of Columbia, the real property shall be conveyed after a 30-day review period beginning on the date on which notice of the conveyance is received by the Committee on Homeland Security and Governmental Affairs and the Committee on Rules of the Senate and the Committee on Government Reform and the Committee on Transportation and Infrastructure of the House of Representatives.

(d) STUDY.—The Architect of the Capital shall not construct a mail screening facility on any real property conveyed under this section unless each of the following conditions is satisfied:

(1) A study is completed that analyzes—

(A) whether one or more other underutilized, surplus, or excess Federal facilities exist in which such a mail screening facility could be more economically located; and

(B) whether it would be more efficient and economical for the House of Representatives and Senate to share one mail screening facility.

(2) The study is submitted to the relevant committees of Congress.

(3) No fewer than 30 days have lapsed since the date of the submission under paragraph (2).

TITLE III—POPLAR POINT

SEC. 301. CONVEYANCE OF POPLAR POINT TO DISTRICT OF COLUMBIA.

(a) CONVEYANCE.—Upon certification by the Secretary of the Interior (acting through the Director) that the District of Columbia has adopted a land-use plan for Poplar Point which meets the requirements of section 302, the Director shall convey to the District of Columbia all right, title, and interest of the United States in Poplar Point, in accordance with this title.

(b) WITHHOLDING OF EXISTING FACILITIES AND PROPERTIES OF NATIONAL PARK SERVICE FROM INITIAL CONVEYANCE.—The Director shall withhold from the conveyance made under subsection (a) the facilities and related property (including necessary easements and utilities related thereto) which are occupied or otherwise used by the National Park Service until such terms for conveyance are met under section 303.

(c) DEED RESTRICTION FOR PARK PURPOSES.—The deed for the conveyance of Poplar Point provided for in subsection (a) shall include a restriction requiring that 70 acres be maintained for park purposes in perpetuity, as identified in the land use plan required under section 302. Any person (including an individual or public entity) shall have standing to enforce the restriction.

SEC. 302. REQUIREMENTS FOR POPLAR POINT LAND-USE PLAN.

(a) IN GENERAL.—The land-use plan for Poplar Point meets the requirements of this section if the plan includes each of the following elements:

(1) The plan provides for the reservation of a portion of Poplar Point for park purposes, in accordance with subsection (b).

(2) The plan provides for the identification of existing facilities and related properties of

the National Park Service, and the relocation of the National Park Service to replacement facilities and related properties, in accordance with subsection (c).

(3) Under the plan, at least two sites within the areas designated for park purposes are set aside for the placement of potential commemorative works to be established pursuant to chapter 89 of title 40, United States Code, and the plan includes a commitment by the District of Columbia to convey back those sites to the National Park Service at the appropriate time, as determined by the Secretary.

(4) To the greatest extent practicable, the plan is consistent with the Anacostia Waterfront Framework Plan referred to in section 103 of the Anacostia Waterfront Corporation Act of 2004 (sec. 2–1223.03, D.C. Official Code).

(b) RESERVATION OF AREAS FOR PARK PURPOSES.—The plan shall identify a portion of Poplar Point consisting of not fewer than 70 acres (including wetlands) which shall be reserved for park purposes and shall require such portion to be reserved for such purposes in perpetuity.

(c) IDENTIFICATION OF EXISTING AND REPLACEMENT FACILITIES AND PROPERTIES FOR NATIONAL PARK SERVICE.—

(1) IDENTIFICATION OF EXISTING FACILITIES.—The plan shall identify the facilities and related property (including necessary easements and utilities related thereto) which are occupied or otherwise used by the National Park Service in Poplar Point prior to the adoption of the plan.

(2) RELOCATION TO REPLACEMENT FACILITIES.—

(A) IN GENERAL.—To the extent that the District of Columbia and the Director determine jointly that it is no longer appropriate for the National Park Service to occupy or otherwise use any of the facilities and related property identified under paragraph (1), the plan shall—

(i) identify other suitable facilities and related property (including necessary easements and utilities related thereto) in the District of Columbia to which the National Park Service may be relocated;

(ii) provide that the District of Columbia shall take such actions as may be required to carry out the relocation, including preparing the new facilities and properties and providing for the transfer of such fixtures and equipment as the Director may require; and

(iii) set forth a timetable for the relocation of the National Park Service to the new facilities.

(B) RESTRICTION ON USE OF PROPERTY RESERVED FOR PARK PURPOSES.—The plan may not identify any facility or property for purposes of this paragraph which is located on any portion of Poplar Point which is reserved for park purposes in accordance with subsection (b).

(3) CONSULTATION REQUIRED.—In developing each of the elements of the plan which are required under this subsection, the District of Columbia shall consult with the Director.

SEC. 303. CONVEYANCE OF REPLACEMENT FACILITIES AND PROPERTIES FOR NATIONAL PARK SERVICE.

(a) CONVEYANCE OF FACILITIES AND RELATED PROPERTIES.—Upon certification by the Director that the facilities and related property to which the National Park Service is to be relocated under the land-use plan under this title (in accordance with section 302(c)) are ready to be occupied or used by the National Park Service—

(1) the District of Columbia shall convey to the Director all right, title, and interest at no cost in the facilities and related property (including necessary easements and utilities related thereto) to which the National Park Service is to be relocated (without regard to whether such facilities are located in Poplar Point); and

(2) the Director shall convey to the District of Columbia all right, title, and interest in the facilities and related property which were withheld from the conveyance of Poplar Point under section 301(b) and from which the National Park Service is to be relocated.

(b) RESTRICTION ON CONSTRUCTION PROJECTS PENDING CERTIFICATION OF FACILITIES.—

(1) IN GENERAL.—The District of Columbia may not initiate any construction project with respect to Poplar Point until the Director makes the certification referred to in subsection (a).

(2) EXCEPTION FOR PROJECTS REQUIRED TO PREPARE FACILITIES FOR OCCUPATION BY NATIONAL PARK SERVICE.—Paragraph (1) shall not apply with respect to any construction project required to ensure that the facilities and related property to which the National Park Service is to be relocated under the land-use plan under this title (in accordance with section 302(c)) are ready to be occupied by the National Park Service.

SEC. 304. POPLAR POINT DEFINED.

In this title, "Poplar Point" means the parcel of land in the District of Columbia which is owned by the United States and which is under the administrative jurisdiction of the District of Columbia or the Director on the day before the date of enactment of this Act, and which is bounded on the north by the Anacostia River, on the northeast by and inclusive of the southeast approaches to the 11th Street bridges, on the southeast by and inclusive of Route 295, and on the northwest by and inclusive of the Frederick Douglass Memorial Bridge approaches to Suitland Parkway, as depicted on the Map.

TITLE IV—GENERAL PROVISIONS

SEC. 401. DEFINITIONS.

In this Act, the following definitions apply:

(1) The term "Administrator" means the Administrator of General Services.

(2) The term "Director" means the Director of the National Park Service.

(3) The term "Map" means the map entitled "Transfer and Conveyance of Properties in the District of Columbia", numbered 869/80460, and dated July 2005, which shall be kept on file in the appropriate office of the National Park Service.

(4) The term "park purposes" includes landscaped areas, pedestrian walkways, bicycle trails, seating, opensided shelters, natural areas, recreational use areas, and memorial sites reserved for public use.

(5) The term "Secretary" means the Secretary of the Interior.

SEC. 402. LIMITATION ON COSTS.

The United States shall not be responsible for paying any costs and expenses, other than costs and expenses related to or associated with environmental liabilities or cleanup actions provided under law, which are incurred by the District of Columbia or any other parties at any time in connection with effecting the provisions of this Act or any amendment made by this Act.

SEC. 403. AUTHORIZATION OF PARTIES TO ENTER INTO CONTRACTS.

An officer or employee of the United States or the District of Columbia may contract for payment of costs or expenses related to any properties which are conveyed or for which administrative jurisdiction is transferred under this Act or any amendment made by this Act.

SEC. 404. NO EFFECT ON COMPLIANCE WITH ENVIRONMENTAL LAWS.

Nothing in this Act or any amendment made by this Act may be construed to affect or limit the application of or obligation to comply with any environmental law, including section 120(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620(h)).

SEC. 405. CONGRESSIONAL REPORTS.

(a) DISTRICT OF COLUMBIA.—Not later than January 31 of each year, the Mayor of the District of Columbia shall report to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Government Reform, the Committee on Energy and Commerce, the Committee on Resources, and the Committee on Transportation and Infrastructure of the House of Representatives on the use and development during the previous year of land for which title is conveyed to the District of Columbia and land for which administrative jurisdiction is transferred to the District of Columbia pursuant to this Act.

(b) COMPTROLLER GENERAL.—The Comptroller General shall report periodically to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Government Reform, the Committee on Energy and Commerce, the Committee on Resources, and the Committee on Transportation and Infrastructure of the House of Representatives on—

(1) the use and development during the previous 2 years of land for which title is conveyed and land for which administrative jurisdiction is transferred pursuant to this Act; and

(2) if applicable, how such use and development complies with the Anacostia Waterfront Framework Plan referred to in section 103 of the Anacostia Waterfront Corporation Act of 2004 (sec. 2–1223.03, D.C. Official Code).

(c) SUNSET.—This section shall expire 10 years after the date of enactment of this Act.

SEC. 406. TREATMENT AS PROPERTIES TRANSFERRED TO ARCHITECT OF THE CAPITOL AS PART OF CAPITOL BUILDINGS AND GROUNDS.

Upon transfer to the Architect of the Capitol of title to, or administrative jurisdiction over, any property pursuant to this Act, the property shall be a part of the United States Capitol Grounds and shall be subject to sections 9, 9A, 9B, 9C, 14, and 16(b) of the Act entitled "An Act to define the area of the United States Capitol Grounds, to regulate the use thereof, and for other purposes" (relating to the policing of the United States Capitol Grounds) and sections 5101 to 5107 and 5109 of title 40, United States Code (relating to prohibited acts within the United States Capitol Grounds).

SEC. 407. DEADLINE FOR PROVISION OF DEEDS AND RELATED DOCUMENTS.

With respect to each property conveyed under this Act or any amendment made by this Act, the Mayor of the District of Columbia, the Administrator, or the Secretary (as the case may be) shall execute and deliver a quitclaim deed or prepare and record a transfer plat, as appropriate, not later than 6 months after the property is conveyed.

SEC. 408. OMB REPORT.

(a) OMB REPORT ON SURPLUS AND EXCESS PROPERTY.—Not later than 6 months after the date of enactment of this Act, the Director of the Office of Management and Budget shall submit a report on surplus and excess government property to Congress including—

(1) the total value and amount of surplus and excess government property, provided in

the aggregate, as well as totaled by agency; and

(2) a list of the 100 most eligible surplus government properties for sale and how much they are worth.

(b) DATA SHARING AMONG FEDERAL AGENCIES.—Not later than 6 months after the date of enactment of this Act, the Director of the Office of Management and Budget shall—

(1) develop and implement procedures requiring Federal agencies to share data on surplus and excess Federal real property under the jurisdiction of each agency; and

(2) report to Congress on the development and implementation of such procedures.

Mr. TOM DAVIS of Virginia (during the reading). Mr. Speaker, I ask unanimous consent that the amendment in lieu of the amendments reported by the Committees on Government Reform, Energy and Commerce, and Transportation and Infrastructure be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

The amendment in lieu of the amendments reported by the Committees on Government Reform, Energy and Commerce, and Transportation and Infrastructure was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CORRECTING ENROLLMENT OF H.R. 6233, SAFETEA-LU AMENDMENTS ACT

Mr. YOUNG of Alaska. Mr. Speaker, I ask unanimous consent for the immediate consideration of the concurrent resolution (H. Con. Res. 491) providing for a correction to the enrollment of H.R. 6233.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alaska?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 491

Resolved by the House of Representatives (the Senate concurring), That, in the enrollment of the bill H.R. 6233, the Clerk of the House of Representatives shall make the following correction: Strike section 201(m)(3)(D).

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

VETERANS' COMPENSATION COST-OF-LIVING ADJUSTMENT ACT OF 2006

Mr. BUYER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2562) to increase, effective as of December 1, 2006, the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2562

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Veterans' Compensation Cost-of-Living Adjustment Act of 2006".

SEC. 2. INCREASE IN RATES OF DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION.

(a) RATE ADJUSTMENT.—Effective on December 1, 2006, the Secretary of Veterans Affairs shall increase, in accordance with subsection (c), the dollar amounts in effect on November 30, 2006, for the payment of disability compensation and dependency and indemnity compensation under the provisions specified in subsection (b).

(b) AMOUNTS TO BE INCREASED.—The dollar amounts to be increased pursuant to subsection (a) are the following:

(1) WARTIME DISABILITY COMPENSATION.—Each of the dollar amounts under section 1114 of title 38, United States Code.

(2) ADDITIONAL COMPENSATION FOR DEPENDENTS.—Each of the dollar amounts under sections 1115(1) of such title.

(3) CLOTHING ALLOWANCE.—The dollar amount under section 1162 of such title.

(4) DEPENDENCY AND INDEMNITY COMPENSATION TO SURVIVING SPOUSE.—Each of the dollar amounts under subsections (a) through (d) of section 1311 of such title.

(5) DEPENDENCY AND INDEMNITY COMPENSATION TO CHILDREN.—Each of the dollar amounts under sections 1313(a) and 1314 of such title.

(c) DETERMINATION OF INCREASE.—

(1) PERCENTAGE.—Except as provided in paragraph (2), each dollar amount described in subsection (b) shall be increased by the same percentage as the percentage by which benefit amounts payable under title II of the Social Security Act (42 U.S.C. 401 et seq.) are increased effective December 1, 2006, as a result of a determination under section 215(i) of such Act (42 U.S.C. 415(i)).

(2) ROUNDING.—Each dollar amount increased under paragraph (1), if not a whole dollar amount, shall be rounded to the next lower whole dollar amount.

(d) SPECIAL RULE.—The Secretary of Veterans Affairs may adjust administratively, consistent with the increases made under subsection (a), the rates of disability compensation payable to persons under section 10 of Public Law 85–857 (72 Stat. 1263) who have not received compensation under chapter 11 of title 38, United States Code.

SEC. 3. PUBLICATION OF ADJUSTED RATES.

The Secretary of Veterans Affairs shall publish in the Federal Register the amounts specified in section 2(b), as increased under that section, not later than the date on which the matters specified in section 215(i)(2)(D) of the Social Security Act (42 U.S.C. 415(i)(2)(D)) are required to be published by reason of a determination made under section 215(i) of such Act during fiscal year 2007.

SEC. 4. TECHNICAL AMENDMENT.

Section 1311 of title 38, United States Code, is amended by redesignating the second subsection (e) (as added by section 301(a) of the Veterans Benefits Improvement Act of 2004 (Public Law 108–454; 118 Stat. 3610)) as subsection (f).

Mr. BUYER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (S. 2562) the Veterans' Compensation Cost-of-Living Adjustment Act of 2006, and move for its immediate consideration in the House.

Mr. Speaker, the annual cost-of-living adjustment, S. 2562, as amended, is one of the more important bills the Congress considers each year since it was first provided in 1976. Briefly, S. 2562, as amended, would authorize a cost-of-living adjustment—COLA—to VA's disability compensation effective December 1, 2006, as well as publication of the rates.

The Congressional Budget Office currently projects the COLA will be 2.2 percent. However, it may be higher or lower depending on changes in the Consumer Price Index. The exact percentage will be calculated in the next few weeks and the COLA will go into effect on December 1, 2006.

The cost of providing a COLA is assumed in the Administration's budget baseline. Likewise, H.R. 5385, the Military Quality of Life and Veterans Affairs, and Related Agencies Appropriations Bill, 2007, fully funds this year's veterans COLA.

Mr. Speaker, I would like to thank Ranking Member LANE EVANS for all his hard work and cooperation this Congress in his advocacy for veterans on this and other legislation. It has been truly a pleasure to work with him as Ranking Member this Congress. I do not think he ever forgot the core values shared by his family, and taught by his parents where he grew up. These same core values were polished by the United States Marine Corps. He embraced them and they were enduring and they helped guide him here in his service to country. Mr. EVANS will be missed on this Committee and in the House.

Mr. Speaker, I hope all Members will support this bill and I ask unanimous consent to revise and extend my remarks and that all Members may have 5 legislative days in which to revise and extend their remarks, and include extraneous material on S. 2562, as amended.

Mr. MILLER of Florida. Mr. Speaker, I rise in strong support of S. 2562, as amended, the Veterans' Compensation Cost-of-Living Adjustment Act of 2006. The House passed a similar measure, H.R. 4843, on July 26, 2006 by a vote of 408–0.

Each year since 1976, Congress has provided a cost-of-living adjustment (COLA) to the benefits provided to our Nation's disabled veterans and their survivors.

The purpose of the annual COLA is to ensure that Department of Veterans Affairs (VA) cash benefits retain their purchasing power and are not eroded by inflation.

The House and Senate Veterans' Affairs Committees are following their longstanding practice of setting the COLA by reference to the yet-to-be-determined Social Security increase.

In February 2006, the Administration projected a 2.6 percent increase; as of May 2006, the Congressional Budget Office is projecting the COLA to be 2.2 percent. However, it may be higher or lower depending on changes in the Consumer Price Index. The exact percentage will be calculated in the next few weeks and the COLA will go into effect on December 1, 2006.

As Chairman BUYER indicated, this is one of the more important pieces of legislation the Veterans' Committee brings to the floor each year, and I urge my colleagues to support the bill.

Ms. BERKLEY. Mr. Speaker, I would like to thank Chairman BUYER, Ranking Member EVANS, and our Subcommittee Chairman MILLER, as well as Senator CRAIG and Senator AKAKA on the Senate side, for moving forward on this bill. Passage of this legislation will assure most of the men and women currently receiving benefits from the Department of Veterans Affairs (VA) receive a well-deserved increase in benefits as of January 1, 2007.

We should never allow the compensation received by veterans, disabled in service to the Nation to erode in value as the cost of living rises. S. 2562, the Veterans' Compensation Cost-of-Living Adjustment Act of 2006, will help our service-disabled veterans and their survivors maintain the purchasing power of their benefits in 2007 by providing for an increase in benefits.

This bill will help most, but not all, VA beneficiaries maintain the value of their benefits. Once again, I am disappointed that the bill does not include funding to allow our widows, widowers and their children to receive a cost-of-living adjustment for their supplemental transitional benefits as provided in the House passed bill. As a result, the value of the $250 transitional benefit paid to surviving spouses with minor children for their first 2 years of eligibility will erode in value in 2006.

Mr. Speaker, if we can find millions to maintain the tax cuts provided to our wealthiest citizens, surely we can find an additional five or ten dollars a month to maintain the transitional benefit paid to our surviving spouses with children at its current purchasing power. Our Gold Star Wives, husbands whose wives have perished in our current conflict and their children deserve better.

No amount of money can adequately compensate our veterans for the loss of their health, or families for the loss of a loved one. It is important that the benefits, which our Nation provides to partially compensate for such losses, do not lose their value over time.

In 2005, over 29,000 veterans in Nevada received disability compensation or pension payments from VA and thousands of Nevada family members and survivors receive VA cash benefits.

The action we are taking here today will help the Nevada veterans and families who depend on these VA benefits.

I understand the urgency of passing this COLA so that veterans and their dependents will receive a timely increase in VA benefits. I hope that before this Congress recesses for the year, the increase in DIC benefits and other provisions passed by the House and Senate can be enacted into law. Those who have served this Nation, deserve no less.

S. 2562 will receive my full support and it deserves the support of all Members of this House.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

NORTH KOREA NONPROLIFERATION ACT OF 2006

Mr. ROYCE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 3728) to promote nuclear nonproliferation in North Korea, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. KUCINICH. Reserving the right to object, Mr. Speaker, this bill will not bring relief to the millions of North Koreans who are suffering every day. It is estimated that 2 million people have died of starvation in North Korea. More than 13 million North Koreans suffer from malnutrition, including 60 percent of all children, the worst rate among 110 developing nations surveyed by the World Health Organization and UNICEF. North Korea had an infant mortality rate of 2 percent in 2000. South Korea's infant mortality rate for the same year by contrast was 0.5 percent. There are chronic shortages of food and fuel already. Heavy military spending, estimated at between one-quarter and one-third of gross domestic product, has constrained and skewed economic development. North Korea has a per capita GDP of $1,000. South Korea's per capita GDP by contrast is $18,000.

Despite significant inflows of international assistance over the past decade, harsh economic and political conditions have caused tens of thousands of persons to flee the country.

The better approach the U.S. should be supporting is the approach adhered to by the South Koreans. They have taken the approach of unification as a way to pull North Korea into the modern world. It worked for East Germany, and it can work for North Korea again. The downside of this approach is that missile defense advocates will have to create another false reason to spend in excess of $9 billion a year on the failed system. I am confident they can conjure up some new enemy and protect defense industry profits.

Now, it is true, Mr. Speaker, that North Korea has declared that it possesses nuclear weapons, this according to a report by Dr. Hans Blix that was presented and remarked on in a congressional subcommittee the other day. He said this report says it has not provided evidence of this claim. It has violated the NPT and twice declared its withdrawal from the treaty.

It operates a nuclear fuel cycle consisting of a 5-megawatt research reactor, which uses natural uranium; a reprocessing facility which produces plutonium; and various uranium processing and fuel fabrication facilities. The United States has claimed that the country also has an enrichment capability.

In 2005 Pakistan's President Musharaff stated that the A.Q. Khan network had provided centrifuge machines and designs to North Korea, although the scale of its enrichment capability remains unknown. North Korea has not signed the Comprehensive Nuclear Test Ban Treaty.

Now, under a section called "What Must be Done" in the report that Dr. Blix delivered, the Weapons of Mass Destruction Commission makes many specific and detailed recommendations. The most important of them are summarized as, number one, to agree on general principles of action; number two, to reduce the danger of present arsenals, no use by states, no access by terrorists; number three, to prevent proliferation, no new weapons systems, no new possessors; number four, work towards outlawing all weapons of mass destruction once and for all, including preventing an arms race in space by prohibiting any stationing or use of weapons in outer space. I would recommend this to the reading by Members of this Congress who are concerned about nuclear proliferation.

Finally, Mr. Speaker, I think that it is time that this Congress calls for the abolition of all nuclear weapons. That, in effect, is what the Nonproliferation Treaty is all about. It is true that the use of nuclear weapons threatens the future of mass public, cities, nations, civilization itself, and, indeed, all of life on Earth. Nuclear weapons in the arsenal of any country undermine the security of all countries, including the United States. Under the Treaty of Nonproliferation of Nuclear Weapons, the NPT, all nuclear weapon states are committed to good-faith negotiations to achieve nuclear disarmament.

On June 6, 2006, the Chair and Vice Chair of the National Commission on Terrorist Attacks Upon the United States, commonly known as the 9/11 Commission, cited as their number one concern for the security of the United States the availability of nuclear weapons materials for attack upon the American people. The 2006 report of the Weapons of Mass Destruction Commission concludes: "So long as any state has nuclear weapons, others will want to use them. So long as any weapons remain, there is a risk that they will one day be used by design or accident. Any such use will be catastrophic. The model nuclear weapons convention circulated by the United Nations demonstrates the feasibility of achieving the global elimination of nuclear weapons."

So, Mr. Speaker, I am once again asking this House to call for the abolition of all nuclear weapons and to ask that the House call upon the President to initiate multilateral negotiations for the abolition of nuclear weapons. We can start by opening up direct negotiations with North Korea for the purpose of getting their participation, and I think that is a much better approach than the legislation that we are about to send over to the President.

And for that purpose, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. WU. Mr. Speaker, reserving the right to object, I would like to inquire of the chairman what his reasoning is in moving this bill when he was so supportive of selling fissile materials to India, which, like North Korea, is not a signatory to the Comprehensive Nuclear Test Ban Treaty and, unlike North Korea, has a demonstrated nuclear capability.

Now, I was only a kid then, but I remember when we sold F-15s to Iran so that Iran could offset Soviet power in South Asia. And because we sold F-15s and other things to Iran, we wound up selling chemical weapon precursor materials to Iraq to offset Iran in the Middle East. Now we are told that we should sell fissile materials to India, which would free up Indian nuclear reactors to produce many more nuclear weapons for the Indian nuclear weapons program as an offset to Chinese power in Asia.

Mr. Chairman, if we do this with India, what it would do is encourage the Chinese to increase their nuclear arsenal, and I submit to you that we are one of the potential targets of that enhanced Chinese nuclear arsenal.

☐ 0045

Even more worrisome is that this Indian nuclear build-up would accelerate further the Pakistani nuclear build-up, which my friend from Ohio referred to a moment ago.

And while I have strong confidence in the stability of the Indian government, and in the stability of Indian democracy; I have much less faith in the stability of the Pakistani government, and of Pakistani democracy, and of the Pakistani government's ability to keep under control those nuclear weapons which it already has, and more of which it would be encouraged to build because of the sale of fissile material to India.

And in a military coup, if there is a military coup in Pakistan, which there has been multiple times in the last 20 years, we should be very, very concerned about the stability of not only south Asia, but of the world.

I think the chairman, as one of the subcommittee chairs of the International Relations Committee would surely agree with me that rather than sanctioning nonsignatory States, approving of nonsignatory States to those nonproliferation treaties, the better course of action is to respect these international agreements and to immediately bring to the Senate a total ban on nuclear testing, and comprehensive treaties concerning nuclear proliferation.

I would be happy to yield to the chairman for his response.

Mr. ROYCE. Yes. Let me explain to the gentleman that, first, our efforts with respect to India is to bring India into the nonproliferation regime.

Mr. WU. Reclaiming my time. Is not ultimately the big picture effect of permitting India to go forward with this basically blowing out of the water the entire treaty system with which we have tried to restrain nuclear nonproliferation in this world? I yield to the gentleman.

Mr. ROYCE. Mr. Aliberti supports, and the United Nations Security Council resolution supports actions by member States in response to North Korea pulling out of the nonproliferation agreement, to go forward and put these types of prohibitions on the transfer of technologies to North Korea that would allow it to develop these types of weapon systems.

North Korea is a proliferator, India is not.

Mr. WU. Reclaiming my time. Is the gentleman citing something from the United Nations? I yield to the the gentleman.

Mr. ROYCE. I am citing the United Nations Security Council resolution adopted on July 15, 2006.

Mr. WU. Reclaiming my time. Is this the Congress of the United States or are we abdicating responsibility to the United Nations?

Mr. ROYCE. I am pointing out that all member States, in response to the actions by North Korea to develop and to proliferate weapons of mass destruction such as long-range ballistic missiles and atomic weapons, have attempted to curtail the transfer of technologies to this State, since it has adopted a very aggressive posture and thus has become a direct threat to the United States and to our allies in northeast Asia.

Mr. WU. Reclaiming my time. It is a very short question, amenable to a "yes" or "no" answer. Is this not the United States Congress? Are we not abdicating responsibility under your comment to the United Nations rather than taking responsibility ourselves?

Mr. ROYCE. We are taking responsibility because North Korea is a direct threat to the United States.

Mr. WU. I mean taking responsibility for Indian nuclear weapons, which will be produced as a result of our sale of fissile materials to India.

Mr. ROYCE. Our attempt with respect to India is to bring India into the MPT regime and lead it to peaceful purposes of nuclear energy and away from producing weapons outside of an MPT regime.

Mr. WU. I thank the gentleman and yield to the question from Ohio.

Mr. KUCINICH. I want to say that the gentleman from Oregon's point is well taken. As someone who engaged in the debate over India, I am familiar with the concerns that he has raised. And there are concerns about the ability of the United States Congress, which is being asked to on one hand ascent to the proliferation of one group, and deny the proliferation of another, for this Congress to be in a position of trying to help this country have a consistent program of nuclear nonproliferation, which I know is exactly the point that the gentleman relates to.

In addition to that, the Weapons of Mass Destruction Commission has said that North Korea ought to be given the same kinds of guarantees that is in the agreed framework of 1994 that they are not going to be attacked. This is the same thing that has been recommended that is done with Iran as well. So we do not need to get into these nuclear crises and say that people are threats if we engage them in talks that work towards nonproliferation.

This group made recommendations, Mr. WU, that I am sure you are familiar with. They said that a negotiation with North Korea should aim at a verifiable agreement, including as a principle element, North Korea's manifestation of its adherence to the MPT and accepting the 1997 additional protocol, as well as the revival and a legal confirmation of the commitments made in the 1992 joint declaration on the denuclearization of the Korean Peninsula.

And notably saying that neither North nor South Korea shall have nuclear weapons nor nuclear reprocessing and uranium enrichment facilities, and fuel cycle services should be assured through international agreements. The agreements should also cover biological and chemical weapons as well as the comprehensive nuclear test ban treaty, thus making the Korean Peninsula a zone free of weapons of mass destruction.

So what Mr. WU is asking about, and which I certainly support, is some consistency in policy. And it beings with Congress since we are being called upon, as Mr. WU stated, to either agree or disagree with these policies.

I want to thank the gentleman for raising that, because this is the appropriate time to raise that.

Mr. WU. Reclaiming my time. I thank the gentleman. I want to make clear that I am certainly not defending the North Korea regime. But, I am calling into question the actions of this Congress and the strong advocacy of the chairman in favor of a proposed treaty with India which would have the result of starting a nuclear arms race or accelerating a nuclear arms race in south Asia and, just as importantly, which in the big picture blows out the whole treaty system for restraining the proliferation of nuclear weapons.

I would be happy to yield to the gentleman.

Mr. ROYCE. With respect to the strategy to bring India into the MPT, in our considered judgment, and the judgment of the majority of the Members of this House, it is a wiser policy to bring them into the tent, to get their cooperation and to focus on using nuclear energy to produce energy for peaceful purposes in India.

Now, with respect to North Korea, it remains a very real threat with over a million troops, possibly several nuclear weapons, and most importantly, the propensity to export these types of weapons. This is not something we have seen from India in the past.

But North Korea is an exporter of its missiles and of its technology. And for that very reason, the goal of this legislation is to put a prohibition on the transfer to North Korea of the types of technologies that could be used by North Korea in order to further develop its weapons systems. It is that simple.

It is the same with respect to Iran. It is the same with respect to Syria. Now, we are putting in place a provision stating that North Korea shall not have the ability to receive from the United States or any companies in the United States this type of technology. U.S. companies will not be able to be licensed to export this kind of technology. They will be sanctioned if they attempt it.

Mr. WU. I share with the gentleman the concerns about the export of nuclear weapons from North Korea. The point of my earlier comments is not about export from India, but because of our actions with respect to India, that we would be encouraging and accelerating the Pakistani nuclear program from which there is a real risk of exportation. I yield to the gentleman from Ohio.

Mr. KUCINICH. This is a discussion that should have been happening a long time ago in this Congress. Because no one really talked that deeply about the implication of our decision granting India the ability to gain access to fissile materials, in terms of the potential dialectic of conflict which develops between the proliferator, Pakistan, and India gaining the fissile materials.

Mr. WU has raised the point that is really central to the discussion about how do we protect world peace. How do we stop some kind of a conflagration from breaking out on the subcontinent if we do not have a consistent policy?

I mean, we know as was pointed out in the WMDC report here, that in February of 1999, India and Pakistan signed a memorandum of understanding on a variety of nuclear confidence building measures.

Both countries, however, this report says: "Are continuing their efforts to develop and produce nuclear weapons and their delivery vehicles." So, Mr. WU is right on in raising this. And this is the exact time this has to be raised, even though it is almost one in the morning on Saturday. I yield.

Mr. WU. Reclaiming my time. I would be happy to yield to the chairman.

Mr. ROYCE. Yes. In response, I do not think the opposition is to this bill. But I understand the concept, and the argument relating to the nonproliferation regime as you have laid it out.

But I think we have an honest disagreement about the approach to India and whether or not that will strengthen the regime. And that is what is playing itself out in debate here.

From my standpoint, the proliferation issues have been between Pakistan and North Korea, whereas India has shown itself resistant to proliferation, and has shown a willingness to look at a way to be brought into the fold of the MPT. So I saw that earlier initiative to bring India within the framework agreement and with the MPT as a positive step forward.

And with respect to this legislation, basically what it does is to apply exactly the same system of forced compliance on companies that now exist with respect to Iran and Syria.

That is to say, that in terms of getting a licensing agreement or having the ability to ship technologies into North Korea that could be used for the purpose of eventually developing those weapon systems, that will be prohibited. That is the intent of the legislation. And I thank the gentleman for yielding.

Mr. WU. Reclaiming my time. Unlike the gentleman from Ohio, the dialectic of proliferation is way beyond me.

□ 0100

I do recognize a bad idea when I see one, and encouraging India by selling it nuclear fissile materials, which would ultimately result in the increase of Chinese nuclear weapons and Pakistani nuclear weapons, is surely that bad idea.

There are times when we are all in the minority at one time or another. There was 68 of us who voted against approving the treaty to sell nuclear fissile materials to India. On that vote, I would have been happy to have been a minority of one because I do believe that it would add fuel to the fire of nuclear proliferation in south Asia in that it basically does blow out of the water any hope we have of treaty constraints on the proliferation of nuclear weapons.

I want to make it clear in this RECORD and for history that the actions of this administration in nuclear proliferation or trying to contain nuclear proliferation have been patently irresponsible. This administration has underfunded the Nunn-Lugar legislation which seeks to purchase fissile materials, which would be otherwise available to terrorists on the open market.

This administration has proposed a treaty with India that would sell India nuclear fissile materials that would result in a nuclear arms race between India and China and India and Pakistan, and Pakistan is not a stable country. There is great danger of the leakage of nuclear weapons from Pakistan. You heard earlier from another speaker about Pakistani aid to nuclear proliferation elsewhere in the world.

Let the record show that if or when a mushroom cloud ever erupts over an American city, it will be traced back to this unwise vote in the United States Congress and to a bone-headed policy of this administration with respect to treaty rights, to Nunn-Lugar and this sale of nuclear materials to India.

Mr. Speaker, I yield to the gentleman from Ohio.

Mr. KUCINICH. Mr. Speaker, if I could make just one last comment in support of what the gentleman is saying, I am sure many are familiar that in the Hindu religion Brahma, the Creator; and Vishnu, the Preserver; and Shiva, the Destroyer exist simultaneously and represent the multiplicity of God.

We here are called upon to determine which of the principles, Creator, Preserver or Destroyer, shall work through each of us. As the gentleman from Oregon says, if we continue to pursue nuclear proliferation as embodied in the nuclear agreement with India, we will be open to the principles of destruction. At this moment when world tensions are rising and violence is cycling higher, we need to take the direction of preserving the peace and creating a new opening through the abolition of all nuclear weapons.

Again, I want to thank my friend from Oregon for raising this point at this propitious moment.

The SPEAKER pro tempore. The Chair would like to inquire as to whether or not the gentleman from Oregon is planning on withdrawing his reservation or not.

Mr. WU. Mr. Speaker, I simply wanted to yield to the chairman for any further comments he might have.

Mr. ROYCE. I am going to yield back, and I appreciate the gentleman yielding.

Mr. WU. Mr. Speaker, I appreciate the chairman's forbearance and the Speaker's forbearance.

Ms. BORDALLO. Mr. Speaker, I rise today in strong support of S. 3728, the North Korea Non-Proliferation Act of 2006. This legislation would amend the Iran and Syria Nonproliferation Act to extend the provisions of the Act to North Korea. Enactment of this legislation would impose sanctions on persons who transfer such weapons and related goods and technology to and from North Korea. This legislation would authorize sanctions that are equivalent to those required under current law for persons who are found to transfer such items to and from Iran and Syria. S. 3728 also calls on the international community to act in accordance with the provisions of United Nations Security Council Resolution 1695 (UNSCR 1695), which prevents member states from conducting missile and related transfers to or from North Korea in reaction to the tests. This bill is timely and important. It deserves steadfast support from this body.

North Korea's nuclear ambitions are destabilizing. Its recent missile tests on July 5, 2006, were conducted against the urging of the international community. Ultimately, this recent missile test was a failure. But that act, taken together with its previous tests and North Korea's intransigent behavior during international talks on this matter, is indicative of the recalcitrant nature of the North Korean regime. North Korea is in fact continuing to pursue its nuclear and ballistic missiles programs in spite of diplomatic efforts by the international community and in contradiction with North Korea's previous commitments. North Korea's pursuit of nuclear weapons and ballistic missiles technology and capabilities is an emerging danger to the national security of the United States.

North Korea's recent missile test also disappointed the international community. On July 16, 2006, the United Nations Security Council adopted UNSCR 1695 in order to prevent United Nations member states from conducting missile and related technology transfers to North Korea in reaction to the tests. UNSCR 1695 also requires North Korea to suspend all activities related to its ballistic missile program and return to the negotiating table. Enactment of S. 3728 would strengthen U.S. laws, authorizing the U.S. government to investigate, sanction, and prevent proliferation efforts made by or on behalf of the North Korean regime by government or private entities.

But sanctions alone will not ultimately solve this problem. Robust and constant diplomatic pressure on the North Korean regime must continue to be applied by the United States in coordination with the United Nations and other countries. North Korea and its pursuit of nuclear weapons and delivery vehicles is not only the United States' problem. I am encouraged by the fact that China, Japan, South Korea, and Russia remain desirous of a peaceful resolution to this problem. The Six Party Talks involving these countries and North Korea should continue.

More progress should be made toward constraining North Korea's ability to develop nuclear weapons and ballistic missile technology and capabilities while we continue diplomatic efforts to encourage that government to abandon its nuclear ambitions. S. 3728, the North Korea Non-Proliferation Act of 2006, will help to achieve those goals.

Mr. LANTOS. Mr. Speaker, I rise in strong support of S. 3728, the North Korea Non-Proliferation Act of 2006.

Mr. Speaker, Americans around the nation celebrated the Fourth of July this year by watching fireworks, hosting backyard barbecues, and spending time with their families. The North Koreans chose to observe America's birthday in a far more threatening fashion: they test launched a series of missiles, one of which was potentially capable of hitting American soil with a nuclear payload.

Pyongyang's destabilizing actions not only angered Washington, but set off alarm bells in Seoul, Tokyo, Beijing and Moscow, our partners in the Six Party Talks. The UN Security Council quickly adopted a resolution requiring all Member States to prevent overseas sales of North Korea missiles, and to stop transfers of any financial resources to North Korea related to its missile or WMD programs.

The legislation before the House today implements this groundbreaking Security Council Resolution. By adding North Korea to the Iran and Syria Nonproliferation Act, the United States will take concrete actions against foreign firms that engage in missile- and WMD-related trade with North Korea.

The Executive Branch will now be forced to review every six months all credible intelligence regarding commercial transfers to North Korea of items applicable for the development of weapons of mass destruction and ballistic missiles.

On the basis of these reviews, the President must sanction foreign firms that engaged in such trade, or explain to Congress why he has not done so.

This is Congressional direction at its best. We must remember that the Iran and Syria Nonproliferation Act, which this amends, forced the Executive Branch to take actions against firms engaging in illicit trade with both Iran and Syria, actions that the President would otherwise not have taken. Dozens of firms have been sanctioned for such Iran- and Syria-related trade in the years since, focusing global attention on their activities and on their governments.

The regime of Kim Jong-Il poses as much of a threat to international security as Iran and Syria. Common sense requires us to undertake the same review and sanctions for Pyongyang's activities and their commercial co-conspirators as we do for Iran and Syria.

Mr. Speaker, the North Korean leadership was hoping to gain the world's attention with its July missile launches. Pyongyang succeeded. But rather than forcing the world to bring a new tray of goodies to North Korea, the tests unified the world in opposition to North Korea's destabilizing actions, and brought about a new round of UN-approved sanctions.

Mr. Speaker, with the right package of carrots and sticks, I remain optimistic that the U.S. and its Six Party allies can negotiate a comprehensive and verifiable deal with North Korea. I hope that by July 4th next year, we will have such an agreement in hand. Until then, we must bring our laws in line with the recent UN Security Council resolution, and act decisively to undermine North Korea's missile and WMD programs.

Mr. Speaker, I strongly support this legislation, and am gratified that it has passed this House.

Mr. WU. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 3728

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "North Korea Nonproliferation Act of 2006".

SEC. 2. STATEMENT OF POLICY.

(a) In view of —

(1) North Korea's manifest determination to produce missiles, nuclear weapons, and other weapons of mass destruction and to proliferate missiles, in violation of international norms and expectations; and

(2) United Nations Security Council Resolution 1695, adopted on July 15, 2006, which requires all Member States, in accordance with their national legal authorities and consistent with international law, to exercise vigilance and prevent—

(A) missile and missile-related items, materials, goods, and technology from being transferred to North Korea's missile or weapons of mass destruction programs; and

(B) the procurement of missiles or missile-related items, materials, goods, and technology from North Korea, and the transfer of any financial resources in relation to North Korea's missile or weapons of mass destruction programs,

it should be the policy of the United States to impose sanctions on persons who transfer such weapons, and goods and technology related to such weapons, to and from North Korea in the same manner as persons who transfer such items to and from Iran and Syria currently are sanctioned under United States law.

SEC. 3. AMENDMENTS TO IRAN AND SYRIA NONPROLIFERATION ACT.

(a) REPORTING REQUIREMENTS.—Section 2 of the Iran and Syria Nonproliferation Act (Public Law 106–178; 50 U.S.C. 1701 note) is amended—

(1) in the heading, by inserting "**, NORTH KOREA,**" after "**IRAN**"; and

(2) in subsection (a)—

(A) in the matter preceding paragraph (1)—

(i) by striking "Iran, or" and inserting "Iran,"; and

(ii) by inserting after "Syria" the following: ", or on or after January 1, 2006, transferred to or acquired from North Korea" after "Iran"; and

(B) in paragraph (2), by inserting ", North Korea," after "Iran".

(b) CONFORMING AMENDMENTS.—Such Act is further amended—

(1) in section 1, by inserting ", North Korea," after "Iran";

(2) in section 5(a), by inserting ", North Korea," after "Iran" both places it appears; and

(3) in section 6(b)—

(A) in the heading, by inserting ", NORTH KOREA," after "IRAN"; and

(B) by inserting ", North Korea," after "Iran" each place it appears.

SEC. 4. SENSE OF CONGRESS ON INTERNATIONAL COOPERATION.

Congress urges all governments to comply promptly with United Nations Security Council Resolution 1695 and to impose measures on persons involved in such proliferation that are similar to those imposed by the United States Government pursuant to the Iran, North Korea, and Syria Nonproliferation Act (Public Law 106–178; 50 U.S.C. 1701 note), as amended by this Act.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. FATTAH (at the request of Ms. PELOSI) for today until 3:30 p.m.

Mr. JONES of North Carolina (at the request of Mr. BOEHNER) for today from 3:30 p.m. and for the balance of the day on account of personal reasons.

Mr. WOLF (at the request of Mr. BOEHNER) for today until 1:00 p.m. on account of attending a funeral.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 1131. An act to authorize the exchange of certain Federal land within the State of Idaho, and for other purposes; to the Committee on Resources.

S. 1288. An act to authorize the Secretary of the Interior to enter into cooperative agreements to protect natural resources of units of the National Park System through collaborative efforts on land inside and outside of units of the National Park System; to the Committee on Resources.

S. 1346. An act to direct the Secretary of the Interior to conduct a study of maritime sites in the State of Michigan; to the Committee on Resources.

S. 1829. An act to repeal certain sections of the Act of May 26, 1936, pertaining to the Virgin Islands; to the Committee on Resources.

S. 1913. An act to authorize the Secretary of the Interior to lease a portion of the Dorothy Buell Memorial Visitor Center for use as a visitor center for the Indiana Dunes National Lakeshore, and for other purposes; to the Committee on Resources.

S. 4001. An Act to designate certain land in New England as wilderness for inclusion in the National Wilderness Preservation system and certain land as a National Recreation Area, and for other purposes; to the Committee on Resources in addition to the Committee on Agriculture for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

ENROLLED BILL SIGNED

Mrs. Haas, Clerk of the House, reported and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 5631. An act making appropriations for the Department of Defense for the fiscal year ending September 30, 2007, and for other purposes.

Mrs. Haas, Clerk of the House, also reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker pro tempore, Mr. TOM DAVIS of Virginia:

H.R. 318. An act to authorize the Secretary of the Interior to study the suitability and feasibility of designating Castle Nugent Farms located on St. Croix, Virgin Islands, as a unit of the National Park System, and for other purposes.

H.R. 326. An act to amend the Yuma Crossing National Heritage Area, and for other purposes.

H.R. 562. An act to authorize the Government of Ukraine to establish a memorial on Federal land in the District of Columbia to honor the victims of the manmade famine that occurred in Ukraine in 1932–1933.

H.R. 1728. An act to authorize the Secretary of the Interior to study the suitability and feasibility of designating portions of Ste. Genevieve County in the State of Missouri as a unit of the National Park System, and for other purposes.

H.R. 2107. An act to amend Public Law 104–329 to modify authorities for the use of the National Law Enforcement Officers Memorial Maintenance Fund, and for other purposes.

H.R. 2720. An act to further the purposes of the Reclamation Projects Authorization and Adjustment Act of 1992 by directing the Secretary of the Interior, acting through the Commissioner of Reclamation, to carry out an assessment and demonstration program to control salt cedar and Russian olive, and for other purposes.

H.R. 3443. An act to direct the Secretary of the Interior to convey certain water distribution facilities to the Northern Colorado Water Conservancy District.

H.R. 4841. An act to amend the Ojito Wilderness Act to make a technical correction. Examined and found truly enrolled September 29, 2006.

SENATE ENROLLED BILLS SIGNED

The SPEAKER announced his signature to enrolled bills of the Senate of the following titles:

S. 203. An act to reduce temporarily the royalty required to be paid for sodium produced, to establish certain National Heritage Areas, and for other purposes.

S. 3187. An act to designate the Post Office located at 5755 Post Road, East Greenwich, Rhode Island, as the "Richard L. Cevoli Post Office".

S. 3613. An act to designate the facility of the United States Postal Service located at 2951 New York Highway 43 in Averill Park, New York, as the "Major George Quamo Post Office Building".

S. 3930. An act to authorize trial by military commission or violations of the law of war, and for other purposes.

ADJOURNMENT

Mr. ROYCE. Mr. Speaker, pursuant to House Concurrent Resolution 483, 109th Congress, I move that the House do now adjourn.

The motion was agreed to.

The SPEAKER pro tempore. Pursuant to House Concurrent Resolution 483, 109th Congress, the House stands adjourned until 2 p.m. on Thursday, November 9, 2006.

Thereupon (at 1 o'clock and 5 minutes a.m.), pursuant to House Concurrent Resolution 483, the House adjourned until Thursday, November 9, 2006, at 2 p.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

9716. A letter from the Regulatory Analyst, Department of Agriculture, transmitting the Department's final rule—United States Standards for Soybeans (RIN: 0580–AA90) received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9717. A letter from the Congressional Review Coordinator, APHIS, Department of Agriculture, transmitting the Department's final rule—Low Pathogenic Avian Influenza; Voluntary Control Program and Payment of Indemnity [Docket No. APHIS–2005–0109] (RIN: 0579–AB99) received September 27, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9718. A letter from the Congressional Review Coordinator, APHIS, Department of Agriculture, transmitting the Department's final rule—Pine Shoot Beetle Host Material From Canada [Docket No. 00–073–3] (RIN: 0579–AB79) received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9719. A letter from the Director, Regulations Policy and Mgmt. Staff, Department of Health and Human Services, transmitting the Department's final rule—Listing of Color Additives Exempt From Certification; Mica-Based Pearlescent Pigments; Confirmation of Effective Date [Docket No. 1995C–0790] received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9720. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Bentazon, Carboxin, Dipropyl Isocinchomeronate, Oil of Lemongrass (Oil of Lemon) and Oil of Orange, Tolerance Actions [EPA–HQ–OPP–2006–0056; FRL–8093–5] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9721. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Flufenoxuron; Pesticide Tolerance [EPA–HQ–OPP–2005–0543; FRL–8092–3] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9722. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Metconazole; Pesticide Tolerance [EPA–HQ–OPP–2005–0016; FRL–8085–2] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9723. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—p-Chlorophenoxyacetic acid, Glyphosate, Difenzoquat, and Hexazinone; Tolerance Actions [EPA–HQ–OPP–2006–2006–0036; FRL–8089–6] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9724. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Pendimethalin; pesticide Tolerance [EPA–HQ–OPP–2006–0645; FRL–8092–6] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9725. A letter from the Principal Deputy Associate Administrator, Environmental

Protection Agency, transmitting the Agency's final rule—Quizalofop ethyl; Pesticide Tolerance [EPA-HQ-OPP-2006-0204; FRL-8094-5] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9726. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Flumetsulam; Pesticide Tolerance [EPA-HQ-OPP-2006-0670; FRL-8092-7] received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9727. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Soybean Oil; Ethoxylated; Tolerance Exemption [EPA-HQ-OPP-2006-0480; FRL-8092-4] received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9728. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Acetic Acid Ethenyl Ester, Polymer with 1-Ethenyl-2-Pyrrolidinone; Tolerance Exemption [EPA-HQ-OPP-2006-0368; FRL-8092-5] received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

9729. A letter from the Principal Deputy Under Secretary, Personnel and Readiness, Department of Defense, transmitting the Department's report on the Critical Skills Retention Bonus (CSRB) program, pursuant to 37 U.S.C. 323(h) Public Law 106-398, section 633 (a); to the Committee on Armed Services.

9730. A letter from the Principal Deputy Under Secretary for Personnel and Readiness, Department of Defense, transmitting authorization of Rear Admiral (lower half) Wayne G. Shear to wear the insignia of the grade of rear admiral in accordance with title 10, United States Code, section 777; to the Committee on Armed Services.

9731. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter on the approved retirement of Lieutenant General Garry R. Trexler, United States Air Force, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

9732. A letter from the Under Secretary for Acquisition and Technology, Department of Defense, transmitting the Department's report on the plan for screening military mail for chemical, biological, radiological, and explosive hazards, pursuant to Public Law 109-163, section 1071; to the Committee on Armed Services.

9733. A letter from the Chief Counsel/FEMA, Department of Homeland Security, transmitting the Department's final rule—Suspension of Community Eligibility [Docket No. FEMA-7943] received September 27, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

9734. A letter from the Assistant Secretary, Securities and Exchange Commission, transmitting the Commission's final rule—Mutual Fund Redemption Fees [Release No. IC-27504; File No. S7-06-06; File No. 04-512] (RIN:3235-AJ51) received September 28, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Financial Services.

9735. A letter from the Secretary, Department of Education, transmitting the Department's final rule—Title I—Improving the Academic Achievement of the Disadvantaged (RIN: 1810-AA97) received September 27, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

9736. A letter from the Secretary, Department of Health and Human Services, transmitting the Department's report on the Community Food and Nutrition Program for Fiscal Year 2003; to the Committee on Education and the Workforce.

9737. A letter from the Interim Director, Pension Benefit Guaranty Corporation, transmitting the Corporation's final rule—Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits—received September 28, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

9738. A letter from the Secretary, Department of Energy, transmitting the Department's report summarizing trends and shortages in the workforce of electric power and transmission engineers, in accordance with section 1101(b)(1) of the Energy Policy Act of 2005; to the Committee on Energy and Commerce.

9739. A letter from the Secretary, Department of Health and Human Service, transmitting a copy of a draft bill entitled, "United States Public Health Service Commissioned Corps Improvement Act of 2006"; to the Committee on Energy and Commerce.

9740. A letter from the Director, Regulations and Mgmt. Staff, Department of Health and Human Services, transmitting the Department's final rule—Blood Vessels Recovered With Organs and Intended for Use in Organ Transplantation; Withdrawal [Docket No. 2006N-0051] received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9741. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Emission Reductions to Meet Phase II of the Nitrogen Oxides (NO_X) SIP Call [EPA-R03-OAR-2006-0728; FRL-8225-1] received September 26, 2006, pursuant to 5 U.S.C. 801 (a)(1)(A); to the Committee on Energy and Commerce.

9742. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Additional NO_X Emission Reductions to Support the Philadelphia-Trenton-Wilmington One-Hour Ozone Nonattainment Areas, and Remaining NO_X SIP Call Requirements [EPA-R03-OAR-2005-0549; FRL-8224-9] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9743. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Approval and Promulgation of Air Quality Implementation Plans; Texas; Revisions to Control Volatile Organic Compound Emissions; Volatile Organic Compound Control for El Paso, Gregg, Nueces, and Victoria Counties and the Ozone Standard Nonattainment Areas of Beaumont/Port Arthur, Dallas/Fort Worth, and Houston/Galveston [EPA-R06-OAR-2005-TX-0015; FRL-8224-7] received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9744. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule National Ambient Air Quality Standards for particulate Matter [EPA-HQ-OAR-2001-0017; FRL-8225-3] (RIN: 2060-AI44) received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9745. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule National Priorities List, Final Rule [EPA-HQ-SFUND-2006-0255, EPA-HQ-SFUND-2006-0252, EPA-HQ-SFUND-2006-0247, EPA-HQ-SFUND-2006-250, EPA-HQ-SFUND-2004-0012; FRL-8223-3] (RIN: 2050-AD75) received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9746. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Protection of Stratospheric Ozone; Listing of Substitutes for Ozone-Depleting Substances—Fire Supression and Explosion Protection [EPA-HQ-OAR-2005-0087; FRL-8223-4] (RIN: 2060-AM24) received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9747. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Protection of Stratospheric Ozone: Notice 21 for Significant New Alternatives Policy Program [EPA-HQ-OAR-2003-0118; FRL-8223-9] (RIN: 2060-AG12) received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9748. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Withdrawal of Certain Chemical Substances from Preliminary Assessment Information Reporting and Health and Safety Data Reporting Rules [EPA-HQ-OPPT-2005-0014 and EPA-HQ-OPPT-2005-0055; FRL-8096-5] (RIN: 2070-AB08) received September 26, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9749. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule Interim Revisions to CERLA Section 122(h) Past Cost Recovery and Peripheral Party Cashout Model Administrative Agreements to Clarify Contribution Rights and Protection Under Section 113(f)—received September 29, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

9750. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting notification that effective August 20, 2006 the 15% Danger Pay Allowance for East Timor was terminated based on improved security conditions, pursuant to 5 U.S.C. 5928; to the Committee on International Relations.

9751. A letter from the Chairman and Co-Chairman, Congressional-Executive Commission on China, transmitting the Commission's annual report for 2006, pursuant to Public Law 106-286; to the Committee on International Relations.

9752. A letter from the Director, Defense Security Cooperation, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06-66, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Japan for defense articles and services; to the Committee on International Relations.

9753. A letter from the Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of

Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–71, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Turkey for defense articles and services; to the Committee on International Relations.

9754. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–60, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Chile for defense articles and services; to the Committee on International Relations.

9755. A letter from the Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–58, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Jordan for defense articles and services; to the Committee on International Relations.

9756. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–51, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Jordan for defense articles and services; to the Committee on International Relations.

9757. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–48, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Korea for defense articles and services; to the Committee on International Relations.

9758. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–54, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Greece for defense articles and services; to the Committee on International Relations.

9759. A letter from the Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–73, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Iraq for defense articles and services; to the Committee on International Relations.

9760. A letter from the Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–72, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Iraq for defense articles and services; to the Committee on International Relations.

9761. A letter from the Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–64, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Netherlands for defense articles and services; to the Committee on International Relations.

9762. A letter from the Deputy Director, Defense Security cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–52, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Saudi Arabia for defense articles and services; to the Committee on International Relations.

9763. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–33, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to Finland for defense articles and services; to the Committee on International Relations.

9764. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–70, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to United Kingdom for defense articles and services; to the Committee on International Relations.

9765. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–67, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to Brazil for defense articles and services; to the Committee on International Relations.

9766. A letter from the Deputy Director, Defense Security Cooperation Agency, transmitting pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, Transmittal No. 06–65, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Colombia for defense articles and services; to the Committee on International Relations.

9767. A letter from the Acting Assistant Secretary for Fish and Wildlife and Parks, Department of the Interior, transmitting the Department's final rule—Migratory Bird Hunting; Migratory Bird Hunting Regulations on Certain Federal Indian Reservation and Ceded Lands for the 2006-07 Early Season (RIN: 1018-AU42) received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9803. A letter from the Acting Assistant Secretary for Fish and Wildlife and Parks, Department of the Interior, transmitting the Department's final rule—Migratory Bird Hunting; Final Frameworks for Late-Season Migratory Bird Hunting Regulations (RIN: 1018-AU42) received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9804. A letter from the Acting Assistant Secretary for Fish and wildlife and Parks, Department of the Interior, transmitting the Department's final rule—Migratory Bird Hunting; Late Season and Bag and Possession Limits for Certain Migratory Game Birds (RIN: 1018-AU42) received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9805. A letter from the Deputy Assistant Secretary, Land and Minerals Management, Department of the Interior, transmitting the Department's final rule—Alaska Native Veteran Allotments [WO-350-1410-00-24 1A] (RIN: 1004-AD60) received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9806. A letter from the Acting Director, Office of Surface Mining, Department of the Interior, transmitting the Department's final rule Pennsylvania Regulatory Program [PA-146-FOR] received September 13, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9807. A letter from the Acting Director, Office of Surface Mining, Department of the Interior, transmitting the Department's final rule— Colorado Abandoned Mine Land Reclamation Plan [CO-031-FOR] received September 13, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9808. A letter from the Acting Director, Office of Surface Mining, Department of the Interior, transmitting the Department's final rule Kentucky Regulatory Program [KY-250-FOR] received September 13, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9809. A letter from the Director, Office of Surface Mining, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Atlantic Highly Migratory Species; Atlantic Bluefin Tuna Fisheries [I.D. 081006A] received September 20, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9810. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 of the Gulf of Alaska [Docket No. 060216044; 6044-01; I.D. 090606B] received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9811. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Chiniak Gully Research Area for Vessels Using Trawl Gear [Docket No.060216044-6044-01; I.D. 090506C] received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9812. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Economic Exclusive Zone Off Alaska; Shallow-Water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 090606C] received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9813. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Economic Exclusive Zone Off Alaska; Deep-Water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 090106A] received September 20, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9814. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries in the Western Pacific; Omnibus Amendment for the Bottomfish and Seamount Groundfish Fisheries, Crustacean Fisheries, and Precious Coral Fisheries [Docket No. 060606149-6234-02; I.D. 052506A] (RIN: 064S-AT95) received September 25, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9815. A letter from the Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Chiniak Gully Research Area for Vessels Using Trawl Gear [Docket No. 060216044-6044-01; I.D. 090506C] received September 21, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9816. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 of the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 082906C] received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9817. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Great South Channel Scallop Dredge Exemption [Docket No. 060621176-6219-02; I.D. 052306A] (RIN: 0648-AU50) received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9818. A letter from the Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Using Trawl Gear in Bering Sea and Aleutian Islands Management Area [Docket No. 060216045-6045-01; I.D. 083006D] received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9819. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 082906D] received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9820. A letter from the Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Closure of the Quarter III Fishery for Loligo Squid [Docket No. 051209329-6046-02; I.D. 082806A] received September 18, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9821. A letter from the Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Closure of the Closed Area II Scallop Access Area to Scallop Vessels [Docket No. 060314069-6069-01; I.D. 083106A] received September 20, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9822. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Rock Sole, Flathead Sole, and "Other Flatfish" by Vessels Using Trawl Gear in Bering Sea and Aleutian Islands Management Area [Docket No. 060216045-6045-01; I.D. 080806B] received September 15, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9823. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—List of Fisheries for 2006 [Docket No. 060330090-6212-02; I.D. 021506B] received September 8, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9824. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfer [Docket No. 051128313-6029-02; I.D.081506B] received September 8, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9825. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 082506A] received September 8, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9826. A letter from the Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Non-American Fisheries Act Crab Vessels Catching Pacific Cod for Processing by the Inshore Component in the Central and Westerm Regulatory Areas of the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 081606A] received September 8, 2006, pursuant to 5 U.S.C. 801 (a)(1)(A); to the Committee on Resources.

9827. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Economic Exclusive Zone Off Alaska; Shallow-Water Species Fishery by Vessels Using Trawl Gear in the Gulf of Alaska [Docket No. 060216044-01; I.D. 082506D] received September 8, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9828. A letter from the Acting Director, Office of Sustainable Fisheries, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 of the Gulf of Alaska [Docket No. 060216044-6044-01; I.D. 082506C] received September 8, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9829. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel in the Bering Sea and Aleutian Islands Management Area [Docket No. 060216045-6045-01; I.D. 081406C] received September 6, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9830. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pollock in the Bering Sea and Aleutian Islands [Docket No. 060216045-6045-01; I.D. 081506A] received September 6, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9831. A letter from the Deputy Assistant Administrator for Regulatory Services, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Northeast (NE) Multispecies Fishery; Framework Adjustment 43 [Docket No. 060606151-628-01; I.D. 051906A] received September 6, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9832. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for Maine [Docket No. 051104293-5344-02; I.D. 082406A] received September 14, 2006, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

9833. A letter from the Assistant Attorney General, Department of Justice, transmitting the report on the Administration of the Foreign Agents Registration Act for the six months ending December 31, 2005, pursuant to 22 U.S.C. 621; to the Committee on the Judiciary.
